Foot Notes:

1. Zero students to report on rates and totals cannot be computed at there is no data
2. Students refused to answer on weekly hours and salary
3. Not Applicable to Program
4. Salary Range not applicable due to the nature of programs

Definitions

1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3
"Graduates" is the number of students who completed the program within 100% of the program length.

4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1

"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2

"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3

"Graduates" is the number of students who completed the program within 100% of the program length.

4

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5

"150% Graduates" is the number of students who completed within 101-150% of the program length.

6

"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7

"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8

"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9

"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10

Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11

Exam Date is the date for the first available exam after the students completed the program.

12

Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13

Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

2. Students refused to answer on weekly hours and salary
3. Not Applicable to Program
4. Salary Range not applicable due to the nature of programs.

Definitions

1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

- Definitions
1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2

"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3

"Graduates" is the number of students who completed the program within 100% of the program length.

4

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5

"150% Graduates" is the number of students who completed within 101-150% of the program length.

6

"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7

"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8

"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9

"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10

Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11

Exam Date is the date for the first available exam after the students completed the program.

12

Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13

Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9

"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10

Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11

Exam Date is the date for the first available exam after the students completed the program.

12

Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13

Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Foot Notes

1. Zero students to report on rates and totals cannot be computed as there is no data
2. Students refused to answer on weekly hours and salary
3. Not Applicable to Program
4. Salary Range not applicable due to the nature of programs.

Definitions

1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

1

"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2

"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3

"Graduates" is the number of students who completed the program within 100% of the program length.

4

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5

"150% Graduates" is the number of students who completed within 101-150% of the program length.

6

"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7

"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8

"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9

"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10

Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11

Exam Date is the date for the first available exam after the students completed the program.

12

Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13

Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

1

"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2

"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3

"Graduates" is the number of students who completed the program within 100% of the program length.

4

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5

"150% Graduates" is the number of students who completed within 101-150% of the program length.

6

"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7

"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8

"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9

"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10

Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11

Exam Date is the date for the first available exam after the students completed the program.

12

Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13

Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1

"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2

"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3

"Graduates" is the number of students who completed the program within 100% of the program length.

4

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5

"150% Graduates" is the number of students who completed within 101-150% of the program length.

6

"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7

"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8

"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9

"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10

Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11

Exam Date is the date for the first available exam after the students completed the program.

12

Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13

Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

- Foot Notes
1. Zero students to report on rates and totals cannot be computed as there is no data
 2. Students refused to answer on weekly hours and salary
 3. Not Applicable to Program

A. Salary Range not applicable due to the nature of programs.

Definitions

1. "Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
3. "Graduates" is the number of students who completed the program within 100% of the program length.
4. "Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
5. "150% Graduates" is the number of students who completed within 101-150% of the program length.
6. "150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8. "Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9. "Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10. Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11. Exam Date is the date for the first available exam after the students completed the program.
12. Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13. Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

"150% Graduates" is the number of students who completed within 101-150% of the program length.
6.
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
7.
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
8.
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
9.
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
10.
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
11.
Exam Date is the date for the first available exam after the students completed the program.
12.
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
13.
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3
"Graduates" is the number of students who completed the program within 100% of the program length.

4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3
"Graduates" is the number of students who completed the program within 100% of the program length.

4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

"Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3
"Graduates" is the number of students who completed the program within 100% of the program length.

4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.

2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

3
"Graduates" is the number of students who completed the program within 100% of the program length.

4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

4. Salary Range not applicable due to the nature of programs																	

Definitions

- 1
"Number of Students Who Began Program" means the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
- 2
"Students available for graduation" is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.
- 3
"Graduates" is the number of students who completed the program within 100% of the program length.
- 4
"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.
- 5
"150% Graduates" is the number of students who completed within 101-150% of the program length.
- 6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.
- 7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.
- 8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.
- 9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.
- 10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.
- 11
Exam Date is the date for the first available exam after the students completed the program.
- 12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.
- 13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

"Completion Rate" is the number of Graduates divided by the Number of Students Available for Graduation.

5
"150% Graduates" is the number of students who completed within 101-150% of the program length.

6
"150% Completion Rate" is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

7
"Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

8
"Graduates employed in the field" means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program. For occupations for which the state requires passing an examination, the period of employment must begin within six months of the announcement of the examination results for the first examination available after a student completes an applicable educational program.

9
"Placement Rate Employed in the Field" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

10
Number of Students Taking Exam is the number of students who completed the program within 150% of the published program length and who took the exam in the reported calendar year for the first time.

11
Exam Date is the date for the first available exam after the students completed the program.

12
Passage Rate is calculated by dividing the number of students who passed the exam by the number of graduates who took the reported licensing exam.

13
Number Who Passed First Exam Taken is the number of students who took and passed the licensing exam in the reported calendar year on the first attempt.

The School Performance Fact Sheet shall contain all of the following:

(1) A Description of the Manner in which the figures described in subdivisions (a) to (d), inclusive, are calculated or a statement of the manner in which the figures described in subdivisions (a) to (d), inclusive, are calculated.

(a) Completion Rates: FY2011, FY2012, FY2013, and FY2014 have been derived by our Enrollment agreement

and STRF for the same years. All of our graduates have completed their training within the same year and therefore 150% completion rates is Not Applicable.

(b) Placement Rates: FY2011, FY2012, FY2013, and FY2014 have been derived by the Number of Students

who have graduated and Number of Students who have found employment in the field in which they obtained training. Based on this, the percentage has been calculated.

(c) License Examination: A+ Computer Service Technician requires a vendor certification named CompTIA A+. FY2011, FY2012, FY2013, and FY2014 data have been populated based upon the

number of students who have taken the examination and passed the examination.

(d) Salary and Wage Information: FY2011, FY2012, FY2013, and FY2014 data have been derived by the

Bureau of Labor Statistics.http://www.bls.gov/oes/current/naics4_541700.htm#15-0000

(2) A Statement informing the reader on where he or she may obtain from the institution a list of employment positions determined to be within the field for which student received education and training for the calculation of job placement rates as required by the subdivision (b).

(a) Blue Star Learning is partnered with www.jobing.com to find Computer positions in San Diego. Please visit this site for more details on the Job

Openings. http://sandiego.jobing.com/search_results.asp?q=computer

(3) A Statement informing the reader of where he or she may obtain from the institution a list of the objective sources of information used to substantiate the salary disclosure as required by subdivision (d)

(a) Bureau of Labor Statistics.http://www.bls.gov/oes/current/naics4_541700.htm#15-0000

This fact sheet is filed with the Bureau for Private Postsecondary Education. Regardless of any information you may have relating to completion rates, placement rates, starting salaries, or license exam passage rates, this fact sheet contains the information as calculated pursuant to state law.

Any questions a student may have regarding this *Fact Sheet* that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at P. O. Box 980818, West Sacramento, CA 95798-0818, (916) 574-7720 or fax: (916) 263-1896. The web site is www.bppe.ca.gov.

This *Fact Sheet* was reviewed and discussed with a school official.

My signature below certifies that I have read and understood the information included in the

School Performance Fact Sheet and that I have received a copy of this *Fact Sheet* along with Learn iT!'s Catalogue, and *Student Handbook* (CD).
