The forms are executed in duplicate, the institution retains the original and the duplicate (or photocopy) is provided to the instructor at the time the document is signed. In the event that the document is mailed to the institution the instructor will receive a photocopy by return mail. The written contract will specify the course or courses to be taught, the specific dates and times during which the course will be offered and the reporting responsibilities of the instructor.

Each instructor shall maintain their knowledge by completing four hours of continuing education courses in his or her subject area, classroom management or other courses related to teaching. The institution shall not employ or continue to employ an instructor who was adjudicated in a judicial or administrative proceeding as having violated any provision of the Act or this chapter, or as having committed any act that would constitute grounds for the denial of a license under Section 480 of the Business and Professions Code.

Faculty Evaluation

Faculty performance is measured by various means. Students are provided with evaluation forms so that the administration can assess student satisfaction with the instructors. The Chief Academic Officer is authorized to perform class audits in order to assess, further, faculty performance. The administration also interviews students, informally, to obtain spontaneous feedback from students regarding their experiences and their satisfaction with the educational services provided. A more formal evaluation of the performance of instructors will be scheduled at least annually. It will be performed in a manner set by the Chief Academic Officer. In the event that complaints are received from students, a more frequent schedule may be adopted at the discretion of the Chief Academic Officer.

The Right to Access Records

The student has the right to inspect academic and financial records, by appointment, during regular school hours. Access must be granted no later than 15 working days after written request. Students also have the right to challenge the contents of their educational records and to enter their viewpoints in the records under established procedures. First Lady Permanente Education Center will, at a minimum, maintain full student records for a minimum period of 5 years from date of articulation, and will retain records of course completion in perpetuity.

Privacy of Student Records

The privacy and integrity of student records is a fundamental concern at this institution. To this end, no student records will be released to any party without the prior written authorization of the student. The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C... 1232g) and the regulations adopted thereunder (34

C.F.R... 99) and California Education Code 6100 Et. Seq. set out the requirements designed to protect the privacy of students concerning their records maintained by the campus. Several aspects are of particular importance: 1) access to student records, 2) the release of the records or data contained in the records, and 3) the rights of a student to a hearing to challenge the contents of the student's records. There are specific exceptions to the privacy rights of students. This institution may be required to make student records available to authorized auditors of various oversight agencies. These agencies include, at the time of this writing, the Bureau for Private Postsecondary Education and (if this institution applies for accreditation) the official representatives of the accrediting agency.

Disclosure of Student Records

With several exceptions provided by law, FLP cannot release information concerning students to third persons without the written consent of the student. Permission must be given by the student for information in their file to be used as reference checks for credit or employment evaluation by third parties and the student must file a declaration to this effect, which will be kept in the student's file(s). The declaration can be all-inclusive or on a case-by-case access basis. (The provision of financial data to authorized agencies is not a violation of the Buckley Amendment). The student's written consent is not required for the disclosure of grades, disciplinary action, or other information to parents of students who are dependents for federal tax purposes. Parents requesting information may generally be granted access upon submission of a signed statement or other evidence of federal income tax dependency.

No Guarantees of Licensure or Employment

First Lady Permanente Education Center is committed to the philosophy of equal opportunity and access in all educational programs and services. Background Checks

California law prohibits the certification/licensure of any person who has been convicted of any Penal Code violation unless that action has been dismissed or the individual has obtained a Certificate of Rehabilitation.

A prescreening, background check is conducted on all enrolled students. This prescreening is the same that is typically required of hospital employees and is a condition of the clinical facilities to allow a student to participate in clinical rotations at their sites. Students may be allowed to begin course work before the background check is completed. However, by signing First Lady Permanente Education Center Enrollment Agreement, the student affirms that they have not been convicted of any Penal Code violations.

- Students failing the background check at the time of enrollment may not be eligible to participate in the program and may be dismissed.

At the end of the program students must submit to a full investigation by the Department of Justice. Students failing this investigation may not be eligible for licensure.

Drug Screen

First Lady Permanente Education Center participates in random drug screening throughout the course of each program, of if a student's behavior is suspicious of drug or alcohol use.

Policy for Denial of Certification:

The law provides for denial of certification for crimes or acts that may in any way be related to pre-hospital medical care i.e., sex crimes, drug crimes and crimes of violence or dishonesty.

