➤ **Introduction / Membership / Certificates of Approval**

At American Beauty Academy we would like to introduce our students to the wonderful and exciting world of beauty, hair design and the special world of education offered by our cosmetology school. The world of beauty and hair is bigger than ever, and the need for creative and well-trained designers is becoming very necessary for true success. If this is your goal, then this may be the field for you. The beauty industry is the second largest industry in the US. UU. Conditions such as energy crunches and other material shortages are unlikely to affect this field. He is selling the skill of his hands, creativity, knowledge, and experience, as well as his own personality and goodwill.

Your personal efforts bring immediate results. No one can take credit for their work and this gives them considerable freedom and independence. New fashions and methods rescue the professional from the boredom of routine work and cosmetology is always changing.

Although cosmetology changes, beauty is always desirable. More than half of the population are women, all looking to look their best. Men also look for fashion after a decade of hair and dress regulation. There are as many well-paid and specialized positions in the industry for men as for women.

The opportunities are excellent to work, serve and create, due to the size of the beauty and demand industry.

Barber Crossing Courses (200 Hours):

950.8 and 950.9 CCR, which detail the 400-hour curricula needed for barbers to become cosmetologists and vice versa, have been repealed. The elimination of these sections that all crossed candidates must qualify to take an exam is to comply with any part of the cosmetology or barber curriculum that they have not completed as part of their original program. This means that a cosmetologist who wants to become a barber will only need 200 hours of shaving, since shaving is the only aspect of the regular hairdressing curriculum (950.2 CCR). Hairdressers who wish to become cosmetologists must complete the 200-hour aesthetic component and the 100-hour manicure component of the regular cosmetology curriculum to sit for the exam.

Cosmetology to Barbering:

Transfer hours consist of a total of 1300 hours: 1100 in hairdressing and 200 in health and safety (assuming they are identical).

The additional hours required are an additional 200 hours total in shaving preparation and the performance is required to qualify for the barbershop exam.

Preparation and shaving performance (200 Hours):

The subject of preparation and performance will include but is not limited to the following techniques and procedures. Prepare the client's hair or shave, evaluate the client's skin condition, perform shaving techniques, apply after-shave antiseptic after facial services, massage the client's face, massage with cream.

Objective

We constantly strive to develop the latest programs to meet your educational needs while teaching modern barbershop practices. We believe that thorough and intense training will prepare you for meaningful employment to excel in the hairdressing industry.

Satisfactory Academic Process

Qualification and skill measurements

Satisfactory academic progress is determined by the theory and practical grades averaged together. Theoretical and clinical work is classified in the following scale:

- 94-100 = A
- 87 - 93 = B
- 80-86 = C
- 75-79 = D

Duly qualified teachers evaluate all learning outcomes.

Theoretical grades are based on exam grades and homework assignments. Practical grades are based on exam grades and homework assignments. The practical qualifications are based on:

1. The ability to effectively accept and complete all work assignments.
2. The ability to communicate effectively with instructors, clients, and other students.
3. The ability to accept and perform practical tasks with emphasis on the team.
4. Participation in practical classes offered by the school and external interests.
5. The ability to follow school rules.

The passing grade of 75% is monitored monthly. Students who fall below the minimum average are encouraged and given the opportunity to complete additional assignments. This could be through an oral, written, or practical assignment, depending on the criteria of the Director of Education of the school or the main instructor, as to what type of assignment would best benefit the individual student. The instructors of the school will be the judges regarding the number of points that will be credited to the student for the completed project. Students may have to complete more than one project to meet the minimum.

NOTE: Students who wish to improve their academic qualification may also request additional assignments..

APPEAL PROCESS: Students who wish to appeal the determination that they do not maintain satisfactory progress should submit a letter to the school administration. The letter should describe any circumstance that the student considers deserves greater consideration. An appeal decision will be made, and the student will be notified accordingly. If a student prevails over his appeal and it is determined that he is making financial progress, the student will be automatically re-enrolled in the course and financial aid funds will be reimbursed to eligible students..

INCOMPLETE COURSE: Incomplete courses, repetitions and non-credit recovery courses have an effect on the school's satisfactory progress standards.

Attendance and Absence Policy

The assistance is taken every day. The absence will be considered excused under the following circumstances: illness, death or birth in the immediate family, and other valid reasons based on writing and at the discretion of the school principal. All other absences will be considered unexcused.

Student attendance is closely monitored so that students maintain satisfactory progress. If a student cannot maintain a good attendance schedule, he / she will not benefit from our training. Lost days will result in the lack of critical issues and experience. Students will have to recover the hours that the State Board requires to obtain the license.

