Student Performance Fact Sheet

2014 Completion Rates

| Year | Name of Educational Program (Hours) | # Students in the Cohort Population ¹ | # Students Available for Graduation ² | Graduates ³ | Completion Rate ⁴ | Graduates who Completed within 150% of the Scheduled Program Length ⁵ | 150% Completion Rate ⁶ |
|------|---------------------------------------------|--------------------------------------------------|--------------------------------------------------|------------------------|------------------------------|----------------------------------------------------------------------------------|-----------------------------------|
| 2014 | Basic Small Business Specialist (520 Hours) | 0 | 0 | 0 | 0 | 0 | 0 |

1. "Number of Students in the Cohort Population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Students Available for Graduation" is the number of students in the cohort population minus the number of "Students unavailable for graduation," which means those students who have died, been incarcerated, or called to active military duty.
3. "Graduates" means the number of students who complete a program within 100 percent of the published program length.
4. "Completion Rate" is the number of students who completed the program in the reported calendar year within 100 percent of the published program length divided by the Number of Students Available for Graduation in the published program length period.
5. "Graduates Who Completed within 150% of the Scheduled Program Length" is the number of students who completed the program within 150 percent of the published program length, including those who graduated within 100 percent of the published program length. In 2014, data was not reported separately for students completing the program within 100 percent of the published program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 150% of the published program length, which includes those who graduated within 100 percent of the published program length, divided by the Number of Students Available for Graduation in the published program length period. Data is not being separately reported for students completing the program within 100% of the published program length.

| 2014 | Basic Small Business Specialist (520 Hours) | 0 | 0 | 0 | 0 | 0 | 0 | 0 |

A list of the employment positions determined to be within the field for the calculation of job placement rate can be found at the Department of Labor website (<http://www.bls.gov>).

1. "Number of Students in the cohort population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.
3. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment.
4. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
5. "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position. (This is the definition that was in use for "Graduates employed in the field" at the time these numbers were calculated.)
6. Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

1. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment.
2. Graduates unavailable for employment means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
3. "Graduates employed in the field" means graduates who are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position. (This is the definition that was in use for "Graduates employed in the field" at the time these numbers were calculated.) Salary is as reported by the student. Not all graduates reported salary. Student reported salaries are maintained in the Career Services database. An aggregate report is available upon request.

1. "Number of Students in the Cohort Population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Students Available for Graduation" is the number of students in the cohort population minus the number of "Students unavailable for graduation," which means those students who have died, been incarcerated, or called to active military duty.
3. "Graduates" means the number of students who complete a program within 100 percent of the published program length.
4. "Completion Rate" is the number of students who completed the program in the reported calendar year within 100 percent of the published program length divided by the Number of Students Available for Graduation in the published program length period.
5. "Graduates Who Completed within 150% of the Scheduled Program Length" is the number of students who completed the program within 150 percent of the published program length, including those who graduated within 100 percent of the published program length. In 2014, data was not reported separately for students completing the program within 100 percent of the published program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 150% of the published program length, which includes those who graduated within 100 percent of the published program length, divided by the Number of Students Available for Graduation in the published program length period. Data is not being separately reported for students completing the program within 100% of the published program length.

1. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment.
2. Graduates unavailable for employment means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
3. "Graduates employed in the field" means graduates who are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position. (This is the definition that was in use for "Graduates employed in the field" at the time these numbers were calculated.) Salary is as reported by the student. Not all graduates reported salary. Student reported salaries are maintained in the Career Services database. An aggregate report is available upon request.

A list of the employment positions determined to be within the field for the calculation of job placement rate can be found at the Department of Labor website (<http://www.bls.gov>).

1. "Number of Students in the cohort population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.
3. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment.
4. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
5. "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position. (This is the definition that was in use for "Graduates employed in the field" at the time these numbers were calculated.)
6. Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

| 2014 | Medical Bookkeeper (520 Hours) | 8 | 7 | 7 | 6 | 86% | 0 | 6 |

A list of the employment positions determined to be within the field for the calculation of job placement rate can be found at the Department of Labor website (<http://www.bls.gov>).

