American West College

Welcome all students:

American West College provides to interested students a quality education in the field of Christian studies. We believe that the training experience at American West College will challenge you and motivate you to become models of Christian character moving into your desired career.

This Academic Catalog provides students with the best and most current information available concerning American West College, and its programs at the time of publication.

American West College continually evaluates and updates the curriculum to stay current with the most current information and technology of each program.

This current catalog serves not only as a guide to our offerings and policies and procedures, but as a transparency into your new career with American West College

A student who enrolls in American West College will be allowed to graduate under the academic program requirements in the catalog published at the time of his or her initial enrollment or selection of a major, as long as the student has maintained continuous enrollment.

A student who has not been enrolled for 366 days must apply for readmission and complete a degree program under the regulations published in the catalog that is in effect at the time of re-enrollment.

American West College cultivates knowledge in a Christ centered Institute of learners with a commitment to the integration of academics, and spiritual formation with the world. Our graduates who think with critical, creative, ethical and professional standards, have the compassion of Christ and the gospel and will impact the world moving into their careers.

Programs:

The mission of American West College is to provide quality career education to students who wish to pursue occupations, such as manager, administrator, financial officer and human resources specialists in a Bachelor of Science in Business Administration. Bachelor of Science in

Business Administration online, and a Bachelor of Science in Computer Science & Informational Technology (IT) online.

Our Diploma or certificate programs are as follows: Medical Assistant (occupation such as hospital administrator), and Massage Therapy (occupation such as physical treatment), and Certified Nursing Assistant (occupation such as nursing aide). Our programs are Synchronous and Asynchronous learning though attendance, partial correspondence, and partial online.

Catalog Policies

Rules governing student conduct, admissions policies, graduation requirements, and other aspects of this institution's operations are subject to change. Please check with the school director if you have questions regarding the content of this catalog. This institution reserves the right to adopt, amend, or repeal rules and policies that apply to students. Changes in the content of this catalog will be posted on bulletin boards and shown as a supplement to this catalog. This catalog does not constitute a contract or enrollment agreement, nor does it constitute a statement of the conditions of a contract between the student and this institution. The relationship of the individual student to this institution is governed by applicable state education codes, state regulations, and college policies.

Please refer to your enrollment agreement or enrollment contract for the specific terms under which you are to enroll. Changes to this catalog (which may from time to time be required by the Bureau for Private Postsecondary Education of the State of California) will be initially added by means of an addendum and will appear at the end of the catalog.

The catalog is thoroughly reviewed and updated on an annual basis. A copy of the current student catalog is made available to each student in either written or electronic form. The catalog will be made available to the students prior to signing the enrollment agreement. Students will be given access to updates and revisions of the catalog, if any, while they are enrolled in the program.

Nondiscrimination Policy

This institution is committed to providing equal opportunities to all applicants for employment. Therefore, no discrimination shall occur in any program or activity of this institution, including activities related to the solicitation of students or employees on the basis of race, color, religion, religious belief, national origin, sex, sexual orientation, marital status, pregnancy, age, disability,

veteran's status, or any other classification that precludes a person from consideration as an individual. Please direct any inquiries regarding this policy, if any, to the School Director who is assigned the responsibility for assuring that this policy is followed.

Individual Responsibility

It is the responsibility of each student and faculty member and each administrator to be familiar with this institution's rules and regulations published in this catalog.

Faculties' Qualifications

Faculty and staff must ensure that all academic programs and operational practices meet the standards set forth by accrediting bodies, such as TRACS, and remain in compliance with federal and state regulations.

Financial Supporting Policies and Practices

AWC is supported by individuals and nonprofit organizations.

SCHOOL INFORMATION & POLICIES

Faith-based Statements:

American West College is a private evangelical Christian College. Our Christian Faith is grounded in beliefs that the essence of the Gospel consists of the doctrine of salvation by grace alone, solely through faith in Jesus atonement. As "Born Again Christians" with the experience of receiving salvation through the authority of the Bible as God's revelation to humanity, we believe in spreading Christian messages: The Bible, Trinity God, Christ, the Spirit, Church, the last Things, Historicity, Redemption, Salvation, Contemporary Issues, Intercultural and Missionary Studies.

Mission Statement:

American West College serves the community and church by equipping students with vocational, academic

and professional resources so that they will become Christlike workers in the future.

Our degree programs consist of a Bachelor of Science in Business Administration. Our diploma programs are in the following: Certified Nurse Assistant, Massage Therapy, Medical Assistant. These diploma programs provide individuals with the highest quality of education.

We are committed to prepare our students with the knowledge and skills to obtain quality employment in the field of their education. Our interest lies in the personal and professional growth and development of our offerings and development of the individual in our multicultural society.

We seek to provide the students with a strong foundation through the implementation of our curriculum that embodies class participation, team building through group discussion, collaboration and return demonstration.

Institutional Objectives

- To provide educational opportunities to individuals seeking quality instruction and training.
- To create an environment conducive to the promotion of the individual's level through quality education and training.
- To acquire and retain highly qualified instructors who are effective in the classroom and/or clinical setting.
- To assist students to develop professional attitudes and awareness of contemporary business practices.
- To assist graduates in finding satisfying job opportunities.

Vision Statement:

AWC operates to achieve academic objectives, the premier provider of quality professional education and supporting students with outstanding academic performance who have the potential to excel in academics and lead their communities.

Purpose Statement:

AWC performs highly coordinated projects to create an academic campus atmosphere where faculty, staff, and community members unite to facilitate and promote student educational activities in the right direction and support the successful transition of students into our community upon completion of education. AWC also continues developing academic objectives of providing high-quality education programs that meet the needs of our communities and the world's talented

professionals.

Institutional Educational Objectives:

To provide practical, career-oriented programs that will meet the needs of our students and the needs of our community that can be met by career education;

To facilitate an educational environment that encourages academic excellence, creativity, and critical thinking skills;

To develop programs that balance academic pursuit with practical training and experience; and

To mentor students who are able to excel in the workplace and make a positive difference in our world.

BPPE Approval Disclosure

American West College is a private institution that is approved to operate by the Bureau for Private Postsecondary Education (B.P.P.E.). “Approval” means compliance with state standards as set forth in the CEC AND 5, CCR. An institution may not imply that the Bureau endorses programs, or that Bureau approval means the institution exceeds minimum state standards.

Crime Statistics Report

No criminal arrests or offenses have occurred in the following categories on the school premises from 2009 to the present: murder, manslaughter, arson, forcible and non-forcible sexual assault, robbery, aggravated assault, burglary, motor vehicle theft, liquor law violations, drug abuse violations, weapons possessions, evidence of prejudice based on race, religion, sexual orientation, ethnicity or disability. This information was reported to the Department of Education in the crime statistics report.

Questions

“Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at 1747 N. Market Blvd. Suite 225, Sacramento, CA 95834, www.bppe.ca.gov, toll-free telephone number (888) 370-7589 or by fax (916) 263-1897.

Review Documents Before Signing

“As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement.”

Approval & Accreditation

The institution is a private institution and is approved to operate by the Bureau for Private Postsecondary Education (BPPE). Approval to operate means compliance with state standards as set forth in the CEC and 5, CCR. The institution may not imply that the Bureau endorses programs, or that the Bureau approval means the institution exceeds minimum state standards. (CEC §94909(a)(2) and §94897(I)(1)(2)).

Complaints

Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education.

Address: 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834

P.O. Box 980818, West Sacramento, CA 95798-0818

“A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 toll-free or by completing a complaint form, which can be obtained on the bureau’s internet web site”: www.bppe.ca.gov.”

The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888) 370-7589) or by visiting (www.osar.bppe.ca.gov).

Physical Address

American West College classes are held in facilities and uses equipment that fully comply with all federal, state and local ordinances and regulations, including fire safety, building safety, handicapped access and health requirements. A.W. C's campus is located minutes from public transportation at 2426 W. 8th St., Suite 217, Los Angeles, California, 90057 and has classrooms, a student lounge and administrative offices. The student lounge is furnished with modern equipment and a bookshelf full of a number of fine books and educational materials.

