**[4] Additional Information**

1. Regarding Salary

Most interpreters/translators work as freelancers under contract for each job, and therefore we cannot quote a salary. However, some information can be obtained from a survey, "Summary of ATA's Latest Translation and Interpreting Compensation Survey," conducted by the American Translators Association (you can access it at this link, [http://www.atanet.org/docs/compensation\\_survey\\_2007.pdf](http://www.atanet.org/docs/compensation_survey_2007.pdf)).

2. Student Loan Information - Loan default rates, percentage of students receiving federal student loans

This is not applicable to our institution as we do not offer loans to students nor participate in any form of loan programs including all federal or state loan programs.

Student's Initials: \_\_\_\_\_ Date: \_\_\_\_\_

3. Financial Aid - the most recent three-year cohort default rate and the percentage of currently enrolled students receiving federal student loans

This is not applicable to our institution as we do not participate in any form of financial aid programs including all federal or state financial aid programs.

### **[5] Definitions**

<sup>1</sup> “Number of Students Who Began Program” means the number of students who began the program who are scheduled to complete the program within the reporting calendar year, and includes all the students who remained enrolled after their cancellation period.

<sup>2</sup> “Students available for graduation” is the number of students who began program minus the number of students who have died, been incarcerated, or been called to active military duty.

<sup>3</sup> “Graduates” is the number of students who completed the program within 100% of the program length.

<sup>4</sup> “Completion Rate” is the number of Graduates divided by the Number of Students Available for Graduation.

<sup>5</sup> “150% Graduates” is the number of students who completed within 101-150% of the program length.

<sup>6</sup> “150% Completion Rate” is the number of students who completed the program in the reported calendar year within 101-150% of the published program length divided by the Number of Students Available for Graduation in the published program length period.

<sup>7</sup> “Graduates available for employment” means the number of graduates minus the number of graduates unavailable for employment. “Graduates unavailable for employment” means the graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

<sup>8</sup> “Graduates employed in the field” means graduates who are gainfully employed in a single position for which the institution represents the program prepares its graduates within six months after a student completes the applicable educational program.

<sup>9</sup> “Placement Rate Employed in the Field” is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

<sup>10</sup> Since the nature of most translation and interpretation jobs are freelance, our graduates do not report their salary, and a list of the employers of the “Graduates Employed in the Field” is not available.
