Professional and/or legal exigencies arise from time to time that may necessitate changes in a pharmacy course, progression, and/or graduation requirements. Students should review their status with academic advisors on a timely basis and refer to current publications for updated information.

Requirements for the PharmD Pharmacy Practice Experiences (PPEs)

Requirements for the successful completion of the PharmD PPEs include:

1. Evidence of health clearance from University Health and Counseling Services before placements at any PPE site.
2. Satisfactory completion of any additional site-specific requirements including, but not limited to, criminal record information (CORI), urine drug screens, and verification of immunization status. All fees associated with these requirements are the responsibility of the student.

If the student learns the urine screen (aka test #1) is positive, the student will notify the OEE (pharmacyoe@northeastern.edu) and immediately complete a second urine screen (aka test #2). A professional concern form will be completed based on test #1 results.

- If that urine screen (test #2) is negative (-), the student will be allowed to continue the PPEs. However, the student will be asked to complete a random urine screen (aka test #3) at a time determined by the OEE. If this urine screen (test #3) is positive (+), the student will be administratively removed from the active PPEs and graduation may be delayed. A second professional concern form will be completed, based on test #3 results. The return to PPEs will occur once a repeat urine test is negative. That repeat negative test will be followed up by a random urine screen at a time determined by the OEE.
- If the urine screen (test #2) is positive (+), the student will be administratively removed from the PPEs and graduation may be delayed. The return to PPEs will occur once a repeat urine screen is negative. That negative screen will be followed up by a random urine screen at a time determined by the OEE. A second professional

concern form will be completed based on a positive test #3 result.

3. Adherence to the school's code of professional conduct and university's code of conduct policies while off-campus.
4. Maintenance of an active, pharmacy intern license in every state where the student completes an experience.
5. Compliance with site-specific requirements (via site descriptions) and completion of site requests within specified deadlines. Failure to complete these requirements as directed will likely result in delay of graduation.
6. Maintenance of a portfolio throughout the professional years and completion of all portfolio submission requirements within specified deadlines.
7. Students are expected to adhere to the policies and standards of their program major as stated to progress through their curriculum as planned. Students seeking any exceptions to the program policies and standards specified for their program major must present a petition before the School of Pharmacy Academic Standing Committee.

Given programmatic requirements, coupled with concerns over the loss of therapeutic knowledge, requests for a general leave of absence:

- Must comply with all stated Northeastern University general policies, regardless of the academic year.
- May be made at any time period during the freshman through P2 years.
- During the P3 academic year, any request for a general leave must be made no later than February 1 of the given academic year. Requests after this date for students in the P3 year will not be permitted.
- During the P4 academic year, requests for a general leave cannot be made at any time.

Technical Standards for the Doctor of Pharmacy Program

The PharmD program at Northeastern University is a rigorous and challenging academic program that requires students to possess specific characteristics and abilities within the cognitive, affective, and psychomotor domains, referred to here as technical standards. To successfully progress in and ultimately complete the didactic, laboratory, and experiential components of the PharmD program, students must meet the standards described below.

INTELLECTUAL ABILITIES

Students must have well-developed problem-solving and critical-thinking skills. Cognitive function must be appropriate to integrate, evaluate, and apply information gained through measurement, analysis, calculation, and reasoning. Students must have the capacity to learn efficiently in classroom, laboratory, small group and experiential settings, and through independent study. Students are required to demonstrate the ability to integrate course content knowledge with clinical practice applications to optimize medication therapy management.

COMMUNICATION SKILLS

Students must be able to communicate effectively with colleagues, professors, patients, families, and healthcare providers. This includes efficiently comprehending, speaking, reading, and writing in English. Students must be able to process and use appropriate nonverbal cues and be proficient in the use of electronic communication media.

BEHAVIORAL AND SOCIAL ATTRIBUTES

Students must demonstrate professionalism, maturity, integrity, honesty, compassion, and respect when relating to others. Students must have sufficient mental and emotional health to complete work and responsibilities using good judgment. Students must be able to tolerate and adapt to stressful workloads and situations and modify behavior based on constructive criticism. Students must be able to function in accordance with the legal, ethical, and professional standards of practice.

OBSERVATION AND MOTOR SKILLS

Students must have functional use of visual, auditory, and tactile senses. Students must be able to observe and perform experiments, physical assessments, patient interviews, and medication order processing. Students must be able to distinguish physical characteristics of medications by inspection. Students must have coordination of gross and fine muscular movements sufficient to perform pharmacy-related tasks including compounding and dispensing medications, administering medications, and using computers and other technology necessary for learning and professional practice.

Pharmaceutical Sciences, BS

The Bachelor of Science in Pharmaceutical Sciences is geared toward highly motivated students who are strongly focused on careers in biomedical/pharmaceutical research, biomedicine, and/or the pharmaceutical/biotech industries. The educational approach is an innovative paradigm that immerses students into undergraduate research at the earliest possible time and promotes graduate-style mentorship and experiential learning in the context of an intensive scientific curriculum with specialized educational opportunities. Pharmaceutical sciences are by nature highly interdisciplinary: pharmacology; physiology; structural biology; medicinal chemistry; pharmaceuticals and the allied fields of toxicology, chemical biology, and nanomedicine; and a spectrum of emerging health science disciplines that span classical life sciences, engineering, and biotechnology. All students take courses in basic chemistry, basic biology, organic chemistry, physiology, pharmacology, medicinal chemistry, and pharmaceutical sciences. Students can then further specialize their educations with elective courses in areas of their interest and their developing career trajectories.

Entering students are expected to initiate a self-directed search for opportunities to participate in laboratory research. In the first year, students complete Introduction to Health Science Research (PHSC 2650), a course that introduces students to scientific literature, hypothesis generation, and use of the scientific method to investigate unsolved problems. To facilitate student identification and research, this course also introduces students to faculty researchers from within and outside of the university, with the goal of matching students with faculty research mentors.

Graduates of the Bachelor of Science in Pharmaceutical Sciences program will have a solid foundation in the science of drug discovery, delivery, evaluation, and development, as well as specialized training at the undergraduate level in research labs. The program prepares students to pursue graduate studies, enroll in professional programs, or enter the biopharmaceutical industry. The BS degree requires a minimum of four years of study and provides for at least one co-op period. Graduates are positioned to pursue MS and PhD programs in the biomedical sciences, medical schools, and other health professional degree programs.

Bachelor of Science in Pharmaceutical Sciences—Progression Standards

The Bachelor of Science in Pharmaceutical Sciences requires students to maintain a set of academic standards that include maintaining an overall GPA of 3.000 or better and a science GPA of 3.000 or better. A grade of C is the minimal passing grade for any of the required courses in the major. The program also requires students to seek out and establish laboratory research opportunities with a faculty-level mentor. It is advised that students get involved in laboratory research during their first year in the program. It is required that the student secure a laboratory research opportunity by the spring semester of the second year and complete Lab Research Rotation (PHSC 2100) by the end of the second year.

All students admitted to the pharmaceutical sciences major will need to adhere to progression policies to enter the third year of the program. At the end of the second year, fall semester, failure to complete all required course work at or exceeding program standards and/or to not involve oneself in a laboratory research opportunity will be considered a professional deficiency. According to standard policy, affected students will be invited to meet with the School of Pharmacy Academic Standing Committee and may prepare a report describing how they will satisfy outstanding requirements by the end of the summer of the second year for consideration by the committee. If the plan is not accepted, or accepted but not executed by the end of summer of the second year (or as agreed), then the student will be dismissed from the program. Under such circumstances, the student can follow standard School of Pharmacy policies to appeal.

Securing a Laboratory Research Opportunity

The Bachelor of Science in Pharmaceutical Sciences requires students to earn a minimum of 12 credits for laboratory research through participation in a research rotation (Laboratory Research Rotation) and the writing and completion of an undergraduate thesis (comprised of Senior Thesis and Senior Thesis Continuation). Students must have the initiative to seek out opportunities for undergraduate laboratory research either on campus, off campus at a neighboring university, or in an industry setting accessible to the student, under the direction of a faculty-level mentor. Students are assisted with securing laboratory research experiences through participation in the Introduction to Health Science Research course during the spring of the first year and as needed, through work with a faculty advisor within the BS in Pharmaceutical Sciences program. A variety of university resources are also available to assist students in finding opportunities, including the Bouvé College Office of Research, the Northeastern University Office of Undergraduate Research and Fellowships, the Northeastern University Integrated Initiative for Global Health, and various other departmental and college resources across Northeastern University.

Change of Major

Students are eligible to transfer into the program at any point prior to the third year of the program. All students who wish to transfer into the program and have completed Biology 1 with lab and Chemistry 1 with

lab must have earned a grade of B or better and have an overall GPA of 3.000 or better.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

NUpath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required courses. Students are responsible for satisfying these requirements with open electives.

Pharmacy Studies, BS

Students enrolled in the Doctor of Pharmacy (PharmD) program will be awarded a Bachelor of Science in Pharmacy Studies after successful completion of all didactic and laboratory courses in semesters 1 through 10 of the pharmacy curriculum with an overall grade-point average (GPA) of 2.000 or greater. The Bachelor of Science in

Pharmacy Studies does not allow for individuals to pursue licensure for direct patient care in the practice of pharmacy.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

The NUPath requirement Interpreting Culture (IC) is not explicitly satisfied by required courses. Students are responsible for satisfying this requirement with an open elective.

Pharmacy Studies Major Grade Requirement

A grade of C or higher is required in all PHMD and PHSC courses.

Pharmacy, PharmD

The six-year (two years of preprofessional and four years of professional courses) program at Northeastern University leading to the professional Doctor of Pharmacy degree (PharmD) fully integrates campus-based learning with experiential learning, including the university's signature

cooperative education (co-op) program, to provide students with the knowledge, skills, and abilities necessary to succeed in the pharmacy profession. Our students promote and ensure the safe and effective use of drugs and provide medication therapy management services. In addition to preparing and dispensing prescribed medications, our students provide information to patients about medications and their uses; advise physicians, other prescribers, and other healthcare practitioners on medication selection, dosages, interactions, and adverse effects; and monitor patient responses to drug therapy.

The pharmacy curriculum includes introductory (cooperative education) and advanced pharmacy practice experiences (IPPEs and APPEs). These pharmacy practice experiences are provided primarily under the direct supervision of qualified pharmacist preceptors and occasionally with other qualified healthcare professionals. The school is affiliated with many world-class practice sites throughout the United States, providing students with access to experienced clinicians and scholars. Although every effort is made to accommodate individual circumstances and requests, students should be prepared to travel outside the Boston area to complete some of their pharmacy practice experiences. Availability of a car may be required, as some sites are not accessible by public transportation. All expenses associated with pharmacy practice experiences, including travel and housing, are the responsibility of the student.

IPPEs are competitive placements that are based on job availability in a geographic region. The placements are facilitated by School of Pharmacy cooperative education coordinators. Students are required to earn a satisfactory (S) grade on one IPPE in a community setting and on one IPPE in an institutional/hospital practice setting.

APPE placements are provided based on site/preceptor availability and the final approval of the School of Pharmacy Office of Experiential Education (OEE). Students may be able to petition the OEE for out-of-system APPEs; however, availability for such requests is limited.

To be eligible for a Doctor of Pharmacy degree, a student must successfully complete all courses in the curriculum including the IPPEs (co-op) and APPEs; meet the academic progression standards of the program; meet the technical standards of the program; and satisfy all other requirements as stated in the *Bouvé College of Health Sciences Undergraduate Student Manual* (<https://bouve.northeastern.edu/undergraduate/student-manual>). The pharmacy program, which is fully accredited by the Accreditation Council for Pharmacy Education (ACPE) (<https://www.acpe-accredit.org>), subscribes and adheres to the standards established by ACPE.

Students enrolled in the PharmD program will be awarded a Bachelor of Science in Pharmacy Studies after successful completion of all didactic and laboratory courses in semesters 1 through 10 of the pharmacy curriculum. The Bachelor of Science in Pharmacy Studies does not allow for individuals to pursue licensure for direct patient care in the practice of pharmacy. To earn the PharmD degree, students must complete an additional 36 semester hours of APPEs with an overall GPA of 3.000 or greater in the Bouvé College of Health Sciences graduate program.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

The NUPath requirement Interpreting Culture (IC) is not explicitly satisfied by required courses. Students are responsible for satisfying this requirement with an open elective.

Pharmacy Major (PharmD) Grade Requirement

A grade of C or higher is required in all PHMD and PHSC courses.

Pharmacy Major Requirements

A 3.000 GPA is required at the end of the second year to progress to the third year (first professional year).

Accelerated Bachelor/Graduate Degree Programs

Northeastern University offers a number of PlusOne bachelor's/master's degree programs that allow students to accelerate the completion of the bachelor's degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Generally, both degrees may be earned in one more year than is the normal time allotted for completion of the bachelor's degree. See additional information on PlusOne Bachelor's/Master's programs (<https://bouve.northeastern.edu/health-sciences/programs>).

BS in Health Science/MPH—Master of Public Health

The Department of Health Sciences offers a combined undergraduate Bachelor of Science in Health Science and a Master of Public Health in Urban Health. This program allows undergraduate health science majors to complete both degrees in a shorter amount of time than it would take to do each program separately. Students in the combined degree program will meet the core curriculum requirements for both a BS and an MPH degree. Fifteen credits of the MPH degree are taken during the final undergraduate year, and the MPH degree is completed over one additional year.

Undergraduate students can enter the PlusOne Accelerated Program (BS/MPH) via two ways:

- Undergraduate health science majors apply to the PlusOne program through the graduate school's Apply Yourself system in the spring semester of their junior year.
- Those students who were offered conditional acceptance to the PlusOne program as part of their undergraduate acceptance automatically matriculate into the program if they maintain at least a 3.500 cumulative grade-point average, take a health-related co-op, and officially commit to this program in the spring semester of their junior year. No additional application is required.

Once admitted, students may count a maximum of 15 semester hours of graduate credit toward the undergraduate degree. Consult the department for information on this program.

PharmD—Doctor of Pharmacy/MPH—Master of Public Health

Undergraduate pharmacy majors enrolled in the joint Doctor of Pharmacy (PharmD)/Master of Public Health (MPH) program have the opportunity to take graduate courses in the MPH program while earning their PharmD. Up to 15 credit hours of these courses count toward both their PharmD and MPH, allowing these students to earn their MPH in a shorter amount of time than it would take to earn it separately from their PharmD.

Undergraduate pharmacy students can enter the PlusOne Accelerated Program (PharmD/MPH) by applying to the PlusOne program through the graduate school's Apply Yourself system in the spring semester of their P2 year.

Once admitted, students may count a maximum of 16 semester hours of graduate credit toward the undergraduate degree. Consult the department for information on this program.

Psychology, BS/Applied Behavior Analysis, MS

The Department of Psychology in the College of Science and the Department of Applied Psychology in Bouvé College jointly offer a PlusOne program in applied behavior analysis. Undergraduate psychology majors have the opportunity to take graduate courses in applied behavior analysis during their final year of undergraduate studies (up to 15 credits) that count toward the student's undergraduate and graduate degrees. As a result, students in the PlusOne program may complete the Master of Science in three semesters after obtaining their undergraduate degree. Undergraduate students interested in this program are encouraged to apply during the fall of their junior year using Bouvé College's Apply Yourself application system. Questions regarding this program may be directed to the program director for the applied behavior analysis programs in the Department of Applied Psychology.

COSAdvising@northeastern.edu

The College of Science (COS) offers instructional programs that are at the forefront of discovery, invention, and innovation in the physical sciences, life sciences, linguistics, and mathematics. Our programs are designed to give students a deep understanding and hands-on experience in traditional and emerging interdisciplinary fields such as chemical biology, cognition and neuroscience, marine science, biochemistry, nanoscience, and network science.

The college places a strong emphasis on the experiential learning model and seeks to provide students with a wide array of opportunities to explore innovative, interdisciplinary collaborations through cooperative educational work assignments, service-learning, undergraduate research, internships, study-abroad programs, and active participation in our award-winning student chapters of professional associations. The college seeks to provide students with the best possible foundation for achieving their goals, whether they seek to attend graduate school, professional school, or immediately pursue a career upon graduation.

The college offers Bachelor of Arts (BA), Bachelor of Science (BS), and Bachelor of Science/Master of Science (BS/MS) (PlusOne programs) degrees in a number of majors, as well as a Bachelor of Science/ Doctor of Philosophy (BS/PhD) in physics and many interdisciplinary programs, and emphasizes the value of a solid general education through the NU Core. Students may choose a four- or five-year experiential learning plan in most programs. Either plan offers co-op opportunities, often in an area related to the student's chosen academic area. Students are normally eligible to participate in co-op in the second semester of their sophomore year.

Many programs are flexible enough to allow students to pursue a double major, a major and a minor, or one of the college's specific combined majors. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by a specific major program.

PlusOne Programs

Many programs and departments such as biochemistry, biology, chemistry and chemical biology, mathematics, and physics offer academically strong students the option of obtaining their BS and MS degree in five years.

College Requirements

All students in the College of Science must successfully complete the university requirements of NUPath (p. 37). In addition, students pursuing a Bachelor of Arts degree must fulfill the BA requirements (p. 40). Students pursuing a combined major involving a program in the College of Social Sciences and Humanities must, in addition, fulfill the Experiential Liberal Arts (<https://www.northeastern.edu/cssh/undergraduate>) (ELA) requirement. The Experiential Liberal Arts Course Designation is part of a CSSH framework that emphasizes integration of experiential learning along with diversity and inclusion at key points in the curriculum. Students will ordinarily fulfill this requirement through an ELA-designated course within the major; any CSSH course on a Dialogue of Civilizations; or any CSSH service-learning course. Please consult your academic advisor and your degree audit for the ELA options for your major.

Academic Advising

The College of Science has an academic advising system that consists of professional advisors located in the College of Science Student Services Office in 206 Mugar Hall and faculty advisors located in the college's department and program offices. Detailed advising information is available on the college website (<http://www.northeastern.edu/cos>). Prelaw (<http://www.northeastern.edu/prelaw>) advising and prehealth (<http://www.northeastern.edu/prehealth>) advising are also available.

Graduation Clearance Process

Students in the College of Science are required to meet with an academic advisor in the College of Science Student Services Office in 206 Mugar Hall to determine their remaining graduation requirements. Some departments also require a meeting with a faculty advisor in their major/program. This should be completed in the junior year to ensure ample time to complete any outstanding requirements.

Academic Progression Standards

In addition to meeting university progression standards, it is expected that full-time science students enroll in four courses with appropriate labs and recitations and successfully complete at least 12 semester hours each academic semester with an acceptable GPA as noted below. Any exceptions to the course load requirement must be approved in writing by the student's academic advisor prior to the start of each semester. Pass/fail courses are restricted to electives outside of the major, minor, and NUPath requirements.

GRADUATION REQUIREMENTS

A minimum cumulative GPA requirement of 2.000 in major courses and a minimum cumulative GPA requirement of 2.000 overall are required for graduation. *Note:* The university requires a minimum grade of C for First-Year Writing and Advanced Writing requirements.

CRITERIA FOR ACADEMIC PROBATION

Full-time students in the College of Science will be placed on academic probation effective for the following academic semester for any of the

reasons noted below. A notation of the academic probation action will appear on the internal record but not on the permanent transcript.

First-year Students:

- Not maintaining a semester GPA of at least a 1.800 at the end of each full-term semester (fall, spring) of the first-year curriculum
- Not earning at least 12 semester hours at the end of each semester of the first-year curriculum
- Not earning at least 24 semester hours at the end of the two full-term semesters (fall, spring) of the first-year curriculum
- Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)

Upper-class and Transfer Students:

- Not earning at least 12 semester hours in the academic full-term semester (fall, spring) just completed
- Not maintaining an overall cumulative GPA of at least 2.000 at the end of each full-term academic semester (fall, spring)
- Accumulating three outstanding course deficiencies (grades of F, I, W, NE, U, or missing grades)
- Not following a program of study approved by the student's academic advisor

Academic Dismissal from Major

Not maintaining a GPA of at least a 2.000 in the major at the end of the second academic full-term semester of the curriculum and at the end of each full-term academic semester (fall, spring) thereafter. Students dismissed from their major but otherwise are eligible to remain an active student within the university, are allowed to continue within the College of Science as a transitional student for up to two semesters.

ACADEMIC DISMISSAL FROM UNIVERSITY

Students who remain on probation after two full-term academic semesters may be dismissed from the university. This action may appear on the transcript at the end of the second probationary semester. In addition, students who have below a 1.000 GPA or fewer than 4 earned semester hours in any semester or cumulatively may be dismissed at the discretion of their college. Students may appeal this decision to the Academic Standing Committee of their college (see following section). International students should consult with an advisor in the Office of Global Services (OGS) (<http://www.northeastern.edu/ogs>) to discuss the impact of an academic dismissal as it relates to nonimmigrant visa status.

Behavioral Neuroscience

Website (<http://www.northeastern.edu/cos/bns>)

M. Jade Zee, PhD

Assistant Teaching Professor and Program Director

Jennifer Ingemi, PhD

Assistant Teaching Professor and Assistant Director

The behavioral neuroscience major is an interdepartmental program for undergraduates, supported by neuroscience faculty across the College of Science. The field of neuroscience focuses on brain mechanisms and how they give rise to behavioral functions in humans and animals.

Behavioral neuroscience combines the disciplines of biology and psychology with a strong background in basic physical sciences and mathematics. The goal is to achieve an understanding of the anatomy and physiology of nerve cells, chemical transmission, neural circuits, fundamental biological processes such as inheritance and development, and then to see how these biological events give rise to normal and pathological behavior. The primary objective of the neuroscience major is to draw together faculty and students who are interested in this interdisciplinary topic and to provide undergraduates with an education in the field. This major also seeks to prepare students for advancement to graduate programs in the field of neuroscience or in biology or psychology programs with an emphasis in neurobiology. An additional objective of this major is to prepare its students for admission to medical school or other health profession programs. Finally, the goal of the curriculum is to prepare students for employment in clinical settings or in allied fields such as the biotech industry.

Behavioral Neuroscience Minor

The behavioral neuroscience minor consists of five courses requiring a minimum of 20 semester hours of study. Students are required to take one intermediate-level survey course and four behavioral neuroscience core courses, two from each of the parent departments of the discipline (i.e., psychology and biology). All students regardless of their major, including those majoring in psychology and biology, may minor in behavioral neuroscience.

Programs

Bachelor of Science (BS)

- Behavioral Neuroscience (p. 469)

Minor

- Behavioral Neuroscience (p. 472)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 621)

Behavioral Neuroscience, BS

The behavioral neuroscience curriculum focuses on the biological bases underlying behavior under normal and pathological states. The program combines the disciplines of biology and psychology with a strong background in basic physical sciences and mathematics to understand how the behavior of humans and animals is controlled by physiological systems. Students gain a solid foundation in the anatomical and functional specializations of the brain and neural mechanisms from neurons to circuits to networks. Students then choose from a range of advanced electives, including those that make up the behavioral neuroscience core, to delve deeply into diverse specializations and current topics in the field.

Note: Due to overlap in course content, double majoring in behavioral neuroscience with any of the following majors is not permitted: psychology, biology, cell and molecular biology, or biochemistry. Students interested in interdisciplinary fields such as neurophilosophy, music therapy, music cognition, or the interface of neuroscience with the criminal justice system are encouraged to double major in philosophy, music, or criminal justice. Five-year, two co-op patterns of attendance exist for double majors in these complementary fields. Other combined or independent majors with behavioral neuroscience are not permitted.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Behavioral Neuroscience Core Requirements

Code	Title	Hours
Complete six of the following courses. At least three must be numbered in the 4000–5999 range:		24-25
BIOL 3403	Animal Behavior	
BIOL 3405	Neurobiology	
BIOL 3601	Neural Systems and Behavior

Behavioral Neuroscience, Minor

The behavioral neuroscience minor allows all students, including those majoring in biology and psychology, the opportunity to complement their major plans of study with an interdisciplinary minor in behavioral neuroscience.

Minor Requirements

Students are required to take one intermediate course followed by four behavioral neuroscience core courses, two from each of the parent departments of the discipline (i.e., psychology and biology).

Intermediate Course

Code	Title	Hours
PSYC 3458	Biological Psychology	4
or BIOL 3405	Neurobiology	

Psychology Core Courses

Code	Title	Hours
Complete two of the following:		
PSYC 3200	Clinical Neuroanatomy	
PSYC 3506	Neuropsychology of Fear	
PSYC 3508	Behavioral Endocrinology	
PSYC 3510	Brain, Behavior, and Immunity	
PSYC 4510	Psychopharmacology	
PSYC 4512	Neuropsychology	
PSYC 4514	Clinical Neuroscience	
PSYC 4570	Behavioral Genetics	

Biology Core Courses

Code	Title	Hours
Complete two of the following courses not completed above:		
BIOL 3403	Animal Behavior	
BIOL 3405	Neurobiology	
BIOL 3601	Neural Systems and Behavior	
BIOL 3605	Developmental Neurobiology	
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 5587	Comparative Neurobiology	
BIOL 5595	Cell and Molecular Neuroscience	

Credit/GPA Requirement

20 total semester hours required
2.000 GPA required in the minor

Biochemistry

Website (<http://www.northeastern.edu/biochemistry>)

Susan Powers-Lee, PhD
Professor and Program Director

203 Mugar Life Sciences Building

Morline Gordon-Grier, Administrative Secretary,
m.gordongrier@northeastern.edu
Advising website (<http://www.northeastern.edu/biochemistry>)

Biochemistry focuses on the chemical processes occurring in the wide variety of living systems and touches essentially all aspects of our own lives. Our Northeastern program engages you in two integrated paths to a career in biochemistry: rigorous course work that is designed to prepare you to interpret the ever-expanding knowledge base and hands-on learning that positions you to leverage cutting-edge technology to solve fundamental problems in the chemistry of life.

After required basic course work in biochemistry, biology, chemistry, physics, and mathematics, our majors select elective courses that reflect many areas of biochemistry including neuroscience, bioorganic chemistry, stem cell and regenerative biology, microbial biotechnology, and systems biology and engineering.

In our interdisciplinary program, students take advantage of faculty-mentored research guided by investigators from bioengineering, biology, chemical engineering, chemistry, pharmaceutical sciences, physics, psychology, and other academic units.

Northeastern's signature co-op program provides complementary opportunities in world-class biotechnology companies, hospitals, and research facilities as close as Boston and as far as your global interest takes you.

Our biochemistry program prepares students to enter the job market directly or go on to graduate, medical, veterinary, dental, law, or business school. Our graduates are qualified for a wide range of careers that span academics, industry, government, and medicine, working in laboratory or clinical research, regulation and quality control, production, marketing, or information systems.

Programs

Bachelor of Science (BS)

- Biochemistry (p. 473)
- Data Science and Biochemistry (p. 354)

Bachelor of Science in Chemical Engineering (BSCHE)

- Chemical Engineering and Biochemistry (p. 381)

Minor

- Biochemistry, Minor (p. 479)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 621)

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Biochemistry Major Requirements

Code	Title	Hours
Introduction to College		
BIOC 1000	Biochemistry at Northeastern	1
Biology Foundations		
<i>Foundations</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<i>Inquiries</i>		
BIOL 2299	Inquiries in Biological Sciences	4
<i>Techniques</i>		
BIOL 2309	Biology Project Lab	4
Genetics and Molecular Biology		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
General Chemistry 1		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
General Chemistry 2		
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	5
Organic Chemistry 1		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
Organic Chemistry 2		
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
Physical Chemistry		
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	5
Biochemistry Courses		
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
BIOL 4707	Cell and Molecular Biology	4
CHEM 4620	Introduction to Protein Chemistry	4
Experiential Learning Introduction		
EESC 2000	Professional Development for Co-op	1
Capstone		
BIOL 4701 or CHEM 4750	Biology Capstone Senior Research	4

Biology and Chemistry Advanced Electives

Complete three courses for a total of at least 12 semester hours from biology and chemistry with a minimum of one course from each department. Up to 4 semester hours may be research in a biology or chemistry faculty lab from the list "Research Option" below.

Code	Title	Hours
Biology		
BIOL 2311 to BIOL 5999		
Chemistry		
CHEM 2310 to CHEM 5999		
Research Option		
Up to 4 semester hours may be research in a biology or chemistry faculty lab:		4
BIOC 4991	Research	
BIOC 4970	Junior/Senior Honors Project 1	
BIOC 4971	Junior/Senior Honors Project 2	
BIOC 4994	Internship	
BIOL 4991	Research	
BIOL 4970	Junior/Senior Honors Project 1	
CHEM 4901	Undergraduate Research	
CHEM 4750	Senior Research	
CHEM 4970	Junior/Senior Honors Project 1	

Biochemistry Breadth Courses

A minimum GPA of 2.000 is required for the biochemistry breadth courses.

Code	Title	Hours
Mathematics Courses		
Complete one of the following options:		8
<i>Option 1</i>		
MATH 1251	Calculus and Differential Equations for Biology 1	
MATH 1252	Calculus and Differential Equations for Biology 2	
<i>Option 2</i>		
MATH 1341	Calculus 1 for Science and Engineering	
MATH 1342	Calculus 2 for Science and Engineering	
Physics Courses		
<i>Physics 1</i>		
Complete a lecture and lab set for Physics 1:		5
PHYS 1171 and PHYS 1172 and PHYS 1173	Physics 1 for Bioscience and Bioengineering and Lab for PHYS 1171 and Interactive Learning Seminar for PHYS 1171	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
<i>Physics 2</i>		
Complete a lecture and lab set for Physics 2:		5
PHYS 1175 and PHYS 1176 and PHYS 1177	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175	

PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165

Biochemistry Major Credit/GPA Requirements

Complete 92 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in biochemistry and biology, biochemistry and behavioral neuroscience, or biochemistry and chemistry is not permitted.

Program Requirement

136 total semester hours required

Plan of Study

Please note that these are sample plans of study. While the requirements are the same for all students, individual schedules may vary.

Four Years, Two Co-ops in Summer 2/Fall

Year 1

Data Science and Biochemistry, BS

The Data Science and Biochemistry Major combines computer science, biochemistry, biology, information science, mathematics, and statistics into an integrated curriculum. The program engages students in rigorous course work designed to prepare students to interpret the ever-expanding knowledge base.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Data Science Requirements

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1
Discrete Structures		
A grade of C– or higher is required:		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5

Computer Science Foundations

A grade of C– or higher is required:

CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4

Data Science Foundations

DS 4100	Data Collection, Integration, and Analysis	4
DS 4200	Information Presentation and Visualization	4
DS 4300	Large-Scale Information Storage and Retrieval	4
DS 4400	Machine Learning and Data Mining 1	4

Data Science Upper-Division Elective

Complete one of the following, not taken to fulfill previous requirements:

CS 2500 or higher, except CS 5010	
IS 2000 or higher, except IS 4900	
DS 2000 or higher, except DS 4900	

Supporting Courses for Data Science

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Statistics Foundations

Complete one of the following:		4
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
MATH 3081	Probability and Statistics	

Computer Science Writing Requirement

Code	Title	Hours
College Writing		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4

Advanced Writing in the Disciplines

ENGW 3302 or ENGW 3315	Advanced Writing in the Technical Professions Interdisciplinary Advanced Writing in the Disciplines	4
---------------------------	--	---

Biochemistry Requirements

Code	Title	Hours
Biology Foundations		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
BIOL 2299	Inquiries in Biological Sciences	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 2309	Biology Project Lab	4
Chemistry Foundations		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	5

CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5

Mathematics Foundations

MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4

Biochemistry Foundations

BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 2331 and CHEM 2332 or CHEM 4620	Bioanalytical Chemistry and Lab for CHEM 2331 Introduction to Protein Chemistry	4-5

Integrative Requirement

Code	Title	Hours
Integrative Courses		
BINF 6308	Bioinformatics Computational Methods 1	4
BINF 6309	Bioinformatics Computational Methods 2	4
Complete one of the following:		4
BIOL 4701	Biology Capstone	
CHEM 4750	Senior Research	
DS 4900	Data Science Senior Project	

Required General Electives

Code	Title	Hours
Complete three general electives.		12

Major GPA Requirement

Minimum 2.000 GPA required in all CS, IS, and DS courses

Program Requirement

136 total semester hours required

Chemical Engineering and Biochemistry, BSCHE

This intercollege combined major serves students who would like to explore their interest in biochemistry while earning the benefit of a Bachelor of Science degree in chemical engineering. The program combines the fundamentals of biochemistry with the engineering skills necessary for scale-up of biochemical processes. Successful graduates will be well-qualified to enter the growing biotechnology industry and be able to converse from the chemistry of organisms to the design of vessels for successful synthesis of cells and pharmaceuticals.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Major GPA Requirement

2.000 minimum required in CHME courses

Mathematics/Science Requirement

Complete 44 semester hours in mathematics and science as indicated below.

Code	Title	Hours
Required Mathematics/Science		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
BIOL 4707	Cell and Molecular Biology	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
Advanced Biology Elective		
Complete one course in the following range:		4
BIOL 2311 to BIOL 5999		
Supplemental Credit		
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1502	Cornerstone of Engineering 2	

Advanced Science Requirement

Complete 23 semester hours in advanced science as indicated below.

Code	Title	Hours
BIOL 1115	General Biology 1 for Engineers	4
CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311	5
CHEM 2313 and CHEM 2314 and CHEM 2320	Organic Chemistry 2 and Lab for CHEM 2313 and Recitation for CHEM 2313	5
CHEM 2331 and CHEM 2332	Bioanalytical Chemistry and Lab for CHEM 2331	5
Advanced Chemistry Elective		
Complete one course in the following range:		4
CHEM 2310 to CHEM 5999		

Engineering

Complete 50 semester hours in engineering as indicated below.

Code	Title	Hours
Required Engineering		
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4
CHME 3315	Chemical Engineering Experimental Design 1	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315	Chemical Engineering Experimental Design 2	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4512	Chemical Engineering Process Control	4
CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703	Capstone Design 2: Chemical Process Design	4
Supplemental Credit		
3 semester hours from the following course count toward the engineering requirement:		3
GE 1501	Cornerstone of Engineering 1	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2	
Professional Development		
Complete 4 semester hours in professional development as indicated below.		
Professional Development		
GE 1000	Introduction to the Study of Engineering	1
CHME 2000	Introduction to Engineering Co-op Education	1
CHME 3000	Professional Issues in Engineering	1
Additional Required Courses		
The remaining credit from the following course will apply to the professional development area:		1
GE 1501	Cornerstone of Engineering 1	

Additional NUpath Courses

Code	Title	Hours
Writing		
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3307	Advanced Writing in the Sciences	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

NUpath Requirements Through General Electives

NUPath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

Required General Electives

Complete four academic, nonremedial, nonrepetitive courses, each equivalent to 4 semester hours.

Course Work That Does Not Count Toward the Engineering Degree

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

Program Requirement

145 total semester hours required

Plan of Study

Five Years, Three Co-ops in Summer 2/Fall

Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours

Biochemistry, Minor

The biochemistry minor allows students to engage in interdisciplinary study of biochemistry to complement their major plans of study.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

The biochemistry minor is not available to majors in biology or cell and molecular biology due to curricular overlap.

Required Courses

Code	Title	Hours
Core Courses		
BIOL 4707	Cell and Molecular Biology	4
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
CHEM 4620	Introduction to Protein Chemistry	4

Biology Core Course

Code	Title	Hours
Complete one of the following course options:		4
BIOL 2321 and BIOL 2322	Microbiology and Lab for BIOL 2321	
BIOL 2327	Human Parasitology	
BIOL 3405	Neurobiology	
BIOL 3409	Current Topics in Biology	

BIOL 3605	Developmental Neurobiology
BIOL 3609	Developmental Biology
BIOL 5306	Biological Clocks
BIOL 5307 and BIOL 5308	Biological Electron Microscopy and Lab for BIOL 5307
BIOL 5499	Plant Biotechnology
BIOL 5541	Endocrinology
BIOL 5543	Stem Cells and Regeneration
BIOL 5549	Microbial Biotechnology
BIOL 5573	Medical Microbiology
BIOL 5581	Biological Imaging
BIOL 5583	Immunology
BIOL 5591	Advanced Genomics
BIOL 5593	Cell and Molecular Biology of Aging

Chemistry Core Course

Code	Title	Hours
Complete one of the following course options:		4
CHEM 2331 and CHEM 2332	Bioanalytical Chemistry and Lab for CHEM 2331	
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	
CHEM 4621 and CHEM 4622	Introduction to Chemical Biology and Lab for CHEM 4621	
CHEM 4628 and CHEM 4629	Introduction to Spectroscopy of Organic Compounds and Identification of Organic Compounds	
CHEM 5550	Introduction to Glycobiology and Glycoprotein Analysis	
CHEM 5611	Analytical Separations	
CHEM 5612	Principles of Mass Spectrometry	
CHEM 5613	Optical Methods of Analysis	
CHEM 5616 and CHEM 5617	Protein Mass Spectrometry and Protein Mass Spectrometry Laboratory	
CHEM 5625	Chemistry and Design of Protein Pharmaceuticals	
CHEM 5638	Molecular Modeling	
CHEM 5676	Bioorganic Chemistry	

GPA Requirement

2.000 GPA required in the minor

Chair and University Distinguished Professor

134 Mugar Life Sciences Building

617.373.2260

617.373.3724 (fax)

Advising website (<http://www.tinyurl.com/bioadv>)

The Department of Biology offers two majors, the BS in biology and the BS in cell and molecular biology. Both majors lay the groundwork for strong scientific training with basic course work in mathematics,

chemistry, and physics, relevant to biology. In the biology major, students explore the organization and processes of life, from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. The BS degree in cell and molecular biology offers a more focused program of study emphasizing processes operating at the cellular and molecular levels of biological systems. In both majors, students can select advanced electives to specialize in a subdiscipline of biology such as developmental biology, stem cell biology, microbiology, or physiology.

Our programs provide a wide range of relevant co-op opportunities in the renowned Boston-area biotechnology industry, hospitals, and research institutions, as well as across the country and at international sites.

There are a number of interdisciplinary opportunities involving biology: BS in biochemistry; BS in behavioral neuroscience; BS in computer science and biology; BS in biology and English; BS in biology and mathematics; BS in biology and political science; BS in biology/MS in biotechnology; BS/PhD in biology. Students interested in marine biology should investigate the degree programs offered by marine and environmental science. Double majors involving any two of these biology programs are not available due to curricular overlap.

Our degree programs are designed to prepare students to enter the job market directly or to go on to graduate, medical, veterinary, dental, law, or business school. Our graduates are qualified for a wide array of career paths in industrial and clinical research in any of the life sciences, in teaching at all levels, in state or federal government agencies, in medicine and other healthcare-related professions. Premedical, predoctoral, and other preprofessional students are urged to consult with the prehealth advising program early in their careers at Northeastern.

Programs

Bachelor of Science (BS)

- Biology (p. 480)
- Cell and Molecular Biology (p. 484)
- Biology and English (p. 488)
- Biology and Mathematics (p. 490)
- Biology and Political Science (p. 492)
- Computer Science and Biology (p. 293)

Minors

- Biology (p. 497)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 621)

Biology, BS

The BS in biology curriculum lays the groundwork for strong scientific training with basic course work in mathematics, chemistry, and physics, relevant to biology. Students explore the organization and processes of life across broad areas of the field, from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. Students can select advanced electives to specialize in a subdiscipline of biology such as developmental biology, stem cell biology, microbiology, or physiology.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Biology Major Requirements

Code	Title	Hours
Introduction to College		
BIOL 1000	Biology at Northeastern	1

Code	Title	Hours
BIOL 4701	Biology Capstone	4

Biology Major Electives

Code	Title	Hours
Organismal and Population Biology		
Complete one of the following:		4-5
BIOL 2321 and BIOL 2322	Microbiology and Lab for BIOL 2321	
BIOL 2327	Human Parasitology	
BIOL 3401	Comparative Vertebrate Anatomy	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
Intermediate and Advanced Biology		
Complete three additional 4- or 5-semester-hour courses from the following:		12-15
BIOL 2321 to BIOL 3999		
BIOL 4705	Neurobiology of Cognitive Decline	
BIOL 4707	Cell and Molecular Biology	

BIOL 5000 to BIOL 5999

EEMB 2290 to EEMB 5515

EEMB 5520 to EEMB 5534

EEMB 5548 to EEMB 5569

ENVR 5242 Ancient Marine Life

One of the three intermediate/advanced electives can be a research course:

BIOL 4991 Research

BIOL 4994 Internship

BIOL 4970 Junior/Senior Honors Project 1

BIOL 4971 Junior/Senior Honors Project 2

Supporting Courses

Code	Title	Hours
Mathematics		
MATH 1251	Calculus and Differential Equations for Biology 1	4
Statistics		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
Chemistry		
<i>General Chemistry</i>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for the Biological Sciences and Lab for CHEM 1161 and Recitation for CHEM 1161	5
<i>Organic Chemistry</i>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
Physics		
<i>Physics 1</i>		
Complete one of the following lecture/lab pairs. PHYS 1145/PHYS 1146 is recommended:		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
<i>Physics 2</i>		
Complete one of the following lecture/lab pairs. PHYS 1147/PHYS 1148 is recommended:		5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
Intermediate or Advanced Science		
Complete one course from the following:		
BIOL 2301 to BIOL 5999		

CHEM 2311 to CHEM 5999
EEMB 2290 to EEMB 5999
ENVR 2310 to ENVR 5999
MATH 2280 to MATH 5999
PHYS 2303 to PHYS 5999
PSYC 2290 to PSYC 5999

Biology Major Credit/GPA Requirement

Complete 81 semester hours in the major with a cumulative GPA of 2.000.

Due to overlap in course content, double majoring in biology and cell and molecular biology, biology and biochemistry, biology and behavioral neuroscience, or biology and marine biology is not permitted.

Program Requirement

136 total semester hours required

Cell and Molecular Biology, BS

The BS in cell and molecular biology curriculum lays the groundwork for strong scientific training with basic course work in mathematics, chemistry, and physics, relevant to biology. Students pursue a focused program of study emphasizing processes operating at the cellular and molecular levels of biological systems, including specialty courses in molecular cell biology and advanced genomics. Students choose from a range of advanced electives that delve deeply into molecular aspects of biology.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Cell and Molecular Biology Major Requirements

Biology and English, BS

In the BS, combined biology and English degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In English courses, students study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures; analyze writing practices and related media; and practice a variety of approaches to the study of language, rhetoric, writing, and literature. The fields of biology and English are bridged with course work in different forms of science writing , as well as psychology and sociology courses exploring the acquisition of language and reading; the sociology of health and illness; and the environment, technology, and society.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Biology Requirements

Code	Title	Hours
Introduction to College		
BIOL 1000 or ENGL 1000	Biology at Northeastern English at Northeastern	1

Experiential Learning Introduction

EESC 2000	Professional Development for Co-op	1
-----------	------------------------------------	---

Required Biology

<i>Foundations</i>		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
<i>Inquiries</i>		
BIOL 2299	Inquiries in Biological Sciences	4
<i>Genetics</i>		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
<i>Project Lab</i>		
BIOL 2309	Biology Project Lab	4
<i>Biochemistry</i>		
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5

Biology Elective

Code	Title	Hours
Organismal and Population Biology		
Complete one of the following:		4-5
BIOL 2321 and BIOL 2322	Microbiology and Lab for BIOL 2321	
BIOL 2327	Human Parasitology	
BIOL 3401	Comparative Vertebrate Anatomy	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	

Supporting Courses for Biology

Code	Title	Hours
Mathematics		
MATH 1251	Calculus and Differential Equations for Biology 1	4
Statistics		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
Chemistry		
<i>General Chemistry</i>		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for the Biological Sciences and Lab for CHEM 1161 and Recitation for CHEM 1161	5
<i>Organic Chemistry</i>		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
Physics		
<i>Physics 1</i>		
Complete one of the following lecture/lab pairs. PHYS 1145/PHYS 1146 is recommended:		5

PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161

Physics 2

Complete one of the following lecture/lab pairs. PHYS 1147/
PHYS 1148 is recommended: 5

PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165

Intermediate or Advanced Science

Complete one course from the following: 4

BIOL 2301 to BIOL 5999
CHEM 2311 to CHEM 5999
EEMB 2290 to EEMB 5999
ENVR 2310 to ENVR 5999
MATH 2280 to MATH 5999
PHYS 2303 to PHYS 5999
PSYC 2290 to PSYC 5999

English Requirements

Code	Title	Hours
------	-------	-------

English Course-Level Requirement

In addition to the capstone, two of the courses chosen from
the lists below must be numbered 3000–4999.

Introduction to College

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

Foundational Courses

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric Introduction to Writing Studies	4

Diversity

Complete one of the following courses. This course may also
be used to fulfill an additional English requirement below: 4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
ENGL 2450	Postcolonial Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	Multiethnic Literatures of the U.S.
ENGL 2470	Asian-American Literature
ENGL 2760	Writing in Global Contexts
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature

ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature

Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
ENGL 1700	Global Literature to 1500
ENGL 2240	17th-Century British Literature
ENGL 2296	Early African-American Literature
ENGL 3618	Milton
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL 4000	Topics in Early Literatures
ENGL 4010	Topics in Shakespeare
ENGL 4020	Topics in 17th- and 18th-Century Literatures

Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2260	Romantic Poetry
ENGL 2330	The American Renaissance
ENGL 2340	American Realism
ENGL 3619	Emerson and Thoreau
ENGL 3720	19th-Century Major Figure
ENGL 4040	Topics in 19th-Century Literatures
ENGL 2301	The Graphic Novel
ENGL 2410	Contemporary American Literature
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3730	20th- and 21st-Century Major Figure

Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Writing Studies
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3700	Narrative Medicine
ENGL 4100	Topics in Literary Criticism
ENGL 4400	Opening the Archive
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax

LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

Comparative Literature

Complete one of the following:		4
ENGL 1120	Trouble in Utopia	
ENGL 1130	Animals, Objects, Humans	
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1500	British Literature to 1800	
ENGL 1502	American Literature to 1865	
ENGL 1503	American Literature 1865 to Present	
ENGL 2150	Literature and Digital Diversity	
ENGL 2370	The Modern Short Story	
ENGL 2380	The Modern Novel	
ENGL 2400	Modern Poetry	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2450	Postcolonial Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460	Multiethnic Literatures of the U.S.	
ENGL 2470	Asian-American Literature	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2620	What Is Nature? (Abroad)	
ENGL 2690	Boston in Literature	
ENGL 3427	The Literature of Science	
ENGL 3487	Film and Text (Abroad)	
ENGL 3582	Children’s Literature	
ENGL 3663	The African-American Novel	
ENGL 3676	Representing Gender and Sexuality in Literature	
ENGL 4070	Topics in Genre	

Writing

Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2730	Digital Writing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Topics in Writing	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer’s Marketplace	

Capstone

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	
English Electives		
Complete two additional ENGL electives.		8

Integrative Courses

Code	Title	Hours
Integrative English Course		
Complete one of the following:		4
ENGL 2770	Writing to Heal	
ENGL 3340	Technologies of Text	
ENGL 3427	The Literature of Science	
Integrative General Biological Sciences Course		
Complete one of the following:		4
PSYC 3464	Psychology of Language	
PSYC 4520	Language and the Brain	
SOCL 3441	Sociology of Health and Illness	
SOCL 3485	Environment, Technology, and Society	

Capstone Requirement

Complete one of the following capstone options:

Code	Title	Hours
Biology Capstone		
BIOL 4701	Biology Capstone	4
English Capstone		
ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

Biology and English Combined-Major GPA Requirement

Minimum 2.000 GPA required in all BIOL courses
Minimum 2.000 GPA required in all ENGL courses

Program Requirement

128 total semester hours required

Biology and Mathematics, BS

In the BS, combined biology and mathematics degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In mathematics courses, students pursue mathematical reasoning, differential equations, and linear algebra, as well as statistics and probability. The fields of biology and mathematics are integrated in a range of course offerings including bioinformatics, applied statistics, advanced genomics, and biological imaging.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

ENGW 3307	Advanced Writing in the Sciences	4

Biology and Mathematics Combined-Major Credit/GPA Requirements

Complete 93 semester hours in the major with a cumulative GPA of 2.000.

Program Requirements

143 total semester hours required

Biology and Political Science, BS

In the BS, combined biology and political science degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In political science courses, students pursue core concepts of American government, comparative politics, international relations and political thought. Course work in quantitative techniques is also required. Students choose from a range of advanced subject electives. An appreciation of the intersection of biology and political science is provided through advanced courses in science, technology and public policy, and in environmental politics and policy.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	5
Intermediate or Advanced Science		
Complete one course from the following:		4
BIOL 2301 to BIOL 5999		
CHEM 2311 to CHEM 5999		
EEMB 2290 to EEMB 5999		
ENVR 2310 to ENVR 5999		
MATH 2280 to MATH 5999		
PHYS 2303 to PHYS 5999		
PSYC 2290 to PSYC 5999		

Political Science Requirements

Code	Title	Hours
Core Courses in Political Science		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
Statistics		
Complete one of the following:		4-5
POLS 2400	Quantitative Techniques	

ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
Political Thought		
Complete one of the following:		4
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
Political Science Upper-Division Electives		
Complete four of the following:		16
POLS 2340	Business and Government	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 2399	Research Methods in Political Science	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	
Political Science Elective		
Complete one additional course in political science numbered 2300 or above.		4

Political Science Concentration (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p.).

- Law and legal studies
- Public policy
- Security studies

Integrative Requirement and Capstone

Note: Science, Technology, and Public Policy (POLS 2390) cannot be used both as an integrative course and as an elective above.

Code	Title	Hours
Integrative Requirement		
POLS 2390 or POLS 2395	Science, Technology, and Public Policy Environmental Politics and Policy	4
Capstone		
BIOL 4701 or POLS 4701	Biology Capstone Political Science Senior Capstone	4

Program Requirement

136 total semester hours required

Concentrations

CONCENTRATION IN LAW AND LEGAL STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

CONCENTRATION IN PUBLIC POLICY

Code	Title	Hours
Core Requirement		
POLS 3307	Public Policy and Administration	4
Electives		
Complete three of the following:		12
POLS 2334	Bureaucracy and Government Organizations	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 3425	U.S. Foreign Policy	

CONCENTRATION IN SECURITY STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3427	Civil-Military Relations	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations	
POLS 4918	Model NATO	

Computer Science and Biology, BS

The computer science and biology combined major reflects how research in biology, especially genetics, has become a computational science. The program provides a strong foundation in biology, chemistry, and mathematics, as well as software development and algorithms.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development ¹	

CS 1210	Professional Development for CCIS Co-op ²	
---------	--	--

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses.

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation (integrative course)	4
CS 4500 and CS 4501	Software Development and Recitation for CS 4500	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, IS, or DS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010	
IS 2000 or higher, except IS 4900	
DS 2000 or higher, except DS 4900	

¹ Students entering through the biology department may take Biology at Northeastern (BIOL 1000).

² Students entering through the biology department may take Professional Development for Co-op (EESC 2000).

Biology Courses

Code	Title	Hours
Foundations of Biology		
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	5
Inquiries		
BIOL 2299	Inquiries in Biological Sciences	4
Molecular Biology		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
BIOL 3611 and BIOL 3612	Biochemistry and Lab for BIOL 3611	5
Techniques in Biology		
BIOL 2309	Biology Project Lab	4
Chemistry		
CHEM 1161 and CHEM 1162 and CHEM 1163	General Chemistry for the Biological Sciences and Lab for CHEM 1161 and Recitation for CHEM 1161	5
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5

CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
-------------------------	---	---

Biology Capstone

BIOL 4701	Biology Capstone	4
-----------	------------------	---

Intermediate and Advanced Biology Electives

Complete two biology courses (with corequisite labs if offered). Choose one of these two courses from the following list:

BIOL 2321 and BIOL 2322	Microbiology and Lab for BIOL 2321	
BIOL 2327	Human Parasitology	
BIOL 3401	Comparative Vertebrate Anatomy	
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	
EEMB 2400	Introduction to Evolution	
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	

Choose the second elective from the following list: 4-5

BIOL 2311 to 4999, EEMB 2290 to 5515, EEMB 5520 to 5534, EEMB 5548 to 5569, EEMB 2400

Biology Integrative Course

Complete one of the following: 4-5

BIOL 5569	Advanced Microbiology	
BINF 6308	Bioinformatics Computational Methods 1	
BIOL 4707	Cell and Molecular Biology	
BIOL 5581	Biological Imaging	
BIOL 5587	Comparative Neurobiology	
BIOL 5591	Advanced Genomics	
EEMB 5548	Sociobiology	

Supporting Courses

Code	Title	Hours
Calculus		
Complete two calculus courses with a grade of C– or higher:		
MATH 1251	Calculus and Differential Equations for Biology 1	4
MATH 1252	Calculus and Differential Equations for Biology 2	4
Probability and Statistics		
Complete one of the following: 4-5		
MATH 3081	Probability and Statistics	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
Computing and Social Issues		
Complete one of the following: 4		
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
PHIL 1145	Technology and Human Values	
SOCL 1280	The 21st-Century Workplace	

SOCL 3485	Environment, Technology, and Society
SOCL 4528	Computers and Society
Intermediate or Advanced Science	
Complete one course from the following:	
4	
BIOL 2301 to BIOL 5999	
CHEM 2311 to CHEM 5999	
EEMB 2290 to EEMB 5999	
ENVR 2310 to ENVR 5999	
MATH 2280 to MATH 5999	
PHYS 2303 to PHYS 5999	
PSYC 2290 to PSYC 5999	

Writing Requirements

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
Advanced Writing in the Disciplines		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Complete five general electives.

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Exploring Creative Expression and Innovation
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

Program Requirement

141 total semester hours required

Total Hours: 142

Biology, Minor

The Department of Biology offers a minor in biology, which involves taking five biology courses, two of which must have a corequisite lab, and one science course chosen from a range of science departments.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Restrictions

This minor is not available for students who major in biology, biochemistry, behavioral neuroscience, cell and molecular biology, marine biology, or any combined major that involves biology.

Required Biology Courses

Complete five biology courses for a total of at least 22 semester hours. Three of the five courses must be at the 2000 level or above. Two of the five courses must contain a lab corequisite.

Options:

Code	Title	Hours
BIOL 2000 to BIOL 3999		
BIOL 5000 to BIOL 5999		
EEMB 2290 to EEMB 5515		
EEMB 5520 to EEMB 5534		
EEMB 5548 to EEMB 5569		

Science Course

Code	Title	Hours
Complete one course from the BIOL, CHEM, EEMB, ENVR, or PHYS subject areas.		

GPA Requirement

2.000 GPA required in the minor

Chemistry and Chemical Biology

The Department of Chemistry and Chemical Biology provides education in basic chemistry and modern chemistry-related disciplines. The department offers an American Chemical Society–certified program leading to a Bachelor of Science in Chemistry and also offers a Bachelor of Science in Biochemistry jointly with the Department of Biology. In

conjunction with the Department of Marine and Environmental Sciences, the department offers a combined Bachelor of Science in Environmental Geology and Chemistry. The overall objective of the Bachelor of Science in Chemistry major program is to provide the fundamental scientific background and laboratory training for students as they prepare for chemically related careers or advanced study in fields including the traditional chemical specialties, as well as biochemistry, materials science, forensic science, medicine, education, law, and other endeavors that draw upon an understanding of the chemical basis of the world around us.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. Specific learning objectives for the chemistry major include developing conceptual understanding and problem-solving abilities in the fundamental chemical subfields of analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry; gaining a foundation of physics and mathematics and integrating these areas with chemical principles; performing quantitative measurements and analyzing the resulting data; synthesizing and characterizing compounds; learning proper laboratory practices, including safety; developing proficiency with modern instruments and computers for data acquisition and analysis; and making meaning of research results and learning the relevance of chemistry to biology, pharmacology, medicine, manufactured and natural materials, and the environment.

Most of our chemistry majors participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does this experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Chemistry majors also undertake a research project for at least one semester under the supervision of a faculty member. A sufficient number of elective courses are available in the program to allow a student to take more advanced courses or additional research in the department or to add courses in an area of special interest, such as criminal justice courses in the case of an interest in forensic science. Qualified students may also participate in a BS/MS program.

Programs

Bachelor of Science (BS)

- Chemistry (p. 497)
- Environmental Geology and Chemistry (p. 499)

Minor

- Chemistry (p. 501)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 621)

Chemistry, BS

The Bachelor of Science in Chemistry is designed to give students both breadth and depth in chemistry fundamentals. During their course of study, students have an opportunity to develop qualitative and quantitative problem-solving skills as well as effective communication skills. The overall objective of the program is to provide scientific background and laboratory experience for students as they prepare for chemically related careers or advanced study in fields that include both the traditional chemical specialties and other endeavors that draw upon an understanding of the chemical basis of the world around us such as

biochemistry, materials science, forensic science, medicine, education, or law.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

The Departments of Marine and Environmental Sciences and Chemistry provide education in basic environmental science and chemistry-related disciplines. The overall objective of this combined major is to provide the fundamental scientific background and practical training for students as they prepare for environmental and chemically related careers or advanced study in fields including the traditional specialties such as toxicology, pollution, bio-remediation, environmental protection, education, law, and other endeavors that may draw upon an understanding of the chemical basis of the environment and the changes that will likely result from global warming.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. Specific learning objectives for this combined major include the development of conceptual understanding and problem-solving abilities in the fundamental dynamics between the environment and its chemistry, be it analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry. Students will perform quantitative

measurements; learn proper laboratory practices, including safety; develop proficiency with modern instruments and computers for data acquisition and analysis; and learn the relevance of chemistry within the context of the abiotic and biotic environments.

Most of our combined majors will participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does that experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Students in this major may also undertake research projects for at least one semester under the supervision of a faculty member. Sufficient electives are available in the program either to take more advanced courses or research within the department or to add courses in an area of special interest.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Environmental Geology Major Requirements

Code	Title	Hours
Earth Foundations		
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	5
Geomorphology		
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340	5
Environmental Geology Intermediate/Advanced Electives		
Complete two intermediate or advanced electives from ENVR 2300 to ENVR 5999.		8-10

Chemistry, Minor

The minor in chemistry is designed for the student who would like a sound foundation in the theory and laboratory practice of chemistry.

It requires six courses in chemistry with their prerequisites and corequisites.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Note: Engineering students may take General Chemistry for Engineers (CHEM 1151) in place of General Chemistry 1 (CHEM 1211) and two other chemistry courses in place of General Chemistry 2 (CHEM 1214) and Physical Chemistry (CHEM 3431).

Code	Title	Hours
General Chemistry		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	5
Organic Chemistry		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	5
Physical Chemistry		
CHEM 3431 and CHEM 3432	Physical Chemistry and Lab for CHEM 3431	5
Advanced Lab		
Complete one of the following:		5
CHEM 3403 and CHEM 3404	Quantum Chemistry and Spectroscopy and Lab for CHEM 3403	
CHEM 4456 and CHEM 4457	Organic Chemistry 3: Organic Chemistry of Drug Design and Development and Lab for CHEM 4456	

GPA Requirement

2.000 GPA required in the minor

Heather Littlefield, Associate Teaching Professor and Assistant Director,

h.littlefield@northeastern.edu

Linguistics is the scientific study of human language. A growing and exciting field, it has links to a diverse range of others, including psychology, philosophy, neuroscience, computer science, artificial

intelligence, sociology, language teaching, anthropology, and education. Linguistics is a key component of the field of cognitive science, the study of the structure and functioning of human cognitive processes.

How do children learn to speak? How is language represented in the mind? What do all languages, including sign languages, have in common? How is language different from the communication systems used by whales, bees, and chimpanzees? What linguistic information do computers need in order for us to converse with them? What are the neurological tie-ins of language disorders such as aphasia or Williams Syndrome, and what can such impairments tell us about the brain mechanisms for language? These scientific and technological questions lead us to ask other questions about language and society: How might we think about linguistic controversies, including debates about official languages, Black English, gender bias, and bilingualism in education? Linguistics attempts to answer each of these questions and covers a surprisingly broad range of topics related to language and communication. Cutting-edge work in cognitive science investigates how natural languages are learned and processed. Grammar checkers and translation programs use language parsers; search engines, browsers, and editors apply the results of linguistic theory and computational linguistics. Linguistics is behind every application that recognizes or synthesizes speech. To work in a field that involves language in any way, you will need to know how language works, the core of the field of linguistics.

Linguistics at Northeastern offers courses in the theory and structure of language (such as phonetics, phonology, morphology, syntax, and semantics); the sociocultural nature of language (such as language and culture, language and gender, and sociolinguistics); the psychology of language (offered by the Department of Psychology); and applications to related domains (such as language acquisition, language change, and historical linguistics) that cross into the humanities and social sciences.

Students can pursue a major in linguistics as well as in one of the combined majors: linguistics and psychology, linguistics and cultural anthropology, linguistics and English, linguistics and communication studies, computer science and linguistics, and American Sign Language (ASL) and linguistics. A minor in linguistics is also available.

Linguistics offers a variety of co-ops, including positions at local and national companies involved in speech recognition and production, as well as at Northeastern's own speech perception and language processing labs in the Department of Psychology. Linguistics majors can also participate in international co-ops—for example, working with researchers at the University of Kaiserslautern in Germany.

Students with backgrounds in linguistics have pursued advanced degrees in fields including law, cognitive science, education, English, interpreting, business, speech pathology, computer science, developmental psychology, sociology, and linguistics itself. Other graduates have gone on to work in neurological research, computational linguistics, translation, language software, education, dictionary publishing, robotics, and criminal justice.

Programs
Bachelor of Science (BS)

- Linguistics (p. 502)
- American Sign Language and Linguistics (p. 504)
- Computer Science and Linguistics (p. 327)
- Linguistics and Cultural Anthropology (p. 507)
- Linguistics and Psychology (p. 509)

Bachelor of Arts (BA)

- Linguistics and Communication Studies (p. 131)
- Linguistics and English (p. 512)

Minor

- Linguistics (p. 515)

Linguistics, BS

The major in linguistics provides students with a strong foundation in the study of linguistics at both the structural and social levels. Course work on the structural side focuses on the internal structures that make up language and the methods and theories used to identify and understand these core structures (for example, in courses covering phonetics, phonology, morphology, syntax, and semantics), while course work on the social side emphasizes the methods and theories that are used to study and interpret patterns of social interaction at the linguistic level (for example, in courses covering language and culture, sociolinguistics, and language and gender). Additional course work draws from related fields to further develop students' understanding of the broad spectrum of language-related domains (for example, the psychology of language, language acquisition, and historical linguistics, among other topics).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Linguistics Major Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

Linguistics Major Requirements

Code	Title	Hours
Required Courses		
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4

American Sign Language and Linguistics, BS

The American Sign Language (ASL) & Linguistics combined major is an intensive program of study dedicated to preparing students to interact in a positive and supportive manner with members of the American Deaf Community while simultaneously providing students with an understanding of the theoretical, cultural, and social components of all human language, including ASL, so that they can better understand how ASL is related to spoken languages and other signed languages. This curriculum is designed to assist students in acquiring competence in American Sign Language; and in developing an understanding of the American Deaf Community and its culture, the acquisition and analysis of human languages (signed and spoken), and how human languages work in everyday use (e.g., comprehension, generation, translation).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science and Linguistics, BS

The computer science and linguistics combined major provides students with extensive background in the formal structures of natural (human) languages, as well as methods and applications of linguistic and psycholinguistic analyses of human language data. This is combined with an emphasis in computer science on artificial intelligence and natural language processing techniques. The major provides excellent preparation for work or more advanced degrees focusing on computational linguistics, natural language processing, speech perception, spoken language interfaces, artificial intelligence, and a wide array of related fields.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1

CS 1210	Professional Development for CCIS Co-op	1
---------	---	---

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation (Integrative course)	4
CS 4100	Artificial Intelligence (Integrative course)	4
CS 4120	Natural Language Processing (Integrative course)	4
CS 4400	Programming Languages (Integrative course)	4
CS 4500 and CS 4501	Software Development and Recitation for CS 4500	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, directed study, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 4 credits of CS, IS, or DS courses that are not already required. Choose courses within the following range:

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

College Writing		
ENGW 1111	First-Year Writing	4
Advanced Writing in the Disciplines		

ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Complete five general electives.

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Interpreting Culture
- Conducting Formal and Quantitative Reasoning
- Understanding Societies and Institutions
- Analyzing and Using Data
- Engaging Difference and Diversity
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

133 total semester hours required

Linguistics and Cultural Anthropology, BS

The combined major in linguistics and cultural anthropology focuses on the relationship of culture to the institutions, interpersonal relations, and practices that make up their social structure while emphasizing the structure of human language and its involvement in social interaction and culture. Students examine how language both reflects and influences cultural phenomena and how it can be used as a tool to study those phenomena; and they apply their interests across a range of connected courses, co-op opportunities, and potential research projects.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Linguistics Major Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

Linguistics Requirements

Note: A grade of C or higher is required for all courses in this section.

Code	Title	Hours
Introductory Linguistics		
LING 1150	Introduction to Language and Linguistics	4
Intermediate/Advanced Linguistics		
LING 2350	Linguistic Analysis	4
LING 3422	Phonology	4

LING 3442	Sociolinguistics	4
LING 3450	Syntax	4
LING 3456	Language and Gender	4

Linguistics Electives

Complete two of the following: 8

DEAF 2700	ASL Linguistics
LING 3420	Phonetics
LING 3424	Morphology
LING 3434	Bilingualism
LING 3452	Semantics
LING 3454	History of English
LING 3458	Topics in Linguistics
LING 4654	Seminar in Linguistics
PSYC 3464	Psychology of Language
PSYC 4610	Laboratory in Psycholinguistics
PSYC 4658	Seminar in Psycholinguistics

Linguistics Research

Complete one of the following: 4

LING 4891	Research Seminar in Linguistics
LING 4991	Directed Study Research
LING 4970 and LING 4971	Junior/Senior Honors Project 1 and Junior/Senior Honors Project 2

Linguistics and Psychology, BS

This combined major educates students in psychology, linguistics, and the interface between the two disciplines, which are core areas within the field of cognitive science. Students study the formal structures of human language; sociocultural aspects of language use; and the cognitive aspects of language representations, language acquisition, and language processing. Students receive interdisciplinary training in the methods of experimental psychology, psycholinguistics, and linguistic analysis.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Linguistics Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

Linguistics and Communication Studies, BA

In the combined major in linguistics and communication studies, students have an opportunity to learn about the formal structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) while simultaneously mastering the fundamentals of effective communication and of communication theory and practice. Students receive extensive training in writing and speaking, both for a technical audience and more generally; and they explore the role of language and communication in society, both from a broad theoretical perspective and in narrower, more focused and applied domains.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Linguistics and English, BA

In the combined major in linguistics and English, students learn about the structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) and apply this knowledge to understanding how the English language works, its rhetorical forms, how it has changed over time, and its cultural context. Students hone their writing skills, develop substantial language-analysis skills, and apply them particularly to English.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Linguistics, Minor

The minor in linguistics provides students with an opportunity to pursue coursework in linguistics while earning a major in another domain. Students earning a minor in linguistics will gain knowledge about language at the structural and socio-cultural levels.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
LING 1150	Introduction to Language and Linguistics	4
LING 2350	Linguistic Analysis	4
LING 3422 or LING 3450	Phonology Syntax	4

Elective Courses

Code	Title	Hours
Complete two additional courses from the following range:		8
LING 2000 to LING 4996		

GPA Requirement

2.000 GPA required in the minor

Marine and Environmental Sciences

Richard Bailey, Professor, r.bailey@northeastern.edu

Jonathan H. Grabowski, Associate Professor,

j.grabowski@northeastern.edu

The Department of Marine and Environmental Sciences' programs are designed to help students develop an in-depth understanding of the processes that affect the earth's surface and that have the greatest impacts on society. Graduates of such programs contribute to the solution of environmental problems such as soil or groundwater contamination, flooding, slope stability, shore erosion related to changing land use, or coping with the impact of sea-level rise or changing weather patterns related to global warming. Commonly, environmental professionals are expected to work effectively as part of a multidisciplinary team containing scientists, engineers, and professionals who can evaluate the legal, economic, political, and social ramifications of complex environmental problems. As part of their undergraduate program, Northeastern emphasizes experiential, off-campus learning in addition to classroom learning, which is designed to help our students to become well grounded in their field of study and to work effectively with others to study and address real problems.

