General Information

PROSPECTIVE STUDENT

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment.

MEDICAL EDUCATION INSTITUTE (MEI) MISSION

Our mission is to offer more opportunities to people who wish to work in the healthcare industry thus improving their socio-economic status by having education in the medical field. MEI is compromise to respond to student's ambition by imparting a thorough systematic educational program by:

- bringing educational resources that will assist students to fulfill their ambition to accomplish goals of learning profound knowledge in chosen career;
- by conveying the strongest confidence in each student through real-world learning and experience;
- Guiding students to follow step-by-step learning process which is designed in most organized and systematized way.

MEI OBJECTIVES

Objectives of MEI are:

- To prepare each student to be at an “employable knowledge” level where they will become employable in the chose career upon graduation;
- To prepare each student to become inspired to continue to grow in the chosen career field;
- To prepare each student to become more competitive to be successful in the chosen career field;
- To enthuse each student to dream the greater success in life.

STATE APPROVAL

Medical Education Institute is a private institution approved to operate by the Bureau for Private Postsecondary Education (BPPE) since 2012. Approval to operate means the institution is compliant with the minimum standards contained in the California Private Postsecondary Education Act of 2009 (as amended) and division 7.5 of Title 5 of the California Code of Regulations.

Medical Education Institute does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, and has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.).

General Information & Admissions Policy

FACILITY & LEARNING EQUIPMENT

Class sessions are provided at MEI's campus located at 2007 Wilshire Blvd. Suite 604, Los Angeles. (CEC 94909) MEI is located within 4 blocks from Good Samaritan Hospital and San Vincent Hospital. MEI is just minutes away from Downtown Los Angeles, Staple Center, Civic Center and L.A. County Courthouse 1 mile, Federal Building and World Trade Center 1 mile, Pacific Stock Exchange and L.A. Central Library 1 mile, L.A. Convention Center 1 1/4 miles, China Town and Little Tokyo 2 miles, L.A. Greyhound Bus Terminal and Dodger Stadium 2 miles, Union Station 1 1/4 miles, L.A. Coliseum and USC 2 1/2 miles, Pasadena Rose Bowl and Universal Studios 10 miles, Hollywood Bowl 6 miles.

MEI campus has easy access to public transportation with the facility equipped with imaging lab, clinical lab, general-purpose classrooms, and administrative office all, which are well lighted and air-conditioned. Approximated total square footage of school is 750 square feet.

MEI imaging laboratory is used for instruction in Diagnostic Sonography and Adult Echocardiography programs and equipped to support student-learning experiences with 2-D ultrasound systems with printer and recording devices (VE Core Pack VIVID E GE). The materials include ultrasound gel and three different transducers for each modality, which include vascular sonography, general sonography, and echocardiography.

Medical Assistant Laboratory includes equipment and material for current medical procedures and medical testing. Equipment used for non-invasive procedures are the following: electrocardiograph, nebulizer, audiometer, glucometer, spirometer, and blood pressure machine. Material includes blood collection system, single draw needles with safety devices, urine and glucose strips, hemoglobin microcuvette, ocular devices for vision tests, and pregnancy strips.

The school library is equipped with current collection of manuals and reference books designed to support all course offerings. A learning Resource Center has been implemented to student support. Library hours are Monday through Friday, 9 a.m. – 10:00 p.m. Library is closed on weekends and holidays.

HOUSING

MEI does not offer dormitory facilities because the institution does not currently have sufficient space or resources needed to provide this option to students. MEI has no responsibility to find or assist a student in finding housing. However, there are various housing options available for students in Downtown Los Angeles. The approximate cost of studios located within 10 miles from MEI range from \$900 - \$950 per month, and the approximate cost of a one-bedroom apartment within the same distance ranges from \$1050 - \$1100 monthly.

STEPS FOR ENROLLMENT

- Inquiring applicant is scheduled to visit the school.
- Inquiring applicant must have a personal interview with an admissions advisor.
- While visiting the school applicant receives a tour of the campus, completes an application & admissions advisor explains the steps for enrollment requirements, receives an overview of the programs for which student is qualified.
- Inquiring applicant is scheduled for entrance examination Scholastic Level Exam (SLE).
- Applicant attends program orientation prior to first day of lecture.

CRITERIA FOR ADMISSION

Persons with high school diploma or GED or college degree or passing score on Ability-To-Benefit (ATB) are eligible to apply. Applicants who do not have a high school diploma or GED or a college degree and are beyond the age of compulsory secondary education in California must pass the Wonderlic Basic Skills Test (WBST) to be considered for admission. Passing score for the Wonderlic's ATB tests are as follows: Quantitative - 210 or greater & Verbal - 200 or higher. Applicants are required a level of English language proficiency at a 12th grade level, documented by a high school diploma, GED or ATB passing test results. The final determination on the applicant is based on test results including SLE, with a SLE passing score of 20, prior education, motivation, work-experience, placement potential and general aptitude for the chosen program. A student failing to achieve a passing score in the SLE may retake the SLE and wait 5 calendar days before the 2nd attempt, with a 3rd and final attempt 30 days after the 2nd attempt. If the student does not pass the exam on the 3rd attempt, they are rejected for admission and must wait 6 months to reapply. Each applicant is assessed individually. MEI does not deny admission on the basis of age, race, creed, color, sex or national origin.

NOTICE CONCERNING TRANSFERABILITY OF CREDITS AND CREDENTIALS EARNED AT OUR INSTITUTION

The transferability of credits you earn at **MEDICAL EDUCATION INSTITUTE** is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the **certificate** you earn in the **program** is also at the complete discretion of the institution to which you may seek to transfer. If the certificate that you earn at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending **MEDICAL EDUCATION INSTITUTE** to determine if your **certificate** will transfer.

Medical Education Institute has not entered into an articulation or transfer agreement with any other college or university and does not transfer credits from other educational facilities.

