Message from the Bureau Chief

Since the landmark 1960 Master Plan for Higher Education, California policymakers have established access to affordable, high-quality postsecondary education as a statewide priority. As the needs of California students and employers have grown and changed, so has the landscape of institutions offering postsecondary educational programs. An increasing number of students are choosing to attend private institutions. Thus, the Bureau’s role in ensuring the quality of these institutions has become vitally important for California’s students, California’s workforce, California’s employers, and California’s economy.

I believe that strategic planning is an essential component to the Bureau’s success. By identifying and prioritizing our activities and objectives in a public document, we ensure that, across the Bureau, we are working toward the same clear goals and measurable outcomes, to the benefit of students, institutions, and the State.

I am pleased to present the 2012-2015 Bureau Strategic Plan.

Laura N. Metune
Bureau Chief
Oversight History

Beginning January 1, 1998, regulation of private postsecondary educational institutions was carried out by the Bureau for Private Postsecondary and Vocational Education (BPPVE), within the Department of Consumer Affairs. On June 30, 2007, following criticisms of inadequate student protection and overly burdensome regulations, the Legislature and the Governor allowed the BPPVE to sunset. Between July 1, 2007, and December 31, 2009, private postsecondary educational institutions existed in a regulatory dark period.

Enacted January 1, 2010, Assembly Bill 48 (Chapter 310, Statutes of 2009) established the California Private Postsecondary Education Act (the Act) and created the Bureau for Private Postsecondary Education (“Bureau”) to provide oversight of private postsecondary educational institutions operating in California. Specifically, the Act directs the Bureau to:

- Create a structure that provides an appropriate level of oversight, including approval of private postsecondary educational institutions and programs;
- Establish minimum operating standards for California private postsecondary educational institutions to ensure quality education for students;
- Provide students a meaningful opportunity to have their complaints resolved;
- Ensure that private postsecondary educational institutions offer accurate information to prospective students on school and student performance, thereby promoting competition between institutions that rewards educational quality and employment success; and
- Ensure that all stakeholders have a voice and are heard in the operations of and rulemaking process by the Bureau.

Bureau Background

While the Act became effective on January 1, 2010, it was not until passage of the 2010-11 Budget Act, on October 8, 2010, that the Bureau was appropriated funding to support its operations. An administrative hiring freeze significantly impacted the Bureau’s ability to fill positions. By January of 2011, the Bureau had filled 18 of approximately 60 authorized positions. In March of 2011, the Bureau’s Licensing Unit achieved full staffing. By January of 2012, the Bureau’s Enforcement Division was operative. In April of 2012, a Bureau Chief was appointed by Governor Brown. In May of 2012, with the hiring of the Quality of Education Unit, the Bureau achieved full staffing.

Today, with an authorized staff of 57, the Bureau processes licensing applications, conducts compliance inspections, and responds to complaints for the approximately 1,876 approved institutional locations throughout California, including 1,235 main campus locations, 287 branch locations, and 354 satellite locations. The Bureau also actively investigates and combats
unlicensed activity, administers the Student Tuition Recovery Fund, and conducts outreach and education activities for private postsecondary educational institutions and students within the state.

**Bureau Mission Statement**

The Bureau exists to promote and protect the interests of students and consumers: (i) through the effective and efficient oversight of California’s private postsecondary educational institutions, (ii) through the promotion of competition that rewards educational quality and employment outcomes, (iii) through proactively combating unlicensed activity, and (iv) by resolving student complaints in a manner that benefits both the complaining student and future students.

The Bureau strives to be the national leader in regulating private postsecondary educational institutions by setting standards in licensing, compliance, enforcement and outreach that ensure students are protected and approved institutions provide quality education and training programs.