Our Bachelor of Science in Environmental Science degree is organized for students who seek a comprehensive understanding of the scientific implications of environmental issues and the ways that environmental scientists from a range of disciplines can approach their solution. Every student has an opportunity to develop core knowledge in geology, biology, chemistry, and mathematics early in the program. Students then select one of three concentrations—marine science, conservation science, or geoscience—as a program focus for their upper-level course work. We also provide an independent track for students whose interests do not fall into one of these four areas. Students who elect this option work with a faculty advisor to identify a group of five mid- to upper-level science courses that are aligned with the student's career interests. (Students interested in studying environmental issues from a policy-based perspective should consider the BA in environmental studies (p. 516).)

Our Bachelor of Science in Marine Biology degree is designed to provide a strong foundation in marine biology and related disciplines. This major is offered through Northeastern University's Marine Science Center in Nahant.

A number of combined-major programs are offered; these can help focus a student's course choices along avenues that faculty feel are particularly appropriate.

Fieldwork is a valued component of training in our programs, and many of our courses use field sites throughout New England to demonstrate environmental processes or problems in their full complexity. In addition to sponsoring local trips, we have taken students on one longer field excursion each year to Iceland, the Cascade Mountains of Washington, the island of San Salvador in the Bahamas, or the Grand Canyon. Students also have the option to complete undergraduate research experiences with a faculty member. Undergraduate research projects can involve fieldwork and/or lab work completed under the guidance of faculty.

Many of our recent graduates work for environmental or geotechnical firms or continue their studies in graduate school. Students who

participate in the co-op program typically work with local engineering or environmental consulting companies or with government agencies. These jobs often involve assessing building sites, evaluating land use, and studying problems concerned with groundwater contamination and remediation.

Three Seas Program

The Three Seas Program allows advanced undergraduate and beginning graduate students in biology and related areas to spend a year of field study in three diverse marine environments.

The program begins in the spring semester at Northeastern University's Marine Science Center in Nahant, 12 miles north of the main campus. Courses the following fall are conducted at the University of Washington's Friday Harbor Laboratories on San Juan Island, which is 70 miles north of Seattle and part of an archipelago that lies between the mainland and Vancouver Island, and at the Smithsonian Tropical Research Institute in Bocas del Toro, Panama, where students engage in tropical biology research. For more information, contact Mark Patterson at 781.581.7370 (ext. 313), or visit the Three Seas Program website at www.northeastern.edu/threeseas (<http://www.northeastern.edu/threeseas>).

Massachusetts Bay Marine Studies Consortium

Northeastern University students may take classes at the Massachusetts Bay Marine Studies Consortium. The consortium's course offerings are interdisciplinary and seek to bridge academic disciplines and current concerns in the marine world. For more information, contact the marine studies program director, Professor Rebeca Rosengaus at 617.373.7032 or at r.rosengaus@northeastern.edu.

Sea Education Association

SEA Semester is an interdisciplinary program focusing on the sea, in which students undertake course work ashore followed by a practical component at sea. The program combines intensive research in the areas of oceanography, maritime studies, and nautical science with hands-on experience aboard a traditional sailing ship. Piloting, celestial navigation, and practical seamanship are learned together with oceanographic sampling techniques and marine laboratory procedures during a six-week voyage on a ship sailing either on the Atlantic or Pacific oceans. Critical thinking, problem solving, team building, and leadership skills are emphasized throughout the program. Some cruises focus on specialized topics including oceans and climate, Caribbean studies, or Polynesian studies. Through our affiliation with the Sea Education Association, SEA Semester courses earn Northeastern credit. The program is appropriate for students in biology, environmental and physical sciences, environmental studies, American studies, and most other areas within the liberal arts and sciences. For more information, contact the faculty advisor for marine biology, Professor Mark Patterson (Marine Science Center), at 781.581.7370, extension 313, or by email (m.patterson@northeastern.edu).

Marine Science Center Summer Program in Marine Biology

The summer program allows students to participate in intensive courses at the Marine Science Center (MSC). Students conduct independent research at the MSC laboratory throughout the year. Graduate students from other universities are encouraged to use the laboratory and field sites for thesis research.

Academic Progression Standards

Same as college standards.

Programs

Bachelor of Arts (BA)

- Environmental Studies (p. 516)
- Environmental Studies and History (p. 521)
- Environmental Studies and International Affairs (p. 522)
- Environmental Studies and Philosophy (p. 526)
- Environmental Studies and Political Science (p. 527)
- Sociology and Environmental Studies (p. 530)

Bachelor of Science (BS)

- Environmental Science (p. 530)
- Ecology and Evolutionary Biology (p. 535)
- Marine Biology (p. 538)
- Computer Science and Environmental Science (p. 318)
- Environmental Geology and Chemistry (p. 499)
- Environmental Studies and Economics (p. 549)
- Information Science and Environmental Science (p. 362)

Minors

- Environmental Geology (p. 552)
- Environmental Science (p. 553)
- Environmental Studies (p. 553)
- Geology (p. 554)
- Marine Biology (p. 554)
- Marine Studies (p. 555)

Environmental Studies, BA

Malcolm D. Hill, PhD

Associate Professor

Brian Helmuth, PhD

Professor

14 Holmes Hall

617.373.3176

617.373.4378 (fax)

Malcolm D. Hill, Associate Professor, m.hill@northeastern.edu

Brian Helmuth, Professor and Director of the Sustainable Science and Policy Initiative, b.helmuth@northeastern.edu

The Bachelor of Arts in Environmental Studies degree is designed to provide a flexible platform for students whose primary interest is in the area of environmental policy. In their first two years, all environmental studies majors complete introductory courses in the sciences (biology, chemistry, geology), as well as introductory-to intermediate-level course work in economics, political science, philosophy, and sociology. Students then work with a faculty advisor to select a cluster composed of intermediate- to upper-level courses in an area appropriate to the student's career objectives. These cluster areas include sustainability, urban environmental issues, water issues, international affairs, public policy, and marine studies. A senior thesis is required in the environmental studies major. (Students interested in studying environmental issues from a science-based perspective should consider the BS in environmental science (p. 530).)

A number of combined-major programs are offered; these can help focus a student's course choices along avenues that faculty feel are particularly appropriate.

Students in the environmental studies program are prepared to work in environmental planning, regulation, policy, or compliance. These broad-based programs also aim to prepare students to go into environmental education or law. Co-op experiences in environmental planning may include government internships or work in environmental compliance offices.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Environmental Studies and History, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems through historical perspectives and backgrounds.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Environmental Studies Requirements

Code	Title	Hours
Science Requirements		
ENVR 1101	Environmental Science	4
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 1445		4
Humanities Requirement		
PHIL 1180	Environmental Ethics	4
Social Science Requirements		
ECON 1116	Principles of Microeconomics	4
POLS 1150 and POLS 1151	American Government and Recitation for POLS 1150	4
SOCL 1246	Environment and Society	4
Environmental Studies Electives		
Complete two of the following:		8
ECON 3423	Environmental Economics	
PHIL 3480		
POLS 2395	Environmental Politics and Policy	

History Requirements

Code	Title	Hours
History Requirements		
HIST 1130	Introduction to the History of the United States	4
HIST 1170	Europe: Empires, Revolutions, Wars, and Their Aftermath	4
HIST 1201	First-Year Seminar	4
HIST 2342		4
History Seminar		
HIST 2301 and HIST 2302	The History Seminar and Historical Writing	5
History/Geographic-Area Electives		
Complete two of the following:		8
ASNS 1150	East Asian Studies	
HIST 1180	African History	
HIST 1185	Introduction to Middle Eastern History	
History-Area Electives		
Complete four HIST courses, approved by a faculty advisor, focused on an idea or geographic area. These courses must be numbered 2000 or higher.		16

Integrative Courses

Code	Title	Hours
Required Integrative Course		
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
Integrated Elective		
Complete one of the following:		4
ENVR 5210	Environmental Planning	
ENVR 5250	Geology and Land-Use Planning	

Experiential Learning and Capstone

Code	Title	Hours
Experiential Learning		
Complete an approved activity from either department, combined with reflection in capstone.		
Capstone Course		
Complete one of the following:		1-4
ENVR 4997 or ENVS 4997	Senior Thesis	
ENVR 4900	Earth and Environmental Science Capstone	
ENVR 4970	Junior/Senior Honors Project 1	
HIST 4701	Capstone Seminar	

Combined-Major Credit Requirement

Complete 91 semester hours in the major.

Program Requirement

128 total semester hours required

Environmental Studies and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of the international issues that influence the scientific, cultural, societal, political, and economic aspects of the world's environmental problems and the ways in which such environmental challenges can be ameliorated and/or solved.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Environmental Studies Requirements

Code	Title	Hours
Social Science Component		
<i>Philosophy</i>		
PHIL 1180	Environmental Ethics	4
<i>Sociology</i>

POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

Political Science Restricted Electives

Complete two of the following: 8

POLS 2334	Bureaucracy and Government Organizations	
POLS 2390	Science, Technology, and Public Policy	
POLS 3307	Public Policy and Administration	
POLS 3407	International Organizations	
POLS 3487	Politics of Developing Nations	

Political Science Electives

Complete two POLS courses. 8

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 528).

- Comparative Politics (p. 528)
- International Relations and Diplomacy (p. 528)

- Law and Legal Studies (p. 528)
- Public Policy (p. 528)

Integrative Courses

Code	Title	Hours
Integrative Courses		
Complete two of the following:		8
ENVR 5210	Environmental Planning	
ENVR 5250	Geology and Land-Use Planning	
POLS 2395	Environmental Politics and Policy	
Capstone Requirement		
Complete one of the following:		1-8
ENVR 4900	Earth and Environmental Science Capstone	
ENVR 4997	Senior Thesis	
POLS 4701	Political Science Senior Capstone	
POLS 4702 and POLS 4703	Senior Thesis Preparation and Senior Thesis	

Environmental Studies and Political Science Combined-Major Credit Requirement

Complete 80 semester hours in the major.

Program Requirement

128 total semester hours required

Concentrations

CONCENTRATION IN COMPARATIVE POLITICS

Code	Title	Hours
Theoretical Requirement		
Complete one of the following:		4
POLS 2370	Religion and Politics	
POLS 3418	Nationalism	
POLS 3427	Civil-Military Relations	
POLS 3487	Politics of Developing Nations	
Regional Requirements		
Complete two of the following:		8
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3445		
POLS 3450		
POLS 3460		
POLS 3465	Government and Politics in the Middle East	
POLS 3475		
POLS 3480		
POLS 3485		
Experiential/Practicum Requirement		
Complete one of the following:		4
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY

Code	Title	Hours
Experiential/Practicum Requirement		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	
Core Courses		
Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3407	International Organizations	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

CONCENTRATION IN LAW AND LEGAL STUDIES

Code	Title	Hours
Core Requirement		
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

CONCENTRATION IN PUBLIC POLICY

Code	Title	Hours
Core Requirement		
POLS 3307	Public Policy and Administration	4
Electives		
Complete three of the following:		12
POLS 2334	Bureaucracy and Government Organizations	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 3425	U.S. Foreign Policy	

Plan of Study

Sociology and Environmental Studies, BA

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Sociology Requirements

Code	Title	Hours
Required Sociology Courses		
SOCL 1101	Introduction to Sociology	4
SOCL 2300	Social Theory	4
SOCL 2321	Research Methods in Sociology	4
ANTH 2305	Global Markets and Local Culture	4
Statistics		
Complete one of the following:		4
SOCL 2320	Statistical Analysis in Sociology	
ENVR 2500	Biostatistics	
Capstone		
Complete one of the following:		
SOCL 4600	Senior Seminar	
ENVS 4997	Senior Thesis	
ENVR 4900	Earth and Environmental Science Capstone	
Sociology Elective A		

Please note that SOCL 1246 may not be used to fulfill this requirement as it is required in the major. Complete one course in the following range:
SOCL 1000 to SOCL 2999

Sociology Elective B
Complete three additional sociology courses in the following range:
SOCL 3000 to SOCL 5999

Environmental Studies Requirements

Code	Title	Hours
Science Requirements		
ENVR 1101	Environmental Science	4
ENVR 1112	Environmental Geology	4
or ENVR 1200	Dynamic Earth	
or ENVR 3125	Global Oceanic Change	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
EEMB 3460	Conservation Biology	4
Environmental Studies Elective A		
Complete one of the following:		4
PHIL 1180	Environmental Ethics	
PHIL 1185	The Ethics of Food	
POLS 1150	American Government	
POLS 2395	Environmental Politics and Policy	
ENVR 1110	Global Climate Change	
ENVR 2900	Special Topics in Environmental Studies	
Environmental Studies Electives B		
Complete three of the following:		12
ENVR 3000 to ENVR 5999		
EEMB 3000 to EEMB 5999		
PPUA 3000 to PPUA 5999		

Integrative Requirements

Code	Title	Hours
SOCL 1246	Environment and Society	4
ENVR 4515	Sustainable Development	4

Sociology Major Grade Requirement

A GPA of 2.000 for major courses is required.

Sociology and Environmental Studies Combined-Major Credit Requirement

Complete 81 semester hours in the major.

Program Requirements

128 total semester hours required

Environmental Science, BS

Our Bachelor of Science in Environmental Science degree is organized for students who seek a comprehensive understanding of the scientific implications of environmental issues and the ways that environmental scientists from a range of disciplines can approach their solution. Every student has an opportunity to develop core knowledge in geology, biology, chemistry, and mathematics early in the program. Students then select

one of three concentrations—marine science, conservation science, or geoscience—as a program focus for their upper-level course work. We also provide an independent track for students whose interests do not fall into one of these three areas. Students who elect this option work with a faculty advisor to identify a group of five mid- to upper-level science courses that are aligned with the student's career interests. (Students interested in studying environmental issues from a policy-based perspective should consider the BA in environmental studies (p. 516).)

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Environmental Science Major Requirements

Code	Title	Hours
Introduction to College		
ENVR 1000	Marine and Environmental Sciences at Northeastern	1
Geology Courses		
ENVR 1101	Environmental Science	4
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
Calculus 1		
MATH 1241	Calculus 1	4
or MATH 1251	Calculus and Differential Equations for Biology 1	
or MATH 1341	Calculus 1 for Science and Engineering	
Calculus 2 or Biostatistics		
Complete one of the following:		4-5
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5
MATH 1242	Calculus 2	4
or MATH 1252	Calculus and Differential Equations for Biology 2	
or MATH 1342	Calculus 2 for Science and Engineering	
General Chemistry 1		
CHEM 1101 and CHEM 1102 and CHEM 1103	General Chemistry for Health Sciences and Lab for CHEM 1101 and Recitation for CHEM 1101	5
or CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	
General Chemistry 2		
CHEM 1214 and CHEM 1215 and CHEM 1216	General Chemistry 2 and Lab for CHEM 1214 and Recitation for CHEM 1214	5
Organic Chemistry		
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311	5

Physics 1

Complete one of the following: 5

PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151
PHYS 1161 and PHYS 1162 and PHYS 1163	Physics 1 and Lab for PHYS 1161 and Recitation for PHYS 1161
PHYS 1171 and PHYS 1172 and PHYS 1173	Physics 1 for Bioscience and Bioengineering and Lab for PHYS 1171 and Interactive Learning Seminar for PHYS 1171

Earth and Environmental Science Capstone

ENVR 4900	Earth and Environmental Science Capstone	1-4
or ENVR 4997	Senior Thesis	

Environmental Science Concentrations

Complete one of the following concentrations:

CONCENTRATION IN MARINE SCIENCE

Code	Title	Hours
<i>Required Marine Science Courses</i>		
ENVR 3125	Global Oceanic Change	4
ENVR 4106		4
Physics 2		
Complete one of the following:		5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	
PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165	
PHYS 1175 and PHYS 1176 and PHYS 1177	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175	
<i>Marine Science Elective Courses</i>		
Complete six of the following:		20-25
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	
or BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
or BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
BIOL 5100	Biology Colloquium	
EEMB 2400	Introduction to Evolution	
EEMB 2420	Fisheries Biology, Policy, and Conservation	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	

EEMB 3120	Physical Biology of Marine Organisms
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242
<i>Marine Studies Consortium Courses (unrestricted)</i>	
MARS 3210	Marine Mammals
MARS 3310	Water Resources Policy and Management
MARS 3325	Coastal Zone Management
MARS 3430	Biology of Whales
<i>Three Seas Restricted Courses</i>	
EEMB 5504	Biology of Corals
EEMB 5506	Biology and Ecology of Fishes
EEMB 5508 and EEMB 5509	Marine Birds and Mammals and Lab for EEMB 5508
EEMB 5512	Tropical Terrestrial Ecology
EEMB 5516 and EEMB 5517	Oceanography and Lab for EEMB 5516
EEMB 5518	Ocean and Coastal Processes
EEMB 5520	Coral Reef Ecology
EEMB 5522 and EEMB 5523	Experimental Design Marine Ecology and Lab for EEMB 5522
EEMB 5528	Marine Conservation Biology
EEMB 5532	Physiological and Molecular Marine Ecology
EEMB 5534 and EEMB 5535	Marine Invertebrate Zoology and Botany and Lab for EEMB 5534
EEMB 5536	Ocean and Coastal Sustainability
EEMB 5589	Diving Research Methods
<i>SEA Semester restricted courses</i>	

CONCENTRATION IN CONSERVATION SCIENCE

Code	Title	Hours
<i>Required Conservation Science Courses</i>		
BIOL 1107 and BIOL 1108 or BIOL 1111 and BIOL 1112 or BIOL 1115 and BIOL 1116	Foundations of Biology and Lab for BIOL 1107 General Biology 1 and Lab for BIOL 1111 General Biology 1 for Engineers and Lab for BIOL 1115	5
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
EEMB 3460	Conservation Biology	4
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
Complete one of the following:		3-4
ECON 3423	Environmental Economics	
POLS 2395	Environmental Politics and Policy	
SOCL 3485	Environment, Technology, and Society	

Conservation Science Electives

Note: Additional upper-level electives (numbered 2000 and above) may also be acceptable with department advisor approval.

Complete three of the following:		12-15
BIOL 3401	Comparative Vertebrate Anatomy	
BIOL 3403	Animal Behavior	
BIOL 5499	Plant Biotechnology	
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313	
CIVE 4778	Climate Adaptation and Policy Abroad	
CIVE 5271	Solid and Hazardous Waste Management	
EEMB 2290	Ecology and Evolution of Behavior	
EEMB 2400	Introduction to Evolution	
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
EEMB 3120	Physical Biology of Marine Organisms	
EEMB 3455	Ecosystems Ecology	
EEMB 3465	Ecological and Conservation Genomics	
EEMB 3475	Wildlife Ecology	
EEMB 4001	Landscape and Restoration Ecology	
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	
ENVR 3125	Global Oceanic Change	
ENVR 3200	Water Resources	
ENVR 4504	Environmental Pollution	
ENVR 4515	Sustainable Development	
ENVR 4563	Advanced Spatial Analysis	
ENVR 5190	Soil Science	
ENVR 5210 or ENVR 5250	Environmental Planning Geology and Land-Use Planning	

Three Seas Restricted Courses

EEMB 5506	Biology and Ecology of Fishes
EEMB 5508 and EEMB 5509	Marine Birds and Mammals and Lab for EEMB 5508
EEMB 5512	Tropical Terrestrial Ecology
EEMB 5516 and EEMB 5517	Oceanography and Lab for EEMB 5516
EEMB 5520	Coral Reef Ecology

CONCENTRATION IN GEOSCIENCE

Code	Title	Hours
<i>Required Geoscience Courses</i>		
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	5
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340	5
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5
ENVR 5210 or ENVR 5250	Environmental Planning Geology and Land-Use Planning	4

Physics 2

Complete one of the following: 5

PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155
PHYS 1165 and PHYS 1166 and PHYS 1167	Physics 2 and Lab for PHYS 1165 and Recitation for PHYS 1165
PHYS 1175 and PHYS 1176 and PHYS 1177	Physics 2 for Bioscience and Bioengineering and Lab for PHYS 1175 and Interactive Learning Seminar for PHYS 1175

Geoscience Concentration Electives

Complete four of the following: 16-20

ENVR 3125	Global Oceanic Change
ENVR 3418	Geophysics
ENVR 4504	Environmental Pollution
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500
ENVR 4563	Advanced Spatial Analysis
ENVR 5190	Soil Science
ENVR 5201	Geologic Field Seminar
ENVR 5230 and ENVR 5231	Structural Geology and Lab for ENVR 5230
ENVR 5240 and ENVR 5241	Sedimentary Basin Analysis and Lab for ENVR 5240
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242
ENVR 5270 and ENVR 5271	Glacial and Quaternary History and Lab for ENVR 5270

Dialogue of Civilizations restricted courses

ENVR 5202	Environmental Science Field Seminar Abroad
-----------	---

Environmental Science Major Credit Requirement

Ecology and Evolutionary Biology, BS

The Bachelor of Science in Ecology and Evolutionary Biology (EEB) degree is designed to provide a strong foundation in the fundamentals of ecology and evolutionary biology, including focal points in population, community, and ecosystem ecology; evolutionary ecology and biology;

conservation biology; population genetics; behavior; and ecological and evolutionary genomics. Our major provides unique experiential learning opportunities for students interested in the fundamentals of evolution; the ecology of terrestrial, marine, and freshwater systems; and the application of both of these in the pursuit of the conservation and restoration of natural systems. Further, students in our major have the opportunity to focus on cutting-edge techniques in the use of molecular tools to answer fundamental questions in ecology and evolution. The interdisciplinary nature of our major fosters critical thinking and creativity in scientific problem solving while instilling skills that will result in scientifically literate global citizens. The curriculum for this major also satisfies premed and prevet requirements. Courses offered by this major fulfill several core competencies required by the university: Engaging with the Natural and Designed World, Exploring Created Expression and Innovation, Conducting Formal and Quantitative Reasoning, Analyzing and Using Data, Employing Ethical Reasoning, writing-intensive courses, and capstone.

Fieldwork is a valued component of training in our programs, and several of our courses use field sites, resources, and facilities of the Marine Science Center and throughout the greater Boston area. Students interested in having a foundational education in ecology and evolutionary biology, and also participating in the Northeastern Three Seas Program, will be able to meet the requirements for both programs. All students will also have the option to complete undergraduate research experiences with faculty members in the Department of Marine and Environmental Sciences and can take advantage of our faculty networks of scientists and practitioners for additional co-op and research opportunities.

Students graduating with an EEB major will be prepared for success in pursuing graduate degrees, for working in multiple areas of science and technology—including data science and biotech sectors—and for positions with consulting companies, nonprofits, and government agencies.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Due to overlap in course content, double majoring in biology and cell and molecular biology, biology and biochemistry, biology and behavioral neuroscience, or biology and marine biology is not permitted.

Ecology and Evolutionary Biology Major Requirements

Code	Title	Hours
Ecology and Evolutionary Biology		
EEMB 1101 and EEMB 1102	Foundations in Ecology and Evolutionary Biology and Lab for EEMB 1101	5

Ecology and Evolutionary Genomics

EEMB 1105 and EEMB 1106	Foundations in Ecological and Evolutionary Genomics and Lab for EEMB 1105	5
Genetics		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
Evolution		
EEMB 2400	Introduction to Evolution	4
Ecology		
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
Biostatistics		
ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5

Supporting Courses

Code	Title	Hours
Math		
Complete one of the following:		4
MATH 1241	Calculus 1	
MATH 1251	Calculus and Differential Equations for Biology 1	
Chemistry		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214	5
Physics 1		
Complete one of the following:		5
PHYS 1145 and PHYS 1146	Physics for Life Sciences 1 and Lab for PHYS 1145	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
Physics 2		
Complete one of the following:		5
PHYS 1147 and PHYS 1148	Physics for Life Sciences 2 and Lab for PHYS 1147	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	

Ecology and Evolutionary Biology Topical Requirement

Code	Title	Hours
Complete seven of the following. At least one course must be taken from each list:		
<i>Evolution of Organisms</i>		
EEMB 2290	Ecology and Evolution of Behavior	
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	

EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700
EEMB 3450	Physiological Adaptations to the Environment
EEMB 5504	Biology of Corals
EEMB 5506	Biology and Ecology of Fishes
EEMB 5534 and EEMB 5535	Marine Invertebrate Zoology and Botany and Lab for EEMB 5534
EEMB 5548	Sociobiology
MARS 3210	Marine Mammals
MARS 3430	Biology of Whales
<i>Ecology and Conservation Biology</i>	
EEMB 3460	Conservation Biology
EEMB 3475	Wildlife Ecology
EEMB 3465	Ecological and Conservation Genomics
EEMB 3470 and EEMB 3471	Coastal Ecology and Sustainability and Lab for EEMB 3470
EEMB 4001	Landscape and Restoration Ecology
EEMB 5536	Ocean and Coastal Sustainability
EEMB 5512	Tropical Terrestrial Ecology
EEMB 5518	Ocean and Coastal Processes
EEMB 5520	Coral Reef Ecology
EEMB 5528	Marine Conservation Biology
EEMB 5532	Physiological and Molecular Marine Ecology
ENVR 3125	Global Oceanic Change
ENVR 3150	Food Security and Sustainability
MARS 3315	Wetlands: Ecology and Hydrology
<i>Analytical Skills</i>	
ENVR 3300	Geographic Information Systems
ENVR 4563	Advanced Spatial Analysis
EEMB 3465	Ecological and Conservation Genomics
EEMB 5522	Experimental Design Marine Ecology
CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311
CHEM 2313 and CHEM 2314	Organic Chemistry 2 and Lab for CHEM 2313
EEMB 5130	Ecological Dynamics

Ecology and Evolutionary Biology Credit Requirement

Complete 81 semester hours in the major.

Ecology and Evolutionary Biology GPA Requirement

Complete all major courses with a cumulative GPA of 2.000.

Program Requirement

128 total semester hours required

Marine Biology, BS

Our Bachelor of Science in Marine Biology degree is designed to provide a strong foundation in marine biology and related disciplines. This major is offered through Northeastern University’s Marine Science Center in Nahant.

A number of combined-major programs are offered; these can help focus a student’s course choices along avenues that faculty feel are particularly appropriate.

Fieldwork is a valued component of training in our programs, and many of our courses use field sites throughout New England to demonstrate environmental processes or problems in their full complexity. In addition to sponsoring local trips, we have taken students on one longer field excursion each year to Iceland, the Cascade Mountains of Washington, the island of San Salvador in the Bahamas, or the Grand Canyon. Students also have the option to complete undergraduate research experiences with a faculty member. Undergraduate research projects can involve fieldwork and/or lab work completed under the guidance of faculty.

Many of our recent graduates work for environmental or geotechnical firms or continue their studies in graduate school. Students who participate in the co-op program typically work with local engineering or environmental consulting companies or with government agencies. These jobs often involve assessing building sites, evaluating land use, and studying problems concerned with groundwater contamination and remediation.

Three Seas Program

The Three Seas Program allows advanced undergraduate and beginning graduate students in biology and related areas to spend a year of field study in three diverse marine environments.

The program begins in the spring semester at Northeastern University’s Marine Science Center in Nahant, 12 miles north of the main campus. Courses the following fall are conducted at the University of Washington’s Friday Harbor Laboratories on San Juan Island, which is 70 miles north of Seattle and part of an archipelago that lies

between the mainland and Vancouver Island, and at the Smithsonian Tropical Research Institute in Bocas del Toro, Panama, where students engage in tropical biology research. For more information, contact Mark Patterson at 781.581.7370 (ext. 313), or visit the Three Seas Program website at www.northeastern.edu/threeseas (<http://www.northeastern.edu/threeseas>).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Marine Biology Major Requirements

Code	Title	Hours
Introduction to College		
ENVR 1000	Marine and Environmental Sciences at Northeastern	1
Required Biology		
Complete one of the following:		5
BIOL 1107 and BIOL 1108	Foundations of Biology and Lab for BIOL 1107	
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1115 and BIOL 1116	General Biology 1 for Engineers and Lab for BIOL 1115	
Genetics		
BIOL 2301 and BIOL 2302	Genetics and Molecular Biology and Lab for BIOL 2301	5
Organismal and Population Biology		
EEMB 2302 and EEMB 2303	Ecology and Lab for EEMB 2302	5
Introduction to Evolution		
EEMB 2400	Introduction to Evolution	4
Marine Biology		
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	5
Marine Biology Electives		
Complete four of the following:		16-20
BIOL 5587	Comparative Neurobiology	
EEMB 2290	Ecology and Evolution of Behavior	
EEMB 2420	Fisheries Biology, Policy, and Conservation	
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	
EEMB 3120	Physical Biology of Marine Organisms	
EEMB 3450	Physiological Adaptations to the Environment	
EEMB 3460	Conservation Biology	
EEMB 3465	Ecological and Conservation Genomics	

EEMB 5130 and EEMB 5131	Ecological Dynamics and Lab for EEMB 5130
ENVR 1101	Environmental Science
ENVR 2900	Special Topics in Environmental Studies
ENVR 3125	Global Oceanic Change
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300
ENVR 4504	Environmental Pollution
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242

Three Seas Restricted Courses

EEMB 5504	Biology of Corals
EEMB 5506	Biology and Ecology of Fishes
EEMB 5508 and EEMB 5509	Marine Birds and Mammals and Lab for EEMB 5508
EEMB 5512	Tropical Terrestrial Ecology
EEMB 5516 and EEMB 5517	Oceanography and Lab for EEMB 5516
EEMB 5518	Ocean and Coastal Processes
EEMB 5520	Coral Reef Ecology
EEMB 5522 and EEMB 5523	Experimental Design Marine Ecology and Lab for EEMB 5522
EEMB 5528	Marine Conservation Biology
EEMB 5532	Physiological and Molecular Marine Ecology
EEMB 5534 and EEMB 5535	Marine Invertebrate Zoology and Botany and Lab for EEMB 5534
EEMB 5536	Ocean and Coastal Sustainability
EEMB 5589	Diving Research Methods

Marine Studies Consortium Courses (Unrestricted)

MARS 3210	Marine Mammals
MARS 3430	Biology of Whales

Experiential Learning

An activity related to marine biology and approved by the experiential learning advisor must be completed before the capstone. Among the possibilities are co-op experience, junior/senior honors thesis, research project in a faculty lab, volunteer work in a biology-related area, participation in the Three Seas Program with submission of a project paper, or other approved experiences.

Advanced Writing in the Disciplines

ENGW 3307	Advanced Writing in the Sciences	4
or ENGW 3303	Advanced Writing in the Environmental Professions	
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Biology Capstone

Complete one of the following:		1-4
BIOL 4701	Biology Capstone	
ENVR 4900	Earth and Environmental Science Capstone	
ENVR 4997	Senior Thesis	

Breadth Courses for Marine Biology

Code	Title	Hours
Mathematics		
MATH 1251	Calculus and Differential Equations for Biology 1	4
or MATH 1241	Calculus 1	
or MATH 1341	Calculus 1 for Science and Engineering	

Biostatistics

ENVR 2500 and ENVR 2501	Biostatistics and Lab for ENVR 2500	5

Computer Science and Environmental Science, BS

The computer science and environmental science combined major focuses on geological processes that greatly impact the earth, atmosphere, and water in oceans, lakes, and rivers. Understanding these processes requires acquisition and computational analysis of large amounts of data—underscoring the natural relationship between computer science and environmental science.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation	4
CS 4500 and CS 4501	Software Development and Recitation for CS 4500	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, IS, or DS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

Environmental Science Courses

Code	Title	Hours
Environmental Science Required Courses		
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 5210 or ENVR 5250	Environmental Planning Geology and Land-Use Planning	4
ENVR 4900 or ENVR 4997	Earth and Environmental Science Capstone Senior Thesis	1

Complete one of the following sequences:

ENVR 1202
and ENVR 1203 History of Earth and Life and Interpreting Earth History | 5 |

ENVR 2310
and ENVR 2311 Earth Materials and Lab for ENVR 2310 | |

Environmental Science Integrative Courses

Complete at least two of the following:

ENVR 3300
and ENVR 3301 Geographic Information Systems and Lab for ENVR 3300 | 8-10 |

ENVR 3418 Geophysics | |

ENVR 4500
and ENVR 4501 Applied Hydrogeology and Lab for ENVR 4500 | |

Environmental Science Electives

If you complete more than two environmental science integrative courses (above), they will count as environmental science electives.

Complete four of the following:

ENVR 1101 Environmental Science | 16-20 |

ENVR 2340
and ENVR 2341 Earth Landforms and Processes and Lab for ENVR 2340 | |

ENVR 4504 Environmental Pollution | |

ENVR 4563 Advanced Spatial Analysis | |

ENVR 5190 Soil Science | |

ENVR 5201 Geologic Field Seminar | |

ENVR 5230
and ENVR 5231 Structural Geology and Lab for ENVR 5230 | |

ENVR 5240
and ENVR 5241 Sedimentary Basin Analysis and Lab for ENVR 5240 | |

ENVR 5242
and ENVR 5243 Ancient Marine Life and Lab for ENVR 5242 | |

ENVR 5270
and ENVR 5271 Glacial and Quaternary History and Lab for ENVR 5270 | |

Supporting Courses

Code	Title	Hours
Calculus		
MATH 1251 or MATH 1341	Calculus and Differential Equations for Biology 1 Calculus 1 for Science and Engineering	4
MATH 1252 or MATH 1342	Calculus and Differential Equations for Biology 2 Calculus 2 for Science and Engineering	4
MATH 3081	Probability and Statistics	4

Chemistry

CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	5
CHEM 1214 and CHEM 1215 and CHEM 1216	General Chemistry 2 and Lab for CHEM 1214 and Recitation for CHEM 1214	5

Computing and Social Issues

Complete one of the following:

ANTH 3418 Wired/Unwired: Cybercultures and Technopolitics | |

IA 5240 Cyberlaw: Privacy, Ethics, and Digital Rights | |

INSH 2102 Bostonography: The City through Data, Texts, Maps, and Networks | |

PHIL 1145 Technology and Human Values | |

SOCL 1280 The 21st-Century Workplace | |

SOCL 3485 Environment, Technology, and Society | |

SOCL 4528 Computers and Society | |

Computer Science English Requirement

Code	Title	Hours
College Writing		
ENGW 1111 or ENGW 1102	First-Year Writing First-Year Writing for Multilingual Writers	4
Advanced Writing in the Disciplines		
Complete one course from the following:		
ENGW 3302	Advanced Writing in the Technical Professions	4
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
Complete six general electives.		
		24

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

138 total semester hours required

The Departments of Marine and Environmental Sciences and Chemistry provide education in basic environmental science and chemistry-related disciplines. The overall objective of this combined major is to provide the fundamental scientific background and practical training for students as they prepare for environmental and chemically related careers or advanced study in fields including the traditional specialties such as toxicology, pollution, bio-remediation, environmental protection, education, law, and other endeavors that may draw upon an understanding of the chemical basis of the environment and the changes that will likely result from global warming.

Key general objectives are the development of qualitative and quantitative problem-solving skills and effective communication skills. Specific learning objectives for this combined major include the development of conceptual understanding and problem-solving abilities in the fundamental dynamics between the environment and its chemistry, be it analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry. Students will perform quantitative measurements; learn proper laboratory practices, including safety; develop proficiency with modern instruments and computers for data acquisition and analysis; and learn the relevance of chemistry within the context of the abiotic and biotic environments.

Most of our combined majors will participate in the cooperative education program and thereby gain invaluable professional experience to augment their classroom and laboratory work. Not only does that experience add immensely to the overall education received, it also has the potential to provide contacts and references for later employment or graduate school admissions. Students in this major may also undertake research projects for at least one semester under the supervision of a faculty member. Sufficient electives are available in the program either to take more advanced courses or research within the department or to add courses in an area of special interest.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Environmental Geology Major Requirements

Code	Title	Hours
Earth Foundations		
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5

ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	5
Geomorphology		
ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340	5
Environmental Geology Intermediate/Advanced Electives		
Complete two intermediate or advanced electives from ENVR 2300 to ENVR 5999.		8-10

Supporting Courses for Environmental Geology

Code	Title	Hours
Mathematics		
MATH 1241	Calculus 1	4
MATH 1242	Calculus 2	4
Science Requirement		
Complete one of the following options:		10
<i>Biology Option</i>		
BIOL 1111 and BIOL 1112	General Biology 1 and Lab for BIOL 1111	
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	
<i>Physics Option</i>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161

Environmental Studies and Economics, BS

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, political, and economic aspects of the world's environmental problems and potential solutions.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Introduction to College

Code	Title	Hours
ECON 1000	Economics at Northeastern	1
or ENVR 1000	Marine and Environmental Sciences at Northeastern	

Economics Requirements

Code	Title	Hours
Calculus		
MATH 1231	Calculus for Business and Economics	4
Computer Science		
CS 1100	Computer Science and Its Applications	4
Required Economics Courses		

A minimum GPA of 2.000 is required:

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3423	Environmental Economics	4

Economics Electives

No more than one course may be at the introductory level (course number 1000–1999).

Complete two of the following: 7-8

ECON 1290	History of the Global Economy
ECON 1291	Development Economics
ECON 3404	International Food Economics and Policy
ECON 3420	Urban Economic Issues
ECON 3422	Economics of Transportation
ECON 3424	Law and Economics
ECON 3425	Energy Economics
ECON 3440	Public Finance
ECON 4635	International Economics
PPUA 5260	Ecological Economics

Environmental Studies Requirements

Code	Title	Hours
Social Science Component		
PHIL 1180	Environmental Ethics	4
POLS 1150 and POLS 1151	American Government and Recitation for POLS 1150	4
POLS 2395	Environmental Politics and Policy	4
SOCL 1246	Environment and Society	4
Science Component		
ENVR 1101	Environmental Science	4
ENVR 1112 or ENVR 1200	Environmental Geology Dynamic Earth	4
ENVR 1445		4
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5

GPA Requirement

Students are required to earn a GPA of 2.000 in either PHIL 1180 or PHIL 3480 and in ENVR 1101.

Environmental Science Elective

Complete one environmental science elective in consultation with the environmental studies head advisor.

Integrative Requirements

Code	Title	Hours
Advanced Writing in the Disciplines		
ENGW 3308	Advanced Writing in the Social Sciences	4

Integrative Course

Note: Your integrative course and your capstone course (below) must be from different departments.

Complete one of the following: 4

ECON 4692	Senior Economics Seminar	
ENVR 5210	Environmental Planning	
ENVR 5250	Geology and Land-Use Planning	

Capstone

Note: Your integrative course (above) and your capstone course must be from different departments.

ECON 4692	Senior Economics Seminar	4
or ENVR 4997	Senior Thesis	
or ENVS 4997	Senior Thesis	

Experiential Learning Requirement

Code	Title	Hours
Complete one of the following:		4
COOP 3945	Co-op Work Experience	
ECON 4992	Directed Study	
ENVR 4992	Directed Study	
ECON 4970	Junior/Senior Honors Project 1	
ENVR 4970	Junior/Senior Honors Project 1	

Major Credit Requirement

Complete 84 semester hours in the major.

Program Requirement

128 total semester hours required

Information Science and Environmental Science, BS

The information science and environmental science combined major provides a foundational study of geological processes before focusing on environmental planning, environmental ethics, and sustainability. Since it examines the relationship between human decisions and actions to the environment, the program aligns with the orientation of information science, which utilizes an integrated, people-centered curriculum combining concepts and skills from computer science, behavioral and social science, and system design.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Information Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1
Computer Science Fundamental Courses		

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4

Information Science Required Courses

IS 2000	Principles of Information Science	4
IS 3500	Information System Design and Development	4
IS 4800	Empirical Research Methods (Integrative course)	4

Computer Science Elective Courses

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete 4 credits of CS, IS, or DS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

Environmental Science Courses

Code	Title	Hours
Required Environmental Science Courses		
ENVR 1101	Environmental Science	4
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 5210 or ENVR 5250	Environmental Planning and Geology and Land-Use Planning	4
ENVR 4900	Earth and Environmental Science Capstone	1
or ENVR 4997	Senior Thesis	

Sustainability Focus Courses

PHIL 1180	Environmental Ethics	4
Complete two of the following:		8
ECON 3423	Environmental Economics	
ENVR 4515	Sustainable Development	
ENVR 5202	Environmental Science Field Seminar Abroad	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
SOCL 1246	Environment and Society	

Environmental Science Electives

Complete three of the following: 12

ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	
ENVR 3418	Geophysics	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500	

ENVR 4504	Environmental Pollution
ENVR 5201	Geologic Field Seminar
ENVR 5242 and ENVR 5243	Ancient Marine Life and Lab for ENVR 5242

Integrative Course

Code	Title	Hours
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	5

Supporting Courses

Code	Title	Hours
------	-------	-------

Mathematics and Statistics

ECON 2350	Statistics	4
MATH 1251	Calculus and Differential Equations for Biology 1	4
or MATH 1341	Calculus 1 for Science and Engineering	

Chemistry

Complete one of the following:		5
CHEM 1211 and CHEM 1212 and CHEM 1213	General Chemistry 1 and Lab for CHEM 1211 and Recitation for CHEM 1211	
CHEM 1151 and CHEM 1152 and CHEM 1153	General Chemistry for Engineers and Lab for CHEM 1151 and Recitation for CHEM 1151	

Economics

ECON 1116	Principles of Microeconomics	4
-----------	------------------------------	---

Computing and Social Issues

Complete one of the following:		4
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
PHIL 1145	Technology and Human Values	
SOCL 1280	The 21st-Century Workplace	
SOCL 3485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

Computer Science Writing Requirement

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
Advanced Writing in the Disciplines		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
Complete five general electives.		20

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Exploring Creative Expression and Innovation
- Understanding Societies and Institutions
- Analyzing and Using Data
- Employing Ethical Reasoning
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

136 total semester hours required

Total Hours: 136

Environmental Geology, Minor

The environmental geology minor provides an understanding of earth surface processes, such as rivers and flooding, groundwater and water supply, landform development, coastline evolution, and geological hazards. The impacts of man on the environment and various means of managing these impacts are among the central themes. The environmental geology program places strong emphasis on field studies.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	5
ENVR 5210 or ENVR 5250	Environmental Planning Geology and Land-Use Planning	4

Geology Elective

Code	Title	Hours
Complete one ENVR course.		4

GPA Requirement

2.000 GPA required in the minor

Environmental Science, Minor

The environmental science minor provides undergraduates with a strong foundation on a variety of scientific, technical, institutional, economic, behavioral, and conservation-oriented solutions to environmental problems caused by either natural phenomena and/or human activity.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Course Work

Code	Title	Hours
Introductory Course Work		
Complete one of the following:		4-5
BIOL 1121 and BIOL 1122	Basic Microbiology and Lab for BIOL 1121	
ENVR 1101	Environmental Science	

Science or Engineering

Complete one of the following courses based on your major: 4-5

Engineering Majors

CHEM 1214 and CHEM 1215	General Chemistry 2 and Lab for CHEM 1214
----------------------------	--

Other Majors

CHEM 2311 and CHEM 2312	Organic Chemistry 1 and Lab for CHEM 2311
CIVE 2334	Environmental Engineering 1

Social Sciences

Complete one of the following: 4

ECON 3423	Environmental Economics
PHIL 1180	Environmental Ethics
POLS 2395	Environmental Politics and Policy
SOCL 1246	Environment and Society
SOCL 3485	Environment, Technology, and Society

Electives

Code	Title	Hours
Complete any two courses from the following. Only one of the courses may be in the 1000–1999 range. Only one course may be selected from a group:		8-10

Physics Group

For nonengineering/nonscience majors only:

PHYS 1132	Energy, Environment, and Society
-----------	----------------------------------

Biology Group

EEMB 2302	Ecology
-----------	---------

Environmental Planning Group

ENVR 5210	Environmental Planning
ENVR 5250	Geology and Land-Use Planning

Geology Group

ENVR 2340 and ENVR 2341	Earth Landforms and Processes and Lab for ENVR 2340
ENVR 4504	Environmental Pollution
ENVR 5190	Soil Science
Hydrogeology Group	
ENVR 4500 and ENVR 4501	Applied Hydrogeology and Lab for ENVR 4500
Geographic Information Systems Group	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300
Civil Engineering Group	
CIVE 4534	Environmental Engineering 2
CIVE 5536	Hydrologic Engineering

Interdisciplinary Work

Code	Title	Hours
Complete the independent project, the applied experience, or the environmental safety program:		

Independent Project

See program advisor for approval before embarking on the project.

Applied Experience

See program advisor for details.

Environmental Safety Program

See program advisor for details.

GPA Requirement

2.000 GPA required in the minor

Environmental Studies, Minor

Students may choose to pursue a minor in environmental studies by completing a blend of science, social science, and interdisciplinary courses. A student may broaden his or her understanding of the science and policy of the Earth's environmental challenges through this program, which is designed to complement any undergraduate major.

The goals of the environmental studies minor are threefold,

- To help undergraduates develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems
- To better prepare students for careers in the expanding field of environmental professions
- To prepare students for further study at the graduate or professional school level

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Course

Code	Title	Hours
ENVR 1101	Environmental Science	4

Science Course

Code	Title	Hours
Complete one of the following:		4-5
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	
ENVR 1112	Environmental Geology	
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	

Social Science Courses

Code	Title	Hours
Complete two of the following:		8
ECON 1116	Principles of Microeconomics	
PHIL 1180	Environmental Ethics	
POLS 1150	American Government	
SOCL 1246	Environment and Society	

Interdisciplinary Courses

Code	Title	Hours
Complete two of the following:		8
ENVR 4504	Environmental Pollution	
ENVR 5210	Environmental Planning	
ENVR 5250	Geology and Land-Use Planning	
POLS 2395	Environmental Politics and Policy	

GPA Requirement

2.000 GPA required in the minor

Geology, Minor

The geology minor focuses on the history and development of the earth. The program places a strong emphasis on field studies as a means of appreciating the materials, landforms, and forces interacting throughout geological time.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
ENVR 1200 and ENVR 1201	Dynamic Earth and Lab for ENVR 1200	5
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 2310 and ENVR 2311	Earth Materials and Lab for ENVR 2310	5
ENVR 3000 and ENVR 3001	and	5

Geology Elective

Code	Title	Hours
Complete one ENVR course.		4

GPA Requirement

2.000 GPA required in the minor

Marine Biology, Minor

The marine biology minor is designed to provide Northeastern undergraduates with a strong foundation in marine biology and related disciplines. The minor has a strong hands-on component involving course work, marine biology research projects, and marine-related co-ops.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Restrictions

This minor is not available for students who major in biology or any combined major that involves biology. Biology majors interested in marine biology should consider the major in marine biology.

Required Courses

Code	Title	Hours
BIOL 1111 and BIOL 1112 or BIOL 1107 and BIOL 1108	General Biology 1 and Lab for BIOL 1111 Foundations of Biology and Lab for BIOL 1107	5
BIOL 1113 and BIOL 1114	General Biology 2 and Lab for BIOL 1113	5

Elective Courses

Code	Title	Hours
Complete three of the following:		7-15
EEMB 2616 and EEMB 2617	Invertebrate Zoology and Lab for EEMB 2616	
EEMB 2700 and EEMB 2701	Marine Biology and Lab for EEMB 2700	
EEMB 5504	Biology of Corals	
EEMB 5506	Biology and Ecology of Fishes	
EEMB 5508 and EEMB 5509	Marine Birds and Mammals and Lab for EEMB 5508	
EEMB 5512	Tropical Terrestrial Ecology	
EEMB 5516 and EEMB 5517	Oceanography and Lab for EEMB 5516	
EEMB 5518	Ocean and Coastal Processes	
EEMB 5520	Coral Reef Ecology	
EEMB 5522 and EEMB 5523	Experimental Design Marine Ecology and Lab for EEMB 5522	
EEMB 5528	Marine Conservation Biology	
EEMB 5532	Physiological and Molecular Marine Ecology	
EEMB 5534 and EEMB 5535	Marine Invertebrate Zoology and Botany and Lab for EEMB 5534	
EEMB 5536	Ocean and Coastal Sustainability	
EEMB 5589	Diving Research Methods	

Supporting Courses

Code	Title	Hours
To provide breadth of knowledge, complete one additional science course in the BIOL, CHEM, ENVR, or PHYS subject areas or from the following:		4

PSYC 3458	Biological Psychology
PSYC 4510	Psychopharmacology

GPA Requirement

2.000 GPA required in the minor

Marine Studies, Minor

The marine studies minor is designed to provide a structured program on the Boston campus for students with an interest in the marine environment. The program allows a primary, but not exclusive, emphasis in either the scientific or the social science/humanistic study of the oceans. Some physical interaction with the sea through achievement in a specific marine-related skill and a project involving a degree of independent study is required. Students enrolled in any program at the university may complete the marine studies minor.

The program draws on courses throughout the university and is affiliated with several outstanding, specialized marine programs. These include the SEA Semester Program run by the Sea Education Association, which provides a rigorous program in marine sciences at Woods Hole, Massachusetts, and aboard one of its tall ships for training cruises in the Caribbean, Pacific, or Labrador Sea. In addition to the cruises designed to explore the broad range of aspects of marine science and culture, there are specialized cruises that add a focus on Caribbean studies, Pacific island culture, and marine environmental issues. Students may also take specialized courses in marine topics through the Marine Studies Consortium.

For more information, contact the director of marine studies, Professor Rebeca Rosengaus at 617.373.7032 or at r.rosengaus@northeastern.edu.

COURSE REQUIREMENTS

At least four marine-related courses totaling 16 semester hours are required, along with mastery of a marine skill and an independent study. Two courses must be beyond the introductory level. At least one course must be from the natural sciences and one from the social sciences/humanities. Other courses at the university may fulfill these requirements with the permission of the department.

Mastery of a marine-related skill can be achieved through satisfactory completion of course work or evidence of achievement through some form of approved outside certification. Course work in marine skills normally is limited to one of the six required courses.

The project requirement can be met by completion of an approved directed studies course in marine studies or in any department of the university. The project normally is limited to one of the six required courses. The project requirement can also be met, with prior approval, by completion of a major course-related project or other outside project in which a significant amount of independent study is involved.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
Complete four courses from the following lists. Two courses must be above the introductory level.		16
Humanities		

MARS 3310	Water Resources Policy and Management

Solomon M. Jekel, Associate Professor and Head Advisor,
s.jekel@northeastern.edu

Mathematics is of ever-increasing importance to our society and everyday life. It has long been the language of science and technology and provides a rich source of methods for analyzing and solving problems encountered in the physical world. Today, mathematics is essential in virtually all fields of human endeavor, including business, the arts, and the social sciences.

The Bachelor of Arts degree requires at least 11 mathematics courses and two physics courses, in addition to the study of a foreign language; this program is appropriate for students who wish a broader liberal arts education. The Bachelor of Science degree requires at least 14 mathematics courses and two physics courses but no foreign language study; it is more specialized, and it is recommended for those strongly interested in mathematics and science. The department also offers a minor degree in mathematics.

The major programs provide flexibility with elective courses. Students may take advantage of a range of interdisciplinary programs and may join a major in mathematics with one in such fields as computer science, physics, and biology.

Exceptional students are accepted into the Honors Program and have the option to enroll in honors sections of several of their mathematics courses. All math majors may benefit from co-op opportunities in the scientific and business communities in Boston and elsewhere.

Many of the mathematics courses that we offer use computers for visualization, modeling, and numerical approximation.

Students planning to teach secondary-school mathematics must major in mathematics and take a specific minor in education, which includes course work and student teaching.

Mathematical training may lead to opportunities in applied research (natural sciences, engineering, economics, management, computer science) as well as in mathematical research, teaching, or industry.

Programs

Bachelor of Arts (BA)

- Mathematics (p. 556)

Bachelor of Science (BS)

- Mathematics (p. 558)
- Biology and Mathematics (p. 490)
- Computer Science and Mathematics (p. 330)
- Economics and Mathematics (p. 563)
- Graphic and Information Design and Mathematics (p. 95)
- Mathematics and Business Administration (p. 253)
- Mathematics and Physics (p. 568)
- Mathematics and Political Science (p. 569)

Minor

- Mathematics (p. 571)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 621)

Mathematics, BA

The Bachelor of Arts degree requires at least 11 mathematics courses and two physics courses, in addition to the study of a foreign language. This program is appropriate for students who wish a broader liberal arts education.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Mathematics Major Grade Requirement

A grade of C or higher is required in all mathematics courses numbered 3000 and below and in MATH 4000.

Mathematics Major Requirements

Code	Title	Hours
Problem Solving		
MATH 1365	Introduction to Mathematical Reasoning	4
History of Mathematics		
MATH 2201	History of Mathematics	4
Calculus		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
Intermediate and Advanced Mathematics

Biology and Mathematics, BS

In the BS, combined biology and mathematics degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In mathematics courses, students pursue mathematical reasoning, differential equations, and linear algebra, as well as statistics and probability. The fields of biology and mathematics are integrated in a range of course offerings including bioinformatics, applied statistics, advanced genomics, and biological imaging.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

MATH 4581	Statistics and Stochastic Processes
MATH 7343	Applied Statistics
BINF 6308	Bioinformatics Computational Methods 1
BINF 6309	Bioinformatics Computational Methods 2

Intermediate or Advanced Science

Complete one course from the following: 4

BIOL 2301 to BIOL 5999
CHEM 2311 to CHEM 5999
EEMB 2290 to EEMB 5999
ENVR 2310 to ENVR 5999
MATH 2280 to MATH 5999
PHYS 2303 to PHYS 5999
PSYC 2290 to PSYC 5999

Writing Requirement

ENGW 3307 Advanced Writing in the Sciences 4

Biology and Mathematics Combined-Major Credit/GPA Requirements

Complete 93 semester hours in the major with a cumulative GPA of 2.000.

Program Requirements

143 total semester hours required

Computer Science and Mathematics, BS

The computer science and mathematics combined major was the first dual major created by the college. The mathematics requirements focus on courses that have computing applications or form the basis for further studies in mathematical theory. The program emphasizes the strong ties between computer science and mathematics that date back to the origins of machine computation in the 1930s and 1940s—and persist to this day.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Computer Science Courses

Code	Title	Hours
------	-------	-------

Computer Science Overview

CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses.

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800 (Integrative course)	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation	4
CS 4300 ¹	Computer Graphics (Integrative course)	4
CS 4500 and CS 4501	Software Development and Recitation for CS 4500	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.

Complete eight credits of CS, IS or DS classes that are not already required. Choose courses within the following ranges: 8

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

¹ CS 4300 satisfies the capstone requirement.

Mathematics Courses

Code	Title	Hours
------	-------	-------

Calculus Courses

MATH 1341	Calculus 1 for Science and Engineering (a grade of C– or higher is required)	4
MATH 1342	Calculus 2 for Science and Engineering (a grade of C– or higher is required)	4
MATH 2321	Calculus 3 for Science and Engineering	4

Mathematics Courses

MATH 2331	Linear Algebra	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4

MATH 3175	Group Theory	4
MATH 3527	Number Theory 1	4
Mathematics Electives		
Complete three courses in the following range:		12
MATH 3001 to MATH 4999 but not MATH 4000		

Supporting Course

Code	Title	Hours
Complete one of the following:		4
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
PHIL 1145	Technology and Human Values	
SOCL 1280	The 21st-Century Workplace	
SOCL 3485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

Computer Science Writing Requirement

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
Advanced Writing in the Disciplines		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
Complete seven general electives.		28

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

133 total semester hours required

Economics and Mathematics, BS

Given the mathematical and graphical models used extensively in economics, economics and mathematics are natural partners. Our combined major with mathematics is designed for students who want to further develop their mathematics skills to enhance their understanding and interest in economics. This combined major is strongly recommended for students with an interest in pursuing graduate studies in economics.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Economics Requirements

Code	Title	Hours
Introduction to College		
ECON 1000 or MATH 1000	Economics at Northeastern Mathematics at Northeastern	1
Required Economics		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4
Economics Electives		
Complete four economics electives with not more than two at the introductory level:		16
Introductory		
ECON 1200 to ECON 1990		
Intermediate/Advanced		
ECON 2990 to ECON 3499		
ECON 3915	Intermediate Selected Topics in Macroeconomics	
ECON 3916	Intermediate Selected Topics in Microeconomics	
ECON 3990	Elective	
ECON 4600 to ECON 4681		
ECON 4915 to ECON 4916		
ECON 4965	Undergraduate Teaching Experience 1	
ECON 4970 to ECON 4990		
ECON 4992	Directed Study	
ECON 4994	Internship	

Mathematics Requirements

Code	Title	Hours
Required Mathematics		
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
Mathematics Electives		
Complete two courses in the following range:		8
MATH 3001 to MATH 4999		
The following courses are recommended:		

MATH 3150	Real Analysis
MATH 4581	Statistics and Stochastic Processes

Breadth Course

Code	Title	Hours
Computer Science		
CS 1100	Computer Science and Its Applications	4

Integrative Requirements

Code	Title	Hours
Advanced Writing in the Disciplines		
ENGW 3308	Advanced Writing in the Social Sciences	4
Integrative Course		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	

Combined-Major GPA/Credit Requirement

Code	Title	Hours
A GPA of 2.000 is required in the following six courses with no grade lower than C-		
ECON 1115	Principles of Macroeconomics	
ECON 1116	Principles of Microeconomics	
ECON 2315	Macroeconomic Theory	
ECON 2316	Microeconomic Theory	
ECON 2560	Applied Econometrics	
MATH 3081	Probability and Statistics	

A cumulative GPA of 2.000 is required in all math courses.
A grade of C or higher is required in all math courses numbered MATH 2999 or below; grades below C will not count toward the degree.
Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Graphic and Information Design and Mathematics, BS

The Department of Mathematics and the Department of Art + Design offer a combined major in mathematics and graphic and information design. Students interested in the combined major integrate the study of mathematical reasoning including methods for analyzing and solving problems encountered in the physical world with the design of message and meaning, integrating text and image to visualize concepts and data to enhance human understanding of complex and vital knowledge.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

NUPath requirements Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Analyzing and Using Data (AD), and Societies and Institutions (SI) are met through the major course requirements.

NUPath requirements Natural and Designed World (ND), Difference and Diversity (DD), and Ethical Reasoning (ER) must be met through electives.

Graphic and Information Design Requirements

Code	Title	Hours
Art and Design at Northeastern		
ARTF 1000	Art and Design at Northeastern	1
Art and Design Fundamentals		
ARTF 1122	2D Fundamentals: Surface and Drawing (with optional ARTF 1123)	4
ARTF 2220	4D Fundamentals: Sequence and Drawing (with optional ARTF 2221)	4
Art and Design History		
ARTH 2210	Modern Art and Design History	4
ARTH 2215	History of Graphic Design	4
Design		
ARTG 1250	Design Process Context and Systems	4
ARTG 2250	Typography 1 (with optional ARTG 2251)	4
ARTG 2252	Graphic Design 1	4
ARTG 3350	Typography 2	4
ARTG 3451	Information Design 1	4
Degree Project		
ARTG 4550	Design Degree Project 1	4
Art and Design Elective		
ARTG 4551 can count as an Art and Design elective as well as a capstone.		
Complete one of the following:		4
ARTD 2360	Photo Basics (with optional ARTD 2361)	
ARTD 2380	Video Basics (with optional ARTD 2381)	
ARTG 2260	Programming Basics	
ARTF 1120	Observational Drawing	
ARTF 1121	Conceptual Drawing	
ARTF 1124	3D Fundamentals: Structure and Drawing (with optional ARTF 1125)	
ARTF 2223	5D Fundamentals: Experience and Drawing (with optional ARTF 2224)	
ARTG 2400	Interaction Design 1: Responsive (with optional ARTG 2401)	
ARTG 3351	Time-Based Design	
ARTG 3450	Graphic Design 2	
ARTG 3460	Identity and Brand Design	
ARTG 4551	Design Degree Project 2	
ARTG 4552	Information Design 2	

ARTG 4553	Environmental Information Design
ARTG 4554	Typography 3

Mathematics Requirements

Code	Title	Hours
Math Reasoning		
MATH 1365	Introduction to Mathematical Reasoning	4
Calculus		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
Intermediate Math		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
Advanced Elective		
Complete one of the following:		4
MATH 3150	Real Analysis	
MATH 3175	Group Theory	
MATH 3560	Geometry	
Mathematics Elective		
MATH 4025 can count as an upper-level math elective as well as a capstone.		
Complete one course in the following range:		4
MATH 3101 to MATH 4899		

Integrative Requirement

Code	Title	Hours
ARTG 3451	Information Design 1	4

Combined-Major Credit Requirement

Complete 80 semester hours in the major.

Program Requirement

128 total semester hours required

Mathematics and Business Administration, BS

A combined major combines two majors in a way that allows a student to fulfill all requirements within the standard 128 credits. For details, see program requirements.

Current students can also find details about combined majors and minors by going to their audit, clicking on “explore options,” and finding the appropriate program. Students will be able to see a list of required courses and will be able to track their progress toward fulfilling them.

In the BS combined mathematics and business administration degree program, business and mathematics courses lay the groundwork for strong basic training in finance.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Mathematics Requirements

Code	Title	Hours
Required Courses		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 3081	Probability and Statistics	4
Calculus and Linear Algebra (Required) and Differential Equations (Recommended)		
Complete either Option 1 or Option 2 below:		8
Option 1 (Recommended)		
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2341	Differential Equations and Linear Algebra for Engineering	
Option 2		
MATH 2321 or MATH 2323	Calculus 3 for Science and Engineering or Calculus 3 for Business, Economics, and Mathematics	
MATH 2331	Linear Algebra	
Co-op Reflections		
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
Mathematics Electives		
Complete three courses in the range MATH 3001 to MATH 5999. The following courses are recommended:		12
MATH 4681	Probability and Risks	
MATH 4682	Theory of Interest and Basics of Life Insurance	
MATH 4581	Statistics and Stochastic Processes	

Business Requirements

Code	Title	Hours
Accounting		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
Finance		
FINA 2201	Financial Management	4
Marketing		
MKTG 2201	Introduction to Marketing	4
Organizational Behavior		
ORGB 3201	Organizational Behavior	4
International Business/Social Responsibility		
INTB 1203	International Business and Global Social Responsibility	4

Strategy in Action		
STRT 4501	Strategy in Action	4

Integrative Course

Note: Financial Risk Management (FINA 4512) also counts toward the finance concentration.

Code	Title	Hours
FINA 4512	Financial Risk Management	4

Finance Concentration

Code	Title	Hours
Finance Requirements		
FINA 3301	Corporate Finance	4
FINA 3303	Investments	4
FINA 4512	Financial Risk Management	4
Finance Elective		
Complete one of the following:		4
ENTR 3520 or FINA 2720	Impact Investing and Social Finance or Sustainability in the Business Environment	
FINA 4604	Fixed-Income Securities (Recommended)	
FINA 4310	Working Capital Management	
FINA 4312	Issues in Corporate Governance	
FINA 4320	International Financial Management	
FINA 4410	Valuation and Value Creation	
FINA 4412	Personal Financial Planning	
FINA 4420	Mergers and Acquisitions	
FINA 4514	Investment Banking	
FINA 4516	Real Estate Finance	
FINA 4526	Core Topics in Alternative Investments	
FINA 4602	Turnaround Management	
FINA 4604	Fixed-Income Securities	
FINA 4608	Advanced Financial Strategy	
FINA 4610	Entrepreneurial Finance, Innovation Valuation, and Private Equity	
FINA 4983	Special Topics in Finance	

Second Business Concentration (Optional)

A second business concentration is optional and may be chosen from the following list. Requirements for the concentrations are listed below (p. 254).

- Accounting (p. 254)
- Business/Interdisciplinary (p. 254)
- Entrepreneurship and Innovation (p. 254)
- Management (p. 255)
- Management Information Systems (p. 255)
- Marketing (p. 255)
- Supply Chain Management (p. 255)

Supplemental Courses

Code	Title	Hours
Economics		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
Co-op Preparation		

BUSN 1103	Professional Development for Business Co-op	1
or EESC 2000	Professional Development for Co-op	

Business Cooperative Education Requirement

Complete one six-month co-op experience.

Mathematics GPA Requirement

Minimum 2.000 GPA required in all mathematics courses

Business GPA Requirement

Minimum 2.000 GPA required in business courses

Program Requirement

128 total semester hours required

CONCENTRATION IN ACCOUNTING

Code	Title	Hours
Required Courses		
ACCT 3401	Financial Reporting and Analysis 1	4
ACCT 4501	Financial Reporting and Analysis 2	4
Electives		
Complete two of the following:		8
ACCT 3403	Accounting Information Systems	
ACCT 3416	Strategic Cost Analysis for Decision Making	
ACCT 4412	Auditing and Other Assurance Services	
ACCT 4414	Income Tax Determination and Planning	

CONCENTRATION IN BUSINESS/INTERDISCIPLINARY

Code	Title	Hours
Complete four courses in consultation with approved D'Amore-McKim School of Business faculty member.		16

CONCENTRATION IN ENTREPRENEURSHIP AND INNOVATION

Code	Title	Hours
Note: The following courses do not count toward this concentration:		
ENTR 1201	The Entrepreneurial Universe	
ENTR 3308	Business Economic History of South Africa	
ENTR 3318		
ENTR 3328		
ENTR 3338	Field Research in Sustainable Energy in Iceland	
ENTR 3346		
ENTR 4510	Management Consulting Abroad	
ENTR 4514	Development Practice and Global Citizenship in India	
Introductory Course		
ENTR 2301	Innovation!	4
or ENTR 2303	Entrepreneurial Marketing and Selling	
Capstone Course		
Complete one of the following:		4

ENTR 4501	Business Planning for Technology Ventures
ENTR 4503	Business Planning for Small and Medium Enterprises
ENTR 4505	Entrepreneurial Growth Strategy for Technology Ventures
ENTR 4506	Advanced Studies in Social Enterprise

Electives

Note: Only one non-ENTR course may be used as an elective.