Student Information

PROFESSIONAL CONDUCT OF STUDENT

An important element of the training at MEI includes the development of professionalism. The high standards maintained in MEI programs prepare each student to meet the highest expectations of employers. MEI expects students to conduct themselves in socially acceptable manner at all times. Students indulging in the following types of misconduct are subject to immediate dismissal:

- Any type of dishonesty, including cheating, plagiarism, knowingly furnishing false information to institution, forgery, alteration or use of institution identification documents with the intent to defraud.
- Intentional disruption or obstruction of teaching, administration, disciplinary proceedings, public meetings and programs, or other school activities.
- Physical or verbal abuse of any person on school premises or at school-sponsored or supervised functions.
- Theft of school property or damage to school premises or to the property of a member of the school community on the school premises.
- Failure to comply with directions of school officials acting in the performance of their duties.
- The use, possession, or distribution of alcoholic beverages, controlled substances, firearms, weapons, explosives and/or dangerous chemicals on school premises.
- Any violation of Federal, State or local law on MEI premises or at MEI sponsored functions.
- MEI views excessive tardies as violation of the professional conduct philosophy that could lead to dismissal. Any violation or transgression will be strictly penalized. MEI reserves the right to make the administrative and educational decisions as to whether the code of conduct had been violated. All cases are reviewed individually.

CONFIDENTIALITY OF STUDENT RECORDS

All student records are kept on locked fire-proof file cabinets. Files are confidential and are made available for approved purposes only. In accordance with the Family Educational Rights & Privacy Act of 1974, school will not release educational records to unauthorized persons without prior written consent from a student, a parent or a legal guardian. MEI student files are all times kept on campus in the Admission Office. Student files are kept in locked file cabinets, alphabetically organized, and fastened in legal binders. Academic and financial records will be maintained in one file per student. For safekeeping of records, contents of student files will be scanned/kept on a hard drive in archive format which will be maintained by MEI for duration of ten-years from student's last date of attendance.

PROFESSIONAL DRESS STANDARDS

Important part of the training at MEI includes the development of professional attitudes and behaviors. Prospective employers seek employees who will be positive additions to their companies. Therefore, we at MEI have created a “work-like” environment in which our students can grow and develop according to these professional expectations. Learning how to communicate and deal with different situations, coping with frustration, skills to solving problems, disciplining oneself and dressing professionally are just few of the ingredients that go into the makeup of a “professional”. In these areas we have high standards because we are committed to preparing our students for the highest expectations of our employers.

STUDENT GRIEVANCE PROCEDURE

MEI recognizes that the student may have a concern or issue that necessitates a prompt and fair resolution. Complaints are acknowledged on individual basis. If complain is not resolved within a reasonable time frame although report was made in writing to the school administrator and program instructor, then a written complaint is reviewed by an Appeals committee and finally by the school director, according to MEI Complaint Policy.

FILE A COMPLAINT

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 toll-free or by completing a complaint form, which can be obtained on the bureau’s internet web site www.bppe.ca.gov.

HOLIDAYS & OBSERVANCES

Campus is closed on following Holidays: New Year’s Day, President’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Friday after Thanksgiving, Christmas Eve, Christmas Day, and New Year’s Eve.

STUDENT TUITION RECOVERY FUND (STRF) DISCLOSURES

Each qualifying institution shall collect an assessment of zero dollars (\$0) per one thousand dollars (\$1,000) of institutional charges, rounded to the nearest thousand dollars, from each student in an educational program who is a California resident or is enrolled in a residency program. For institutional charges of one thousand dollars (\$1,000) or less, the assessment is zero dollars (\$0). (5, CCR §76120(a)). Therefore, all institutions required to collect STRF assessments from students will cease doing so until notified by the California Bureau of Private Postsecondary Education to resume such collections.

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state- imposed assessment for the

STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431- 6959 or (888) 370- 7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach- out plan approved by the Bureau or did not complete a chosen teach- out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120- day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120- day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Tuition & Charges

TUITION AND CHARGES

Course material and other required support materials are not included in the tuition. Students will need to purchase notebooks, pens, pencils, etc. separately. Books and other support materials purchased from MEI are non-refundable/non-returnable. Tuition and fee costs do not include testing cost for certification, licensure, and credential examinations.

Programs	Program Length (Hours)	Tuition	Registration	STRF	Lab supplies	Textbook	Equipment	Total Charges
Diagnostic Sonography	1980	\$10,000.00	\$75.00	\$0.00	\$0.00	\$800.00	\$0.00	\$10,875.00
Medical Assistant	420	\$4,000.00	\$75.00	\$0.00	\$0.00	\$400.00	\$0.00	\$4,475.00
Adult Echocardiography	1980	\$10,000.00	\$75.00	\$0.00	\$0.00	\$800.00	\$0.00	\$10,875.00

The estimated schedule of total charges for the entire educational programs is the same as the period of attendance.

FINANCIAL AID AND CONSUMER INFORMATION

The Medical Education Institute does not participate in state or federal financial aid programs.

In an effort to assist the student in making a more educated decision about enrolling, the school provides the following disclosures to all students. Students are also welcome to request for disclosures in person at the student services department.

California State

Institutional Performance Fact Sheet (available on school website)

Federal Disclosures

Admissions disclosure

Copyright protection policy

Drug and alcohol abuse policy

Voting Information

RESPONSIBILITY TO REPAY

If a student obtains a loan to pay for an educational program, the student will have to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student receives federal student financial aid funds, the student is entitled to a refund of the moneys not paid from federal financial aid funds.

TUITION UNDER AGREEMENTS WITH THIRD PARTY FUNDING AGENCIES

MEI works with 3rd party funding agencies and when a perspective student with this type of funding source applies for admission, the school's fees will be disclosed in full to the prospective student before enrollment. The contents of the disclosure will include:

- 1) The dollar amount for tuition, registration fee and course material and/or costs incidental to training that the prospective student would pay.
- 2) The name and contact information of the third party funding agency who is sponsoring the prospective student.
- 3) The dollar amount for tuition, registration fee, course material costs and/or costs incidental to training which the third party funding agency agreed to pay on behalf of the prospective student;
- 4) And, if any, the remainder of any charges that the student is responsible for after applying the amount the third party funding agency has agreed to pay.

