D. Student Tuition Recovery Fund

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

You may be eligible for STRF if you are a California resident or are enrolled in a residency program, prepaid tuition, paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.

2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120-day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, California, 95834; (888) 370-7589.

A student has the right to cancel the enrollment agreement and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later for a course of instruction including any equipment such as books, materials related to the instruction offered in the Agreement. To receive a refund, the student has to go to the administrative office personally to deal with all the necessary cancellation procedures. The notice of cancellation shall be in writing and a withdrawal may be effectuated by the student’s written notice or by the student’s conduct, including, but not necessarily limited to, a student’s lack of attendance.

If student cancel this agreement, the College will refund you any money that you paid, less any deduction for the part of the course not taken and equipment not timely returned in good condition, within 30 days after your notice of cancellation is received. If you fail to return this equipment, including books, or other materials, in good condition within the 30 days period, the College may deduct its documented cost for the equipment from any refund that may be due to you. Once you pay for the equipment, it is yours to keep without further obligation. Students will have the opportunity to cancel without penalty, if notice of cancellation is given before midnight of the seventh business day following the first class you attend.

The student’s withdrawal is the last date of academic attendance as determined by the institution from its attendance records. The withdrawal date for a student who does not return from an approved leave of absence is set retroactively to the last date of attendance, as determined by the institution’s attendance records.

If Students withdraws from the course of instruction after the period allowed for cancellation and prior to having completed 60% of his/her program, the College will remit a refund, if applicable, less a registration fee not to exceed \$100, within thirty (30) days following the withdrawal. Students are obligated to pay only for educational services rendered (including fees associated with those services), and for unreturned books, materials or equipment. Students will be charged tuition based on the number of hours he/she attended, multiplied by the hourly tuition rate. Charges for unreturned books, materials, and equipment will be deducted from the amount of the refund.

- 100% attendance
- The average score is at least 73.75 or above (or GPA is at least 2.0 or above)

2. Progress Report and Requirement

A paper progress report will be issued to every student each semester. After completion of 25% of the course, it is requisite that the student needs to have a GPA of 1.7 or more. Upon 50% completion, a GPA of 1.85 or more should be achieved. When the course ends, the student is required to have a GPA of 2.0 or more.

Students must complete their programs within the stipulated time to avoid spending additional time and tutorial fees. Students must be aware that they need to finish 50% of the class halfway through the course; otherwise, it would be difficult to complete their studies on time.

Students are expected to become proficient to comprehend and capable to master those practical skills.

Each student is scheduled for private evaluation sessions with the instructors to assess his/her operating practices and applications of techniques, and also on theoretical knowledge during on classes.

In addition, each student will have individual counseling and personal development session. Student achievement is a comprehensive assessment based on attendance, class participation, demonstrating techniques, assignments completion and examination results.

Those students who are below standards are subject to probation or dismissal. Any such student in this circumstance would be evaluated and reviewed by the instructor and director prior to such measures being enacted. Failure to keep up with assignments will result in probation or dismissal. Each case will be reviewed by the Director on an individual basis.

Scores will be released within three days after the examination and will be recorded on file by the teacher. Students will first receive unofficial transcripts recording their examination results, the school will then issue official transcripts stamped with the school chop. All graduate transcripts will be issued and distributed to students in paper form.

C. Achievements Assessment Standards

Assessment of student achievements will be based on two scopes:

1. Theoretical Course Assessment

The written test is conducted to test the students' understanding of curriculum perspectives. Wrong answers will be given no marks and only right answers get marks. Total marks gained represent the scores for the theoretical course assessment.

2. Practical Skill Assessment

The practical skill assessment will be under the supervision of 2 instructors jointly and marks will be given based on their performance. Other students will stay aside to witness while the assessment is in progress. Those students who watch will be asked to assess about the fairness of the marks given by the instructions.

3. Overall Achievement Scores

Based on the scores obtained from both the Theoretical and Practical assessment, the total marks on each subject will be calculated for the grade and GPA attained by each student.

D. Incomplete or No Credit

If a student has the capacity, he/she will have to complete the unattended course within 30 days. If due to unforeseen circumstances, a student cannot finish his/her course within the afore-mentioned 30 days, he/she can apply for an extension, the Principal will have the full discretion to consider if the extension could be granted.

If a student receives a grade point average (GPA) of less than 2.0 he/she must repeat the class and pass the exam in order to receive a Certification.