Complete two of the following:		8
ENTR 2206	Global Social Enterprise	
ENTR 2215	Understanding Family Enterprise	
ENTR 2414	Social Responsibility of Business in an Age of Inequality	
ENTR 2301	Innovation! (if not used as introductory course)	
ENTR 2303	Entrepreneurial Marketing and Selling (if not used for introductory course)	
ENTR 3212	Innovation for Social Change	
ENTR 3217	Global Family Business Leadership	
ENTR 3220	International Entrepreneurship and Innovation Consulting	
ENTR 3305	Entrepreneurial Strategy and Business Model Design	
ENTR 3306	Global Entrepreneurship	
ENTR 3330	Lean Design and Development for Entrepreneurs	
ENTR 3401	Management of Operations and Growth in Small- and Medium-Sized Enterprises	
ENTR 3403	Managing Operations in a Technology-Based Startup Firm	
ENTR 3520	Impact Investing and Social Finance	
ENTR 4225	Corporate Entrepreneurship through Global Growth, Acquisitions, and Alliances	
ENTR 4512	Social Entrepreneurship and Sustainable Development in India	
FINA 4610	Entrepreneurial Finance, Innovation Valuation, and Private Equity	
MGMT 3302	Negotiating in Business	

CONCENTRATION IN MANAGEMENT

Code	Title	Hours
Required Course		
MGMT 4501	Skills for Managerial Success	4
Electives		
Note: Only one non-MGMT course may be used as an elective.		
Complete three of the following:		12
MGMT 3302	Negotiating in Business	
MGMT 3315	Managing Organizational Change and Disruption	
MGMT 3330	Developing Leaders for Global Sustainability	
MGMT 3340	Managing Healthcare Organizations: Critical Challenges and New Approaches	

MGMT 3350	Managing a Diverse Workforce
MGMT 3360	Law and the Legal Process
MGMT 3420	Managing Human Capital
MGMT 3510	Managing Global Teams Virtually and Locally
MGMT 3530	Project Management
MGMT 4310	The Management Practices of Great Organizations
MGMT 4410	Human Resources and Workforce Analytics
ENTR 2215	Understanding Family Enterprise
ENTR 2414	Social Responsibility of Business in an Age of Inequality
ENTR 4225	Corporate Entrepreneurship through Global Growth, Acquisitions, and Alliances

CONCENTRATION IN MANAGEMENT INFORMATION SYSTEMS

Code	Title	Hours
Required Courses		
MISM 3403	Data Management in the Enterprise	4
MISM 4501	Business Systems Integration	4
Electives		
Note: Only one non-MISM course may be used as an elective.		
Complete two of the following:		8
MISM 2510	Fundamentals of Information Analytics	
MISM 3305	Information Resource Management	
MISM 3404	Data Communications	
MISM 3406	Introduction to Web Design, Practices, and Standards	
MISM 3501	Information Visualization for Business	
MISM 3515	Data Mining for Business	
MKTG 4508	Digital Marketing	
SCHM 3301	Global Supply Chain Strategy	
SCHM 3305	Sourcing and Procurement	
SCHM 3308	Supply Chain Analytics	

CONCENTRATION IN MARKETING

Code	Title	Hours
Required Courses		
MKTG 3401	Marketing Research	4
MKTG 3301	Marketing Management	4
or MKTG 4506	Consumer Behavior	
Electives		
Complete two of the following:		8
MKTG 2301	Marketing and Society	
MKTG 3301	Marketing Management (if not selected as a required course)	
MKTG 3501	Marketing Analytics	
MKTG 4220	Marketing in Asia	
MKTG 4420	Sales Management	
MKTG 4502	Marketing in the Service Sector	
MKTG 4504	Advertising and Brand Promotion	
MKTG 4506	Consumer Behavior (if not selected as a required course)	

MKTG 4508	Digital Marketing
MKTG 4510	New Product Development
MKTG 4512	International Marketing

CONCENTRATION IN SUPPLY CHAIN MANAGEMENT

Code	Title	Hours
Required Courses		
SCHM 3301	Global Supply Chain Strategy	4
SCHM 3305	Sourcing and Procurement	4
SCHM 3310	Logistics and Transportation Management	4
Elective		
Complete one of the following:		4
SCHM 3308	Supply Chain Analytics	
SCHM 3320	Demand Planning and Forecasting	
SCHM 3330	Sustainability and Supply Chain Management	
SCHM 4401	Advanced Problems in Supply Chain Management	

Mathematics and Physics, BS

Mathematics and physics have been linked since antiquity. By combining physics and mathematics you can take closely related courses in each discipline, such as statistical mechanics and stochastic processes, mechanics and dynamical systems, thermodynamics and Fourier Series, and quantum mechanics and partial differential equations. The two departments jointly offer a course in mathematical methods in physics.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Mathematics Requirements

Code	Title	Hours
Calculus		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
Intermediate and Advanced Math		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
MATH 3150	Real Analysis	4
MATH 3175	Group Theory	4

Co-op Reflections

MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
-----------	--	---

Mathematics Elective

Complete one course in the following range: 4

MATH 3101 to MATH 4899

Physics Requirements

Code	Title	Hours
------	-------	-------

Physics 1

Complete one of the following: 5

PHYS 1161 Physics 1
and PHYS 1162 and Lab for PHYS 1161

PHYS 1151 Physics for Engineering 1
and PHYS 1152 and Lab for PHYS 1151
and PHYS 1153 and Interactive Learning Seminar for PHYS 1151

Physics 2

Complete one of the following: 5

PHYS 1165 Physics 2
and PHYS 1166 and Lab for PHYS 1165

PHYS 1155 Physics for Engineering 2
and PHYS 1156 and Lab for PHYS 1155
and PHYS 1157 and Interactive Learning Seminar for PHYS 1155

Intermediate Physics

PHYS 2303 Modern Physics 4

PHYS 2305 Thermodynamics and Statistical Mechanics 4

PHYS 2371 Electronics 4
and PHYS 2372 and Lab for PHYS 2371**Advanced Physics**

PHYS 3600 Advanced Physics Laboratory 4

PHYS 3602 Electricity and Magnetism 4

Elective Courses

Complete two courses in the following range: 8

PHYS 3000 to PHYS 7999

Integrative Courses

Code	Title	Hours
------	-------	-------

PHYS 3601 Classical Dynamics 4

MATH 4545 Fourier Series and PDEs 4
or MATH 4525 Applied Analysis

Combined-Major Credit Requirement

Complete 83 semester hours in the major.

Program Requirement

128 total semester hours required

Complete two courses in the following range that are not required in the requirements above:		8
MATH 30001 to MATH 5999		

Political Science Requirements

Code	Title	Hours
Political Science Required Courses		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
Political Thought		
POLS 2325	Ancient Philosophy and Political Thought	4
POLS 2328	Modern Political Thought	4
POLS 2330	American Political Thought	4
POLS 2332	Contemporary Political Thought	4
Political Science Electives		
Complete three POLS courses numbered 2000 and above.		12

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below.

- American political institutions (p. 570)
- Campaigns and elections (p. 570)
- Comparative politics (p. 570)
- Identity, culture, and politics (p. 571)
- International relations and diplomacy (p. 571)

- Law and legal studies (p. 571)
- Public policy (p. 571)
- Security studies (p. 571)

Integrative Requirement

Code	Title	Hours
POLS 3402		

Mathematics and Political Science Combined-Major Credit Requirement

Complete 68 semester hours in the major.

Program Requirement

128 total semester hours required

Optional Political Science Concentrations

CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	

CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
Required Courses		
With advisor approval, a co-op or internship may be substituted in place of POLS 4947:		
POLS 3160	Campaign Strategy	4
POLS 4947		4
Campaigns and Elections Electives		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2355		
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3162	Local Campaigns and Elections	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3304		

CONCENTRATION IN COMPARATIVE POLITICS

Code	Title	Hours
Theoretical Requirement		
Complete one of the following:		4
POLS 2370	Religion and Politics	
POLS 3418	Nationalism	
POLS 3427	Civil-Military Relations	
POLS 3487	Politics of Developing Nations	
Regional Requirements		
Complete two of the following:		8

POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3445		
POLS 3450		
POLS 3460		
POLS 3465	Government and Politics in the Middle East	
POLS 3475		
POLS 3480		
POLS 3485		
Experiential/Practicum Requirement		
Complete one of the following:		4
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4937	Dialogue of Civilizations: Government and Politics Abroad	

CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

Code	Title	Hours
Core Course		
POLS 3418	Nationalism	4
Electives		
Complete three of the following:		12
POLS 2360	Politics of Poverty	
POLS 2368	Music and Politics in America and Abroad	
POLS 2370	Religion and Politics	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	

CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY

Code	Title	Hours
Experiential/Practicum Requirement		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	
Core Courses		
Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3407	International Organizations	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

CONCENTRATION IN LAW AND LEGAL STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	

POLS 3302	Judicial Process and Behavior
POLS 3324	Law and Society
POLS 3406	International Law
POLS 4500	U.S. Constitutional Law
POLS 4505	U.S. Civil Liberties

CONCENTRATION IN PUBLIC POLICY

Code	Title	Hours
Core Requirement		
POLS 3307	Public Policy and Administration	4
Electives		
Complete three of the following:		12
POLS 2334	Bureaucracy and Government Organizations	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	
POLS 2395	Environmental Politics and Policy	
POLS 3425	U.S. Foreign Policy	

CONCENTRATION IN SECURITY STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3427	Civil-Military Relations	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations	
POLS 4918	Model NATO	

Mathematics, Minor

A math minor can be combined with any other major at Northeastern and can be obtained by completing six math courses: two calculus courses, two intermediate courses, and two upper-level courses.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
Biology majors may substitute the following two courses:		
MATH 1251	Calculus and Differential Equations for Biology 1	

MATH 1252	Calculus and Differential Equations for Biology 2
-----------	---

Intermediate-Level Courses

Code	Title	Hours
Complete two of the following:		8
MATH 2321	Calculus 3 for Science and Engineering	
MATH 2341	Differential Equations and Linear Algebra for Engineering	
MATH 2331	Linear Algebra	

Mathematics Electives

Code	Title	Hours
Complete two courses in the following range:		8
MATH 3001 to MATH 4699 ¹		

¹ MATH 4000 is excluded.

GPA Requirement

2.000 GPA required in the minor

Physics

Website (<http://www.northeastern.edu/cos/physics>)

Mark C. Williams, PhD
Professor and Chair

110 Dana Research Center
617.373.2902
617.373.2943 (fax)
physics@northeastern.edu

Physics examines the fundamental principles that govern natural phenomena, ranging in scale from collisions of subatomic particles; through the behavior of solids, liquids, and biomolecules; to exploding stars and colliding galaxies.

The program aims to help students experience the intellectual stimulation of studying physics and the excitement of frontline research, understand the basic principles and techniques of physics-related careers, and prepare for graduate study in physics or related fields.

Programs

The department offers several degree programs:

- BS in physics, applied physics, or biomedical physics
- BS in applied physics/MS in electrical engineering
- MS and PhD in physics

Four levels of courses are offered:

- Descriptive courses for nonscience majors with limited mathematical background
- General survey courses for students in scientific and engineering fields
- Advanced courses primarily intended for physics, biomedical physics, and applied physics majors
- Highly advanced courses primarily intended for prospective graduate students

A BS, MS, or a PhD degree in physics offers many career opportunities in industrial, government, and academic high-technology laboratories as scientists or engineers.

COMBINED MAJORS

Students also have the opportunity to combine physics with another discipline through a combined major. Current combined majors with physics include mathematics, computer science, music with concentration in music composition and technology, philosophy, chemical engineering, computer engineering, electrical engineering, and mechanical engineering.

Research Opportunities for Undergraduates

Students are encouraged to participate in the excitement of cutting-edge research in particle physics, biophysics, and nanotechnology with world-renowned faculty.

Programs

Bachelor of Science (BS)

- Physics (p. 572)
- Applied Physics (p. 577)
- Biomedical Physics (p. 582)
- Computer Science and Physics (p. 339)
- Mathematics and Physics (p. 568)
- Physics and Music with Concentration in Music Technology (p. 194)
- Physics and Philosophy (p. 592)

Bachelor of Science in Chemical Engineering (BSCHE)

- Chemical Engineering and Physics (p. 383)

Bachelor of Science in Computer Engineering (BSCompE)

- Computer Engineering and Physics (p. 402)

Bachelor of Science in Electrical Engineering (BSEE)

- Electrical Engineering and Physics (p. 411)

Bachelor of Science in Mechanical Engineering (BSME)

- Mechanical Engineering and Physics (p. 430)

Minor

- Physics (p. 603)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 621)

Physics, BS

The physics program provides a strong foundation in classical and modern physics, including studies of the various physical phenomena such as electromagnetism, dynamics, building blocks of matter, energy, and radiation.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Physics Major Requirements

Code	Title	Hours
Introductory Physics		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<i>Physics 2</i>		
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
Intermediate Physics		
PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
Advanced Physics		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3601	Classical Dynamics	4
PHYS 3602	Electricity and Magnetism	4
PHYS 3603	Electromagnetic Waves and Optics	4
PHYS 5115	Quantum Mechanics	4
Elective Course		
Complete one of the following:		4
MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 3500 to PHYS 7999		
Experiential Learning		
Complete one course in experiential learning. See department for approved courses. Note: The experiential learning requirement is waived following a student presentation connected with a co-op and/or research experience. The requirement is often fulfilled by a talk at a Society of Physics Students meeting but can be fulfilled by an adequately documented presentation at a professional meeting or at an appropriate campus event. Contact your faculty advisor for additional information.		
Senior Capstone		
PHYS 5318	Principles of Experimental Physics	4

Supporting Courses

Code	Title	Hours
Mathematics		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
Computational Methods		
PHYS 1211	Computational Problem Solving in Physics	4
or PHYS 1130	Computing, Data, and Science	
or GE 1111	Engineering Problem Solving and Computation	
Chemistry		
CHEM 1211 and CHEM 1212	General Chemistry 1 and Lab for CHEM 1211	5
Technical Electives		
Complete 8 semester hours from the following:		8
MATH 2280	Statistics and Software	
MATH 2285	Introduction to Multisample Statistics	
MATH 2321 to MATH 5999		
PHYS 2303 to PHYS 7999		
CHEM 2311 to CHEM 5999		
BIOL 2301 to BIOL 5999		
ENVR 2300 to ENVR 5999		
CS 2990 to CS 4900		
CHME 2001 to CHME 4699		
CIVE 2001 to CIVE 4699		
EECE 2001 to EECE 5999		
ME 2001 to ME 4699		
IE 2001 to IE 4699		

Physics Major Credit Requirement

Complete 91 semester hours in the major.

Program Requirement

133 total semester hours required

Plan of Study

Note on Physics Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, **depending on the year of entry for that student**. Thus, for example, a student who first enrolled in the fall of an even-numbered year should consult the plans of study listed below under Even-Numbered Year One. Those who enter in the fall of an odd-numbered year should consult the plans of study listed below under Odd-Numbered Year One.

Even-Numbered Year One

The applied physics BS degree is a flexible, interdisciplinary-oriented program designed to provide students with a solid background in basic physics, in conjunction with the opportunity to sample courses from a wide range of disciplines, including engineering, biology, chemistry, math, environmental studies, and computer science. This program seeks

to enable students to prepare for a variety of careers in, for example, nanotechnology, a medical field, environmental research, or even finance.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Applied Physics Major Requirements

Code	Title	Hours
Introductory Physics		
<i>Physics 1</i>		
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
<i>Physics 2</i>		
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
Intermediate Physics		
PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
Advanced Physics		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism	4
PHYS 3603	Electromagnetic Waves and Optics	4
Advanced Physics Electives		
Complete three of the following:		12
PHYS 3601	Classical Dynamics	
PHYS 5111	Astrophysics and Cosmology	
PHYS 5113	Introduction to Particle and Nuclear Physics	
PHYS 5115	Quantum Mechanics	
PHYS 5116	Complex Networks and Applications	
PHYS 4621	Biological Physics 1	
PHYS 4623	Medical Physics	
PHYS 4651	Medical Physics Seminar 1	

PHYS 4652	Medical Physics Seminar 2
PHYS 5260	Introduction to Nanoscience and Nanotechnology
MATH 4606	Mathematical and Computational Methods for Physics

Experiential Learning

Note: The experiential learning requirement is waived following a student presentation connected with a co-op and/or research experience. The requirement is often fulfilled by a talk at a Society of Physics Students meeting but can be fulfilled by an adequately documented presentation at a professional meeting or at an appropriate campus event. Contact your faculty advisor for additional information.

133 total semester hours required

Plan of Study

Note on Applied Physics Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student. Thus, for example, a student who first enrolled in the fall of an even-numbered year should consult the plans of study listed below under Even-Numbered Year One. Those who enter in the fall of an odd-numbered year should consult the plans of study listed below under Odd-Numbered Year One.

Even-Numbered Year One

Biomedical Physics, BS

The biomedical physics program seeks to understand the role of physical processes occurring on molecular, cellular, or macroscopic scales; in vital biological functions, ranging from the interaction of chemicals with DNA, to the extraction of oxygen from red blood cells, to the generation of complex electrical signals in the brain and nervous system; and physical principles of medical devices. The biomedical physics program also offers a premed (prehealth) specialized track.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

MATH 2280	Statistics and Software	4

Note on Biomedical Physics Plans of Study

Some required physics courses are offered in both fall and spring semesters, while other required courses are offered less frequently. Therefore, the suggested plan of study will vary from student to student, depending on the year of entry for that student. Thus, for example, a student who first enrolled in the fall of an even-numbered year should consult the plans of study listed below under Even-Numbered Year One. Those who enter in the fall of an odd-numbered year should consult the plans of study listed below under Odd-Numbered Year One.

Even-Numbered Year One

FIVE YEARS, THREE CO-OPS IN SUMMER 2/FALL

Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours
PHYS 1000	1	PHYS 1165	4	Vacation	0	Vacation	0
MATH 1341	4	PHYS 1166	1				
BIOL 1111	4	PHYS 1167	0

Mathematics and Physics, BS

Mathematics and physics have been linked since antiquity. By combining physics and mathematics you can take closely related courses in each discipline, such as statistical mechanics and stochastic processes, mechanics and dynamical systems, thermodynamics and Fourier Series,

and quantum mechanics and partial differential equations. The two departments jointly offer a course in mathematical methods in physics.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Mathematics Requirements

Code	Title	Hours
Calculus		
A grade of C or higher is required:		
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
Intermediate and Advanced Math		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4
MATH 3150	Real Analysis	4
MATH 3175	Group Theory	4
Co-op Reflections		
MATH 3000	Co-op and Experiential Learning Reflection Seminar 1	1
Mathematics Elective		
Complete one course in the following range:		
MATH 3101 to MATH 4899		

Physics Requirements

Code	Title	Hours
Physics 1		
Complete one of the following:		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
Physics 2		
Complete one of the following:		
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

Intermediate Physics

PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
Advanced Physics		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism	4
Elective Courses		
Complete two courses in the following range:		
PHYS 3000 to PHYS 7999		

Integrative Courses

Code	Title	Hours
PHYS 3601	Classical Dynamics	4
MATH 4545 or MATH 4525	Fourier Series and PDEs Applied Analysis	4

Combined-Major Credit Requirement

Complete 83 semester hours in the major.

Program Requirement

128 total semester hours required

Computer Science and Physics, BS

The computer science and physics combined major brings together three disciplines: computer science, physics, and mathematics. The mathematics requirements serve as a foundation for both computer science and physics. From hands-on experience with sophisticated physics instruments, to mathematical theory, to the latest computational innovations, our interdisciplinary approach will prepare students for the myriad challenges in today's rapidly changing world.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1
Computer Science Fundamental Courses		
A grade of C– or higher is required in computer science fundamental courses.		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5

CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
Computer Science Required Courses		
CS 3000	Algorithms and Data	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation	4
CS 4500 and CS 4501	Software Development and Recitation for CS 4500	4
Computer Science Senior Seminar		
THTR 1170	The Eloquent Presenter	1

Physics Courses

Code	Title	Hours
Required Courses		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
Intermediate Physics		
PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371 (Integrative course)	4
Advanced Physics		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism	4

Capstone and Electives

Code	Title	Hours
Capstone		
Complete either one computer science capstone or the physics capstone:		4
Computer Science Capstone		
CS 4100	Artificial Intelligence	
CS 4300	Computer Graphics	
CS 4410	Compilers	
CS 4150	Game Artificial Intelligence	
CS 4550	Web Development	
Physics Capstone		
PHYS 5318	Principles of Experimental Physics	
Computer Science Elective		
The computer science elective is not required if the student has completed the computer science capstone (above). With advisor approval, a directed study, research, project study, or appropriate graduate-level course may also be taken as a computer science elective.		
Complete 4 credits of CS, IS, or DS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
IS 2000 or higher, except IS 4900		
DS 2000 or higher, except DS 4900		
Physics Elective		

Only one physics elective is required if the student has completed the physics capstone (above).

Complete two courses in the following range:	8
PHYS 3000 to PHYS 5999	

Integrative Courses

Code	Title	Hours
Calculus		
MATH 1341	Calculus 1 for Science and Engineering (a grade of C– or higher is required)	4
MATH 1342	Calculus 2 for Science and Engineering (a grade of C– or higher is required)	4
MATH 2321	Calculus 3 for Science and Engineering	4
Additional Mathematics Requirements		
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 4525	Applied Analysis	4

Supporting Course

Code	Title	Hours
Complete one of the following:		
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	4
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
PHIL 1145	Technology and Human Values	
SOCL 1280	The 21st-Century Workplace	
SOCL 3485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

Computer Science Writing Requirement

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
Advanced Writing in the Disciplines		
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
Complete six general electives.		24

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Exploring Creative Expression and Innovation
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Advanced Writing in the Disciplines

- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

136 total semester hours required

Physics and Music with Concentration in Music Technology, BS

The combined major in physics and music provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation. It also provides students with a solid background in composition for acoustic and electronic instruments and for combined and/or interactive live and digital sources. The combined major allows students to learn how physical principles influence sound production and propagation.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Physics Major Requirements

Code	Title	Hours
Introductory Physics		
<i>Physics 1</i>		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
<i>Physics 2</i>		
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
Intermediate Physics		
PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
Advanced Physics		
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism	4
PHYS 5115	Quantum Mechanics	4

⁹ PHYS 5318 offered every spring

Physics and Philosophy, BS

The combined major in physics and philosophy provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics, building blocks of matter, energy, and radiation. It also provides students with an understanding of the methods and traditions of philosophical thought, as well as with opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Students will be able to describe the method by which physical “law” is made manifest in the sciences, how this knowledge compares with other epistemological models studied in other contexts, and philosophical views on the status and source of physical “law.”

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Physics Major Requirements

Code	Title	Hours

Chemical Engineering and Physics, BSCE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of a Bachelor of Science degree in chemical engineering. Upon completion, the successful student will understand the fundamental physics behind many chemical-based processes, resulting in the ability to design and practice in the field of engineering that deals with the movement of mass, heat transfer, and reactions involved in the processing of various materials.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Major GPA Requirement

2.000 minimum required in CHME courses

Mathematics/Science Requirement

Complete 47 semester hours in mathematics and science as indicated below.

Code	Title	Hours
Required Mathematics/Science		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	5
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	5
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4
PHYS 3601	Classical Dynamics	4
PHYS 3602	Electricity and Magnetism	4
PHYS 5318	Principles of Experimental Physics	4

Supplemental Credit

1 semester hour from the following course counts toward the mathematics/science requirement:	1
GE 1502	Cornerstone of Engineering 2

Advanced Science Requirement

Complete 18 semester hours in advanced chemistry as indicated below.

Code	Title	Hours
CHEM 2311 and CHEM 2312 and CHEM 2319	Organic Chemistry 1 and Lab for CHEM 2311 and Recitation for CHEM 2311	5
PHYS 2303	Modern Physics	4
PHYS 5115	Quantum Mechanics	4
Complete one of the following:		5
CHEM 2313 and CHEM 2314 and CHEM 2320	Organic Chemistry 2 and Lab for CHEM 2313 and Recitation for CHEM 2313	
CHEM 2317 and CHEM 2318 and CHEM 2325	Organic Chemistry 2 for Chemistry Majors and Lab for CHEM 2317 and Recitation for CHEM 2317	

Engineering

Complete 54 semester hours in engineering as indicated below.

Code	Title	Hours
Required Engineering		
PHYS 3600	Advanced Physics Laboratory	4
CHME 2308	Conservation Principles in Chemical Engineering	4
CHME 2310	Transport Processes 1	4
CHME 2320	Chemical Engineering Thermodynamics 1	4
CHME 3312	Transport Processes 2 and Separations	4

CHME 3315	Chemical Engineering Experimental Design 1	4
CHME 3322	Chemical Engineering Thermodynamics 2	4
CHME 4315	Chemical Engineering Experimental Design 2	4
CHME 4510	Chemical Engineering Kinetics	4
CHME 4701	Capstone Design 1: Process Analysis	4
CHME 4703	Capstone Design 2: Chemical Process Design	4

Advanced Engineering Elective

Complete one course numbered between 4000 and 5999 in any of the following subject areas:

CHME, CIVE, EECE, ME, IE, MEIE, and ENGR

Supplemental Credit

3 semester hours from the following course count toward the engineering requirement:

GE 1501 Cornerstone of Engineering 1

3 semester hours from the following course count toward the engineering requirement:

GE 1502 Cornerstone of Engineering 2

Professional Development

Complete 4 semester hours in professional development as indicated below.

Code	Title	Hours
Professional Development		
GE 1000	Introduction to the Study of Engineering	1
CHME 2000	Introduction to Engineering Co-op Education	1
CHME 3000	Professional Issues in Engineering	1

Additional Required Courses

The remaining credit from the following course will apply to the professional development area:	1
GE 1501	Cornerstone of Engineering 1

Writing Requirement and NUPATH Courses

Code	Title	Hours
Writing		
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

NUPATH Requirements Through General Electives

NUPATH requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

Required General Electives

Complete two academic, nonremedial, nonrepetitive courses, each equivalent to 4 semester hours.

Course Work That Does Not Count Toward the Engineering Degree

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

Program Requirement

139 total semester hours required

Plan of Study

Five Years, Three Co-ops in Summer 2/Fall

Year 1

Fall	Hours	Spring	Hours	Summer 1	Hours	Summer 2	Hours
CHEM 1151	4	CHME 2308	4	MATH 2321	4	Vacation	0
CHEM 1153	0	GE 1502 (ER)	4	PHYS 1155 (ND)	3

Total Hours: 139

Computer Engineering and Physics, BSCompE

This intercollege dual major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The dual major combines a major in physics from the Department of Physics in the College of Arts and Sciences with the Bachelor of Science in Computer Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between computer engineering and physics, an integrated dual major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and computer systems.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Major GPA Requirement

2.000 minimum GPA required in EECE courses

Engineering

Complete 48 semester hours in engineering as indicated below.

Code	Title	Hours
Required Courses		
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
Computer Engineering Fundamentals		
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	5
EECE 2540	Fundamentals of Networks	4
EECE 2560	Fundamentals of Engineering Algorithms	4
Electrical Engineering Fundamentals		
If more than one electrical engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	
EECE 2520	Fundamentals of Linear Systems	
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	
Capstone Courses		
EECE 4790	Electrical and Computer Engineering Capstone 1	4
EECE 4792	Electrical and Computer Engineering Capstone 2	4
Technical Electives		
One CS course from the following approved list may be taken toward the EECE technical elective requirement:		8
EECE 2750	Enabling Engineering	
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
EECE 2412 to EECE 2530		
EECE 3324 to EECE 4698		
EECE 5155 to EECE 5698		
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
GE 4608	Nanotechnology in Engineering	
CS 2550	Foundations of Cybersecurity	
CS 3200	Database Design	
CS 3500	Object-Oriented Design	
CS 4850	Building Game Engines	
CS 3540 to CS 3800		
CS 4100 to CS 4770		
IS 4200 to IS 4700		
Supplemental Credit		
3 semester hours from the following course count toward the engineering requirement:		3
GE 1501	Cornerstone of Engineering 1	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2	

Mathematics/Science

Complete 63 semester hours in mathematics and science as indicated below.

Code	Title	Hours
Required Mathematics/Science		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 3081	Probability and Statistics	4
Complete one of the following:		5
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
Complete one of the following:		5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	
PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism	4
PHYS 5115	Quantum Mechanics	4
Advanced Physics Elective		
Complete one of the following:		4
MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 3600 to PHYS 7999		
Supplemental Credit		
1 semester hour from the following course counts toward the mathematics/science requirement:		1
GE 1502	Cornerstone of Engineering 2	

Professional Development

Code	Title	Hours
Required Professional Development		
GE 1000	Introduction to the Study of Engineering	1
EECE 2000	Introduction to Engineering Co-op Education	1
EECE 3000	Professional Issues in Engineering	1
Additional Required Courses		

One credit hour from the following course counts toward the engineering requirement:	1
GE 1501	Cornerstone of Engineering 1

Integrative Requirement

The following course, which counts toward the engineering requirement above, is an integrative course:

Code	Title	Hours
EECE 4790	Electrical and Computer Engineering Capstone 1	4

Writing Requirement and NUPath Courses

Code	Title	Hours
Writing		
A grade of C or higher is required:		
ENGW 1111	First-Year Writing	4
ENGW 3302	Advanced Writing in the Technical Professions	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

NUPath Requirements through General Electives

NUPath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements through general electives.

Required General Electives

Complete two academic, nonremedial, nonrepetitive courses, each equivalent to 4 semester hours.

Course Work That Does Not Count Toward the Engineering Degree

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

Program Requirement

132 total semester hours required

Electrical Engineering and Physics, BSEE

This intercollege combined major serves students who would like to explore their interest in physics while earning the benefit of an accredited Bachelor of Science degree in engineering. The major combines a major in physics from the Department of Physics in the College of Science with the Bachelor of Science in Electrical Engineering degree from the Department of Electrical and Computer Engineering.

Because of the large body of shared knowledge between electrical engineering and physics, a combined major between these two disciplines is a logical course of study and can be accomplished within a student's usual five-year program (including three co-op placements) without requiring course overloading in any semester. A student graduating from this program will have studied both the physical fundamentals and the applications of electronic devices and systems. The program is a particularly appropriate course of study for students who wish to pursue a career in solid-state devices, microelectromechanical systems, or nanotechnology.

Students interested in this program should contact the Department of Electrical and Computer Engineering or the Department of Physics as early as possible, preferably prior to registering for freshman courses.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Major GPA Requirement

2.000 minimum GPA required in EECE courses

Engineering

Complete 51 semester hours in engineering as indicated below.

Code	Title	Hours
Required Courses		
EECE 2150	Circuits and Signals: Biomedical Applications	5
EECE 2160	Embedded Design: Enabling Robotics	4
Electrical Engineering Fundamentals		
EECE 2412 and EECE 2413	Fundamentals of Electronics and Lab for EECE 2412	5
EECE 2520	Fundamentals of Linear Systems	4
EECE 2530 and EECE 2531	Fundamentals of Electromagnetics and Lab for EECE 2530	5
Computer Engineering Fundamentals		
If more than one computer engineering fundamentals course is taken, it can count as a technical elective.		
Complete one of the following:		4-5

EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 2540	Fundamentals of Networks	
EECE 2560	Fundamentals of Engineering Algorithms	
Capstone Courses		
EECE 4790	Electrical and Computer Engineering Capstone 1	4
EECE 4792	Electrical and Computer Engineering Capstone 2	4
EECE Technical Electives		
Complete two of the following:		8-9
EECE 2322 and EECE 2323	Fundamentals of Digital Design and Computer Organization and Lab for EECE 2322	
EECE 4991	Research	
EECE 4992	Directed Study	
EECE 4993	Independent Study	
ENGR 5670	Sustainable Energy: Materials, Conversion, Storage, and Usage	
GE 4608	Nanotechnology in Engineering	
EECE 2540 to EECE 2750		
EECE 3324 to EECE 3410		
EECE 4512 to EECE 4698		
EECE 5155 to EECE 5698		
Supplemental Credit		
2 semester hours from the following course count toward the engineering requirement:		2
EECE 3468	Noise and Stochastic Processes	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1501	Cornerstone of Engineering 1	
3 semester hours from the following course count toward the engineering requirement:		3
GE 1502	Cornerstone of Engineering 2	

Professional Development

Code	Title	Hours
Required Professional Development		
GE 1000	Introduction to the Study of Engineering	1
EECE 2000	Introduction to Engineering Co-op Education	1
EECE 3000	Professional Issues in Engineering	1
Additional Required Courses		
The remaining credit from the following course will apply to the professional development area:		1
GE 1501	Cornerstone of Engineering 1	

Mathematics/Science

Complete 57 semester hours in mathematics and science as indicated below.

Code	Title	Hours
Required Mathematics/Science		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4

MATH 1341	Calculus 1 for Science and Engineering	4

Mechanical Engineering and Physics, BSME

This undergraduate program takes advantage of the physical similarities between mechanical engineering and physics, providing students with the opportunity to pursue studies that explore both topics. The program culminates with mechanical engineering capstone design.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Major GPA Requirement

2.000 minimum GPA required in IE, ME, and MEIE courses

Engineering Requirement

Complete 60 semester hours in engineering as indicated below:

Code	Title	Hours
Required Engineering		
ME 2340 and ME 2341	Introduction to Material Science and Lab for ME 2340	5
ME 2350	Engineering Mechanics and Design	4

ME 2355 and ME 2356	Mechanics of Materials and Lab for ME 2355	5
ME 2380	Thermodynamics	4
ME 3455 and ME 3456	Dynamics and Vibrations and Lab for ME 3455	5
ME 3475 or ME 3480	Fluid Mechanics International Applications of Fluid Mechanics	4
ME 4505 and ME 4506	Measurement and Analysis with Thermal Science Application and Lab for ME 4505	5
ME 4508	Mechanical Engineering Computation and Design	4
ME 4550	Mechanical Engineering Design	4
ME 4555	System Analysis and Control	4
ME 4570	Thermal Systems Analysis and Design	4
MEIE 4701	Capstone Design 1	1
MEIE 4702	Capstone Design 2	5

Supplemental Credit

3 semester hours from the following course counts toward the engineering requirement: 3

GE 1501 Cornerstone of Engineering 1

3 semester hours from the following course counts toward the engineering requirement: 3

GE 1502 Cornerstone of Engineering 2

Professional Development Requirement

Code	Title	Hours
Professional Development		
GE 1000	Introduction to the Study of Engineering	1
MEIE 2000	Introduction to Engineering Co-op Education	1
MEIE 3000	Professional Issues in Engineering	1

Additional Required Courses

The remaining credit from the following course will apply to the professional development area: 1

GE 1501 Cornerstone of Engineering 1

Mathematics/Science Requirement

Complete 59 semester hours in mathematics and science as indicated below:

Code	Title	Hours
Required Mathematics/Science		
CHEM 1151 and CHEM 1153	General Chemistry for Engineers and Recitation for CHEM 1151	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	5
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	5
PHYS 2303	Modern Physics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

PHYS 3602	Electricity and Magnetism	4
PHYS 3600	Advanced Physics Laboratory	4
PHYS 3601	Classical Dynamics	4
PHYS 5318	Principles of Experimental Physics	4

Advanced Physics Elective

Complete one 4-semester-hour course in the following range: PHYS 3600 to PHYS 5999	4
---	---

Supplemental Credit

1 semester hour from the following course counts toward the mathematics/science requirement:	1
--	---

GE 1502	Cornerstone of Engineering 2
---------	------------------------------

Writing Requirement and NUPath Courses

Code	Title	Hours
Writing		
ENGW 1111	First-Year Writing (a grade of C or higher is required)	4
ENGW 3302	Advanced Writing in the Technical Professions (a grade of C or higher is required)	4
or ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

NUPath Requirements through General Electives

NUPath requirements Interpreting Culture (IC), Societies and Institutions (SI), and Differences and Diversity (DD) are not explicitly satisfied by required engineering courses. Students are responsible for satisfying these requirements with general electives.

Integrative Requirement

Principles of Experimental Physics (PHYS 5318) is part of the mathematics/science requirement above and is an integrative course.

Code	Title	Hours
PHYS 5318	Principles of Experimental Physics	4

Required General Electives

Complete two academic, nonremedial, nonrepetitive courses, each equivalent to 4 semester hours.

Course Work That Does Not Count Toward the Engineering Degree

Students in engineering are allowed to count a maximum of two pass/fail courses toward their degree program. Only general electives outside the College of Engineering may be taken on a pass/fail grading basis. A maximum of one pass/fail course is allowed per semester.

Program Requirement

139 total semester hours required

Total Hours: 139

Physics, Minor

The physics minor provides a foundation in classical and modern physics and allows students to explore more advanced topics in physics through elective choices.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
Complete one of the following sequences:		10
Physics 1 and 2		
PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
Physics for Engineering 1 and 2		
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

Modern Physics

Code	Title	Hours
PHYS 2303	Modern Physics	4

Elective Courses

Code	Title	Hours
Complete two of the following:		8
MATH 4606	Mathematical and Computational Methods for Physics	
PHYS 2300 to PHYS 5999		

GPA Requirement

2.000 GPA required in the minor

Psychology

Maribel Pereira, Administrative Secretary, m.pereira@northeastern.edu

Studies in modern psychology focus on mind, brain, and behavior. Based on empirical research with both humans and animals, psychologists investigate and seek explanations for the behavior and mental life of individuals and develop assessment tools and treatment options for addressing clinical problems.

The psychology curriculum explores such topics as how brain function determines behavior; how we see, hear, and learn; what constitutes normal and abnormal personality; the nature of language and cognitive processing; how emotions affect behavior; and how individuals work in groups. Through laboratory practice and experimentation, individual research projects, and small-group seminars, the program provides the opportunity for critical evaluation and in-depth exploration across the diverse topic areas that constitute modern psychology.

Students are eligible for directed study courses, which are individualized research experiences under the supervision of a faculty member. The department also offers honors sections of various courses. Co-op placements are varied and include both community (often mental health) and laboratory settings, depending on a student's interests.

A solid scientific background in psychology helps prepare students for academic careers in teaching and research, as well as professional careers in business, public and social services, education, mental health, law, and medicine. It also provides a strong foundation for graduate study in all areas of psychology, including clinical programs.

Note: A double major in psychology and behavioral neuroscience is not offered due to the similarity in the course curricula of these majors.

Programs

Bachelor of Science (BS)

- Psychology (p. 603)
- American Sign Language and Psychology (p. 611)
- Business Administration and Psychology (p. 231)
- Computer Science and Cognitive Psychology (p. 301)
- Criminal Justice and Psychology (p. 612)
- Information Science and Cognitive Psychology (p. 360)
- Linguistics and Psychology (p. 509)

Minor

- Psychology (p. 621)

Psychology, BS

The Bachelor of Science degree program in psychology is designed to provide a research-based undergraduate education for students with a broad range of interests in psychology. Psychology majors engage in academic course work and other experiences that span the breadth of psychology, as well as in-depth explorations that meet their own specific interests. By its very nature, psychology is a wide-ranging, cross-cutting field of study, and we encourage and offer interdisciplinary explorations via a highly flexible interdisciplinary cluster of courses that counts toward the BS curriculum, strong ties to other departments and programs, and experiential education to enhance the learning process, including conducting research in faculty laboratories and participation in Northeastern's co-op program.

Academic Progression Standards

Students who fail to maintain a minimum grade-point average of 2.000 will be placed on probation. Three consecutive academic terms on probation will result in dismissal from the major.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Psychology Major Requirements

Code	Title	Hours
Introductory Course		
PSYC 1101	Foundations of Psychology	4
Personal/Social Bases of Behavior (Area A)		
Complete two of the following:		8
PSYC 3400	Personality	
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
Biological/Cognitive Bases of Behavior (Area B)		
Complete two of the following:		8
PSYC 3450	Learning and Motivation	
or PSYC 3451	Learning Principles and Behavior Analysis	
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	
PSYC 3464	Psychology of Language	
PSYC 3466	Cognition	
Statistics		
PSYC 2320	Statistics in Psychological Research	4
Psychology Seminar		
Complete one of the following:		4
PSYC 4650	Seminar in Clinical Case Study	
PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
PSYC 4678	Seminar in Social and Affective Neuroscience	
Lab Requirement		
Complete two psychology lab courses OR one psychology lab course and one psychology directed study research or honors thesis:		8
Lab		
PSYC 4600	Laboratory in Research Design	

PSYC 4606	Laboratory in Biological Psychology
PSYC 4610	Laboratory in Psycholinguistics
PSYC 4612	Laboratory in Cognition
PSYC 4614	Laboratory in Social Psychology
PSYC 4616	Laboratory in Personality
PSYC 4622	Laboratory in Sensation and Perception
PSYC 4624	Laboratory in Affective Science
PSYC 4626	Laboratory in Life-Span Emotional Development
PSYC 4628	Laboratory in Developmental Psychology
Directed Study Research or Honors Thesis	
PSYC 4991 or PSYC 4971	Directed Study Research Junior/Senior Honors Project 2

Psychology Required Electives

Code	Title	Hours
Complete five PSYC courses.		20

Supporting Courses

INTERDISCIPLINARY CLUSTER		
Code	Title	Hours
Complete three of the following courses. Choose from one group only. Students may petition to create their own interdisciplinary cluster.		11-15

Educational Psychology

Business Administration and Psychology, BS

This combined major educates students in business and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including statistics and research, social psychology, developmental psychology, cognition, and personality. Business courses provide a foundation in accounting, innovation, marketing, management, and organizational behavior, with the opportunity to concentrate in a specific area of business. Students completing this program should be able to understand the relationships between these fields that pertain to explaining and addressing human behavior and business practices.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Business Requirements

Code	Title	Hours
Required Courses		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
ENTR 2301	Innovation!	4
FINA 2201	Financial Management	4
INTB 1203	International Business and Global Social Responsibility	4
MISM 2301	Management Information Systems	4
or SCHM 2301	Supply Chain and Operations Management	
MKTG 2201	Introduction to Marketing	4
ORGB 3201	Organizational Behavior	4
STRT 4501	Strategy in Action	4

Supporting Courses for Business

ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
MATH 1231	Calculus for Business and Economics	4

Business Concentration

Complete one of the following concentrations. Requirements for the concentrations are listed below (p. 233).

- Accounting (p. 233)
- Entrepreneurship and Innovation (p. 233)
- Finance (p. 233)
- Management (p. 234)
- Management Information Systems (p. 234)
- Marketing (p. 234)
- Supply Chain Management (p. 234)

Psychology Requirements

Code	Title	Hours
Required Courses		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
or MGSC 2301	Business Statistics	
PSYC 3402	Social Psychology	4
PSYC 3466	Cognition	4
PSYC 3400	Personality	4
PSYC 3404	Developmental Psychology	4
Required Seminar		
Complete one of the following:		4
PSYC 4650	Seminar in Clinical Case Study	
PSYC 4654	Seminar in Behavioral Modification	
PSYC 4656	Seminar in Biological Psychology	
PSYC 4658	Seminar in Psycholinguistics	
PSYC 4660	Seminar in Cognition	
PSYC 4662	Seminar in Personality	
PSYC 4664	Seminar in Social Psychology	
PSYC 4666	Seminar in Clinical Psychology	
PSYC 4668	Seminar in Sensation and Perception	
PSYC 4674	Seminar in Cognitive Neuroscience	
PSYC 4676	Seminar in Developmental Psychology	
PSYC 4678	Seminar in Social and Affective Neuroscience	
Required Lab		
Complete one of the following:		4
PSYC 4600	Laboratory in Research Design	
PSYC 4606	Laboratory in Biological Psychology	
PSYC 4610	Laboratory in Psycholinguistics	
PSYC 4612	Laboratory in Cognition	
PSYC 4614	Laboratory in Social Psychology	
PSYC 4616	Laboratory in Personality

PSYC 4624	Laboratory in Affective Science	
PSYC 4626	Laboratory in Life-Span Emotional Development	
PSYC 4628	Laboratory in Developmental Psychology	

Psychology Electives		
Complete two PSYC courses not used to fulfill the requirements above:		8
PSYC 1001 to PSYC 5999		

Supporting Courses

Code	Title	Hours
Introduction to College		
BUSN 1102	Personal Skill Development for Business	1
or PSYC 1000	Psychology at Northeastern	
Co-op Preparation		
Complete one of the following:		1-5
BUSN 1101 and BUSN 1103	Introduction to Business and Professional Development for Business Co-op	
EESC 2000	Professional Development for Co-op	

Integrative Course

Code	Title	Hours
ORGB 3201	Organizational Behavior	4

Business GPA Requirement

A minimum 2.000 GPA in business courses is required.

Psychology GPA Requirement

A minimum 2.000 GPA in psychology courses is required.

Business Cooperative Education Requirement

Complete one six-month co-op experience.

Program Requirement

128 total semester hours required

Business Concentration

CONCENTRATION IN ACCOUNTING

Code	Title	Hours
Required Courses		
ACCT 3401	Financial Reporting and Analysis 1	4
ACCT 4501	Financial Reporting and Analysis 2	4
Electives		
Complete two of the following:		8
ACCT 3403	Accounting Information Systems	
ACCT 3416	Strategic Cost Analysis for Decision Making	
ACCT 4412	Auditing and Other Assurance Services	
ACCT 4414	Income Tax Determination and Planning	

CONCENTRATION IN ENTREPRENEURSHIP AND INNOVATION

Code	Title	Hours
Note: The following courses do not count toward this concentration:		
ENTR 1201	The Entrepreneurial Universe	
ENTR 3308	Business Economic History of South Africa	

ENTR 3318		
ENTR 3328		
ENTR 3338	Field Research in Sustainable Energy in Iceland	
ENTR 3346		
ENTR 4510	Management Consulting Abroad	
ENTR 4514	Development Practice and Global Citizenship in India	
Introductory Course		
ENTR 2301	Innovation!	4
or ENTR 2303	Entrepreneurial Marketing and Selling	
Capstone Course		
Complete one of the following:		4
ENTR 4501	Business Planning for Technology Ventures	
ENTR 4503	Business Planning for Small and Medium Enterprises	
ENTR 4505	Entrepreneurial Growth Strategy for Technology Ventures	
ENTR 4506	Advanced Studies in Social Enterprise	
Electives		
Note: Only one non-ENTR course may be used as an elective.		
Complete two of the following:		8
ENTR 2206	Global Social Enterprise	
ENTR 2215	Understanding Family Enterprise	
ENTR 2414	Social Responsibility of Business in an Age of Inequality	
ENTR 2301	Innovation! (if not used as introductory course)

American Sign Language and Psychology, BS

The American Sign Language (ASL) Program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This Program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

American Sign Language Requirements

Criminal Justice and Psychology, BS

This combined major educates students in criminal justice and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including the biological and psychosocial bases of behavior, learning, personality, and cognition. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields, as they relate to understanding and addressing criminal behavior.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Information Science and Cognitive Psychology, BS

The information science and cognitive psychology combined major provides a foundation in general psychology, psychology of language, cognition, and statistics. These are supplemented by an experimental

laboratory course, seminar course, and psychology electives. Information science combines concepts and skills from computer science, behavioral and social science, and system design to create an integrated, people-centered curriculum. Students who choose this program often have a general interest in human psychology or specific interests in artificial intelligence or human-computer interaction.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Linguistics and Psychology, BS

This combined major educates students in psychology, linguistics, and the interface between the two disciplines, which are core areas within the field of cognitive science. Students study the formal structures of human language; sociocultural aspects of language use; and the cognitive aspects of language representations, language acquisition, and language processing. Students receive interdisciplinary training in the methods of experimental psychology, psycholinguistics, and linguistic analysis.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Linguistics Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

Linguistics Requirements

Code	Title	Hours
Introductory Linguistics		
LING 1150	Introduction to Language and Linguistics	4
Intermediate/Advanced Linguistics		

LING 2350	Linguistic Analysis	4
LING 3412	Language and Culture	4
LING 3422	Phonology	4
LING 3450	Syntax	4
Linguistics Electives		
Complete three of the following:		12
DEAF 2700	ASL Linguistics	
LING 3420	Phonetics	
LING 3424	Morphology	
LING 3434	Bilingualism	
LING 3442	Sociolinguistics	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
LING 4654	Seminar in Linguistics	
LING 4891	Research Seminar in Linguistics	
or LING 4970	Junior/Senior Honors Project 1	
or LING 4971	Junior/Senior Honors Project 2	
or LING 4991	Directed Study Research	

Psychology Requirements

Code	Title	Hours
Introductory and Intermediate Psychology		
PSYC 1101	Foundations of Psychology	4
PSYC 2320	Statistics in Psychological Research	4
Advanced Psychology

Psychology, Minor

The Department of Psychology offers a minor in psychology, which involves taking five psychology courses, some required and some elective, that focus on the multidisciplinary study of mind, brain, and behavior.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: A maximum of two courses (or 8 semester hours) of transfer credit may count toward the minor. This minor is not available to students majoring in behavioral neuroscience or in any combined major that involves psychology. Courses taken pass/fail and receiving an S grade may not be used toward the minor.

Code	Title	Hours
Required Course		
PSYC 1101	Foundations of Psychology	4
Personal/Social Bases of Behavior (Area A)		
Transfer courses are not permitted to fulfill the Area A requirement.		
Complete one of the following:		4
PSYC 3400	Personality	
PSYC 3402	Social Psychology	
PSYC 3404	Developmental Psychology	
PSYC 3406	Abnormal Psychology	
Biological/Cognitive Bases of Behavior (Area B)		
Transfer courses are not permitted to fulfill the Area B requirement.		
Complete one of the following:		4
PSYC 3450	Learning and Motivation	
PSYC 3452	Sensation and Perception	
PSYC 3458	Biological Psychology	

PSYC 3464	Psychology of Language
PSYC 3466	Cognition

Elective Courses

Code	Title	Hours
Complete two PSYC courses.		8

GPA Requirement

2.000 GPA required in the minor

Accelerated Bachelor/Graduate Degree Programs

Northeastern University offers a number of PlusOne bachelor's/master's degree programs that allow students to accelerate the completion of the bachelor's degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees. Generally, both degrees may be earned in one more year than is the normal time allotted for completion of the bachelor's degree. See [additional information on PlusOne Bachelor's/Master's programs](http://www.northeastern.edu/plusone) (<http://www.northeastern.edu/plusone>).

The College of Social Sciences and Humanities is a leader in the experiential liberal arts. Students deepen their understandings of culture, society, history, politics, language, and more through the integration of focused academic study and a wide range of experiential opportunities. They use familiar methods and new tools to hone their skills in close reading, interpretation, analysis, oral communication, and critical thinking.

By exploring society's most pressing challenges, students may gain a broad understanding of the relationships among peoples and nations; global economics and politics; the diversity of languages, literatures, religions, and cultures; and multiple perspectives in urban affairs, public policy, law, criminal justice, and the ethical dimensions of human behavior.

The college offers a wide variety of undergraduate programs, including 16 different majors as well as a diverse set of combined-major options, concentrations, minors, and five-year bachelor's/master's degree PlusOne programs. The college also offers students the opportunity to create an independent major in cases where their interests and goals are not met by existing majors. Students in the college take elective classes to complement their chosen area of study and earn either a Bachelor of Arts or a Bachelor of Science degree.

All students in the college integrate experiential learning into their education—many students pursue multiple opportunities. Students may choose to conduct original student research, either independently or with a faculty member; to immerse themselves in communities and cultures either locally or around the world; to enhance their classroom learning through the co-op experience in a variety of fields; or to build more flexibility into their academic path with a Dialogue of Civilizations trip with a faculty member over the summer.

Programs in the college offer the flexibility for students to customize their academic experience around their intellectual and professional interests. A support system of department advisors, college advisors, co-

op coordinators, and peer mentors helps students explore their options and shape their plan.

Academic Advising

The College of Social Sciences and Humanities has an academic advising system that consists of academic advisors located in the Office of Student Academic Affairs in 180 Renaissance Park and faculty advisors located in the college's departments and program offices. Detailed advising information is available on the college website (<https://www.northeastern.edu/cssh/undergraduate/academic-advising>). Prelaw advising (<http://www.northeastern.edu/prelaw>) and premedical/pre dental advising (<http://www.northeastern.edu/prehealth>) are also available.

Academic Progression Standards

The College of Social Sciences and Humanities adheres to the university-wide academic progression standards described in the beginning of the catalog. Some majors have additional specific requirements in order to progress from year to year (see major requirements in departmental listings).

Graduation Clearance Process

Students in the College of Social Sciences and Humanities are required to meet with an academic advisor in the Office of Student Academic Affairs in 180 Renaissance Park to determine their remaining graduation requirements. Some departments also require a meeting with a faculty advisor in their major or program. This should be completed in the junior year to ensure ample time to complete any outstanding requirements.

College Requirements

All students in the College of Social Sciences and Humanities must successfully complete their major, college, and university requirements for their specific degree.

EXPERIENTIAL LIBERAL ARTS REQUIREMENT

The Experiential Liberal Arts course designation is part of a CSSH framework that emphasizes integration of experiential learning along with diversity and inclusion at key points in the curriculum. Students will ordinarily fulfill this requirement through any CSSH course on a Dialogue of Civilizations, any CSSH service-learning course, or an ELA-designated course:

Code	Title	Hours
ANTH 2350	Urban Anthropology	4
ANTH 3410	Ethnographic Field Experience	4

Serena Parekh, Associate Professor and Program Director,
S.Parekh@northeastern.edu (r.sandler@northeastern.edu)

The PPE major at Northeastern University brings together three of the most important approaches to understanding the world around us: political science, philosophy, and economics. The PPE major is an interdisciplinary degree that not only provides students with the analytic tools from three different disciplines but also teaches students to make connections across disciplines and to keep multiple perspectives in mind when analyzing complex social phenomena. This interdisciplinary perspective and set of skills are indispensable in our increasingly

interconnected world and are essential in addressing the kinds of complex global problems future leaders will need to tackle.

There are a number of varieties of the PPE major that students may choose from in accordance with their own backgrounds and interests. These include:

- environment and energy policy
- international political economy
- law and justice
- logic and game theory
- political philosophy
- public and economic policy

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Politics, Philosophy, and Economics Major Requirements

Code	Title	Hours

Computational Social Science, Minor

This minor introduces and develops the essential skills for employing mathematical, formal, and computational methods in the social sciences. Students completing this minor will have a grasp of the fundamentals necessary for pursuing more in-depth studies in the emerging fields of computational social science and big data. The foundational courses emphasize skills in probability, statistics, and introductory programming. Other courses focus on the application of formal and computational methods in the social sciences including digital analysis of texts, maps, and networks. An additional elective provides breadth in social scientific studies of computation or the foundational principles of logic and computation.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Foundational Courses

Code	Title	Hours
MATH 2280	Statistics and Software	4
or ECON 2350	Statistics	
or CRIM 3700	Criminal Justice Statistics	
or SOCL 2320	Statistical Analysis in Sociology	
or POLS 2400	Quantitative Techniques	
or PSYC 2320	Statistics in Psychological Research	
INSH 1500	Digital Methods for Social Sciences and Humanities	4
or CS 2500	Fundamentals of Computer Science 1	

Applications of Computational Approaches in the Social Sciences

Code	Title	Hours
Complete two courses from the following:		8
<i>(Students may complete a capstone project under the direction of a faculty member in lieu of an application course.)</i>		
COMM 2105	Social Networks	
CRIM 4800	Crime Mapping	
DS 4100	Data Collection, Integration, and Analysis	
or DS 4200	Information Presentation and Visualization	
or DS 4300	Large-Scale Information Storage and Retrieval	
or DS 4400	Machine Learning and Data Mining 1	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
MISM 2301	Management Information Systems	
or MISM 2510	Fundamentals of Information Analytics	
PHIL 2001	Ethics and Evolutionary Games	
POLS 3310	Public Opinion, Voting, and Elections	
PPUA 5262	Big Data for Cities	

Elective in Social Inquiry, Computation, and Logic

Code	Title	Hours
Complete one course from the following:		4
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
CS 2800	Logic and Computation	
ECON 4681	Information Economics and Game Theory	
IS 2000	Principles of Information Science	
PHIL 1115	Introduction to Logic	
or MATH 1215	Mathematical Thinking	
MATH 3081	Probability and Statistics	
PHIL 4515	Advanced Logic

SOCL 4528	Computers and Society	

GPA Requirement

2.000 GPA required in the minor

Health, Humanities, and Society, Minor

The health, humanities, and society minor is designed for students who would like to learn how to think capaciously and creatively about health using the rigorous, precise, and flexible skills trained by the social sciences and the humanities. The social sciences teach students to think about the social, economic, and political factors that structure health conditions and outcomes in particular societies, while the humanities train students to navigate the complexities of interpersonal interaction and their ethical implications, to relate the micro to the macro and texts to contexts, to historicize encounters, to communicate accurately and effectively across a variety of media, and to engage in creative analytical thinking about healthcare. The landscape of healthcare is quickly

changing, and this training will equip students well not only for the diverse forms of health work that exist today, but for as yet unimaginable varieties of health-related work in the future.

This minor is structured around the particular competencies that the social sciences and humanities train. Those competencies are narrative and historical perspective, critical attention and observation, ethics and judgment, performance and creativity, and social and structural proficiency. Rather than adopting the more traditional approach of connecting particular skills to particular disciplines (say, narrative to literature and observation to art history), this minor builds from discipline-specific health knowledge while training students to think across disciplines. Thus, it will not be unusual for students to find a single course addressing multiple competencies or to take courses in different disciplines that address the same competency from distinct but complementary perspectives.

This minor is housed in the Humanities Center of the College of Social Sciences and Humanities in partnership with the Bouvé College of Health Sciences.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

No more than two courses, in addition to the introductory course, may be taken under the 2000 level.

Code	Title	Hours
Introductory Course		
INSH 1300	Introduction to Health and Humanities	4
Humanities Requirement		
Complete two of the following:		8
ENGL 2770	Writing to Heal

SOCL 2303	Gender and Reproductive Justice
SOCL 3441	Sociology of Health and Illness

GPA Requirement

2.000 GPA required in the minor

Food Systems Sustainability, Health, and Equity, Minor

The minor in food systems sustainability, health, and equity is an interdisciplinary exploration of the contemporary food system, with particular attention to how the system evolved; its diverse societal, health, and environmental impacts; and ideas for making the food system more sustainable, healthy, and equitable for all.

For more information, contact the program director, Professor Christopher Bosso, 360K Renaissance Park, c.bosso@northeastern.edu.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
Complete four courses from the list below. Two of the courses must be upper-level (numbered 3000 or higher). Only one course can be from the major.		16-17
Upper-Level Courses		
ECON 3404	International Food Economics and Policy	
ENTR 4506	Advanced Studies in Social Enterprise	
ENVR 3300 and ENVR 3301	Geographic Information Systems and Lab for ENVR 3300	
ENVR 3150	Food Security and Sustainability	
ENVR 4515	Sustainable Development	
PPUA 4701	Food Systems Sustainability, Health, and Equity Practicum	
PPUA 5263	Geographic Information Systems for Urban and Regional Policy	
PPUA 5270	Food Systems and Public Policy	
Additional Courses		
EEMB 2420	Fisheries Biology, Policy, and Conservation	
ENTR 2206	Global Social Enterprise	
ENVR 1101	Environmental Science	
HSCI 1106	Contemporary Issues in Nutrition	
HUSV 2400	Food Justice and Community Development	
INSH 1102	Food in Contemporary Context	
PHIL 1185	The Ethics of Food	

GPA Requirement

2.000 GPA required in the minor

Latino/a, Latin American and Caribbean Studies, Minor

Overview

The LLACS (Latino/a, Latin American, and Caribbean Studies) program offers an interdisciplinary minor. It explores the historical, cultural, social, political, and economic foundations of and linkages between U.S. Latino society, Latin America, and the Caribbean. It draws from the heritages of the Americas that are grounded in predominantly indigenous, African, and European cultures.

For information about the minor, contact CSGS Administrative Coordinator Stefanie Rich at s.rich@northeastern.edu.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: Proficiency in Spanish or Portuguese to course number 3101 or above is strongly encouraged.

Required Courses

Code	Title	Hours
LACS 1220	Latino, Latin American, and Caribbean Studies	4
Complete one of the following:		4
HIST 1187	Introduction to Latin American History	
CLTR 1505	Introduction to Latin American Culture	

Culture and Literature Electives

Code	Title	Hours
Complete two of the following:		8
CLTR 1240	Latin American Film	
CLTR 1504	Introduction to Spanish Culture	
CLTR 1505	Introduction to Latin American Culture	
CLTR 3715	New Narratives: Latin America after 1989	
CLTR 3725	Representing Violence and Human Rights in Latin America	
ENGL 2460	Multiethnic Literatures of the U.S.	
LITR 4655	Latin American Literature	
MUSC 1131	Music of Latin America and the Caribbean	

History and Social Sciences Electives

Note: With the approval of the director of Latino/a, Latin American, and Caribbean Studies, up to four study-abroad or Dialogue of Civilization courses may be used toward the minor.

Code	Title	Hours
Complete two of the following:		8
ANTH 2365	Sport, Culture, and Society	
ANTH 4500	Latin American Society and Development	

HIST 1206	Drug Trade and Drug War: History, Security, Culture
SOCL 2270	Race and Ethnic Relations

GPA Requirement

2.000 GPA required in the minor

Law and Public Policy, Minor

Overview

The law and public policy minor offers students an opportunity to obtain a thorough understanding of the U.S. legal system and to use that knowledge to examine current law and policy debates. In the LPP minor core courses, students have the opportunity to watch a criminal and/or civil trial, participate in a moot court before a panel of “judges,” and listen to speakers from both the public and private sector (for example, a superior court judge and assistant attorney general). While the minor is well-suited for students interested in pursuing a career in law and/or policy, it is invaluable for students in any field of practice, as law affects all professions and facets of everyday life.

For more information, contact the program director, Professor Dan Urman, 310 Renaissance Park, 617.373.6145, d.urman@northeastern.edu.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
A grade of B or higher is required in the following two courses:		
LPSC 1101	Introduction to Law	4
LPSC 2301	Introduction to Law, Policy, and Society	4

Law and Public Policy Course

Code	Title	Hours
Complete one of the following:		4
LPSC 2302	Global Human Rights: A Social and Economic Perspective	
LPSC 3303	Topics in Law and Public Policy	
LPSC 4304	Advanced Debates in Law and Public Policy	

Elective Courses

Code	Title	Hours
Complete two of the following courses not used to satisfy the requirements above:		8
AFAM 2360	Politics of Poverty	
AFAM 2549	Public Policy and Black America

3.000 GPA required in the minor

Urban Studies, Minor

Overview

The urban studies minor offers students interested in cities an opportunity to take advantage of the resources of an urban university situated in a major metropolitan area. The minor seeks to equip students with an understanding of the dynamics of urban growth and development and includes the study of urban social and political institutions. Many courses cover climate change, sustainability, housing, and the urban economy. The minor complements many social science majors as well as architecture, business, and engineering. The minor is designed to provide a solid background for graduate study and professional careers in urban planning and policy, social work, and related fields.

For more information, contact the program director, Professor Gavin Shatkin, 310 Renaissance Park, 617.373.3074, g.shatkin@northeastern.edu.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Women's, Gender, and Sexuality Studies, Minor

Overview

Northeastern offers an interdisciplinary minor for undergraduate students who wish to explore gender and sexuality in relation to other axes of power and identity, including race, class, ethnicity, and dis/ability. Women's, gender, and sexuality studies (WGSS) covers a wide variety of theoretical and empirical scholarship both within traditional disciplines and in cutting-edge, interdisciplinary frames. WGSS students have an opportunity to:

- Learn about approaches to gender and sexuality in the social sciences and humanities and through frameworks that bridge traditional fields
- Explore gender and sexuality in the global community by dipping into disciplines ranging throughout the social sciences, arts, humanities, and physical sciences
- Study politics and pop culture, sociology and psychology, writing and religion, and much more
- Open up new ways of thinking, bringing gender and sexuality studies to bear on important social and intellectual questions

For more information, visit the WGSS website (<http://www.northeastern.edu/wgss>), or contact the program coordinator, 263 Holmes Hall, 617.373.4984, wgss@northeastern.edu.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified. Please note that special topics courses in some areas may also count as electives toward a WGSS minor in certain semesters, pending approval of the syllabus by the WGSS program director. In the case of cross-listed courses, students may enroll under any of the departmental designations, regardless of major or minor affiliation.

Asian Studies

Website (<http://www.northeastern.edu/asianstudies>)

Gavin Shatkin, PhD
Director

310 Renaissance Park
617.373.3074
Gavin Shatkin, Director, g.shatkin@northeastern.edu

The Asian Studies Program promotes a cosmopolitan understanding of the regional, national, and local cultures in the fastest-growing continent in the world. Our interdisciplinary program is based on an excellent core of faculty who are drawn from a range of departments (including languages, literatures, and cultures; English; history; music; political science; philosophy and religion; public policy; and sociology and anthropology) and the World Languages Center. Our students are strongly encouraged to accelerate their language acquisition process and gain firsthand knowledge of Asian cultures and societies through participation in a university-sponsored study-abroad program, an international co-op, a Dialogue of Civilizations program, or an experiential learning experience. Students can also take advantage of the outstanding Asian cultural resources available in the Boston metropolitan area, particularly at the Museum of Fine Arts and the Peabody Essex Museum in Salem.

Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 31)."

Preapproved Template Program in Asian Studies

Asian studies offers a preapproved template program that may be paired with another preapproved template program to create a combined major.

Programs

Bachelor of Arts (BA)

- Asian Studies (p. 631)
- History and Asian Studies (p. 632)

Minor

- East Asian Studies (p. 634)

Asian Studies, BA

The Bachelor of Arts in Asian Studies offers undergraduates a broad liberal arts education in the histories, politics, cultures, and societies of Asia. Asian studies majors complete at least two years of an Asian language in addition to pursuing a rigorous course of study covering a number of disciplines and national traditions. The core course work provides foundational knowledge in the history, politics, and societies of East Asian nations, Asia's place within a globalizing world, and skills in research and analysis. Majors are also required to develop expertise in one of the following focus areas: history; society and politics; language, literature, and culture; or religious studies. Finally, students are required to complete academic study or a professional experience abroad.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Asian Studies Requirements

Asian Studies Electives		
Complete six courses from the following focus areas. Choose at least three courses from one focus area:		24
History Focus Area		
HIST 1246	World War II in the Pacific	
HIST 1252	Japanese Literature and Culture	
HIST 1500	Modern Chinese History and Culture	
HIST 2308	Law, Justice, and Society in Modern China	
HIST 2351	Modern Japan	
Society and Politics Focus Area		
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4515	Culture and Politics in Modern India	
ASNS 2245	The Asian-American Experience	
INTB 2501	Competing to Win in Emerging Markets	
MKTG 4220	Marketing in Asia	
PHIL 1130	Ethics: East and West	
INTL 2240	Global Population and Development	
POLS 3487	Politics of Developing Nations	
Language, Literature, and Culture Focus Area		
ARCH 1320	Architecture and Global Cultures, 1400 to Present	
CLTR 1260	Japanese Film	
CLTR 1700	Introduction to Japanese Pop Culture	

ENGL 2450	Postcolonial Literature
MUSC 2130	Music of Asia
PHIL 1130	Ethics: East and West

Religious Studies Focus Area

PHIL 1231	Image and Icon in South Asia
PHIL 1273	Jainism
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions
PHIL 1276	Indian Religions
PHIL 1290	Chinese Philosophy and Religion
PHIL 2394	Chinese Buddhism
PHIL 2395	Japanese Buddhism
PHIL 4393	Asian Religions in the United States
PHIL 4545	Religion and Politics in South Asia

Asian Studies Major Credit Requirement

Complete 56 semester hours in the major.

Program Requirements

128 total semester hours required

History and Asian Studies, BA

History and Asian studies offers an interdisciplinary combined major. Students interested in the combined major in history and Asian studies integrate the exploration of human history with the rigorous study of Asian cultures, societies, languages, and economies.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

Code	Title	Hours
History Colloquium		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4

Introductory Level

Choose one course from the 1000 level except HIST 1215, which is required by Asian studies. 4

History Seminar and Historical Writing

HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

Pre-1800 History Elective

Choose one course from the following: 4

HIST 2390	Africa and the World in Early Times	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1270	Ancient Greece	
HIST 1271	Ancient Rome	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	

Advanced History

Complete one history course 3000 level or above 4

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range. These courses may double-count in the requirements above (except History Colloquium).

Asian Studies Requirements

Code	Title	Hours
Required Courses		
ASNS 1150	East Asian Studies	4
HIST 1215	Origins of Today: Historical Roots of Contemporary Issues	4

Asia in Global Context

Complete one of the following: 4

ECON 1290	History of the Global Economy	
ENGL 2450	Postcolonial Literature	
INTL 2240	Global Population and Development	
POLS 3487	Politics of Developing Nations	

Complete a professional or academic experience abroad in consultation with your advisor.

