How Will I Learn English?

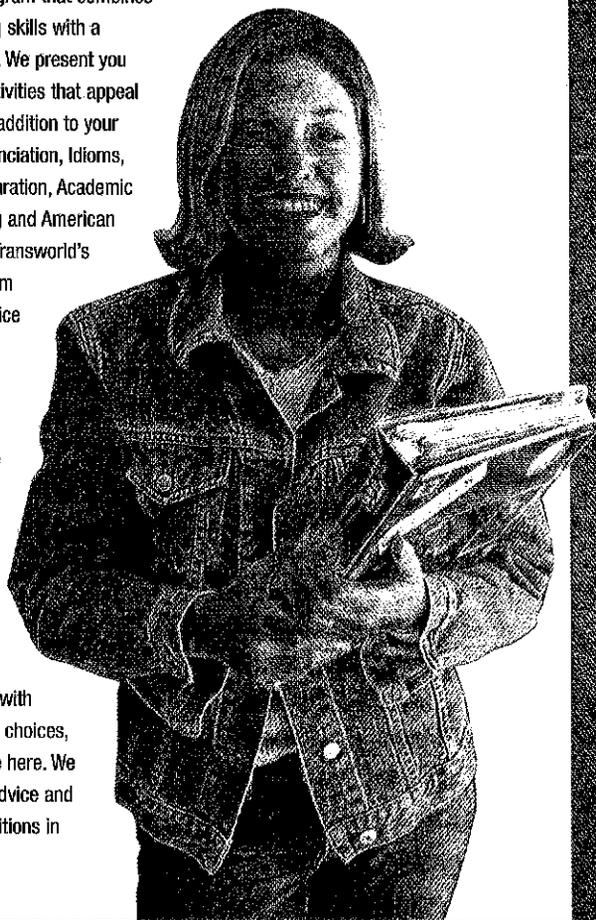

We asked you what you were looking for in a language course and you answered us.

You want a clearly structured program that allows you to identify your individual language needs and provides you with the appropriate learning methods and tasks to help you improve and excel. You want to be challenged without being overwhelmed, and although you are willing to work hard, you want your lessons to be interesting and fun. You need to learn a lot quickly, but you also want time to relax, make friends, and enjoy the city. You would like quality instruction in attractive surroundings at a cost that you can afford. You have serious language goals for future study and work and you are looking for a program that will ensure your success.

English Transworld has designed a highly effective program that combines language immersion focused on speaking and listening skills with a comprehensive foundation in grammar and vocabulary. We present you with a variety of learning techniques, materials and activities that appeal to your individual learning style, level and interests. In addition to your core classes, you can choose elective classes in Pronunciation, Idioms, TOEFL, TOEIC, IELTS and Cambridge Examination Preparation, Academic and University Skills, Business English, Creative Writing and American Culture, Theater and Film. An enormous advantage of Transworld's unique program is that you have the opportunity to team up with our American native-speaker students to practice your English communication skills in realistic everyday situations.

You will take a placement test on your first day of school and meet with an advisor to discuss which type of course and level best suits your study needs. You and your teacher will work in partnership to keep your progress on track and ensure maximum program rewards. You will take a test at the end of your course and receive a Transworld Certificate and Transcript detailing your English language proficiency.

Our dedicated support staff are available to assist you with pre-departure information and preparation, and course choices, accommodation and after class activities, once you are here. We also provide expert university and college placement advice and application assistance, and can arrange internship positions in local businesses to give you valuable work experience.

TRANSWORLD TESOL FAQs

Q: What is TESOL?

A: TESOL is Teaching English to Speakers of Other Languages. TESOL is the standard acronym for the English language teaching field where the professional organization is TESOL, and the Masters degree in the field is MA TESOL. Transworld offers a Certificate in TESOL also known as CTESOL.

Q: What is the difference between the TESOL Certificate (CTESOL) and other certificates?

A: There are a variety of English language teaching certification programs that are fairly similar in content; however, TESOL is the name of the field. TESOL certifies teaching English (ESOL) both for students residing in their home countries (EFL - English as a Foreign Language) or in an English-speaking country (ESL - English as a Second Language). During your TESOL course, you will be trained to teach both ESL and EFL.

Q: Is the Transworld Schools' TESOL Certificate accredited or approved?

