\*\*"Number of Students who began the program" does not designate new students. This number designates the number of students enrolled in the program and who are scheduled to graduate within the published program length. The majority of students enrolled at EPIC Bible College register for classes on a part time basis (less than 12 quarter units per quarter) and, therefore, finish a program outside of the published program length.

Completion rates for each program are calculated by dividing the number of graduates by the number of students available for graduation (students available for graduation are those scheduled, based on full time enrollment status, to complete the program within the scheduled program length). A majority of EPIC students are part time students and finish a program of study outside the normal length.

**EPIC Bible College programs do NOT lead to employment which requires passage of a California state licensing examination.**

Although EPIC Bible College does not provide employment placement assistance and can not guarantee employment to any student or graduate, any employment opportunities made known to the administration will be posted in a conspicuous location and kept in an "Employment Opportunities" binder available in the Academic Services Office. All students have access to the information. Students are responsible for checking the posted location and the binder and for making inquiries into such opportunities. EPIC can not promise or predict employment for students and/or graduates.