Language and Elective Requirements

Code	Title	Hours
Language Courses		

Complete the following courses in either Chinese or Japanese: 16

Chinese

Select one of the following:		
CHNS 1101	Elementary Chinese 1	
CHNS 1301	Elementary Chinese Immersion 1	
Select one of the following:		
CHNS 1102	Elementary Chinese 2	
CHNS 1302	Elementary Chinese Immersion 2	
Select one of the following:		
CHNS 2101	Intermediate Chinese 1	
CHNS 2301	Intermediate Chinese Immersion 1	
Select one of the following:		

CHNS 2102	Intermediate Chinese 2	
CHNS 2302	Intermediate Chinese Immersion 2	
<i>Japanese</i>		
JPNS 1101	Elementary Japanese 1	
JPNS 1102	Elementary Japanese 2	
JPNS 2101	Intermediate Japanese 1	
or JPNS 2301	Intermediate Japanese Immersion 1	
JPNS 2102	Intermediate Japanese 2	
or JPNS 2302	Intermediate Japanese Immersion 2	

Asian Studies Electives

Complete three courses from the following focus areas. 12

Society and Politics Focus Area

ANTH 4350	Ethnography of Southeast Asia	
ANTH 4515	Culture and Politics in Modern India	
ASNS 2245	The Asian-American Experience	
INTB 2501	Competing to Win in Emerging Markets	
MKTG 4220	Marketing in Asia	
PHIL 1130	Ethics: East and West	
INTL 2240	Global Population and Development	
POLS 3487	Politics of Developing Nations	

Language, Literature, and Culture Focus Area

ARCH 1320	Architecture and Global Cultures, 1400 to Present	
CLTR 1260	Japanese Film	
CLTR 1700	Introduction to Japanese Pop Culture	
ENGL 2450	Postcolonial Literature	
MUSC 2130	Music of Asia	
PHIL 1130	Ethics: East and West	

Religious Studies Focus Area

PHIL 1231	Image and Icon in South Asia

PHIL 2394	Chinese Buddhism	
PHIL 2395	Japanese Buddhism	
PHIL 4393	Asian Religions in the United States	
PHIL 4545	Religion and Politics in South Asia	

Capstone

Code	Title	Hours
Complete one of the following: 4		
HIST 4701	Capstone Seminar	
ASNS 4900	Asian Studies Capstone Directed Study	
ASNS 4920	Asian Studies Capstone Seminar	

Integrative Requirement

Note: Public history concentrators satisfy this requirement within the concentration with Fieldwork in History 1 (HIST 4903) and (HIST 4904).

Code	Title	Hours
HIST 2351	Modern Japan	4
or ASNS 2245	The Asian-American Experience	

History and Asian Studies Major Credit Requirement

Complete 82 semester hours in the major.

Program Requirements

128 total semester hours required

East Asian Studies, Minor

East Asian studies minors can choose from either a nonlanguage or a language track. For the nonlanguage track, minors focus on gaining a broad interdisciplinary understanding of Asian societies, economies, politics, and cultures. The core course, East Asian studies, provides students with an understanding of the interlinkages in the historical, social, and political development of China, Korea, and Japan. Students can then choose from elective courses that represent a spectrum of disciplinary knowledge of Asian societies. For the language track, students are required to achieve at least first-year proficiency in an Asian language and also take East Asian studies and two elective courses of their choosing.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Complete either the nonlanguage track or the language track.

Nonlanguage Track

Code	Title	Hours
Core Course		
ASNS 1150	East Asian Studies	4
Elective Courses		
Complete four of the following. They may include up to two courses taken as part of an approved study-abroad program:		16
ENGL 2470	Asian-American Literature	
ASNS 2245	The Asian-American Experience	
HIST 1253	History of Vietnam Wars	
HIST 1500	Modern Chinese History and Culture	
HIST 1252	Japanese Literature and Culture	
HIST 2308	Law, Justice, and Society in Modern China	
HIST 2351	Modern Japan	
CHNS 1101	Elementary Chinese 1	
CHNS 1102	Elementary Chinese 2	
CHNS 2101	Intermediate Chinese 1	
CHNS 2301	Intermediate Chinese Immersion 1	
CLTR 1500	Modern Chinese History and Culture	
JPNS 1101	Elementary Japanese 1	
JPNS 1102	Elementary Japanese 2	
JPNS 2101	Intermediate Japanese 1	
CLTR 1700	Introduction to Japanese Pop Culture	
CLTR 1260	Japanese Film	
PHIL 1231	Image and Icon in South Asia	
PHIL 1273	Jainism	
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions	
PHIL 1276	Indian Religions	
PHIL 2394	Chinese Buddhism	

PHIL 2395	Japanese Buddhism
PHIL 2398	Religion and Culture in Indian Cinema
PHIL 4393	Asian Religions in the United States
PHIL 4545	Religion and Politics in South Asia

Language Track

Code	Title	Hours
Core Course		
ASNS 1150	East Asian Studies	4
Required Courses		
Complete the following two courses in either Chinese or Japanese:		8
Chinese		
CHNS 1101 and CHNS 1102	Elementary Chinese 1 and Elementary Chinese 2	
Japanese		
JPNS 1101 and JPNS 1102	Elementary Japanese 1 and Elementary Japanese 2	
Elective Courses		
Complete two of the following. They may include up to two courses taken as part of an approved study-abroad program:		8
ASNS 2245	The Asian-American Experience	
ENGL 2470	Asian-American Literature	
HIST 1253	History of Vietnam Wars	
HIST 1252	Japanese Literature and Culture

sccj@northeastern.edu

The School of Criminology and Criminal Justice was established in 1967 as one of the first schools of its kind devoted to matters of crime and justice. The school is a leading force in education, research, and policymaking in both the public and the private sectors of the criminal justice field.

The School of Criminology and Criminal Justice seeks to prepare students for professional and research careers in criminology, criminal justice, and related fields by applying multidisciplinary and comparative social science to understand, predict, and explain crime as well as to contribute to the development of public policy on crime and justice issues. The school seeks to develop its students intellectually and ethically, while providing them with a keen appreciation of the complexities of crime and of the public and private efforts to make communities safer and to ensure justice.

The world of criminal justice is much more than police officers, corrections officials, criminal defense lawyers, or security and loss prevention personnel. At the School of Criminology and Criminal Justice, the boundaries of criminal justice have expanded beyond traditional views of the field to include emphases on law and justice, organizations and leadership, global criminology, and crime policy. Criminal justice education today is about more than the criminal; it involves understanding the victim and the community: repairing harm, reducing fear, rebuilding safe communities, and assuring justice in spirit and act.

The School of Criminology and Criminal Justice has had a long-standing attachment and commitment to improving a wide range of justice system agencies. The school actively engages external partners in an ongoing conversation about research, community service, and salient policy questions. Part of this dialogue is supported by an ongoing program of applied and social science research. Much of this research focuses on evaluating existing government crime-control programs and policies to determine whether they work, as well as inquiries about the etiology and prevention of crime. In addition, much of our research examines the unintended consequences of policy: institutionalized racism, differential impact of justice policy on certain groups, and the like. Research conducted at Northeastern on these topics is approached with ethical sensitivity and scientific rigor.

Criminology and criminal justice, as a social science, began in the early part of the 20th century. Nearly 100 years old, the field has blossomed in large part through the ingenuity of several notable scholars. The School of Criminology and Criminal Justice is pleased to be home to many of the country's preeminent contemporary scholars. School of Criminology and Criminal Justice faculty members regularly present at scholarly conferences, national and international seminars, and to policymakers worldwide.

Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 31)."

Programs

Bachelor of Science (BS)

- Criminal Justice (p. 635)
- Computer Science and Criminal Justice (p. 307)
- Criminal Justice and Philosophy (p. 640)
- Criminal Justice and Political Science (p. 641)
- Criminal Justice and Psychology (p. 612)
- Cybersecurity and Criminal Justice (p. 351)
- Human Services and Criminal Justice (p. 646)

Minor

- Criminal Justice (p. 648)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

Criminal Justice, BS

The BS in criminal justice degree is designed to prepare students for professional and research careers in criminal justice, criminology, and related fields by applying multidisciplinary and comparative social science to understand, predict, and explain crime and contribute to the development of public policy within urban communities. Using an experiential learning approach, the criminal justice major seeks to develop its students intellectually and ethically, while providing them with a keen appreciation for the complexities of crime and public and private efforts to make communities safer and ensure justice.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science and Criminal Justice, BS

For students interested in criminal justice in an increasingly digital world, the computer science and criminal justice combined degree offers a strong programming foundation coupled with academic and experiential knowledge of the criminal justice system. Students will learn the principles, practices, and responsibilities of criminal justice professionals alongside the computer science skills necessary for practical applications in the field.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1
or CRIM 2000	Co-op Integration Seminar 1	

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
IS 2000	Principles of Information Science	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 16 credits of upper-division CS, IS, or DS courses that are not already required. Choose courses within the following ranges:	16
CS 2500 or higher, except CS 5010	
IS 2000 or higher, except IS 4900	
DS 2000 or higher, except DS 4900

CRIM 3500	Policing a Democratic Society	

System-Wide Elective

Complete one course from the following:		4
CRIM 4010	Gender, Crime, and Justice	
CRIM 4020	Race, Crime, and Justice	

Criminal Justice Elective

Complete one additional CRIM elective.		4
--	--	---

Integrative Course Requirement

Code	Title	Hours
Complete one course from the following:		4
CRIM 4040	Crime Prevention	
CRIM 4630	Political Crime and Terrorism	
CRIM 4800	Crime Mapping	
CRIM 4900	Advanced Seminar in Criminology and Criminal Justice	

Supporting Course

Code	Title	Hours
Computing and Social Issues		
Complete one of the following:		4
SOCL 4528	Computers and Society	
SOCL 3485	Environment, Technology, and Society	
SOCL 1280	The 21st-Century Workplace	
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
PHIL 1145	Technology and Human Values	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	

Computer Science English Requirement

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

Advanced Writing in the Disciplines

Complete one of the following:	
ENGW 3302	Advanced Writing in the Technical Professions
ENGW 3308	Advanced Writing in the Social Sciences
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines

Required General Electives

Code	Title	Hours
Complete seven general electives.		28

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Understanding Societies and Institutions
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Criminal Justice and Philosophy, BS

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Criminal Justice Major Requirements

Code	Title	Hours
Criminal Justice Required Courses		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 2100	Criminal Due Process	4
CRIM 2200	Criminology	4
CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Criminal Justice Statistics	4

Co-op Integration Seminar

Co-op students should complete the seminars below. Non-co-op students should complete a 4-semester-hour CRIM elective.

Complete two of the following courses. CRIM 2000 and CRIM 3000 are required for the first co-op. CRIM 4000 is required if a second co-op is taken.

CRIM 2000	Co-op Integration Seminar 1	
CRIM 3000	Co-op Integration Seminar 2	
CRIM 4000	Co-op Integration Seminar 3	

Capstone

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

Major Electives

Thematic Elective

Complete one of the following: 4

CRIM 1300	The Death Penalty	
CRIM 1400	Human Trafficking	
CRIM 1500	Corruption, Integrity, and Accountability	

Survey Elective

Complete one of the following: 4

CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology	
CRIM 3040	Psychology of Crime	
CRIM 3050	Organized Crime	
CRIM 3100	Criminal Law	
CRIM 3200	Youth Crime and Justice	
CRIM 3300	Punishment in the Age of Mass Incarceration	
CRIM 3400	Corporate Security: Securing the Private Sector	
CRIM 3500	Policing a Democratic Society	

System-Wide Electives

CRIM 4010	Gender, Crime, and Justice	
CRIM 4020	Race, Crime, and Justice	

Criminal Justice Elective

Complete one additional CRIM course. 4

Philosophy Requirements

Code	Title	Hours
Required Courses		
PHIL 1115	Introduction to Logic	4
PHIL/POLS 2325	Ancient Philosophy and Political Thought	4
PHIL 2303	Social and Political Philosophy	4
PHIL 2330	Modern Philosophy	4

Intermediate/Advanced Electives

Complete two of the following:

PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4390	Cults and Sects	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	

PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	

Philosophy 4000/5000 Elective

Complete one of the following not used to satisfy previous requirements: 4

PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	
PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	

Philosophy Electives

Complete two additional PHIL courses. 8

Integrative Requirement

Code	Title	Hours
Philosophy Integrative Course		
PHIL 2301	Philosophical Problems of Law and Justice	4
Criminal Justice Integrative Course		
CRIM 1400	Human Trafficking	4

Criminal Justice and Philosophy Major Credit Requirement

Complete 80 semester hours in the major.

Program Requirement

128 total semester hours required

Criminal Justice and Political Science, BS

This combined major educates students in criminal justice and political science and in the interface between the two disciplines. The scope and sequence of political science courses provide students with a foundation in topics such as American government, comparative politics, international relations, and security and resilience. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields as they relate to understanding and addressing criminal behavior.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Research Methods and Electives

Complete Option A, Option B, or Option C, below. *Note:* These options enable the student to take research methods courses (including statistics/quantitative techniques) as either CRIM courses or as POLS courses.

OPTION A

Code	Title	Hours
Research Methods		
CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Criminal Justice Statistics	4
Criminal Justice Electives		
Complete two courses in the following range:		8
CRIM 4001 to CRIM 4999		
Political Science Electives		
Complete five courses in the following range:		20
POLS 2300 to POLS 5999		

OPTION B

Code	Title	Hours
Research Methods		
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
Criminal Justice Electives		
Complete three courses in the following range:		12
CRIM 4001 to CRIM 4999		
Political Science Electives		
Complete four courses in the following range:		20
POLS 2300 to POLS 5999		

OPTION C

Code	Title	Hours
Research Methods		
Complete one of the following sequences:		8
CRIM 3600 and POLS 2400	Criminal Justice Research Methods and Quantitative Techniques	
CRIM 3700 and POLS 2399	Criminal Justice Statistics and Research Methods in Political Science	
Criminal Justice Electives		
Complete two courses in the following range:		8
CRIM 4001 to CRIM 4999		
Political Science Electives		
Complete four courses in the following range:		20
POLS 2300 to POLS 5999		

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 643).

- American Political Institutions (p. 643)
- Campaigns and Elections (p. 643)
- Identity, Culture, and Politics (p. 643)
- Law and Legal Studies (p. 643)
- Security Studies (p. 643)

Integrative Requirement

Due Process		

CRIM 2100	Criminal Due Process	4
Integrative Elective Courses		
Complete two of the following:		8
CRIM 3100	Criminal Law	
CRIM 4100	Juvenile Law	
CRIM 4120	Courts and Sentencing	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

Combined-Major Credit Requirement

Complete 84 semester hours in the major.

Program Requirement

128 total semester hours required

Concentrations

CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	

CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
Required Courses		
With advisor approval, a co-op or internship may be substituted in place of POLS 4947:		
POLS 3160	Campaign Strategy	4
POLS 4947		4
Campaigns and Elections Electives		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2355		
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3162	Local Campaigns and Elections	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3304		

CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

Code	Title	Hours
Core Course		
POLS 3418	Nationalism	4
Electives		
Complete three of the following:		12
POLS 2360	Politics of Poverty

POLS 2370	Religion and Politics	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	

CONCENTRATION IN LAW AND LEGAL STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 2330	American Political Thought	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3324	Law and Society	
POLS 3406	International Law	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

CONCENTRATION IN SECURITY STUDIES

Code	Title	Hours
Complete four of the following:		16
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3423	Terrorism and Counterterrorism	
POLS 3425	U.S. Foreign Policy	
POLS 3427	Civil-Military Relations	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations	
POLS 4918	Model NATO	

Criminal Justice and Psychology, BS

This combined major educates students in criminal justice and psychology and the interface between the two disciplines. The scope and sequence of psychology courses provide students with a foundation in the interdisciplinary science of psychology, including the biological and psychosocial bases of behavior, learning, personality, and cognition. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields, as they relate to understanding and addressing criminal behavior.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Code	Title	Hours
Co-op students should complete at least one of the following courses. CRIM 3000 is required for the first co-op. CRIM 4000 is required if a second co-op is taken:		
CRIM 3000	Co-op Integration Seminar 2	1
CRIM 4000	Co-op Integration Seminar 3	1

Integrative Requirement

Code	Title	Hours
Cybersecurity Integrative Course		
CS 4170	The Law, Ethics, and Policy of Data and Digital Technologies	4
or IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
Criminal Justice Integrative Course		
Complete one of the following:		4
CRIM 4040	Crime Prevention	
CRIM 4630	Political Crime and Terrorism	
CRIM 3050	Organized Crime	

CRIM 3400	Corporate Security: Securing the Private Sector
CRIM 3500	Policing a Democratic Society
CRIM 5900	Topics in Criminal Justice and Criminology

Required General Electives

Code	Title	Hours
Complete six general electives.		24

Cybersecurity GPA Requirement

Minimum 2.000 GPA required in all computer and information science courses.

Program Requirement

133 total semester hours required.

Human Services and Criminal Justice, BS

A combined major in human services and criminal justice appeals to students interested in the intersection of social and legal issues and institutions. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. Students with criminal justice course work gain a rigorous interdisciplinary and experiential education in the causes and consequences of crime and the responses of criminal justice. The addition of human services course work complements a criminal justice perspective and considers the role of social services and community-based organizations to prevent, intervene, and treat the causes and consequences of crime. The degree allows students to combine interests in the justice system, political advocacy, and community development. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Foundation Courses

Code	Title	Hours
Introduction to the Major		
CRIM 1000	Criminal Justice at Northeastern	1
or HUSV 1000	Human Services at Northeastern	

Criminal Justice Foundation Courses

Criminal Justice, Minor

Minors in the School of Criminology and Criminal Justice (SCCJ) take the foundational courses in criminology and criminal justice. Minors can also specialize further in their elective courses. These may include courses covering topics such as policing democratic societies, corporate security, punishment and mass incarceration, and juvenile justice. A minor in criminology and criminal justice in combination with a student's major can enhance the student's career possibilities and open new avenues for research experiences.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
CRIM 1100	Introduction to Criminal Justice	4
CRIM 2100	Criminal Due Process	4
CRIM 2200	Criminology	4

Criminal Justice Electives

Code	Title	Hours
Complete two of the following:		8
CRIM 3010	Criminal Violence	
CRIM 3030	Global Criminology

CRIM 4100	Juvenile Law
CRIM 4120	Courts and Sentencing
CRIM 4500	Police Strategy
CRIM 4630	Political Crime and Terrorism
CRIM 4710	Law and Psychology

GPA Requirement

2.000 GPA required in the minor

Cultures, Societies, and Global Studies

The Department of Cultures, Societies, and Global Studies is an open and dynamic academic platform for interdisciplinary research and teaching on the transformative power of culture as an instrument for social change and innovation. We approach the challenges facing humanity through perspectives that are primarily, though not exclusively, informed by the experiences of the peoples from the Global South (Africa, Asia, the Caribbean, and Latin America) and its diasporas. As we search for the tools to foster sustainable economic growth and social well-being on a global scale, we aim to reevaluate and learn from the historical experiences, belief systems, intellectual traditions, and pressing concerns of the greater part of the world's population. This requires a critical reexamination of the persistence of Eurocentric postulates that were developed to support modern colonialism and nationalism with their variegated world of "otherness". As such, we adhere to the broadest and most inclusive definition of languages and cultures as we aim to understand, shape, and thrive in a global community characterized by increased social connectivity, economic integration, intellectual exchange, and cultural hybridity. Indeed, **we are your gateway to the languages and peoples of the world** and we have the broadest selection of majors (<https://www.northeastern.edu/cssh/csgs/majors-csgs>) and minors (<https://www.northeastern.edu/cssh/csgs/minors-csgs>) in Northeastern!

African-American Studies, BA

African-American studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social, economic, and historical experiences of Africans, African-Americans throughout the hemisphere, and peoples of African descent around the world. Because African-American studies relates to numerous other fields, the number of required courses for the major is relatively small to allow maximum flexibility. Our students often pursue a double major, a combined degree, or a minor in another subject. By combining study in African-American studies with experiential learning through co-op, study abroad, and/or Dialogues of Civilizations programs, you have an opportunity to obtain practical experience that will give you greater flexibility upon graduation. Moreover, the reading, writing, and analytical skills you will develop will prove useful and valuable in any profession.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Spanish, BA

Spanish is the second most spoken language in the world. It is used in more than twenty countries, including the United States. In fact, in terms of the number of speakers, the United States is the second largest Spanish-speaking country in the planet. Being a Spanish speaker is a major professional and cultural asset as it prepares you to be successful in any career path. Yet, in our society, knowing Spanish is not just an asset; it is increasingly a necessity. Not only does proficiency in Spanish prepare you to be a leader in a country where Hispanics are the fastest growing segment of the population and where Spanish-speakers are the vast majority of the population in the hemisphere. Knowing Spanish also makes you a truly global citizen. Our Spanish BA certifies that you have attained advanced levels of listening, speaking, reading and writing proficiency in the language. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Spanish and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international issues since the 19th century through diverse and cross-disciplinary theories of: (1) Interstate relations: conflict, cooperation, hierarchies; (2) Civil society, transnational advocacy networks, global social movements; and (3) the politics of culture, linguistic and cultural diversity, religious and ideological divides; (4) State-society relations: democracy, authoritarianism, inequalities, citizenship.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

African-American Studies, BS

African-American studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social, economic, and historical experiences of Africans, African-Americans throughout the hemisphere, and peoples of African descent around the world. Because African-American studies relates to numerous other fields, the number of required courses for the major is relatively small

to allow maximum flexibility. Our students often pursue a double major, a combined degree, or a minor in another subject. By combining study in African-American studies with experiential learning through co-op, study abroad, and/or Dialogues of Civilizations programs, you have an opportunity to obtain practical experience that will give you greater flexibility upon graduation. Moreover, the reading, writing, and analytical skills you will develop will prove useful and valuable in any profession.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

African-American Studies Major Requirements

American Sign Language, BS

The American Sign Language (ASL) Program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This Program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

The ASL Program offers a wide array of courses as well as volunteer, internship, and practicum opportunities. For students wishing to pursue a degree in ASL/English Interpretation, the Program is committed to providing opportunities that will allow them to acquire the linguistic, cognitive, and ethical decision-making skills as well as the socio-cultural knowledge necessary to serve as professional ASL/English interpreters. Students pursuing a combined major in Psychology, Theater, or Human Services integrate their foundation in ASL and the Deaf Community with these academic disciplines.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

American Sign Language and Human Services, BS

The American Sign Language (ASL) Program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This Program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

The ASL Program offers a wide array of courses as well as volunteer, internship, and practicum opportunities. Students pursuing a combined major in Human Services integrate their foundation in ASL and the Deaf Community with Human Service organizations.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

American Sign Language and Linguistics, BS

The American Sign Language (ASL) & Linguistics combined major is an intensive program of study dedicated to preparing students to interact in a positive and supportive manner with members of the American Deaf Community while simultaneously providing students with an understanding of the theoretical, cultural, and social components of all human language, including ASL, so that they can better understand how ASL is related to spoken languages and other signed languages. This curriculum is designed to assist students in acquiring competence in American Sign Language; and in developing an understanding of the American Deaf Community and its culture, the acquisition and analysis of human languages (signed and spoken), and how human languages work in everyday use (e.g., comprehension, generation, translation).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

American Sign Language and Theatre, BS

The American Sign Language (ASL) Program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This Program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

This major is designed for students who want to combine an understanding of the American Deaf Community and its culture to the study and making of theatre, including performance, design, and production. It offers both classroom and experiential learning on the creative, social, and linguistic relationship between theatre and the American Deaf Community. Students may study acting, dramatic literature, and production design to develop the skills to be professional ASL/English interpreters and/or performers for theatrical productions.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

African Studies, Minor

The mission of the African and African-American Studies Program is to mentor intellectual leaders, to develop emerging scholars, and to train global citizens who are able to explore the world from diverse perspectives in an ever increasingly global and interdisciplinary world. In our experiential liberal arts education model, students study culture, history, politics, and society as they relate to African and African-American studies to cultivate their thinking, reading, and writing skills through interdisciplinary class-based and experiential learning opportunities. Some of the major areas of interest and research of our faculty include the public humanities and public policy, critical race theory and empire/colonialism, criminal justice and carceral state, global public health and neglected tropical diseases, gender, sexuality, and women's studies.

Through rigorous study, co-op, study abroad, Dialogue of Civilizations, and service-learning, students have an opportunity to acquire use-inspired knowledge and competencies that will equip them with endless possibilities to flexibly fit any profession and graduate studies they may pursue in the social sciences and humanities.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Course

African-American Studies, Minor

African-American studies is an interdisciplinary field of study devoted to the critical and systematic examination of the cultural, political, social, economic, and historical experiences of Africans and African-Americans throughout the hemisphere, and peoples of African descent around the world. Because African-American studies relates to numerous other fields, our minor affords you maximum flexibility. By combining study in African-American studies with experiential learning through co-op, study abroad, and/or Dialogues of Civilizations programs you can get practical experience that will give you greater flexibility upon graduation. Moreover, the reading, writing and analytical skills you will develop will prove useful and valuable in any profession.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Course

American Sign Language, Minor

The American Sign Language (ASL) program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

The ASL program offers a wide array of courses as well as volunteer, internship, and practicum opportunities. For students wishing to pursue a minor in ASL, the program is committed to providing opportunities that will allow them to acquire the linguistic, cognitive, and ethical decision-making skills as well as the sociocultural knowledge necessary to work in positive and supportive ways with Deaf people.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
CLTR 1120	Introduction to Languages, Literature, and Culture	4
DEAF 1500	Deaf People in Society	4

Required Language Courses

Code	Title	Hours
Students with prior skills in American Sign Language are allowed to waive up to four AMSL courses:		
AMSL 1101	Elementary ASL 1	4
AMSL 1102	Elementary ASL 2	4
AMSL 2101	Intermediate ASL 1	4
AMSL 2102	Intermediate ASL 2	4

Elective

AMSL 3102	Advanced ASL 2	
AMSL 4992	Directed Study	
DEAF 2500	Deaf History and Culture	
DEAF 2700	ASL Linguistics	

GPA Requirement

2.000 GPA required in the minor

Arabic, Minor

We live in a truly global world, where the leaders of tomorrow will dwell in, and negotiate all transactions in spaces not claimed in exclusivity by a single people, language or culture. Knowing Arabic, the fifth largest language in the world in terms of speakers, will help you become a truly

global citizen. Our minor certifies that you have attained intermediate to advanced levels of listening, speaking, reading and writing proficiency in the language. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students will be required to take a total of five classes. These classes may include courses and language classes at or above the intermediate level in Dialogues of Civilization at NU. A maximum of two courses of transfer credits, including transferable courses taken abroad, may count towards the five classes in the minor.

Required Culture Courses

Code	Title	Hours
CLTR 1120	Introduction to Languages, Literature, and Culture	4

Required Language Courses

Students may waive any of these courses by taking the language exam in the Wold Languages Center.

Chinese, Minor

We live in a truly global world where the leaders of tomorrow will dwell in and negotiate all transactions in spaces not claimed in exclusivity by a single people, language or culture. Knowing Chinese will help you become a truly global citizen. Our minor certifies that you have attained intermediate to advanced levels of listening, speaking, reading and

writing proficiency in the language. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Students will be required to take a total of five classes. These classes may include courses and language classes at or above the intermediate level in Dialogues of Civilization at NU. A maximum of two courses of transfer credits, including transferable courses taken abroad, may count towards the five classes in the minor.

Required Culture Courses

Film and International Cultures, Minor

The minor in Film and International Cultures allows students to study in a sustained and in-depth manner the rapidly expanding global visual culture. Students will explore the history, theory, aesthetics and criticism of film and other moving-image media on a global scale and in relation to culture, other arts, politics and propaganda. In this sense, our minor is a most valuable asset in a multi-disciplinary portfolio for anyone interested in how the image and the film/propaganda industry shape the world we live in and the ways in which we conceive of ourselves and others.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: At least two of the courses taken for the minor must be at or above the 2000 level.

Required Culture Courses

Code	Title	Hours

Spanish, Minor

Spanish is the second most spoken language in the world. It is used in more than twenty countries, including the United States. In fact, in terms of the number of speakers, the United States is the second largest Spanish-speaking country in the planet. Being a Spanish speaker is a major professional and cultural asset as it prepares you to be successful in any career path. Yet, in our society, knowing Spanish is not just an asset; it is increasingly a necessity. Not only does proficiency in Spanish prepare you to be a leader in a country where Hispanics are the fastest growing segment of the population and where Spanish-speakers are the vast majority of the population in the hemisphere. Knowing Spanish also makes you a truly global citizen. Our Spanish minor certifies that you have attained intermediate to advanced levels of listening, speaking, reading and writing proficiency in the language. It also opens before you a fascinating cultural and intellectual world in and beyond the classroom with a myriad of opportunities to travel, live and work abroad.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Economics

Website (<http://www.northeastern.edu/cssh/economics>)

William T. Dickens, PhD

University Distinguished Professor and Interim Chair

301 Lake Hall
617.373.2882
617.373.3640 (fax)
econ@northeastern.edu

Economics is the study of how societies produce and exchange goods and services to satisfy needs. Undergraduates may study economics to develop specialized analytical skills useful in today's complex labor market. Economics is distinguished among the social sciences by having a systematic normative as well as a positive framework for evaluating public policy. The major in economics is also a good foundation for graduate studies in advanced economics, public policy, law, or business.

Macroeconomics, which focuses on the overall economy, deals with such problems as inflation, unemployment, growth and instability, economic development, and governmental monetary and fiscal policies.

Microeconomics examines the economic behavior of individuals, households, firms, industries, and trade among countries. It seeks to

assess the economic effects of market power and environmental damage and analyzes the economic aspects of natural resources, poverty, health, income distribution, trade unions, crime, and government regulation.

Courses in economics cover international trade; the behavior of families, firms, and industries in the market economy; the environmental costs of growth; and the economic aspects of natural resources, poverty, health, labor market discrimination, trade unions, crime, and governmental oversight. International and comparative perspectives are emphasized, most directly in courses in studies of the developing world and economic history.

Students may pursue a BA, a BS, or a minor in economics. Additionally, economics majors in their junior year may qualify for admission to the PlusOne program that combines the BA or BS with a master's degree in economics (requires an additional 16 semester hours of course work). The department also offers combined majors with business administration, environmental studies, international affairs, mathematics, philosophy, computer science, and political science.

Graduates may find jobs in major corporations; financial institutions; nonprofits; NGOs; or federal, state, and local governments. Their work may involve planning and forecasting, assessing labor needs, and undertaking financial studies. They may estimate consumer demand for new products, conduct research, teach, or provide specialized consulting services.

Academic Progression Standards

The following are the requirements to progress in the major:

Code	Title	Hours
The following three core courses should be completed first:		12
ECON 1115	Principles of Macroeconomics	
ECON 1116	Principles of Microeconomics	
MATH 1231	Calculus for Business and Economics	
The following four core courses should be completed by the end of sophomore year (ECON 2560 required for BS majors only):		16
ECON 2315	Macroeconomic Theory	
ECON 2316	Microeconomic Theory	
ECON 2350	Statistics	
ECON 2560	Applied Econometrics	
Within two semesters of completing the above courses, BA majors should complete:		4
ECON 3520	History of Economic Thought	

For BA/BS majors, grades earned in the following five core courses must average to a 2.000 grade-point average (GPA) or better.

Code	Title	Hours
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4

After admission to the major, all required economics courses must be taken in the day college.

PlusOne Program (MA) in Economics

The PlusOne program in economics offers an opportunity for the best of Northeastern's undergraduate economics majors to complete both

the undergraduate degree program (BS or BA) and the professional program (MA) in economics in less time than if the programs were completed sequentially. Students apply no later than junior year, after all core economics classes have been completed, and begin taking master's course work in their senior year. One additional year of graduate study is required to complete the master's program. Students interested in this option should consult with the departmental undergraduate and graduate directors.

Programs
Bachelor of Arts (BA)

- Economics (p. 672)
- International Affairs and Economics (p. 676)
- Political Science and Economics (p. 680)

Bachelor of Science (BS)

- Economics (p. 674)
- Computer Science and Economics (p. 312)
- Cybersecurity and Economics (p. 352)
- Economics and Business Administration (p. 243)
- Economics and Mathematics (p. 563)
- Economics and Philosophy (p. 692)
- Environmental Studies and Economics (p. 549)
- Political Science and Economics (p. 686)
- Politics, Philosophy, and Economics (p. 623)

Minor

- Economics (p. 694)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

Economics, BA

The **Bachelor of Arts** degree in economics maintains the tradition of the liberal arts with the language and arts courses required to satisfy the university's BA degree requirements. Along with the six core courses in economics, students may choose from over 40 electives. Many of these electives continue this liberal arts tradition with courses that focus on economic literature, economic history, the history of economic thought, and political economy. Students considering future doctoral studies in economics are strongly encouraged to pursue a double major in economics (BS) and mathematics (BS) or choose our combined economics/mathematics major.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Economics, BS

The **Bachelor of Science** degree focuses attention on the use of mathematics in economic models in the six core courses and many of the required seven electives. The BS degree allows ample room to take courses such as econometrics, game theory, and mathematical economics in addition to more supporting courses in the mathematics and computer science departments. Students considering future doctoral studies in economics are strongly encouraged to pursue a double major in economics (BS) and mathematics (BS) or to choose our combined economics/mathematics major.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs and Economics, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international economic issues since the early 20th century through diverse and cross-disciplinary theories of economic development and growth; states, societies, and markets (the intersection of politics and economics); and the role of states, civil societies, and social movements in crafting or addressing economic strategies, inequalities, and citizenship rights.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
International Affairs/Economics at Northeastern		
INTL 1000 or ECON 1000	International Affairs at Northeastern Economics at Northeastern	1

Required Courses

INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
ANTH 1101 or HIST 2211	Peoples and Cultures The World Since 1945	4

Global Dynamics	12
Complete three of the following with one course numbered 2000 or above. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements:	

Environment

ENVR 1110	Global Climate Change
ENVR 4515	Sustainable Development
SOCL 1246	Environment and Society

Law, Diplomacy, and Global Governance

INTL 2480	Women and World Politics
or WMNS 2480	Women and World Politics
INTL 5200	Political Economy: Interdisciplinary Perspectives
COMM 2303	Global and Intercultural Communication
POLS 1155	Comparative Politics
POLS 1160	International Relations
POLS 2370	Religion and Politics
POLS 3405	International Political Economy
POLS 3406	International Law
POLS 3407	International Organizations
POLS 4910	Model United Nations
POLS 4918	Model NATO
POLS 4938	Dialogue of Civilizations: International Politics Abroad

Human Rights and Social Justice

INTL 2400	Politics of Islam and Gender
INTL 2480	Women and World Politics
or WMNS 2480	Women and World Politics
AFAM 2600	Contemporary Issues: Race, Science, and Technology
HIST 2373	Gender and Sexuality in World History
LPSC 2302	Global Human Rights: A Social and Economic Perspective
PHIL 1272	Ethics in the World's Religions
PHIL 5001	Global Justice

Conflict and Security

CRIM 4630	Political Crime and Terrorism
HIST 1206	Drug Trade and Drug War: History, Security, Culture
HIST 3330	The Global Cold War
JRNL 3300	Covering Conflicts: Peace, War, and the Media
or INTL 3300	Covering Conflicts: Peace, War, and the Media
PHIL 5001	Global Justice
POLS 3408	International Security

Political Science and Economics, BA

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
Political Theory		
Complete one of the following:		4
POLS 2330	American Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	

Political Science Restricted Electives

Complete two of the following:		8
POLS 3307	Public Policy and Administration	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2360	Politics of Poverty	
POLS 3405	International Political Economy	
POLS 3487	Politics of Developing Nations	

Political Science Electives

Complete two courses in the following range, or complete a concentration as outlined below:	8
POLS 3300 to POLS 5999	

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 681).

- American Political Institutions (p. 681)
- Campaigns and Elections (p. 681)
- International Relations and Diplomacy (p. 681)
- Public Policy (p. 681)

Economics Requirements for BA

Code	Title	Hours
Breadth Courses		
MATH 1231	Calculus for Business and Economics	4
CS 1100	Computer Science and Its Applications	4
Required Economics Courses		
Grades in the required economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average a minimum of 2.000:		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4

ECON 3520	History of Economic Thought	4
Economics Electives		
Complete three economics electives with no more than one below 2990.		12

Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

COMBINATION A

Code	Title	Hours
Statistics		
POLS 2400	Quantitative Techniques	4
Economics		
Complete one of the following:		4
ECON 3404	International Food Economics and Policy	
ECON 3420	Urban Economic Issues	
ECON 3423	Environmental Economics	
ECON 3425	Energy Economics	
ECON 3440	Public Finance	
ECON 3490	Public Choice Economics	
ECON 4634	Comparative Economics	
ECON 4635	International Economics	

COMBINATION B

Code	Title	Hours
Statistics		
ECON 2350	Statistics	4
Political Science		
Complete one course in the following range:		4
POLS 2401 to POLS 5999		

Integrative Requirements

Code	Title	Hours
Senior Seminar/Capstone		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

Program Requirement

128 total semester hours required

Concentrations

CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	

CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
Required Courses		
With advisor approval, a co-op or internship may be substituted in place of POLS 4947:		
POLS 3160	Campaign Strategy	4
POLS 4947		4
Campaigns and Elections Electives		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2355		
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3162	Local Campaigns and Elections	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3304		

CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY

Code	Title	Hours
Experiential/Practicum Requirement		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	
Core Courses		
Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3407	International Organizations	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

CONCENTRATION IN PUBLIC POLICY

Code	Title	Hours
Core Requirement		
POLS 3307	Public Policy and Administration	4
Electives		
Complete three of the following:		12
POLS 2334	Bureaucracy and Government Organizations	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2390	Science, Technology, and Public Policy	

POLS 2395	Environmental Politics and Policy
POLS 3425	U.S. Foreign Policy

Plan of Study

Computer Science and Economics, BS

The combined major in computer science and economics integrates fundamental economics courses with a strong programming foundation. Studying both the behavior of individuals and the collective behavior of industries and governments, students will utilize computing skills to address complex issues within the field.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200 or ECON 1000	Leadership Skill Development Economics at Northeastern	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses		
A grade of C– or higher is required in computer science fundamental courses.		

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5

Computer Science Required Courses		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
IS 2000	Principles of Information Science	4

Presentation Requirement		
THTR 1170	The Eloquent Presenter	1

Computer Science Elective Courses		
With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 12 credits of CS, IS, or DS classes that are not already required. Choose courses within the following ranges:		12

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

Economics Requirements

Code	Title	Hours
------	-------	-------

Required Economics Courses

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4

Economics Electives

Complete four economics electives with no more than two below 3000:	16
---	----

ECON 1230	Healthcare and Medical Economics	
ECON 1240	Economics of Crime	
ECON 1290	History of the Global Economy	
ECON 3420	Urban Economic Issues	
ECON 3423	Environmental Economics	
ECON 3424	Law and Economics	
ECON 3425	Energy Economics	
ECON 3440	Public Finance	
ECON 4635	International Economics	
ECON 4681	Information Economics and Game Theory	

Economics Capstone

ECON 4692	Senior Economics Seminar	4
-----------	--------------------------	---

Integrative Course Requirement

Code	Title	Hours
------	-------	-------

The following courses are used in other areas of the major:

IS 2000	Principles of Information Science	4
ECON 2560	Applied Econometrics	4

Supporting Courses

Code	Title	Hours
------	-------	-------

Mathematics

MATH 1231	Calculus for Business and Economics	4
or MATH 1341	Calculus 1 for Science and Engineering	

Computing and Social Issues

Complete one of the following:	4
--------------------------------	---

SOCL 4528	Computers and Society	
SOCL 3485	Environment, Technology, and Society	
SOCL 1280	The 21st-Century Workplace	
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
PHIL 1145	Technology and Human Values	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	

Computer Science English Requirement

Code	Title	Hours
------	-------	-------

College Writing

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

Advanced Writing in the Disciplines

Complete one course from the following:

ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
------	-------	-------

Complete six general electives.	24
---------------------------------	----

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Exploring Creative Expression and Innovation
- Writing in the First Year
- Advanced Writing in the Disciplines
- Writing-Intensive in the Major
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

133 total semester hours required

Cybersecurity and Economics, BS

The cybersecurity and economics combined degree applies a multidisciplinary approach integrating fundamental economics courses with a strong programming foundation. Students will study both the behavior of individuals and the collective behavior of industries and governments, utilizing computing skills to ensure the reliability and security of cyberspace.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Cybersecurity Major Requirements

Political Science and Economics, BS

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4

POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

Political Theory		
Complete one of the following:		4
POLS 2330	American Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	

Political Science Restricted Electives		
Complete two of the following:		8
POLS 3307	Public Policy and Administration	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2360	Politics of Poverty	
POLS 3405	International Political Economy	
POLS 3487	Politics of Developing Nations	

Political Science Electives		
Complete two courses from the following range, or complete a concentration as outlined below:		8
POLS 3300 to POLS 5999		

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 687).

- American Political Institutions (p. 687)
- Campaigns and Elections (p. 687)
- International Relations and Diplomacy (p. 687)
- Public Policy (p. 687)

Economics Requirements for BS

Code	Title	Hours
Breadth Courses		
MATH 1231	Calculus for Business and Economics	4
CS 1100	Computer Science and Its Applications	4
Required Economics Courses		
Grades in the required economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average a minimum of 2.000:		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4

Economics Electives		
Complete three economics electives with no more than one below 2990.		

Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

COMBINATION A

Code	Title	Hours
Statistics		
POLS 2400	Quantitative Techniques	4
Economics		
Complete one of the following:		4
ECON 3404	International Food Economics and Policy	
ECON 3420	Urban Economic Issues	
ECON 3423	Environmental Economics	
ECON 3425	Energy Economics	
ECON 3440	Public Finance	
ECON 3490	Public Choice Economics	
ECON 4634	Comparative Economics	
ECON 4635	International Economics	

COMBINATION B

Code	Title	Hours
Statistics		
ECON 2350	Statistics	4
Political Science		
Complete one course in the following range:		4
POLS 2401 to POLS 5999		

Integrative Requirements

Code	Title	Hours
Senior Seminar/Capstone		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

Program Requirement

128 total semester hours required

Concentrations**CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS**

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	

CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
Required Courses		
With advisor approval, a co-op or internship may be substituted in place of POLS 4947:		
POLS 3160	Campaign Strategy	4
POLS 4947		4
Campaigns and Elections Electives		

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2355		
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3162	Local Campaigns and Elections	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3304		

CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY

Code	Title	Hours
Experiential/Practicum Requirement		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	

Core Courses

Complete three of the following:		12
POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3407	International Organizations	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

CONCENTRATION IN PUBLIC POLICY

Economics and Business Administration, BS

The combined major with business administration is our most popular combined major, combining the underlying economic theories and models and their business applications. After satisfying the core courses in economics, there are over 40 electives from which to choose to complete this combined major.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Economics Requirements

Grades in required economics courses must average a minimum GPA of 2.000 with no grade lower than C-.

Code	Title	Hours
Introduction to College		
ECON 1000	Economics at Northeastern	1
or BUSN 1102	Personal Skill Development for Business	
Required Economics Courses		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
or MGSC 2301	Business Statistics	
ECON 2560	Applied Econometrics	4
Economics Electives		
Complete four courses from the following lists with no more than one at the introductory level:		16
<i>Introductory</i>		
ECON 1200 to ECON 1990		
<i>Intermediate/Advanced</i>		
ECON 2990 to ECON 3499		
ECON 3520	History of Economic Thought	
ECON 3915	Intermediate Selected Topics in Macroeconomics	
ECON 3916	Intermediate Selected Topics in Microeconomics	
ECON 3990	Elective	
ECON 4600 to ECON 4681		
ECON 4915 to ECON 4916		
ECON 4965	Undergraduate Teaching Experience 1	
ECON 4970 to ECON 4990		
ECON 4992	Directed Study	

Business Requirements

Code	Title	Hours
Accounting		
ACCT 1201	Financial Accounting and Reporting	4
ACCT 2301	Managerial Accounting	4
Finance

Capstone Requirement		
ECON 4692	Senior Economics Seminar	4
STRT 4501	Strategy in Action	4

Economics GPA Requirement

Minimum 2.000 GPA required in all economics courses

Business GPA Requirement

Minimum 2.000 GPA required in business courses

Program Requirement

128 total semester hours required

Concentrations

CONCENTRATION IN ACCOUNTING

Code	Title	Hours
Required Courses		
ACCT 3401	Financial Reporting and Analysis 1	4
ACCT 4501	Financial Reporting and Analysis 2	4
Electives		
Complete two of the following:		8
ACCT 3403	Accounting Information Systems	

ACCT 3416	Strategic Cost Analysis for Decision Making
ACCT 4412	Auditing and Other Assurance Services
ACCT 4414	Income Tax Determination and Planning

CONCENTRATION IN ENTREPRENEURSHIP AND INNOVATION

Code	Title	Hours
------	-------	-------

Note: The following courses do not count toward this concentration:

ENTR 1201	The Entrepreneurial Universe
ENTR 3308	Business Economic History of South Africa
ENTR 3318	
ENTR 3328	
ENTR 3338	Field Research in Sustainable Energy in Iceland
ENTR 3346	
ENTR 4510	Management Consulting Abroad
ENTR 4514	Development Practice and Global Citizenship in India

Introductory Course		
ENTR 2301	Innovation!	4
or ENTR 2303	Entrepreneurial Marketing and Selling	

Capstone Course		
Complete one of the following:		4

ENTR 4501	Business Planning for Technology Ventures
ENTR 4503	Business Planning for Small and Medium Enterprises
ENTR 4505	Entrepreneurial Growth Strategy for Technology Ventures
ENTR 4506	Advanced Studies in Social Enterprise

Electives		
Note: Only one non-ENTR course may be used as an elective.		
Complete two of the following:		8

ENTR 2206	Global Social Enterprise
ENTR 2215	Understanding Family Enterprise
ENTR 2414	Social Responsibility of Business in an Age of Inequality
ENTR 2301	Innovation! (if not used as introductory course)
ENTR 2303	Entrepreneurial Marketing and Selling (if not used for introductory course)
ENTR 3212	Innovation for Social Change
ENTR 3217	Global Family Business Leadership
ENTR 3220	International Entrepreneurship and Innovation Consulting
ENTR 3305	Entrepreneurial Strategy and Business Model Design
ENTR 3306	Global Entrepreneurship
ENTR 3330	Lean Design and Development for Entrepreneurs
ENTR 3401	Management of Operations and Growth in Small- and Medium-Sized Enterprises

ENTR 3403	Managing Operations in a Technology-Based Startup Firm	
ENTR 3520	Impact Investing and Social Finance	
ENTR 4225	Corporate Entrepreneurship through Global Growth, Acquisitions, and Alliances	
ENTR 4512	Social Entrepreneurship and Sustainable Development in India	
FINA 4610	Entrepreneurial Finance, Innovation Valuation, and Private Equity	
MGMT 3302	Negotiating in Business	

CONCENTRATION IN FINANCE

Code	Title	Hours
Required Course		
FINA 3301 or FINA 3303	Corporate Finance Investments	4
Electives		
Complete three of the following:		12
ENTR 3520 or FINA 2720	Impact Investing and Social Finance Sustainability in the Business Environment	
FINA 3301	Corporate Finance (if not selected as a required course)	
FINA 3303	Investments (if not selected as a required course)	
FINA 4219	Portfolio Management	
FINA 4220	Behavioral Finance	
FINA 4310	Working Capital Management	
FINA 4312	Issues in Corporate Governance	
FINA 4320	International Financial Management	
FINA 4410	Valuation and Value Creation	
FINA 4412	Personal Financial Planning	
FINA 4420	Mergers and Acquisitions	
FINA 4512	Financial Risk Management	
FINA 4514	Investment Banking	
FINA 4516	Real Estate Finance	
FINA 4524	Credit Analysis	
FINA 4526	Core Topics in Alternative Investments	
FINA 4983	Special Topics in Finance	
FINA 4602	Turnaround Management	
FINA 4604	Fixed-Income Securities	
FINA 4608	Advanced Financial Strategy	
FINA 4610	Entrepreneurial Finance, Innovation Valuation, and Private Equity	

CONCENTRATION IN MANAGEMENT

Code	Title	Hours
Required Course		
MGMT 4501	Skills for Managerial Success	4
Electives		
Note: Only one non-MGMT course may be used as an elective.		
Complete three of the following:		12
MGMT 3302	Negotiating in Business	
MGMT 3315	Managing Organizational Change and Disruption	

MGMT 3330	Developing Leaders for Global Sustainability	
MGMT 3340	Managing Healthcare Organizations: Critical Challenges and New Approaches	
MGMT 3350	Managing a Diverse Workforce	
MGMT 3360	Law and the Legal Process	
MGMT 3420	Managing Human Capital	
MGMT 3510	Managing Global Teams Virtually and Locally	
MGMT 3530	Project Management	
MGMT 4310	The Management Practices of Great Organizations	
MGMT 4410	Human Resources and Workforce Analytics	
ENTR 2215	Understanding Family Enterprise	
ENTR 2414	Social Responsibility of Business in an Age of Inequality	
ENTR 4225	Corporate Entrepreneurship through Global Growth, Acquisitions, and Alliances	

CONCENTRATION IN MANAGEMENT INFORMATION SYSTEMS

Code	Title	Hours
Required Courses		
MISM 3403	Data Management in the Enterprise	4
MISM 4501	Business Systems Integration	4
Electives		
Note: Only one non-MISM course may be used as an elective.		
Complete two of the following:		8
MISM 2510	Fundamentals of Information Analytics	
MISM 3305	Information Resource Management	
MISM 3404	Data Communications	
MISM 3406	Introduction to Web Design, Practices, and Standards	
MISM 3501	Information Visualization for Business	
MISM 3515	Data Mining for Business	
MKTG 4508	Digital Marketing	
SCHM 3301	Global Supply Chain Strategy	
SCHM 3305	Sourcing and Procurement	
SCHM 3308	Supply Chain Analytics	

CONCENTRATION IN MARKETING

Code	Title	Hours
Required Courses		
MKTG 3401	Marketing Research	4
MKTG 3301 or MKTG 4506	Marketing Management Consumer Behavior	4
Electives		
Complete two of the following:		8
MKTG 2301	Marketing and Society	
MKTG 3301	Marketing Management (if not selected as a required course)	
MKTG 3501	Marketing Analytics	
MKTG 4220	Marketing in Asia	

MKTG 4420	Sales Management
MKTG 4502	Marketing in the Service Sector
MKTG 4504	Advertising and Brand Promotion
MKTG 4506	Consumer Behavior (if not selected as a required course)
MKTG 4508	Digital Marketing
MKTG 4510	New Product Development
MKTG 4512	International Marketing

CONCENTRATION IN SUPPLY CHAIN MANAGEMENT

Code	Title	Hours
Required Courses		
SCHM 3301	Global Supply Chain Strategy	4
SCHM 3305	Sourcing and Procurement	4
SCHM 3310	Logistics and Transportation Management	4
Elective		
Complete one of the following:		4
SCHM 3308	Supply Chain Analytics	
SCHM 3320	Demand Planning and Forecasting	
SCHM 3330	Sustainability and Supply Chain Management	
SCHM 4401	Advanced Problems in Supply Chain Management	

Economics and Mathematics, BS

Given the mathematical and graphical models used extensively in economics, economics and mathematics are natural partners. Our combined major with mathematics is designed for students who want to further develop their mathematics skills to enhance their understanding and interest in economics. This combined major is strongly recommended for students with an interest in pursuing graduate studies in economics.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Economics Requirements

Code	Title	Hours
Introduction to College		
ECON 1000	Economics at Northeastern	1

or MATH 1000	Mathematics at Northeastern	
Required Economics		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4

Economics Electives

Complete four economics electives with not more than two at the introductory level: 16

Introductory

ECON 1200 to ECON 1990

Intermediate/Advanced

ECON 2990 to ECON 3499

ECON 3915 Intermediate Selected Topics in Macroeconomics

ECON 3916 Intermediate Selected Topics in Microeconomics

ECON 3990 Elective

ECON 4600 to ECON 4681

ECON 4915 to ECON 4916

ECON 4965 Undergraduate Teaching Experience 1

ECON 4970 to ECON 4990

ECON 4992 Directed Study

ECON 4994 Internship

Mathematics Requirements

Code	Title	Hours
Required Mathematics		
MATH 1365	Introduction to Mathematical Reasoning	4
MATH 1341	Calculus 1 for Science and Engineering	4
MATH 1342	Calculus 2 for Science and Engineering	4
MATH 2321	Calculus 3 for Science and Engineering	4
MATH 2341	Differential Equations and Linear Algebra for Engineering	4
MATH 2331	Linear Algebra	4
MATH 3081	Probability and Statistics	4

Mathematics Electives

Complete two courses in the following range: 8

MATH 3001 to MATH 4999

The following courses are recommended:

MATH 3150 Real Analysis

MATH 4581 Statistics and Stochastic Processes

Breadth Course

Code	Title	Hours
Computer Science		
CS 1100	Computer Science and Its Applications	4

Integrative Requirements

Code	Title	Hours
Advanced Writing in the Disciplines		
ENGW 3308	Advanced Writing in the Social Sciences	4

Integrative Course

Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
MATH 4025	Applied Mathematics Capstone	
MATH 5131	Introduction to Mathematical Methods and Modeling	

Combined-Major GPA/Credit Requirement

Code	Title	Hours
A GPA of 2.000 is required in the following six courses with no grade lower than C-		
ECON 1115	Principles of Macroeconomics	
ECON 1116	Principles of Microeconomics	
ECON 2315	Macroeconomic Theory	
ECON 2316	Microeconomic Theory	
ECON 2560	Applied Econometrics	
MATH 3081	Probability and Statistics	

A cumulative GPA of 2.000 is required in all math courses.
 A grade of C or higher is required in all math courses numbered MATH 2999 or below; grades below C will not count toward the degree.
 Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Economics and Philosophy, BS

Both philosophy and economics are the disciplines of critical thinking—thinking in concrete and abstract terms to help put the world in perspective. The combined economics and philosophy major provides students with training to critically evaluate and assess policies and issues on both economic and ethical grounds, including issues such as globalization, immigration, environmental protections, the minimum wage, a fair and just tax, just working environments, and many more.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Economics Requirements

Code	Title	Hours
Introduction to College		
Complete one of the following:		1

ECON 1000	Economics at Northeastern
PHIL 1000	Philosophy at Northeastern

Required Economics Courses

Grades in the following must average a minimum of 2.000:

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3520	History of Economic Thought	4
MATH 1231	Calculus for Business and Economics	4

Economics Electives

Complete two economics electives with not more than one below the 3000 level. 8

Philosophy Requirements

Code	Title	Hours
Philosophy Required Courses		
PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
PHIL 2330	Modern Philosophy	4

Advanced Philosophy Elective

Complete one of the following:		4
PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4390	Cults and Sects	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	
PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	

Additional Electives

Complete three additional electives in philosophy or religion. At least one must be numbered 2000 or above. 12

Integrative Requirements

Code	Title	Hours
Complete two of the following that have not been used in above requirements:		8
PHIL 3435	Moral Philosophy	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4550	Philosophy of Economics	
PHIL 5001	Global Justice	

PHIL 4992	Directed Study
ECON 4992	Directed Study

Major Credit Requirement

Complete 80 semester hours in the major.

Program Requirement

128 total semester hours required

Environmental Studies and Economics, BS

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, political, and economic aspects of the world's environmental problems and potential solutions.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Introduction to College

Code	Title	Hours
ECON 1000	Economics at Northeastern	1
or ENVR 1000	Marine and Environmental Sciences at Northeastern	

Economics Requirements

Code	Title	Hours
Calculus		
MATH 1231	Calculus for Business and Economics	4
Computer Science		
CS 1100	Computer Science and Its Applications	4
Required Economics Courses		
A minimum GPA of 2.000 is required:		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3423	Environmental Economics	4
Economics Electives		

No more than one course may be at the introductory level (course number 1000–1999).

Complete two of the following:		7-8
ECON 1290	History of the Global Economy	
ECON 1291	Development Economics	
ECON 3404	International Food Economics and Policy	
ECON 3420	Urban Economic Issues	
ECON 3422	Economics of Transportation	
ECON 3424	Law and Economics	
ECON 3425	Energy Economics	
ECON 3440	Public Finance	
ECON 4635	International Economics	
PPUA 5260	Ecological Economics	

Environmental Studies Requirements

Code	Title	Hours
Social Science Component		
PHIL 1180	Environmental Ethics	4
POLS 1150	American Government	4
and POLS 1151	and Recitation for POLS 1150	
POLS 2395	Environmental Politics and Policy	4
SOCL 1246	Environment and Society	4
Science Component		
ENVR 1101	Environmental Science	4
ENVR 1112	Environmental Geology	4
or ENVR 1200	Dynamic Earth	
ENVR 1445		4
ENVR 3300	Geographic Information Systems	5
and ENVR 3301	and Lab for ENVR 3300	
GPA Requirement		
Students are required to earn a GPA of 2.000 in either PHIL 1180 or PHIL 3480 and in ENVR 1101.		
Environmental Science Elective		
Complete one environmental science elective in consultation with the environmental studies head advisor.		

Integrative Requirements

Code	Title	Hours
Advanced Writing in the Disciplines		
ENGW 3308	Advanced Writing in the Social Sciences	4
Integrative Course		
Note: Your integrative course and your capstone course (below) must be from different departments.		
Complete one of the following:		4
ECON 4692	Senior Economics Seminar	
ENVR 5210	Environmental Planning	
ENVR 5250	Geology and Land-Use Planning	
Capstone		
Note: Your integrative course (above) and your capstone course must be from different departments.		
ECON 4692	Senior Economics Seminar	4
or ENVR 4997	Senior Thesis	
or ENVS 4997	Senior Thesis	

Experiential Learning Requirement

Code	Title	Hours
Complete one of the following:		4
COOP 3945	Co-op Work Experience	
ECON 4992	Directed Study	
ENVR 4992	Directed Study	
ECON 4970	Junior/Senior Honors Project 1	
ENVR 4970	Junior/Senior Honors Project 1	

Major Credit Requirement

Complete 84 semester hours in the major.

Program Requirement

128 total semester hours required

Economics, Minor

The minor in economics is flexible enough to be a complement to a student's major field of study. There are six courses needed to complete the minor: three courses in the areas of macro- and microeconomics and three electives that may be chosen to support many different majors.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Calculus 1

Code	Title	Hours
If calculus is not required by your major, complete one of the following courses:		4
MATH 1231	Calculus for Business and Economics (preferred)	
MATH 1241	Calculus 1	
MATH 1251	Calculus and Differential Equations for Biology 1	
MATH 1242	Calculus 2	
MATH 1340	Intensive Calculus for Engineers	
MATH 1341	Calculus 1 for Science and Engineering	
MATH 1252	Calculus and Differential Equations for Biology 2	

Required Courses

Students in the macroeconomics track should complete Macroeconomic Theory (ECON 2315); students in the microeconomics track should complete Microeconomic Theory (ECON 2316):

Code	Title	Hours
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
or ECON 2316	Microeconomic Theory	

Elective Courses

Code	Title	Hours
Complete three of the following courses with no more than one at the introductory level:		12
Introductory		

ECON 1200 to ECON 1990

Intermediate	
ECON 2990 to ECON 3499	
ECON 2560	Applied Econometrics
ECON 3915	Intermediate Selected Topics in Macroeconomics
ECON 3916	Intermediate Selected Topics in Microeconomics

Advanced

ECON 3520	History of Economic Thought
ECON 3990	Elective
ECON 4600 to ECON 4699	
ECON 4915	Advanced Selected Topics in Macroeconomics
ECON 4916	Advanced Selected Topics in Microeconomics
ECON 4970 to ECON 4990	
ECON 4992	Directed Study

GPA Requirement

2.000 GPA required in the minor

English

Website (<http://www.northeastern.edu/english>)

Chair

Professor Elizabeth Maddock Dillon, PhD

405 Lake Hall
617.373.4540
617.373.2509 (fax)

Undergraduate Program Director Professor Kathleen K. Kelly, k.kelly@northeastern.edu

Linda P. Collins, Administrative Specialist, li.collins@northeastern.edu

Students in the English major study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures. They analyze writing practices and related media from the Middle Ages through the present, from the quill pen to code. They practice a variety of theoretical and methodological approaches to the study of language, rhetoric, writing, and literature.

Students of English develop capacities for reading, analysis, and expression that are in great demand in the workplace and in graduate study, including the ability to interpret and evaluate a variety of texts, to evaluate and produce arguments, and to engage diverse audiences. The major and minors are particularly suitable for students preparing for graduate school or careers in any field that demands analytical ability and well-honed writing skills. For profiles of current students and recent alumni, see the English department (<http://www.northeastern.edu/csssh/english>) website.

The English department at Northeastern engages students in the experiential liberal arts across four areas: critical literary studies; digital humanities; writing, rhetoric, and publication; and archival studies and histories of the book. The Department of English offers a major and three minors, as well as many combined majors.

Our minors offer concise engagements with several areas of English studies:

- English—introduces the materials and methods of the field as a whole
- Rhetoric—draws on courses in communication studies as well as English
- Writing—encourages students to develop expertise in creative, professional, and public writing, as well as rhetorical theory

Academic Progression Standards

Same as university-wide standards described under “Academic Status (p. 31).”

Preapproved Template Program in English

The Department of English offers a preapproved template program that may be paired with another preapproved template program to create a combined major.

Students may request admission to such a combined major via the appropriate form, which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see your advisor.

PlusOne Program (MA) in English

English majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master’s degree in English. Students interested in this option should consult with the undergraduate program director in English by the end of the sophomore year.

Programs

Bachelor of Arts (BA)

- English (p. 695)
- English and Communication Studies (p. 127)
- English and Cultural Anthropology (p. 703)
- English and Graphic and Information Design (p. 89)
- English and Philosophy (p. 708)
- English and Theatre (p. 212)
- History and English (p. 712)
- Journalism and English (p. 164)
- Linguistics and English (p. 512)
- Media and Screen Studies and English (p. 134)

Bachelor of Science (BS)

- Architecture and English (p. 55)
- Biology and English (p. 488)
- Computer Science and English (p. 314)

Minor

- English (p. 727)
- Rhetoric (p. 727)
- Writing (p. 728)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

English, BA

Students in the English major study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone

literatures. They analyze writing practices and related media from the Middle Ages through the present, from the quill pen to code. They practice a variety of theoretical and methodological approaches to the study of language, rhetoric, writing, and literature.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

English Major Requirements

Code	Title	Hours
Foundation Courses		
ENGL 1000	English at Northeastern	1
ENGL 1400	Introduction to Literary Studies	4

ENGL 3378	Fiction Workshop
ENGL 3380	Topics in Writing
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

Capstone

ENGL 4710	Capstone Seminar
or ENGL 4720	Capstone Project

Diversity

Complete one of the following courses, which can also count toward another requirement in the major: 4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
ENGL 2450	Postcolonial Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	Multiethnic Literatures of the U.S.
ENGL 2470	Asian-American Literature
ENGL 2760	Writing in Global Contexts
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature

ENGL 3678 Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

ENGL 3685 Modern and Contemporary Jewish Literature
or JWSS 3685 Modern and Contemporary Jewish Literature

Electives

Complete any two ENGL courses, except for First-Year Writing and Advanced Writing in the Disciplines, that has not already been used to fulfill another requirement. The following courses may also be used as electives:

LING 1150 Introduction to Language and Linguistics

LING 2350 Linguistic Analysis

LING 3450 Syntax

LING 3452 Semantics

LING 3454 History of English

LING 3456 Language and Gender

LING 3458 Topics in Linguistics

Experiential Learning Requirement

Complete one course in experiential learning from the list below or any Dialogues of Civilization experience. (Other study-abroad programs may not be used.) This course can also count toward another requirement in the major.

Code	Title	Hours
Experiential Learning Course Work		
ENGL 2690	Boston in Literature	4
ENGL 2740	Writing and Community Engagement	4
ENGL 3340	Technologies of Text	4
ENGL 3370	Writing Cultures	4
ENGL 3375	Writing Boston	4
ENGL 3381	The Practice and Theory of Teaching Writing	4
ENGL 3382	Publishing in the 21st Century	4
ENGL 4400	Opening the Archive	4

Dialogues of Civilization

Complete one Dialogues of Civilization experience, including but not limited to those offered by the department. (Other study-abroad programs may not be used.)

ENGL 2600	Irish Literary Culture (Abroad)	4
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	4
ENGL 2620	What Is Nature? (Abroad)	4
ENGL 3487	Film and Text (Abroad)	4

English Major Credit Requirement

Complete 56 semester hours in the major.

Program Requirement

128 total semester hours required

Plan of Study

Computer Science and English, BS

The computer science and English combined major focuses on the increasingly interdisciplinary processes of creating, interpreting, and analyzing texts and programs. Students will combine communication and critical judgment, gaining the creativity and adaptability necessary to utilize technology in literary studies, and apply humanities skills to solve programming problems.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1
Computer Science Fundamental Courses		
A grade of C– or higher is required in computer science fundamental courses.		
CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
Computer Science Required Courses		
CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4

Computing Focus

Students are required to complete one of the following foci (two courses total): 8

<i>Focus 1: Natural Language Processing</i>	
CS 3800	Theory of Computation
CS 4120	Natural Language Processing
<i>Focus 2: Programming Languages</i>	
CS 3800	Theory of Computation
CS 4400	Programming Languages
<i>Focus 3: Analytics</i>	
DS 4100	Data Collection, Integration, and Analysis
DS 4200	Information Presentation and Visualization

Presentation Requirement		
THTR 1170	The Eloquent Presenter	1
Computer Science/Information Science Elective Course		
IS 2000	Principles of Information Science	4
or CS 4500	Software Development	
Computer Science Elective Courses		
With advisor approval, a directed study, project study, or appropriate graduate-level course may also be taken as an upper-division elective.		
Complete 4 credits of CS, IS, or DS classes that are not already required. Choose courses within the following ranges:		4
CS 2500 or higher, except CS 5010		
IS 2000 or higher, except IS 4900		
DS 2000 or higher, except DS 4900		

English Requirements

Code	Title	Hours
English Course-Level Requirement		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
Introduction to College		
ENGL 1000	English at Northeastern	1
Foundational Courses		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Writing Studies	
Diversity		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2450	Postcolonial Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460	Multiethnic Literatures of the U.S.	
ENGL 2470	Asian-American Literature	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African-American Novel	
ENGL 3676	Representing Gender and Sexuality in Literature	

ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
-----------	---

ENGL/JWSS 3685 Modern and Contemporary Jewish Literature

Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
ENGL 1700	Global Literature to 1500
ENGL 2240	17th-Century British Literature
ENGL 2296	Early African-American Literature
ENGL 3618	Milton
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL 4000	Topics in Early Literatures
ENGL 4010	Topics in Shakespeare
ENGL 4020	Topics in 17th- and 18th-Century Literatures

Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2260	Romantic Poetry
ENGL 2330	The American Renaissance
ENGL 2340	American Realism
ENGL 3619	Emerson and Thoreau
ENGL 3720	19th-Century Major Figure
ENGL 4040	Topics in 19th-Century Literatures
ENGL 2301	The Graphic Novel
ENGL 2410	Contemporary American Literature
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3730	20th- and 21st-Century Major Figure

Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Writing Studies
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text
ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3700	Narrative Medicine
ENGL 4100	Topics in Literary Criticism
ENGL 4400	Opening the Archive
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax

LING 3452 Semantics

LING 3454 History of English

LING 3456 Language and Gender

LING 3458 Topics in Linguistics

Comparative Literature

Complete one of the following: 4

ENGL 1120	Trouble in Utopia
ENGL 1130	Animals, Objects, Humans
ENGL 1450	Reading and Writing in the Digital Age
ENGL 1500	British Literature to 1800
ENGL 1502	American Literature to 1865
ENGL 1503	American Literature 1865 to Present
ENGL 2150	Literature and Digital Diversity
ENGL 2370	The Modern Short Story
ENGL 2380	The Modern Novel
ENGL 2400	Modern Poetry
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2450	Postcolonial Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	Multiethnic Literatures of the U.S.
ENGL 2470	Asian-American Literature
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature? (Abroad)
ENGL 2690	Boston in Literature
ENGL 3427	The Literature of Science
ENGL 3487	Film and Text (Abroad)
ENGL 3582	Children's Literature
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature
ENGL 4070	Topics in Genre

Writing

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2730	Digital Writing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal
ENGL 2780	Visual Writing: Writing Visuals
ENGL 2850	Writing for Social Media: Theory and Practice
ENGL 3375	Writing Boston
ENGL 3376	Creative Nonfiction
ENGL 3377	Poetry Workshop
ENGL 3378	Fiction Workshop
ENGL 3380	Topics in Writing
ENGL 3382	Publishing in the 21st Century
ENGL 3384	The Writer's Marketplace

Capstone

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	
English Electives		
Complete two additional ENGL electives.		8

Integrative Course Requirement

This course will not be allowed to double-count in the Theories and Methods section above.

