**[www.instituteforinterculturalstudies.com](http://www.instituteforinterculturalstudies.com)**

During the calendar year 2011, Institute for Intercultural Studies Language Schools did not enroll any students in our programs. The reason was that the application for reapproval was submitted to the Bureau for Private Postsecondary Education in August 2011, but we did not receive any response during the Fall quarter. We were not sure whether it is permissible to accept students while the reapproval was in process. We decided to continue our research activities until we are assured of the approval. A response came from the Bureau after 9 months.

As a result, we have no basis to calculate the performance fact.

Our program do not prepare the students for any employment. Therefore, the job placement rate does not apply to our programs.

We do not prepare our students for any license examinations. The passage rate does not apply to our programs.

Salary and wage information does not apply to our students.

Our programs in ESL Level I, II, and III are designed to prepare students for academic work.