The cost disclosures to the student will be made in writing by providing the prospective student with the enrollment agreement reflecting all the information listed in the above paragraph. The cost disclosure will further be orally disclosed to the prospective student by an MEI enrollment officer by reviewing the above information with the prospective student.

Cancellation Policy

STUDENT'S RIGHT TO CANCEL

The student has the right to cancel the Enrollment Agreement and obtain a refund of charges paid without any penalty, through attendance at the first class session, or the seventh (7) calendar day after enrollment, whichever is later.

If the Enrollment Agreement is cancelled the school will refund the student any money he/she paid, less a registration fee not to exceed \$75.00, and less any deduction for equipment not returned in good condition. All funds will be refunded within 45 days after the notice of cancellation is received..

CANCELLATION PROCEDURES

Cancellation will occur when the student gives written notice of cancellation at the following address: Medical Education Institute, Admissions Office, 2007 Wilshire Blvd, Suite 604, Los Angeles, CA 90057. The Student can do this by mail or by hand delivery.

The written notice of cancellation, if sent by mail, is effective when it is deposited in the mail properly addressed with proper postage.

The written notice of cancellation need not take any particular form and, however expressed; it is effective if it shows that the student no longer wishes to be bound by the Enrollment Agreement.

The student can request at the Admission Office a cancellation forms for his/her use if decides to cancel, however, student can use any written notice that he/she may wish. You do not cancel the contract by just not attending classes.

If the school cancels a program subsequent to a student's enrollment, the institution will refund all monies paid by the student.

If an applicant accepted by the institution cancels through attendance at the first class session, or the seventh (7) calendar day after enrollment, whichever is later, the school will refund all monies paid, less a registration fee not to exceed \$75.00.

EQUIPMENT AND OTHER MATERIALS

If MEI has given the student any returnable equipment, including books, supplies or other materials, the student will return it to the school within 30 days following the date of notice of cancellation.

If the student fails to return this equipment, including books or supplies, in good condition within the 30-day period, the school may deduct their documented costs from any refund that may be due to the student.

Once the student pays for the equipment, books or supplies it is the student's to keep without further obligation.

Withdrawal Policy

WITHDRAWAL FROM COURSE

After the end of the cancellation period, students also have the right to withdraw from a program at any time and be subject to a pro rata refund if you have completed 60% or less of the scheduled hours in the current payment period in your program through the last day of attendance.

If the student has completed more than 60% of the period of attendance for which the student was charged, the tuition is considered earned and the student will receive no refund.

If the student decides to withdraw from the program, he/she will need to provide a notice of withdrawal at the following address: Medical Education Institute, Admissions Office, 2007 Wilshire Blvd, Suite 604, Los Angeles, CA 90057. The Student can do this by mail or by hand delivery.

The written notice, if sent by mail, is effective when deposited in the mail properly addressed with proper postage.

The written notice need not take any particular form and, however expressed, it is effective if it shows that the student no longer wishes to be bound by the Enrollment Agreement.

This pro rata refund excludes the non-refundable registration and STRF fees and will be made within 45 days of the official withdrawal date.

For the purpose of determining the amount of the pro rata refund, the date of the student's withdrawal will be deemed the last date of recorded attendance. The pro rata refund will be the amount the student has paid for instruction multiplied by a fraction, the numerator of which is the number of hours of instruction which the student has not received but for which the student has paid, and the denominator of which is the total number of hours of instruction for which the student has paid.

If a student obtains equipment, books or supplies as specified in the Enrollment Agreement as a separate charge and returns it in good condition within 30 days following the date of withdrawal, the school will refund the charges for the equipment, books or supplies paid by the student.

If the student fails to return the equipment, books or supplies in good condition allowing for reasonable wear and tear within the 30-day period, the school will deduct the documented cost of the equipment, books or supplies from the refund. In any event, the student will never be charged for more than the charges stated in the Enrollment Agreement.

For a list of these charges, see the second page of the Enrollment Agreement. If the amount that the student has paid is more than the amount that he/she owes for the time attended, then a refund will be made within 45 days of the official withdrawal date. If the amount that the student

owes is more than the amount that he/she has already paid, then payment arrangements must be made. Official withdrawal date is on the student's notification or school's determination.

DETERMINATION OF WITHDRAWAL FROM SCHOOL

For the purpose of determining a pro rata refund under this section, a student will be deemed to have withdrawn from a program when any of the following occurs:

- The student notifies to the school of the student's withdrawal, or as of the date of the student's withdrawal, whichever is later.
- The school terminates the student's enrollment for failure to maintain satisfactory progress, failure to abide by the rules and policies of the institution; absences in excess of maximum set forth by the institution, and/or failure to meet financial obligations to the School.
- The student has failed to attend class for 14 consecutive calendar days, or failure to return from a leave of absence.

The student withdrawal's date is the date the school uses to define the date the student withdrew and the determination of withdrawal date is no later than 14 consecutive calendar days from the last date of attendance.

Students are determined to have withdrawn from school on the earliest of:

- The date students notify the MEI office of his/her intent to withdraw.
- The date the school terminates the student enrollment due to academic failure or for violation of its rules and policies
- The date the student dropped without notifying the institution. In this case, the withdrawal date is the last date of academic attendance as determined by the institution's attendance records.
- The date the student did not return from an approved leave of absence. In this case, the withdrawal date is the date the student was to have returned to classes.

Refund Policy

REFUNDS

After the cancellation period, the institution provides a pro rata refund of ALL funds paid for tuition charges to students who have completed **60 percent or less** of the period of attendance. Once **more than 60 percent** of the enrollment period in the entire course has incurred (**including absences**), there will be no refund to the student.