Code	Title	Hours
ENGL 3340	Technologies of Text	4

Supporting Course

Code	Title	Hours
Complete one of the following:		4
SOCL 4528	Computers and Society	
SOCL 3485	Environment, Technology, and Society	
SOCL 1280	The 21st-Century Workplace	
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
PHIL 1145	Technology and Human Values	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	

Computer Science Writing Requirement

Program Requirement

128 total semester hours required

English and Cultural Anthropology, BA

The English department and the sociology/anthropology department offer an interdisciplinary combined major in English and cultural anthropology. Broadly speaking, students in the combined major in English and cultural anthropology at Northeastern integrate the study of literature, language, and writing with the study of human culture and its intersections with structures of inequality (e.g., race, class, and gender) and contemporary global issues.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

English Requirements

Code	Title	Hours
English Course-Level Requirement		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
Introduction to College		
ENGL 1000	English at Northeastern	1
Foundational Courses		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Writing Studies	
Diversity		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	
ENGL 2296	Early African-American Literature	
ENGL 2450	Postcolonial Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460	Multiethnic Literatures of the U.S.	
ENGL 2470	Asian-American Literature	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African-American Novel	
ENGL 3676	Representing Gender and Sexuality in Literature	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	
Pre-Nineteenth-Century Literature		
Complete one of the following:		4
ENGL 1600	Introduction to Shakespeare	
ENGL 1700	Global Literature to 1500	
ENGL 2240	17th-Century British Literature	
ENGL 2296	Early African-American Literature	
ENGL 3618	Milton	
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 4000	Topics in Early Literatures	
ENGL 4010	Topics in Shakespeare	
ENGL 4020	Topics in 17th- and 18th-Century Literatures	
Nineteenth-, Twentieth-, and Twenty-First-Century Literature		
Complete one of the following:		4
ENGL 2260	Romantic Poetry	
ENGL 2330	The American Renaissance	
ENGL 2340	American Realism	
ENGL 3619	Emerson and Thoreau	
ENGL 3720	19th-Century Major Figure	

ENGL 4040	Topics in 19th-Century Literatures	
ENGL 2301	The Graphic Novel	
ENGL 2410	Contemporary American Literature	
ENGL 2440	The Modern Bestseller	
ENGL 2600	Irish Literary Culture (Abroad)	
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	
ENGL 3730	20th- and 21st-Century Major Figure	
Theories and Methods		
Complete one of the following:		4
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Writing Studies	
ENGL 2150	Literature and Digital Diversity	
ENGL 3325	Rhetoric of Law	
ENGL 3340	Technologies of Text	
ENGL 3370	Writing Cultures	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 3700	Narrative Medicine	
ENGL 4100	Topics in Literary Criticism	
ENGL 4400	Opening the Archive	
ENGL 4410	Research in Rhetoric and Writing	
LING 1150	Introduction to Language and Linguistics	
LING 2350	Linguistic Analysis	
LING 3450	Syntax	
LING 3452	Semantics	
LING 3454	History of English	
LING 3456	Language and Gender	
LING 3458	Topics in Linguistics	
Comparative Literature		
Complete one of the following:		4
ENGL 1120	Trouble in Utopia	
ENGL 1130	Animals, Objects, Humans	
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 1500	British Literature to 1800	
ENGL 1502	American Literature to 1865	
ENGL 1503	American Literature 1865 to Present	
ENGL 2150	Literature and Digital Diversity	
ENGL 2370	The Modern Short Story	
ENGL 2380	The Modern Novel	
ENGL 2400	Modern Poetry	
ENGL 2420	Contemporary Poetry	
ENGL 2430	Contemporary Fiction	
ENGL 2450	Postcolonial Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460	Multiethnic Literatures of the U.S.	
ENGL 2470	Asian-American Literature	
ENGL 2510	Horror Fiction	
ENGL 2520	Science Fiction	

ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature? (Abroad)
ENGL 2690	Boston in Literature
ENGL 3427	The Literature of Science
ENGL 3487	Film and Text (Abroad)
ENGL 3582	Children's Literature
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature
ENGL 4070	Topics in Genre

Writing

Complete one of the following:		4
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2730	Digital Writing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts	
ENGL 2770	Writing to Heal	
ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Topics in Writing	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	

Capstone

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

English Electives

Complete two additional ENGL electives.		8
---	--	---

Cultural Anthropology Requirements

Code	Title	Hours
Foundation Courses		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4

Area Courses

Additional "area courses" taken may count as anthropology electives.

Complete two of the following:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

Capstone

Students are expected to complete the following course in spring of their senior year:

ANTH 4600	Senior Seminar	4
-----------	----------------	---

Anthropology Electives

Complete three 4-semester-hour courses in addition to the above requirements. One study-abroad course may also count toward this requirement with prior permission from the department.	12
---	----

Integrative Requirements

Code	Title	Hours
One integrative course is required for each discipline. Courses taken as electives above may not be used as integrative courses.		

English Integrative Course

Complete one of the following:		4
ENGL 2450	Postcolonial Literature	
ENGL 2470	Asian-American Literature	

Cultural Anthropology Integrative Courses

Complete one of the following:		4
ANTH 2300	Reading Culture through Ethnography	
ANTH 3421	Foundations of Anthropological Theory	

Cultural Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

English and Cultural Anthropology Combined-Major Credit Requirement

Complete 88 semester hours in the major.

Program Requirement

128 total semester hours required

English and Graphic and Information Design, BA

The Department of English and the Department of Art + Design offer an interdisciplinary combined major in English and graphic and information design. Students interested in the combined major in English and graphic and information design integrate the study of literature and writing with the design of message and meaning, integrating text, image, and data.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

English and Theatre, BA

The Department of English and the Department of Theatre offer an interdisciplinary combined major that integrates performance, design, production, and dramatic literature with literary studies, digital humanities, and creative writing. This combined major offers both classroom and experiential learning in making theatre, playwriting, and dramaturgy with the study of the diverse historical, cultural, and aesthetic

contexts of diverse English and American literatures. Students develop the capacity for interpreting a variety of texts through performance and writing to engage diverse audiences.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

90 semester hours required in the major

Program Requirement

128 total semester hours required

History and English, BA

The English department and the history department offer an interdisciplinary combined major in English and history. Students interested in the combined major in English and history integrate the study of literature and writing with the study and analysis of human history.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

Code	Title	Hours
History Colloquium		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
Introductory Level		
Complete one course from the 1000 level.		4
History Seminar and Historical Writing		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
Pre-1800 History Elective		
Complete one of the following:		4
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture

Journalism and English, BA

The School of Journalism and the English Department offer an interdisciplinary combined major in Journalism and English. Broadly speaking, students in the Combined Major in Journalism and English at Northeastern integrate the study of journalism with the study of language, literature and writing.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

NUPath requirements Creative Expression/Innovation (EI), Societies and Institutions (SI), and Difference and Diversity (DD) are met through the major course requirements.

NUPath requirements Interpreting Culture (IC), Analyzing and Using Data (AD), and Ethical Reasoning (ER) may be met through electives in the major.

NUPath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

Journalism Major Requirements

Code	Title	Hours
Journalism Introductory Course

Linguistics and English, BA

In the combined major in linguistics and English, students learn about the structures and analysis of human languages across multiple levels (sounds, words, phrases and sentences, meaning) and apply this knowledge to understanding how the English language works, its rhetorical forms, how it has changed over time, and its cultural context. Students hone their writing skills, develop substantial language-analysis skills, and apply them particularly to English.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Linguistics Requirements

PSYC 4660	Seminar in Cognition
PSYC 4674	Seminar in Cognitive Neuroscience

English Requirements

Code	Title	Hours
------	-------	-------

English Course-Level Requirement

In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.

Introduction to College

ENGL 1000	English at Northeastern	1
-----------	-------------------------	---

Foundational Courses

ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Writing Studies	

Diversity

Complete one of the following courses. This course may also be used to fulfill an additional English requirement below.

ENGL 2150	Literature and Digital Diversity	4
ENGL 2296	Early African-American Literature	
ENGL 2450	Postcolonial Literature	
ENGL 2451	Postcolonial Women Writers	
ENGL 2455	American Women Writers	
ENGL 2460	Multiethnic Literatures of the U.S.	
ENGL 2470	Asian-American Literature	
ENGL 2760	Writing in Global Contexts	
ENGL 3663	The African-American Novel	
ENGL 3676	Representing Gender and Sexuality in Literature	
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature	

Pre-Nineteenth-Century Literature

Complete one of the following:

ENGL 1600	Introduction to Shakespeare	4
ENGL 1700	Global Literature to 1500	
ENGL 2240	17th-Century British Literature	
ENGL 2296	Early African-American Literature	
ENGL 3618	Milton	
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity	
ENGL 4000	Topics in Early Literatures	
ENGL 4010	Topics in Shakespeare	
ENGL 4020	Topics in 17th- and 18th-Century Literatures	

Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following:

ENGL 2260	Romantic Poetry	4
ENGL 2330	The American Renaissance	
ENGL 2340	American Realism	
ENGL 3619	Emerson and Thoreau	
ENGL 3720	19th-Century Major Figure	
ENGL 4040	Topics in 19th-Century Literatures	
ENGL 2301	The Graphic Novel	
ENGL 2410	Contemporary American Literature	
ENGL 2440	The Modern Bestseller

Media and Screen Studies and English, BA

The media and screen studies program and the Department of English offer a combined major in media and screen studies and English. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures. Majors become familiar with writing practices and media from the Middle Ages through the present, from the quill pen to computer code.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

NUPath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUPath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUPath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

Media and Screen Studies Requirements

Code	Title	Hours
Introduction to College		
MSCR 1000	Media and Screen Studies at Northeastern	1

Program Requirement

128 total semester hours required

Biology and English, BS

In the BS, combined biology and English degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In English courses, students study the diverse historical, cultural, and aesthetic contexts of English, American, and other Anglophone literatures; analyze writing practices and related media; and practice a variety of approaches to the study of language, rhetoric, writing, and literature. The fields of biology and English are bridged with course work in different forms of science writing, as well as psychology and sociology courses exploring the acquisition of language and reading; the sociology of health and illness; and the environment, technology, and society.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

PSYC 2290 to PSYC 5999		

English Requirements

Code	Title	Hours
English Course-Level Requirement		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
Introduction to College		
ENGL 1000	English at Northeastern	1
Foundational Courses		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160 or ENGL 1410	Introduction to Rhetoric Introduction to Writing Studies	4
Diversity		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4
ENGL 2150	Literature and Digital Diversity	

ENGL 2296	Early African-American Literature
ENGL 2450	Postcolonial Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	Multiethnic Literatures of the U.S.
ENGL 2470	Asian-American Literature
ENGL 2760	Writing in Global Contexts
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature

Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
ENGL 1700	Global Literature to 1500
ENGL 2240	17th-Century British Literature
ENGL 2296	Early African-American Literature
ENGL 3618	Milton
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL 4000	Topics in Early Literatures
ENGL 4010	Topics in Shakespeare
ENGL 4020	Topics in 17th- and 18th-Century Literatures

Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2260	Romantic Poetry
ENGL 2330	The American Renaissance
ENGL 2340	American Realism
ENGL 3619	Emerson and Thoreau
ENGL 3720	19th-Century Major Figure
ENGL 4040	Topics in 19th-Century Literatures
ENGL 2301	The Graphic Novel
ENGL 2410	Contemporary American Literature
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)

Biology and English Combined-Major GPA Requirement

Minimum 2.000 GPA required in all BIOL courses
Minimum 2.000 GPA required in all ENGL courses

Program Requirement

128 total semester hours required

English, Minor

The English minor offers students the opportunity to complement their major area with focused course work in any of the broad areas of English studies, such as writing practices, language, rhetoric, and literature.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Three of the four total courses must be taken at Northeastern.

Note: Courses taken to fulfill the first-year writing requirement and the Advanced Writing in the Disciplines requirements do not count toward this minor. A total of 16 semester hours is required for the English minor.

Requirements

Code	Title	Hours
Introductory Course		
Complete one course in the following range:		4
ENGL 1001 to ENGL 1999		
Electives		
Complete three ENGL courses, two of which must be in the range ENGL 2000 to ENGL 4999.		12

GPA Requirement

2.000 GPA required in the minor

Rhetoric, Minor

In the interdisciplinary rhetoric minor, students take courses in both English and communication studies to explore the ways that symbols work to influence thought and action. The minor gives students a foundation in the classical tradition, which developed rhetoric as the art of speaking necessary for participation in democratic societies in a range of forums such as political assemblies, law courts, and public ceremonies. Students also consider contemporary theories and practices that broaden rhetoric's scope to include any form of human discourse that persuades others, creates knowledge, or shapes identity and culture

Minor Requirements

Complete all courses listed below unless otherwise indicated. Three of the four total classes must be taken at Northeastern.

Note: For communication studies students, only two courses from this minor also count toward communication studies major requirements. Additional courses taken for this minor do not count toward communication studies major requirements.

Required Elective

Code	Title	Hours
ENGL 1160	Introduction to Rhetoric	4
or COMM 1210	Persuasion and Rhetoric	

Electives

Code	Title	Hours
<i>Note:</i> For English majors, only one course from the major may also count toward this elective section of the minor.		
Complete four of the following:		16
COMM 1331	Legal Argumentation, Advocacy, and Citizenship	
COMM 3414	Great Speakers and Speeches 2, 1930–Present	
COMM 3415	Communication Criticism	
COMM 3501	Free Speech: Law and Practice	
COMM 4602	Contemporary Rhetorical Theory	
ENGL 3325	Rhetoric of Law	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 4410	Research in Rhetoric and Writing	

GPA Requirement

2.000 GPA required in the minor

Writing, Minor

Students in the writing minor integrate theory with writing practice. Courses on writing for social media, writing in global contexts, and writing in a variety of creative genres provide students with opportunities to explore writing in diverse contexts.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Three of the four total classes must be taken at Northeastern.

Writing Theories and Methods

Code	Title	Hours
Complete one of the following:		4
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Writing Studies	
ENGL 3325	Rhetoric of Law	
ENGL 3381	The Practice and Theory of Teaching Writing	
ENGL 4410	Research in Rhetoric and Writing	

Writing Electives

Code	Title	Hours
Complete three of the following:		12
ENGL 1140	Grammar: The Architecture of English	
ENGL 1160	Introduction to Rhetoric	
ENGL 1410	Introduction to Writing Studies	
ENGL 1450	Reading and Writing in the Digital Age	
ENGL 2301	The Graphic Novel	
ENGL 2700	Creative Writing	
ENGL 2710	Style and Editing	
ENGL 2730	Digital Writing	
ENGL 2740	Writing and Community Engagement	
ENGL 2760	Writing in Global Contexts

617.373.2661 (fax)
Kirsten Bilas, Administrative Assistant, k.bilas@northeastern.edu

History at Northeastern emphasizes the study of local and regional histories as well as of the global exchanges between nations, regions, and cultures. Knowledge of the past is also about building the future. In a world marked by increasing exchange between peoples, cultures, and societies, history is key to understanding contemporary issues such as the future of democracy, the nature of citizenship and rights, the origins and conduct of war, the foundations of racial and ethnic conflict and tolerance, and poverty and prosperity. At the same time, history teaches crucial skills in analytical thinking, research processes, writing, oral expression, and multimedia presentation.

History majors take three core seminars on historical research and choose from a broad range of courses in historical themes, periods, and regions. Students focus their studies by establishing a cluster of four courses in a particular geographical area, time period, or theme. The program emphasizes undergraduate research in the major and trains students to conduct research in archives and primary sources and to write research papers. Honors study is strongly encouraged for eligible students, and students are encouraged to take advantage of numerous options for study abroad. Advanced undergraduates have the opportunity to participate in individual directed study with members of the faculty on topics of mutual interest.

Cooperative education placements, fieldwork, internships, and other experiential learning activities are also available. History majors have worked on co-op in law firms, an art auction house, the State Department, the Massachusetts State House, Newton Public Schools, and the Massachusetts State Archives, among many other institutions.

Undergraduates who plan to teach in public schools may combine history with education courses that can lead to state certification in Massachusetts. History students are also encouraged to take Dialogue of Civilizations courses that engage students in short-term study abroad during the summer.

The Department of History offers a broad-based Bachelor of Arts major and two Bachelor of Science options. One BS option emphasizes training in disciplines outside history. It includes the study of research methods and a minor in fields such as English; economics; political science; sociology; cinema studies; East Asian studies; or women's, gender, and sexuality studies. The other BS option seeks to prepare students for public history fields such as museum administration, archival management, or historic preservation. The Department of History participates in numerous interdisciplinary programs, including East Asian studies; cinema studies; environmental studies; international affairs; Jewish studies; Latino/a, Latin American, and Caribbean studies; and women's, gender, and sexuality studies.

The Department of History offers qualified undergraduates the opportunity to pursue a BA/MA or BS/MA degree in five years, with the

approval of the department. Students with a minimum 3.330 cumulative grade-point average (GPA) and minimum 3.500 GPA in required history courses may apply for admission to the PlusOne BA/MA or BS/MA program in history.

Academic Progression Standards

Same as university-wide standards described under “Academic Status (p. 31).”

Preapproved Template Program in History

The Department of History offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit the combined majors webpage (<http://www.northeastern.edu/registrar/major-2.html>).

Students may request admission to such a combined major via the Combined Major Approval form (<http://www.northeastern.edu/registrar/form-maj-comb.pdf>), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see “Student-Requested Combined Major (p. 33).” For template program requirements, visit the myNortheastern web portal (<http://www.mynneu.neu.edu>), click on the “Self-Service” tab, then on “My Degree Audit.”

PlusOne Program (MA) in History

History majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master’s degree in history. Students interested in this option should consult with the departmental advisor, Marty Blatt (m.blatt@northeastern.edu), by the end of the sophomore year.

Programs

Bachelor of Arts (BA)

- History (p. 729)
- History and Asian Studies (p. 632)
- History and Cultural Anthropology (p. 734)

- Computer Science and History (p. 322)

Minor

- History (p. 750)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

History, BA

The Bachelor of Arts (BA) is a broadly based liberal arts degree in history. Students who pursue the BA degree must satisfy general requirements and take courses to satisfy Northeastern’s university-wide core curriculum (NuPath), in addition to required and elective history courses. These requirements help students develop their historical

knowledge and skills within the contexts of the arts, humanities, social sciences, and sciences that together comprise the disciplinary sources of historical knowledge. They enable historical understanding to be culturally and linguistically sensitive to the subjects of historical inquiry.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Major Requirements

Code	Title	Hours
Introductory History		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4

WMNS 1103	Introduction to Women’s, Gender, and Sexuality Studies	
History Seminar and Historical Writing		
HIST 2301 and HIST 2302	The History Seminar and Historical Writing	5

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range.

Additional History Requirements

Code	Title	Hours
Pre-1800 Course		
This course may count toward the history cluster or history elective.		
Complete one of the following:		4
HIST 2390	Africa and the World in Early Times	
HIST 1252	Japanese Literature and Culture	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1270	Ancient Greece	
HIST 1271	Ancient Rome	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
HIST 2370	Renaissance to Enlightenment	
HIST 2375	The Tudors, the Stuarts, and the Birth of Modern Britain	
History Outside the United States and Europe		
Complete one of the following:		4
HIST 1150	East Asian Studies	
HIST 1180	African History	
HIST 1185	Introduction to Middle Eastern History	
HIST 1187	Introduction to Latin American History	
HIST 1206	Drug Trade and Drug War: History, Security, Culture	
HIST 1246	World War II in the Pacific	
HIST 1252	Japanese Literature and Culture	
HIST 1253	History of Vietnam Wars	
HIST 1290	Modern Middle East	
HIST 1500	Modern Chinese History and Culture	
HIST 2211	The World Since 1945	
HIST 2214	War in the Modern World	
HIST 2311	Colonialism/Imperialism	
HIST 2351	Modern Japan	
HIST 2390	Africa and the World in Early Times	
HIST 4691	Topics in Middle Eastern History	
Capstone or Project		
Complete one of the following:		4
HIST 4701	Capstone Seminar	

Intermediate/Advanced History Course Requirement

A minimum of three courses from the above requirements must be numbered 2303 or higher. These courses may count toward the history cluster.

Experiential Learning Requirement

The History Seminar (HIST 2301) fulfills the university’s experiential learning requirement.

History Major Credit Requirement

Complete 46 semester hours in the major.

Program Requirements

128 total semester hours required

Environmental Studies and History, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems through historical perspectives and backgrounds.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Environmental Studies Requirements

Code	Title	Hours
Science Requirements		
ENVR 1101	Environmental Science	4
ENVR 1202 and ENVR 1203	History of Earth and Life and Interpreting Earth History	5
ENVR 1445		4

History and Asian Studies, BA

History and Asian studies offers an interdisciplinary combined major. Students interested in the combined major in history and Asian studies integrate the exploration of human history with the rigorous study of Asian cultures, societies, languages, and economies.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

Code	Title	Hours
History Colloquium		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
Introductory Level		
Choose one course from the 1000 level except HIST 1215, which is required by Asian studies.		4
History Seminar and Historical Writing		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

Pre-1800 History Elective

Choose one course from the following: 4

HIST 2390	Africa and the World in Early Times
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804
HIST 1252	Japanese Literature and Culture
HIST 1270	Ancient Greece
HIST 1271	Ancient Rome
HIST 1285	Introduction to Russian Civilization
HIST 2330	Colonial and Revolutionary America

Advanced History

Complete one history course 3000 level or above 4

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range. These courses may double-count in the requirements above (except History Colloquium).

Asian Studies Requirements

Code	Title	Hours
Required Courses		
ASNS 1150	East Asian Studies	4
HIST 1215	Origins of Today: Historical Roots of Contemporary Issues	4
Asia in Global Context		
Complete one of the following:		4
ECON 1290	History of the Global Economy	
ENGL 2450	Postcolonial Literature	
INTL 2240	Global Population and Development	
POLS 3487	Politics of Developing Nations	
Complete a professional or academic experience abroad in consultation with your advisor.		

Language and Elective Requirements

Code	Title	Hours
Language Courses		
Complete the following courses in either Chinese or Japanese:		16
<i>Chinese</i>		
Select one of the following:		
CHNS 1101	Elementary Chinese 1	
CHNS 1301	Elementary Chinese Immersion 1	
Select one of the following:		
CHNS 1102	Elementary Chinese 2	
CHNS 1302	Elementary Chinese Immersion 2	
Select one of the following:		
CHNS 2101	Intermediate Chinese 1	
CHNS 2301	Intermediate Chinese Immersion 1	
Select one of the following:		
CHNS 2102	Intermediate Chinese 2	
CHNS 2302	Intermediate Chinese Immersion 2	
<i>Japanese</i>		
JPNS 1101	Elementary Japanese 1	
JPNS 1102	Elementary Japanese 2	

JPNS 2101	Intermediate Japanese 1
or JPNS 2301	Intermediate Japanese Immersion 1
JPNS 2102	Intermediate Japanese 2
or JPNS 2302	Intermediate Japanese Immersion 2

Asian Studies Electives

Complete three courses from the following focus areas. 12

Society and Politics Focus Area

ANTH 4350	Ethnography of Southeast Asia
ANTH 4515	Culture and Politics in Modern India
ASNS 2245	The Asian-American Experience
INTB 2501	Competing to Win in Emerging Markets
MKTG 4220	Marketing in Asia
PHIL 1130	Ethics: East and West
INTL 2240	Global Population and Development
POLS 3487	Politics of Developing Nations

Language, Literature, and Culture Focus Area

ARCH 1320	Architecture and Global Cultures, 1400 to Present
CLTR 1260	Japanese Film
CLTR 1700	Introduction to Japanese Pop Culture
ENGL 2450	Postcolonial Literature
MUSC 2130	Music of Asia
PHIL 1130	Ethics: East and West

Religious Studies Focus Area

PHIL 1231	Image and Icon in South Asia
PHIL 1273	Jainism
PHIL 1275	Hinduism, Buddhism, and Beyond: Eastern Religions
PHIL 1276	Indian Religions
PHIL 1290	Chinese Philosophy and Religion
PHIL 2394	Chinese Buddhism
PHIL 2395	Japanese Buddhism
PHIL 4393	Asian Religions in the United States
PHIL 4545	Religion and Politics in South Asia

Capstone

Code	Title	Hours
Complete one of the following:		4
HIST 4701	Capstone Seminar	
ASNS 4900	Asian Studies Capstone Directed Study	
ASNS 4920	Asian Studies Capstone Seminar	

Integrative Requirement

Note: Public history concentrators satisfy this requirement within the concentration with Fieldwork in History 1 (HIST 4903) and (HIST 4904).

Code	Title	Hours
HIST 2351	Modern Japan	4
or ASNS 2245	The Asian-American Experience	

History and Asian Studies Major Credit Requirement

Complete 82 semester hours in the major.

Program Requirements

128 total semester hours required

History and Cultural Anthropology, BA

History and cultural anthropology offer an interdisciplinary combined major. Students interested in the combined major in history and cultural anthropology integrate the exploration of human history with the rigorous study of human cultures.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

Code	Title	Hours
History Colloquium		
HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
Introductory Level		
Complete one history course from the 1000 level.		4
History Seminar and Historical Writing		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
Pre-1800 History Elective		
Complete one course from the following:		4
HIST 2390	Africa and the World in Early Times	
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1270	Ancient Greece	
HIST 1271	Ancient Rome	
HIST 1285	Introduction to Russian Civilization	
HIST 2330	Colonial and Revolutionary America	
Intermediate/Advanced History Cluster		
Complete three history courses numbered 2303 or above.		12
Advanced History		
Complete one history course at the 3000 level or above.		4

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range.

Cultural Anthropology Requirements

Code	Title	Hours
Foundation Courses		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
Area Courses		
Complete two courses from the following:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

Anthropology Electives	
Complete three courses in the following range. One study-abroad course may count toward this requirement.	12
ANTH 2001 to ANTH 4599	

Capstone Requirements

Code	Title	Hours
Complete one of the following:		4
ANTH 4600	Senior Seminar	
HIST 4701	Capstone Seminar	

Integrative Requirements

ANTH courses below will double count as area courses.

Code	Title	Hours
ANTH 4350	Ethnography of Southeast Asia	4
ANTH 4510	Anthropology of Africa	4
HIST 2360	History of Capitalism in East Asia	4

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

Program Requirement

128 total semester hours required

or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

Intermediate/Advanced Electives

Complete three of the following with at least one course at the 4000 or 5000 level: 8

PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4390	Cults and Sects	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	
PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	

Additional Electives

Complete three additional PHIL courses. 8

Integrative Courses

Code	Title	Hours
Complete one of the following: 4		
PHIL 2395	Japanese Buddhism	
HIST 2308	Law, Justice, and Society in Modern China	

History and Philosophy Combined-Major Credit Requirement

Complete 85 semester hours in the major.

Program Requirement

128 total semester hours required

History and Political Science, BA

The Department of History and the Department of Political Science offer an interdisciplinary combined major in history and political science. Students interested in the combined major integrate the study of political systems and theories with the study and analysis of human history.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range.

History Major Requirements

Code	Title	Hours
History Colloquium		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
Introductory Level Course		
Complete one course from HIST 1001 to HIST 1999		4
History Seminar and Historical Writing		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
Pre-1800 History Elective		
Complete one of the following: 4		
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1270	Ancient Greece	
HIST 1271	Ancient Rome	
HIST 1285	Introduction to Russian Civilization	

HIST 2330	Colonial and Revolutionary America	
Intermediate/Advanced History Cluster		
Complete three HIST courses numbered 2300 or above. Cluster is subject to department approval.		12
Advanced History		
Complete one HIST course numbered 3000 or above.		4

Political Science Major Requirements

Code	Title	Hours
Political Science Foundation Courses		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
Political Thought		
Complete one of the following:		4
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	
Political Science Electives		
Complete three POLS courses numbered 2300 or above.		12

Supporting Courses

Code	Title	Hours
Complete one of the following:		4
MATH 1213	Interactive Mathematics	
MATH 1215	Mathematical Thinking	
MATH 1231	Calculus for Business and Economics	
MATH 1241	Calculus 1	

Integrative Requirement

Code	Title	Hours
Integrative Course		
Complete one of the following:		4
HIST 1130	Introduction to the History of the United States	
HIST 2211	The World Since 1945	
HIST 2282	The Holocaust and Comparative Genocide	
HIST 3800	American Conservatism from the New Deal to the Present	
Capstone		
Complete one of the following. (Public History concentrations take HIST 4903 & HIST 4904)		4
HIST 4701	Capstone Seminar	
HIST 4903	Fieldwork in History 1	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

History and Political Science Major Credit Requirement

Complete 78 semester hours in the major.

Program Requirements

128 total semester hours required

History and Religious Studies, BA

The Department of Philosophy and Religion and the Department of History offer an interdisciplinary combined major in religious studies and history. Students interested in the combined major integrate the study of religious traditions, religious praxis, and religious ethics with the study and analysis of human history.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

History and Religious Studies Combined-Major Credit Requirement

Complete 78 semester hours in the major.

Program Requirement

128 total semester hours required

Media and Screen Studies and History, BA

The Media and Screen Studies Program and the Department of History offer a combined major in media and screen studies and history. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of local and regional histories as well as of the global exchanges between nations, regions, and cultures.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

NUPath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUPath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUPath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

History, BS

The Bachelor of Science (BS) degree emphasizes greater specialization in history, either in public history or in a minor field outside of history, and a course in statistics. These programs are designed for students interested in either public history or in quantitative analysis and the mastery of social science models and methods. Students who plan to go to graduate school in history should consider the possibility of taking language courses as electives, since most graduate programs continue to require foreign language competence.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Major Requirements

Computer Science and History, BS

The computer science and history combined major offers students the opportunity to gain both historical knowledge and a broad range of related analytical skills in both the humanities and computer science. You'll define a history course cluster according to a thematic principle, with a focus on quantitative analysis in the field, complementing your foundation in programming.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
IS 2000	Principles of Information Science	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 16 credits of upper-division CS, IS, or DS courses that are not already required. Choose courses within the following ranges:	16
--	----

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

History Courses

Code	Title	Hours
------	-------	-------

History Required Courses

HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

History Electives

Complete one introductory course from the following:	4
--	---

AFAM 1140	Introduction to African-American History	
ASNS 1150	East Asian Studies	
HIST 1120	Public History, Public Memory	
HIST 1130	Introduction to the History of the United States	
HIST 1170	Europe: Empires, Revolutions, Wars, and Their Aftermath	
HIST 1180	African History	
HIST 1185	Introduction to Middle Eastern History	
HIST 1187	Introduction to Latin American History	
HIST 1190	Picturing Modernity: The Photographic Image in Culture and Society	
WMNS 1103	Introduction to Women's, Gender, and Sexuality Studies	

Complete one course from the following:	4
---	---

HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1270	Ancient Greece	
HIST 1271	Ancient Rome	
HIST 1285	Introduction to Russian Civilization	

HIST 1389	History of Espionage 1: Antiquity to World War II	
HIST 2330	Colonial and Revolutionary America	

Complete three intermediate/advanced-level courses:	12
---	----

Select from any HIST course numbered 2303 or above.

Complete one advanced-level course:	4
-------------------------------------	---

Select from any HIST course numbered 3000 or above.

History Capstone Seminar or Senior Project

Complete one capstone experience from the following:	4
--	---

HIST 4701	Capstone Seminar	
-----------	------------------	--

Public history concentrators may also select from the following:

HIST 4903	Fieldwork in History 1	
-----------	------------------------	--

Cluster Requirement

Note: Four of the six courses chosen as history electives must create a history cluster of related courses. The history cluster is subject to department approval.

Integrative Course Requirement

Code	Title	Hours
HIST 2211	The World Since 1945	4

Supporting Courses

Code	Title	Hours
------	-------	-------

Research Methods

Complete one course from the following:	4
---	---

ECON 2350	Statistics	
POLS 2400	Quantitative Techniques	
PSYC 2320	Statistics in Psychological Research	
SOCL 2320	Statistical Analysis in Sociology	
ENVR 3300	Geographic Information Systems	
ENVR 5260	Geographical Information Systems	

Computing and Social Issues

Complete one of the following:	4
--------------------------------	---

ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	
IA 5240	Cyberlaw: Privacy, Ethics, and Digital Rights	
INSH 2102	Bostonography: The City through Data, Texts, Maps, and Networks	
PHIL 1145	Technology and Human Values	
SOCL 1280	The 21st-Century Workplace	
SOCL 3485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	

Computer Science Writing Requirement

Code	Title	Hours
------	-------	-------

College Writing

ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

Advanced Writing in the Disciplines

This requirement is satisfied by HIST 2302 taken in conjunction with HIST 2301.

Required General Electives

Code	Title	Hours
Complete eight general electives.		32

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

Computer Science and History GPA/Credit Requirement

Complete 98 semester hours in the major with a minimum 2.000 GPA

NUPath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Writing-Intensive in the Major
- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

135 total semester hours required

History, Minor

The history minor is designed to be flexible so that students may focus on a tailored course of study. There are no prerequisites: Simply complete five history courses (20 semester hours), of which at least two must be above the 1200 level and must be taken at Northeastern. Students are encouraged to choose a cluster of courses around a particular theme, though this is not required. Existing themes include global conflict and war, ancient and early modern worlds, global cultural history, public history, commodities and capitalism, and global security. Students may also focus on particular areas such as the Americas, Europe, East Asia, and Africa.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Complete five history courses, of which at least two must be taken at Northeastern and must be numbered HIST 1200 or higher. History minors must have a total of 20 semester hours in history.

GPA Requirement

2.000 GPA required in the minor

Human Services

Website (<http://www.northeastern.edu/humanservices>)

Lori Gardinier, PhD

Director, Human Services Program

310 Renaissance Park

617.373.5918

617.373.7905 (fax)

Lori Gardinier, Director, l.gardinier@northeastern.edu

The human services major prepares students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities. Upon completion of the degree students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. All students declare a specialization within the major that reflects their particular focus in the field. Human services specializations include applied behavioral analysis, Deaf studies (BA only), family and children's services, identity and social change, psychology/counseling psychology, and social justice and social policy. Additionally, students may have a specific area of interest not currently reflected in the offered specialization. In such cases, students are invited to submit an independent specialization for approval by the program director.

Prepared Specializations

- Applied behavior analysis
- Deaf studies
- Family and children's services
- Identity and social change
- Psychology/counseling psychology
- Social justice and social policy
- Customized specialization

Academic Progression Standards

After four semesters, students must maintain a minimum 2.000 grade-point average (GPA), have earned at least 64 semester hours, and should have completed the following courses:

Code	Title	Hours
HUSV 1101	Human Services Professions	4
HUSV 2300	Counseling in Human Services	4
HUSV 3700	Research Methods for Human Services	4
HUSV 3900	Introduction to Social Policy	4

An approved organizations course

At least one specialization course (see advisor)

In order to take Human Services Internship (HUSV 4994), students must have permission from the internship coordinator at least one semester *prior* to the semester they wish to take the internship course. Internship should be taken either the spring semester of a student's junior year or the fall semester of a student's senior year.

Programs

Bachelor of Arts (BA)

- Human Services (p. 751)
- Human Services and Communication Studies (p. 130)
- Human Services and International Affairs (p. 753)
- Human Services and Sociology (p. 758)
- Political Science and Human Services (p. 757)

Bachelor of Science (BS)

- Human Services (p. 759)
- Human Services and Criminal Justice (p. 646)
- Human Services and Sociology (p. 767)
- American Sign Language and Human Services (p. 661)
- Political Science and Human Services (p. 766)

Minor

- Human Services (p. 768)

Human Services and International Affairs, BA

The combined human services and international affairs degree offers students an understanding of geopolitical realities paired with the practical skills and theory necessary to work in social services and nongovernment organizations (NGOs) impacted by global issues. Students will have the opportunity to prepare for practice in international NGOs through co-ops and Dialogue of Civilization programs. This combined major will prepare students for positions within the nonprofit sector with an international focus.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Human Services Requirements

Code	Title	Hours
Required Courses		
HUSV 1101	Human Services Professions	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
Research Methods		
HUSV 3700	Research Methods for Human Services	4
Policy		
HUSV 3900	Introduction to Social Policy	4
Organization		
SOCL 3440	Sociology of Human Service Organizations	4
Internship		
HUSV 4994	Human Services Internship	6
Human Services Electives		
Complete two HUSV courses.		8

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
or HIST 2211	The World Since 1945	
Global Dynamics		
Complete two of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements.		8
<i>Environment</i>		
ENVR 1110	Global Climate Change	
ENVR 4515	Sustainable Development	
SOCL 1246	Environment and Society	
<i>Law, Diplomacy, and Global Governance</i>

International Affairs Foreign Language Requirement

Complete course work in a language through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

Human Services/International Affairs Integrative Courses

Complete Senior Seminar in Human Services (HUSV 4700) or Senior Capstone Seminar in International Affairs (INTL 4700) or both. Note, however, that students wishing to take HUSV 4700 but not INTL 4700 must meet with an INTL advisor to obtain approval for a substitute INTL course. Similarly, students wishing to take INTL 4700 but not HUSV 4700 must meet with an HUSV advisor to obtain approval for a substitute HUSV course. Substitute courses (HUSV or INTL) must be upper-division courses and must relate to the combined major.

Code	Title	Hours

Option A

Complete POLS 4701 or POLS 4703 and complete one additional Human Services course that has not been used in previous requirements.		
POLS 4701	Political Science Senior Capstone	
or POLS 4703	Senior Thesis	
HUSV 1000 to HUSV 5999		

Option B

Complete HUSV 4700 and complete one additional Political Science course numbered 2300 or higher that has not been used in previous requirements.		
HUSV 4700	Senior Seminar in Human Services	
POLS 2300 to POLS 5999		

Political Science and Human Services Combined-Major Credit Requirement

Complete 86 semester hours in the major.

Program Requirement

128 total semester hours required

Human Services and Sociology, BA

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human

services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

A GPA of 2.000 for major courses is required.

Human Services and Sociology Combined-Major Credit Requirement

Complete 78 semester hours in the major.

Program Requirement

128 total semester hours required

Human Services, BS

The human services major prepares students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Upon completion of the degree, students apply professional skills in counseling roles, nonprofit management, political advocacy, or organizational and community development. Students have an opportunity to develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities. All students declare a specialization within the major that reflects their particular focus in the field. Human services specializations include applied behavioral analysis, Deaf studies (BA only), family and children's services, identity and social change, psychology/counseling psychology, and social justice and social policy. Additionally, students may have a specific area of interest not currently reflected in the offered specialization. In such cases, students are invited to submit an independent specialization for approval by the program director.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

American Sign Language and Human Services, BS

The American Sign Language (ASL) Program curriculum is an intensive program of study dedicated to preparing individuals to interact in a positive and supportive manner with members of the American Deaf Community. This Program is designed to assist students in acquiring competence in American Sign Language, developing an understanding of the American Deaf Community and its culture, and applying their linguistic and cultural skills and knowledge to a particular academic area of study.

The ASL Program offers a wide array of courses as well as volunteer, internship, and practicum opportunities. Students pursuing a combined major in Human Services integrate their foundation in ASL and the Deaf Community with Human Service organizations.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Human Services and Communication Studies, BA

The intersection of communications studies and human services practices spans several domains. Nonprofit organizations depend on communications professionals to effectively represent their work to the community, partner organizations, and funders. Knowledge and skills developed in communications studies also service human services professionals working in the political realm as they seek to promote impactful social policies.

The human services major is designed to prepare students for careers in social change by providing them with the theoretical and skill-based background necessary for practice and research. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Human Services and Criminal Justice, BS

A combined major in human services and criminal justice appeals to students interested in the intersection of social and legal issues and institutions. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. Students with criminal justice course work gain a rigorous interdisciplinary and experiential education in the causes and consequences of crime and the responses of criminal justice. The addition of human services course work complements a criminal justice perspective and considers the role of social services and community-based organizations to prevent, intervene, and treat the causes and consequences of crime. The degree allows students to combine interests in the justice system, political advocacy, and community development. Students engage in an integrated educational program that emphasizes experiential approaches to learning through service-learning, co-op, and internship opportunities.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science and Human Services Combined-Major Credit Requirement

Complete 86 semester hours in the major.

Program Requirement

128 total semester hours required

Human Services and Sociology, BS

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Sociology Major Grade Requirement

A GPA of 2.000 for major courses is required.

Human Services and Sociology Combined-Major Credit Requirement

Complete 78 semester hours in the major.

Program Requirement

128 total semester hours required

Human Services, Minor

The human services minor is designed to prepare students for careers in social change by providing the theoretical and skill-based background necessary for practice and research. Students have an opportunity to develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at individual and structural levels. Students engage in an integrated

educational program that emphasizes experiential approaches to learning through service-learning. The minor provides a nice complement to students who are interested in the role of nonprofit and social change organizations as it relates to their major. The course work students will take in the human services program provides an opportunity to apply social and psychological theories and develop direct practice experience through service-learning.

The minor in human services may help lead to careers in many diverse areas of social change or to graduate programs in social work, health, counseling, rehabilitation, and law. Human services professions are among the fastest-growing occupations in the nation. Society recognizes the necessity, value, and reward of dedicating time and energy to helping people. Combining a human services minor with any major gives students the opportunity to learn about the individual community and political interventions for social change.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
HUSV 1101	Human Services Professions	4
HUSV 2300	Counseling in Human Services	4

Policy Course

Code	Title	Hours
HUSV 3900	Introduction to Social Policy	4

Organization Course

Code	Title	Hours

Complete one HUSV course.		4

GPA Requirement

2.000 GPA required in the minor

International Affairs

Website (<http://www.northeastern.edu/internationalaffairs>)

Berna Turam, PhD

Professor, Sociology and International Affairs, and Director, International Affairs Program

201 Renaissance Park
617.373.5472

Kimberly Jones, Head Advisor, k.jones@northeastern.edu
Ioannis Livanis, Advisor, i.livanis@northeastern.edu

International affairs is an interdisciplinary major in the College of Social Sciences and Humanities. The program is designed to prepare

undergraduate students with the knowledge and skills needed to thrive and lead in a diverse world society while promoting global citizenship and social responsibility.

Academic Progression Standards

It is recommended that students majoring in international affairs maintain a minimum 3.000 grade-point average until the beginning of their international experience in order to be eligible for the majority of the study-abroad options.

Cooperative Education

Cooperative education is recommended for all students pursuing a major or combined major in international affairs.

Programs

Bachelor of Arts (BA)

- International Affairs (p. 769)
- International Affairs with African Studies Concentration (p. 773)
- International Affairs with Asian Studies Concentration (p. 775)
- International Affairs with European Studies Concentration (p. 777)
- International Affairs with Latin American Studies Concentration (p. 779)
- International Affairs with Middle East Studies Concentration (p. 781)
- Environmental Studies and International Affairs (p. 522)
- Human Services and International Affairs (p. 753)
- International Affairs and Cultural Anthropology (p. 790)
- International Affairs and Economics (p. 676)
- International Affairs and Religious Studies (p. 796)
- Political Science and International Affairs (p. 800)
- Sociology and International Affairs (p. 805)
- Spanish and International Affairs (p. 654)

Minors

- International Affairs (p. 811)
- Middle East Studies (p. 813)

International Affairs, BA

The international affairs program provides a rigorous inter- and multidisciplinary curriculum while also giving students flexibility to select the courses and disciplines that interest them most. Successful undergraduate students develop an awareness of global affairs and international issues since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

International Affairs with African Studies Concentration, BA

Through this concentrated major, successful undergraduates will develop an awareness of global affairs related to Africa since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

Program Requirements

Note: Students double majoring in international affairs and political science may only count two political science courses toward the international affairs major.

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Senior Seminar/Experiential Learning

INTL 4700	Senior Capstone Seminar in International Affairs	4
-----------	--	---

International Experience in Africa

Complete at least one “international semester” via study abroad, international internship, two Dialogue of Civilizations programs, or international co-op. International students may be exempt from the semester abroad (subject to advisor approval). If they do not complete an international semester, they must participate in Model African Union.

Foreign Language Requirement

Complete language course work in Kiswahili, French, or Arabic through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

International Affairs Major Credit/GPA Requirement

Complete 60 semester hours in the major with a 2.000 GPA.

Upper-Division Electives

Complete three general electives numbered 3000 or above.

Program Requirement

128 total semester hours required

International Affairs with Asian Studies Concentration, BA

Through this concentrated major, successful undergraduates will develop an awareness of global affairs related to Asia since the early 20th century through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

Program Requirements

Note: Students double majoring in international affairs and political science may only count two political science courses toward the international affairs major.

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics or regional analysis requirements. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
ANTH 1101	Peoples and Cultures	4
ASNS 1150	East Asian Studies	4
or HIST 1150	East Asian Studies	
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
HIST 2211	The World Since 1945	4
INTL 1101	Globalization and International Affairs	4

-----------	--	---

International Experience in Latin America

Complete at least one “international semester” via study abroad, international internship, two Dialogue of Civilizations programs, or international co-op. International students may be exempt from the semester abroad (subject to advisor approval).

Foreign Language Requirement

Complete language course work in Portuguese or Spanish through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

International Affairs Major Credit/GPA Requirement

Complete 60 semester hours in the major with a 2.000 GPA.

Upper-Division Electives

Complete three general electives numbered 3000 or above.

Program Requirement

128 total semester hours required

International Affairs with Middle East Studies Concentration, BA

Through this concentrated major, successful undergraduates will develop an awareness of global affairs related to the Middle East and North Africa since the early 20th century and in the aftermath of the Arab Spring. This is accomplished through diverse and cross-disciplinary theories of interstate relations: conflict, cooperation, hierarchies; civil society, transnational advocacy networks, global social movements; and state-society relations: democracy, authoritarianism, inequalities, citizenship.

Program Requirements

Note: Students double majoring in international affairs and political science may only count two political science courses toward the international affairs major.

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Major Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 1160	Middle East Studies	4
INTL 2718	Research Methods in International Affairs	4
INTL 3400	International Conflict and Negotiation	4

Senior Seminar/Experiential Learning

INTL 4700	Senior Capstone Seminar in International Affairs	4
-----------	--	---

International Experience in the Middle East

Complete at least one “international semester” via study abroad, international internship, two Dialogue of Civilizations programs, or international co-op. International students may be exempt from the semester abroad (subject to advisor approval). If they do not complete an international semester, they must either complete a Dialogue of Civilizations program, co-op, or internship or participate in Model United Nations or Model Arab League.

Foreign Language Requirement

Complete language course work in Arabic or Hebrew through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

¹ Middle East Studies (INTL 1160) may not be used as a regional analysis course.

International Affairs Major Credit/GPA Requirement

Complete 60 semester hours in the major with a 2.000 GPA.

Upper-Division Electives

Complete three general electives numbered 3000 or above.

Program Requirement

128 total semester hours required

Environmental Studies and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of the international issues that influence the scientific, cultural, societal, political, and economic aspects of the world's environmental problems and the ways in which such environmental challenges can be ameliorated and/or solved.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Environmental Studies Requirements

Code	Title	Hours
Social Science Component

Human Services and International Affairs, BA

The combined human services and international affairs degree offers students an understanding of geopolitical realities paired with the practical skills and theory necessary to work in social services and

nongovernment organizations (NGOs) impacted by global issues. Students will have the opportunity to prepare for practice in international NGOs through co-ops and Dialogue of Civilization programs. This combined major will prepare students for positions within the nonprofit sector with an international focus.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Human Services Requirements

Code	Title	Hours
Required Courses

International Affairs Foreign Language Requirement

Complete course work in a language through at least intermediate-level two. Note: Completing this requirement satisfies the language requirement for the BA degree.

Human Services/International Affairs Integrative Courses

Complete Senior Seminar in Human Services (HUSV 4700) or Senior Capstone Seminar in International Affairs (INTL 4700) or both. Note, however, that students wishing to take HUSV 4700 but not INTL 4700 must meet with an INTL advisor to obtain approval for a substitute INTL course. Similarly, students wishing to take INTL 4700 but not HUSV 4700 must meet with an HUSV advisor to obtain approval for a substitute HUSV course. Substitute courses (HUSV or INTL) must be upper-division courses and must relate to the combined major.

Code	Title	Hours
Human Services		
HUSV 4700	Senior Seminar in Human Services	4
International Affairs		
INTL 4700	Senior Capstone Seminar in International Affairs	4

Human Services and International Affairs Combined-Major Credit Requirement

Complete 90 semester hours in the major.

Program Requirement

128 total semester hours required

International Affairs and Cultural Anthropology, BA

Through this combined major, successful undergraduates will develop an awareness of contemporary cultures within their international, transnational, and global contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International

Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
ECON 1115	Principles of Macroeconomics	4
or HIST 2211	The World Since 1945	
Global Dynamics		
Complete two of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements:		8
Environment		
ENVR 1110	Global Climate Change	
ENVR 4515	Sustainable Development	
SOCL 1246	Environment and Society	
Law, Diplomacy, and Global Governance		
INTL 2480	Women and World Politics

International Affairs Foreign Language Requirement

Complete course work in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

Anthropology Major Requirements

Code	Title	Hours
Cultural Anthropology		
ANTH 1101	Peoples and Cultures	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4

Anthropology Electives

Complete three courses in the following range, one of which must be numbered 4000 or above. One study-abroad course may also count toward this requirement with prior permission from the department:	12
ANTH 2300 to ANTH 4999	

Advanced Area Courses

Complete two of the following:	8
ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

Integrative Requirements

Code	Title	Hours
Global Markets		
ANTH 2305	Global Markets and Local Culture	4
Capstone		
ANTH 4600	Senior Seminar	4
or INTL 4700	Senior Capstone Seminar in International Affairs	

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

International Affairs and Anthropology Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

International Affairs and Economics, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international economic issues since the early 20th century through diverse and cross-disciplinary theories of economic development and growth; states, societies, and markets (the intersection of politics and economics); and the role of states, civil societies, and social movements in crafting or addressing economic strategies, inequalities, and citizenship rights.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

International Affairs and Religious Studies, BA

Through this combined major, successful undergraduates will develop an awareness of the interaction of religious views with institutions and cultures in national and international contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social/religious movements; state-society relations (religion, democracy, authoritarianism, social justice and ethics, citizenship); comparative study of religious theology and praxis; and knowledge of particular religious traditions, including Buddhism, Christianity, Hinduism, Islam, and Judaism.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4

Code	Title	Hours
Capstone		
INTL 4700	Senior Capstone Seminar in International Affairs	4

International Affairs and Religious Studies Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Political Science and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international relations since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; political processes, institutions, and actors; and state-society relations (democracy, authoritarianism, inequalities, citizenship).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
Political Theory		
Complete one of the following:		4
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

Political Science Electives/Concentration for BA

Complete four upper-division political science electives, or complete one of the following concentrations. If you are working toward a concentration, declare it with your advisor in order for it to be added to your record. Requirements for the concentrations are listed below (p. 803).

Code	Title	Hours
Political Science Electives		
Complete four political science courses at or above POLS 2300.		16

- Concentration in Campaigns and Elections (p. 803)
- Concentration in Comparative Politics (p. 803)
- Concentration in Identity, Culture, and Politics (p. 803)
- Concentration in International Relations and Diplomacy (p. 803)
- Concentration in Security Studies (p. 804)

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
HIST 2211	The World Since 1945	4
ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	

Global Dynamics

Complete two of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements. One course must be numbered 2000 or above:

Environment

ENVR 1110	Global Climate Change
ENVR 4515	Sustainable Development
SOCL 1246	Environment and Society

Law, Diplomacy, and Global Governance

International Experiential Learning

Complete at least one “international semester” via study abroad, international internship, international co-op, or two short-term programs.

Regional Analysis Requirement

Complete three of the following courses, two of which must be in one region. Select courses taken during a semester study abroad or specific Dialogue of Civilizations courses may count as regional analysis courses pending approval of the international affairs head faculty advisor. See department for additional courses:

Code	Title	Hours

International Affairs, Minor

The minor in international affairs is an interdisciplinary program that exposes students to a variety of different perspectives on the field, while providing the flexibility to select the courses in the disciplines that

interest them most. The minor provides an international lens to students' primary degree, preparing them for our globalized world and workplaces.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Course

Code	Title	Hours
INTL 1101	Globalization and International Affairs	4

Regional Analysis Elective Courses

Code	Title	Hours
		8

Complete two of the following. Select courses taken during a semester study abroad or specific Dialogue of Civilizations courses may count as regional analysis courses pending approval of the international affairs head faculty advisor.

GPA Requirement

2.000 GPA required in the minor

Middle East Studies, Minor

The minor in Middle East studies is an inter- and cross-disciplinary program, drawing on courses from within the International Affairs Program as well as departments and units across the college. The program provides an in-depth study of the Middle East and North Africa (Arab world, Israel, Iran, and Turkey); its place within the broader Mediterranean region; and its relations with other world regions. As such, it seeks to enhance students' understanding of this culturally diverse and politically important region of the world. Students are encouraged to take advantage of the university's study-abroad and Dialogue of Civilizations programs (faculty-led summer programs) in Egypt, Morocco, Tunisia, Jordan, Turkey, Israel and Palestine, and other approved programs in the region.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
POLS 3465	Government and Politics in the Middle East	4
or POLS 3470	Arab-Israeli Conflict	
or INTL 3250	Democracy and Development in North Africa and the Mediterranean	
INTL 1160	Middle East Studies	4
or HIST 1290	Modern Middle East	
INTL 1150	The Mediterranean World: An Overview	4

Elective Courses

Elective courses may include courses taken as part of an approved study-abroad program. *Note: Courses used as required courses (above) may not be used as elective courses.*

Jewish Studies

Website (<http://www.northeastern.edu/jewishstudies>)

Lori H. Lefkowitz, PhD

Ruderman Professor and Director, Jewish Studies Program

450 Renaissance Park

617.373.8437

617.373.2942 (fax)

Jewish studies offers the opportunity to explore Jewish history, religion, and cultures. Because of the geographic, ethnic, racial, and cultural diversity of the Jewish people, as well as the long timeline of Jewish history, Jewish studies provides students with rich possibilities for cross-cultural and comparative study. Jewish studies is an interdisciplinary program embracing history, music, literature, political science, international affairs, sociology, gender studies, religion, philosophy, Hebrew, and more. The program also explores the evolving interactions between Judaism and other religions and offers exciting courses in both Israel studies and the history and cultures of Diaspora Jewish communities around the world.

The Jewish studies program offers both a minor and a preapproved template for a combined major. A unique feature of the minor is the Jewish studies module, in which students create an original project that brings an aspect of Jewish studies together with an aspect of their major field.

Jewish studies classes seek to help students develop a more critical and analytical understanding of the religious and secular world around them. They are designed to prepare students for any field that requires critical thinking and cross-cultural understanding, including careers in education, social services, politics, museums and archives, and Jewish communal organizations, as well as for graduate and professional studies.

Study abroad, either through the Dialogues of Civilization program in Israel, Germany, and/or Poland or through traditional study-abroad programs, is a significant aspect of Jewish studies. Experiential learning in the Jewish studies program includes these study-abroad opportunities, as well as internships or co-ops at organizations such as the Jewish Community Relations Council, Facing History and Ourselves, the Jewish Women's Archive, and the Israeli Consulate. The Ruderman merit-based scholarship supports selected Jewish studies majors and minors; the Gideon Klein award supports a student in research on the arts and the Holocaust.

For more information, visit the department website (<http://www.northeastern.edu/jewishstudies>).

Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 31)."

Pre-approved Template Program in Jewish Studies

Jewish studies offers a preapproved template program that may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit the combined majors webpage (<http://www.northeastern.edu/registrar/major-2.html>).

Students may request admission to such a combined major via the Combined Major Approval form (<http://www.northeastern.edu/registrar/form-maj-comb.pdf>), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see "Student-Requested Combined Major (p. 33)." For template program requirements, visit the myNortheastern web portal (<http://www.myneu.neu.edu>), click on the "Self-Service" tab, then on "My Degree Audit."

Programs

Bachelor of Arts

- Jewish Studies and Religion (p. 814)

Minor

- Jewish Studies (p. 818)

Jewish Studies and Religion, BA

The combined major in Jewish studies and religion offers students an integrated program of study of two naturally complementary fields. Study of Judaism as a religion is greatly enhanced by broad familiarity with the world's religious traditions; conversely, in-depth knowledge of Jewish history, identity, and cultures provides students of religion with valuable insight into the ways in which religion interacts with a wide variety of forces to shape the experiences of the adherents of a particular faith. The combined major is designed to enable students to understand the history, cultures, and religion of the Jewish people; analyze and apply theoretical understanding to the interaction between religious, social, and historical factors that have shaped the experiences of the Jewish people; and demonstrate fluency in understanding the major religious traditions of the world. The combined major in Jewish studies and religion is designed to prepare students for graduate work in Jewish studies, religion, or many of the other disciplines that make up Jewish studies or for work within the Jewish community or in communal organizations associated with other religions.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Jewish Studies, Minor

The Jewish studies minor provides an excellent broad-based introduction to the history, religion, and cultures of the Jewish people while also offering a unique opportunity to bring students' major fields of study to bear on Jewish studies topics. In our innovative 1-credit capstone Jewish studies module, minors integrate their work in Jewish studies into their major field—for example, bringing together Jewish studies and psychology through a service-learning project with Gateways, a nonprofit that offers Jewish educational resources for children with special needs, or combining Jewish studies and history through a research project on the role of Jewish women in the women's health movement.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
PHIL 1285	Jewish Religion and Culture	4
or JWSS 1285	Jewish Religion and Culture	
JWSS 4660	Jewish Studies Module	1

Elective Courses

Code	Title	Hours
Complete four courses from the following lists. A maximum of two courses may be taken from the Jewish-studies-related course list:		16

Jewish Studies Courses

CLTR 3450	Israeli and Palestinian Film
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
or JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity

Ronald Sandler, Professor and Chair, r.sandler@northeastern.edu
John Basl, Assistant Professor and Academic Advisor, j.basl@northeastern.edu
Diana Webster, Department Administrative Officer, d.webster@northeastern.edu

Philosophy addresses questions and theories related to morality, society, religion, and the natural and social sciences. Course work in philosophy provides students with an understanding of the methods and traditions of philosophical thought, as well as with opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Through readings, discussion, and writing, students examine questions concerning the validity of moral judgments, political ideas, and scientific theories, as well as questions about values and social policy in

such areas as law, medicine, environment, and technology. Course work in philosophy significantly strengthens study in other areas.

Religious studies offers students the opportunity to acquire an understanding of religious experience within its social, historical, literary, and political context. Courses in religious studies examine specific religious traditions such as Judaism, Islam, and Hinduism, and using a comparative approach they explore themes across faith traditions. Through the major, students have the opportunity to study a range of religions and a variety of methods of understanding the key dimensions of religious life.

Information on experiential learning opportunities, student life, and department faculty can be found at the department website (<http://www.northeastern.edu/cssh/philosophy>).

Academic Progression Standards

A minimum cumulative grade-point average of 2.000 is required to remain in good standing in the major.

The Philosophy Major

Philosophy majors enter diverse careers, ranging from college-level teaching to law, medicine, and business. The program strives to help students sharpen their critical abilities. The department offers four ways to major in philosophy: the standard major, the concentration in law and ethics, the concentration in ethics, and the concentration in religious studies.

Major in Religious Studies

The religious studies major is designed to introduce students to a wide variety of religious experience and expression in the world. Through this major, students are exposed to the basic features of the world's religions and the ethical systems that accompany them. They also have an opportunity to explore diverse methodological approaches to the study of religions in general. This major is designed to give students the expertise to prepare them for graduate school in religious studies or to enhance their abilities in any career that requires a liberal arts education.

Combined Majors

The analytical and critical skills gained from the study of philosophy are a valuable complement to any other area of study. So, too, is having an understanding of the history of ideas and of alternative world views and value systems. For this reason, the department offers combined majors with political science, economics, physics, international affairs, environmental studies, history, English, computer science, criminal justice, and media and screen studies. Details regarding these majors can be found on the program pages.

The combined majors in religious studies bring together knowledge of religious traditions, theology, and practice; awareness of religious experience within its social, historical, literary, and political contexts; and methods of understanding the key dimensions of religious life with other areas of study in which religion plays a large role. Current combined majors include history and religious studies, international affairs and religious studies, religious studies and African-American studies, and Jewish studies and religion. More information on these majors can be found on the program pages.

Preapproved Template Programs in Philosophy and in Religious Studies

The Department of Philosophy and Religion offers preapproved combined major templates in philosophy and religious studies. Each template may be paired with another preapproved template to create a combined major.

To see a list of current preapproved templates, visit the combined majors webpage (<http://www.northeastern.edu/registrar/major-2.html>).

Students may request such a combined major via the Combined Major Approval form (<http://www.northeastern.edu/registrar/form-maj-comb.pdf>), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on the preapproved template program, see "Student-Requested Combined Major (p. 33)." For template program requirements, visit the myNortheastern web portal (<http://www.mynneu.neu.edu>), click on the "Self-Service" tab, then on "My Degree Audit."

Minors

The Department of Philosophy and Religion offers philosophy and religious studies minors, as well as a popular ethics minor. Each of these minors is structured to be highly flexible and to complement study in other majors, while also providing depth of knowledge in philosophy, religion, and ethics. Information on these minors can be found on the program pages.

Programs

Bachelor of Arts (BA)

- Philosophy (p. 819)
- Religious Studies (p. 826)
- English and Philosophy (p. 708)
- Environmental Studies and Philosophy (p. 526)

- Political Science and Philosophy (p. 859)
- Politics, Philosophy, and Economics (p. 623)

Minor

- Philosophy (p. 863)
- Religious Studies (p. 863)
- Ethics (p. 864)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

Philosophy, BA

Philosophy is a basic field of inquiry. Its range encompasses ideas and issues in every domain of human experience, and its methods apply to problems of an unlimited variety. The major in philosophy can develop not only philosophical skill and sophistication but also critical thinking and writing abilities that are readily applicable to pursuits in other academic areas, useful in careers far removed from philosophy, and valuable in

everyday social and personal life. The study of philosophy can profoundly affect both the thinking one does and the kind of person one is.

There are varieties of concentrations of the philosophy major that students may choose from in accordance with their own backgrounds and interests. These include:

- **Philosophy generalist**
Offers students a maximum number of electives so they may choose in accordance with their own backgrounds and interests
- **Concentration in law and ethics**
Focuses elective course work in the areas of law, social and political philosophy, and applied ethics
- **Concentration in ethics**

Focuses elective course work in the areas of ethical theory, applied ethics, and social and political philosophy
- **Concentration in religious studies**
Uses electives to explore a variety of both religious expressions and methods of inquiry
- **Combined majors** in media and screen studies and philosophy, economics and philosophy, environmental studies and philosophy, political science and philosophy, English and philosophy, history and philosophy, computer science and philosophy, criminal justice and philosophy, and physics and philosophy
- **The half major template** in philosophy can be used by students to create their own combined majors.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

Concentrations

Complete one of the following concentrations:

- Philosophy Generalist requirements (p. 820)
- Concentration in Law and Ethics (p. 820)
- Concentration in Ethics (p. 821)
- Concentration in Religious Studies (p. 822)

Philosophy Major Credit Requirement

Complete 36 semester hours in the major.

Upper-Division Electives

Complete three general electives at 3000 level or above that do not double-count with the major or NUpath.

General Electives

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

Program Requirements

128 total semester hours required

Religious Studies, BA

The program in religion offers students the opportunity to acquire an understanding of religious experience within its social, historical, literary, and political context. Students study specific religious traditions such as Judaism, Islam, and Hinduism. Using a comparative approach, they explore themes across faith traditions. Through the major, a student will have the opportunity to study a range of religions and a variety of methods of understanding the key dimensions of religious life.

The religious studies major is designed to provide students with an introduction to a variety of religious traditions along with the analytical tools necessary to explore religious theology and praxis across five categories: comparative religion, traditions that emerge from the ancient Mediterranean and African worlds, traditions that emerge from Asia, religion and culture, and texts. The religious studies major is offered as both a stand-alone major and in combination with other majors.

- **The standard religion major** offers students a maximum number of electives so they may choose in accordance with their own backgrounds and interests.
- **Combined majors** are offered in Jewish studies and religion, history and religious studies, religious studies and African-American studies, and international affairs and religious studies.
- **The half major template** in religious studies can be used by students to create their own combined majors.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Religious Studies Major Requirements

Code	Title	Hours

Philosophy Required Courses		
PHIL 1115 or PHIL 1215	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4

or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

Restricted Electives

Take three of the following with at least one at the 4000 or 5000 level:	12
--	----

PHIL 3343	Existentialism
PHIL 3435	Moral Philosophy
PHIL 3460	Philosophy and Literature
PHIL 4390	Cults and Sects
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4515	Advanced Logic
PHIL 4535	Philosophy of Mind
PHIL 4547	Seminar: Apocalypticism
PHIL 4550	Philosophy of Economics
PHIL 4606	Seminar: Theories and Methods in Religious Studies
PHIL 4903	Seminar in Religion
PHIL 4906	Topics in Religious Studies
PHIL 5001	Global Justice
PHIL 5011	Comparative Religious Ethics

Philosophy Electives

Complete three additional electives from the philosophy department.	12
---	----

Integrative Requirement

Code	Title	Hours
PHIL 3435	Moral Philosophy	4
ENGL 3619 or ENGL 4100	Emerson and Thoreau Topics in Literary Criticism	4

English and Philosophy Combined-Major Credit Requirement

Complete 88 semester hours in the major.

Program Requirement

128 total semester hours required

Environmental Studies and Philosophy, BA

Through this combined major, successful undergraduates will develop an awareness of the scientific, cultural, and political aspects of the world's environmental problems while considering the philosophical, moral, and ethical impacts that such decisions have on human-environment interactions.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Environmental Studies Requirements

Note: Principles of Microeconomics (ECON 1116) is a recommended prerequisite for Environmental Economics (ECON 3423), and American Government (POLS 1150) is a recommended prerequisite for Environmental Politics and Policy (POLS 2395).

Code	Title	Hours
Social Science Component		
ECON 3423	Environmental Economics	4
HIST 2342		4
POLS 2395	Environmental Politics and Policy	4
SOCL 1246	Environment and Society	4
Science Component		
<i>Global Climate Change</i>		
ENVR 1110	Global Climate Change	4
<i>Earth and Environmental Sciences</i>		
Complete one of the following:		4
ENVR 1112	Environmental Geology	
ENVR 1200	Dynamic Earth	
<i>Environment</i>		
ENVR 1101	Environmental Science	4
<i>Quantitative Methods</i>		
Complete one of the following:		4-5
ENVR 3300	Geographic Information Systems	
and ENVR 3301	and Lab for ENVR 3300	
MATH 2280	Statistics and Software	

Philosophy Requirements

Code	Title	Hours
Philosophy Required Courses		
PHIL 1115	Introduction to Logic	4
PHIL 1180	Environmental Ethics	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4
Philosophy of Science/Environment		
Complete one of the following:		4
PHIL 1105	Science and Pseudoscience	
PHIL 4510	Philosophy of Science	
Restricted Electives		
Complete two of the following with at least one course at the 4000 or 5000 level:		8
PHIL 3343	Existentialism	

PHIL 3435	Moral Philosophy
PHIL 3460	Philosophy and Literature
PHIL 4390	Cults and Sects
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4535	Philosophy of Mind
PHIL 4547	Seminar: Apocalypticism
PHIL 4606	Seminar: Theories and Methods in Religious Studies
PHIL 4903	Seminar in Religion
PHIL 4906	Topics in Religious Studies
PHIL 5001	Global Justice
PHIL 5011	Comparative Religious Ethics

Additional Electives

Complete two additional PHIL courses.	8
---------------------------------------	---

Integrative Courses

Code	Title	Hours
ENVR 5210	Environmental Planning	4
ENVR 5250	Geology and Land-Use Planning	4

Environmental Studies and Philosophy Combined-Major Credit Requirement

Complete 72 semester hours in the major.