Admission Requirements & Procedures

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement and the School Performance Fact Sheet (CEC §94909(a)(3)(B).

American West College is open to career minded individuals who, in the opinion of the school staff, would be able to learn and utilize the skills taught for employment. American West College accepts students with a High School Diploma, General Education Development (GED) or Applicants who have passed the California High School Proficiency Examination (CHSPE). In lieu of these, ability-to-benefit students who receive a passing score on the Wonderlic Ability-to-Benefit (ABT) may also be admitted (see below for further information). In addition, applicants should have reached the age of 16 years old, the compulsory age as defined by the State of California Department of Education. Students must demonstrate proficiency in English, as all courses are taught in English. Aside from this, all candidates are thoroughly screened and tested to determine their capabilities and career potential.

All applications are taken in person. An appointment is necessary. If an entrance examination is required, the receptionist will arrange for the exam to be administered. The admission office is

open from 9:00 am to 6:00 PM Monday through Friday; evening or Sunday interviews may be arranged by special appointment only. Students may enroll daily for upcoming start dates.

Students must be legal citizens of the United States. American West College is not able to provide Visa services, and therefore cannot admit students from foreign countries.

DISTANCE EDUCATION ADMISSION POLICY:

American West College offers distance education on-line programs where the instruction **is offered in real time.**

When the student has contacted the Institute to inquire regarding on-line distance programs, the Institute will assist the student to download the catalog, and School Fact Performance sheet from the College website.

American West College will contact the student to answer any and all questions on the program, Catalog and School Performance Fact Sheet.

American West College will communicate via a phone conference with the student when accepted and send the enrollment documents, School Fact Performance Sheet, Catalog, Career Assessment questionnaire and time management documents to the student.

When the Student returns the documents to American West College, the Instructor will discuss the Time Management Checklist and Career Assessment evaluation with the prospective student. The On-Line Instructor will evaluate the student's ability to succeed in a distance education environment and accept or counsel the student based on the discussion.

When the student is accepted, the student will forward the high school diploma or GED, Translated College transcript if the student is taking a degree program, Driver's License and Social Security Card and the deposit of \$100.00. American West College will build a file for the on-line student.

The College will transmit Books, lessons and materials to the student within seven ten (10) via **FEDERAL EXPRESS** after the institution accepts the student for admission and the course **has been paid in full.**

This College will transmit all lessons and other materials to the student if the student (a) has fully paid for the educational program; and (b) after having received the first lesson and initial materials, requests in writing that all of the material be sent. If the College transmits the balance

of the material as the student requests, the College shall remain obligated to provide the other educational services it agreed to provide, such as responses to student inquiries, student and faculty interaction, and evaluation and comments on lessons submitted by the student, but shall not be obligated to pay any refund after all of the lessons and material are transmitted.

The on-line student will have an on-line orientation with the instructor to reinforce the time management checklist, and Career Assessment Questionnaire and discuss the library on-line resources for the student.

During the phone conference the Instructor will answer any questions regarding the course content and the student will also be advised how to use online tools to communicate with their instructor.

The Instructor will advise the student of the zoom time available for the student to contact the Instructor for a one-on-one question, explanation or clarification of any material. The Instructor and student will discuss the zoom on-line class and how to join and other FAQ to assist the student for successful on-line learning.

Ability to Benefit

Students who do not have a high school diploma or a recognized equivalent may still be admitted if they are at least 18 years old and pass the Wonderlic Basic Skills Test. The Wonderlic Basic Skills Test (WBST) is an ability to benefit test approved by the US Department of Education that is used to determine whether an application without a high school diploma or recognized equivalent has the ability to benefit from our program. The following forms of the test are used: Verbal Forms VS-1 & VS-2, Quantitative Forms QS-1 & QS-2. The approved passing scores on this test are as follows: Verbal (200) and Quantitative (210). Ability-to-benefit students must achieve a passing score on both skill assessments in a single testing session to pass the test and be eligible for admission. The student will be required to have the test administered by a third party and the results delivered to us prior to admission as a student at American West College.

Proficiency in English Requirement

Proficiency in the English language is required, as all courses are taught in English. A.W.C. does not currently offer the English as a Second Language (ESL) program. Students for whom English is not their first language, should take the Compass ESL placement test. The following scores are needed to prove English proficiency: Grammar/Usage: 64, Reading: 70, Listening: 70. As an alternative, a TOEFL score of 550 (paper based) or 80 (internet based) or above would indicate sufficient English proficiency.

Credit for Previous Education

All Students transferring to American West College will be required to provide transcripts from the previous institution(s). We will consider awarding credit from other approved or accredited postsecondary institutions. When evaluation is made of the student's transcript, credit may be given for courses successfully completed with a grade of C or better at another approved or accredited postsecondary institution where course and credit values are comparable to those offered by this institution. Transfer credits may not exceed 50% of the program and are not used in calculating the cumulative grade point average.

Course Challenge Examination

Students may challenge courses by taking examinations designed to verify the student's knowledge of the subject matter. In order to earn credits by challenged examinations, students must first obtain the "Petition for Credit Examination" approval from the Registrar, who will assign a faculty member to administer the challenge examination. Students must also pay the course challenge examination fee prior to taking the examination.

Petition for Credit by Examination will be granted to regularly enrolled students to obtain credit by challenge examination in subject matters for which the credit has not yet previously been granted for any similar or advanced course.

The examination may include written, oral technical skills, or a combination of each, and will be sufficiently comprehensive to determine that the student possesses the same knowledge and/ or skills as those students who successfully completed a similar course offered at American West College. The letter grade of "P" will be awarded to those who pass the course challenge examination. However, those students who fail will not receive a grade, and there will be no record of the non-passing of the course challenge examination on the student's permanent record.

Credit by challenge examination shall not be allowed for the purpose of earning a higher grade for courses previously taken. The only way to earn a higher grade for earlier attended courses is to repeat the course and pay the normal course unit fee.

Accreditation Disclosures

American West College is not accredited by any accrediting agency recognized by the United States Department of Education (USDE) at this time. As such we are not eligible for federal student aid programs.

Accreditation Plan

In Accordance with Title 5, California Code of Regulations (5, CCR) section 71105, American West College presents its Accreditation Plan to the Bureau for Private Postsecondary Education. AWC is planning to apply for the accreditation status with the recognized agency of accreditation Transnational Association of Christian Colleges and Schools (TRACS).

TRACS is recognized by the United States Department of Education (ED), the Council for Higher Education Accreditation (CHEA), and International Network for Quality Assurance Agencies in Higher Education (INQAAHE) as a national accrediting agency for Christian postsecondary institutions that offer certificates, diplomas, associate, baccalaureate, and graduate degrees, including distance education.

“Notice to Prospective Degree Program Students

This institution is provisionally approved by the Bureau for Private Postsecondary Education to offer degree programs. To continue to offer this degree program, this institution must meet the following requirements:

- Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program.
- Achieve accreditation candidacy or pre-accreditation, as defined in regulations, by (date two years from date of provisional approval), and full accreditation by (date five years from date of provisional approval).

If this institution stops pursuing accreditation, it must:

- Stop all enrollment in its degree programs, and
- Provide a teach-out to finish the educational program or provide a refund.

An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.

Institutional Representative Initials: _____ Date: _____

Student Initials: _____ Date: _____

Articulation or Transfer Agreements with Other Schools

The college has not entered into an articulation or transfer agreement with any other college or university. Institutions vary in the nature of which credits are acceptable and it is at the discretion of each institution to accept credits from another school. American West College retains the same discretionary rights.

Transfer Policy

Academic work done at accredited institutions in the US and Canada, or at schools in other countries that have recognition from the ministry of education, may be transferred into AWC programs if the work fits into our curriculum. In some cases, work from an unaccredited school may be transferred. See evaluation procedures below. Students must earn at least 40% of the credits required for a degree through AWC.

