2010 School Performance Fact Sheet Frequently Asked Questions And Answers

Q. What is the 2011 School Performance Fact Sheet?

A: The 2011 School Performance Fact Sheet (the "2011 SPFS") is a document that all private postsecondary and vocational schools in California, including Integrity College of Health are required to provide to each prospective student. The 2011 SPFS discloses certain information relating to the employment or "placement" of Integrity College of Health graduates.

Q. How is "Placement" defined?

A. For purposes of the 2011 SPFS, Integrity College of Health considers graduates to be placed if they obtained full-time, part-time, or freelance in a paid position after graduation in their field of study at Integrity College of Health or in a related field, whether the placement was facilitated by Integrity College of Health or not.

- Full-time: employment for at least five working days after graduation on a work schedule of 32 hours or more per week. These jobs are often in the court system, or in a deposition firm, or in a CART position, or in a related field.
- Part-time: employment for at least five working days after graduation on a work schedule of 15 hours or more per week. These jobs are often pro tem (per diem).

To be considered employment in a related field, a student must be using at least 20% of their core program skills obtained through their education at Integrity College of Health in their job duties. Essentially, employment in a related field involves the use of a material portion of a graduate's skills included in the graduate's program curriculum in a material portion of the graduate's employment duties.

Integrity College of Health does not consider any graduate as having obtained employment for whom Integrity College of Health does not possess evidence, documented in the graduate's placement file, showing that the graduate obtained employment in an occupation for which Integrity College of Health offered instruction to the graduate. Integrity College of Health only tracks the initial employment of graduates, not their continued employment status.

Q. Tell me about the Licensure/Examination Pass Rate.

School programs that lead to employment for which passage of a state licensing examination is required are required by state law to annually report the license examination passage rates for the immediate preceding two years to the bureau and publish the passage rates in the SPFS.

These statistics are calculated by dividing the number of graduates who pass the examination by the number of graduates who take the licensing examination the first time that the examination is available after completion of the educational program.

Q. How do I get more information if I have additional questions?

A. To obtain further information regarding the 2011 School Performance Fact Sheet, Integrity College of Health's policies relating to graduate employment, or Integrity College of Health's placement statistics, please contact Integrity College of Health, Director by telephone at (626) 808-0215.