If any refunds are due based on the institutional refund policy calculation, refunds will be made as soon as possible but not later than 45 days from the determination of withdrawal date.

HYPOTHETICAL REFUND EXAMPLE ACCORDING TO STATE PRO-RATA POLICY

Assume that a student, upon enrollment in a 1,600-hour course, pays \$6,800.00 for tuition, \$75.00 for registration, and \$525.00 (documented cost to the school) for equipment as specified in the enrollment agreement and withdraws after 600 hours into the course (this includes class days not attended by the student) without returning (due to sanitary reasons) the equipment he/she obtained. The prorated refund to the student would be \$4,250.00 based on the calculation stated below. If the student returns the-equipment (if it was returnable) in good and returnable condition within 30 days following his/her withdrawal, the school would refund the charge for the equipment returned.

Academic Policy & Information

METHOD OF INSTRUCTION

The quality of education MEI students receive is primarily due to the excellence of the faculty and assistance from the staff. Faculties are carefully selected for their knowledge and experience and their ability to stimulate and develop each student's potential. MEI utilizes ideal equipment as instructional devices to enhance the learning experience of the students. Hands-on training provides students with the experience and the confidence required to broaden their understanding of information processing techniques. The work of all students at MEI is reported in terms of grades. Instructors are required to assign grades for each student registered in the program.

GRADE POINT AVERAGE & METHOD OF GRADING

The grade-point average is determined by dividing the total number of grade points earned by the number of courses attempted. The total grade points earned for course equals the number of grade points assigned to each course times the number of courses. For satisfactory standing, students must obtain a minimum C average (2.0 GPA) for all courses taken at MEI.

Grades are assigned at the completion of each course within each program based on following criteria:

- Attendance – 20%
- Student Participation a total of 15% that include professionalism (5%), class participation (5%), home assignments (5%)
- Quizzes, Midterm Examination, Final Examination – 65%

GRADE POINTS

A = 90-100% (4.0)

B = 80-89% (3.0)

C = 70-79% (2.0)

D = 60-69% (1.0)

F = below 60% (0.0)

I = incomplete (0.0)

W = withdrawal (0.0)

DEFINITIONS

The following definitions apply to grades assigned in all courses:

A – Performance of the student has been at the highest level, showing sustained excellence in meeting all course requirements and exhibiting an unusual degree of intellectual initiative (4.0).

B – Performance of the student has been at a high level, showing consistent and effective achievement in meeting course requirements (3.0).

C – Performance of the student has been at an adequate level, meeting the basic requirements of the course (2.0).

D – Performance of the student has been less than adequate, meeting only the minimum requirements (1.0). A grade of “D” must be made up within 1.5 times the normal duration of the program. School will exclude a grade “D” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).

F – Performance of the student has been such that minimal course requirements have not been met. A grade of “F” must be made up within 1.5 times the normal duration of the program. School will exclude a grade “F” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).

I – The symbol for “I” for incomplete, please refer to Section Academic Requirements for more information. School will exclude a grade “I” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).

W – The symbol “W” indicates that the student was permitted to drop from a course/module within a program after the second week of instruction with the approval of the instructor and appropriate campus official. School will exclude a grade “W” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).

ACADEMIC REQUIREMENT AND STANDARDS FOR STUDENT ACHIEVEMENT

MEI Students must fulfill all of the following standards for student achievements, included MEI Satisfactory Academic Progress (SAP) policy, for student evaluation.

- Pass all midterms and final exams to earn a grade from each module/course. Failed exams can be retaken with consent from instructor; the exam must be retaken within five-days from the original exam date. A grade of “I” for incomplete will be assigned if failed exams are not retaken within the time allotted and student will be placed and remain on academic probation until the passing grade is achieved. If a passing grade is not obtained after the 3rd attempt, an “F” will be recorded in the student’s record and the course must be retaken. It is the student’s responsibility to schedule all make-ups and re-examinations. School will exclude a grade of “I” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).
- Obtain at least 70% attendance in each assigned module/course. Less than 70% attendance can be made-up if arrangement is made by the student services manager and instructor for make-ups to take place within the same module/course. Further arrangements may be made, if necessary, upon individual assessment by student services

manager. Grades of “I” for incomplete will be assigned if 70% attendance requirement is not satisfied within the time allotted and student will be placed on academic probation. School will exclude a grade of “I” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).

- Incomplete course work (i.e. quizzes, presentations, projects) must be completed and evaluated in the prescribed time period. Incomplete course work can be made-up if it is due to unforeseen, but fully justified reasons and that there is still a possibility of earning a passing grade. It is the responsibility of the student to bring pertinent information to the attention of the instructor and/or student services manager to determine the remaining course work requirement which must be satisfied to remove or replace a grade of “I” , in accordance as the previously disclosed in the first bullet in this section for completing or making up work/test. The final grade is assigned when course work is completed and evaluated. An incomplete result must be made up within 1.5 times the normal duration of the program. The school will exclude a grade of “I” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%).
- If a grade of D or F is assigned, the student must retake that module/course and will be placed on academic probation. School will exclude a grade of “D” or “F” for prior attempts when calculating a student’s GPA, but it will be included in the credits from all attempts when calculating the maximum time frame (150%). To “repeat-delete”, students must:
 - (1) File a “Repeat/Retake Request Form” with the student services manager,
 - (2) Arrange a repeat schedule,
 - (3) Only repeat course/module for which they received a grade of D or F.
- Students must complete their programs within 1.5 times the normal program length. Students will become ineligible for further financial aid assistance when they fails to complete their programs within 1.5 times the normal program length and will be charged additional tuition.
- Achieve cumulative GPA of 2.0 or above at the end of each module/course. If cumulative GPA of 2.0 is not achieved, student will be placed and remain on academic probation until the passing grade in the course is achieved as disclosed in the first bullet in the **Academic Requirements and Standards for Student Achievement** section in this catalog..