A student should not merely assume that previous credits will transfer. Among other considerations, AWC requires that previously earned credits have earned a minimum grade of “C,” have been earned within the past 10 years, and that the courses meet the curriculum requirements of the degree being attempted. If the coursework meets these requirements, and is from an accredited school, transferability is likely.

To request transfer of credits, students must arrange for their previous schools to send official, sealed transcripts to the student. The student must not open the envelope or disturb the official seal. Bring the transcripts to the Academic Dean for evaluation. If the student believes that denied credits should have been approved, he or she may inform the Academic Dean that the student wishes to appeal the decision. In such a case, the Academic Dean will ask two faculty members to review the decision.

EVALUATION PROCEDURES: Students can help facilitate the credit evaluation process, and make approval more likely, by bringing syllabi, textbooks or other materials from the courses he or she wishes to transfer. The evaluator(s) may contact the school to explore information such as faculty credentials, library volumes, accredited schools accepting their credits, etc. This is especially important for any work to be considered from an unaccredited school in the US, Canada or other countries. For work from other countries, the student may need to pay a fee for AWC to have credits evaluated by an outside agency.

It is **particularly important** that a student who wishes to transfer credits bring a transcript of past work when he or she first starts to study at AWC. It is crucial that before a student starts to take courses here, the student knows which courses will or will not be transferred into this school. Otherwise, a student may take courses again that were not needed, or may not be planning to take course here that will still be required.

Students are invited to talk to the Chief Academic Officer about the likelihood of transfer to or from another higher education institution.

It is also important to recognize that no school is required to accept credits from any other school. Credits from an unaccredited school tend to be harder to transfer. Especially before AWC is accredited, students should not merely assume AWC credits will transfer to another particular school. Instead, the student should contact the registrar of the other school to inquire whether they will take AWC credits. Students are invited to talk to the Academic Dean about the likelihood of transfer to another higher education institution.

Students are invited to talk to the Chief Academic Officer (CAO) or registrar officer about the likelihood of transfer to or from another higher education institution.

It is also important to recognize that no school is required to accept credits from any other school. Credits from an unaccredited school tend to be harder to transfer. Especially before AWC is accredited, students should not merely assume AWC credits will transfer to another particular school. Instead, the student should contact the registrar of the other school to inquire whether they will take AWC credits.

To facilitate the transfer of credits, students at AWC must adhere to the following procedures: the institution has not entered into an articulation or transfer agreement with any other college or university

1. Transcript Submission and Consultation:
 - Students wishing to transfer credits must submit an official transcript and consult with the Chief Academic Officer before or during their initial semester at AWC.
2. Initial Transfer Evaluation:
 - Upon transcript review, the Dean will conduct an initial evaluation of transferable credits.
3. Tentative Evaluation for Approved Applicants:

- Approved transfer applicants will receive a tentative credit evaluation.
 - The official evaluation occurs after the applicant selects and registers for a specific degree program.
4. Appearance on Transcripts:
- Transferred credits may not be reflected on AWC transcripts until the student successfully completes a minimum of 9 credit hours.
5. Credit Acceptance Policy:
- AWC accepts credits earned at institutions fully accredited by their regional/national accrediting association, provided the credits are from college-level courses relevant to the student's AWC degree program.
6. Admissions Office Discretion:
- The Office of Admissions reserves the right to accept or reject credits earned at other institutions.
 - AWC has not established articulation or transfer agreements with other colleges or universities.
7. Ability-to-Benefit, Prior Experiential Learning, Challenge Examinations, and Achievement Tests.
- AWC does not acknowledge Ability-to-Benefit policy, student's prior experiential learning, challenge exams or achievement tests. AWC has not established any articulation or transfer agreements with other colleges or universities.

Notice Concerning Transferability of Credits and Credentials Earned at Our Institution:

“The transferability of credits you earn at American West College is at the complete discretion of an institution to which you may seek to transfer. Acceptance of the degree, diploma or certificate you earn in our Massage Therapy, Medical Assistant program, or Bachelor of Science in Business Administration is also at the complete discretion of the institution to which you may seek to transfer.

Acceptance to the College

Upon completion of the required documents for admission, the administration will review the information and inform the applicant in writing whether they have been accepted for enrollment. If an applicant is not accepted, all money paid is refunded.

Visa Services

American West College is not currently admitting students from other countries and does not currently provide visa services and does not vouch for student status or any associated charges.

Withdrawal from the College

Students who decide to withdraw from school prior to completion should follow the steps below:

1. Meet with the director or designated administrator to discuss the student's decision to withdraw.
2. Meet with the designated financial aid official to see if obligations still exist.
3. Put their decision to withdraw in writing and give it to the Director.

Academic Policies

Graduation Requirements

The candidate for diploma must:

1. Complete all classes with a passing grade and complete all other curriculum requirements for their course of study.
2. Satisfactorily perform the applicable internship/clinical portion of their study.
3. Fulfill all financial obligations to American West College prior to graduation.

Grade Point Average Scale

Grade	Percentage	Evaluation	Grade Point Average
A	94-100	Excellent	4.0
A-	90-93		3.7
B+	87-89		3.3
B	84-90	Good	3.0
B-	80-83		2.7
C+	77-79		2.3
C	73-76	Average	2.0
C-	70-72		1.7
D+	67-69		1.3
D	63-66	Below Average	1.0
D-	60-62		0.7
F	0-59	Failing	0.0

Satisfactory Academic Progress

Grades are based on a combination of written and oral examinations and evaluations of practical laboratory applications.

Students who fall below a 70% average in a class may be required to repeat the class. Students who are required to repeat subjects will not be charged an additional fee.

Unsatisfactory Academic and Progress Requirement

Students who fail a course, or whose cumulative fall or spring term GPA falls below 1.75 will be

AWC Catalog 20 22-23 page 21

placed on academic probation. In this situation, the student will receive correspondence, in written form, from the Registrar outlining a plan of study designed to improve his or her academic performance.

Probationary Status & Dismissal

American West College students must maintain at least a 1.75 GPA to graduate. Current students are placed on academic probation for:

- Failing a course
- A cumulative GPA that falls below a 1.75.

Incoming students may be placed on academic probation by the Office of Admissions when necessary. Check with your admissions counselor if you think your academic status is in error.

When placed on academic probation, a comment is inserted into the student's official transcript. A student who is on academic probation needs to maintain a GPA of at least 1.75 to avoid academic dismissal. For subsequent modules/courses on academic probation (or for a probationary student in his/her very first term at AWA), the student must maintain letter grades of at least a C- or higher in each course in addition to the GPA requirement.

Students who are placed on academic probation will be required to meet with the Registrar prior to the beginning of the next course module for academic counseling and to review a plan for future success in the program. In this situation, the student will receive correspondence, in written form, from the Registrar outlining a plan of study designed to improve his or her academic performance. Such a plan of study may include a reduction in non-academic activities, special tutoring, supplemental work in reading and writing, or such other provisions as may seem appropriate in each case. The student is obliged to follow this plan of study until he/she is released from probation. At AWC will do everything we can to encourage you to be successful in the program. Failure to report to the Registrar prior to the next class module may lead to dismissal from the program.

The student is released from probation upon successful completion of a course module with a grade of B or higher or when the cumulative GPA is 2.0 or higher. The transcript will then receive an additional comment that notes the date that the student was released from academic probation.

When poor academic performance causes a student to fail to meet a school's minimum standards, AWC may issue an academic dismissal. Dismissal results from student's continuing lowest

AWC Catalog 20 22-23 page 22

scoring for several semesters. Dismissal is extremely serious measures that reflect poorly on a student's integrity and ability. While a student who has been dismissed may have the opportunity to complete their education in some form, they will have far fewer options available, and the taint of failure on their academic record can prevent them from enjoying certain job opportunities and further academic benefits in the future.