- A. Fridays and Saturdays are the busiest days in the beauty profession. These are the days when the student will accumulate most of their valuable clinical practices; therefore, it is mandatory that the student attend these two days. Students (with a Dr.'s note) may be missing one (1) Friday or Saturday per month. Any other lost Friday or Saturday (regardless of the reason) the student will be charged \$ 80.00 for each Friday and / or Saturday lost. Said daily amount shall be paid in advance to the Administration Office before returning to school. A full day is considered 6 1/2 hrs. or more every day
- B. Students who are too sick to meet the required expectations of classes must attend. If the absence falls on a Friday or Saturday, a valid doctor's excuse will be required for students the next day of attendance. Before registering, the student must inform the school principal or staff with the doctor's written excuse.
- C. Absences must be reported by phone at least thirty minutes before class instruction. The third day of absence requires a doctor's excuse. If the student cannot present an excuse from a doctor, he / she will be released on parole for thirty (30) days. If poor attendance continues, the student will not benefit from the course in which he is enrolled. The student must then meet with the principal and place it on a permanent probationary period for Academic Attendance and Achievement. If the student shows no improvement during that probationary period, the student will be dismissed from the instructional course..

NOTE: See the Student Catalog, Satisfactory Progress Report in SATISFACTORY ASSISTANCE PROGRESS, which states that the student must maintain an attendance level greater than 67%.

Tardiness: Tardiness is considered unjustified time, since it is considered non-professional behavior. Students must arrive on time for all classes. Tardiness disrupts a good learning environment for other students and the instructor who runs the class. Tardiness without legitimate reason twice will be considered an unexcused absence.

Students who are late must report by phone before class starts..

- A. American Beauty Academy has the option and cannot allow students who are late to arrive during the first hour of class.
 1. 1st Infringement: consultation / warning
 2. 2. Second offense - Write
 3. 3rd offense: 30 days probation
 4. Fourth Offense - Expulsion

Interruption due to unsatisfactory assistance: Students with three unexcused absences in any class will receive written notification of academic probation for a period of one month. Any unexcused absence during said probationary period will be cause for interruption of the student's training program or dismissal.

Dismissal Policy: A student will also be dismissed from enrollment for continued non-professional behavior, continuous breach of school rules, oath, drug use, physical altercation with another person, refusal to take a client, threats to another student or staff, or any another action that may endanger another student or staff.

Readmission Policy: Any student who is suspended or sent home must appear to the principal on the day of return, before attending class. Any student who was dismissed, terminated or withdrawn due to any violation of the rules and wishes to re-enroll in American Beauty Academy will have to schedule an appointment with the Instructor and Director of American Beauty Academy, who will determine whether or not he / she will allow The student re-enrolls.

Satisfactory Progress Report

Satisfactory progress in attendance and academic work is a requirement for all students enrolled in school.

NOTE: Students who receive findings under any federal Title IV financial aid program must maintain satisfactory progress to continue eligibility for such funds.

Definition: In American Beauty Academy, acceptable progress is defined as follows:

1. A grade point average of 75% or more.
2. An average attendance of 67% or more of the scheduled hours of assistance

Conditional freedom: Cosmetology students who fall below the above standards are paroled for a period of 60 days. The trial period of manicure students is fourteen (14) days and the Aesthetic test period is thirty (30) days. Students on probation are considered to be progressing satisfactorily until the next evaluation period. During the probationary period, students are eligible to receive Title IV funds; however, they are monitored monthly to improve. Students who do not make satisfactory progress after the probationary period are no longer eligible for financial aid or student loans and may be withdrawn from school. Veteran students will have their benefits discontinued and the VA and Veteran will be notified.

SATISFACTORY ASSISTANCE PROGRESS: Maximum time that a student must complete any course in one and a half times the duration of the course. The duration of the course is defined as the period of time identified in the enrollment contract. Example: 1600 hours, 10-month course, the maximum term is 15 months. Absence sheets, as defined below, will not be included in this total. In the event that a leave of absence is granted, the maximum period of completion of the student will be adjusted accordingly. Students re-enter the same state as when they left. **Students will be charged the hourly amount of their course at this school if they have not completed their Cosmetology course: within 11 months after enrollment / Manicure: within 15 weeks after enrollment / Beautician: within 19 weeks after registration**

NOTE: For contractual purposes, all contracted students will be allowed absences of 7.5% of the total duration of the course. Check your contract for its end date. We monitor satisfactory progress when progress reports are issued monthly. This ensures that all students have many opportunities to improve if they fall below the standards.