1. In such cases, it is the applicant's responsibility to present sufficient evidence of rehabilitation to the department that oversees the program prior to applying for certification.
2. Each department will evaluate applicants individually.
3. Any student considering a career in the program they are seeking training, who might be denied certification, is advised to address this issue with this Agency prior to taking this course

In case the candidates are equally qualified for the last slot in the class, selection will be based upon the date of the application. Students who drop or take a leave of absence may return only if there is an available slot and the written request to return is accepted.

Sponsored Versus Non-Sponsored Students

Any student who does not pay 100% of the tuition for the NATP and has part, or all of their tuition paid by an employer, a government agency or a non-profit group is considered a Sponsored Student. Sponsored Students will be treated in the same fashion, and must meet the same enrollment and performance standards. FLP regularly has students for whom part, or all of their tuition is sponsored by someone other than their selves, or their families. Common examples of Sponsoring Agencies include Workforce Investment Agencies, Public Education Agencies, Other Public Entities and Employers.

Similarities Between Sponsored Versus Non-Sponsored Students

1. All students, whether they are sponsored or not, must conduct their enrollment and eligibility screening in the exact same fashion. This includes enrolling via the www.firstladypermanente.com web site, taking the required “Ability to Benefit” skills test, submitting LiveScan fingerprinting for a DOJ Criminal Background Check, receiving a Physical Exam and a Tuberculosis Test.

Differences Between Sponsored Versus Non-Sponsored Students

1. Non-Sponsored Students must pay the BPPE Student Tuition Recovery Fund (STRF) fee, and may be eligible for protection and tuition reimbursement from the STRF under certain circumstances. Sponsored students do not have to pay the STRF fee, and are not eligible for STRF benefits.
2. Non-Sponsored Students will receive an IRS Form 1098T detailing the tuition they paid in the prior tax year. In many cases the full amount of their tuition, minus certification exam fees, may be tax deductible. Sponsored Students do not qualify for this tax deduction.
3. Some Sponsored Students may be required by their Sponsoring Agency to Co-Enroll in another program in order to qualify for the funding they receive. For example, students sponsored by Workforce Development Agencies must Co-Enroll as a client of that agency in order to receive funding. Students sponsored by Adult Schools or ROP program must Co-Enroll as a student in

that program. Co-Enrollment is strictly an issue between Sponsored Students and their Sponsoring Agencies. FLP is never a party to such agreements, and commits to treating all students in the same manner regardless of whether they are sponsored or not.

Attendance Policy – All Programs

Attendance is expected for the full duration of theory and clinical courses. Making up missed work may be permitted if absence was due to illness, death in immediate family, court appearances, and/or emergency medical, dental or legal appointments. Excessive tardiness and absences may cause a student to fail to complete course objectives and does not allow for proper evaluation of the student's clinical abilities. All course objectives must be completed before moving on to the next Semester.

All students must obtain the **required number of hours for the program**. If the student does not obtain the required hours, the student will not be able to take the certification test.

- I. All make-up is hour for hour with an Instructor present.
- II. Training schedules show the make-up time.
- III. Make-up time is “well defined” by limited number of hours for theory and clinical. If a student needs to make-up more than 16 hours they will be required to attend the next available program, a rescheduling fee will be applied to transfer.

Tardy vs Absence:

1. Tardy= students arriving late 15 minutes after the class has started.
2. Two Tardies= is considered as one absence, 8 hours make-up required.
3. Absence= attending late over 45 minutes for the day.
4. Two Absences = 16 hours of required make-up time.

Theory Attendance:

1. Students are required to complete the theory modules prior to practicing skills in the clinical setting.
2. Students are only allowed to miss (8) hours of theory with a *doctor's note* verifying they were contagious to be in direct contact with classmates. These approved (8) hours at no cost to the student, strict guidelines apply.
3. Theory make-up requires an appointment with the Instructor. Instructor is required to be present at all times.
4. Theory make-up days are only scheduled on Sundays.
5. Students that miss theory hours with no doctor's note, are allowed to make-up the hours with an applied fee. The make-up fee is \$50.00 per hour and is an additional cost separate from the program.

Clinical Attendance:

1. Clinical make-up time needs to be scheduled with the Instructor with direct oversight of RNP and Administrator.

3. Clinical make-up requires an appointment with the Instructor. Instructor is required to be present at all times.
4. Clinical make-up days are only scheduled throughout the week.
6. Students that miss theory hours with no doctor's note, are allowed to make-up the hours with an applied fee. The make-up fee is \$50.00 per hour and is an additional cost separate from the program.