AWC's Standards for Student Achievement

Student Success and Support: To create a supportive and inclusive learning environment that promotes student retention, persistence, and completion, providing the necessary resources, guidance, and services to help students achieve their academic, vocational, and personal goals. AWC will do everything we can to encourage you to be successful in the program.

Attendance & Conduct

American West College urges all students to attend classes on a regular and consistent basis in order to compete in the highly competitive labor market. Thus, students are expected to attend all classes as scheduled. Attendance is recorded on a daily basis and excellent attendance is required. To maintain satisfactory attendance, student may not be absent for more than 20% of any course. Absences in excess of 20% of any course will lead to probation or expulsion from school. Tardiness for a lecture in excess of 10 minutes will be regarded as an absence. In the rare case when a student must be absent, Make-up work will be required to master the material that was missed. See our make-up policy below.

A leave of absence may be granted during training when necessary. A leave of absence form must be filed by the student with the Director. Absences from training are classified as excused or unexcused. A student who is absent for more than 10 days in school program without an excuse may be placed on probation.

Although American West College operates in an informal atmosphere, proper discipline is maintained at all times. In today's competitive job market, professional conduct is a crucial factor in obtaining and keeping a job. Thus, American West College has established guidelines for proper conduct. Students who do not arrive to class by the scheduled start time will receive a tardy on their attendance record. Students who depart from class before scheduled completion time will receive an early departure on their attendance record. Excessive tardiness and/or early departures

can lead to probation or expulsion.

Make-Up Policy

Students must make up all work and classes missed and are accountable for learning the material covered while absent. All work must be completed in order to receive course credit. Upon return from an absence, the student must meet with the instructor to develop a plan to make up for work and hours missed. The student must make up work and time missed by a class absence in order to complete the program. All work must be completed, and any absence will require additional work to make up for the absence.

Leave-of-Absence & Returning Policies

A leave of absence (LOA) allows students to temporarily suspend their studies for various reasons like health, family matters, or personal growth. Students have to notify the school, provide documentation if required, and understand the implications for their academic standing, financial aid, and housing. Leaves of absence for students are limited to four semesters, exceeding that limit results in a requirement to reapply as a new student.

Financial Aid Services

The College does not offer any state or federal loan guarantees; no loans of any kind are offered at the College. If the student obtains a loan to pay for an educational program, the student will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If the student has received federal student financial aid funds, the student is entitled to a refund of the money not paid from federal financial aid program funds.

Bankruptcy

American West College has NO pending petition in bankruptcy, is NOT operating as a debtor in possession, has NOT filed a petition within the preceding five years, or had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.).

Placement Department

The placement department offers instruction and guidance for students/graduates in the area of career planning and job search techniques, resume preparation, interview planning and

preparation, understanding the significance of networking, finishing job applications, the characteristics of a professional image, interview follow-up, work place manners, time management skills, and successfully navigating the work place. Students who request our help will be alerted to any relevant job openings that we receive via email and/or bulletin board postings at the school. We also train students in searching relevant online websites to aid in their placement.

College Facilities

The American West College facility utilizes 2,000 square feet of classroom, laboratories, student lounges, administrative offices, and work area. The college is convenient to both private and public transportation and is located near downtown Los Angeles. Each program is taught in specially built, well-equipped classrooms and laboratories.

The facility it occupies and the equipment it uses comply with all federal, state, and local ordinances and regulations, including those related to fire safety, building safety and health (5, CCR §71735.(5, CCR §71735 and §71810(b)(9). American West College is proud of its carefully selected staff and faculty members who bring varied educational and work experiences from their specialties.

Library

We comply with CCR §71740 (5, CCR §71740 and §71810(b)(10) in our description of library and other learning materials and the procedures for students to access those materials.

The library is located on the second floor at the main campus. The computer lab functions as a multi-purpose resource room for both library use and classroom interaction. The computers are available for personal student use and conventional classroom use, computer and software classes, computer-aided classes, lecture or guest presentations, and real-time video (Zoom) and Internet interactive classes and presentations.

AWC is setting up the library catalog and system in order to provide resources for students and faculty members. The library currently has 2,000 books and magazines, as well as from e-book library (library world), available for students and faculties.

<https://libraryworld.com/>

Your User Name is: AWC2426 PIN #: _____
Library name: AWU

Before you can create or join a library, you must activate your account. Enter this activation code when prompted by the service.

Activation Code: 27A181

The institutional website will be prepared to provide useful resources for professional development, research, and academic materials. The library will expand the e-library which includes an online catalog that allows users to browse the current holdings, check the status of loans, and reserve materials remotely.

Students can use the campus Library. To help students locate materials in the collection, the library is equipped with computers for research purposes. Users can search materials visiting the following address when they are off-campus: <https://americanwestuniversity.com> (on progress) and click on “Library and Resource.”

Library hours during weekdays are 9AM to 9PM. Library is also available on weekends by appointment.

The American West College administrative office has a spacious area housing computer station with internet access, spacious study tables and contains a wide variety of resource materials for student use inside and outside of class. Students may do research and use textbooks, dictionaries, encyclopedias newspapers, and periodicals to stay abreast of current events and industry trends.

LIRN Academic eBook collection offers more than 170,000 e-books; this collection includes titles from leading universities across the country. This growing subscription package contains a vast selection of multidisciplinary resources representing a broad range of academic subjects such as business and economics, education, language arts, philosophy, political science, religion, social science, technology, and engineering. The breadth of information available through this package ensures that students and faculty members will have access to information relevant to their research needs. All titles are available with unlimited user access and titles are added regularly to the collection by LIRN.

All current online library and learning resources will be available to students and faculties through the institutional website and through partner online resources. The library issues an account with login identification and password to students and faculty for accessing all online resources

available including LIRN e-database. Students and faculty will be able to download PDF files from all online resources.

<https://www.lirn.net>

The subscription allows logins for students to log in from anywhere through the website to be used at the institution or at home for research purposes. The subscription is renewed annually.

The library will issue an account with login identification and password to students and faculty for accessing all online resources available including the LIRN e-database.

The nearest public libraries are located at 694 S. Oxford Avenue (Pio Pico Library) and 1030 S. Alvarado Street (Pico Union Branch Library), both within a few minutes of driving distance from the main campus. The hours for both are as follows: 10AM – 8PM on Mondays and Wednesday, Noon - 8PM on Tuesdays and Thursdays, and 9:30AM – 5:30PM on Fridays and Saturdays. In addition to the many other fine Los Angeles library branches conveniently located near our students, we also provide quiet places to study in our on -campus library, student library, and the courtyard.

Student Services

Student interaction is considered to be a key component of the academic experience at American West College. Societies and class organizations are designed to encourage opportunities for student communication. Areas are furnished to provide comfortable environments for small group meetings. Class assignments include group work and cooperative learning activities.

1. Student Orientation

During orientation, a school administrator will inform the student at the College facilities, services, grading policies, graduation requirements, etc. as described in this catalog. American West College welcomes any suggestions as to ways in which any aspect of the school can be improved. Suggestions should be directed to the school's CEO.

2. Academic Advisement

All students are provided with personal assistance in regard to program requirements and

scheduling. Additionally, individual assistance and advising are available to students with special academic difficulties. Enrollees are encouraged to make an appointment with their instructor immediately if any scholastic problems take place. All students are urged to take advantage of this valuable assistance.

3. Current Student Information

It is important that students notify the school be of any change in their residence or telephone numbers. Current and accurate personal information is necessary in the case of an emergency.

4. Student Activities and Programs

American West College provides a variety of services and programs designed to help students during their studies. Recognizing that a well-rounded education demands attention to personal as well as professional growth, AWC encourages students to include their families, friends, and significant others in the educational process. Additionally, AWC sponsors activities and organizations to foster integration of personal and professional development.

5. Study Groups

Students are encouraged to form study groups with other American West College students enrolled in the same program. Study groups strongly assist in the learning process through small group discussion and exam preparation. Our experience has shown that students who participate in study groups improve their overall academic performance and understanding of course subject matter.