Program Requirement

128 total semester hours required

History and Philosophy, BA

The Department of Philosophy and Religion and the Department of History offer an interdisciplinary combined major in philosophy and history. Students interested in the combined major integrate the study of philosophy and ethics with the study and analysis of human history.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

Code	Title	Hours	
History Colloquium			
HIST 1000	History at Northeastern	1	
HIST 1200	Historical Research and Writing	1	
HIST 1201	First-Year Seminar	4	
Introductory Level			
Choose one course from the 1000 level.		4	
History Seminar and Historical Writing			
HIST 2301	The History Seminar	4	
HIST 2302	Historical Writing	1	
Pre-1800 History Elective			
Choose one course from the following:		4	
HIST 2390	Africa and the World in Early Times	12

History and Religious Studies Combined-Major Credit Requirement

Complete 78 semester hours in the major.

Program Requirement

128 total semester hours required

International Affairs and Religious Studies, BA

Through this combined major, successful undergraduates will develop an awareness of the interaction of religious views with institutions and cultures in national and international contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social/religious movements; state-society relations (religion, democracy, authoritarianism, social justice and ethics, citizenship); comparative study of religious theology and praxis; and knowledge of particular religious traditions, including Buddhism, Christianity, Hinduism, Islam, and Judaism.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International

Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
Complete one of the following:		4
POLS 1155	Comparative Politics	
ECON 1115	Principles of Macroeconomics	
HIST 2211	The World Since 1945	
INTL 2300	Religion in International Affairs	
Global Dynamics		
Complete two of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements:		8

International Affairs and Religious Studies Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Jewish Studies and Religion, BA

The combined major in Jewish studies and religion offers students an integrated program of study of two naturally complementary fields. Study of Judaism as a religion is greatly enhanced by broad familiarity with the world’s religious traditions; conversely, in-depth knowledge of Jewish history, identity, and cultures provides students of religion with valuable

insight into the ways in which religion interacts with a wide variety of forces to shape the experiences of the adherents of a particular faith. The combined major is designed to enable students to understand the history, cultures, and religion of the Jewish people; analyze and apply theoretical understanding to the interaction between religious, social, and historical factors that have shaped the experiences of the Jewish people; and demonstrate fluency in understanding the major religious traditions of the world. The combined major in Jewish studies and religion is designed to prepare students for graduate work in Jewish studies, religion, or many of the other disciplines that make up Jewish studies or for work within the Jewish community or in communal organizations associated with other religions.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Jewish Studies Requirements

Code	Title	Hours
Required Courses		
PHIL 1285 or JWSS 1285	Jewish Religion and Culture	4
JWSS 4660	Jewish Studies Module	1
Jewish Religion and Thought		
Complete one course from list A or list B.		4
Note: If you complete one course from list B, you will be required to complete one fewer course to satisfy the religious studies electives requirement.		

List A

PHIL 1287	Modern Judaism
PHIL 2311	The Kabbalah: Jewish Mysticism from the Zohar to Madonna
PHIL 2313	Exploring the Jewish Diaspora—From Mountain Jews to Crypto-Jews
PHIL 2322	Responses to the Holocaust

List B

PHIL 1286	American Judaism
PHIL 2315	Adam and Eve and Their Interpreters
PHIL 3387	Religion, Nation, and Identity in Modern Jewish Thought

Israel Studies

Complete one of the following: 4

ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
INTL 2100	Modern Israel
POLS 3470	Arab-Israeli Conflict

Jewish History

Complete one of the following: 4

HIST 1294	Strangers in a Strange Land? European Jewish History 1750–1945
or JWSS 1294	Strangers in a Strange Land? European Jewish History 1750–1945
HIST 2280	Hitler, Germany, and the Holocaust

Media and Screen Studies and Philosophy, BA

The Media and Screen Studies Program and the Department of Philosophy and Religion offer a combined major in media and screen studies and philosophy. The combined major integrates the analysis, research, and production of traditional and emerging media along with the study of questions and theories related to morality, society, religion, and the natural and social sciences.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

NUpath requirements Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Societies and Institutions (SI), and Ethical Reasoning (ER) are met through the major course requirements.

NUpath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Analyzing and Using Data (AD), and Difference and Diversity (DD), may be met through electives in the major.

CLTR 1509		
Research		
AFRS 3310		
Senior Capstone		
AFAM 4700		
Electives		
Complete three AFAM or AFRS courses at the 2000 level or above.		12
Note: Electives may not double count for other AFAM or HIST combined-major requirements.		
AFAM 2000 to AFAM 5999		
AFRS 2000 to AFRS 5999		

Integrative Requirement

Code	Title	Hours
Complete one of the following:		4
PHIL 1410	From Vodou and the Rastas to Afro-Islam: African Religions in the Americas	
PHIL 3410	Religion and Spirituality in the African Diaspora	
PHIL 4390	Cults and Sects	

Program Requirement

128 total semester hours required

Philosophy, BS

Philosophy is a basic field of inquiry. Its range encompasses ideas and issues in every domain of human experience, and its methods apply to problems of an unlimited variety. The major in philosophy can develop not only philosophical skill and sophistication but also critical thinking and writing abilities that are readily applicable to pursuits in other academic areas, useful in careers far removed from philosophy, and valuable in everyday social and personal life. The study of philosophy can profoundly affect both the thinking one does and the kind of person one is.

There are a variety of ways to major in philosophy that students may choose from in accordance with their own backgrounds and interests. These include:

- **Philosophy generalist**
Offers students a maximum number of electives so they may choose in accordance with their own backgrounds and interests
- **Concentration in law and ethics**
Focuses elective course work in the areas of law, social and political philosophy, and applied ethics
- **Concentration in ethics**
Focuses elective course work in the areas of ethical theory, applied ethics, and social and political philosophy
- **Concentration in religious studies**
Uses electives to explore a variety of both religious expressions and methods of inquiry
- **Combined majors** in media and screen studies and philosophy, economics and philosophy, environmental studies and philosophy, political science and philosophy, English and philosophy, history and philosophy, criminal justice and philosophy, computer science and philosophy, and physics and philosophy
- **The half major template** in philosophy can be used by students to create their own combined majors.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Concentration

Complete one of the following concentrations:

- Philosophy Generalist requirements (p. 847)
- Concentration in Law and Ethics (p. 847)
- Concentration in Ethics (p. 848)
- Concentration in Religious Studies (p. 849)

Philosophy Major Credit Requirement

Complete 36 semester hours in the major.

Upper-Division Electives

Complete three general electives at 3000 level or above that do not double-count with the major or NUpath.

General Electives

Additional courses taken beyond college and major course requirements to satisfy graduation credit requirements.

Program Requirements

128 total semester hours required

Concentrations

Computer Science and Philosophy, BS

The computer science and philosophy combined major offers an opportunity to obtain a fluency in formal logic, including logical proofs and the ability to represent arguments clearly and evaluate them for cogency. Students will find that logic plays a fundamental role in computer science as they experience an in-depth programming foundation. The philosophy curriculum also focuses on oral and written communication, as well as ethical and social issues related to computing and information technologies.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science Courses

Code	Title	Hours
------	-------	-------

Computer Science Overview

CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5
CS 3000	Algorithms and Data	4
CS 3500	Object-Oriented Design	4
CS 3800	Theory of Computation	4
CS 4500 and CS 4501	Software Development and Recitation for CS 4500	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken for upper-division electives.

Complete 8 credits of upper-division CS, IS, or DS classes that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

Philosophy Courses

Code	Title	Hours
------	-------	-------

Philosophy Required Courses

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
or PHIL 2330	Modern Philosophy	
PHIL 1145	Technology and Human Values	4
PHIL 4515	Advanced Logic	4

Philosophy Restricted Electives

Take two courses, at least one of which is at the 4000 or 5000 level, from the following:

PHIL 3343	Existentialism
PHIL 3435	Moral Philosophy
PHIL 3460	Philosophy and Literature
PHIL 4390	Cults and Sects
PHIL 4500	Theory of Knowledge
PHIL 4510	Philosophy of Science
PHIL 4535	Philosophy of Mind
PHIL 4547	Seminar: Apocalypticism
PHIL 4606	Seminar: Theories and Methods in Religious Studies
PHIL 4903	Seminar in Religion
PHIL 4906	Topics in Religious Studies
PHIL 5001	Global Justice
PHIL 5011	Comparative Religious Ethics

Electives

Take three PHIL courses.	12
--------------------------	----

Integrative Course Requirement

Code	Title	Hours
These courses will double count in other areas of your major:		
CS 3800	Theory of Computation	
PHIL 4515	Advanced Logic	

Computer Science English Requirement

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	

Advanced Writing in the Disciplines

Complete one course from the following:		4
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3309	Advanced Writing in the Humanities	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
Complete 11 general electives.		44

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing-Intensive in the Major
- Interpreting Culture
- Understanding Societies and Institutions
- Employing Ethical Reasoning
- Writing in the First Year

8

- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

133 total semester hours required

Criminal Justice and Philosophy, BS

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Criminal Justice Major Requirements

Code	Title	Hours
Criminal Justice Required Courses		
CRIM 1100	Introduction to Criminal Justice	4
CRIM 2100	Criminal Due Process	4
CRIM 2200	Criminology	4
CRIM 3600	Criminal Justice Research Methods	4
CRIM 3700	Criminal Justice Statistics	4

Co-op Integration Seminar

Co-op students should complete the seminars below. Non-co-op students should complete a 4-semester-hour CRIM elective.

Complete two of the following courses. CRIM 2000 and CRIM 3000 are required for the first co-op. CRIM 4000 is required if a second co-op is taken.

CRIM 2000	Co-op Integration Seminar 1
CRIM 3000	Co-op Integration Seminar 2
CRIM 4000	Co-op Integration Seminar 3

Capstone

CRIM 4949	Senior Capstone Seminar	4
-----------	-------------------------	---

Major Electives

Thematic Elective

Complete one of the following: 4

CRIM 1300	The Death Penalty
CRIM 1400	Human Trafficking
CRIM 1500	Corruption, Integrity, and Accountability

Survey Elective

Complete one of the following: 4

CRIM 3010	Criminal Violence
CRIM 3030	Global Criminology
CRIM 3040	Psychology of Crime
CRIM 3050	Organized Crime
CRIM 3100	Criminal Law
CRIM 3200	Youth Crime and Justice

CRIM 3300	Punishment in the Age of Mass Incarceration	
CRIM 3400	Corporate Security: Securing the Private Sector	
CRIM 3500	Policing a Democratic Society	
<i>System-Wide Electives</i>		
CRIM 4010	Gender, Crime, and Justice	
CRIM 4020	Race, Crime, and Justice	
<i>Criminal Justice Elective</i>		
Complete one additional CRIM course.		4

Philosophy Requirements

Code	Title	Hours
Required Courses		
PHIL 1115	Introduction to Logic	4
PHIL/POLS 2325	Ancient Philosophy and Political Thought	4
PHIL 2303	Social and Political Philosophy	4
PHIL 2330	Modern Philosophy	4
Intermediate/Advanced Electives		
Complete two of the following:		
PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4390	Cults and Sects	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	
PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	
Philosophy 4000/5000 Elective		
Complete one of the following not used to satisfy previous requirements:		4
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	
PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	
Philosophy Electives		
Complete two additional PHIL courses.		8

Integrative Requirement

Code	Title	Hours
Philosophy Integrative Course		
PHIL 2301	Philosophical Problems of Law and Justice	4
Criminal Justice Integrative Course		
CRIM 1400	Human Trafficking	4

Criminal Justice and Philosophy Major Credit Requirement

Complete 80 semester hours in the major.

Program Requirement

128 total semester hours required

Economics and Philosophy, BS

Both philosophy and economics are the disciplines of critical thinking—thinking in concrete and abstract terms to help put the world in perspective. The combined economics and philosophy major provides students with training to critically evaluate and assess policies and issues on both economic and ethical grounds, including issues such as globalization, immigration, environmental protections, the minimum wage, a fair and just tax, just working environments, and many more.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Economics Requirements

Code	Title	Hours
Introduction to College		
Complete one of the following:		1
ECON 1000	Economics at Northeastern	
PHIL 1000	Philosophy at Northeastern	
Required Economics Courses		
Grades in the following must average a minimum of 2.000:		
ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2350	Statistics	4
ECON 2560	Applied Econometrics	4
ECON 3520	History of Economic Thought	4

MATH 1231	Calculus for Business and Economics	4
-----------	-------------------------------------	---

Economics Electives

Complete two economics electives with not more than one below the 3000 level.	8
---	---

Philosophy Requirements

Code	Title	Hours
------	-------	-------

Philosophy Required Courses

PHIL 1115	Introduction to Logic	4
PHIL 2325	Ancient Philosophy and Political Thought	4
PHIL 2330	Modern Philosophy	4

Advanced Philosophy Elective

Complete one of the following:	4
--------------------------------	---

PHIL 3343	Existentialism	
PHIL 3435	Moral Philosophy	
PHIL 3460	Philosophy and Literature	
PHIL 4390	Cults and Sects	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4515	Advanced Logic	
PHIL 4535	Philosophy of Mind	
PHIL 4547	Seminar: Apocalypticism	
PHIL 4606	Seminar: Theories and Methods in Religious Studies	
PHIL 4903	Seminar in Religion	
PHIL 4906	Topics in Religious Studies	
PHIL 5001	Global Justice	
PHIL 5011	Comparative Religious Ethics	

Additional Electives

Complete three additional electives in philosophy or religion. At least one must be numbered 2000 or above.	12
---	----

Integrative Requirements

Code	Title	Hours
------	-------	-------

Complete two of the following that have not been used in above requirements:	8
--	---

PHIL 3435	Moral Philosophy	
PHIL 4500	Theory of Knowledge	
PHIL 4510	Philosophy of Science	
PHIL 4550	Philosophy of Economics	
PHIL 5001	Global Justice	
PHIL 4992	Directed Study	
ECON 4992	Directed Study	

Major Credit Requirement

Complete 80 semester hours in the major.

Program Requirement

128 total semester hours required

Physics and Philosophy, BS

The combined major in physics and philosophy provides a strong foundation in classical and modern physics, including studies of the various physical phenomena including electromagnetism, dynamics,

building blocks of matter, energy, and radiation. It also provides students with an understanding of the methods and traditions of philosophical thought, as well as with opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Students will be able to describe the method by which physical "law" is made manifest in the sciences, how this knowledge compares with other epistemological models studied in other contexts, and philosophical views on the status and source of physical "law."

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Physics Major Requirements

Code	Title	Hours
------	-------	-------

Introductory Physics

Physics 1

Complete one of the following:	5
--------------------------------	---

PHYS 1161 and PHYS 1162	Physics 1 and Lab for PHYS 1161	
PHYS 1151 and PHYS 1152 and PHYS 1153	Physics for Engineering 1 and Lab for PHYS 1151 and Interactive Learning Seminar for PHYS 1151	

Physics 2

Complete one of the following:	5
--------------------------------	---

PHYS 1165 and PHYS 1166	Physics 2 and Lab for PHYS 1165	
PHYS 1155 and PHYS 1156 and PHYS 1157	Physics for Engineering 2 and Lab for PHYS 1155 and Interactive Learning Seminar for PHYS 1155	

Intermediate Physics

PHYS 2303	Modern Physics	4
PHYS 2305	Thermodynamics and Statistical Mechanics	4
PHYS 2371 and PHYS 2372	Electronics and Lab for PHYS 2371	4

Advanced Physics

PHYS 3600	Advanced Physics Laboratory	4
PHYS 3602	Electricity and Magnetism	4
PHYS 5115	Quantum Mechanics	4

Physics Elective

Complete one of the following:	4
--------------------------------	---

MATH 4606	Mathematical and Computational Methods for Physics
PHYS 5111	Astrophysics and Cosmology
PHYS 5113	Introduction to Particle and Nuclear Physics
PHYS 5116	Complex Networks and Applications
PHYS 5260	Introduction to Nanoscience and Nanotechnology
PHYS 4621	Biological Physics 1
PHYS 4623	Medical Physics
PHYS 4651	Medical Physics Seminar 1
PHYS 4652	Medical Physics Seminar 2

Philosophy Major Requirements

¹ PHYS 3601 offered spring and fall (even years)**Political Science and Philosophy, BS**

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Core Courses in Political Science		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
POLS 2399	Research Methods in Political Science	4

Political Thought/Theory

Complete two of the following:		8
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

Political Science Upper-Division Electives

Complete two courses in the following range:	8
POLS 3000 to POLS 5999	

Political Science Electives

Complete two courses in the following range:	8
POLS 2000 to POLS 5999	

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 860).

- Campaigns and Elections (p. 860)
- Identity, Culture, and Politics (p. 860)
- International Relations and Diplomacy (p. 860)
- Law and Legal Studies (p. 860)
- Public Policy (p. 860)

S.Parekh@northeastern.edu (r.sandler@northeastern.edu)

The PPE major at Northeastern University brings together three of the most important approaches to understanding the world around us: political science, philosophy, and economics. The PPE major is an interdisciplinary degree that not only provides students with the analytic tools from three different disciplines but also teaches students to make connections across disciplines and to keep multiple perspectives in mind when analyzing complex social phenomena. This interdisciplinary perspective and set of skills are indispensable in our increasingly interconnected world and are essential in addressing the kinds of complex global problems future leaders will need to tackle.

There are a number of varieties of the PPE major that students may choose from in accordance with their own backgrounds and interests. These include:

- environment and energy policy
- international political economy
- law and justice
- logic and game theory
- political philosophy
- public and economic policy

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Philosophy, Minor

Philosophy addresses questions and theories related to morality, society, religion, and the natural and social sciences. Course work in philosophy provides students with an understanding of the methods and traditions of philosophical thought, as well as opportunities to critically and collaboratively reflect on the nature of the world and the human situation in it. Through readings, discussion, and writing, students examine questions concerning the validity of moral judgments, political ideas, and scientific theories, as well as questions about values and social policy in such areas as law, medicine, and technology.

Course work in philosophy significantly strengthens study in other areas. Many students find that their studies in their major can be beneficially supplemented by pursuing studies in philosophy. Declaring a minor in philosophy will allow you to continue your philosophical studies throughout your time at Northeastern University.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
PHIL 2325	Ancient Philosophy and Political Thought	4
or POLS 2325	Ancient Philosophy and Political Thought	
PHIL 2330	Modern Philosophy	4

Elective Courses

Code	Title	Hours
Complete three courses in philosophy and religion.		12

GPA Requirement

2.000 GPA required in the minor

Religious Studies, Minor

The religious studies minor provides a short form of the religious studies major that can be tailored to the needs of the student's major.

The program in religion offers students the opportunity to acquire an understanding of religious experience within its social, historical, literary, and political context. Students study specific religious traditions such as Judaism, Islam, and Hinduism, and using a comparative approach they explore themes across faith traditions. Through the minor, a student will have the opportunity to study a range of religions and a variety of methods of understanding the key dimensions of religious life.

The religious studies minor is designed to provide the student with an introduction to a variety of religious traditions along with the analytical tools necessary to explore religious theology and praxis across five

categories: comparative religion, traditions that emerge from the ancient Mediterranean and African worlds, traditions that emerge from Asia, religion and culture, and texts. Through this minor, students are exposed to the basic features of the world's religions and the ethical systems that accompany them. They also have an opportunity to explore diverse methodological approaches to the study of religions in general. This minor is designed to help students enhance their abilities in any career that requires a liberal arts education.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
Complete four of the following:		16
PHIL 1111	Introduction to World Religions	
PHIL 1120	Understanding the Bible

GPA Requirement

2.000 GPA required in the minor

Ethics, Minor

The Department of Philosophy and Religion offers a minor in ethics for students who are interested in exploring the ethical dimensions of contemporary issues. From medicine and the environment to business and religion, the minor provides a range of courses that speak to issues you care about and provides you with the tools to explore them. The minor includes courses in ethical theory (e.g., moral philosophy, social and political philosophy, and philosophical problems of law and justice); applied ethics (e.g., environmental ethics, business ethics, moral and social problems in healthcare, and technology and human values);

and religious ethics (e.g., ethics east and west and cults and sects). It emphasizes developing critical analytical and evaluative skills.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
Complete four courses from the following list, two of which must be at or above the 2000 level:		16

Jermichael Young, Administrative Secretary, je.young@northeastern.edu

Political science teaches the art and science of politics in the United States and throughout the world. Study leadership with a former U.S. presidential candidate. Spend seven weeks visiting the United Nations and other organizations in Geneva, Switzerland. Apply for the White House internship program or to the British Parliament. Develop aid programs in a Saharan village in Niger. Write opinion pieces for an outstanding student political journal. Compete to represent an Arab country as part of one of the top Model Arab League teams in the United States. Political science is a discipline and a subject of study that has worldwide applications and exciting and experiential job opportunities. Politics matter wherever there are groups of people trying to get things done.

Political science majors start their journey with core courses on American government, comparative politics, international relations, and research methods. After that, students choose from a wealth of courses on specific topics from international security to legal studies to public policy.

Political science co-ops include responsible positions in local, state, and federal government agencies; law firms; nonprofit institutions; and corporations. Many students complete either a co-op position or an internship with a congressional representative, a senator, a governor, or other elected public officials, or at an international organization or nonprofit.

Political science students are among the most active on campus through extracurricular programs designed to expand their leadership ability, including the Political Science Student Association, International Relations Council, Pi Sigma Alpha honor society, Model United Nations, Model Arab League, Model NATO, student government, College Democrats and Republicans, and other student groups. Students also may qualify for the University Honors Program. With these experiences on their resumé, students are prepared to succeed in law school, graduate school, careers in government and the nonprofit sector, as well as in teaching, journalism, legislative or lobbying positions, public relations activities, and work in international corporations and nongovernmental organizations (NGOs).

Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 31)."

PlusOne Program (MA) in Political Science

Political science majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in political science. Students interested in this option should consult with the departmental graduate coordinator.

Programs

Bachelor of Arts (BA)

- Political Science (p. 866)
- Environmental Studies and Political Science (p. 527)
- History and Political Science (p. 739)
- Journalism and Political Science (p. 166)
- Media and Screen Studies and Political Science (p. 144)
- Political Science and Communication Studies (p. 154)
- Political Science and Economics (p. 680)
- Political Science and Human Services (p. 757)
- Political Science and International Affairs (p. 800)
- Political Science and Philosophy (p. 843)
- Sociology and Political Science (p. 888)

Bachelor of Science (BS)

- Political Science (p. 890)
- Biology and Political Science (p. 492)
- Computer Science and Political Science (p. 342)

- Politics, Philosophy, and Economics (p. 623)

Minors

- Political Science (p. 909)
- American Political Institutions (p. 909)
- International Security Studies (p. 910)

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

Political Science, BA

The Bachelor of Arts in Political Science provides a set of introductory courses to the discipline, followed by methodology courses, electives, and a capstone course. Students explore and analyze the many facets of American government, comparative politics, international relations, and political philosophy. With elective courses, students may choose from among a number of concentrations or follow their own curricular path. At the college level the Bachelor of Arts includes a foreign language requirement.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Introduction to College

Complete “Introduction to College” for your major.

Political Science Major Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2399	Research Methods in Political Science	4
POLS 2400	Quantitative Techniques	4
Political Theory		
Complete one of the following:		4
POLS 2330	American Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	
Political Science Capstone		
Complete one of the following:		4
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

Political Science Experiential Learning Requirement

Complete one course or experience from the following options. *Note:* Up to two credit-bearing courses count toward political science electives.

Code	Title	Hours
Courses		
Complete one of the following:		4
POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4942	Internship in Politics	
Co-op or Study Abroad		
Complete one cooperative education experience or one study-abroad experience.		4

Political Science Electives

Note: You may use four courses from the elective area to fulfill a concentration.

Code	Title	Hours
Complete six political science electives with a minimum of four numbered 2000 or above.		24

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 867).

- American political institutions (p. 867)
- Campaigns and elections (p. 867)
- Comparative politics (p. 867)
- Identity, culture, and politics (p. 867)
- International relations and diplomacy (p. 867)
- Law and legal studies (p. 868)
- Public policy (p. 868)
- Security studies (p. 868)

Political Science Major Credit Requirement

Complete 52 semester hours in the major.

Program Requirements

128 total semester hours required

Concentrations

CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress

Environmental Studies and Political Science, BA

In this combined major, successful undergraduates will develop an awareness of the scientific, cultural, societal, and political aspects of the world's environmental problems through the lens of geopolitical decisions, public policy, and environmental regulations.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Environmental Studies Requirements

Code	Title	Hours
Social Science Component		
<i>Philosophy</i>

History and Political Science, BA

The Department of History and the Department of Political Science offer an interdisciplinary combined major in history and political science.

Students interested in the combined major integrate the study of political systems and theories with the study and analysis of human history.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range.

History Major Requirements

Code	Title	Hours
History Colloquium		
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4
Introductory Level Course		
Complete one course from HIST 1001 to HIST 1999		4
History Seminar and Historical Writing		
HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1
Pre-1800 History Elective		
Complete one of the following:		4
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804	
HIST 1252	Japanese Literature and Culture	
HIST 1270	Ancient Greece

Complete one of the following options.		8
<i>Option A</i>		
Complete POLS 4701 or POLS 4703 and complete one additional Human Services course that has not been used in previous requirements.		
POLS 4701 or POLS 4703	Political Science Senior Capstone Senior Thesis	
HUSV 1000 to HUSV 5999		
<i>Option B</i>		
Complete HUSV 4700 and complete one additional Political Science course numbered 2300 or higher that has not been used in previous requirements.		
HUSV 4700	Senior Seminar in Human Services	
POLS 2300 to POLS 5999		

Political Science and Human Services Combined-Major Credit Requirement

Complete 86 semester hours in the major.

Program Requirement

128 total semester hours required

Political Science and International Affairs, BA

Through this combined major, successful undergraduates will develop an awareness of global affairs and international relations since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; political processes, institutions, and actors; and state-society relations (democracy, authoritarianism, inequalities, citizenship).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2400	Quantitative Techniques	4
Political Theory		
Complete one of the following:		4
POLS 2328	Modern Political Thought	
POLS 2330	American Political Thought	
POLS 2332	Contemporary Political Thought	

Political Science Electives/Concentration for BA

Complete four upper-division political science electives, or complete one of the following concentrations. If you are working toward a concentration, declare it with your advisor in order for it to be added to your record. Requirements for the concentrations are listed below (p. 803).

Code	Title	Hours
Political Science Electives		
Complete four political science courses at or above POLS 2300.		16

- Concentration in Campaigns and Elections (p. 803)
- Concentration in Comparative Politics (p. 803)
- Concentration in Identity, Culture, and Politics (p. 803)
- Concentration in International Relations and Diplomacy (p. 803)
- Concentration in Security Studies (p. 804)

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
HIST 2211	The World Since 1945	4

ECON 1115	Principles of Macroeconomics	4
or ECON 1116	Principles of Microeconomics	
Global Dynamics		
Complete two of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements. One course must be numbered 2000 or above:		8
<i>Environment</i>		
ENVR 1110	Global Climate Change	
ENVR 4515	Sustainable Development	
SOCL 1246	Environment and Society	
<i>Law, Diplomacy, and Global Governance</i>		
INTL 2480	Women and World Politics	
or WMNS 2480	Women and World Politics

Political Science and Philosophy, BA

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Successful students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Sociology and Political Science, BA

The combined major in sociology and political science offers students the opportunity to integrate the study of politics and government with an analysis of social systems. Students complete core courses in political science along with core courses in sociology that include social theory and an introduction to social systems. This combined major highlights the important intersection between social norms and organizations with the evolution of politics and government.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Sociology Requirements

Code	Title	Hours
Sociology Required Courses		
SOCL 1101	Introduction to Sociology	4
SOCL 2300	Social Theory	4
Sociology Introductory Electives		
Complete two courses in the following range:		8
SOCL 1200 to SOCL 1999		
Sociology Intermediate Elective		
Complete one course in the following range:		4
SOCL 2000 to SOCL 3999		
Sociology Advanced Elective		
Complete one course in the following range:		4
SOCL 4000 to SOCL 5999		
Statistics and Methods		
Complete one of the following sets:		8
SOCL 2320 and SOCL 2321	Statistical Analysis in Sociology and Research Methods in Sociology	
POLS 2400 and POLS 2399	Quantitative Techniques and Research Methods in Political Science

Political Science, BS

The Bachelor of Science in Political Science provides a set of introductory courses to the discipline, followed by methodology courses, electives, and a capstone course. Students explore and analyze the many facets of American government, comparative politics, international relations, and political philosophy. With elective courses, students may choose from among a number of concentrations or follow their own curricular path.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Introduction to College

Complete “Introduction to College” for your major.

Political Science Major Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4

Biology and Political Science, BS

In the BS, combined biology and political science degree program, science courses lay the groundwork for strong basic training in mathematics, chemistry, and physics that are relevant to biology. In biology courses, students broadly explore the organization and processes of life—from molecules and cells through organs and organ systems to populations, ecosystems, and evolution. In political science courses, students pursue core concepts of American government, comparative politics, international relations and political thought. Course work in quantitative techniques is also required. Students choose from a range of advanced subject electives. An appreciation of the intersection of biology and political science is provided through advanced courses in science, technology and public policy, and in environmental politics and policy.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science and Business Administration, BS

The combined major in political science and business administration offers students the opportunity to integrate the study of politics and government with an analysis of business practices and organizations. Students complete core courses in political science along with core courses in business administration that cover accounting, finance, marketing, and organizational behavior. This combined major highlights the important intersection between business practices and the evolution of politics and government.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Introduction to College		
POLS 1000 or BUSN 1102	Political Science at Northeastern Personal Skill Development for Business	1

Criminal Justice and Political Science, BS

This combined major educates students in criminal justice and political science and in the interface between the two disciplines. The scope and sequence of political science courses provide students with a foundation in topics such as American government, comparative politics,

international relations, and security and resilience. Criminal justice courses provide a foundation for understanding individual and systemic aspects of criminology and criminal justice. Students completing this program should be able to understand the relationships between the fields as they relate to understanding and addressing criminal behavior.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science and Economics, BS

The combined major in political science and economics offers students the opportunity to integrate the study of politics and government with the study of economics. Students complete the core courses in political science along with core courses in economics that cover both macroeconomic and microeconomic perspectives. This combined major highlights the important role that the economy plays in shaping politics and government.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Political Science Requirements

Code	Title	Hours
Political Science Requirements		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
Political Theory		
Complete one of the following:		4
POLS 2330	American Political Thought	
POLS 2325	Ancient Philosophy and Political Thought	
POLS 2328	Modern Political Thought	
POLS 2332	Contemporary Political Thought	
Political Science Restricted Electives		
Complete two of the following:		8
POLS 3307	Public Policy and Administration	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2357	Growth and Decline of Cities and Suburbs	
POLS 2360	Politics of Poverty	
POLS 3405	International Political Economy	
POLS 3487	Politics of Developing Nations	
Political Science Electives		
Complete two courses from the following range, or complete a concentration as outlined below:		8
POLS 3300 to POLS 5999		

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 687).

- American Political Institutions (p. 687)
- Campaigns and Elections (p. 687)
- International Relations and Diplomacy (p. 687)
- Public Policy (p. 687)

Economics Requirements for BS

Code	Title	Hours
------	-------	-------

Breadth Courses

MATH 1231	Calculus for Business and Economics	4
CS 1100	Computer Science and Its Applications	4

Required Economics Courses

Grades in the required economics courses and in Quantitative Techniques (POLS 2400) or Statistics (ECON 2350) must average a minimum of 2.000:

ECON 1115	Principles of Macroeconomics	4
ECON 1116	Principles of Microeconomics	4
ECON 2315	Macroeconomic Theory	4
ECON 2316	Microeconomic Theory	4
ECON 2560	Applied Econometrics	4

Economics Electives

Complete three economics electives with no more than one below 2990.

Supporting Courses

Complete either of the statistics and departmental elective combinations listed below:

COMBINATION A

Code	Title	Hours
------	-------	-------

Statistics

POLS 2400	Quantitative Techniques	4
-----------	-------------------------	---

Economics

Complete one of the following: 4

ECON 3404	International Food Economics and Policy	
ECON 3420	Urban Economic Issues	
ECON 3423	Environmental Economics	
ECON 3425	Energy Economics	
ECON 3440	Public Finance	
ECON 3490	Public Choice Economics	
ECON 4634	Comparative Economics	
ECON 4635	International Economics	

COMBINATION B

Code	Title	Hours
------	-------	-------

Statistics

ECON 2350	Statistics	4
-----------	------------	---

Political Science

Complete one course in the following range: 4
POLS 2401 to POLS 5999

Integrative Requirements

Code	Title	Hours
------	-------	-------

Senior Seminar/Capstone

Complete one of the following: 4

ECON 4692	Senior Economics Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

Program Requirement

128 total semester hours required

Concentrations

CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
------	-------	-------

Complete four of the following: 16

POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	

CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
------	-------	-------

Required Courses

With advisor approval, a co-op or internship may be substituted in place of POLS 4947:

POLS 3160	Campaign Strategy	4
POLS 4947		4

Campaigns and Elections Electives

If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.

Complete two of the following: 8

POLS 2345	Urban Policies and Politics	
POLS 2355		
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3162	Local Campaigns and Elections	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3304		

CONCENTRATION IN INTERNATIONAL RELATIONS AND DIPLOMACY

Code	Title	Hours
------	-------	-------

Experiential/Practicum Requirement

Complete one of the following: 4

POLS 4910	Model United Nations	
POLS 4915	Model Arab League	
POLS 4918	Model NATO	
POLS 4938	Dialogue of Civilizations: International Politics Abroad	

Core Courses

Complete three of the following: 12

POLS 3405	International Political Economy	
POLS 3406	International Law	
POLS 3407	International Organizations	
POLS 3408	International Security	
POLS 3435	Politics and Governance of Europe and the European Union	
POLS 3470	Arab-Israeli Conflict	

CONCENTRATION IN PUBLIC POLICY

Code	Title	Hours

POLS 2300 to POLS 5999	

Political Science and Human Services Combined-Major Credit Requirement

Complete 86 semester hours in the major.

Program Requirement

128 total semester hours required

Political Science and Philosophy, BS

The combined major in political science and philosophy enables students to develop an integrated understanding of politics, political theory, ethical theory, and theories of justice. Students who complete the major will have the training to critically evaluate and assess public policies and social issues on both political and ethical grounds, including issues such as tax policy, immigration, environmental protection, trade policy, healthcare, education, defense policy, and much more.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science and Political Science, BS

The computer science and political science combined major offers both a strong computer science foundation and a deep understanding of global and societal needs. You will become an engaged citizen of the world, participating in interdisciplinary scholarship and translational research to address regional and global issues.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses.

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5
CS 2800 and CS 2801	Logic and Computation and Lab for CS 2800	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
IS 2000	Principles of Information Science	4

Presentation Requirement

THTR 1170	The Eloquent Presenter	1
-----------	------------------------	---

Computer Science Elective Courses

With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.

Complete 12 credits of upper-division CS, IS, and DS courses that are not already required. Choose courses within the following ranges:

CS 2500 or higher, except CS 5010

IS 2000 or higher, except IS 4900

DS 2000 or higher, except DS 4900

Political Science Courses

ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	
ENGW 3311	Advanced Writing for Prelaw	
ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	

Required General Electives

Code	Title	Hours
Complete seven general electives.		28

Major GPA Requirement

Minimum 2.000 GPA required in all CS and IS courses

Computer Science and Political Science Major Credit Requirement

100 semester hours required in the major

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing in the First Year
- Writing-Intensive in the Major

- Advanced Writing in the Disciplines
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

133 total semester hours required

Political Science, Minor

The political science minor introduces students to key concepts, practices, and perspectives in the study of politics and government. Students complete at least two of the three introductory courses—American government, comparative politics, and international relations—as well as three other courses in political science.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
Complete two of the following:		8
POLS 1150	American Government	
POLS 1155	Comparative Politics	
POLS 1160	International Relations	

Elective Courses

Code	Title	Hours
Complete three political science courses.		12

GPA Requirement

2.000 GPA required in the minor

American Political Institutions, Minor

The American political institutions minor introduces students to key concepts, practices, and perspectives in the study of American politics and government. Students complete the introductory American government course as well as four other courses that focus on various aspects of American politics and government at the national, state, and local levels.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: This minor is restricted to students who are not enrolled in the political science major or in any political science combined major.

Required Course

Code	Title	Hours
POLS 1150	American Government	4

Electives

Code	Title	Hours
Complete four of the following:		16
POLS 2334	Bureaucracy and Government Organizations	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	
POLS 4500	U.S. Constitutional Law	
POLS 4505	U.S. Civil Liberties	

GPA Requirement

2.000 GPA required in the minor

International Security Studies, Minor

The international security studies minor introduces students to key concepts, practices, and perspectives in the study of international security. Students complete the introductory course in international relations as well as four other courses in political science that focus on various aspects of international security, including international law, international organizations, and U.S. security policy.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Note: Political science majors and combined majors may not pursue the minor in international security studies.

Required Core Courses

Code	Title	Hours
POLS 1160	International Relations	4
POLS 3408	International Security	4
POLS 3420	U.S. National Security Policy	4

Elective Courses

Code	Title	Hours
Students may not count any of the courses toward more than one requirement.		
Complete two of the following:		8
ARMY 3503	American Military History	
POLS 3406	International Law	
POLS 3408	International Security	
POLS 3420	U.S. National Security Policy	
POLS 3425	U.S. Foreign Policy	
POLS 3430	Revolution, Civil War, and Insurrection	
POLS 3470	Arab-Israeli Conflict	
POLS 3487	Politics of Developing Nations	
POLS 4910	Model United Nations	
POLS 4918	Model NATO	

GPA Requirement

2.000 GPA required in the minor

Mary Ramsey, Administrative Assistant, m.ramsey@northeastern.edu

Sociology and cultural anthropology provide the critical perspective needed for studying the social and cultural arrangements in which people live, for understanding how societies function, for investigating the conditions under which people change their institutions, and for describing the modes and conditions of cooperation that make social life possible.

Courses in the program examine such areas as urbanization, the environment, health, globalization and human rights, gender and sexuality, social movements, the cultural underpinnings of science and technology, new media, and the comparative analysis of advanced capitalist societies. Many courses are directly relevant to majors in other fields, including economics, political science, philosophy, literature, criminal justice, and business.

The major in sociology or cultural anthropology seeks to prepare students for careers in public or private service, including such fields as law, teaching, social work, administration or management, and research.

Academic Progression Standards

Same as university-wide standards described under "Academic Status (p. 31)."

Preapproved Template Program in Cultural Anthropology

The Department of Sociology and Anthropology offers a preapproved template program in cultural anthropology. The template program may be paired with another preapproved template program to create a combined major; to see a list of current preapproved template programs, visit the combined majors webpage (<http://www.northeastern.edu/registrar/major-2.html>).

Students may request admission to such a combined major via the Combined Major Approval form (<http://www.northeastern.edu/registrar/form-maj-comb.pdf>), which requires approval by both disciplines/colleges together with an approved curriculum. For additional information on preapproved template programs, see "Student-Requested Combined Major (p. 33)." For template program requirements, visit the myNortheastern web portal (<http://www.myneu.neu.edu>), click on the "Self-Service" tab, then on "My Degree Audit."

PlusOne Program (MA) in Sociology

Sociology majors at the end of their sophomore year or the beginning of their junior year may qualify for application to the PlusOne program that combines the BA with the master's degree in sociology. Students interested in this option should consult with the departmental advisor by the end of the sophomore year.

Accelerated Programs

See Accelerated Bachelor/Graduate Degree Programs (p. 944)

Sociology, BA

Sociology is the scientific study of society. It begins with the premise that individuals are affected by the social structures, institutions, and cultural milieus surrounding them. Sociology provides students with the conceptual tools to understand how various features of society affect its members as well as how people create and maintain those same features.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Sociology and Cultural Anthropology, BA

The sociology/anthropology department at Northeastern University offers a combined major in sociology and anthropology. Students learn the disciplinary histories, practices, and methods of sociology and sociocultural anthropology, identify foundational and contemporary debates within and across these two disciplines, and evaluate their contributions to our understanding of local and global societies and cultures. The combined major offers students various opportunities for community engagement, experiential learning, and for gaining research skills using quantitative and qualitative methods.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Sociology Major Requirements

Code	Title	Hours
Required Sociology		
SOCL 1101	Introduction to Sociology	4
SOCL 2300	Social Theory	4

SOCL 4600 or ANTH 4600	Senior Seminar	4

Sociology and Cultural Anthropology Major Grade Requirement

A GPA of 2.000 across all major courses is required.

Sociology and Cultural Anthropology Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Communication Studies and Sociology, BA

The communication studies department and the sociology department offer an interdisciplinary combined major in communication studies and sociology. The combined major integrates the study of communication skills and processes with the study of social behaviors.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond

specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

NUPath requirements Societies and Institutions (SI) and Ethical Reasoning (ER) are met through the major course requirements.

NUPath requirements Natural and Designed World (ND), Creative Expression/Innovation (EI), Interpreting Culture (IC), Formal and Quantitative Reasoning (FQ), Difference and Diversity (DD), and Analyzing and Using Data (AD) may be met through electives in the major.

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Total Hours: 130

Cultural Anthropology and Theatre, BA

This major is designed for students who want to combine a knowledge of the art of theatre, including performance, design, and production, with sociocultural theories and conceptual frameworks for understanding human behavior. It offers both classroom and experiential learning in the practice of making theatre and performance theories with cross-cultural approaches. Successful students develop an understanding of theatre’s impact on past and present cultures, as well as a deeper awareness of the world in which they live.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Anthropology Requirements

Code	Title	Hours
Foundation Courses		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4

Advanced Area Courses

Complete two of the following:

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development
ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

Anthropology Electives

Complete six courses in the following range. Two study-abroad courses may count toward this requirement with prior permission from the department: 24

ANTH 2300 to ANTH 4999

Social Science Electives

Complete three social science courses from the following subject areas: 12

AFRS, AFAM, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, PSYC, SOCL

Theatre Requirements

A minimum grade of C is required in all theatre courses.

Cultural Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

Program Requirement

128 total semester hours required

English and Cultural Anthropology, BA

The English department and the sociology/anthropology department offer an interdisciplinary combined major in English and cultural anthropology. Broadly speaking, students in the combined major in English and cultural anthropology at Northeastern integrate the study of literature, language, and writing with the study of human culture and its intersections with structures of inequality (e.g., race, class, and gender) and contemporary global issues.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

English Requirements

Code	Title	Hours
English Course-Level Requirement		
In addition to the capstone, two of the courses chosen from the lists below must be numbered 3000–4999.		
Introduction to College		
ENGL 1000	English at Northeastern	1
Foundational Courses		
ENGL 1400	Introduction to Literary Studies	4
ENGL 1160	Introduction to Rhetoric	4
or ENGL 1410	Introduction to Writing Studies	
Diversity		
Complete one of the following courses. This course may also be used to fulfill an additional English requirement below:		4

ENGL 2150	Literature and Digital Diversity
ENGL 2296	Early African-American Literature
ENGL 2450	Postcolonial Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	Multiethnic Literatures of the U.S.
ENGL 2470	Asian-American Literature
ENGL 2760	Writing in Global Contexts
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature
ENGL 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature

Pre-Nineteenth-Century Literature

Complete one of the following: 4

ENGL 1600	Introduction to Shakespeare
ENGL 1700	Global Literature to 1500
ENGL 2240	17th-Century British Literature
ENGL 2296	Early African-American Literature
ENGL 3618	Milton
ENGL/JWSS 3678	Bedrooms and Battlefields: Hebrew Bible and the Origins of Sex, Gender, and Ethnicity
ENGL 4000	Topics in Early Literatures
ENGL 4010	Topics in Shakespeare
ENGL 4020	Topics in 17th- and 18th-Century Literatures

Nineteenth-, Twentieth-, and Twenty-First-Century Literature

Complete one of the following: 4

ENGL 2260	Romantic Poetry
ENGL 2330	The American Renaissance
ENGL 2340	American Realism
ENGL 3619	Emerson and Thoreau
ENGL 3720	19th-Century Major Figure
ENGL 4040	Topics in 19th-Century Literatures
ENGL 2301	The Graphic Novel
ENGL 2410	Contemporary American Literature
ENGL 2440	The Modern Bestseller
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2610	Contemporary Israeli Literature and Art (Abroad)
ENGL/JWSS 3685	Modern and Contemporary Jewish Literature
ENGL 3730	20th- and 21st-Century Major Figure

Theories and Methods

Complete one of the following: 4

ENGL 1140	Grammar: The Architecture of English
ENGL 1160	Introduction to Rhetoric
ENGL 1410	Introduction to Writing Studies
ENGL 2150	Literature and Digital Diversity
ENGL 3325	Rhetoric of Law
ENGL 3340	Technologies of Text

ENGL 3370	Writing Cultures
ENGL 3381	The Practice and Theory of Teaching Writing
ENGL 3700	Narrative Medicine
ENGL 4100	Topics in Literary Criticism
ENGL 4400	Opening the Archive
ENGL 4410	Research in Rhetoric and Writing
LING 1150	Introduction to Language and Linguistics
LING 2350	Linguistic Analysis
LING 3450	Syntax
LING 3452	Semantics
LING 3454	History of English
LING 3456	Language and Gender
LING 3458	Topics in Linguistics

Comparative Literature

Complete one of the following: 4

ENGL 1120	Trouble in Utopia
ENGL 1130	Animals, Objects, Humans
ENGL 1450	Reading and Writing in the Digital Age
ENGL 1500	British Literature to 1800
ENGL 1502	American Literature to 1865
ENGL 1503	American Literature 1865 to Present
ENGL 2150	Literature and Digital Diversity
ENGL 2370	The Modern Short Story
ENGL 2380	The Modern Novel
ENGL 2400	Modern Poetry
ENGL 2420	Contemporary Poetry
ENGL 2430	Contemporary Fiction
ENGL 2450	Postcolonial Literature
ENGL 2451	Postcolonial Women Writers
ENGL 2455	American Women Writers
ENGL 2460	Multiethnic Literatures of the U.S.
ENGL 2470	Asian-American Literature
ENGL 2510	Horror Fiction
ENGL 2520	Science Fiction
ENGL 2600	Irish Literary Culture (Abroad)
ENGL 2620	What Is Nature? (Abroad)
ENGL 2690	Boston in Literature
ENGL 3427	The Literature of Science
ENGL 3487	Film and Text (Abroad)
ENGL 3582	Children's Literature
ENGL 3663	The African-American Novel
ENGL 3676	Representing Gender and Sexuality in Literature
ENGL 4070	Topics in Genre

Writing

Complete one of the following: 4

ENGL 2700	Creative Writing
ENGL 2710	Style and Editing
ENGL 2730	Digital Writing
ENGL 2740	Writing and Community Engagement
ENGL 2760	Writing in Global Contexts
ENGL 2770	Writing to Heal

ENGL 2780	Visual Writing: Writing Visuals	
ENGL 2850	Writing for Social Media: Theory and Practice	
ENGL 3375	Writing Boston	
ENGL 3376	Creative Nonfiction	
ENGL 3377	Poetry Workshop	
ENGL 3378	Fiction Workshop	
ENGL 3380	Topics in Writing	
ENGL 3382	Publishing in the 21st Century	
ENGL 3384	The Writer's Marketplace	

Capstone

ENGL 4710	Capstone Seminar	4
or ENGL 4720	Capstone Project	

English Electives

Complete two additional ENGL electives.	8
---	---

Cultural Anthropology Requirements

Code	Title	Hours
------	-------	-------

Foundation Courses

ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 3421	Foundations of Anthropological Theory	4

Area Courses

Additional "area courses" taken may count as anthropology electives.

Complete two of the following:	8
--------------------------------	---

ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

Capstone

Students are expected to complete the following course in spring of their senior year:

ANTH 4600	Senior Seminar	4
-----------	----------------	---

Anthropology Electives

Complete three 4-semester-hour courses in addition to the above requirements. One study-abroad course may also count toward this requirement with prior permission from the department.	12
---	----

Integrative Requirements

Code	Title	Hours
------	-------	-------

One integrative course is required for each discipline. Courses taken as electives above may not be used as integrative courses.

English Integrative Course

Complete one of the following:	4
--------------------------------	---

ENGL 2450	Postcolonial Literature	
ENGL 2470	Asian-American Literature	

Cultural Anthropology Integrative Courses

Complete one of the following:	4
--------------------------------	---

ANTH 2300	Reading Culture through Ethnography
ANTH 3421	Foundations of Anthropological Theory

Cultural Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

English and Cultural Anthropology Combined-Major Credit Requirement

Complete 88 semester hours in the major.

Program Requirement

128 total semester hours required

History and Cultural Anthropology, BA

History and cultural anthropology offer an interdisciplinary combined major. Students interested in the combined major in history and cultural anthropology integrate the exploration of human history with the rigorous study of human cultures.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

History Requirements

Code	Title	Hours
------	-------	-------

History Colloquium

HIST 1000	History at Northeastern	1
HIST 1200	Historical Research and Writing	1
HIST 1201	First-Year Seminar	4

Introductory Level

Complete one history course from the 1000 level.	4
--	---

History Seminar and Historical Writing

HIST 2301	The History Seminar	4
HIST 2302	Historical Writing	1

Pre-1800 History Elective

Complete one course from the following:	4
---	---

HIST 2390	Africa and the World in Early Times
HIST 1218	Pirates, Planters, and Patriots: Making the Americas, 1492–1804

HIST 1252	Japanese Literature and Culture
HIST 1270	Ancient Greece
HIST 1271	Ancient Rome
HIST 1285	Introduction to Russian Civilization
HIST 2330	Colonial and Revolutionary America

Intermediate/Advanced History Cluster	
Complete three history courses numbered 2303 or above.	12

Advanced History	
Complete one history course at the 3000 level or above.	4

History Cluster

In conjunction with your history advisor, define a history cluster by the first semester of your junior year of study. A cluster comprises four history courses with no more than two courses in the 1200–1299 range.

Cultural Anthropology Requirements

Code	Title	Hours
Foundation Courses		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
Area Courses		
Complete two courses from the following:		8
ANTH 4350	Ethnography of Southeast Asia	4
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	4
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	4

Anthropology Electives	
Complete three courses in the following range. One study-abroad course may count toward this requirement.	12
ANTH 2001 to ANTH 4599	

Capstone Requirements

Code	Title	Hours
Complete one of the following:		4
ANTH 4600	Senior Seminar	4
HIST 4701	Capstone Seminar	

Integrative Requirements

ANTH courses below will double count as area courses.

Code	Title	Hours
ANTH 4350	Ethnography of Southeast Asia	4
ANTH 4510	Anthropology of Africa	4
HIST 2360	History of Capitalism in East Asia	4

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

Program Requirement

128 total semester hours required

Human Services and Sociology, BA

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Program Requirement

128 total semester hours required

International Affairs and Cultural Anthropology, BA

Through this combined major, successful undergraduates will develop an awareness of contemporary cultures within their international, transnational, and global contexts since the early 20th century. The combined major addresses diverse and cross-disciplinary theories of interstate relations (conflict, cooperation, hierarchies); civil society, transnational advocacy networks, global social movements; and state-society relations (democracy, authoritarianism, social justice and inequalities, citizenship).

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

International Affairs Requirements

Courses used to fulfill major requirements may not be used to satisfy the global dynamics requirement. Peoples and Cultures (ANTH 1101), The World Since 1945 (HIST 2211), and International Relations (POLS 1160) may not be used as global dynamics courses. See department for additional courses.

Code	Title	Hours
Required Courses		
INTL 1101	Globalization and International Affairs	4
INTL 3400	International Conflict and Negotiation	4
POLS 1160	International Relations	4
ECON 1115	Principles of Macroeconomics	4
or HIST 2211	The World Since 1945	
Global Dynamics		
Complete two of the following. Courses are divided into thematic groups to aid students in deciding which courses to take and have no bearing on major requirements:		8
Environment		
ENVR 1110	Global Climate Change	
ENVR 4515	Sustainable Development	
SOCL 1246	Environment and Society	
Law, Diplomacy, and Global Governance

International Affairs Foreign Language Requirement

Complete course work in a language through at least intermediate-level two. *Note:* Completing this requirement satisfies the language requirement for the BA degree.

Anthropology Major Requirements

Code	Title	Hours
Cultural Anthropology		
ANTH 1101	Peoples and Cultures	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4

Anthropology Electives

Complete three courses in the following range, one of which must be numbered 4000 or above. One study-abroad course may also count toward this requirement with prior permission from the department:

ANTH 2300 to ANTH 4999

Advanced Area Courses

Complete two of the following:		8
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

Integrative Requirements

Code	Title	Hours
Global Markets		
ANTH 2305	Global Markets and Local Culture	4
Capstone		
ANTH 4600	Senior Seminar	4
or INTL 4700	Senior Capstone Seminar in International Affairs	

Students taking Senior Seminar (ANTH 4600) must complete either a one-semester senior project, which they would do in the context of ANTH 4600, or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Anthropology Major Grade Requirement

A GPA of 2.000 for major courses is required.

International Affairs and Anthropology Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Media and Screen Studies and Sociology, BA

The Media and Screen Studies Program and the Department of Sociology and Anthropology offer a combined major in media and screen studies and sociology. The combined major integrates the analysis, research, and production of traditional and emerging media along with the critical perspective needed for studying the social and cultural arrangements in which people live, for understanding how societies function, for investigating the conditions under which people change their institutions, and for describing the modes and conditions of cooperation that make social life possible.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

NUpath requirements Interpreting Culture (IC) and Societies and Institutions (SI) are met through the major course requirements.

NUpath requirements Creative Expression/Innovation (EI), Analyzing and Using Data (AD), Difference and Diversity (DD), and Ethical Reasoning (ER) may be met through electives in the major.

NUpath requirements Natural and Designed World (ND) and Formal and Quantitative Reasoning (FQ) must be met through general electives.

Media and Screen Studies Requirements

Code	Title	Hours
Introduction to College		
MSCR 1000	Media and Screen Studies at Northeastern	1
Introduction to Media Studies		
MSCR 1220	Media, Culture, and Society	4
Introduction to Screen Theory		
MSCR 2220	Understanding Media and Film	4
Advanced Theory		
MSCR 4623	Theories of Media and Culture	4
Media and Screen Electives		
Complete four of the following:		16
MSCR 1230	Introduction to Film Production	
MSCR 1310	Introduction to Digital Media Culture	
MSCR 2302	Advertising and Promotional Culture	
MSCR 2325	Global Media	
MSCR 2895	Film Analysis	
MSCR 3210	Special Topics in Media and Screen Studies	
MSCR 3422	Media Audiences	
MSCR 3426	Popular Music as Media Form	
MSCR 3435	Media Industries	
MSCR 3437	Media and Identity	
CINE 2160	Narrative Filmmaking	
CINE 3389	Screenwriting	
CINE 3392	Gender and Film	
CINE 3446	Topics in Documentary Production	
CINE 3920	Topics in Film Studies	
ARTD 3480	Video: Sound and Image	
ARTD 3485	Experimental Video	
ARTH 2212	Survey of the Still and Moving Image	
Advanced Media and Screen Electives		
Complete two of the following:		8
MSCR 4208	TV History	
MSCR 4602	Media and Democracy	
MSCR 4622	Special Topics in Media and Screen Studies	
MSCR 4992	Directed Study	
MSCR 4993	Independent Study	
CINE 3389	Screenwriting	
CINE 3392	Gender and Film	
CINE 3500	Film Theory

A GPA of 2.000 for major courses is required.

Sociology and International Affairs Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Sociology and Political Science, BA

The combined major in sociology and political science offers students the opportunity to integrate the study of politics and government with an analysis of social systems. Students complete core courses in political science along with core courses in sociology that include social theory and an introduction to social systems. This combined major highlights the important intersection between social norms and organizations with the evolution of politics and government.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

BA Language Requirements

All BA students are required to complete the BA language requirements (p. 40).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Sociology Requirements

SOCL 2320 and SOCL 2321	Statistical Analysis in Sociology and Research Methods in Sociology	

POLS 2400 and POLS 2399	Quantitative Techniques and Research Methods in Political Science
-------------------------	---

Political Science Requirements

Code	Title	Hours
Political Science Required Courses		
POLS 1150	American Government	4
POLS 1155	Comparative Politics	4
POLS 1160	International Relations	4
POLS 2330	American Political Thought	4
Political Science Electives		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3418	Nationalism	
Political Science Upper-Level Electives		
Complete two courses in the following range:		8
POLS 3000 to POLS 5999		
Political Science Electives		
Complete two courses in the following range:		8
POLS 2300 to POLS 5999		

Political Science Concentrations (Optional)

If you are working toward one of the following concentrations, declare it with your advisor so that it may be added to your record. Requirements for the concentrations are listed below (p. 889).

- American Political Institutions
- Campaigns and Elections
- Identity, Culture, and Politics
- Public Policy

Capstone Requirement

Code	Title	Hours
Complete one of the following:		4
SOCL 4600	Senior Seminar	
POLS 4701	Political Science Senior Capstone	
POLS 4703	Senior Thesis	

Integrative Requirement

Code	Title	Hours
SOCL 4514	“The Wire” and the Study of Urban Inequalities	4
POLS 3324	Law and Society	4

Sociology Major Grade Requirement

A GPA of 2.000 for major courses is required.

Program Requirement

128 total semester hours required

Concentrations (Optional)

CONCENTRATION IN AMERICAN POLITICAL INSTITUTIONS

Code	Title	Hours
Complete four of the following:		16
POLS 2350	State and Local Politics	
POLS 3300	The U.S. Congress	
POLS 3302	Judicial Process and Behavior	
POLS 3305	The American Presidency	
POLS 3307	Public Policy and Administration	
POLS 3310	Public Opinion, Voting, and Elections	

CONCENTRATION IN CAMPAIGNS AND ELECTIONS

Code	Title	Hours
Required Courses		
With advisor approval, a co-op or internship may be substituted in place of POLS 4947:		
POLS 3160	Campaign Strategy	4
POLS 4947		4
Campaigns and Elections Electives		
If POLS 4947 was replaced by a co-op or internship, an additional elective must be taken.		
Complete two of the following:		8
POLS 2345	Urban Policies and Politics	
POLS 2355		
POLS 3310	Public Opinion, Voting, and Elections	
POLS 3162	Local Campaigns and Elections	
POLS 3320	Politics and Mass Media	
POLS 3402		
POLS 3304		

CONCENTRATION IN IDENTITY, CULTURE, AND POLITICS

Code	Title	Hours
Core Course		
POLS 3418	Nationalism	4
Electives		
Complete three of the following:		12
POLS 2360	Politics of Poverty	
POLS 2368	Music and Politics in America and Abroad	
POLS 2370	Religion and Politics	
POLS 3309	Lesbian, Gay, Bisexual, and Transgender Issues in Public Policy	
POLS 3324	Law and Society	

CONCENTRATION IN PUBLIC POLICY

Code	Title	Hours
Core Requirement		
POLS 3307	Public Policy and Administration	4
Electives		
Complete three of the following:		12
POLS 2334	Bureaucracy and Government Organizations	
POLS 2335	Budgeting and Taxation	
POLS 2340	Business and Government	
POLS 2345	Urban Policies and Politics	
POLS 2350	State and Local Politics	

POLS 2357	Growth and Decline of Cities and Suburbs
POLS 2390	Science, Technology, and Public Policy
POLS 2395	Environmental Politics and Policy
POLS 3425	U.S. Foreign Policy

Sociology, BS

Sociology is the scientific study of society. It begins with the premise that individuals are affected by the social structures, institutions, and cultural milieus surrounding them. Sociology provides students with the conceptual tools to understand how various features of society affect its members as well as how people create and maintain those same features.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Sociology Major Requirements

Code	Title	Hours
Required Sociology		
SOCL 1101	Introduction to Sociology	4
SOCL 2300	Social Theory	4
SOCL 2320	Statistical Analysis in Sociology	4
SOCL 2321	Research Methods in Sociology	4
Cultural Anthropology		
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
Advanced Methods Requirement		
Complete one of the following:		4
ANTH 3410	Ethnographic Field Experience	
CRIM 4800	Crime Mapping	
DA 5030	Introduction to Data Mining/Machine Learning	
DS 4100	Data Collection, Integration, and Analysis	
DS 4400	Machine Learning and Data Mining 1	
HINF 5301	Personal Health Technologies: Field Deployment and System Evaluation	
POLS 2400	Quantitative Techniques	
SOCL 2323	Ethnographic Methods	
SOCL 3487	Applied Sociology: Practice and Theory	
Senior Seminar		
SOCL 4600	Senior Seminar	4

Required Sociology Electives

Code	Title	Hours
Introductory-Level Electives		
Complete two courses in the following range:		8
SOCL 1100 to SOCL 1999		
Intermediate-Level Electives		
Complete three courses in the following range:		12
SOCL 2000 to SOCL 3999		
Elective in Social Change		
Complete one of the following:		4
SOCL 1260	Gender in a Changing Society	
SOCL 1280	The 21st-Century Workplace	
SOCL 2268	Social Movements	
SOCL 2450	Class, Power, and Social Change	
Elective in Social Inequality		
Complete one of the following:		4
SOCL 1245	Sociology of Poverty	
SOCL 1275	Social Stratification	
SOCL 2205	Law and Social Justice	
SOCL 2270	Race and Ethnic Relations	
Advanced-Level Electives		
Complete two courses in the following range:		8
SOCL 4000 to SOCL 4999		
Social Science Electives		
Complete five social science courses in the following subject areas: AFRS, AFAM, ANTH, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, or PSYC.		20

Sociology Experiential Learning Requirement

Code	Title	Hours
Complete one of the following courses or a study abroad or a co-op:		4
SOCL 3487	Applied Sociology: Practice and Theory	
SOCL 4971	Junior/Senior Honors Project 2	
SOCL 3488	Doing Sociology in the City Abroad	

Sociology Major Grade Requirement

A GPA average of 2.000 across all major courses is required.

Sociology Major Credit Requirement

Complete 88 semester hours in the major.

Program Requirement

128 total semester hours required

Computer Science and Sociology, BS

The social aspects to computing continue to grow, primarily with respect to communication and the internet. The computer science and sociology combined major examines this significant impact on society and how people communicate and share culture. Students will have an opportunity to gain a solid programming foundation, as well as the practical and theoretical skills needed to address the complex social and cultural issues in a period of far-reaching social change.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Computer Science Courses

Code	Title	Hours
Computer Science Overview		
CS 1200	Leadership Skill Development	1
CS 1210	Professional Development for CCIS Co-op	1

Computer Science Fundamental Courses

A grade of C– or higher is required in computer science fundamental courses:

CS 1800 and CS 1802	Discrete Structures and Seminar for CS 1800	5
CS 2500 and CS 2501	Fundamentals of Computer Science 1 and Lab for CS 2500	5
CS 2510 and CS 2511	Fundamentals of Computer Science 2 and Lab for CS 2510	5

Computer Science Required Courses

CS 3000	Algorithms and Data	4
CS 3200	Database Design	4
CS 3500	Object-Oriented Design	4
IS 2000	Principles of Information Science	4

Computer Science Writing-Intensive Requirement

Complete one of the following:		4
CS 4500	Software Development	
IS 3500	Information System Design and Development	

DS 4200	Information Presentation and Visualization (Take DS 4100 either as a prerequisite of or concurrently with DS 4200.)	
---------	---	--

Presentation Requirement		
THTR 1170	The Eloquent Presenter	1

Computer Science Elective Courses		
With advisor approval, directed study, research, project study, and appropriate graduate-level courses may also be taken as upper-division electives.		
Complete 12 credits of upper-division CS, IS, or DS classes that are not already required. Choose courses within the following ranges:		12

CS 2500 or higher, except CS 5010	
IS 2000 or higher, except IS 4900	
DS 2000 or higher, except DS 4900	

Sociology Courses

Code	Title	Hours
Sociology Required Courses		
SOCL 1101	Introduction to Sociology	4
SOCL 2300	Social Theory	4
SOCL 2320	Statistical Analysis in Sociology	4
SOCL 2321	Research Methods in Sociology	4
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4

Sociology Electives		
Complete one sociology elective in each of the following ranges:		12
Introductory elective: SOCL 1000 to SOCL 1999		
Intermediate elective: SOCL 2000 to SOCL 3999		
Advanced elective: SOCL 4000 to SOCL 4999		

Sociology Required Capstone		
SOCL 4600	Senior Seminar	4

Integrative Course Requirement

Code	Title	Hours
Complete one of the following:		
SOCL 1280	The 21st-Century Workplace	4
SOCL 3485	Environment, Technology, and Society	
SOCL 4528	Computers and Society	
ANTH 3418	Wired/Unwired: Cybercultures and Technopolitics	

Computer Science Writing Requirement

Code	Title	Hours
College Writing		
ENGW 1111	First-Year Writing	4
or ENGW 1102	First-Year Writing for Multilingual Writers	
Advanced Writing in the Disciplines		
Complete one of the following:		
ENGW 3302	Advanced Writing in the Technical Professions	
ENGW 3308	Advanced Writing in the Social Sciences	

ENGW 3315	Interdisciplinary Advanced Writing in the Disciplines	
-----------	---	--

Required General Electives

Code	Title	Hours
Complete eight general electives.		32

Major GPA Requirements

Minimum 2.000 GPA required in all CS and IS courses, and a 2.000 average GPA requirement across all sociology classes is required.

NUpath Requirements Satisfied

- Engaging with the Natural and Designed World
- Conducting Formal and Quantitative Reasoning
- Analyzing and Using Data
- Writing-Intensive in the Major
- Writing in the First Year
- Advanced Writing in the Disciplines
- Interpreting Culture
- Understanding Societies and Institutions
- Demonstrating Thought and Action in a Capstone

Integrating Knowledge and Skills Through Experience is satisfied through co-op.

Program Requirement

133 total semester hours required

Cultural Anthropology, BS

Anthropology is the holistic, cross-cultural study of humanity that explores the multiple ways humans live and create meaning in the world. The anthropology major at Northeastern exposes students to diverse cultural perspectives from past and present societies; fosters student engagement with key contemporary issues such as global inequality, development, urbanization, and cultural change; and provides greater appreciation for the complexities of the world in which they live.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Cultural Anthropology Major Requirements

Code	Title	Hours
Cultural Anthropology		
SOCL 1101	Introduction to Sociology	4
ANTH 1101	Peoples and Cultures	4
ANTH 2305	Global Markets and Local Culture	4
ANTH 3421	Foundations of Anthropological Theory	4
ANTH 3410	Ethnographic Field Experience	4
ANTH 4600	Senior Seminar	4

Advanced Area Courses

Complete two of the following. Additional courses taken in this section may be used as electives.

ANTH 4350	Ethnography of Southeast Asia
ANTH 4500	Latin American Society and Development

ANTH 4505	Native North Americans
ANTH 4510	Anthropology of Africa
ANTH 4515	Culture and Politics in Modern India

Anthropology Electives

Complete eight ANTH courses. Two study-abroad courses may count toward this requirement with prior permission from the department. 32

Social Science Electives

Complete three social science courses from the following subject areas. Social science electives may not include music or art: AFRS, AFAM, CRIM, ECON, HUSV, HIST, INTL, LING, LPSC, POLS, PSYC, or SOCL. 12

¹ Students must choose between a one-semester senior project, which they would complete in the context of Senior Seminar (ANTH 4600), or a two-semester senior thesis, which would require them to also enroll in a fall-semester directed study.

Cultural Anthropology Major Grade Requirement

A cumulative GPA of 2.000 for all major courses is required.

Cultural Anthropology Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Sociology and Cultural Anthropology, BS

The sociology/anthropology department at Northeastern University offers a combined major in sociology and anthropology. Students learn the disciplinary histories, practices, and methods of sociology and sociocultural anthropology, identify foundational and contemporary debates within and across these two disciplines, and evaluate their contributions to our understanding of local and global societies and cultures. The combined major offers students various opportunities for community engagement, experiential learning, and for gaining research skills using quantitative and qualitative methods.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses

where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Sociology and Cultural Anthropology Major Grade Requirement

A GPA average of 2.000 across all major courses is required.

Sociology and Cultural Anthropology Combined-Major Credit Requirement

Complete 76 semester hours in the major.

