About the School Performance Fact Sheet

Completion rates are calculated by dividing the number of graduates by the number of students available for graduation and rounding to the nearest whole number. **Placement rates** are calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment. **License Exam Passage Rates** are calculated by dividing the number of students who pass the examination by the number of graduates who take the reported licensing examination the first time that the examination is available after completion of the educational program. **Salary and wage information**, consisting of the total number of graduates employed in the field and the annual wages or salaries of those graduates stated in increments of five thousand dollar (\$5,000). A list of the employment positions determined to be within the field for which a student received education and training for the calculation of job placement rates may be obtained by contacting the CHD Education Coordinator at 707-523-1155. A list of objective sources of information used to substantiate the salary disclosures may be obtained by contacting the CHDC Education Coordinator at 707-523-1155.