A: Transworld Schools' CTESOL is approved by the State of California, Bureau of Private Postsecondary and Vocational Education, and meets or exceeds all state standards for instruction, curriculum, facility, student policies and job placement. Transworld Schools is one of the few accredited TESOL certification programs in the USA. We are accredited by ACCET (Accrediting Council of Continued Education and Training) and as such, our certificate is highly regarded in the TESOL training field and by employers worldwide.

Q: Can I use my TESOL certificate to teach in the USA?

A: Yes. There are many language schools, colleges and businesses that employ English teachers throughout the USA. There are some 30 English language programs in the San Francisco Bay Area and almost all of them hire Transworld TESOL graduates.

Q: Do I need to speak the language of the country I will be working in?

A: No. At Transworld Schools we will train you to teach English, even to Beginners, without using the learners' native language. However, as you would be exposed to the local language while living overseas, it would be a good opportunity to learn it.

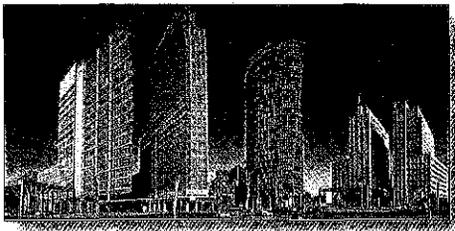

Q: Can I speak to someone who has taken the course at Transworld?

A: Yes. Please contact the school for a list of graduates' email addresses whom you can contact for course references.

"After a 20 year corporate career in the marketing field, I was seeking a new pathway of personal development and fulfillment. Finding Transworld Schools and its teacher training program provided me with the means to channel my abilities and lifetime learning into becoming an English teaching professional. The Transworld team runs a very professional training program and were essential in providing me with the necessary classroom teaching skills along with helping me find a teaching position overseas in China. For the baby boomers out there, this may be the chance to rediscover who we are and what our priorities are in life."

Gregory Halverson, China

"After careful research of other programs and schools, I know I made the right choice with Transworld. The classes are taught by the best in the business with total consideration for the students and clear, patient instruction given to all. I received a wealth of grammar and teaching ideas in a practical and hands on manner – necessary information and in a way I could implement immediately! As for employment, Transworld really does have the best job contacts."

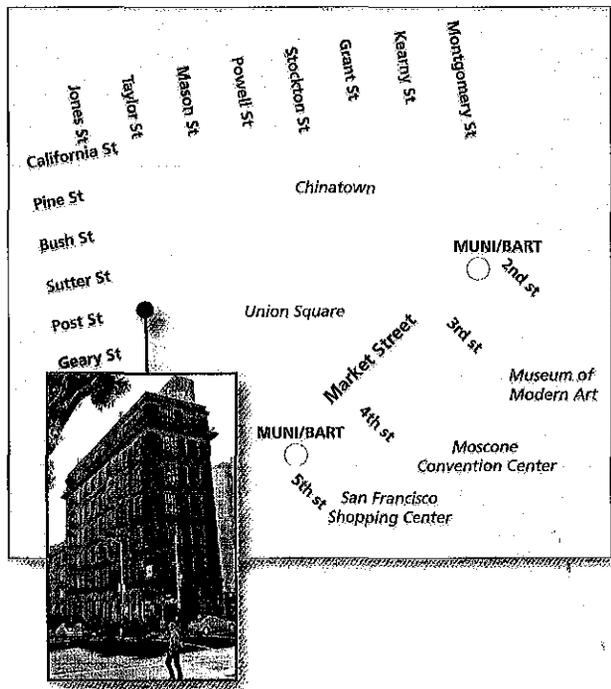

Jessica Sohn, JET Program, Japan

"I chose the Transworld TESOL course because I had heard positive feedback about the program and the job placement assistance. I wasn't disappointed, I found the course to be challenging and I thoroughly enjoyed the teaching practice with international students. I am now teaching English in beautiful Barcelona."

"Transworld was more than a piece of paper... it gave me all of the preparation I needed to teach in the adult schools prior to my departure overseas, in an English language school in Chile, and in my current position teaching Middle School Spanish in the San Francisco Bay Area. My students (and employers) have responded positively to the communicative approach trained at Transworld. Why? Because they learn while they're having fun."