ACADEMIC PROBATION POLICY

MEI reserves the right to apply academic probation policy to any student who’s academic, attendance, and/or conduct standing does not meet the school’s satisfactory standards. Students on academic probation for the total length of the module following the probation announcement must satisfy the problem condition(s) prior to the starting of the subsequent module. The instructor and school director will determine if problem conditions have been satisfied before student is allowed to start subsequent module/course.

MAKE-UP POLICY

To make up class work and/or examinations, student must:

- Have "unforeseen, but fully justifiable" reason(s) and must provide a written explanation.
- Bring all relevant information for student services manager and instructors to review.
- Agree to the terms for how and when the make-up will take place.

SUSPENSION & DISMISSAL

MEI reserves the right to suspend or dismiss any student where academic, attendance, conduct standing, and/or a financial obligation does not meet the school standards. Student who have been suspended or dismissed may be reinstated only upon approval of the school director after satisfying the requirements. A student who have been suspended or dismissed are determined on individual basis.

REINSTATEMENT POLICY

Suspended, dismissed or individuals out for personal reasons may be reinstated with an approval from the school director. A student may file to reinstatement after remaining 6 months out of school and has taken steps to meeting the SAP requirements in academic, personal, and has resolved any other critical situations. Conditions are determined and reviewed on individual basis. Please submit request in person or via fax to admissions office of MEI.

APPEALS

A student may appeal academic reports or any other reports prepared by the school officials by submitting a written appeal stating any mitigating circumstances where it will be reviewed by the school's director for the decision on the matter. A final, and ultimate step in the appeal process appeal, must be made within 14 calendar days before the school's director and the director's decision is final.

MAXIMUM NUMBER PER CLASS & LAB

Maximum number of student per classroom and laboratory at MEI campus is 12.

SPECIAL INSTRUCTIONAL ASSISTANCE & GUIDANCE

Individuals experiencing difficulty with the course subject-matter are urged to seek assistance from their instructor. Additionally, tutoring is available outside of normal class time. Contact the student service department at the school for more information. MEI provides guidance services for students depending on their individual needs. Assistance in program selection and career planning is available at the student service department. Students encountering problems with interference with their education are encouraged to bring these problems to the attention of their instructor or the student service coordinator. MEI recognizes the existence of external factors, which may require special assistance. For students trying to deal with life issues, the student service coordinator is available for advising. MEI also offers referral services through local agencies. To support students seeking assistance the key element is that the student must take the initiative to ask for assistance.

ATTENDANCE POLICY

Students are required to attend classes and lab sessions which are scheduled by MEI. A notice is sent if the student's attendance drops below the requirements. Absences beyond the 30% of time for course/module are grounds for dismissal. Excessive absences is defined as missing 30 percent or more of the cumulative hours scheduled to date within a given module/course of study. Note: A student is considered "withdrawn" after 14 consecutive calendar days (using the calendar days which includes the weekends and holidays) and a notice is sent to the student informing the student status as "withdrawn".

LEAVE OF ABSENCE (LOA)

MEI recognizes that there may be times when due to extreme circumstances, a student may require a leave. In such case the MEI's director may authorize a LOA for up to 180 days and under no circumstances can a LOA be extended beyond 180 days. MEI recommends that a student requests for a LOA should the student will be absent for more than 10 consecutive school days. Reasons for a LOA include, but are not limited to:

- Serious student medical problem
- Military duty
- Death of an immediate family member
- Personal - unforeseen, but fully justifiable reason or reasons

Time for approved LOA is included in the calculation of a student's maximum program length. If a LOA commences before student completes the program of study, grade of "I" is recorded in the student's record in each course that was interrupted at the time of the LOA

Career Advising & Information

MEI maintains a student service department to help students achieve their educational goals. The student services department provides information on transportation, career advising, academic advising, and stress coping strategies. A copy of student services policy with a detailed description of all available services will be given to student.

CAREER ADVISING

MEI maintains a Career Advising Center in the student service department to better assist graduates in securing employment. The career advisor acts as liaison between MEI graduates and potential employers. Information in job search techniques based on the current need of local business and industries are made available to graduates. A successful job search is dependent upon a self-confident, well-prepared applicant with a pre-planned strategy. MEI is committed to assisting students in these efforts through a series of job search and interview technique workshops. Each workshop addresses areas of how to prepare resume, market research techniques, and interview skills. Graduates must have the legal right to accept employment in the United States while those who are not citizens must produce current proof of ability to accept employment, i.e., permanent-resident alien registration, work permit or letter from INS showing valid "A" number or permanent residency.

STUDENT RECORDS RETENTION POLICY

Academic records will be stored in files separated from financial files in MEI's admissions office at its principal place of business in California. The academic files are kept in locked file cabinets, alphabetically organized, and fastened in legal binders. In addition, academic files are scanned and kept on a hard-drive in archive format without loss of information or legibility for safekeeping. Academic files are immediately available during normal business hours for inspection and copying. A second set of all academic files is maintained at a different location off campus in a secured space protected from damage or loss. Academic files are maintained by the school, onsite for 5 years from student's last date of attendance or withdrawal or longer if required by a third-party. Transcripts and granted certificates are kept permanently.

Types of records kept in student academic files are largely divided in four categories, which are PERMANENT RECORDS, CUMULATIVE RECORDS, SUPPLEMENTARY RECORDS, and WORKING NOTES. Below is a list of document kept in each category of files:

- Permanent records: Enrollment Agreement, transcript, certificate granted, health records and records requests are considered permanent records.
- Cumulative Records: information about a student which is collected and maintained on a routine basis, such as identifying information, attendance records, grade and other progress reports, results of test of school achievement, aptitude, interests, records of school accomplishments and participation in school activities, verified reports of misconduct, including record of disciplinary action taken, and plan appropriate activities, and current reports related to a student's handicapping condition (if any).
- Supplementary Records: information relating to special school concerns about the student, such as reports connected with assessment and placement of student who is formally identified as a "focus of concern"; reports from non-school persons and organizations such as physicians, psychologist and clinics, except for general screening purpose; reports pertaining to specific problems associated with the student.
- Working notes of staff are defined as records about students, which are maintained in the sole possession of the writer and are not accessible or revealed to any other person except a substitute for that staff member. Working notes are not considered student records for purposes of the rules and regulations.