Program Requirement

128 total semester hours required

Human Services and Sociology, BS

Students pursuing a combined degree in human services and sociology will integrate the theoretical understandings of these two fields to better understand organizational and group behavior and their implications for individuals and communities utilizing human services. The human services major prepares students for careers in social change by providing students with the theoretical and skill-based background necessary for practice and research. The sociology major prepares students to rigorously analyze the social, political, and economic spheres of society at the local and global levels. Students will develop a holistic understanding of preventative and reactive responses to social inequality and an understanding of how to impact change at the individual and structural levels. The combined major provides students with the conceptual and practical tools to understand how various features of society affect its members as well as how people create social change.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUpath Requirements

All undergraduate students are required to complete the NUpath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Human Services Requirements

Code	Title	Hours
Human Services Overview		
HUSV 1101	Human Services Professions	4
HUSV 2300	Counseling in Human Services	4
HUSV 3570	The Nonprofit Sector, Philanthropy, and Social Change	4
HUSV 3900	Introduction to Social Policy	4
Research Methods		
Complete option A or option B:		4
<i>Option A</i>		
HUSV 3700	Research Methods for Human Services	
<i>Option B</i>		
Complete the following and one additional HUSV course:		
SOCL 2321	Research Methods in Sociology	
Organization		
SOCL 3440	Sociology of Human Service Organizations	4
Human Services Internship		
HUSV 4994	Human Services Internship	6
Human Services Elective		
Complete one additional HUSV course.		4
Senior Capstone ¹		
HUSV 4700	Senior Seminar in Human Services	4

¹ With permission of human services, the student may complete sociology capstone Senior Seminar (SOCL 4600) and substitute one advanced human services elective for Senior Seminar in Human Services (HUSV 4700).

A GPA of 2.000 for major courses is required.

Human Services and Sociology Combined-Major Credit Requirement

Complete 78 semester hours in the major.

Program Requirement

128 total semester hours required

Linguistics and Cultural Anthropology, BS

The combined major in linguistics and cultural anthropology focuses on the relationship of culture to the institutions, interpersonal relations, and practices that make up their social structure while emphasizing the structure of human language and its involvement in social interaction and culture. Students examine how language both reflects and influences cultural phenomena and how it can be used as a tool to study those

phenomena; and they apply their interests across a range of connected courses, co-op opportunities, and potential research projects.

Program Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified and complete any additional courses needed beyond specific college and major requirements to satisfy graduation credit requirements.

University-Wide Requirements

All undergraduate students are required to complete the University-Wide Requirements (p. 41).

NUPath Requirements

All undergraduate students are required to complete the NUPath Requirements (p. 37).

Experiential Liberal Arts

All undergraduate students in the College of Social Sciences and Humanities are required to complete the Experiential Liberal Arts Requirement (p. 622).

Linguistics Major Language Requirement

Complete two courses in the same language with a grade of C or higher. Proficiency at elementary level 2 or higher is required.

Linguistics Requirements

Note: A grade of C or higher is required for all courses in this section.

Sociology, Minor

The sociology minor at Northeastern helps students to understand how to apply empirical evidence to address a wide range of social problems. Sociology minors can take courses in quantitative and qualitative research methods and theoretical and empirical reasoning. Elective courses draw on our faculty's expertise in violence, family life, health and illness, the environment, technology, gender and sexuality, occupations and professions, social movements, the law, and social inequality. This minor can complement a wide range of majors throughout the university, providing students with a range of skills to better understand their place in complex social environments.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Introduction to Sociology

Code	Title	Hours
SOCL 1101	Introduction to Sociology	4

Research Methods

An intermediate- or advanced-level SOCL elective may be substituted for Research Methods in Sociology (SOCL 2321) with departmental approval.

Code	Title	Hours
SOCL 2300	Social Theory	4
or SOCL 2321	Research Methods in Sociology	

Introductory-Level Required Electives

Code	Title	Hours
Complete two courses in the following range:		8
SOCL 1100 to SOCL 1299		

Intermediate-/Advanced-Level Required Elective

Code	Title	Hours
Complete one course in the following range:		4
SOCL 3400 to SOCL 4599		

GPA Requirement

2.000 GPA required in the minor

Cultural Anthropology, Minor

The cultural anthropology minor at Northeastern focuses on the study of culture as it is located in issues of race, ethnicity, class, gender, history, and globalization. Students develop proficiencies in widely applicable skills and frameworks, such as cultural relativism, comparative analysis, cross-cultural communication, research design, and ethnographic field research. Students have the opportunity to work with faculty members with regional expertise in Latin America, Europe, Asia, Africa, and North America and who teach courses on contemporary issues such as globalization, digital technologies, consumerism, sports, gender and sexuality, tourism, and social movements. This minor can complement a wide range of majors throughout the university, providing students with regional expertise and a depth of cultural understanding.

Minor Requirements

Complete all courses listed below unless otherwise indicated. Also complete any corequisite labs, recitations, clinicals, or tools courses where specified.

Required Courses

Code	Title	Hours
ANTH 1101	Peoples and Cultures	4
ANTH 3421 or ANTH 3410	Foundations of Anthropological Theory Ethnographic Field Experience	4

Advanced Area Courses

Code	Title	Hours
Complete one of the following:		4
ANTH 4350	Ethnography of Southeast Asia	
ANTH 4500	Latin American Society and Development	
ANTH 4505	Native North Americans	
ANTH 4510	Anthropology of Africa	
ANTH 4515	Culture and Politics in Modern India	

Anthropology Electives

Code	Title	Hours
Complete two ANTH courses.		8

GPA Requirement

2.000 GPA required in the minor

Accelerated Bachelor/Graduate Degree Programs

Northeastern University offers a number of PlusOne bachelor's/master's degree programs that allow students to accelerate the completion of the bachelor's degree by applying graduate credits taken as an undergraduate toward both the undergraduate and graduate degrees.

Generally, both degrees may be earned in one more year than is the normal time allotted for completion of the bachelor's degree. See additional information on PlusOne Bachelor's/Master's programs (<http://www.northeastern.edu/plusone>).

While a number of PlusOne bachelor's/master's degree programs have been predefined, students may propose to combine other CSSH undergraduate and graduate programs. For more information on the formal process of proposing student-initiated PlusOne programs, please visit the CSSH graduate programs website (<https://www.northeastern.edu/cssh/graduate/programs/plusone-programs>)

Northeastern University School of Law also admits students from a small number of programs in the College of Social Sciences and Humanities to a 3+3 program that allows students to count their first year of law school toward their undergraduate degree.

Sharon M. Britton

Assistant Cooperative Education Coordinator, College of Engineering; Massachusetts Institute of Technology, MS

Oscar Brookins

Associate Professor, Economics; State University of New York, Buffalo, PhD

Dana H. Brooks

Professor, Electrical and Computer Engineering; Northeastern University, PhD

Cammy Brothers

Associate Professor, Architecture and Art + Design; Harvard University, PhD

Craig Brown

Visiting Associate Professor, Finance; University of Michigan, PhD

Nicholas Brown

Associate Teaching Professor, Architecture and History; University of Illinois, Urbana-Champaign, PhD

Nicholas Brown

Assistant Teaching Professor, Graduate School of Engineering; University of California, Los Angeles, PhD

Philip M. Brown

University Distinguished Professor, Sociology and Anthropology and Health Sciences; Brandeis University, PhD

Ronald Brown

Assistant Teaching Professor, College of Professional Studies; Harvard University, EdD

Timothy Brown

Professor, History; University of California, Berkeley, PhD

Todd A. Brown

Clinical Instructor, Pharmacy and Health Systems Sciences; Northeastern University, MHP

James Browning

Assistant Teaching Professor, Engineering; University of Colorado, Boulder, PhD

Maria Brucato

Assistant Teaching Professor, World Languages Center; University of Texas, PhD

Elizabeth Bucar

Associate Professor, Philosophy and Religion; University of Chicago, PhD

David E. Budil

Associate Professor, Chemistry and Chemical Biology; University of Chicago, PhD

Jamie G. Bunce

Lecturer, Behavioral Neuroscience; University of Connecticut, PhD

Lucy Bunning

Assistant Teaching Professor, College of Professional Studies; Lesley University, PhD

Jeffrey Burds

Associate Professor, History; Yale University, PhD

Lynn H. Burke

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Amherst, MEd

Pamela J. Burke

Clinical Professor, Nursing; Boston College, PhD

Jose Buscaglia

Professor, Cultures, Societies, and Global Studies; University of Buffalo, PhD

Jeremy Bushnell

Associate Teaching Professor, Writing Program; University of Arizona, Tucson, MFA

Ahmed A. Busnaina

University Distinguished Professor, William Lincoln Smith Professor of Mechanical Engineering, Mechanical and Industrial Engineering; Oklahoma State University, PhD

Bobette Buster

Professor of the Practice, Journalism; Northwestern University, MFA

Michael Butera

Clinical Instructor, Nursing; Northeastern University, MS

Qinghong Cai

Associate Teaching Professor, World Languages Center; University of Kansas, MS

Victoria Cain

Assistant Professor, History; Columbia University, PhD

Paula Caligiuri

Distinguished Professor of Global Leadership, International Business and Strategy; Pennsylvania State University, PhD

Lisa M. Campagnoni

Assistant Cooperative Education Coordinator, College of Science; Northeastern University, MA

Octavia Camps

Professor, Electrical and Computer Engineering; University of Washington, PhD

Yanet Canavan

Assistant Academic Specialist, World Languages Center; Salem State College, MA

Kristopher Cannon

Assistant Teaching Professor, Media and Screen Studies; Georgia State University, PhD

Mira Cantor

Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

Luca Caracoglia

Associate Professor, Civil and Environmental Engineering; University of Trieste (Italy), PhD

Benjamin Caras

Lecturer, Art + Design; University of Massachusetts, Amherst, MFA

Peter Cardillo

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Boston College, MS

Joelle Carlo

Assistant Teaching Professor, Pharmaceutical Sciences; State University of New York, Buffalo, PhD

Alexa A. Carlson

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Butler University, PharmD

Mary Carney

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Boston College, MSN

Heather Carpenter-Oliveira

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

Jonathan Carr

Associate Teaching Professor, Theatre; Columbia University, MFA

Michelle Carr

Lecturer, Communication Studies; Kingston University (United Kingdom), MA

Sara Carr

Assistant Professor, Architecture; University of California, Berkeley, PhD

Rebecca L. Carrier

Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

Matthew Carroll

Professor of the Practice, Journalism; Northeastern University, BS

Patricia Case

Assistant Teaching Professor, Health Sciences; Harvard University, PhD

Bonnie Jo Casey

Assistant Clinical Professor, Physician Assistant Program; University of New England, MS

Cristian Cassella

Assistant Professor, Electrical and Computer Engineering; Carnegie Mellon University, PhD

Ana-Maria Castravet

Associate Professor, Mathematics; Massachusetts Institute of Technology, PhD

Smajl Cenjic

Assistant Cooperative Education Coordinator, College of Computer and Information Science; Cambridge College, MA

Jana Cephas

Assistant Professor, Architecture; Harvard University, PhD

Robert J. Cersosimo

Associate Professor, Pharmacy and Health Systems Sciences; University of Utah, PharmD

Christopher Cesario

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Yunrong Chai

Assistant Professor, Biology; Cornell University, PhD

Paul M. Champion

Professor, Physics; University of Illinois, Urbana-Champaign, PhD

Chee Chan

Associate Academic Specialist, Marketing; Michigan State University, PhD

Katherine Chan

Assistant Teaching Professor, Music; University of Minnesota, PhD

Changyan Chen

Research Professor, Center for Drug Discovery; Columbia University, PhD

Qin Chen

Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Old Dominion University, PhD

Yi-Da Chen

Assistant Professor, Supply Chain and Information Management; University of Arizona, PhD

Esther Chewning

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Suffolk University, MS

Cherese Childers-McKee

Assistant Teaching Professor, College of Professional Studies; University of North Carolina, PhD

Elizabeth A. Chilvers

Associate Professor, Cooperative Education, D'Amore-McKim School of Business; Northeastern University, MEd

W. Paul Chiou

Assistant Teaching Professor, Finance; Rutgers University, PhD

David R. Choffnes

Assistant Professor, Computer and Information Science; Northwestern University, PhD

Sam S. Choi

Associate Teaching Professor, Architecture; Harvard University, MArch

Sunho Choi

Assistant Professor, Chemical Engineering; University of Minnesota, PhD

Bartłomiej Chomanski

Visiting Lecturer, Philosophy and Religion; University of Miami, PhD

Chun-An Chou

Assistant Professor, Mechanical and Industrial Engineering; Rutgers University, PhD

Kaushik Roy Chowdhury

Associate Professor, Electrical and Computer Engineering; University of Cincinnati, MS

Ken Y. Chung

Assistant Teaching Professor, Chemistry and Chemical Biology; Michigan State University, PhD

Samuel Chung

Assistant Professor, Bioengineering; Harvard University, PhD

Hillary Chute

Professor, English and Art + Design; Rutgers University, PhD

Dawn M. Cisewski

Assistant Teaching Professor, Psychology; Indiana University of Pennsylvania, PsyD

Bruce H. Clark

Associate Professor, Marketing; Stanford University, PhD

Edmund L. Clark

Associate Academic Specialist, Entrepreneurship and Innovation; Clark University, MBA

Heather Clark

Professor, Bioengineering and Chemistry and Chemical Biology; University of Michigan, PhD

Sean I. Clark

Zelevinsky Research Professor, Mathematics; University of Virginia, PhD

Stephen B. Clark

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Alan Clayton-Matthews

Associate Professor, Public Policy and Urban Affairs and Economics; Boston College, PhD

Sandra S. Cleveland

Associate Clinical Professor, Communication Sciences and Disorders; Pennsylvania College of Optometry, AuD

William D. Clinger

Associate Professor, Computer and Information Science; Massachusetts Institute of Technology, PhD

Paul Closas

Assistant Professor, Electrical and Computer Engineering; Universitat Politècnica de Catalunya (Spain), PhD

Emily Clough

Assistant Professor, Political Science and International Affairs; Harvard University, PhD

Ricardo Coelho Guerreiro Da Silva Camacho

Visiting Lecturer, Architecture; Harvard University, MArch

Dennis Cokely

Professor, American Sign Language; Georgetown University, PhD

Maxine Cokely

Associate Academic Specialist, College of Professional Studies; Bowie State University, MA

Stephanie Colbry

Assistant Teaching Professor, College of Professional Studies; Eastern University, PhD

John D. Coley

Associate Professor, Psychology; University of Michigan, PhD

Greg Collier

Professor of the Practice, Entrepreneurship and Innovation; Eastern Michigan University, MBA

Randall C. Colvin

Associate Professor, Psychology; University of Illinois, Urbana-Champaign, PhD

Sally Conant

Assistant Cooperative Education Coordinator, College of Engineering; Salve Regina University, MA

Michael Conley

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

Richard Conley

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston University, JD

Kelly Conn

Associate Teaching Professor, College of Professional Studies; Boston University, PhD

Adam I. Cooper

Senior Lecturer, Linguistics; Cornell University, PhD

Seth Cooper

Assistant Professor, Computer and Information Science; University of Washington, PhD

Gene D. Cooperman

Professor, Computer and Information Science; Brown University, PhD

Ryan Cordell

Assistant Professor, English; University of Virginia, PhD

Marie B. Corkery

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Patricia Corrigan

Assistant Cooperative Education Coordinator, College of Science; Suffolk University, MA

Felipe Cortes

Assistant Professor, Finance; Washington University, St. Louis, PhD

Xavier Costa

Professor, Architecture; University of Pennsylvania, PhD

Hugh G. Courtney

Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

Arthur J. Coury

University Distinguished Professor, Chemical Engineering; University of Minnesota, PhD

Erin J. Cram

Professor, Biology; University of California, Berkeley, PhD

Frederick Crane

Senior Academic Specialist, Entrepreneurship and Innovation; Bradford University, PhD

Justin D. Crane

Assistant Professor, Biology; McMaster University (Canada), PhD

Steven Cranford

Assistant Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

William F. Crittenden

Professor, International Business and Strategy; University of Arkansas, PhD

Maia Cross

Associate Professor, Political Science and International Affairs; Princeton University, PhD

Robert Cross

Assistant Teaching Professor, History; Princeton University, PhD

Pedro Miguel Cruz

Assistant Professor, Art + Design; Universidade de Coimbra (Portugal), PhD

Alvaro Cuervo-Cazurra

Professor and Robert Morrison Fellow, International Business and Strategy; Massachusetts Institute of Technology, PhD

Carlos Cuevas

Associate Professor, Criminology and Criminal Justice; Alliant International University, PhD

Meng Cui

Research Associate Professor, Pharmaceutical Sciences; Jilin University (China), PhD

Thomas P. Cullinane

Professor, Mechanical and Industrial Engineering; Virginia Polytechnic Institute and State University, PhD

Derek Curry

Assistant Professor, Art + Design; University of California, Los Angeles, MFA

Mary Ellen Cushman

Professor, English; Rensselaer Polytechnic Institute, PhD

Julia Cybularz

Visiting Associate Teaching Professor, Art + Design; School of Visual Arts, MFA

Kamran Dadkhah

Associate Professor, Economics; Indiana University, PhD

Guohao Dai

Associate Professor, Bioengineering; Massachusetts Institute of Technology, PhD

Elise J. Dallimore

Associate Professor, Communication Studies; University of Washington, PhD

James Dana Jr.

Professor, Economics and International Business and Strategy; Massachusetts Institute of Technology, PhD

Luis Dau

Associate Professor, International Business and Strategy; University of South Carolina, PhD

Geoffrey Davies

Matthews Distinguished University Professor, Chemistry and Chemical Biology; Birmingham University (United Kingdom), PhD, DSc

Duncan Davis

Assistant Teaching Professor, Engineering; North Carolina State University, PhD

Frederick C. Davis

Professor, Biology; University of Texas, Austin, PhD

Nicole Davis

Assistant Clinical Professor, Applied Psychology; Simmons College, MS

Theo Davis

Professor, English; Johns Hopkins University, PhD

Leslie Day

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

Anthony P. De Ritis

Professor, Music; University of California, Berkeley, PhD

Michael Dean

Assistant Teaching Professor, College of Professional Studies; Columbia University, PhD

Adenekan (Nick) Dedeke

Lecturer, Supply Chain and Information Management; Technische Universität Kaiserslautern (Germany), PhD

Mohammad Dehghanimohammadabadi

Assistant Teaching Professor, Mechanical and Industrial Engineering; Western New England University, PhD

Candice Delmas

Assistant Professor, Philosophy and Religion and Political Science; Boston University, PhD

John Dencker

Professor, Management and Organizational Development; Harvard University, PhD

Jack Dennerlein

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of California, PhD

Megan Denver

Assistant Professor, Criminology and Criminal Justice; University at Albany, PhD

Alexander DePaoli

Visiting Assistant Professor, Marketing; Stanford University, PhD

Leila F. Deravi

Assistant Professor, Chemistry and Chemical Biology; Vanderbilt University, PhD

Nate Derbinsky

Associate Teaching Professor, Computer and Information Science; University of Michigan, Ann Arbor, PhD

Marco Deseriis

Assistant Professor, Media and Screen Studies; New York University, PhD

Peter J. Desnoyers

Associate Professor, Computer and Information Science; University of Massachusetts, Amherst, PhD

David A. DeSteno

Professor, Psychology; Yale University, PhD

H. William Detrich

Professor, Marine and Environmental Sciences; Yale University, PhD

Darin Detwiler

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

John W. Devlin

Professor, Pharmacy and Health Systems Sciences; University of Toronto (Canada), PharmD

James Dew

Visiting Lecturer, Economics; Texas AM University, PhD

Janet Dewan

Assistant Clinical Professor, Nursing; Northeastern University, PhD

Alessandra Di Credico

Lecturer, Physics; University of Rome (Italy), PhD

Panagoula Diamanti-Karanou

Visiting Lecturer, Political Science and International Affairs; Northeastern University, PhD

Jacqueline Diani

Senior Cooperative Education Coordinator, Bouvé College of Health Sciences; University of Virginia, MEd

Martin Dias

Associate Teaching Professor, Supply Chain and Information Management; Bentley University, PhD

Amy DiBattista

Lecturer, Psychology; Northeastern University, PhD

William Dickens

Professor, Economics and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

Elizabeth Dillon

Professor, English; University of California, Berkeley, PhD

Charles DiMarzio

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

Aidong A. Ding

Associate Professor, Mathematics; Cornell University, PhD

Kathleen C. Dioli

Associate Cooperative Education Coordinator, Chemistry and Chemical Biology; Bowling Green State University, MA

Brandon Dionne

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; University of New England, PharmD

Daniel L. Distel

Research Professor, Marine and Environmental Sciences; University of California, San Diego, PhD

Margarita V. DiVall

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

Mary Kate Dodgson

Assistant Professor, Accounting; University of Massachusetts, Amherst, PhD

Lisa Cantwell Doherty

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MA

Silvia Dominguez

Associate Professor, Sociology and Anthropology; Boston University, PhD

Hua Dong

Associate Academic Specialist, World Languages Center; Emerson College, MA

Pamela Donlan

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

Margaret Dougherty

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, EdD

Brenda Douglas

Associate Clinical Professor, Nursing; Northeastern University, DNP

Daniel C. Douglass

Lecturer, Marine and Environmental Sciences; University of Wisconsin, PhD

Mark Douglass

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Michigan, PharmD

Kevin Drakulich

Associate Professor, Criminology and Criminal Justice; University of Washington, PhD

Andrea Dropkin

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Bentley University, MBA

Laura Dudley

Assistant Clinical Professor, Applied Psychology; Northeastern University, PhD

Lisa Duffy

Assistant Professor, Nursing; Boston College, DNP

Tara Duffy

Lecturer, Marine and Environmental Sciences; Stony Brook University, PhD

Molly Dugan

Assistant Teaching Professor, College of Professional Studies; Boston College, PhD

Michael Dukakis

Distinguished Professor, Political Science; Harvard University, JD

Daniel M. Dulaski

Teaching Professor, Civil and Environmental Engineering; University of Massachusetts, Amherst, PhD

Catherine Dunand

Assistant Academic Specialist, World Languages Center; Boston University, MA

Jill Dupree

Visiting Lecturer, Economics; University of Colorado, Boulder, PhD

Joanne Dupuis

Assistant Clinical Professor, Nursing; Massachusetts School of Law, PhD

Kathleen Durant

Assistant Teaching Professor, Computer and Information Science; Harvard University, PhD

Jennifer G. Dy

Professor, Electrical and Computer Engineering; Purdue University, PhD

Eno Ebong

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

Stephanie Eby

Lecturer, Marine and Environmental Sciences; Syracuse University, PhD

Rajagopal Echambadi

Professor, Entrepreneurship and Innovation; University of Houston, PhD

Matthew Eckelman

Assistant Professor, Civil and Environmental Engineering; Yale University, PhD

Kimberly Eddleston

Professor and Daniel and Dorothy Grady Faculty Fellow, Entrepreneurship and Innovation; University of Connecticut, PhD

Scott Edmiston

Professor of the Practice, Theatre; Boston University, MFA

Laurie Edwards

Associate Teaching Professor, Writing Program; Emerson College, MFA

Jessica Edwards George

Associate Clinical Professor, Applied Psychology; Northeastern University, PhD

Christopher L. Egan

Assistant Cooperative Education Coordinator, College of Science; Boston University, MA

Jean Egan

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Northeastern University, MEd

Robert C. Eidson

Lecturer, Psychology; Northeastern University, PhD

Stanley J. Eigen

Professor, Mathematics; McGill University (Canada), PhD

Adam Ekenseair

Assistant Professor, Chemical Engineering; University of Texas, Austin, PhD

Ehsan Elhamifar

Assistant Professor, Computer and Information Science; Johns Hopkins University, PhD

Tina Eliassi-Rad

Associate Professor, Computer and Information Science; University of Wisconsin, Madison, PhD

B. Parker Ellen

Assistant Professor, Management and Organizational Development; Florida State University, PhD

Ryan Ellis

Assistant Professor, Communication Studies; University of California, San Diego, PhD

Constance Emerson

Assistant Academic Specialist, College of Professional Studies; Purdue University, West Lafayette, MS

John R. Engen

Distinguished Professor, Chemistry and Chemical Biology and Barnett Institute; University of Nebraska, Lincoln, PhD

Christen Enos

Associate Teaching Professor, Writing Program; Emerson College, MFA

Slava S. Epstein

Distinguished Professor, Biology; Moscow State University (Russia), PhD

Randall Erb

Assistant Professor, Mechanical and Industrial Engineering; Duke University, PhD

Deniz Erdogmus

Professor, Electrical and Computer Engineering; University of Florida, PhD

Ozlem Ergun

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

Cuneyt Eroglu

Associate Professor, Supply Chain and Information Management; Ohio State University, PhD

Bilge Erten

Assistant Professor, International Affairs and Economics; University of Massachusetts, Amherst, PhD

Rhea T. Eskew

Professor, Psychology; Georgia Institute of Technology, PhD

Jonathan Esole

Assistant Professor, Mathematics; Leiden University (Netherlands), PhD

Abigail Evans

Lecturer, Computer and Information Science; University of Washington, PhD

Sara Ewell

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

William Ewell

Associate Teaching Professor, College of Professional Studies; University of North Carolina, PhD

Daniel Faber

Professor, Sociology and Anthropology; University of California, Santa Cruz, PhD

Mary Lynn Fahey

Clinical Instructor, Nursing; Simmons College, MS

Olubunmi Faleye

Professor and Donald F. Harding Professor of Finance and Insurance, Finance; University of Alberta (Canada), PhD

Hui Fang

Assistant Professor, Electrical and Computer Engineering; University of California, Berkeley, PhD

Qianqian Fang

Assistant Professor, Bioengineering; Dartmouth College, PhD

David Fannon

Assistant Professor, Architecture and Civil and Environmental Engineering; University of California, Berkeley, MS

Nasser S. Fard

Associate Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

Amir Farhat

Associate Teaching Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

Amy Farrell

Associate Professor, Criminology and Criminal Justice; Northeastern University, PhD

Yunsi Fei

Professor, Electrical and Computer Engineering; Princeton University, PhD

Adrian E. Feiguin

Assistant Professor, Physics; Universidad Nacional de Rosario (Argentina), PhD

Allen G. Feinstein

Teaching Professor, Music; New England Conservatory of Music, MM

Nathan I. Felde

Professor, Art + Design; Massachusetts Institute of Technology, MS

Lisa Feldman Barrett

University Distinguished Professor, Psychology; University of Waterloo (Canada), PhD

Matthias Felleisen

Trustee Professor, Computer and Information Science; Indiana University, PhD

Samuel Felton

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

Carol Femia

Clinical Instructor, Nursing; Massachusetts General Hospital Institute of Health Professions, MS

Hicham Fenniri

Professor, Chemical Engineering; Université de Strasbourg (France), PhD

Loretta A. Fernandez

Assistant Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

Waththage N. Fernando

Lecturer, Mathematics; University of South Florida, PhD

Lori Ferrins

Research Assistant Professor, Chemistry and Chemical Biology; Monash University, PhD

Craig F. Ferris

Professor, Psychology and Pharmaceutical Sciences; New York Medical College, PhD

Kirsten Fertuck

Assistant Teaching Professor, Biochemistry; Michigan State University, PhD

Susan F. Fine

Clinical Instructor, Communication Sciences and Disorders; New York University, MA

Sarah Finn

Associate Teaching Professor, Writing Program; University of Massachusetts, Amherst, PhD

Branden Fitelson

Distinguished Professor, Philosophy and Religion; California Institute of Technology, PhD

Brian Fitzgerald

Assistant Professor, Accounting; Texas AM University, PhD

Joan Fitzgerald

Professor, Public Policy and Urban Affairs; Pennsylvania State University, PhD

Diane F. Fitzpatrick

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Josephine Flanagan

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, JD

Julia Flanders

Professor of the Practice, English and Library Systems; Brown University, PhD

Laure B. Flapan

Zelevinsky Research Professor, Mathematics; University of California, Los Angeles, PhD

Eric Folmar

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Quinnipiac University, MS

Paul Fombelle

Associate Professor and Thomas Moore Faculty Fellow, Marketing; Arizona State University, PhD

Murray Forman

Professor, Media and Screen Studies; McGill University (Canada), PhD

Lisa M. Foster

Assistant Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

Dimitrios Fotiadis

Lecturer, Supply Chain and Information Management; Northeastern University, MS

Brooke Foucault Welles

Assistant Professor, Communication Studies; Northwestern University, PhD

Charles F. Fountain

Professor, Journalism; Columbia University, MS

James Fox

Lipman Family Professor of Criminology, Law, and Public Policy, Criminology and Criminal Justice and Law and Public Policy; University of Pennsylvania, PhD

Laura Frader

Professor, History; University of Rochester, PhD

Debra L. Franko

Professor, Applied Psychology; McGill University (Canada), PhD

Peter Fraunholtz

Assistant Teaching Professor, History and International Affairs; Boston College, PhD

Susan Freeman

Teaching Professor, Engineering; Northeastern University, PhD

Clark Freifeld

Lecturer, Computer and Information Science; Boston University, PhD

Michael Frengel

Associate Academic Specialist, Music; City University London (United Kingdom), PhD

John H. Friar

Senior Academic Specialist, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

Natasha Frost

Professor, Criminology and Criminal Justice; City University of New York, PhD

Yun (Raymond) Fu

Associate Professor, Electrical and Computer Engineering and Computer and Information Science; University of Illinois, Urbana-Champaign, PhD

Carolyn Fuchs

Teaching Professor, World Languages Center; Justus-Liebig Universität Gießen (Germany), PhD

Brian Fulton

Lecturer, Chemistry and Chemical Biology; Iowa State University, PhD

Peter G. Furth

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

Timothy Gagnon

Associate Academic Specialist, Accounting; Sacred Heart University, MBA

Sean Gallagher

Assistant Clinical Professor, College of Professional Studies; Northeastern University, EdD

Susan Gallagher

Clinical Instructor, Nursing; Massachusetts General Hospital Institute of Health Professions, MS

Joshua Galloway

William O. DiPietro Assistant Professor, Chemical Engineering; Columbia University, PhD

Auroop Ganguly

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

Lori Gardinier

Teaching Professor, Human Services; Northeastern University, PhD

Julie Garey

Assistant Teaching Professor, Political Science; Northeastern University, PhD

Karen Garneau

Associate Teaching Professor, Writing Program; Northeastern University, PhD

Shytierra Gaston

Assistant Professor, Criminology and Criminal Justice; University of Missouri, St. Louis, PhD

Wolfgang Gatterbauer

Associate Professor, Computer and Information Science; Vienna University of Technology (Austria), PhD

Edward Geisinger

Assistant Professor, Biology; New York University, MD, PhD

Prasanth George

Assistant Teaching Professor, Mathematics; State University of New York, Buffalo, PhD

Francis Georges

Assistant Teaching Professor, Economics; Boston College, PhD

Roger W. Giese

Professor, Pharmaceutical Sciences; Massachusetts Institute of Technology, PhD

Joseph M. Giglio

Senior Academic Specialist, International Business and Strategy; Northeastern University, PhD

Thomas R. Gilbert

Associate Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

Laurance Ginsberg

Assistant Academic Specialist, Accounting; Bentley University, MST

Karen Giuliano

Associate Professor, Nursing; Boston College, PhD

Daniel G. Glasscock

Zelevinsky Research Professor, Mathematics; Ohio State University, PhD

Leonard J. Glick

Senior Academic Specialist, Management and Organizational Development; Harvard University, EdD

Elizabeth Glowacki

Postdoctoral Teaching Associate, Communication Studies; University of Texas, Austin, PhD

Daniel Godfrey

Professor, Music; University of Iowa, PhD

Veronica S. Godoy-Carter

Associate Professor, Biology; Tufts University, PhD

Kevin Gold

Assistant Teaching Professor, Computer and Information Science; Yale University, PhD

Natalia Gold

Assistant Teaching Professor, International Business and Strategy; Saint Petersburg State University of Engineering (Russia), PhD

Stephen Golden

Lecturer, Entrepreneurship and Innovation; Suffolk University, MBA

William Goldman

Lecturer, Accounting; Northeastern University, MBA

Ann C. Golub-Victor

Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Edgar D. Goluch

Associate Professor, Chemical Engineering; University of Illinois, Urbana-Champaign, PhD

Kathleen Gonso

Associate Teaching Professor, Writing Program; Emerson College, MFA

Michael J. Gonyeau

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

Frankie Gonzalez

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, BS

Gregory Goodale

Associate Professor, Communication Studies; University of Illinois, Urbana-Champaign, PhD

Teresa Goode

Assistant Teaching Professor, College of Professional Studies; Columbia University, EdD

Patricia Goodman

Assistant Teaching Professor, College of Professional Studies; George Washington University, EdD

Matthew Goodwin

Associate Professor, Health Sciences and Computer and Information Science; University of Rhode Island, PhD

Mark Gooley

Lecturer, Finance; Northeastern University, PhD

Ian Gorton

Professor of the Practice, Computer and Information Science; Sheffield Hallam University (United Kingdom), PhD

Gary Goshgarian

Professor, English; University of Wisconsin, Madison, PhD

Tarik C. Gouhier

Assistant Professor, Marine and Environmental Sciences; McGill University (Canada), PhD

Robson Goulart

Assistant Cooperative Education Coordinator, College of Engineering;
Boston University, MS

Andrew Gouldstone

Associate Professor, Mechanical and Industrial Engineering;
Massachusetts Institute of Technology, PhD

Jonathan H. Grabowski

Associate Professor, Marine and Environmental Sciences; University of
North Carolina, Chapel Hill, PhD

Jennifer Gradecki

Assistant Professor, Art + Design; University of California, Los Angeles,
MFA

Steve Granelli

Assistant Teaching Professor, Communication Studies; Syracuse
University, MS

Laura Green

Professor, English; University of California, Berkeley, PhD

Kristin Curry Greenwood

Associate Clinical Professor, Physical Therapy, Movement, and
Rehabilitation Sciences; Northeastern University, EdD, DPT

Brent Griffin

Assistant Teaching Professor, College of Professional Studies;
Northeastern University, PhD

Jacqueline Griffin

Assistant Professor, Mechanical and Industrial Engineering; Georgia
Institute of Technology, PhD

Joseph Griffin

Associate Teaching Professor, College of Professional Studies; Gordon
Conwell Theological Seminary, PhD

John Griffith

Clinical Professor, Health Sciences; Boston University, PhD

Amir Grinstein

Associate Professor, Mark L. and Karen D. Vachon Faculty Fellow,
Marketing; Hebrew University of Jerusalem (Israel), PhD

Francesca Grippa

Associate Teaching Professor, College of Professional Studies; University
of Salento (Italy), PhD

Craig Gruber

Associate Teaching Professor, College of Professional Studies; Clark
University, PhD

Tiantian Gu

Associate Professor, Finance; University of Wisconsin, Madison, PhD

Jason J. Guo

Research Associate Professor, Barnett Institute; University of
Connecticut, PhD

Surendra M. Gupta

Professor, Mechanical and Industrial Engineering; Purdue University, PhD

Andrei Guschin

Assistant Teaching Professor, Graduate School of Engineering; Russian
Academy of Sciences (Russian Federation), PhD

Philip Gust

Clinical Instructor, Computer and Information Science; University of
Arizona, MS

Barbara Guthrie

Professor, Nursing; New York University, PhD

Mohamed Habibullah

Assistant Teaching Professor, Supply Chain and Information
Management; University of Missouri, Columbia, PhD

David Hagen

Assistant Teaching Professor, College of Professional Studies; New
England School of Law, JD

Michelle Hagopian

Assistant Cooperative Education Coordinator, College of Arts, Media and
Design; University of Illinois, MS

Jerome F. Hajjar

CDM Smith Professor in Civil Engineering, Civil and Environmental
Engineering; Cornell University, PhD

Golnoosh Hakimdavar

Associate Teaching Professor, College of Professional Studies; University
of Turin (Italy), PhD

Danielle Haley

Assistant Professor, Health Sciences; Emory University, PhD

Judith A. Hall

University Distinguished Professor, Psychology; Harvard University, PhD

James Halverson

Assistant Professor, Physics; University of Pennsylvania, PhD

Pauline Hamel

Associate Clinical Professor, Health Sciences; Boston University, EdD

Paul Hand

Assistant Professor, Mathematics and Computer and Information
Science; New York University, PhD

Michael Handel

Associate Professor, Sociology and Anthropology; Harvard University,
PhD

Nancy Hanrahan

Professor, Nursing; Boston College, PhD

Robert N. Hanson

Matthews Distinguished University Professor, Chemistry and Chemical
Biology; University of California, Berkeley, PhD

Sharon Harlan

Professor, Health Sciences and Sociology and Anthropology; Cornell
University, PhD

Kelly Harrington

Associate Cooperative Education Coordinator, D'Amore-McKim School of
Business; Suffolk University, MBA

Shaunna Harrington

Associate Academic Specialist, College of Professional Studies; Boston
University, MA

Vincent Harris

University Distinguished Professor, William Lincoln Smith Professor of Electrical and Computer Engineering, Electrical and Computer Engineering; Northeastern University, PhD

Vanecia Harrison

Associate Cooperative Education Coordinator, College of Science; Emmanuel College, MA

Casper Harteveld

Assistant Professor, Game Design; Delft University of Technology (Netherlands), PhD

Woodrow Hartzog

Professor, Law and Computer and Information Science; University of North Carolina, Chapel Hill, PhD

Christopher Hasson

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Massachusetts, Amherst, PhD

Heather Hauck

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

Claudia Haupt

Associate Professor, Law and Political Science; Columbia University, JSD; University of Cologne (Germany), PhD

Thomas Havens

Professor, History; University of California, Berkeley, PhD

Lorna Hayward

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, EdD

Haikun He

Assistant Academic Specialist, College of Professional Studies; Columbia University, MEd

Julia Hechtman

Lecturer, Art + Design; University of Illinois, Chicago, MFA

Meghan Heckman

Assistant Professor, Journalism; Northeastern University, MA

Gretchen Heefner

Associate Professor, History; Yale University, PhD

Donald E. Heiman

Professor, Physics; University of California, Irvine, PhD

Amy Helburn

Lorraine C. Snell Visiting Professor, Health Sciences; University of Massachusetts, PhD

Brian Helmuth

Professor, Marine and Environmental Sciences and Public Policy and Urban Affairs; University of Washington, PhD

Jason Hemann

Lecturer, Computer and Information Science; Indiana University, PhD

Carlene Hempel

Associate Teaching Professor, Journalism; University of North Carolina, Chapel Hill, MA

Dale Herbeck

Professor, Communication Studies; University of Iowa, PhD

Angela Herbert

Assistant Academic Specialist, American Sign Language; Northeastern University, BS

David A. Herlihy

Teaching Professor, Music; Boston College, JD

Catalina Herrera Almanza

Assistant Professor, Economics and International Affairs; Cornell University, PhD

Carie Hersh

Assistant Teaching Professor, Sociology and Anthropology; Duke University, JD

Kelsey Hersh

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MS

Joshua Hertz

Assistant Teaching Professor, Engineering; Massachusetts Institute of Technology, PhD

Benjamin Hescott

Teaching Professor, Computer and Information Science; Boston University, PhD

Kamber Hetrick

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

Babak Heydari

Associate Professor, Mechanical and Industrial Engineering; University of California, Berkeley, PhD

Mary J. Hickey

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Carlos Hidrovo Chavez

Assistant Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

Logan M. Higgins

Lecturer, Biology; Massachusetts Institute of Technology, PhD

Malcolm D. Hill

Associate Professor, Marine and Environmental Sciences; University of California, Santa Cruz, PhD

Charles H. Hillman

Professor, Psychology and Health Sciences; University of Maryland, College Park, PhD

Robin Hillyard

Associate Teaching Professor, Graduate School of Engineering; Cambridge University (United Kingdom), PhD

John Hinson

Assistant Teaching Professor, Theatre; Brandeis University, MFA

Tad Hirsch

Professor, Art + Design; Massachusetts Institute of Technology, PhD

Hubert Ho

Lecturer, Music; University of California, Berkeley, PhD

Marie Odile Hobeika

Postdoctoral Teaching Associate, Communication Studies; University of Pittsburgh, PhD

Lynda Hodgson

Associate Teaching Professor, College of Professional Studies; Virginia Commonwealth University, PhD

Timothy Hoff

Professor, Management and Organizational Development and Public Policy and Urban Affairs; State University of New York, Albany, PhD

Jessica Hoffman

Associate Professor, Applied Psychology; Lehigh University, PhD

Uwe Hohgrawe

Assistant Teaching Professor, College of Professional Studies; University of Wuppertal (Germany), PhD

Udi Hoitash

Associate Professor and Cowan Research Professor, Accounting; Rutgers University, PhD

Trenton Honda

Assistant Clinical Professor, Physician Assistant Program; Northeastern University, PhD

Michael J. Hoppmann

Associate Teaching Professor, Communication Studies; University of Tübingen (Germany), PhD

Adam Hosein

Associate Professor, Philosophy and Religion; Massachusetts Institute of Technology, PhD

Elizabeth M. Howard

Associate Professor, Nursing; Boston College, PhD

Jeffrey P. Howe

Assistant Professor, Journalism; Boston University, MFA

Hanchen Huang

Donald D. Smith Professor in Mechanical Engineering, Mechanical and Industrial Engineering; University of California, Los Angeles, PhD

Anne R. Hughes

Associate Professor, Marine and Environmental Sciences; University of California, Davis, PhD

Francisco Hung

Associate Professor, Chemical Engineering; North Carolina State University, PhD

Matthew Hunt

Professor, Sociology and Anthropology; Indiana University, PhD

Patrick Hurley

Assistant Professor, Accounting; University of Wisconsin, Madison, PhD

Mark Huselid

Distinguished Professor of Workforce Analytics, International Business and Strategy; State University of New York, Buffalo, PhD

Roxana E. Iacob

Research Associate Professor, Chemistry and Chemical Biology; Konstanz University (Germany), PhD

Anthony Iarrobino

Professor, Mathematics; Massachusetts Institute of Technology, PhD

Patricia Illingworth

Professor, Philosophy and Religion; University of California, San Diego, PhD; Boston University, JD

Jennifer Ingemi

Assistant Teaching Professor, Behavioral Neuroscience; University of Massachusetts, PhD

Vinay K. Ingle

Associate Professor, Electrical and Computer Engineering; Rensselaer Polytechnic Institute, PhD

Francesca Inglese

Assistant Professor, Music; Brown University, PhD

Rei Inouye

Associate Teaching Professor, World Languages Center; Temple University, PhD

Stephen S. Intille

Associate Professor, Computer and Information Science and Health Sciences; Massachusetts Institute of Technology, PhD

Efstratios Ioannidis

Assistant Professor, Electrical and Computer Engineering; University of Toronto (Canada), PhD

Roderick Ireland

Distinguished Professor, Criminology and Criminal Justice; Harvard University, LL.M.; Northeastern University, PhD

Derek M. Isaacowitz

Professor, Psychology; University of Pennsylvania, PhD

Jacqueline A. Isaacs

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

Michelle L. Israel

Associate Cooperative Education Coordinator, College of Science; Northeastern University, MS

Nathan E. Israeloff

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

Alexander R. Ivanov

Associate Professor, Chemistry and Chemical Biology; Russian Academy of Science, Institute of Bioorganic Chemistry (Moscow), PhD

Maura Daly Iversen

Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Harvard University, SD; Massachusetts General Hospital Institute of Health Professions, DPT

Julia Ivy

Associate Teaching Professor, International Business and Strategy; Lancaster University (United Kingdom), PhD

Denise Jackson

Associate Professor, Psychology; University of Pittsburgh, PhD

Ellen Jackson

Assistant Teaching Professor, Writing Program; Stanford University, MFA

Sarah Jackson

Assistant Professor, Communication Studies; University of Minnesota, PhD

William J. Jackson

Senior Cooperative Education Coordinator, College of Arts, Media and Design; University of Massachusetts, Boston, MEd

Michelle Jacobs

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; University of California, San Francisco, PharmD

Beverly Jaeger-Helton

Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

Michael Jaeggli

Assistant Teaching Professor, Bioengineering; Clemson University, PhD

Nader Jalili

Professor, Mechanical and Industrial Engineering; University of Connecticut, PhD

Safa Jamali

Assistant Professor, Mechanical and Industrial Engineering; Case Western Reserve University, PhD

Bogume Jang

Lecturer, Mathematics; Purdue University, PhD

Solomon M. Jekel

Associate Professor, Mathematics; Dartmouth College, PhD

Qingying Jia

Research Assistant Professor, Chemistry and Chemical Biology; Illinois Institute of Technology, PhD

Benedict Jimenez

Associate Professor, Political Science; University of Illinois, Chicago, PhD

Holly Jimison

Professor of the Practice, Computer and Information Science and Nursing; Stanford University, PhD

Xiaoning Jin

Assistant Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

Xuemin Jin

Associate Teaching Professor, Mechanical and Industrial Engineering; University of Maryland, PhD

Donghee Jo

Assistant Professor, Economics; Duke University, MA

Dinesh John

Assistant Professor, Health Sciences; University of Tennessee, PhD

Brooke Johnson

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

Steven Johnson

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

Vanessa D. Johnson

Associate Professor, Applied Psychology; Western Michigan University, PhD

Kimberly Jones

Associate Teaching Professor, International Affairs; Northeastern University, PhD

Rachel Jones

Associate Professor, Nursing; New York University, PhD

Thomas Jones

Associate Professor, Sociology and Anthropology and Sociology and Anthropology; Princeton University, PhD

Dierdre Jordan

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Northeastern University, MS

Tiffany Joseph

Associate Professor, Sociology and Anthropology and International Affairs; University of Michigan, PhD

Alison Joyce

Assistant Cooperative Education Coordinator, College of Engineering; Ohio University, MEd

Maria Jump

Associate Teaching Professor, Computer and Information Science; University of Texas, Austin, PhD

Yung Joon Jung

Professor, Mechanical and Industrial Engineering; Rensselaer Polytechnic Institute, PhD

Jeffrey Juris

Associate Professor, Sociology and Anthropology; University of California, Berkeley, PhD

David R. Kaeli

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Rutgers University, PhD

Sallyann Kakas

Assistant Cooperative Education Coordinator, Finance; Northeastern University, BS

Jayant Kale

Professor and Philip R. McDonald Chair, Finance; University of Texas, Austin, PhD

Sagar V. Kamarthi

Professor, Mechanical and Industrial Engineering; Pennsylvania State University, PhD

John Kane

Lecturer, Art + Design; Yale University, BA

Mary M. Kane

Senior Cooperative Education Coordinator, D'Amore-McKim School of Business; University of Massachusetts, Boston, MEd

Michael Kane

Assistant Professor, Civil and Environmental Engineering; University of Michigan, PhD

Sarah Kanouse

Associate Professor, Art + Design; University of Illinois, Urbana-Champaign, MFA

Carla Kaplan

Davis Distinguished Professor in American Literature, English and Women's, Gender, and Sexuality Studies; Northwestern University, PhD

Swastik Kar

Associate Professor, Physics; Indian Institute of Physics (India), PhD

Samina Karim

Professor, Entrepreneurship and Innovation; University of Michigan, PhD

Alain S. Karma

College of Arts and Sciences Distinguished Professor, Physics; University of California, Santa Barbara, PhD

Edward Katz

Associate Teaching Professor, Computer and Information Science; University of Louisiana, Lafayette, PhD

Ralph Katz

Professor, Entrepreneurship and Innovation; University of Pennsylvania, PhD

Jonathan Kaufman

Professor, Journalism; Harvard University, MA

William Kay

Associate Professor, Political Science; Indiana University, PhD

Bret Keeling

Associate Teaching Professor, Writing Program; University of Washington, PhD

Maureen Kelleher

Associate Professor, Sociology and Anthropology; University of Missouri, Columbia, PhD

Karen P. Kelley

Senior Cooperative Education Coordinator, College of Engineering; Northeastern University, MEd

Ryann Kelley

Associate Cooperative Education Coordinator, Finance; Northeastern University, MEd

Thomas M. Kelley

Lecturer, Physics; University of Minnesota, PhD

Kathleen Kelly

Professor, English; University of North Carolina, Chapel Hill, PhD

Mary Kelting

Associate Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

Daniel D. Kennedy

Associate Professor, Journalism; Boston University, MLA

Aileen Kent Yates

Assistant Cooperative Education Coordinator, College of Computer and Information Science; University of Massachusetts, Amherst, BA

Heidi Kevoe Feldman

Associate Professor, Communication Studies; Rutgers University, PhD

Leila Keyvani Someh

Assistant Teaching Professor, Engineering; Northeastern University, PhD

Ban-An Khaw

Professor, Pharmaceutical Sciences; Boston College, PhD

Konstantin Khrapko

Professor, Biology and Pharmaceutical Sciences; Engelhardt Institute of Molecular Biology, Moscow (Russia), PhD

Ilham Khuri-Makdisi

Associate Professor, History; Harvard University, PhD

Sheri Kiami

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Simmons College, DPT

Angela Kilby

Assistant Professor, Economics; Massachusetts Institute of Technology, PhD

Daniel Kim

Associate Professor, Health Sciences; University of Toronto (Canada), MD; Harvard University, PhD

Eunsong Kim

Assistant Professor, English; University of Texas, Austin, PhD

Jonghan Kim

Assistant Professor, Pharmaceutical Sciences; Ohio State University, PhD

Miso Kim

Assistant Professor, Art + Design; Carnegie Mellon University, PhD

Nancy S. Kim

Associate Professor, Psychology; Yale University, PhD

Somy Kim

Associate Teaching Professor, Writing Program; University of California, San Diego, PhD

Tiffany Kim

Assistant Clinical Professor, Nursing; University of Pennsylvania, PhD

Yong-Bin Kim

Professor, Electrical and Computer Engineering; Colorado State University, PhD

John Kimani

Assistant Teaching Professor, Electrical and Computer Engineering; University of Wisconsin, Milwaukee, PhD

David L. Kimbro

Assistant Professor, Marine and Environmental Sciences; University of California, Davis, PhD

Nancy Kimelman

Assistant Teaching Professor, Economics; Brown University, PhD

Nancy Kindelan

Professor, Theatre; University of Wisconsin, Madison, PhD

Christopher K. King

Professor, Mathematics; Harvard University, PhD

Donald R. King

Associate Professor, Mathematics; Massachusetts Institute of Technology, PhD

Margaret Kirchoff

Assistant Teaching Professor, College of Professional Studies; George Washington University, EdD

Engin Kirda

Professor, Computer and Information Science and Electrical and Computer Engineering; Technical University of Vienna (Austria), PhD

Rein U. Kirss

Associate Professor, Chemistry and Chemical Biology; University of Wisconsin, Madison, PhD

Jennifer L. Kirwin

Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

Risa Kitagawa

Assistant Professor, Political Science and International Affairs; Stanford University, PhD

Mark Kjellman

Assistant Teaching Professor, Writing Program; Boston University, PhD

Alan Klein

Professor, Sociology and Anthropology; State University of New York, Buffalo, PhD

Sarah Klionsky

Assistant Cooperative Education Coordinator, College of Science; University of Wisconsin, Madison, MA

Kristian Kloeckl

Associate Professor, Art + Design and Architecture; University of Venice (Italy), PhD

Thomas Koenig

Professor, Sociology and Anthropology; University of California, Santa Barbara, PhD

Mieczyslaw M. Kokar

Professor, Electrical and Computer Engineering; University of Wroclaw (Poland), PhD

Tali Konry

Assistant Professor, Pharmaceutical Sciences; Ben Gurion University (Israel), PhD

Constantin Konstantopoulos

Associate Teaching Professor, Graduate School of Engineering; Boston University, PhD

Abigail N. Koppes

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

Ryan Koppes

Assistant Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

Sarah Kostanski

Assistant Cooperative Education Coordinator, College of Engineering; Framingham State University, MS

Ilka Kostka

Assistant Teaching Professor, College of Professional Studies; New York University, PhD

Harilaos Koutsopoulos

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

Linda Kowalczyk

Professor of the Practice, Public Policy and Urban Affairs; Johns Hopkins University, PhD

Gregory J. Kowalski

Associate Professor, Mechanical and Industrial Engineering; University of Wisconsin, Madison, PhD

Sergey Kravchenko

Professor, Physics; Institute of Solid State Physics (Russia), PhD

Caroline Krehbiel

Visiting Assistant Professor, Applied Psychology; Lehigh University, PhD

Dmitri Krioukov

Associate Professor, Physics; Old Dominion University, PhD

Ganesh Krishnamoorthy

Professor, Accounting; University of Southern California, PhD

Karthik Krishnan

Associate Professor, Finance; Boston College, PhD

Louis J. Kruger

Associate Professor, Applied Psychology; Rutgers University, PsyD

Laura Kuhl

Assistant Professor, Public Policy and Urban Affairs and International Affairs; Tufts University, PhD

Abhishek Kumar

Assistant Teaching Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

Venkat Kuppuswamy

Assistant Professor, Entrepreneurship and Innovation; Harvard Business School, DBA

Jessica Kurr

Postdoctoral Teaching Associate, Communication Studies; Pennsylvania State University, PhD

Steven R. Kursh

Associate Academic Specialist, Finance; University of Pennsylvania, PhD

John Kwoka

Neal F. Finnegan Distinguished Professor, Economics; University of Pennsylvania, PhD

Michelle Laboy

Assistant Professor, Architecture; University of Michigan, MArch

John LaBrie

Professor of the Practice, College of Professional Studies; University of Pennsylvania, EdD

Jamie Ladge

Associate Professor, Management and Organizational Development; Boston College, PhD

Jay Laird

Assistant Teaching Professor, College of Professional Studies; Lesley University, MFA

Venkatraman Lakshmibai

Professor, Mathematics; Tata University (India), PhD

Charlotte Lam

Assistant Cooperative Education Coordinator, College of Science; California State University, Sacramento, MA

Joan LaMachia

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MEd

Anna Lamin

Associate Professor and Matthew Eagan Faculty Fellow, International Business and Strategy; University of Minnesota, PhD

Jason Lancaster

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

William Lancaster

Senior Lecturer, Communication Studies; Michigan State University, MA

Lucas J. Landherr

Associate Teaching Professor, Chemical Engineering; Cornell University, PhD

Theodore Landmark

Distinguished Professor, Public Policy and Urban Affairs; Boston University, PhD

Henry W. Lane

Professor, International Business and Strategy; Harvard University, DBA

David Lang

Lecturer, Mathematics; Boston College, PhD; Northeastern University, PhD

Timothy Lannin

Assistant Teaching Professor, Bioengineering; Cornell University, PhD

Amy Lantinga

Associate Teaching Professor, College of Professional Studies; University of Tennessee, EdD

Denise Lapon Garcia

Associate Professor, Political Science and International Affairs; University of Geneva (Switzerland), PhD

Philip Larese-Casanova

Associate Professor, Civil and Environmental Engineering; University of Iowa, PhD

Sonya L. Larrieux

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

Barbara Larson

Associate Academic Specialist, Management and Organizational Development; Harvard Business School, DBA

Elizabeth Larson

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Northeastern University, MBA

Kimberly Larson

Associate Teaching Professor, College of Professional Studies; Drexel University, PhD

Felicia G. Lassk

Associate Professor, Marketing; University of South Florida, PhD

Amanda Reeser Lawrence

Associate Professor, Architecture; Harvard University, PhD

David M. Lazer

Distinguished Professor, Political Science and Computer and Information Science; University of Michigan, Ann Arbor, PhD

Christina Lee

Assistant Professor, Applied Psychology; New York University, PhD

Cynthia Lee

Professor, Management and Organizational Development; University of Maryland, PhD

Doreen Lee

Associate Professor, Sociology and Anthropology; Cornell University, PhD

Jung Lee

Associate Professor, Philosophy and Religion; Brown University, PhD

Kristen Lee

Associate Teaching Professor, College of Professional Studies; Northeastern University, EdD

Lee-Peng Lee

Lecturer, Mathematics; Massachusetts Institute of Technology, PhD

Matt Lee

Teaching Professor, Human Services; University of Illinois, Urbana-Champaign, PhD

Yang W. Lee

Associate Professor, Supply Chain and Information Management; Massachusetts Institute of Technology, PhD

Carolyn W. T. Lee-Parsons

Associate Professor, Chemical Engineering and Chemistry and Chemical Biology; Cornell University, PhD

Miriam E. Leeser

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

Laurel Leff

Associate Professor, Journalism; Yale University, MA

Lori Lefkowitz

Ruderman Professor of Jewish Studies, Jewish Studies and English; Brown University, PhD

Patrick Legros

Distinguished Professor, Economics; California Institute of Technology, PhD

Bradley M. Lehman

Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

Robert Lentz

Associate Academic Specialist, Entrepreneurship and Innovation; Babson College, MBA

Benjamin Lerner

Assistant Teaching Professor, Computer and Information Science;
University of Washington, PhD

Neal Lerner

Professor, English; Boston University, EdD

Marina Leslie

Associate Professor, English; Yale University, PhD

Hanoch Lev-Ari

Professor, Electrical and Computer Engineering; Stanford University, PhD

Danielle Levac

Assistant Professor, Physical Therapy, Movement, and Rehabilitation
Sciences; McMaster University (Canada), PhD

Tatyana Levchenko

Research Assistant Professor, Pharmaceutical Sciences; Academy of
Medical Sciences Moscow (Russia), PhD

Yiannis A. Levendis

College of Engineering Distinguished Professor, Mechanical and Industrial
Engineering; California Institute of Technology, PhD

Elinor Levine

Assistant Cooperative Education Coordinator, D'Amore-McKim School of
Business; University of Massachusetts, Amherst, MEd

Herbert Levine

Professor, Physics and Bioengineering; Princeton University, PhD

Kim Lewis

University Distinguished Professor, Biology; Moscow University (Russia),
PhD

Laura H. Lewis

Cabot Professor, Chemical Engineering and Mechanical and Industrial
Engineering; University of Texas, Austin, PhD

David J. Lewkowicz

Professor, Communication Sciences and Disorders; City University of New
York, Hunter College, PhD

Ang Li

Assistant Professor, Architecture; Princetown University, MArch

Chieh Li

Associate Professor, Applied Psychology; University of Massachusetts,
Amherst, EdD

Rui Li

Associate Clinical Professor, Health Sciences; Baylor University, PhD

Robert Lieb

Professor, Supply Chain and Information Management; University of
Maryland, DBA

Karl J. Lieberherr

Professor, Computer and Information Science; Eidgenössische
Technische Hochschule Zürich (Switzerland), PhD

Karin N. Lifter

Professor, Applied Psychology; Columbia University, PhD

Xue Lin

Assistant Professor, Electrical and Computer Engineering; University of
Southern California, PhD

Yingzi Lin

Associate Professor, Mechanical and Industrial Engineering; University of
Saskatchewan (Canada), PhD

Alisa K. Lincoln

Professor, Sociology and Anthropology and Health Sciences; Columbia
University, PhD

Katherine Lind

Postdoctoral Teaching Associate, Communication Studies; Indiana
University, PhD

John J. Lindhe

Senior Lecturer, Mathematics; Northeastern University, MA

Gabor P. Lippner

Assistant Professor, Mathematics; Eotvos University (Hungary), PhD

James Lipsky

Associate Academic Specialist, American Sign Language; Boston
University, MA

Heather A. Littlefield

Associate Teaching Professor, Linguistics; Boston University, PhD

Kelvin Liu

Associate Professor, Accounting; University of South Carolina, PhD

Xiaoping Liu

Visiting Assistant Professor, Supply Chain and Information Management;
University of Massachusetts, Lowell, PhD

Yang Liu

Assistant Professor, Mechanical and Industrial Engineering; Columbia
University, PhD

Yongmin Liu

Assistant Professor, Mechanical and Industrial Engineering and Electrical
and Computer Engineering; University of California, Berkeley, PhD

Ioannis Livanis

Associate Teaching Professor, International Affairs and Political Science;
University of Florida, PhD

Carol Livermore

Associate Professor, Mechanical and Industrial Engineering; Harvard
University, PhD

Martha Loftus

Assistant Teaching Professor, College of Professional Studies; Harvard
University, EdD

Diomedes E. Logothetis

Professor, Pharmaceutical Sciences; Harvard University, PhD

Mark Lomanno

Visiting Assistant Teaching Professor, Music; University of Texas, Austin,
PhD

Fabrizio Lombardi

International Test Conference Professor, Electrical and Computer
Engineering; University of London (United Kingdom), PhD

Marissa Lombardi

Assistant Teaching Professor, College of Professional Studies;
Northeastern University, EdD

Guido Lopez

Associate Teaching Professor, College of Professional Studies;
Northeastern University, PhD

Steven A. Lopez

Assistant Professor, Chemistry and Chemical Biology; University of
California, Los Angeles, PhD

Connie Lorette

Assistant Clinical Professor, Nursing; Boston College, PhD

Ralph H. Loring

Associate Professor, Pharmaceutical Sciences; Cornell University, PhD

Ivan Loseu

Professor, Mathematics; Moscow State University (Russia), PhD

Daniel Lothian

Visiting Scholar, Journalism; American University, MA

Kathleen E. Lotterhos

Assistant Professor, Marine and Environmental Sciences; Florida State
University, PhD

Salim A. Lotuff III

Teaching Professor, Communication Studies; Northeastern University, MA

Deirdre Loughridge

Assistant Professor, Music; University of Pennsylvania, PhD

Jennifer O. Love

Associate Academic Specialist, Engineering; University of Iowa, MS

Timothy Love

Associate Professor, Architecture; Harvard University, MArch

William Lovely

Assistant Academic Specialist, International Business and Strategy;
Northeastern University, DLP

Amy Shirong Lu

Assistant Professor, Communication Studies and Health Sciences;
University of North Carolina, Chapel Hill, PhD

Long Lu

Assistant Professor, Computer and Information Science; Georgia Institute
of Technology, PhD

Mary Ludden

Assistant Teaching Professor, College of Professional Studies; Walden
University, PhD

Razvan Lungeanu

Assistant Professor, Entrepreneurship and Innovation; Northwestern
University, PhD

Katherine Luongo

Associate Professor, History; University of Michigan, Ann Arbor, PhD

Steven Lustig

Associate Professor, Chemical Engineering; Purdue University, PhD

David E. Luzzi

Professor, Mechanical and Industrial Engineering; Northwestern
University, PhD

Vasiliki Lykourinou

Assistant Teaching Professor, Chemistry and Chemical Biology;
University of South Florida, PhD

Jun Ma

Associate Professor, Economics; University of Washington, PhD

Kayse Maass

Assistant Professor, Mechanical and Industrial Engineering; University of
Michigan, PhD

Patricia A. Mabrouk

Professor, Chemistry and Chemical Biology; Massachusetts Institute of
Technology, PhD

Esther MacKenzie

Visiting Clinical Instructor, Nursing; Boston University, MA

Andrew Mackie

Assistant Clinical Professor, Physician Assistant Program; University of
Nebraska, MS

Emanuele Macri

Associate Professor, Mathematics; SISSA (Italy), PhD

Jeanne Madden

Associate Professor, Pharmacy and Health Systems Sciences; Harvard
University, PhD

Kristin Madison

Professor, Health Sciences and Law; Stanford University, PhD

Tracy Magee

Assistant Clinical Professor, Nursing; Boston College, PhD

Bala Maheswaran

Teaching Professor, Engineering; Northeastern University, PhD

Debra Mahfouz

Associate Clinical Professor, Pharmacy and Health Systems Sciences;
University of Rhode Island, PharmD

Elizabeth Mahler

Associate Teaching Professor, College of Professional Studies; George
Washington University, EdD

Luigia Maiellaro

Teaching Professor, World Languages Center; Russian State University
for the Humanities (Russia), PhD

Lee Makowski

Professor, Bioengineering and Chemistry and Chemical Biology;
Massachusetts Institute of Technology, PhD

Purnima Makris

Associate Professor, Electrical and Computer Engineering;
Massachusetts Institute of Technology, PhD

Alexandros Makriyannis

George D. Behrakis Chair and Professor, Center for Drug Discovery and
Chemistry and Chemical Biology; University of Kansas, PhD

Michael Malamas

Research Associate Professor, Center for Drug Discovery and Chemistry
and Chemical Biology; University of Pennsylvania, PhD

Mario Maletta

Professor, Accounting; University of Massachusetts, Amherst, PhD

Shiti Malhotra

Lecturer, Linguistics; University of Maryland, PhD

Veronika Maliborska

Assistant Teaching Professor, College of Professional Studies; Purdue University, PhD

Mikhail B. Malioutov

Professor, Mathematics; Moscow State University (Russia), PhD

Andrew Mall

Assistant Professor, Music; University of Chicago, PhD

Craig E. Maloney

Associate Professor, Mechanical and Industrial Engineering; University of California, Santa Barbara, PhD

Roman Manetsch

Associate Professor, Chemistry and Chemical Biology and Pharmaceutical Sciences; University of Basel (Switzerland), PhD

John Manferdelli

Professor of the Practice, Computer and Information Science; University of California, Berkeley, PhD

Swapnil Maniar

Professor of the Practice, Health Sciences; Johns Hopkins University, PhD

Justin Manjourides

Assistant Professor, Health Sciences; Harvard University, PhD

Emily Mann

Teaching Professor, Human Services; University of Wisconsin, Madison, PhD

James M. Manning

Professor, Biology; Tufts University, PhD

Peter Manning

Elmer V.H. and Eileen M. Brooks Chair in Policing, Criminology and Criminal Justice; Duke University, PhD

Moirá Mannix Votel

Associate Cooperative Education Coordinator, Bouvé College of Health Sciences; Columbia University, MA

Peter Manolios

Professor, Computer and Information Science; University of Texas, Austin, PhD

Valentina Marano

Assistant Professor, International Business and Strategy; University of South Carolina, PhD

Janice Maras

Assistant Teaching Professor, Health Sciences; Northeastern University, EdD

Krassimir Marchev

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

Edwin Marengo Fuentes

Associate Professor, Electrical and Computer Engineering; Northeastern University, PhD

Donald G. Margotta

Associate Professor, Finance; University of North Carolina, Chapel Hill, PhD

Alina Marian

Professor, Mathematics; Harvard University, PhD

Tucker Marion

Associate Professor, Entrepreneurship and Innovation; Pennsylvania State University, PhD

Robert S. Markiewicz

Professor, Physics; University of California, Berkeley, PhD

Alycia Markowski

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Mindy Marks

Associate Professor, Economics; Washington University, PhD

Stacy Marsella

Professor, Computer and Information Science and Psychology; Rutgers University, PhD

Ineke Marshall

Professor, Sociology and Anthropology and Criminology and Criminal Justice; Bowling Green State University, PhD

Dayna L. Martinez

Assistant Teaching Professor, Mechanical and Industrial Engineering; University of South Florida, Tampa, PhD

Ramiro Martinez

Professor, Criminology and Criminal Justice and Sociology and Anthropology; Ohio State University, PhD

José Angel Martínez-Lorenzo

Assistant Professor, Mechanical and Industrial Engineering and Electrical and Computer Engineering; Universidad de Vigo (Spain), PhD

Alexander Martsinkovsky

Associate Professor, Mathematics; Brandeis University, PhD

David Massey

Professor, Mathematics; Duke University, PhD

Jude E. Mathews

Associate Teaching Professor, Chemistry and Chemical Biology; Clemson University, PhD

Kristen Mathieu Gonzalez

Clinical Instructor, Nursing; University of Phoenix, MS

Daniele Mathras

Assistant Professor, Marketing; Arizona State University, PhD

Thomas M. Matta

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; Xavier University of Louisiana, PharmD

Carla Mattos

Professor, Chemistry and Chemical Biology; Massachusetts Institute of Technology, PhD

Lucy Maulsby

Associate Professor, Architecture; Columbia University, PhD

Ernest Mauristhene

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Hardin-Simmons University, MBA

Jessica Maxwell

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Boston University, PhD; Massachusetts General Hospital Institute of Health Professions, DPT

William Mayer

Professor, Political Science; Harvard University, PhD

Mary Mayville

Assistant Clinical Professor, Nursing; Northeastern University, DNP

Dori P. Mazor

Associate Cooperative Education Coordinator, College of Arts, Media and Design; Brandeis University, MBA

Charn McAllister

Assistant Professor, Management and Organizational Development; Florida State University, PhD

Michelle McAllister

Visiting Assistant Professor, Accounting; Florida State University, PhD

Laurie McCadden

Clinical Instructor, Nursing; University of Massachusetts, Lowell, MSN

Paulette McCarty

Assistant Academic Specialist, Management and Organizational Development; University of Tennessee, PhD

Jane McCool

Assistant Clinical Professor, Nursing; University of Rhode Island, PhD

Al McCready

Assistant Teaching Professor, College of Professional Studies; George Washington University, PhD

Eileen McDonagh

Professor, Political Science; Harvard University, PhD

Ann McDonald

Associate Professor, Art + Design; Yale University, MFA

Matthew McDonald

Associate Professor, Music; Yale University, PhD

Brianne McDonough

Assistant Cooperative Education Coordinator, College of Computer and Information Science; Salem State University, MS

Melissa McElligott

Assistant Teaching Professor, Biology; Northeastern University, PhD

Seamus McGovern

Lecturer, Supply Chain and Information Management; Northeastern University, PhD

Nicol E. McGruer

Professor, Electrical and Computer Engineering; Michigan State University, PhD

Jean McGuire

Professor of the Practice, Health Sciences; Brandeis University, PhD

Hugh McManus

Associate Teaching Professor, Mechanical and Industrial Engineering; Stanford University, PhD

Cristine McMartin-Miller

Associate Teaching Professor, College of Professional Studies; Purdue University, PhD

Joseph McNabb

Professor of the Practice, College of Professional Studies; Northeastern University, PhD

Robert C. McOwen

Professor, Mathematics; University of California, Berkeley, PhD

Frances Nelson McSherry

Teaching Professor, Theatre; New York University, MFA

Iraz Mehdi

Assistant Cooperative Education Coordinator, College of Engineering; California State University, Long Beach, MS

Emanuel S. Melachrinoudis

Professor, Mechanical and Industrial Engineering; University of Massachusetts, Amherst, PhD

Waleed Meleis

Associate Professor, Electrical and Computer Engineering; University of Michigan, PhD

Susan L. Mello

Assistant Professor, Communication Studies; University of Pennsylvania, PhD

Tina J. Mello

Assistant Cooperative Education Coordinator, College of Science; Boston College, MA

Richard H. Melloni Jr.

