*This program is new. Therefore, the number of students who graduate, the number of students who are placed, or the starting salary you can earn after finishing the educational program are unknown at this time. Information regarding general salary and placement statistics may be available from government sources or from the institution, but is not equivalent to actual performance data.

These graduate placement rates may include entry level jobs that pay entry level wages. After graduating from our school, you may obtain an entry level job that pays entry level wages. We cannot predict the position a graduate might eventually attain or the income a graduate might eventually earn. If you will seek financial aid in connection with attending UWC you should create a budget based on your own personal analysis to ensure you can repay your student loans on the wages you personally expect to earn after graduating.

The chart below reflects the wage data for the job or job titles provided by the Employment Development Department's Occupational Employment Statistics (<http://www.labormarketinfo.edd.ca.gov>). This salary information does NOT reflect the actual jobs obtained by UWC graduates upon graduation, but rather all jobs in the industry, whether entry level, mid-level or senior/upper level jobs typically held by more experienced practitioners.

EDD Data	As of November 1, 2012 - Hourly by Percentile			Student Initial and Date by Program of Interest
	25th	Median	75th	
Office Managers	\$32.39	\$43.06	\$56.80	
Real Estate Brokers	\$25.56	\$37.73	\$56.26	
Real Estate Sales Agents	\$13.20	\$25.14	\$33.47	

UWC graduates who obtain employment after graduation typically start in entry level positions and should expect to earn salaries at the lower end of the hourly range. Employment, career advancement, income, and the success or satisfaction of an individual student are not guaranteed and depend upon the local and national economy, the industry at the time, the graduate's abilities, efforts and prior experience, and a variety of other factors. We recommend that you conduct your own due diligence in the local job markets in which you anticipate applying to determine the salaries and opportunities available to graduates on entry into the field and as they advance in their careers.

If you have any questions about how the data reflected on the above charts was gathered or if you want a list of employment positions determined to be within the field for any specific program for which statistics are reported above, please speak with the campus Director of Career Services.

This Fact Sheet is filed with the Bureau for Private Postsecondary Education. Regardless of any other information you may have relating to completion rates, placement rates, starting salaries, or license exam passage rates, this Fact Sheet contains the information calculated pursuant to state law.
