# **PERFORMANCE FACT SHEET**

## **PROGRAM GOALS AND REQUIREMENTS**

Our Programs are approved to operate by the State of California Bureau for Private Postsecondary Education, the Medical Board of California and the California Board of Behavioral Science. Approval to operate means compliance with state standards as set forth by the Education Code. Our programs do not qualify the recipient to sit for the licensing examination in the field of psychology, marriage and family therapy or clinical social work. They do, however, qualify for continuing education units in those fields.

## **EMPLOYMENT PLACEMENT SERVICES**

Placement assistance is limited to providing documentation of training. As candidates are licensed professionals upon entry into the Institute, referrals of patients to candidates are commonly made both by fellow candidates as well as by faculty as a function of the community life of colleagues within the Institute.

Candidates are required to be licensed and have a practice before beginning any of NPI's programs. Our programs do not qualify the recipient to sit for the licensing examination in the field of psychology, marriage and family therapy or clinical social work. They do, however, qualify for continuing education units in those fields.

NPI's degree programs are unaccredited and are not recognized by the United States Department of Education (USDE) and:

A graduate of NPI from the degree program will be not eligible to sit for applicable licensure exam in California and other state.

A degree program that is unaccredited or a degree from an unaccredited institution is not recognized for some employment positions, including, but not limited to, positions with the State of California.

NPI an unaccredited institution and students are not eligible for federal financial aid programs.

## **REFERRALS**

Referrals of patients to candidates are commonly made both by fellow candidates as well as by faculty as a function of the community life of colleagues within the Institute. NPI cannot be responsible for developing a candidate's practice nor for identifying individuals suitable for the control case requirements. However, from time to time, NPI receives inquiries from the wider community for psychoanalysis or psychoanalytic psychotherapy. As a service to the community, the Referrals Coordinator helps to facilitate the connection between these potential patients and candidates looking for control cases. When appropriate, notification is published in the weekly NPI newsletter. We encourage candidates to be in touch with the Referral Coordinator if they are interested in this service.

Candidates and potential patients must work out together whether or not the therapeutic relationship is a fit and what fees are acceptable.

**ENROLLMENT STATISTICS****Enrollment September 2011 for Academic Year 2011- 12:**

Doctor of Philosophy in Psychoanalysis (Ph.D.) Program	0