Financial records are be stored in files separated from academic files in MEI's admissions office at its principal place of business in California. The financial files are kept in locked fire-proofed file cabinets. In addition, financial files are scanned and kept on a hard-drive in archive format without loss of information or legibility for safekeeping. Financial files are immediately available during normal business hours for inspection and copying. A second set of all financial files is maintained at a different location off campus in a secured space protected from damage or loss. Type of records kept in student financial files are following and not limited to: 1) student loan lender application (if any), 2) student loan agreement (if any), 3) copy of social security cards, 4) copy of driver's license, and 5) sponsoring third-party agreement (if any, i.e., WIA, EDD, Worker's Compensation, etc.). Financial files will be maintained by the school, onsite for 5 years from student's last date of attendance or withdrawal.

Program Information

Each program will have one instructor responsible for the development of the courses within their respective program. The faculty teaching the courses are required to have a minimum of three years of related practical work experience in the subject area(s) taught or as required by a 3rd party.

Program: Diagnostic Sonography

Clock Hours: 1980

Program Length: 18 Months (77 Weeks)

Certificate of Completion

The United States Department of Labor's Standard Occupational Classification: 29-2032

Admission Requirement: Persons with high school diploma or GED or college degree or passing score on ATB test are eligible to apply.

Program Descriptions & Objectives: The objective of the Diagnostic Sonography program is to prepare students with the knowledge, technical skills, and work habits required for an entry-level position in the occupations and job titles to which the program is represented to lead. Upon successful completion of this program, graduate is awarded a completion certificate. Graduates of this program may assume a responsible position as a member of the health team in a hospital, imaging center, doctor's office, or clinic. Positions may also be available in private practice, industry, or government. Duties may include performing ultrasound scans of the upper abdomen, pelvic region, obstetrics, vascular system, and superficial structures.

Licensure and Certification: Although some States require workers in this occupation to be licensed, licensure is not required in California to work in this profession. However, some graduates of Ultrasound Technology program may be eligible (see ARDMS Exam Prerequisite Chart at http://www.ardms.org/downloads/Prerequisite_Chart.pdf for details) to participate in certification examinations from the American Registry of Diagnostic Medical Sonography's ("ARDMS"). Although CA State does not require licensure in diagnostic medical Sonography, organizations such as the American Registry for Diagnostic Medical Sonography ("ARDMS") certify the skills and knowledge of Sonographyer's through credentialing, including registration. Because registration provides an independent, objective measure of an individual's professional standing, many employers prefer to hire registered Sonographyer's. Sonographyer's registered by the ARDMS are Registered Diagnostic Medical Sonographyer's ("RDMS"). Registration with ARDMS requires passing a general physical principles and instrumentation examination, in addition to passing an exam in a specialty such as obstetric and gynecologic Sonography, abdominal Sonography, or Neurosonography. Sonographyer's must complete a required number of continuing education hours to maintain registration with the ARDMS and to stay abreast of technological advancements related to the occupation.

Occupations: Diagnostic Medical Sonographyer's held about 71,130 jobs in 2018, the most recent data available in the Occupational Employment Statistics. More than half of all Sonographyer's jobs were in public and private hospitals. The rest were typically in offices of

physicians, medical and diagnostic laboratories, and mobile imaging services. Positions available to graduates of Ultrasound Technology program include entry level ultrasound technician, entry level Sonographer's/scanner, and assistant to ultrasound laboratory technicians (Bureau of Labor Statistics, U.S. Department of Labor, *Occupational and Employment Wages May 2018, as it appeared on their website on 01/14/2020 on <https://data.bls.gov>.*)

Course Description:

- Medical Terminology, Anatomy, and Physiology (180 clock hrs.): This module is designed to provide students with the basic fundamental knowledge of human anatomy and medical terminology including body organization, cell tissue membranes, special senses, endocrine, musculoskeletal, nervous, cardiovascular urinary, reproductive and related pathology. Students will gain knowledge of cross-sectional views of the human body, basic math, and the fundamental knowledge to succeed in the ultrasound technology program
- Vascular (360 clock hrs.): Vascular module will prepare students with an introduction to vascular Sonography. Discussion and lectures topics will be based on vascular anatomy, hemodynamic, special analysis, and cerebral vascular. Students will also be introduced to discussions and lectures of carotid lower venous topics, lower arterial studies topics, normal vs. abnormal pathological conditions, and plethysmography (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- Physics & Instrumentation (360 clock hr.): In this module students are introduced to the nature and physics of the ultrasound, intersection of human tissues, image formations and display, subject of knobology, and 2D scanning instrumentation and their safety functions. Students will also learn the Doppler and color flow among many other significant topics in this subject area (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- Abdomen (360 clock hr.): This module is designed to provide students with the basic knowledge of the regional anatomy and terminology as it relates to the abdominal area and small parts. Upon completion of Abdomen module, students will obtain entry level skill necessary to perform abdominal and small parts ultrasound examinations and will be able to recognize organs and normal anatomy and some pathological conditions (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- OB/GYN (360 clock hr.): This module provides the basics knowledge and skills to perform first, second and third trimester studies; recognize normal vs. abnormal conditions, maternal complications, and fetal assessment. Special gynecological procedures are also discussed in this course. In addition, students are trained to assist Sonographer's to distinguish the normal anatomy and common pathologic conditions vs. commonly known anatomy abnormalities and their conditions. Upon completion of this module students will be able to perform OB/GYN ultrasound examinations at an entry-level competency (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- Clinical Externship (360 clock hr.): Students participate in a clinical externship where they will gain hands on training. Students are required to be available days and evenings, the externship is part of the students program (Prerequisite: satisfactory completion of

Terminology, Anatomy, and Physiology, Abdomen, OB/GYN, Vascular, and Physics and Instrumentation modules).