1. "Number of Students in the cohort population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.
3. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment.
4. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
5. "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position. (This is the definition that was in use for "Graduates employed in the field" at the time these numbers were calculated.)
6. Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

2014 Completion Rates

| Year | Name of Educational Program (Hours) | # Students in the Cohort Population ¹ | # Students Available for Graduation ² | Graduates ³ | Completion Rate ⁴ | Graduates who Completed within 150% of the Scheduled Program Length ⁵ | 150% Completion Rate ⁶ |
|------|--------------------------------------------------------|--------------------------------------------------|--------------------------------------------------|------------------------|------------------------------|----------------------------------------------------------------------------------|-----------------------------------|
| 2014 | Medical Record and Health Info. Specialist (780 Hours) | 2 | 1 | 1 | 100% | 0 | 0 |

1. "Number of Students in the Cohort Population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Students Available for Graduation" is the number of students in the cohort population minus the number of "Students unavailable for graduation," which means those students who have died, been incarcerated, or called to active military duty.
3. "Graduates" means the number of students who complete a program within 100 percent of the published program length.
4. "Completion Rate" is the number of students who completed the program in the reported calendar year within 100 percent of the published program length divided by the Number of Students Available for Graduation in the published program length period.
5. "Graduates Who Completed within 150% of the Scheduled Program Length" is the number of students who completed the program within 150 percent of the published program length, including those who graduated within 100 percent of the published program length. In 2014, data was not reported separately for students completing the program within 100 percent of the published program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 150% of the published program length, which includes those who graduated within 100 percent of the published program length, divided by the Number of Students Available for Graduation in the published program length period. Data is not being separately reported for students completing the program within 100% of the published program length.

2014 Placement Rates¹

| Year | Name of Educational Program (Hours) | # Students in the Cohort Population ² | # Graduates ³ | Graduates Available for Employment ⁴ | Graduates Employed in the Field ⁵ | Placement Rate % Employed in the Field ⁶ | Graduates Employed in the Field an avg. of less than 32 hours per week | Graduates Employed in the Field at least 32 hours per week |
|------|--------------------------------------------------------|--------------------------------------------------|--------------------------|-------------------------------------------------|----------------------------------------------|-----------------------------------------------------|------------------------------------------------------------------------|------------------------------------------------------------|
| 2014 | Medical Record and Health Info. Specialist (780 Hours) | 2 | 1 | 1 | 1 | 100% | 0 | 1 |

A list of the employment positions determined to be within the field for the calculation of job placement rate can be found at the Department of Labor website (<http://www.bls.gov>).

1. "Number of Students in the cohort population" means the number of students that began a program on a "cohort start date" which means the first class day after the cancellation period during which a cohort of students attends class for a specific program.
2. "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.
3. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment.
4. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
5. "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position. (This is the definition that was in use for "Graduates employed in the field" at the time these numbers were calculated.)
6. Placement Rate is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

2014 License Examination Passage Rates*

| Year | Name of Educational Program (Hours) | # Students Taking License Exam ¹ | # Who Passed First License Exam Taken ² | # Who Failed First License Exam Taken | # Who Passed Second License Exam Taken ³ | Passage Rates ⁴ |
|------|--------------------------------------------------------|---------------------------------------------|----------------------------------------------------|---------------------------------------|-----------------------------------------------------|----------------------------|
| 2014 | Medical Record and Health Info. Specialist (780 Hours) | 0 | 0 | 0 | 0 | 0 |

***There are no licensing exams for any programs**

1. Number of Students Taking License Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
2. Number Who Passed First License Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.
3. Number Who Passed Second License Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the second attempt.
4. Passage Rate is calculated by dividing the number of graduates who passed the license exam the first time or second time that they took it by the Number of Students Taking License Exam.
