

SCHOOL PERFORMANCE FACT SHEET

The California Private Postsecondary Education Act of 2009 established the Bureau for Private Postsecondary Education (BPPE). The purpose of the BPPE is to ensure minimum educational quality standards and opportunities and meaningful student protections.

Under section 94910 of the Act, each school approved by the BPPE must provide information for each program offered in regards to completion rates, placement rates, licensure exam passage rates, and salary/wage information.

This form is to make you aware of University's current completion, employment, and salary information for the **Associate of Science in Emergency Health, and Safety Program**. The following statistics represent the campus located in Santa Rosa, California and cover the period of January 1, 2011 to December 31, 2011.

Completion Rates

Associate of Science in Emergency Health, and Safety (64 hours)

Calendar Year	Number of Students Who Began Program¹	Students Available for Graduation²	Graduates³	Completion Rate⁴
2010	0	0	0	0
2011	0	0	0	0

¹ "Number of Students Who Began Program" is the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

² "Students available for graduation" is the number of students who began program minus the number of "Students unavailable for graduation," which means those students who have died, been incarcerated, or called to active military duty.

³ "Graduates" is the number of students who completed the program within 100% of the published program length.

⁴ "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

Placement Rates

Associate of Science in Emergency Health, and Safety (64 hours)

Calendar Year	Number of Students Who Began Program¹	Number of Graduates²	Graduates Available for Employment³	Graduates Employed in the Field⁴	Placement Rate % Employed in the Field⁵	Graduates Employed in the Field an average of less than 32 hours per week	Graduates Employed in the Field at least 32 hours per week
2010	0	0	0	0	0	0	0
2011	0	0	0	0	0	0	0

¹ "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

² "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.

³ "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

⁴ "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.

⁵ Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

Number of Graduates Salary by Range

SCHOOL PERFORMANCE FACT SHEET

The California Private Postsecondary Education Act of 2009 established the Bureau for Private Postsecondary Education (BPPE). The purpose of the BPPE is to ensure minimum educational quality standards and opportunities and meaningful student protections.

Under section 94910 of the Act, each school approved by the BPPE must provide information for each program offered in regards to completion rates, placement rates, licensure exam passage rates, and salary/wage information.

This form is to make you aware of University's current completion, employment, and salary information for the **Doctor of Philosophy in Biomedical Engineering Program**. The following statistics represent the campus located in Santa Rosa, California and cover the period of January 1, 2011 to December 31, 2011.

Completion Rates

Doctor of Philosophy in Biomedical Engineering (48 hours)

Calendar Year	Number of Students Who Began Program¹	Students Available for Graduation²	Graduates³	Completion Rate⁴
2010	0	0	0	0
2011	0	1	1	100

¹ "Number of Students Who Began Program" is the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

² "Students available for graduation" is the number of students who began program minus the number of "Students unavailable for graduation," which means those students who have died, been incarcerated, or called to active military duty.

³ "Graduates" is the number of students who completed the program within 100% of the published program length.

⁴ "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

Placement Rates

Doctor of Philosophy in Biomedical Engineering (48 hours)

Calendar Year	Number of Students Who Began Program¹	Number of Graduates²	Graduates Available for Employment³	Graduates Employed in the Field⁴	Placement Rate % Employed in the Field⁵	Graduates Employed in the Field an average of less than 32 hours per week	Graduates Employed in the Field at least 32 hours per week
2010	0	0	0	0	0	0	0
2011	0	1	1	1	100	0	1

¹ "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

² "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.

³ "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

⁴ "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.

⁵ Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

Number of Graduates Salary by Range

Doctor of Philosophy in Biomedical Engineering (48 hours)

Annual Salary and Wages Reported by Graduates Employed in the Field³

Calendar Year	Graduates Available for Employment ¹	Graduates Employed in the Field ²	\$15,000.00 - \$20,000.00	\$20,001.00 - \$25,000.00	\$25,001.00 - \$30,000.00	\$30,001.00 - Above	Students Not Reporting Salary
2010	0	0	0	0	0	0	0
2011	1	1	0	0	0	1	0

¹ "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. Graduates unavailable for employment means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

² "Graduates employed in the field" means graduates who are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.

2011	1	1	0	1	0	0	0

¹ "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. Graduates unavailable for employment means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

² "Graduates employed in the field" means graduates who are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.

³ Salary is as reported by the student. Not all graduates reported salary.

State Average Salary Information from EDD

Master of Science in Systems Engineering (30 hours)

Calendar Year	State Average Salary Information from EDD ¹
2011	\$109,000

¹ "State Average Salary Information from EDD": Data was obtained from the Employment Development Department's Occupational Employment Statistics (<http://www.labormarketinfo.edd.ca.gov>).

School Performance Fact Sheet

University of Northern California

This fact sheet will be filed with the Bureau for Private Postsecondary Education. Regardless of any information you may have relating to completion rates, placement rates, starting salaries, or license exam passage rates, this fact sheet contains the information as calculated pursuant to state law.

Any questions a student may have regarding this fact sheet that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at P.O. Box 980818, West Sacramento, CA 95798, calling 1 (888) 370-7589 or www.bppe.ca.gov.

I, the undersigned, have read and understand the information provided in this Fact Sheet.