Required Texts:

- Berman, M.C. and Cohen, H.L. Obstetrics and Gynecology, 2nd ed. Philadelphia, PA: Lippincott Williams and Wilkins.
- Curry, R.A. and Tempkin, B.B. Exercises in Sonography: Introduction to Normal Structure and Function, 2nd ed. St. Louis, MO: Saunders.
- Ehrlich, A. and Schroeder, C.L. Medical Terminology for Health Professions, 7th ed. Clifton Park, NY: Thomson Delmar Learning.
- Kawamura, D.M. Abdomen and Superficial Structures, 3rd ed. Philadelphia, PA: Lippincott-Raven Publishers.
- Kremkau, F.W. Diagnostic Ultrasound: Principles and Instruments, 8th ed. Philadelphia, PA: Saunders.
- Tempkin, B.B. Ultrasound Scanning: Principles and Protocols. Philadelphia, PA: Saunders.
- Zwiebel, W.J. and Pellerito, J.S. Introduction to Vascular Sonography, 6th ed. Philadelphia, PA: Elsevier, Inc.

Program: Medical Assistant

Clock Hours: 420

Program Length: 5 Months (21Weeks)

Certificate of Completion

The United States Department of Labor's Standard Occupational Classification: 31-9092

Admission Requirement: Persons with high school diploma or GED or college degree or passing score on ATB test are eligible to apply.

Program Descriptions & Objectives: The objective of the Medical Assistant program is to prepare students with the knowledge, technical skills, and work habits required for an entry-level position in the occupations and job titles to which the program is represented to lead. The program is for multi-skilled professionals dedicated to assisting in patient care management. This health care professional performs administrative and clinical duties and may manage emergency situations, facilities, and/or personnel. Medical assistants work in physicians' offices, clinics, hospitals and other medical facilities under the supervision of a physician.

Occupations: Medical assistants perform administrative and clinical tasks to keep the offices of physicians, podiatrists, chiropractors, and other health practitioners running smoothly. The duties of medical assistants vary from office to office, depending on the location and size of the practice and the practitioner's specialty. In small practices, medical assistants usually do many different kinds of tasks, handling both administrative and clinical duties and reporting directly to an office manager, physician, or other health practitioner. Those in large practices tend to specialize in a particular area, under the supervision of department administrators. Medical assistants should not be confused with physician assistants, who examine, diagnose, and treat patients under the direct supervision of a physician. Medical Assistants held about 673,660 jobs

in 2018 (Bureau of Labor Statistics, U.S. Department of Labor, *Occupational and Employment Wages May 2018, as it appeared on their website on 01/14/2020 on <https://data.bls.gov>.*)

Course Description:

- **EMTP-115 Cardiopulmonary Resuscitation (CPR)(10 Hours):** This course includes didactic and practical skills components. Students will learn techniques for recognizing and treating foreign body airway obstructions and cardiopulmonary arrest. Students will be tested in both written and practical skills abilities, adhering to American Heart Association curriculum for basic life support.
- **MEDA-100 Medical Professional Issues (20 Hours):** Reviews the role and function of the Medical Assistant. This course focuses on the basic concept of the professional practice of medicine and the scope of practice of the Medical Assistant. Students discuss the personal and professional characteristics and legal and ethical standards for Medical Assistants, explore professional and personal therapeutic communication, and address time management and goal setting.
- **MEDA-110 Insurance Billing & Coding (30 Hours):** Explores the medical insurance system and related billing and coding. Students learn how to complete and submit electronic and paper insurance claim forms, perform referrals, and apply the correct procedure and diagnostic codes.
- **MEDA-128 Phlebotomy Essentials (30 Hours):** This course offers skill development in the performance of a variety of blood collection methods using proper techniques and universal precautions. Includes vacuum collection devices, syringes, capillary skin puncture, butterfly needles and blood culture, and specimen collection on adults, children and infants. Emphasis is on infection prevention, proper patient identification, labeling of specimens and quality assurance, specimen handling, processing and accessioning.
- **MEDA-150 Medical Administrative Aspects (40 Hours):** Provides an introduction to the administrative skills needed for a medical office. Students learn how to maintain medical records (both paper and electronic), manage appointments, and perform routine office duties. Focuses on the financial aspects of the medical office including accounts payable and accounts receivable. Students examine billing and collection procedures.
- **MEDA-155 Patient Care 1 (40 Hours):** Introduces basic clinical skills necessary for the Medical Assistant. Aseptic practice for the medical office will be defined, basic patient interaction such as interviewing, obtaining and recording vital signs, assisting with basic physical exams and testing will be studied.
- **MEDA-160 Medical Terminology (30 Hours):** This course presents a study of basic medical terminology. Prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols are included in the content. A programmed learning, word building system will be used to learn word parts that are used to construct or analyze new terms. This provides the opportunity to decipher unfamiliar terms and check their spelling. Emphasis is placed on spelling, definition, usage and pronunciation. Abbreviations will be introduced as related terms are presented.
- **MEDA-180 Human Body in Health and Disease (30 Hours):** Focuses on diseases that are frequently diagnosed and treated in the medical office setting.
- **MEDA-240 Clinical Laboratory Diagnostics (50 Hours):** The role and function of the professional in the clinical laboratory is introduced. Topics include safety in the

laboratory, CLIA government regulations and quality assurance, and microscope procedures and concepts. Students perform procedures in the different departments of the laboratory including specimen collection. Students demonstrate competency in the wide variety of specimen techniques used to collect, process, and test specimens.