****Students have a maximum of (16) hours for make-up, 8 theory and 8 clinical. See requirements above regarding the make-up policy guidelines.**

Academic Probation and Dismissal Policies

The Chief Academic Officer may place a student on academic probation if the student is not making satisfactory academic progress as per this institution's published policy. The student's grade point average will be monitored at the end of each enrollment period as the grades are posted. Should the student's GPA fall below that required for graduation, a student may be placed on academic probation. This will result in a formal advisory, which will be sent to the student by mail, explaining the reason for the probation. If the student wishes to appeal the formal advisory, the student is to submit a written request for an administrative academic review to the school main campus:

First Lady Permanente, LLC Education Center
901-921 Geer Road, Turlock CA 95380

After the completion of the currently enrolled term, the student will have two additional terms to bring his or her grade point average up to or exceeding the minimum standard of the institution. Thereafter, the student's failure to achieve satisfactory academic progress may result in dismissal from the program. The Chief Academic Officer will offer assistance in locating a suitable tutor, should such service be requested by the student. Any student seeking a tutor is financially responsible for the cost of all such tutoring.

Make-up and Absenteeism Policy Procedure

If absenteeism prevents the student from meeting the program objectives, the student may be required to repeat the theory class, clinical experience, or both:

Any objective missed due to absence in either a clinical or theory course can be completed satisfactorily in one of the following ways:

- Written Assignments and Make-up Tests
 - No make-up tests or written assignments will be permitted unless the Program Director or Assistant Director give approval.
 - There will be no make-up test for an unexcused absence, and the student will receive a grade of 0 points for the test.
 - Make-up written assignments may be subject to an automatic reduction in points up to one grade level because of lateness.
- Theory Make-up
 - The student must make arrangements for scheduled make-up as per the attendance policy.
 - The make-up should reflect the scheduled topic(s) missed and require the student to spend time equivalent to the hours missed in order to be counted as make-up credit.
- Clinical Make-up
 - The student must make arrangements for scheduled make-up as per the attendance policy.
 - The make-up should reflect the clinical objectives missed and require the student to spend time equivalent to the hours missed in the skills lab or clinical area.

Students who have not completed all clinical and theoretical objectives prior to the completion of the Vocational Nurse program will not graduate nor be eligible for the State of California Licensing Examination until all objective have been satisfactorily completed with a minimum passing grade of C or 75%.

Leave of Absence

Should circumstances be such that a leave of absence is to be requested, a student must submit an application for a leave of absence to the main campus:

First Lady Permanente, LLC Education Center
901-921 Geer Road, Turlock CA 95380

The written notice must contain a statement of the nature of the request. At the discretion of the Chief Academic Officer, a leave may be granted for a reasonable time, as warranted by the circumstances. If a

student repeatedly resorts to the use of a leave of absence, and if such applications show a pattern of delays, or should the issuance of a leave of absence be such that it would significantly interfere with the planned completion of a program of study, the Chief Academic Officer may, in his/her sole discretion, dismiss a student from the program and issue the appropriate refunds as may be required.

Student Grievance Procedures – Student Rights

First Lady Permanente Education Center will make every attempt to resolve any student grievance that is not frivolous or without merit. Grievance procedures will be included in new student orientation so that all students know the steps to follow should they desire to register a grievance at any time. Evidence of final resolution of all grievances will be retained in school files in order to determine the frequency, nature, and patterns of grievances for the institution.

The following procedure outlines the specific steps of the grievance process.

1. If possible, address your grievances to your instructor at the first opportunity. Instructors maintain an “open door policy” whenever they are not actively involved in instruction, and will provide you with their e-mail and cell phone numbers to contact them at other times.
2. If your instructor does not resolve your grievance, or if your grievance is against your instructor, you should fill out a grievance form, and submit it to the FLP Admissions Office. The Admissions Office will route your grievance to the appropriate representative. If you are an NA student, this will be the program director for your campus. For all other programs, this will be the Chief Operating Officer of FLP.
 - a. **WRITTEN COMPLAINTS:** If, however, this action does not resolve the matter to the satisfaction of the student, he/she may submit a written complaint to the main campus:
First Lady Permanente, LLC Education Center
901-921 Geer Road, Turlock CA 95380
 - b. The written complaint must contain a statement of the nature of the problem, the date the problem occurred, the names of the individuals involved, copies of documents if any, which contain information regarding the problem, evidence demonstrating that the institution’s complaint procedure was properly followed, and the student’s signature. The student can expect to receive a written response within ten business days. Student’s rights are set forth at various places in this catalog. Contact the school director if you require additional information.