6. Medical, Dental, Psychological Care

Successful progression through a program of study requires sufficient sleep, exercise, and a healthy diet. If the student requires medical and/or dental appointments, appointments should be made after school hours. If a student needs personal psychological counseling, the CEO will provide a list of services available in the community.

7. Guidance Services

American West College offers guidance services to every student. The staff and faculty available, by appointment to assist students in working out solutions to problems they may experience on the path of their education.

8.Housing

At this time American West College is a non-residential campus. However, we can assist students in finding housing. However, the Koreatown area of Los Angeles has heavy concentrations of apartment buildings as well as hotels to fit any budget. Living modestly, one should expect to pay \$1,500 to \$2,000 a month for an apartment.

9. Credit for Experiential Learning

American West College does not award credit for student's prior experiential learning.

10. Distance Education

American West College in 2023 added the following Distance Education on-line programs to offer students a wider base for education with Bachelor degrees. They include Bachelor of Science in Business Administration, Bachelor of Science in A+ Pro, Bachelor of Science in Cyber Security Defense, Bachelor of Science in Ethical Hacking and a Diploma program HYBRID for Certified Nurse Assistants.

11. Externship & Clinical Experience

A component for our medical programs is spent in non-compensated externship or clinical experience. Students will be placed in appropriate facilities to continue their training under the supervision of a qualified RN, LVN, hospital manager, or Licensed Massage Therapist who approved instructors (as is appropriate with the program you are taking). During externship, students are expected to perform in a professional manner and to successfully complete all components for completion of their program.

Student's Rights

Notice of Student Rights

You may cancel your enrollment agreement and obtain a refund of charges paid through attendance at the first-class session or the seventh day after enrollment, whichever is later. After the end of the cancellation period, you also have the right to receive a refund for the part of the course not

taken if you withdraw (see below for refund policy). If the school closes before you graduate, you may be entitled to a refund. Contact the Bureau for Private Postsecondary Education at the address and telephone number printed below for information. If you have any complaints, questions, or problems which you cannot work out with the college, write or call the Bureau for Private Postsecondary Education, P.O. Box 980818, West Sacramento, CA 95798-0818. (916) 431-6959 or toll free at (888) 370-7589.

Student Grievance Procedures

American West College, in the administration of discipline, guarantees procedural fairness to an accused person, whether the person is an American West College student, or staff/faculty member. In pursuit of its policy of openness, accountability, and responsiveness to students, the institution provides established grievance procedures. The CEO or president shall maintain a file on each grievance reported, including the procedures followed, and the final disposition of the case.

While it is suggested that students use American West College's internal grievance process first, it is not required and students may contact the Bureau for Private Postsecondary Education at any time. There are no guidelines for contacting the Bureau, students may contact the Bureau anytime and in any way they see fit. A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling Toll Free (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's website: www.bppe.ca.gov.

Definition of Grievance

A grievance is a complaint arising out of any alleged, unauthorized, or unjustified act or decision by a student, faculty member, administrator, or staff person, which in any way adversely affects the status, rights or privileges of a member of the student body.

The burden of proof shall rest with the complainant. If a student has a grievance, and wishes it to be recognized as such, a written complaint must be submitted in letter form to American West College. The written grievance must clearly state the student's name, the nature of the complaint, the name (s) of all parties directly involved in the complaint, and any appropriate documentary evidence.

Steps toward Resolution

Based upon the information presented in the grievance, steps toward resolution shall begin with

informal discussions, headed by the CEO or president. Resolution shall be attempted at the lowest possible level.

Procedures for Resolution

If informal recourse fails to resolve the grievance within a reasonable time after filing, then the CEO will schedule a Student Grievance Committee meeting. The voting members of this committee shall be comprised of the CEO, the Admission Director, the Registrar, and one faculty member, who shall sit on the committee on a rotating basis.

A copy of the grievance shall be given in writing to the person(s) against whom the complaint is brought. The Committee shall review and consider documentary records, which relates to the case, including the grievance and its supporting documentation, and any documentary evidence or statement by the person(s) against whom the complaint was filed. Committee members shall arrive at a judgment in consultation among themselves. A majority vote of such members may make recommendation, as appropriate, for disciplinary actions, or for changes in policy.

Recourse after Grievance Decision

If students have exhausted these procedures, and the problems have not been resolved, they have the right to contact the Bureau for Private Postsecondary Education. **They may contact the Bureau at any time in any way they see fit.** In contacting the Bureau with a grievance, students can use the following guidelines.

1. Contact the Bureau for Private Postsecondary Education offices by mail. A written follow-up letter may accompany complaints received by phone.
2. Include the following required information in the letter of complaint:
 - a. The nature of the problem
 - b. The approximate date(s) that the problem(s) occurred
 - c. The name(s) of the individual(s) involved in the problem(s) (within the institution, or any other students who were involved)
 - d. Copies of essential information regarding the problem(s) (facts, not rumors, lead to solutions)
 - e. Evidence demonstrating that the institution's complaint procedure was followed before contacting the Dept. of Consumer Affairs
 - f. The complaint should be signed

Send the complaint to: Bureau for Private Postsecondary Education (BPPE),
1747 N. Market Blvd, Suite 225, Sacramento, California, 95834 or call (916) 574-8900.

Changes in Programs or Policies

The institution has the right, at its discretion to make reasonable changes in program content, materials, schedules, sequence of courses, or academic scheduling.

Make-Up Policy

Students must make up all work and classes missed and are accountable for learning the material covered while absent. All work must be completed in order to receive course credit.

BUYER'S RIGHT TO CANCEL:

Students may cancel their enrollment agreement with American West College and receive a refund of charges paid through attendance at the first-class session, or the seventh day after enrollment, whichever is later. If student cancels, any payment that have made shall be returned within thirty (30) days of the date the student signed a cancellation notice. To cancel the agreement for school, mail or deliver a signed and dated copy of the cancellation notice to the Registrar no later than midnight of the seventh day after enrollment, or the day of the first class whichever comes later. The student must cancel in writing. Students do not have the right to cancel by telephoning the school or by not coming class. If students have any complaints, questions, or problems which cannot resolve with the school, contact the Bureau for Private Postsecondary Education at 1747 N. Market Blvd., Ste. 225, Sacramento, CA 95834, or by calling the toll-free number (888) 370-7589.

Refund Policy

If a student withdraws from the course of instruction after the period allowed for cancellation and prior to having completed 60% of his/her program, the College will remit a pro-rata refund, if applicable, less a registration fee not to exceed \$100, within thirty (30) days following the withdrawal. Students are obligated to pay only for educational services rendered (including fees associated with those services), and for unreturned books, materials or equipment. Students will be charged tuition based on the number of semester credit hours he/she attended, multiplied by the hourly tuition rate as shown on the student's enrollment agreement. The amount the student has paid for tuition will be subtracted from the amount of tuition the student owes. Charges for unreturned books, materials, and equipment will be deducted from the amount of the refund. If the amount that the student has paid is more than the amount that the student owes for the time,

he/she attended, then a refund will be made within thirty days (30) of the withdrawal. If the amount that the student owes is more than the amount that the student has already paid, then the student will have to plan with the college to pay it.

The exact amount of prorated refund will be based on the formula listed below. The following table provides the estimated amount of refund at each point of withdrawal:

Percent of Attendance	10	20	30	40	50	60	Over 60
Tuition Refund	90	80	70	60	50	40	0

HYPOTHETICAL EXAMPLE:

The student pays a program consisting of 1000 clock hours (\$7,000 tuition + \$100 registration fee = \$7,100)

The student completes 500 clock hours (50%)

Unused hours for which the student has paid = 500 hours.

Amount Paid = \$7,000 tuition + \$100 registration fee.

