

Doctorate Program in Taxation Performance Fact Sheet

Students completing within the published program length of 3(*) years (100% completion rate):

Calendar Year	# of Students who began program	# of Students available for graduation	100% Graduates	Completion Rate
2010	3	2	1	50%
2011	12	12	4	33%

Students completing after published program length of 4.5(*) years (150% completion rate):

Calendar Year	# of Students who began program	# of Students available for graduation	150% Graduates	Completion Rate
2010	3	2	1	50%
2011	12	12	5	42%

Placement rates for those students who reported working information:

- Not applicable (*the school does not provide or promote placement services*).

License exam passage rates:

- Not applicable (*school studies do not lead to the taking of any professional license exam*).

Typical occupations obtained and wages earned by graduates:

- Not applicable (*the school admits working professionals, typically self-employed, and does not request wage/salary data*).

Total Program Cost: \$12,000
 Books & Supplies (est.): \$400 (average for “new”; books are not available through the school)
 Median Loan Debt: \$12,000 (plus 1--time finance fee of 2.63 for 36 months, or 5.26% for 48 months)

Based upon student feedback, students are earning an average of:

- Not applicable (we do not collect this information from students, who are all working and mostly self-employed).

Notes on data above:

- The completion rates for 2010 reflect students that enrolled in 2007. The completion rates for 2011 reflect students that enrolled in 2008. Because our program is both a “self-paced” program and one in which students may enroll at any time during the year, students start and finish at times that are most convenient to them. Some will graduate before the 3-year program ends, or they can request additional time if their work/personal lives interfere with their original completion.
- In 2007 & 2008, when the program period started for the ‘10 and ‘11 graduates, the average program cost was \$7,500. In 2012, the doctoral program underwent several additional changes, to include extending the program length to 4 years, increasing the requirements for admission, graduation, as well as tuition to \$12,000.
- (*) Because the current program has undergone changes from those that graduated in the chart above, the chart won’t reflect graduation rates of 2012 enrollees until 2016.

This fact sheet is filed with the California Bureau for Postsecondary Education. Regardless of any information you may have relating to completion rates, working rates, starting salaries or license exam passage rates, this fact sheet contains the information as calculated pursuant to state law.

Master Program in Taxation Performance Fact Sheet

Students completing within the published program length of 5 years (100% completion rate):

Calendar Year	# of Students who began program	# of Students available for graduation	100% Graduates	Completion Rate
2010	21	19	5	26.3%
2011	38	37	10	27.0%

Students completing after published program length of 7.5 years (150% completion rate):

Calendar Year	# of Students who began program	# of Students available for graduation	150% Graduates	Completion Rate
2010	21	19	14	73.7%
2011	38	37	17	46.0%

Placement rates for those students who reported working information:

- *Not applicable (the school does not provide or promote placement services)*

License exam passage rates:

- *Not applicable (school studies do not lead to the taking of any professional license exam)*

Typical occupations obtained and wages earned by graduates:

- *Not applicable (the school only admits already working professionals, typically self-employed, and does not request wage/salary data)*

Total Program Cost: \$14,900
Books & Supplies: \$500 (average for "new"; books are not available through the school)
Median Loan Debt: \$14,900 (plus 1--time finance fee of 2.63% for 24 months, or 5.26% for 36 months)

Based upon student feedback, students are earning an average of:

- *Not applicable (we do not collect this information from students, who are all working and mostly self-employed).*

Notes on data above:

- The completion rates for 2011 reflect students that enrolled in 2006 and completion rates for 2010 reflect students that enrolled in 2005. Because our program is both a "self-paced" program and one in which students may enroll at any time during the year, students start and finish at times that are most convenient to them. Some will graduate before the 5-year program ends, or they can request additional time if their work/personal lives interfere with their original completion.
- In 2005-06, when those program periods started, the average tuition was \$5,300. Today, the tuition is \$14,900, though the tuition may be lower as a result of affinity price discounts for certain trade associations (i.e., the California Society of Enrolled Agents, etc).