- **MEDA-250 Pharmacology for Allied Health (30 Hours):** Enables the beginning medical professional to understand the foundation and principles of entry level pharmacology. Provides an introduction to the classifications, effects, side effects and adverse reactions for medications.
- **MEDA-251 Pharmacology Administration (10 Hours):** Students prepare and administer medications via several routes including oral, parenteral (excluding intravenous), transdermal, and inhalation. Emphasis is placed on safe and accurate administration.
- **MEDA-255 Patient Care 2 (40 Hours):** Focuses on expanding the knowledge and skills in Patient Care 1. More complex and independent procedures performed by the Medical Assistant will be explored. Addresses surgical procedures, physical therapy, principles of radiology, emergency procedures and pulmonary function testing. Includes the performance of an electrocardiogram (EKG).
- **MEDA-275 Medical Assistant Externship (60 Hours):** Provides the opportunity to apply clinical, laboratory, and administrative skills in a supervised, non-remunerated externship in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional. Requires current cardiopulmonary resuscitation (CPR) certification (health care provider level).

Required Texts:

- Proctor Deborah B., and Alexandra. Young- Adams. Kinn's the Medical Assistant: An Applied Learning Approach. 12th ed. Elsevier-Saunders, 2013.
- Ehrlich, A. and Schroeder, C.L. Medical Terminology for Health Professions, 7th ed. Clifton Park, NY: Thomson Delmar Learning

Program: Adult Echocardiography

Clock Hours: 1980

Program Length: 18 Months (77 Weeks)

Certificate of Completion

The United States Department of Labor's Standard Occupational Classification: 29-2032

Admission Requirement: Persons with high school diploma or GED or college degree or passing score on ATB test are eligible to apply.

Program Descriptions & Objectives: The objective of the Adult Echocardiography program is to prepare students with the knowledge, technical skills, and work habits required for an entry-level position in the occupations and job titles to which the program is represented to lead. The program offers exceptional clinical didactic education and hands-on practical experiences needed to create a well-rounded, fully competent cardiac sonographer in an environment based on teamwork and mutual respect. Student will have opportunity to train and observe in the field of adult echocardiography including patient management and clinical medicine, ultrasound physics

and instrumentation, pathophysiology of cardiovascular diseases and therapeutic measures, 2D & M mode echocardiography, cardiac doppler and color flow echocardiography, advanced techniques in echocardiography and stress echocardiography for entry level positions.

Licensure and Certification: Although some States require workers in this occupation to be licensed, license is not required in California to work in this profession. However, some graduates of Echocardiography program may be eligible to participate in certification examinations from two organizations: Cardiovascular Credentialing International (“CCI”) and the American Registry of Diagnostic Medical Sonographers (“ARDMS”). The CCI offers four certifications—Certified Cardiographic Technician (CCT), Registered Cardiac Sonographer (RCS), Registered Vascular Specialist (RVS), and Registered Cardiovascular Invasive Specialist (RCIS). The ARDMS offers Registered Diagnostic Cardiac Sonographer (RDCS) and Registered Vascular Technologist (RVT) credentials. Although these certifications and credentials are not mandated requirements, many employers prefer to hire individuals who will or have acquired one or more of these credentials.

Occupations: Positions available to graduates of Echocardiography program include entry level invasive cardiology technician, echocardiographer, vascular sonographer, and/or entry level assistant to ultrasound laboratory technician. Jobs are performed mostly in cardiology departments, offices of physicians (cardiologists), or in medical and diagnostic laboratories/imaging centers. Echocardiography technicians held about 52,000 jobs in 2014 (Bureau of Labor Statistics, U.S. Department of Labor, *Occupational and Employment Wages May 2018, as it appeared on their website on 01/14/2020 on <https://data.bls.gov>.*)

Course Descriptions:

- **Medical Terminology, Anatomy, and Physiology (180 clock hrs):** This module is designed to provide students with the basic fundamental knowledge of human anatomy and medical terminology including body organization, cell tissue membranes, special senses, endocrine, musculoskeletal, nervous, cardiovascular/urinary, reproductive and related pathology. Students will gain knowledge of cross-sectional views of the human body, basic math, and the fundamental knowledge to succeed in the ultrasound technology program.
- **Vascular (360 clock hrs):** Vascular module will prepare students with an introduction to vascular sonography. Discussion and lectures topics will be based on vascular anatomy, hemodynamics, special analysis, and cerebral vascular. Students will also be introduced to discussions and lectures of carotid lower venous topics, lower arterial studies topics, normal vs. abnormal pathological conditions, and plethysmography (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- **Physics & Instrumentation (360 clock hr):** In this module students are introduced to the nature and physics of the ultrasound, intersection of human tissues, image formations and display, subject of knobology, and 2D scanning instrumentation and their safety functions. Students will also learn the Doppler and color flow among many other significant topics in this subject area (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).

- **Echocardiography 1 (360 clock hr)**: This module prepares the students to understand the general study of the echocardiography. It prepares the students to recognize and interpret the following: Coronary Artery Disease, Complications of MI, and Pericardial Diseases. Module will further cover learning how to do ultrasound of the vascular system including carotid arteries, arterial ultrasound of the extremities and venous studies of the lower extremities. The students will be taught how to do Doppler ultrasound including color flow imaging and analysis, and how to evaluate waveforms (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- **Echocardiography 2 (360 clock hr)**: This module prepares the students to understand the advanced level of study of the echocardiography. This module prepares the student to recognize and interpret the conditions and symptoms of the Congenital Heart Diseases as well as topics to be further discussed in Echocardiography (Prerequisite: satisfactory completion of Terminology, Anatomy, and Physiology module).
- **Clinical Externship (360 clock hr)**: Students participate in a clinical externship where they will gain hands on training. Students are required to be available days and evenings, externship is part of program (Prerequisite: satisfactory completion of Terminology, Anatomy & Physiology, Vascular, Physics and Instrumentation, Echocardiography 1, Echocardiography 2).