Pro-rata Refund Amount: \$7,100 minus \$100 = \$7,000; $\$7,000 \times 50\% = \mathbf{\$3,500}$

Money will be refunded for any reusable equipment returned in good condition within 30 days of the effective withdrawal date. The school reserves the right to postpone or change the date or time when any class is offered if the majority of enrolled students agree to the change. Students who do not want the change will be offered a full refund for the class affected.

If the student obtains a loan, the student will have to repay the full amount of the loan plus interest, less the amount of any refund. If the student receives federal student financial aid funds, the student is entitled to a refund of the money not paid from federal financial aid funds.

Note: If a student has completed more than 60% of the scheduled hours in the current term (actual hours attended divided by hours in the semester), then he/she will owe the full amount of tuition charged for the term including, unreturned equipment, books, materials and copy charges. The student will not be entitled to a refund.

RIGHT TO WITHDRAW AND RECEIVE REFUND: You still have the right to withdraw at any time. The effective withdrawal date for a student shall be:

- (1) The date the student notifies the college of withdrawal, or
- (2) The date the college terminates the student's enrollment, or
- (3) The end of the 21st day of non-attendance.
- (4) If you withdraw, or are terminated by the college, the college shall remit a refund, less a Registration Fee of \$100, within 30 days following the effective withdrawal date.

Student Records

Student records are maintained securely at the college offices for all students including files for each student who enrolls in the institution whether or not they complete the educational service.

These files include all pertinent student records including (but not limited to): grades, attendance, prior education and training, copies of all documents signed by the student, records of dates of enrollment, and (when applicable) withdrawal, leaves of absence, and graduation. The file includes a transcript showing courses that were completed, attempted but not completed and dates of completion or withdrawal, credit awarded for prior experiential learning (including course title and amount of credit), credit for courses earned at other institutions, credit based on examination, or educational achievement used for admission or placement, and the name, address, website address and phone number of the institution.

Also included in the file: course outlines or learning contracts from independent study courses, dissertations, theses, and other student projects submitted by graduate students, a copy of documents related to student financial aid, a document showing the total amount of money received from or on behalf of the student and the dates on which the money was received, a document specifying the amount of a refund, itemized and dated along with the name and address of the person or entity to which the refund was sent, copies of any official advisory notices or warnings regarding the student's progress and any complaints received from the student.

These files are maintained in the office of the Registrar for a period of at least five (5) years after the student's date of completion or withdrawal and are the property of American West College. Transcripts are retained indefinitely. Students have the right to view their records and should plan with the Registrar should they so desire.

Student Transcripts

The College retains academic transcripts indefinitely. The school will provide one transcript without charge to each student. Additional transcripts cost \$3.00 each. The student's financial account must be current for transcripts to be furnished.

An official copy will be mailed to the appropriate person and/or institution. An unofficial copy can be secured and given directly to a student, with the word "unofficial" stamped on the transcript. Transcripts issued to the student are marked "Issued to Student."

Record Maintenance Policies

- Transcripts are permanently retained
- Pertinent student records (described in 5 CCR Section 71920) are maintained for a period of at least 5 years from the student's date of completion or withdrawal.
- A record is considered current for three years following a student's completion or withdrawal.
- The school maintains functioning devices that can immediately reproduce exact, legible printed copies of any current record. For any record that is no longer current, an exact, legible printed copy will be reproduced within two (2) business days.
- Personnel are scheduled to be present at all times during normal business hours who know how to operate the devices and can explain the operation of the devices to any person authorized to inspect and copy records.
- Any person authorized by current laws and regulations to inspect and copy records shall be given immediate access to the document reproduction devices for the purpose of inspecting and copying stored records.
- The Institution maintains a second set of all academic and financial records at a second location (except those records that are stored in fire resistant cabinets).

All records maintained by the institution shall be made immediately available for inspection and copying during normal business hours by the Bureau and/or any entity authorized to conduct investigations.

- If the institution were to close, American West College and its owners are jointly and severally responsible to arrange for the storage and safekeeping of all required records in California at their own expense for as long as those records must be maintained. The repository of those records shall make those records available immediately for inspection

and copying without charge except as allowed by subdivision 71930(c)(4), during normal business hours by any entity authorized by law to inspect and copy records.

Family Educational Rights and Privacy Act of 1974, as amended

American West College complies with the Family Educational Rights and Privacy Act (FERPA), which provides students certain rights related to their educational records. The following is a description of those rights:

- The right to inspect and review the student's educational records within 45 days of the day the institution receives a written request for access. Students should submit to the college's Chief Academic Officer written requests that identify the record(s) they wish to inspect. The College's official will plan for access and notify the student of the time and place where records may be inspected. If the college does not maintain the records, the official to whom the request was submitted shall advise the student of the correct official to whom the request should be addressed.
- The rights to request the amendment of the student's educational records that the student believes are inaccurate or misleading. The students may ask the Institution to amend a record that they believe is inaccurate or misleading. They should write the institution official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the Institution decides not to amend the record as requested by the student, the Institution will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- The right to consent to disclosures of personally identifiable information contained in the student's records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to institution officials with legitimate educational interests. An institution official is a person employed by the institution in an administrative, supervisory, and academic or research, or support staff position (including law enforcement unit personnel and health staff). A person or company with whom the Institution has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another institution official in performing his or her tasks. An institution official has a legitimate

educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. Upon request, the Institution discloses educational records without consent to officials of another institution in which a student seeks or intends to enroll.

- Directory information is information that may be unconditionally released to third parties by the school without the consent of the student unless the student specifically requests that the information not be released. The school requests students to present such requests in writing within 10 days of the date of enrollment. Directory information includes the student's name, address (es), telephone number(s), birth date and place, program undertaken, dates of attendance and certificate or diploma awarded.
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Institution to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is Family Policy Compliance Office, Department of Education, 600 Independence Avenue, SW, Washington, DC 20202-4605.

Suspension & Dismissal

Students are expected to conduct themselves as responsible adults, to attend classes regularly, and to maintain a satisfactory level of academic achievement. The college reserves the right to suspend or expel any student who:

1. Exhibits conduct which is found by the college staff to be detrimental to fellow students, the community, or the school.
2. Uses or is under the influence of alcohol or illegal drugs while on college property
3. Fails to make satisfactory academic progress.
4. Fails to meet attendance standards.
5. Engages in illegal activity on college property.

PROGRAM DESCRIPTIONS

Bachelor of Science in Business Administration

This program is Classroom Instructor-led on Campus

Description

BSBA program prepare for students to serve as a Christian business leader. Students will see business as their ministry and develop excellence in leadership in their career. Students will articulate faith and vocational integration so that they will make an impact for God in this time and place. This program is an unaccredited degree program under the provisional status of national accreditation of BPPE (Bureau for Private and Post-Secondary Education). A student enrolled in an unaccredited institution is not eligible for federal financial aid programs (CEC §94909(a)(16) and §94897(p).

Admission Requirements

General admission requirements are:

1. Submit the application with the non-refundable application fee \$100 to the Admission Office.
2. Have official transcripts from the secondary school and all colleges/universities previously attended forwarded directly to the Admission Office.
3. Recommendation letters are optional. However, if provided, should be from two persons who have known you for at least one year, and are over 30 years of age.
4. English Proficiency: A minimum score of 45 (bachelor) on the Test of English as a Foreign Language (TOEFL iBT). This requirement applies to an applicant from a country where the native language is not English unless a diploma was earned in an English-speaking country.

Exemption:

- Official Transcript or diploma providing completion of U. S. high school or its equivalent.
- Official Transcript providing at least one year of higher education taught in English from an institution in the United States.
- Official Transcript or certificate providing completion of an advanced level of ESL course at an institution in the United States.

If you cannot provide any of the documents, you will take any additional proficiency (ACTFL English L&R cat) or AWC's ESL replacement Test required (minimum 70%).

Requirement for Completion

- Completion of 120 credits (with at least 60 semester credit hours at AWC)
- A minimum total GPA of 2.0

Course Descriptions

General Education

EC 110 College English I (Grammar)

This course begins with instruction in grammar and writing then moves on to instruction in how to write college-level narrative, descriptive, analytical and persuasive essays, as well as an introduction to writing research papers.