 - c. The grievance will be reviewed by management and a response will be sent in writing to the student within 30 days. The initial response may not provide for final resolution of the problem but will notify the student of continued investigation and/or actions being taken regarding the grievance.
 - d. If the grievance is of such nature that it cannot be resolved by the management, it will be referred to an appropriate agency if applicable.

- e. Depending on the extent and nature of the grievance, interviews with appropriate staff and other students may be necessary to reach a final resolution of the grievance.

Students retain the right, at any time, to refer their grievance to the appropriate government or industry accrediting agency for their program.

Student Appeals

If a student believes that he or she is deserving of an exception to the regulations and policies of this institution, that student may write to the Chief Executive Officer at the main address of the institution. The written communication should state the nature of the circumstances which the student believes should be considered by the administration in the application of its policies and regulations regarding dismissal, academic probation, administrative drops, extensions for the time needed to complete a grade, or other matter of concern.

Placement Services

The institution does not provide placement assistance.

Educational Assistance

Although First Lady Permanente Education Center does not offer job placement assistance to its students, educational assistance is readily available. If any student wishes to pursue a degree in higher education, either after completing their courses or during their enrollment, FLP will assist the student by providing useful materials to them, such as university brochures, catalogs, and registration materials. In addition, we will arrange appointments for the student to meet with the appropriate counselor to discuss admission and transfer requirements.

Student Orientation

Student orientation is a mandatory process to ensure the student is informed about the program in its entirety, program fees, and expectations. Student will meet the Administrator, and the Instructors. A scrub sizing is conducted and paperwork is filled out along with review of the student catalog.

Student Advising

The Student Service Staff is present during school hours to assist students with any issues/questions.

Evaluation of Student Progress

Evaluation of student progress will be ongoing and based upon meeting both theory and clinical objectives. Progress in theory is defined as maintaining a grade of “C” or better (75% or higher). Progress in clinical is

defined as maintaining a grade of “Satisfactory”. A failure in either area will cause the student to fail the semester or specialty.

Theory: Points will be given for each component of the course, such as tests, papers, and projects. To pass, the student must receive a minimum of 75% of the total points. Each instructor will grade and review results of required work with students and allow them time for discussion.

There are times throughout the program when a student’s progress may fall below 75%. Students who are experiencing difficulty meeting theory or clinical objectives may be issued a document of concern and subsequently be placed on a Learning Contract. The Learning Contract specifies the expectations that are not being met; the behaviors that are expected; and the date by which this must occur. As soon as a student’s learning and/or performance problems have been identified, the student will be notified regarding the concern and will be asked to meet with the instructor and Program Director.

Any time the student feels in jeopardy, she/he should consult with the instructor regarding the problem, following the grievance process as outlined.

Grades will follow this scale:

Score	Grade	GPA
95-100%	A	4.0
90%-94%	B+	3.5
85%-89%	B	3.0
80%-84%	C+	2.5
75%-79%	C	2.0

Note: A grade of “Incomplete” will only be given in the event that, due to extraordinary circumstances, a student has not been able to complete all the course work by the end of the semester. An “Incomplete” must be removed within two weeks of the end of a semester or it will default to an “F”.

Clinical: The clinical instructor is responsible for all student clinical assignments and evaluations. It is recognized that an exact match between theory and clinical are not always possible. Student assignments will include documented preparation to care for assigned patients along with documentation of assessment, care planning, and medication administration. Other assignments may be given as appropriate. Problems will be handled initially by the instructor and include the Program Director when indicated.

Evaluations for both theory and clinical will be discussed with each student as an on-going, continuous part of the class and written assessments will be made for each student at least once during each semester. Final evaluations are discussed with each student during the last week of each semester and then filed in the student’s record.

Remediation Policy:

Any student who has not maintained at least a 75% grade average in theory and/or a Satisfactory rating in clinical performance will be referred to the Program Director for a conference. At the conference, the student and the Program Director and instructor will:

1. Discuss the identified learning/performance problems;
2. Draw up a written contract specifying actions that will result in improved performance and are agreeable to the student, instructor, and Program Director;
3. Determine a date by which the contracted goals are to be satisfied; and
4. Schedule a second meeting.

At the second meeting, the Program Director and instructor will determine if the contract goals have been met. If the contract goals have not been met, the student may be dismissed from the program.

Understanding that students have different learning styles and may need additional assistance, students are encouraged to use the services of First Lady Permanente Education Center to increase the chance of success within the program. These include:

- a) Tutoring
- b) School library
- c) Study and test taking consultation

The student must demonstrate proficiency in each semester before being permitted to progress onto the next semester.