Professor, Psychology; University of Massachusetts, PhD

Tommaso Melodia

Associate Professor, Electrical and Computer Engineering; Georgia Institute of Technology, PhD

Latika Menon

Associate Professor, Physics; Tata Institute of Fundamental Research, Bombay (India), PhD

Francisco Mesch

Assistant Cooperative Education Coordinator, College of Computer and Information Science; Washington State University, MS

Hameed Metghalchi

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, ScD

Laura Meyer

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Cleveland State University, MEd

Marc H. Meyer

Robert J. Shillman Professor of Entrepreneurship and Matthews Distinguished University Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

Michael Meyer

Associate Teaching Professor, Philosophy and Religion; Boston University, PhD

Ningfang Mi

Associate Professor, Electrical and Computer Engineering; University of Texas, Dallas, MS

Vidoje Mihajlovikj

Lecturer, Computer and Information Science; Clarkson University, PhD

Lara Milane

Assistant Teaching Professor, Pharmaceutical Sciences; Northeastern University, PhD

Loiza Miles

Assistant Academic Specialist, World Languages Center; Sorbonne University (France), MA

William Miles

Professor, Political Science; Tufts University, PhD

Danielle M. Miller

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

Edward Miller

Assistant Teaching Professor, College of Professional Studies; Boston College, PhD

Gregory Miller

Associate Professor, Pharmaceutical Sciences; University of New York, PhD

Heather Miller

Assistant Clinical Professor, Computer and Information Science; Ecole Polytechnique Federale de Lausanne (Switzerland), PhD

Joanne L. Miller

Matthews Distinguished University Professor, Psychology; University of Minnesota, PhD

Matthew Miller

Professor, Health Sciences; Yale University, MD; Harvard University, ScD

Renee Miller

Distinguished Professor, Computer and Information Science; University of Wisconsin, Madison, PhD

Ennio Mingolla

Professor, Communication Sciences and Disorders; University of Connecticut, PhD

Marilyn L. Minus

Associate Professor, Mechanical and Industrial Engineering; Georgia Institute of Technology, PhD

Alan Mislove

Associate Professor, Computer and Information Science; Rice University, PhD

Cheryl Mitteness

Academic Specialist, Entrepreneurship and Innovation; University of Louisville, PhD

Nancy Mizzoni

Clinical Instructor, Nursing; Northeastern University, MS

Anahit Mkrtchyan

Assistant Professor, Finance; Pennsylvania State University, PhD

Sarah Mockler

Assistant Cooperative Education Coordinator, College of Engineering; Boston College, MA

Alicia Modestino

Associate Professor, Public Policy and Urban Affairs and Economics; Harvard University, PhD

Valentine Moghadam

Professor, International Affairs; American University, PhD

Mohsen Moghaddam

Assistant Professor, Mechanical and Industrial Engineering; Purdue University, PhD

Shan Mohammed

Associate Clinical Professor, Health Sciences; Case Western Reserve University, MD

Changiz Mohiyeddini

Associate Professor, Applied Psychology; University of Trier (Germany), PsyD

Beth Molnar

Associate Professor, Health Sciences; Harvard University, ScD

James Monaghan

Assistant Professor, Biology; University of Kentucky, PhD

Yasmil Montes

Assistant Cooperative Education Coordinator, College of Computer and Information Science; Cambridge College, MS

Susan F. Montgomery

Senior Academic Specialist, Entrepreneurship and Innovation and Law; Northeastern University, JD

Robert M. Mooradian

Professor and Harding Research Professor, Finance; University of Pennsylvania, PhD

Rebekah Moore

Visiting Assistant Professor, Music; Indiana University, PhD

Enrique F. Moreno

Senior Lecturer, Physics; Universidad Nacional de La Plata (Argentina), PhD

Kimberly Moreno

Professor, Accounting; University of Massachusetts, Amherst, PhD

Joanne Morreale

Associate Professor, Media and Screen Studies; Temple University, PhD

Mounira Morris

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, Amherst, EdD

Kristen Morse

Assistant Cooperative Education Coordinator, Bouvé College of Health Sciences; Ithaca College, DPT

Hossein Mosallaei

Professor, Electrical and Computer Engineering; University of California, Los Angeles, PhD

Edward Moss

Associate Teaching Professor, Writing Program; Emerson College, MFA

Lorraine Ann Mountain

Senior Cooperative Education Coordinator, College of Engineering; Tufts University, MS

Amy Mueller

Assistant Professor, Civil and Environmental Engineering and Marine and Environmental Sciences; Massachusetts Institute of Technology, PhD

Sinan Muftu

Professor, Mechanical and Industrial Engineering; University of Rochester, PhD

Tania Muino

Assistant Academic Specialist, World Languages Center; University of Barcelona (Spain), MA

Sanjeev Mukerjee

Professor, Chemistry and Chemical Biology; Texas AM University, PhD

Jay Mulki

Associate Professor, Marketing; University of South Florida, PhD

Anthony Mullen

Associate Teaching Professor, Computer and Information Science; University of Groningen (Netherlands), PhD

Patrick Mullen

Associate Professor, English; University of Pittsburgh, PhD

Seth Mulliken

Assistant Teaching Professor, Media and Screen Studies; North Carolina State University, PhD

Samuel E. Munoz

Assistant Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; University of Wisconsin, Madison, PhD

Kellianne Murphy

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Northeastern University, MA

Lauren A. Murphy

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Portland State University, PhD

Robert Murray

Assistant Academic Specialist, Supply Chain and Information Management; Harvard Business School, MBA

Shashi K. Murthy

Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

Hande Musdal Oudemir

Assistant Teaching Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

Cecelia Musselman

Associate Teaching Professor, Writing Program; Columbia University, PhD

Shakir Mustafa

Teaching Professor, World Languages Center; Boston University, PhD

Andrew Myers

Associate Professor, Civil and Environmental Engineering; Stanford University, PhD

David Myers

Associate Teaching Professor, Finance; University of Washington, PhD

Laura Mylott

Clinical Professor, Nursing; Boston College, PhD

Nada Naji

Lecturer, Computer and Information Science; University of Neuchatel (Switzerland), PhD

Thomas K. Nakayama

Professor, Communication Studies; University of Iowa, PhD

Laurie Nardone

Associate Teaching Professor, English; Emory University, PhD

Pran Nath

Matthews Distinguished University Professor, Physics; Stanford University, PhD

Hamid Nayeb-Hashemi

Professor, Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

Collette Ncube

Assistant Professor, Health Sciences; University of Pittsburgh, PhD

Brent Nelson

Associate Professor, Physics; University of California, Berkeley, PhD

Carl W. Nelson

Associate Professor, International Business and Strategy; University of Manchester (United Kingdom), PhD

Laura Nelson

Assistant Professor, Sociology and Anthropology; University of California, Berkeley, PhD

Huy Nguyen

Assistant Professor, Computer and Information Science; Princeton University, PhD

Julie Nguyen

Assistant Cooperative Education Coordinator, College of Engineering; Columbia University, MA

Jennifer Nichol

Assistant Professor, Accounting; University of Illinois, Urbana-Champaign, PhD

Sandy Nickel

Assistant Teaching Professor, College of Professional Studies; University of Iowa, PhD

Mark J. Niedre

Associate Professor, Bioengineering; University of Toronto (Canada), PhD

Spyridon Nikas

Research Associate Professor, Center for Drug Discovery; Aristotle University (Greece), PhD

Jelena Nikolic

Assistant Teaching Professor, Economics; Nottingham University (United Kingdom), PhD

Matthew Nippins

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

Matthew C Nisbet

Professor, Communication Studies; Cornell University, PhD

Cristina Nita-Rotaru

Professor, Computer and Information Science; Johns Hopkins University, PhD

Daniel Noemi Voionmaa

Associate Professor, Cultures, Societies, and Global Studies; Yale University, PhD

Alison Nogueira

Associate Cooperative Education Coordinator, College of Engineering; Suffolk University, MEd

David Nolan

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Massachusetts General Hospital Institute of Health Professions, DPT

Kimberly Nolan

Assistant Teaching Professor, College of Professional Studies; University of Vermont, EdD

Carey Noland

Associate Professor, Communication Studies; Ohio University, PhD

Ellen Noonan

Associate Teaching Professor, Writing Program; Emerson College, MFA

Matthew Noonan

Associate Teaching Professor, Writing Program; Massachusetts College of Art, MFA

Guevara Noubir

Professor, Computer and Information Science; Swiss Federal Institute of Technology, Lausanne (Switzerland), PhD

Gilbert Nyaga

Associate Professor and Joe Dichiacchio Faculty Fellow, Supply Chain and Information Management; Michigan State University, PhD

Daniel O'Brien

Assistant Professor, Public Policy and Urban Affairs and Criminology and Criminal Justice; Binghamton University, PhD

Brian O'Connell

Assistant Teaching Professor, Engineering; Tufts University, PhD

Donica O'Malley

Postdoctoral Teaching Associate, Communication Studies; University of Pittsburgh, PhD

Jessica Oakes

Assistant Professor, Bioengineering; University of California, San Diego, PhD

Antonio Ocampo-Guzman

Associate Professor, Theatre; York University (Canada), MFA

Curtis Odom

Visiting Lecturer, Management and Organizational Development; Pepperdine University, EdD

Dietmar Offenhuber

Assistant Professor, Art + Design and Public Policy and Urban Affairs; Massachusetts Institute of Technology, PhD

Marvin Onabajo

Assistant Professor, Electrical and Computer Engineering; Texas AM University, PhD

Kay Onan

Associate Professor, Chemistry and Chemical Biology; Duke University, PhD

Mary Jo Ondrechen

Professor, Chemistry and Chemical Biology; Northwestern University, PhD

Annalisa Onnis-Hayden

Associate Teaching Professor, Civil and Environmental Engineering; University of Cagliari (Italy), PhD

Alina Oprea

Associate Professor, Computer and Information Science; Carnegie Mellon University, PhD

Toyoko J. Orimoto

Assistant Professor, Physics; University of California, Berkeley, PhD

Jessica Ormsby

Assistant Cooperative Education Coordinator, College of Engineering; University of Massachusetts, Boston, MEd

Andrew Orr-Skirvin

Associate Clinical Professor, Pharmacy and Health Systems Sciences; University of Texas, Austin, PharmD

Elika Ortega Guzman

Assistant Professor, Cultures, Societies, and Global Studies; University of Western Ontario (Canada), PhD

Sarah Ostadabbas

Assistant Professor, Electrical and Computer Engineering; University of Texas, Dallas, PhD

Timothy Ouillette

Assistant Teaching Professor, Communication Studies; Art Institute of Boston, MFA

Jane Owens

Associate Professor, Pharmacy and Health Systems Sciences; Pennsylvania State University, PhD

Oyindasola O. Oyelaran

Associate Teaching Professor, Chemistry and Chemical Biology; Harvard University, PhD

Yusuf Ozbek

Associate Teaching Professor, Graduate School of Engineering; Northeastern University, PhD

Sean O'Connell

Assistant Academic Specialist, College of Professional Studies; University of Massachusetts, MA

Catherine O'Connor

Clinical Instructor, Nursing; Boston College, MS

George A. O'Doherty

Professor, Chemistry and Chemical Biology; Ohio State University, PhD

Russ O'Haver

Senior Academic Specialist, Accounting; University of New York, PhD

Peggy L. O'Kelly

Principal Lecturer, Accounting; University of Michigan, MBA

Donald M. O'Malley

Associate Professor, Biology; Harvard University, PhD

Therese M. O'Neil-Pirozzi

Associate Professor, Communication Sciences and Disorders; Boston University, ScD

Taskin Padir

Associate Professor, Electrical and Computer Engineering; Purdue University, PhD

Robert K. Painter

Senior Lecturer, Linguistics; State University of New York, Buffalo, PhD

Himlona Palikhe

Assistant Teaching Professor, Graduate School of Engineering; Texas Tech University, PhD

Costas Panagopoulos

Professor, Political Science; New York University, PhD

Kwamina Panford

Associate Professor, Cultures, Societies, and Global Studies; Northeastern University, PhD

Coleen C. Pantalone

Associate Professor, Finance; Iowa State University, PhD

Themis Papageorge

Associate Clinical Professor, Computer and Information Science; Massachusetts Institute of Technology, PhD

Harikrishnan Parameswaran

Assistant Professor, Bioengineering; Boston University, PhD

Serena Parekh McGushin

Associate Professor, Philosophy and Religion; Boston College, PhD

Jason Parente

Assistant Clinical Professor, Physician Assistant Program; Northeastern University, MS

Melissa Parenti

Assistant Teaching Professor, College of Professional Studies; University of Southern California, EdD

Andrea Parker

Assistant Professor, Computer and Information Science and Health Sciences; Georgia Institute of Technology, PhD

Christopher Parsons

Assistant Professor, History; University of Toronto (Canada), PhD

Nikos Passas

Professor, Criminology and Criminal Justice; University of Edinburgh (Scotland), PhD

Rupal Patel

Professor, Communication Sciences and Disorders and Computer and Information Science; University of Toronto (Canada), PhD

Dipu Patel-Junankar

Assistant Clinical Professor, Physician Assistant Program; University of Nebraska, MPAS

Bryan Patterson

Assistant Teaching Professor, College of Professional Studies; University of Florida, PhD

Mark R. Patterson

Professor, Marine and Environmental Sciences and Civil and Environmental Engineering; Harvard University, PhD

Koen Pauwels

Distinguished Professor, Marketing; University of California, Los Angeles, PhD

Michael Pavel

Professor of the Practice, Computer and Information Science and Health Sciences; New York University, PhD

Spiro Pavlopoulos

Research Associate Professor, Center for Drug Discovery; Victorian College of Pharmacy, Melbourne (Australia), PhD

Virgiliu Pavlu

Associate Teaching Professor, Computer and Information Science; Northeastern University, PhD

Nancy Pawlyshyn

Associate Teaching Professor, College of Professional Studies; Capella University, PhD

Celia Pearce

Associate Professor, Game Design; University of the Arts London (United Kingdom), PhD

Neal J. Pearlmutter

Associate Professor, Psychology; Massachusetts Institute of Technology, PhD

Melissa Pearson

Assistant Teaching Professor, Writing Program; University of South Carolina, PhD

Christoffer Pedersen

Assistant Professor, Art + Design; University of Copenhagen (Denmark), PhD

Melissa Peiken

Associate Cooperative Education Coordinator, College of Computer and Information Science; Emerson College, MEd

Russell Pensyl

Professor, Art + Design; Western Michigan University, MFA

Diane Perez

Assistant Academic Specialist, College of Professional Studies; Salem State University, MEd

Ivan Petkov

Assistant Professor, Economics; Boston College, PhD

Courtney Pfluger

Assistant Teaching Professor, Chemical Engineering; Northeastern University, PhD

Pegaret Pichler

Assistant Professor, Finance; Stanford University, PhD

Susan E. Picillo

Senior Lecturer, Communication Studies; Cambridge College, MEd

Pamela Pietrucci

Visiting Lecturer, Communication Studies; University of Washington, PhD

Jessica Pike

Assistant Cooperative Education Coordinator, College of Engineering; Bridgewater State University, MEd

Sara Pintado-Lopez

Associate Professor, Health Sciences; University Carlos III of Madrid (Spain), PhD

Ameet Pinto

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

Maricla Pirozzi

Assistant Cooperative Education Coordinator, Graduate School of Engineering; European School of Economics (Italy), MBA

Leigh Plant

Research Associate Professor, Pharmaceutical Sciences; University of Leeds (United Kingdom), PhD

Harlan D. Platt

Professor, Finance; University of Michigan, PhD

Marjorie Platt

Professor, Accounting; University of Michigan, PhD

Robert Platt Jr.

Assistant Professor, Computer and Information Science; University of Massachusetts, Amherst, PhD

Mya Poe

Associate Professor, English; University of Massachusetts, Amherst, PhD

Hermine Poghosyan

Assistant Professor, Nursing; University of Massachusetts Boston, PhD

Ann Polcari

Associate Clinical Professor, Nursing; Boston College, PhD

Stephanie Pollack

Professor of the Practice, Public Policy and Urban Affairs; Harvard Law School, JD

Michael P. Pollastri

Professor, Chemistry and Chemical Biology; Brown University, PhD

Marius Popescu

Visiting Assistant Professor, Finance; Virginia Polytechnic Institute and State University, PhD

Hilary Poriss

Associate Professor, Music; University of Chicago, PhD

Gary Porter

Assistant Teaching Professor, Finance; University of South Carolina, PhD

Gerald Porter

Visiting Lecturer, Economics; Babson College, MBA

Richard D. Porter

Professor, Mathematics; Yale University, PhD

Veronica L. Porter

Associate Professor, Cooperative Education, College of Science; Northeastern University, MEd

John Portz

Professor, Political Science; University of Wisconsin, Madison, PhD

Mary-Susan Potts-Santone

Teaching Professor, Biology; University of New Hampshire, PhD

Karen Pounds

Assistant Clinical Professor, Nursing; University of Rhode Island, PhD

Michael J. Power

Lecturer, Supply Chain and Information Management; Northeastern University, MBA

Edward Powers

Assistant Teaching Professor, College of Professional Studies; Northeastern University, PhD

Susan G. Powers-Lee

Professor, Biology; University of California, Berkeley, PhD

Silvia Prina

Associate Professor, Economics; Boston University, PhD

Robert Prior

Associate Teaching Professor, College of Professional Studies; Nova Southeastern University, EdD

Robert Pritchard

Associate Teaching Professor, Economics; Northeastern University, PhD

Mark Prokosch

Senior Lecturer, Psychology; University of California, Davis, PhD

Sheila M. Puffer

Professor and University Distinguished Professor, International Business and Strategy; University of California, Berkeley, PhD

Karen Quigley

Research Associate Professor, Psychology; Ohio State University, PhD

Gordana Rabrenovic

Associate Professor, Sociology and Anthropology; State University of New York, Albany, PhD

John Rachlin

Assistant Teaching Professor, Computer and Information Science; Boston University, PhD

Joseph A. Raelin

Professor and Asa S. Knowles Chair of Practice-Oriented Education, Management and Organizational Development; State University of New York, Buffalo, PhD

Sriramasundarar Rajagopalan

Assistant Teaching Professor, College of Professional Studies; Capella University, PhD

Rajmohan Rajaraman

Professor, Computer and Information Science; University of Texas, Austin, PhD

Ravi Ramamurti

University Distinguished Chair Professor, International Business and Strategy; Harvard University, DBA

Valeria Ramdin

Assistant Clinical Professor, Nursing; Northeastern University, DNSc

Alireza Ramezani

Assistant Professor, Electrical and Computer Engineering; University of Michigan, PhD

Janet Randall

Professor, English; University of Massachusetts, Amherst, PhD

Aanjhan Ranganathan

Assistant Professor, Computer and Information Science; ETH Zurich (Switzerland), PhD

Carey M. Rappaport

College of Engineering Distinguished Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, ScD

Andrea Raynor

Teaching Professor, Art + Design; School of Visual Arts, MFA

Desislava Raytcheva

Lecturer, Biology; Northeastern University, PhD

Leena Razzaq

Assistant Teaching Professor, Computer and Information Science; Worcester Polytechnic Institute, PhD

Joseph Reagle

Associate Professor, Communication Studies; New York University, PhD

Debra J. Reid

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Northeastern University, PharmD

Imke Reimers

Assistant Professor, Economics; University of Minnesota, PhD

Karen Reiss Medwed

Associate Teaching Professor, College of Professional Studies; New York University, PhD

Marketa Rejtar

Assistant Clinical Professor, Nursing; Massachusetts General Hospital Institute of Health Professions, PhD

John R. Reynolds

Professor, Pharmacy and Health Systems Sciences; Duquesne University, PharmD

Karl Reynolds

Associate Teaching Professor, College of Professional Studies; University of Washington, PhD

Mahtab Rezvani

Assistant Academic Specialist, College of Professional Studies; California State University, Los Angeles, MA

Christopher Richardson

Lecturer, Biology; Boston University, PhD

Milda Richardson

Lecturer, Art + Design; Boston University, PhD

Megan Richmond

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston College, MEd

Janet S. Rico

Associate Clinical Professor, Nursing; Northeastern University, PhD

Mirek Riedewald

Associate Professor, Computer and Information Science; University of California, Santa Barbara, PhD

Christoph Riedl

Assistant Professor, Supply Chain and Information Management and Computer and Information Science; Technische Universität München (Germany), PhD

Justin B. Ries

Associate Professor, Marine and Environmental Sciences; Johns Hopkins University, PhD

Matteo Rinaldi

Associate Professor, Electrical and Computer Engineering; University of Pennsylvania, PhD

Christie Rizzo

Assistant Professor, Applied Psychology; University of Southern California, Los Angeles, PhD

Christina Roberts

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Simmons College, MBA

Susan J. Roberts

Professor, Nursing; Boston University, DNSc

Christopher J. Robertson

Professor, International Business and Strategy; Florida State University, PhD

Craig M. Robertson

Associate Professor, Media and Screen Studies; University of Illinois, Urbana-Champaign, PhD

William Robertson

Associate Professor, Computer and Information Science and Electrical and Computer Engineering; University of California, Santa Barbara, PhD

Cordula Robinson

Associate Teaching Professor, College of Professional Studies; University College London (United Kingdom), PhD

Hillary Robinson

Associate Professor, Law and Sociology and Anthropology; Massachusetts Institute of Technology, PhD; Harvard University, JD

Holbrook Robinson

Associate Professor, Cultures, Societies, and Global Studies; University of California, Berkeley, PhD

Tracy L. Robinson Wood

Professor, Applied Psychology; Harvard University, EdD

Brian Robison

Assistant Teaching Professor, Music; Cornell University, DMA

David Rochefort

Distinguished Professor, Political Science; Brown University, PhD

Rachel Rodgers

Associate Professor, Applied Psychology; Université de Toulouse-Le Mirail (France), PhD

Kirsten Rodine Hardy

Associate Professor, Political Science; University of California, Berkeley, PhD

Bruce Ronkin

Professor, Music; University of Maryland, DMA

Tayla Rose

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; University of Connecticut, PharmD

Rebeca B. Rosengaus

Associate Professor, Marine and Environmental Sciences; Boston University, PhD

James R. Ross

Associate Professor, Journalism; American University, MA

Alexandra Roth

Associate Academic Specialist, International Business and Strategy; University of Frankfurt (Germany), PhD

Sara Rouhanifard

Assistant Professor, Bioengineering; Yeshiva University, PhD

Deya Roy

Postdoctoral Teaching Associate, Communication Studies; State University of New York, Amherst, MA

Jeffrey W. Ruberti

Professor, Bioengineering; Tulane University, PhD

Michael Ruff

Assistant Teaching Professor, Accounting; Bentley University, PhD

Timothy J. Rupert

Professor, Accounting; Pennsylvania State University, PhD

Ivan Rupnik

Associate Professor, Architecture; Harvard University, MArch

Bruce Russell

Associate Academic Specialist, Supply Chain and Information Management; National University of Ireland (Ireland), PhD

J. Timothy Sage

Associate Professor, Physics; University of Illinois, Urbana-Champaign, PhD

Vinod Sahney

University Distinguished Professor, Mechanical and Industrial Engineering; University of Wisconsin, Madison, PhD

Yuki Sakurai

Visiting Lecturer, World Languages Center; Ohio State University, MA

Masoud Salehi

Associate Professor, Electrical and Computer Engineering; Stanford University, PhD

Carmel Salhi

Assistant Professor, Health Sciences; Harvard University, PhD

William Sanchez

Associate Professor, Applied Psychology; Boston University, PhD

Nada Sanders

Distinguished Professor of Supply Chain Management, Supply Chain and Information Management; Ohio State University, PhD

Tova Sanders

Associate Teaching Professor, College of Professional Studies; George Washington University, EdD

Ronald Sandler

Professor, Philosophy and Religion; University of Wisconsin, Madison, PhD

Billye Sankofa Waters

Associate Teaching Professor, College of Professional Studies; University of North Carolina, PhD

Ravi Sarathy

Professor, International Business and Strategy; University of Michigan, PhD

Linda Sarkisian

Assistant Cooperative Education Coordinator, D'Amore-McKim School of Business; Lynn University, MBA

Mehrdad Sasani

Associate Professor, Civil and Environmental Engineering; University of California, Berkeley, PhD

Ajay B. Satpute

Assistant Professor, Psychology; University of California, Los Angeles, PhD

Behrooz (Barry) Satvat

Associate Teaching Professor, Chemical Engineering; Massachusetts Institute of Technology, ScD

Daniel Saulnier

Associate Cooperative Education Coordinator, College of Engineering; Babson College, MBA

Kevin Scanlon

Professor of the Practice, Entrepreneurship and Innovation; University of London (United Kingdom), PhD

Samuel V. Scarpino

Assistant Professor, Marine and Environmental Sciences and Physics; University of Texas, Austin, PhD

Carmen Sceppa

Professor, Health Sciences; Francisco Marroquin University (Guatemala), MD; Tufts University, PhD

Martin Schedlbauer

Associate Clinical Professor, Computer and Information Science; University of Massachusetts, PhD

Gunar Schirner

Associate Professor, Electrical and Computer Engineering; University of California, Irvine, PhD

Ralf W. Schlosser

Professor, Communication Sciences and Disorders; Purdue University, PhD

Benjamin Schmidt

Assistant Professor, History; Princeton University, PhD

Walter Schnyder

Associate Teaching Professor, Computer and Information Science; Swiss Federal Institute of Technology (Switzerland), PhD

Egon Schulte

Professor, Mathematics; University of Dortmund (Germany), PhD

Kathryn Schulte Grahame

Associate Teaching Professor, Engineering; Columbia University, PhD

Joseph Schwartz

Associate Teaching Professor, Communication Studies; University of Iowa, PhD

Michael Schwartz

Assistant Cooperative Education Coordinator, Graduate School of Engineering; Northeastern University, MS

Martin Schwarz Jr.

Associate Professor, Mathematics; Courant Institute, PhD

Cody Scott

Assistant Professor, Computer and Information Science; University of Maryland, PhD

Douglass Scott

Senior Lecturer, Art + Design; Yale University, MFA

Frank (Alex) Scott

Assistant Professor, Supply Chain and Information Management; Pennsylvania State University, PhD

Steven Scyphers

Assistant Professor, Marine and Environmental Sciences; University of South Alabama, PhD

Darcey Searles

Postdoctoral Teaching Associate, Communication Studies; Rutgers University, PhD

Max Sederer

Assistant Cooperative Education Coordinator, College of Engineering; Tufts University, MEd

Magy Seif El-Nasr

Associate Professor, Computer and Information Science and Art + Design; Northeastern University, PhD

Ethan Selinger

Assistant Cooperative Education Coordinator, College of Computer and Information Science; University of Massachusetts, Lowell, MS

Laura Senier

Assistant Professor, Sociology and Anthropology and Health Sciences; Brown University, PhD

Sumi Seo

Lecturer, Mathematics; University of Missouri, Columbia, PhD

Susan Setta

Associate Professor, Philosophy and Religion; Pennsylvania State University, PhD

Bahram Shafai

Professor, Electrical and Computer Engineering; George Washington University, ScD

Michael Shah

Lecturer, Computer and Information Science; Tufts University, PhD

Rebecca M. Shansky

Assistant Professor, Psychology; Yale University, PhD

Harvey Shapiro

Associate Clinical Professor, College of Professional Studies; Hebrew Union College, PhD

William T. Sharp

Assistant Teaching Professor, Psychology; Boston Graduate School of Psychoanalysis, PhD

Gavin M. Shatkin

Associate Professor, Public Policy and Urban Affairs and Architecture; Rutgers University, PhD

Dennis R. Shaughnessy

Senior Academic Specialist, Entrepreneurship and Innovation; University of Maryland, JD

Margaret Shea

Associate Cooperative Education Coordinator, D'Amore-McKim School of Business; Boston University, BLS

Thomas C. Sheahan

Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, ScD

Sandra Shefelbine

Associate Professor, Mechanical and Industrial Engineering and Bioengineering; Stanford University, PhD

Abhi Shelat

Associate Professor, Computer and Information Science; Massachusetts Institute of Technology, PhD

Paxton Sheldahl

Assistant Teaching Professor, Architecture; Harvard University, MARCH

Eliot Sherman

Senior Lecturer, Finance; Bentley College, MST

H. David Sherman

Professor, Accounting; Harvard University, DBA

Amit Shesh

Associate Teaching Professor, Computer and Information Science; University of Minnesota, Twin Cities, PhD

Shiaoming Shi

Assistant Teaching Professor, Bioengineering; University of Pittsburgh, PhD

Craig Shillaber

Assistant Teaching Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, MS

Jennifer Shire

Assistant Cooperative Education Coordinator, College of Computer and Information Science; Columbia University, MBA

Olin Shivers

Professor, Computer and Information Science; Carnegie Mellon University, PhD

Mariya Shiyko

Associate Professor, Applied Psychology; City University of New York, PhD

Katy Shorey

Assistant Teaching Professor, Philosophy and Religion; University of Missouri, PhD

Aatmesh Shrivastava

Assistant Professor, Electrical and Computer Engineering; University of Virginia, Charlottesville, PhD

Stephanie Sibicky

Assistant Clinical Professor, Pharmacy and Health Systems Sciences; University of Rhode Island, PhD

Brandon Sichling

Assistant Teaching Professor, Art + Design; Emerson College, MFA

Jose Sierra

Associate Teaching Professor, Computer and Information Science; Universidad Carlos III de Madrid (Spain), PhD

Robert Sikes

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; University of Texas, Houston, PhD

Michael B. Silevitch

Robert Black Professor of Engineering and College of Engineering Distinguished Professor, Electrical and Computer Engineering; Northeastern University, PhD

Peter Simon

Teaching Professor, Economics; Northern Illinois University, PhD

Simon Singer

Professor, Criminology and Criminal Justice; University of Pennsylvania, PhD

Hanumant Singh

Professor, Electrical and Computer Engineering and Mechanical and Industrial Engineering; Massachusetts Institute of Technology, PhD

Rifat Sipahi

Associate Professor, Mechanical and Industrial Engineering; University of Connecticut, PhD

Michail V. Sitkovsky

Eleanor W. Black Chair in Immunophysiology and Pharmaceutical Biotechnology and Professor, Institute for Tissue Damage and Biology; Moscow State University (Russia), PhD

Mark Sivak

Associate Teaching Professor, Art + Design and Engineering; Northeastern University, PhD

Adrienne Slaughter

Lecturer, Computer and Information Science; University of Washington, PhD

Nikolai Slavov

Assistant Professor, Bioengineering; Princeton University, PhD

Rory Smead

Ronald L. and Linda A. Rossetti Professor for the Humanities, Philosophy and Religion; University of California, Irvine, PhD

David A. Smith

Assistant Professor, Computer and Information Science; Johns Hopkins University, PhD

Keith Smith

Assistant Professor, Marketing; University of Georgia, PhD

Matthew Smith

Associate Professor, Philosophy and Religion; University of North Carolina, Chapel Hill, PhD

Ronald Bruce Smith

Associate Professor, Music; University of California, Berkeley, PhD

Wendy A. Smith

College of Arts and Sciences Distinguished Associate Professor, Biology; Duke University, PhD

Eugene S. Smotkin

Professor, Chemistry and Chemical Biology; University of Texas, Austin, PhD

Bridget Smyser

Associate Teaching Professor, Mechanical and Industrial Engineering; Worcester Polytechnic Institute, PhD

Nancy P. Snyder

Associate Teaching Professor, Psychology; Harvard University, EdD

Dani Snyder-Young

Assistant Professor, Theatre; New State University, PhD

Pablo Soberon Bravo

Zelevinsky Research Professor, Mathematics; University College London (United Kingdom), PhD

Claudia Sokol

Associate Teaching Professor, World Languages Center; University of Buenos Aires (Argentina), MD

Eduardo Sontag

University Distinguished Professor, Electrical and Computer Engineering and Bioengineering; University of Florida, PhD

Maria Sorenson

Visiting Clinical Instructor, Nursing; Northeastern University, MSN

Susan Soroka

Assistant Teaching Professor, Writing Program; Drew University, PhD

Nikolaos S. Soukos

Assistant Teaching Professor, Physics and Biology; University of Munich (Germany), PhD

Bert A. Spector

Associate Professor, International Business and Strategy; University of Missouri, PhD

Denise Spencer

Senior Lecturer, Supply Chain and Information Management; Boston College, PhD

Karen M. Spikes

Lecturer, Psychology; Cornell University, PhD

David Sprague

Lecturer, Computer and Information Science; University of Victoria (Canada), PhD

Bryan Q. Spring

Assistant Professor, Physics; University of Illinois, Urbana-Champaign, PhD

Shelia Springer

Postdoctoral Teaching Associate, Communication Studies; University of Arizona, Tucson, MA

Srinivas Sridhar

College of Arts and Sciences Distinguished Professor, Physics; California Institute of Technology, PhD

Kandarp Srinivasan

Assistant Professor, Finance; Washington University, St. Louis, PhD

Thomas Starr

Professor, Art + Design; Yale University, MFA

Mary Steffel

Assistant Professor, Marketing; Princeton University, PhD; University of Florida, PhD

Karen Stein

Visiting Assistant Professor, Art + Design; Virginia Commonwealth University, MFA

Leslie Stein

Assistant Teaching Professor, College of Professional Studies; United States International University, EdD

Armen B. Stepanyants

Associate Professor, Physics; University of Rhode Island, PhD

Jennie Stephens

Professor, Public Policy and Urban Affairs; California Institute of Technology, PhD

Dagmar Sternad

Professor, Biology and Electrical and Computer Engineering; University of Connecticut, PhD

Sara Stifano

Postdoctoral Teaching Associate, Communication Studies; University of Connecticut, PhD

Sebastian Stockman

Associate Teaching Professor, Writing Program; Emerson College, MFA

Milica Stojanovic

Professor, Electrical and Computer Engineering; Northeastern University, PhD

Janos Stone

Lecturer, Art + Design; Boston University, MFA

Michael Stone

Assistant Teaching Professor, Economics; University of Connecticut, PhD

Jacob Stowell

Associate Professor, Criminology and Criminal Justice; State University of New York, Albany, PhD

Tracy Strain

Professor of the Practice, Media and Screen Studies; Harvard University, MEd

Amy Stratman

Assistant Academic Specialist, College of Professional Studies; Simmons College, MA

Phyllis R. Strauss

Matthews Distinguished University Professor, Biology; Rockefeller University, PhD

Heather Streets-Salter

Professor, History; Duke University, PhD

Aron P. Stubbins

Associate Professor, Marine and Environmental Sciences and Civil and Environmental Engineering and Chemistry and Chemical Biology; Newcastle University (United Kingdom), PhD

Ming Su

Associate Professor, Chemical Engineering; Northwestern University, PhD

Fernando Suarez

Jean C. Tempel Professor, Entrepreneurship and Innovation; Massachusetts Institute of Technology, PhD

Alexandru I. Suciu

Professor, Mathematics; Columbia University, PhD

Annemarie C. Sullivan

Clinical Instructor, Health Sciences; Northeastern University, MS

Denis Sullivan

Professor, Political Science and International Affairs; University of Michigan, PhD

Fareena Sultan

Professor, Marketing; Columbia University, PhD

Hao Sun

Assistant Professor, Civil and Environmental Engineering; Columbia University, PhD

Linlin Sun

Assistant Research Professor, Chemical Engineering; Northeastern University, PhD

Nian-Xiang Sun

Professor, Electrical and Computer Engineering; Stanford University, PhD

Ravi Sundaram

Professor, Computer and Information Science; Massachusetts Institute of Technology, PhD

Gloria Sutton

Associate Professor, Art + Design; University of California, Los Angeles, PhD

John D. Swain

Associate Professor, Physics; University of Toronto (Canada), PhD

Richard S. Swasey Jr.

Principal Lecturer, Finance; University of Virginia, MBA

Jacqueline F. Sweeney

Senior Cooperative Education Coordinator, College of Arts, Media and Design; Northeastern University, MS

Nina Sylvanus

Associate Professor, Sociology and Anthropology; Ecole des Hautes Etudes en Sciences Sociales, Paris (France), PhD

Balazs Szelenyi

Associate Teaching Professor, College of Professional Studies; University of California, Los Angeles, PhD

Mario Sznaier

Dennis Picard Trustee Professor, Electrical and Computer Engineering; University of Washington, PhD

Srinivas Tadigadapa

Professor, Electrical and Computer Engineering; Cambridge University (United Kingdom), PhD

Gilead Tadmor

Professor, Electrical and Computer Engineering; Weizmann Institute of Science (Israel), PhD

Paul Tagliamonte

Visiting Lecturer, Supply Chain and Information Management; Boston College, MS

David Tamés

Assistant Teaching Professor, Art + Design; Massachusetts College of Art and Design, MFA

Michael Tannebaum

Visiting Lecturer, Communication Studies; Georgia State University, PhD

Aysen Tanyeri-Abur

Associate Teaching Professor, Economics; Texas AM University, PhD

Peter Tarasewich

Assistant Teaching Professor, Supply Chain and Information Management; University of Connecticut, PhD

Mary Suzanne Tarmina

Associate Clinical Professor, Nursing; University of Utah, PhD

Mohammad E. Taslim

Professor, Mechanical and Industrial Engineering; University of Arizona, PhD

Tomasz R. Taylor

Professor, Physics; University of Warsaw (Poland), PhD

Philip Thai

Assistant Professor, History; Stanford University, PhD

Ganesh Thakur

Associate Professor, Pharmaceutical Sciences; Institute of Chemical Technology (India), PhD

Ronald S. Thomas

Senior Lecturer, International Business and Strategy; Harvard University, PhD

Corliss Thompson

Associate Teaching Professor, College of Professional Studies; University of North Carolina, Chapel Hill, PhD

Jamal Thorne

Assistant Teaching Professor, Art + Design; Northeastern University, MFA

George Thrush

Professor, Architecture; Harvard University, MArch

Jonathan L. Tilly

University Distinguished Professor, Biology; Rutgers, the State University of New Jersey, PhD

Frank Tip

Professor, Computer and Information Science; University of Amsterdam (Netherlands), PhD

Lisa J. Tison-Thomas

Assistant Cooperative Education Coordinator, College of Science; Emmanuel College, MA

Devesh Tiwari

Assistant Professor, Electrical and Computer Engineering; North Carolina State University, PhD

Yustianto Tjiptowidjojo

Assistant Teaching Professor, Mechanical and Industrial Engineering; Mississippi State University, PhD

Gordana G. Todorov

Professor, Mathematics; Brandeis University, PhD

Svetlana Todorova

Visiting Lecturer, Supply Chain and Information Management; Varna University of Management (Bulgaria), PhD

Alessio Tognetti

Assistant Academic Specialist, World Languages Center; University of Washington, MA

Valerio Toledano Laredo

Professor, Mathematics; University of Cambridge (United Kingdom), PhD

Michael Tolley

Associate Professor, Political Science; Johns Hopkins University, PhD

Peter Y. Topalov

Professor, Mathematics; Moscow State University (Russia), PhD

Vladimir P. Torchilin

University Distinguished Professor, Pharmaceutical Sciences; Moscow State University (Russia), PhD, DSc

Ali Touran

Professor, Civil and Environmental Engineering; Stanford University, PhD

Emery A. Trahan

Professor, Finance; State University of New York, Albany, PhD

Stavros Tripakis

Associate Professor, Computer and Information Science; Joseph Fourier University (France), PhD

Andrew Trotman

Assistant Professor, Accounting; Bond University (Australia), PhD

Geoffrey C. Trussell

Professor, Marine and Environmental Sciences; College of William and Mary, PhD

Kumiko Tsuji

Assistant Teaching Professor, World Languages Center; Georgetown University, PhD

Nathaniel Tuck

Lecturer, Computer and Information Science; University of Massachusetts, Lowell, PhD

Eugene Tunik

Associate Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Rutgers University, PhD

Berna Turam

Professor, International Affairs and Sociology and Anthropology; McGill University (Canada), PhD

Esther Tutella-Chen

Assistant Academic Specialist, College of Professional Studies; Vanderbilt University, MEd

Rafael Ubal Tena

Assistant Teaching Professor, Electrical and Computer Engineering; Universidad Politecnica de Valencia (Spain), PhD

Jonathan Ullman

Assistant Professor, Computer and Information Science; Harvard University, PhD

Annique Un

Associate Professor, International Business and Strategy; Massachusetts Institute of Technology, PhD

Christopher Unger

Associate Teaching Professor, College of Professional Studies; Harvard University, EdD

Steven R. Untersee

Lecturer, Biology; Tufts University, PhD

Moneesh Upmanyu

Professor, Mechanical and Industrial Engineering; University of Michigan, PhD

Ricardo Valdez

Assistant Teaching Professor, College of Professional Studies; University of Washington, PhD

Steven Vallas

Professor, Sociology and Anthropology; Rutgers University, PhD

Jenny A. Van Amburgh

Clinical Professor, Pharmacy and Health Systems Sciences; Albany College of Pharmacy, PharmD

Jan-Willem Van De Meent

Assistant Professor, Computer and Information Science; Leiden University (Netherlands), PhD

Anne L. Van De Ven-Moloney

Research Assistant Professor, Physics; Rice University, PhD

Maria Van Pelt

Associate Clinical Professor, Nursing; Villanova University, DNSc

Kathleen Vander Laan

Associate Cooperative Education Coordinator, College of Computer and Information Science; Salem State University, MBA

Ashkan Vaziri

Associate Professor, Mechanical and Industrial Engineering; Northeastern University, PhD

Elaine Vejar

Assistant Academic Specialist, College of Professional Studies; University of Massachusetts, Lowell, MS

Oana Veliche

Lecturer, Mathematics; Purdue University, PhD

Venkata Vemuri

Research Assistant Professor, Pharmaceutical Sciences; Osmania University (India), PhD

Vivek Venkatachalam

Assistant Professor, Physics; Harvard University, PhD

Madhavi Venkatesan

Visiting Assistant Teaching Professor, Economics; Vanderbilt University, PhD

Anand Venkateswaran

Associate Professor, Finance; Georgia State University, PhD

Susan H. Ventura

Associate Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, PhD

Alessandro Vespignani

Sternberg Family Distinguished University Professor, Physics and Health Sciences and Computer and Information Science; University of Rome La Sapienza (Italy), PhD

Gustavo Vicentini

Assistant Teaching Professor, Economics; Boston University, PhD

Thomas Vicino

Associate Professor, Political Science and Public Policy and Urban Affairs; University of Maryland, PhD

Emanuele Viola

Associate Professor, Computer and Information Science; Harvard University, PhD

Jan Vitek

Professor, Computer and Information Science; University of Geneva (Switzerland), PhD

Olga Vitek

Sy and Laurie Sternberg Interdisciplinary Associate Professor, Computer and Information Science and Chemistry and Chemical Biology; Purdue University, PhD

Triet Vo Huu

Research Assistant Professor, Computer and Information Science; Northeastern University, PhD

Steven V. Vollmer

Associate Professor, Marine and Environmental Sciences; Harvard University, PhD

Robert J. Volpe

Associate Professor, Applied Psychology; Lehigh University, PhD

Erik Voss

Associate Teaching Professor, College of Professional Studies; Iowa State University, PhD

Sara Wadia-Fascetti

Professor, Civil and Environmental Engineering; Stanford University, PhD

Nancy Waggner

Associate Cooperative Education Coordinator, Pharmaceutical Sciences; Suffolk University, JD

Thomas Wahl

Associate Professor, Computer and Information Science; University of Texas, Austin, PhD

Thomas E. Wales

Research Associate Professor, Chemistry and Chemical Biology; Duke University, PhD

C.J. Walker

Professor of the Practice, College of Professional Studies; George Washington University, PhD

Jacob Walker

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

Louise Walker

Associate Professor, History; Yale University, PhD

Byron Wallace

Assistant Professor, Computer and Information Science; Tufts University, PhD

Rachel Walsh

Assistant Cooperative Education Coordinator, College of Engineering; Suffolk University, MS

Robin Walters

Zelevinsky Research Professor, Psychology; University of Chicago, PhD

Suzanna Walters

Professor, Women's, Gender, and Sexuality Studies and Sociology and Anthropology; City University of New York, PhD

Belinda Walzer

Assistant Teaching Professor, Writing Program; University of North Carolina, Greensboro, PhD

Richard Wamai

Associate Professor, Cultures, Societies, and Global Studies; University of Helsinki (Finland), PhD

Kai-tak Wan

Professor, Mechanical and Industrial Engineering; University of Maryland, College Park, PhD

Lu Wang

Assistant Professor, Computer and Information Science; Cornell University, PhD

Ming Wang

College of Engineering Distinguished Professor, Civil and Environmental Engineering; University of New Mexico, PhD

Qi Wang

Assistant Professor, Civil and Environmental Engineering; Virginia Polytechnic Institute and State University, PhD

Yanzhi Wang

Assistant Professor, Electrical and Computer Engineering; University of Southern California, PhD

Meni Wanunu

Associate Professor, Physics; Weizmann Institute of Science (Israel), PhD

Robert J. Ward

Lecturer, Music; University of California, San Diego, MA

Oliver Wason

Visiting Assistant Teaching Professor, Theatre; Yale University, MFA

Gregory Wassall

Associate Professor, Economics; Rutgers University, PhD

Barbara L. Waszczak

Professor, Pharmaceutical Sciences; University of Michigan, PhD

Maureen Watkins

Assistant Clinical Professor, Physical Therapy, Movement, and Rehabilitation Sciences; Northeastern University, DPT

Natalya Watson

Assistant Teaching Professor, College of Professional Studies; University of Colorado, PhD

Dov Waxman

Professor, Political Science and International Affairs and Jewish Studies; Johns Hopkins University, PhD

Rebecca Webb

Assistant Cooperative Education Coordinator, College of Engineering; Boston College, MA

Thomas J. Webster

Arthur W. Zafiropoulos Professor, Chemical Engineering; Rensselaer Polytechnic Institute, PhD

Vanessa Wei

Assistant Teaching Professor, World Languages Center; University of Iowa, MA

Liza Weinstein

Associate Professor, Sociology and Anthropology; University of Chicago, PhD

Michael Weintraub

Associate Clinical Professor, Computer and Information Science; Ohio State University, PhD

Jonathan Weitsman

Robert G. Stone Professor, Mathematics; Harvard University, PhD

Brandon Welsh

Professor, Criminology and Criminal Justice; University of Cambridge (United Kingdom), PhD

Edward G. Wertheim

Associate Professor, Management and Organizational Development; Yeshiva University, PhD

Richard West

Assistant Professor, Chemical Engineering; University of Cambridge (United Kingdom), PhD

Alan West-Durán

Associate Professor, Cultures, Societies, and Global Studies; New York University, PhD

Rebecca Westerling

Assistant Cooperative Education Coordinator, College of Social Sciences and Humanities; Boston College, MA

Richard Whalen

Teaching Professor, Engineering; Northeastern University, PhD

Susan Whitfield-Gabrieli

Professor, Psychology; University of California, Berkeley, PhD

Paul C. Whitford

Assistant Professor, Physics; University of California, San Diego, PhD

John Whitney

Assistant Professor, Mechanical and Industrial Engineering; Harvard University, PhD

Daniel Wicks

Assistant Professor, Computer and Information Science; New York University, PhD

Peter H. Wiederspahn

Associate Professor, Architecture; Harvard University, MArch

Afi Wiggins

Assistant Teaching Professor, College of Professional Studies; University of Virginia, PhD

John Wihbey

Assistant Professor, Journalism; Columbia University, MS

Ronald J. Willey

Professor, Chemical Engineering; University of Massachusetts, Amherst, PhD

Margaret Williams

Visiting Lecturer, Communication Studies; University of Illinois, Chicago, PhD

Mark C. Williams

Professor, Physics; University of Minnesota, PhD

Stephen Williams

Associate Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

Tiffani Williams

Professor of the Practice, Computer and Information Science; University of Central Florida, PhD

Christo Wilson

Assistant Professor, Computer and Information Science; University of California, Santa Barbara, PhD

Sheila Winborne

Assistant Teaching Professor, Philosophy and Religion; Harvard University, PhD

Eric Winter

Assistant Cooperative Education Coordinator, College of Engineering; Northeastern University, MS

Pamela Wojnar

Assistant Teaching Professor, College of Professional Studies; University of Sports Academy, EdD

John Wolfe

Associate Teaching Professor, College of Professional Studies; Columbia University, EdD

Darien Wood

Professor, Physics; University of California, Berkeley, PhD

Dori C. Woods

Assistant Professor, Biology; University of Notre Dame, PhD

Adam Woolley

Associate Clinical Professor, Pharmacy and Health Systems Sciences; Massachusetts College of Pharmacy, PharmD

Benjamin Woolston

Assistant Professor, Chemical Engineering; Massachusetts Institute of Technology, PhD

Lisa Worsh

Senior Cooperative Education Coordinator, College of Social Sciences and Humanities; Bridgewater State College, MEd

Shu-Shih Y. Wu

Lecturer, Mathematics; Northeastern University, PhD

Sara A. Wylie

Assistant Professor, Sociology and Anthropology and Health Sciences; Massachusetts Institute of Technology, PhD

Xia Xiao

Assistant Professor, Accounting; University of Arizona, PhD

Wei Xie

Assistant Professor, Mechanical and Industrial Engineering; Northwestern University, PhD

Shiawee X. Yang

Associate Professor, Finance; Pennsylvania State University, PhD

Diane Yasgur

Assistant Cooperative Education Coordinator, College of Engineering; New York University, MBA

Lichuan Ye

Associate Professor, Nursing; University of Pennsylvania, DNSc

Mishac K. Yegian

College of Engineering Distinguished Professor, Civil and Environmental Engineering; Massachusetts Institute of Technology, PhD

Edmund Yeh

Professor, Electrical and Computer Engineering; Massachusetts Institute of Technology, PhD

Boris Yelin

Assistant Teaching Professor, World Languages Center; Purdue University, PhD

Benjamin Yelle

Assistant Teaching Professor, Philosophy and Religion; University of Miami, PhD

Sheng-Che Yen

Assistant Professor, Physical Therapy, Movement, and Rehabilitation Sciences; New York University, PhD

Mark L. Yorra

Senior Cooperative Education Coordinator, Pharmacy and Health Systems Sciences; Northeastern University, EdD

Carol Young

Assistant Teaching Professor, College of Professional Studies; University of Massachusetts, PhD

Gary Young

Professor, International Business and Strategy and Health Sciences; State University of New York, Buffalo, PhD

Lydia Young

Associate Teaching Professor, College of Professional Studies; Boston College, PhD

Nancy Young

Assistant Teaching Professor, College of Professional Studies; Boston University, PhD

Sara C. Young-Hong

Clinical Instructor, Communication Sciences and Disorders; University of Pittsburgh, MA

Qi (Rose) Yu

Assistant Professor, Computer and Information Science; University of Southern California, Los Angeles, PhD

Shuishan Yu

Associate Professor, Architecture; University of Washington, PhD

Jennifer Yule

Associate Academic Specialist, Marketing; Glasgow Caledonian University (Scotland), PhD

Nizar Zaarour

Assistant Teaching Professor, Supply Chain and Information Management; Northeastern University, PhD

Michelle Zaff

Assistant Cooperative Education Coordinator, College of Social Sciences and Humanities; Suffolk University, JD

Christos Zahopoulos

Associate Professor, College of Professional Studies; Northeastern University, PhD

Carl Zangerl

Assistant Teaching Professor, College of Professional Studies; University of Illinois, PhD

Alan J. Zaremba

Associate Professor, Communication Studies; State University of New York, Buffalo, PhD

Michele C. Zee

Assistant Teaching Professor, Behavioral Neuroscience; University of Oregon, PhD

Ibrahim Zeid

Professor, Mechanical and Industrial Engineering; University of Akron, PhD

Edward David Zepeda

Assistant Professor, Supply Chain and Information Management; University of Minnesota, PhD

David P. Zgarrick

Professor, Pharmacy and Health Systems Sciences; Ohio State University, PhD

Ke Zhang

Associate Professor, Chemistry and Chemical Biology; Washington University, St. Louis, PhD

Yue May Zhang

Associate Professor, Accounting; University of Pittsburgh, PhD

Xiaolei Zhao

Zelevinsky Research Professor, Mathematics; University of Michigan, PhD

Kungcheng Zheng

Assistant Professor, Finance; University of Michigan, PhD

Ting Zhou

Associate Professor, Mathematics; University of Washington, PhD

Xiaomu Zhou

Assistant Teaching Professor, College of Professional Studies; University of Michigan, PhD

Zhaohui S. Zhou

Professor, Chemistry and Chemical Biology; Scripps Research Institute, PhD

Hongli Zhu

Assistant Professor, Mechanical and Industrial Engineering; South China University of Technology (China), PhD

Sali Ziane

Associate Teaching Professor, World Languages Center; University of Paris XIII (France), PhD

Nathanial Ziegler

Assistant Cooperative Education Coordinator, College of Engineering; Indiana University of Pennsylvania, MEd

Katherine S. Ziemer

Professor, Chemical Engineering; West Virginia University, PhD

Emily Zimmerman

Assistant Professor, Communication Sciences and Disorders; University of Kansas, PhD

Gregory Zimmerman

Associate Professor, Criminology and Criminal Justice; State University of New York, Albany, PhD

Kathrin Zippel

Associate Professor, Sociology and Anthropology; University of Wisconsin, Madison, PhD

Steven Zoloth

Professor, Health Sciences; University of Pennsylvania, PhD

Elizabeth Zulick

Assistant Teaching Professor, College of Professional Studies; Boston University, PhD

Ronald Zullo

Senior Lecturer, Accounting; Bentley University, MS

Günther K. H. Zupanc

Professor, Biology; University of California, San Diego, PhD; University of Tübingen (Germany), Dr. rer. nat. habil.

Alexander Zvonok

Research Assistant Professor, Pharmaceutical Sciences; Belarusian State University (Belarus), PhD

Nikolai Zvonok

Research Assistant Professor, Pharmaceutical Sciences; Russian Academy of Sciences (Russia), PhD

Administrative Organization

Officers of the University

Joseph E. Aoun, BA, MA, PhD, President

Michael A. Armini, BA, MA, Senior Vice President for External Affairs

James C. Bean, BS, MS, PhD, Provost and Senior Vice President for Academic Affairs

Diane Nishigaya MacGillivray, BA, MA, Senior Vice President for University Advancement

Philomena V. Mantella, BS, MSW, PhD, Senior Vice President and CEO of the Professional Advancement Network

Ralph C. Martin II, BA, JD, Senior Vice President and General Counsel

Thomas Nedell, BA, MBA, Senior Vice President for Finance and Treasurer

Academic Deans

Nadine Aubry, BS, MS, PhD, Dean of the College of Engineering

Carla E. Brodley, BA, MS, PhD, Dean of the College of Computer and Information Science

Raj Echambadi, BS, MBA, PhD, Dean of the D'Amore-McKim School of Business

Kenneth W. Henderson, BSc, PhD, Dean of the College of Science

Elizabeth Hudson, BA, MA, PhD, Dean of the College of Arts, Media and Design

Mary Loeffelholz, BA, MA, PhD, Dean of the College of Professional Studies

James R. Hackney, AB, JD, Dean of the School of Law

Uta Poiger, BA, MA, AM, PhD, Dean of the College of Social Sciences and Humanities

Susan L. Parish, BA, MSW, PharmD, Dean of Bouvé College of Health Sciences

Vice Provosts

Susan Ambrose, BA, MA, PhD, Senior Vice Provost for Undergraduate Education and Experiential Learning

John Armendariz, EdD, Vice Provost for Institutional Diversity and Inclusion

Debra Franko, BA, PhD, Senior Vice Provost for Academic Affairs

David Luzzi, BE, PhD, MBA, Senior Vice Provost for Research

Breean Fortier, BA, MA, Senior Vice Provost for Budget, Planning, and Administration

Ni (Phil) He, LLB, PhD, Vice Provost for Graduate Education

Sara Wadia-Fascetti, BS, MS, PhD, Vice Provost for the PhD Network

Vice Presidents

Anthony Rini, BA, MPA, EdD, Vice President for Finance

Rick Davis, BS, MA, Vice President for Alumni Relations

Joseph J. Donnelly Jr., BA, Vice President for Advancement and Campaign Director

Nicholas F. Ducoff, BBA, JD, Vice President for New Ventures

Madeleine A. Estabrook, AB, JD, Vice President for Student Affairs

Cole W. Camplese, BA, MS, Vice President and Chief Information Officer

Luanne M. Kirwin, BA, MA, Vice President of Development

Sundar Kumarasamy, BA, MS, Vice President for Enrollment Management

Timothy E. Leshan, BA, MPA, Vice President for Government Relations

Chris Mallet, BS, MPA, Vice President for Online Experiential Learning

Jane Moyer, BA, MA, Vice President for Human Resources Management

Lisa Sinclair, BA, JD, Vice President of Legal Affairs

Kathy Spiegelman, BA, MS, Vice President and Chief of Campus Planning and Development

Brian Sullivan, BS, MBA, Vice President and Chief Marketing Officer

John Tobin, BA, Vice President for City and Community Affairs

Renata Nyul, BA, MS, Vice President for Communications

Other Administrative Leaders

Linda D. Allen, BA, MEd, Assistant Vice President and University Registrar

Michael A. Davis, BA, MA, Director of Public Safety and Chief of Police

Jeff Konya, JD, Director of Athletics and Recreation

Dan Cohen, BA, MA, PhD, Dean, University Libraries and Vice Provost for Information Collaboration

Statements of Accreditation and State Authorization

Accreditation

Northeastern University has maintained its status as a member in good standing of the New England Association of Schools and Colleges (NEASC) Commission on Institutions of Higher Education (CIHE) since it was awarded its initial accreditation in 1940. The university was last reviewed by NEASC in 2008 and will be reviewed again in fall 2018.

Northeastern University possesses degree-granting authority in Massachusetts, under the auspices of the Massachusetts Board of Higher Education.

Program	Accrediting Agency
Northeastern University	New England Association of Schools and Colleges (NEASC)

BOUVÉ COLLEGE OF HEALTH SCIENCES

Program	Accrediting Agency
BS in Athletic Training	Commission on Accreditation of Athletic Training Education (CAATE)
BS in Health Science	Council on Education for Public Health
MS in Speech-Language Pathology and Audiology	Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (ASHA), Massachusetts Board of Education ¹
BS in Nursing	Commission on Collegiate Nursing Education (CCNE) and Massachusetts Board of Registration in Nursing ²
MS in Physician Assistant Studies	Accreditation Review Commission on Education for the Physician Assistant, Inc. (ARC-PA)
MS in Nursing	Commission on Collegiate Nursing Education (CCNE) and Massachusetts Board of Registration in Nursing ²
MS in Nursing in Anesthesia	Council on Accreditation of Nurse Anesthesia Educational Programs (COA); Commission on Collegiate Nursing Education (CCNE) and Massachusetts Board of Registration in Nursing ²
Registered Nurse/BSN ³	Commission on Collegiate Nursing Education (CCNE) and Massachusetts Board of Registration in Nursing ²

Post BS Doctor of Nursing Practice US Army Program in Anesthesia Nursing (USAGPAN)	Council on Accreditation of Nurse Anesthesia Educational Programs (COA)
DPT in Physical Therapy	Commission on Accreditation of Physical Therapy Education (CAPTE)
MS/MBA (two-year program)	Commission on Collegiate Nursing Education (CCNE) and Massachusetts Board of Registration in Nursing ² ; Commission on Collegiate Nursing Education (CCNE) and the Association to Advance Collegiate Schools of Business (AACSB International)
MS and CAGS in Applied Educational Psychology— School Psychology	Massachusetts Department of Education (DOE) and National Association of School Psychologists (NASP)
MS in Applied Educational Psychology — School Counseling	Massachusetts Department of Education (DOE)
AuD in Audiology	Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association (ASHA), Massachusetts Board of Education ¹
MPH Master of Public Health in Urban Health	Council on Education for Public Health
PharmD	Accreditation Council for Pharmacy Education (ACPE)
PhD in Counseling and School Psychology	American Psychology Association (APA)

¹ The Massachusetts Board of Education approves (not accredits) programs.

² The Massachusetts Board of Registration in Nursing approves (not accredits) programs.

³ Accredited under the aegis of the “sponsoring” full-time college.

JD	American Bar Association Association of American Law Schools ⁴

⁴ The Association of American Law Schools is an elected membership organization, not an accrediting body.

State Approvals, Authorizations, and Exemptions

Some states require that universities authorized to operate in their state make public disclosures. See the corresponding addendum on the Online and Graduate Professional Degree Programs website (<http://www.northeastern.edu/online/about-northeastern-online/state-agreements.php>) for up-to-date, state-prescribed regulatory information applicable to all degree levels.

General Information

The *Northeastern University Undergraduate Catalog (Full-Time Day Programs)* contains the university's primary statements about these academic programs and degree requirements, as authorized by the president or the Board of Trustees. For information about other academic policies and procedures; student responsibilities; student academic and cocurricular life; faculty rights and responsibilities; or general personnel policies, benefits, and services, please refer to the *Undergraduate Student Handbook*, *Graduate Catalog*, *Cooperative Education Student Handbook*, *Faculty Handbook*, and related procedural guides, as appropriate.

Accreditation. Northeastern University is accredited by the New England Association of Schools and Colleges, Inc.

Delivery of Services. Northeastern University assumes no liability for delay or failure to provide educational or other services or facilities due to causes beyond its reasonable control. Causes include, without limitation, power failure, fire, strikes by university employees or others, damage by natural elements, and acts of public authorities. The university will, however, exert reasonable efforts, when it judges them to be appropriate, to provide comparable services, facilities, or performance; but its inability or failure to do so shall not subject the university to liability.

The *Northeastern University Undergraduate Catalog* contains current information about the university calendar, admissions, degree requirements, fees, and regulations; however, such information is not intended and should not be regarded to be contractual.

Northeastern University reserves the sole right to promulgate and change rules and regulations and to make changes of any nature in its program; calendar; admissions policies, procedures, and standards; degree requirements; fees; and academic schedule whenever necessary or desirable, including, without limitation, changes in course content and class schedule, the cancellation of scheduled classes and other academic activities, and the substitution of alternatives for scheduled classes and other academic activities. In any such case, the university will give whatever notice is reasonably practical.

Northeastern University will endeavor to make available to its students a fine education and a stimulating and congenial environment. However, the quality and rate of progress of an individual's academic career and professional advancement upon completion of a degree or program are largely dependent on his or her own abilities, commitment, and effort. In many professions and occupations, there are also requirements imposed by federal and state statutes and regulatory agencies for certification or entry into a particular field. These requirements may change while a student is enrolled in a program and may vary from state to state or country to country. Although the university stands ready to help its students find out about requirements and changes in them, it is the student's responsibility to initiate the inquiry.

Tuition Default Policy. In cases where the student defaults on his or her tuition, the student shall be liable for the outstanding tuition and all reasonable associated collection costs incurred by the university, including attorneys' fees.

Emergency Closing of the University. Northeastern University posts emergency announcements, including news of weather-related closings, on its homepage (<http://www.northeastern.edu>) and notifies members of the community individually through the NU ALERT system. In addition, the university has made arrangements to notify students, faculty, and staff by radio and television when it becomes necessary to cancel classes because of extremely inclement weather. AM stations WBZ (1030), WILD (1090), and WRKO (680), and FM station WBUR (90.9), are the radio stations authorized to announce the university's decision to close. Television stations WBZ-TV4, WCVB-TV5, and WHDH-TV7 will also report cancellations. Since instructional television courses originate from live or broadcast facilities at the university, neither the classes nor the courier service operates when the university is closed. Please listen to the radio or television to determine whether the university will be closed.

If a storm occurs at night, the announcement of university closing is given to the radio stations at approximately 6 a.m. Classes are generally canceled for that entire day and evening at all campus locations unless stated otherwise. When a storm begins late in the day, cancellations of evening classes may be announced. This announcement is usually made between 2 and 3 p.m.

Equal Opportunity Policy. Northeastern University does not discriminate on the basis of race, color, religion, sex, sexual orientation, age, national origin, disability, or veteran status in admission to, access to, treatment in, or employment in its programs and activities. In addition, Northeastern University will not condone any form of sexual harassment. Handbooks containing the university's nondiscrimination policies and its grievance procedures are available in the Office of Institutional Diversity and Inclusion, 125 Richards Hall. Inquiries regarding the university's nondiscrimination policies may be directed to:

Office of Institutional Diversity and Inclusion
125 Richards Hall
Northeastern University
Boston, Massachusetts 02115
617.373.2133

Inquiries concerning the application of nondiscrimination policies may also be referred to the:

Regional Director
Office for Civil Rights
U.S. Department of Education
8th Floor
5 Post Office Square
Boston, MA 02109-3921

Disability Resource Center. The Disability Resource Center provides a variety of disability-related services and accommodations to Northeastern University's students and employees with disabilities.

Northeastern University's compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 are coordinated by the senior director of the Disability Resource Center. Persons requiring information regarding the Disability Resource Center should contact the center at 617.373.2675 or, if using TTY, via Relay 711.

Family Educational Rights and Privacy Act. In accordance with the Family Educational Rights and Privacy Act of 1974, Northeastern University permits its students to inspect their records wherever appropriate and to challenge specific parts of them when they feel it is necessary to do so. Specific details of the law as it applies to Northeastern are printed in the *Undergraduate Student Handbook* and *Graduate Student Handbook* and are distributed annually at registration for the university's colleges and graduate schools.

Clery Act. Northeastern is committed to assisting all members of the university community in providing for their own safety and security. Information regarding campus security and personal safety, including topics such as crime prevention, university police law enforcement authority, crime reporting policies, crime statistics for the most recent three-year period, and disciplinary procedures, is available upon request from the Northeastern University Director of Public Safety, 360 Huntington Avenue, Boston, MA 02115, or by calling 617.373.2696.

Persistence Rates under the Student Right-to-Know Act. In the fall of 2017, the persistence rate for students who entered in the fall 2016 cohort was 96.7% percent.

Mission Statement:

To educate students for a life of fulfillment and accomplishment.
To create and translate knowledge to meet global and societal needs.