EC 120 College English II (Composition)

This writing course focuses on reading and writing as integrally related skills. Students will study and practice reading comprehension, the writing process, and critical thinking. Students will create clear and correct sentences as they develop the skills necessary to write a variety of focused, developed, organized paragraphs and/or short essays. Students will be responsible for writing multiple full-process paragraphs/essays. The course may include a departmental proficiency test or portfolio assessment.

EC 210 Oral Communication

This course will provide students with the basic concepts of oral presentations. Students will be able to develop and deliver effective individual and group presentations in classroom and professional settings. The course is also designed to provide a maximum opportunity for practice and evaluation of presentation.

EC 220 Intercultural Communication

This course examines the basic elements of interpersonal communication and culture as the two relate to one another. Emphasis is given to the influence of culture on the interpretation of the communication act and to the communication skills that enhance cross-cultural communication.

HS 110 Introduction to Philosophy

created; and the relationship that exists between the individual and society.

HS 130 Introduction to Psychology

This is an introductory course to Psychology which is geared toward developing a greater understanding of the reasoning behind individual's behavior and thought processes. The emphasis for this class will be placed on researching the interests of the students within the parameters of the text. Areas of study for this course include topics such as personality development, emotional development, mental health, parenting principles, psychoanalysis, learning and intelligence, family and social relationships, communications, the history and systems of fundamental psychology, and the systematic integration of Christian/biblical principles to human behavior and cognition.

HS 210 Introduction to Ethics

This course is an introduction to the philosophical study of morality, including the theory of right and immoral behavior, the theory of value (goodness and badness), and the theory of virtue and vice.

HS 220 Introduction to Humanities

This course is to introduce the study of social and cultural values as expressed through the major art forms, including painting, sculpture, architecture, literature, drama, music, dance, photography, and film. Topics include literature, philosophy, visual and performing arts, theater, music, science and religion.

TS 110 College Algebra

This course is designed to provide students with fundamental algebraic concepts and necessary logical thinking and critical thinking skills needed to solve and formulate algebraic problems. Topics include inequalities, polynomials, linear and quadratic equations, and logarithmic and exponential functions.

TS 120 Introduction to Business

This course introduces to a broad overview of the primary functions of business, such as management, accounting, finance, marketing, organization, and operations. Topics include current business trends, entrepreneurship, competition in global markets, ethical behavior and social responsibility.

TS 130 Introduction to Economics

This course introduces an understanding of basic economic concepts, theories and principles. This course will help to students prepare for effective participation in society as citizens, producers, and consumers. Topics include a personal effectiveness through an understanding of contemporary economic issues.

TS 210 Introduction to Computer & IT

This course is an introduction to computers that focuses on the primary computer skills needed by all college students. The student who successfully completes this course should be able to create a paper using Microsoft Word; present the results of research using Microsoft PowerPoint; use the features of Microsoft Windows to create, edit, store, and search for files on a personal computer.

TS 220 Health and Nutrition Sciences

This course is designed to provide students with an understanding of the fundamental concepts of health & nutrition, including digestion, absorption, metabolism, and the function of nutrients as they related to human health and disease.

AM 310 Principles of Accounting

This course focuses to introduce an accounting principles, practices and techniques. This course covers the accounting cycle, financial statements, control of cash, inventories, plants assets, current liabilities, and payroll accounting.

AM 320 Principles of International Business

This course focuses the theories on trade, integration, and international business and management on a global basis. This course covers the growth of global markets for goods and services, changing international patterns of resource use, enablers that promote trade, and constraints on conducting business internationally.

AM 410 Principles of Microeconomics

This course is considered the basic tools of economic phenomena from the perspective of the individual. This course covers the basic concepts and tools needed to undertake the analysis that arise due to the law of scarcity. Topics include how individuals, households, and firms make decisions to allocate limited resources, typically in markets where goods or services are being bought and sold.

AM 412 Principles of Macroeconomics

This course is considered the basic tools of economic theory used to study markets, individual consumer behavior, and the behavior of companies. This course covers an overview such as determination of output, unemployment, inflation, determinants of growth, interest rates, monetary and fiscal policies, exchange rates, and international economic issues.

AM 420 Human Resources Management

This course focuses to study what can or should be done to make working people more productive, satisfied, and focused on achieving the company's objectives, and also to learn how to manage employee performance through human resource planning and development. Topics include job analysis and specification, recruitment, selection and training, job evaluation, supervision of employees, salary and wage administration, and labor relations.

AM 430 Marketing Research

This course is to enable students learn the concepts, process, tools and techniques of marketing research. This course also emphasizes the basic methodologies, such as a variety of techniques, and demonstrates how research applies to strategy, including marketing, advertising, sales and product design and development.

AM 440 Investment Management

This course focuses to acquaint the types of investment products, concepts, tools, and techniques that are available to help the individual investor. The topics cover investment alternatives, organization and regulation of securities markets, market efficiency, securities valuation, portfolio theory and management.

AM 450 Operations Research

This course is designed to introduce the students to the principles of operations research techniques and their applications in decision making. Topics cover parametric and sensitivity analysis, inventory control models under uncertainty, applied queuing models, networks models, portfolio management problem, replacement models and policies, dynamic programming, and reliability models.

AM 460 Management Information Systems

This course focuses on understanding information system is used in organizations. Topics include strategic use of IT, computer security and ethics, Its infrastructure including hardware/software and networking, organizing data, and systems development and implementation.

AM 470 Business Law and Ethics

This course examines law and ethics and values in business, investigating the moral responsibilities within the organization, reviewing several approaches to examining ethical issues, and examining justice from the perspective of procedures, compensation, and retribution.

CM 310 Principles of Management

This course presents a thorough and systematic coverage of management theory and practice. This course focuses applications of management theories to practical problems in planning, organizing, finance, marketing, operations, and controlling business activity, and managerial responsibility for effective and efficient achievement.

CM 320 Principles of Economics

This course presents the basic tools of microeconomic and macroeconomic topics. Microeconomics focuses consumer, companies, markets and income distribution, and macroeconomics focuses national production and income, employment, inflation and interest rates and money.

CM 330 Organizational Behavior

This course focuses to explore problems in introducing change in organizations, theory, and methods of intervention in organization development. This course covers the behavior of individuals, the dynamics of teamwork, various leadership strategies, dynamics of organizational change, the processes of small groups, decision-making, problem solving, and conflict management.

CM 340 Marketing Management

This course provides an overview an understanding of the concepts, strategies and issues of marketing processes and marketing principles. This course covers marketing concept, marketing environment and

its constituents, SWOT analysis, market segmentation, targeting, differentiation and positioning (STP), marketing decisions, and strategic marketing planning.

CM 350 Financial Management

This course is designed as an introduction to fiscal management. Topics include time value of money, sources of finance, investment decisions, stock and bond valuation, cash flows, capital markets, capital structure, working capital management, internal financing, and dividend policy.

CM 360 Management Sciences

This course is the application of mathematical modeling and quantitative techniques to management decision making. Topics include linear programming, modeling and decision technology, distribution problems, network models, project management, and decision analysis.

CM 370 Business Statistics

This course focuses statistics to solve management problems. Topics cover business data description and interpretation, probability, discrete and continuous random variables, estimation, hypothesis testing, and regression analysis.

CM 380 Strategic Management

This course focuses the opportunity to study administrative processes under conditions of uncertainty including an integrating analysis applied to business. This course provides the knowledge and skills necessary to manage the long-term performance of a company, to analyze the sources of competitive success among companies, and to develop knowledge and skills necessary to effectively analyze and formulate strategy.

EM 410 Leadership and Motivation

This course examines the foundational concepts of leadership reviews traditional theories of leadership, and investigate critical issues in leadership and motivation as they apply in the contemporary workplace. Applications develop critical thinking skills about the concepts.

