- ¹ “Number of Students Who Began Program” means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- ² “Number of Graduates” is the number of students who have completed the program within 100% of the published program length.
- ³ “Graduates available for employment” means the number of graduates minus the number of graduates unavailable for employment. “Graduates unavailable for employment” means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- ⁴ “Graduates Employed in the Field” means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.
- ⁵ “Placement Rate” is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- NA - “This program is new. Therefore, the number of students who graduate, the number of students who are placed, or the starting salary you can earn after finishing the educational program are unknown at this time. Information regarding general salary and placement statistics may be available from government sources or from the institution, but is not equivalent to actual performance data.”

Salary and Wage Information (continued)

Mean Wage is the estimated total wages for an occupation divided by its weighted survey employment. The wage is provided for hourly and annual wage rates.

Most employees are paid at an hourly rate by their employers and may work less than or more than 40 hours per week. The **Mean Annual Wage** is calculated by multiplying the mean hourly wage by a "year-round, full-time" hours figure of 2,080 hours per year (52 weeks by 40 hours). Thus, the annual wage estimates may not represent the actual annual pay received by the employee.

** Salary figures were taken from data collected and provided by the California Employment Development Department's (EDD) Occupational Employment Statistics (OES) 2011 survey. The wages have all been updated to the first quarter of 2012 by applying the US Department of Labor's Employment Cost Index to the 2011 wages. Occupations are classified using the Standard Occupational Classification (SOC) codes. For access to wage data, additional information and details of the survey methodology, see the Overview of the OES Survey on the California EDD website at <http://www.labormarketinfo.edd.ca.gov>. This data does not reflect what actual graduates from this campus are earning.

Everest College does not guarantee that you will graduate, obtain employment or earn a specific salary or salary range. Upon hiring, you should expect entry-level wages. Your individual success will depend on your attendance, grade point average, interviewing skills, hard work and other characteristics unique to you. If anyone associated with the school has made statements or even implied anything contrary to the representations on these disclosures, you will immediately notify a school representative.