EM 422 Consumer Behavior

This course presents an eclectic and multi-disciplinary understanding of consumer behavior based on the wheel model that is useful and practical in its approach to conduct effective sales and marketing operations in addition to setting adapted marketing strategies. Topics include marketing strategy, consumer involvement and decision making, information search process, evaluative criteria and decision rules, consumer motivation, information processing, and consumer perception.

EM 430 Advertising and Promotion

This course is designed as an introduction to the field of advertising and promotions management. Topics include an integrated communication to meet marketing objectives, planning, implementation, and evaluation of advertising and promotional programs.

EM 440 Project Management

This course presents the use of projects to accomplish goals, produce products, improve processes, and meet objectives. Topics include the role of the project manager in managing the project life cycle including defining tasks, scheduling, allocating resources, monitoring, and controlling.

EM 450 Franchise Management

This course is an overview of the concepts and principles of franchising management to pertain the economic sustainability of both the domestic and global markets. Topics include the characteristics of the franchisor and franchisee, an evaluation of franchising opportunities, the legal concerns of franchising, the development of appropriate strategies and the successful planning, implementation and launching of a new business.

EM 460 Venture Management

This course provides the issues, challenges and opportunities involved in the creation and management of a new venture business. This course is designed to study the development of analytical and conceptual skills, and opportunity, recognition, and value creation with limited resources in the management of new enterprises and new venture organizations.

EM 470 e-Commerce Management

This course introduces the managerial applications of Internet technology for a successful Web-based organization. Topics include the application of management principles to electronic business models, including business-to-consumer, business-to-business, and intra-business commercial ventures.

EM 480 Small Business Management

The course presents current theory and practice relating to starting and managing small companies. Topics include legal forms of ownership, financial planning and resources, and basic considerations in operation and control, also provides a comprehensive coverage of critical small business management issues and numerous real-world examples.

EM 490 Global Entrepreneurship

The course is to understand the process nature of entrepreneurship, and ways to manage the process, and to recognize the entrepreneurial potential in environment, and to learn the role of entrepreneurship within society, at the level of the organization. Topics include trading blocks, trade barriers, and standardization and adaptation of global entrepreneurship.

EM 493 Business Analytics and Statistics

Course Description: Business people or students always work with lots of data, charts, reports, surveys, comparative tests and predictive models, etc. That is the point for being equipped with advanced analytics and statistics knowledges and tools.

This course will cover the fundamental competence for data analysis and interpretation, reducing uncertainty in decision making and production of regressions for testing and predictions.

Coursework could also include the use of simple practical applications for the spread sheet and Structured Query Language data base systems.

EM 494 Data Pipeline System for Business Intelligence Strategies

Course Description: Nowadays advanced business systems intensively utilize and connect machines, materials, tools, warehouses, transportation technology etc. in an intelligent way. Materials, machines or devices can exchange information mutually, set priorities, trigger action and help to schedule and sequence the work in process.

This course will focus on the practice system setup for the acquisition of data and information out of reports and machine signals and to refine which strategy would be right for some example industries and business entities.

This course will show that data sourcing and information gathering system for the business is the most fundamental and critical provision for future-oriented business success with no help from human touches.

EM 495 Digital Supply Chain Management – Smart Operations

Course Description: Supply Chain Management is the one of the most difficult fields for business administrators. That is because it is related with uncontrollable outside resources. Recently digital and cloud controls for SCM are gained for advanced managers' compulsory tool.

This course will introduce what can be applied with digital and cloud controls, and how it can be practiced for the realistic business situations.

Main subject for the course should be how to get reports out of supply chains behaviors and signals, and intelligent analysis for those outside resources of supply channels. And smart operation program with Big Data analyses can be on the consideration for being ready for business environment changes and protection of any possible disruption of supply chain.

To see “Notice to Prospective Degree Program Students,” go to Accreditation section pp. 13 and 14.

Admission Requirements

General admission requirements are:

- Submit the application with the non-refundable application fee \$100 to the Admission Office.
- Have official transcripts from the secondary school and all colleges/universities previously attended forwarded directly to the Admission Office.
- Recommendation letters are optional. However, if provided, should be from two persons who have known you for at least one year, and are over 30 years of age.
- English Proficiency: A minimum score of 45 (bachelor) on the Test of English as a Foreign Language (TOEFL iBT). This requirement applies to an applicant from a country where the native language is not English unless a diploma was earned in an English-speaking country.

Exemption:

- Official Transcript or diploma providing completion of U. S. high school or its equivalent.
- Official Transcript providing at least one year of higher education taught in English from an institution in the United States.

- Official Transcript or certificate providing completion of an advanced level of ESL course at an institution in the United States.

If you cannot provide any of the documents, you will take any additional proficiency (ACTFL English L&R cat) or AWC's ESL replacement Test required (minimum 70%).

Requirement for Completion

- Completion of 120 credits (with at least 60 semester credit hours at AWC)
- A minimum total GPA of 2.0

English Proficiency: A minimum score of 45 (bachelor) on the Test of English as a Foreign Language (TOEFL iBT). This requirement applies to an applicant from a country where the native language is not English unless a diploma was earned in an English-speaking country.

This course begins with instruction in grammar and writing then moves on to instruction in how to write college-level narrative, descriptive, analytical and persuasive essays, as well as an introduction to writing research papers.

Course Descriptions

C 120 College English II (Composition)

This writing course focuses on reading and writing as integrally related skills. Students will study and practice reading comprehension, the writing process, and critical thinking. Students will create clear and correct sentences as they develop the skills necessary to write a variety of focused, developed, organized paragraphs and/or short essays. Students will be responsible for writing multiple full-process paragraphs/essays. The course may include a departmental proficiency test or portfolio assessment.

EC 210 Oral Communication

This course will provide students with the basic concepts of oral presentations. Students will be able to develop and deliver effective individual and group presentations in classroom and professional settings. The course is also designed to provide a maximum opportunity for practice and evaluation of presentation.

EC 220 Intercultural Communication

This course examines the basic elements of interpersonal communication and culture as the two relate to one another. Emphasis is given to the influence of culture on the interpretation of the communication act and to the communication skills that enhance cross-cultural communication.

HS 110 Introduction to Philosophy

In this course students will be introduced to basic philosophical concept, learn to navigate condensed questions, and unpack difficult concepts through the use of logical reasoning. Students will aim to sharpen their use of critical thinking, analytical reasoning, reading comprehension, pattern recognition, and other useful mental tools for the purpose of asking good questions, seeking correct answers, and increasing their worldview.

HS 120 Introduction to Sociology

The major objective of this course is to introduce students to sociology - the scientific study of human society and social behavior. All areas of social life will be examined including work, community, religion, schools, family, gender, race, class, stratification/inequality, and crime/deviance. Both the theories and methods of sociology will be reviewed. Primary concerns of the course will include the ways in which our behavior is influenced by groups; the nature and functions of the social institutions which we have created; and the relationship that exists between the individual and society.

HS 130 Introduction to Psychology

This is an introductory course to Psychology which is geared toward developing a greater understanding of the reasoning behind individual's behavior and thought processes. The emphasis for this class will be placed on researching the interests of the students within the parameters of the text. Areas of study for this course include topics such as personality development, emotional development, mental health, parenting principles, psychoanalysis, learning and intelligence, family and social relationships, communications, the history and systems of fundamental psychology, and the systematic integration of Christian/biblical principles to human behavior and cognition.

HS 210 Introduction to Ethics

This course is an introduction to the philosophical study of morality, including the theory of right and immoral behavior, the theory of value (goodness and badness), and the theory of virtue and vice.

HS 220 Introduction to Humanities

This course is to introduce the study of social and cultural values as expressed through the major art forms, including painting, sculpture, architecture, literature, drama, music, dance, photography, and film. Topics include literature, philosophy, visual and performing arts, theater, music, science and religion.

TS 110 College Algebra

This course is designed to provide students with fundamental algebraic concepts and necessary logical thinking and critical thinking skills needed to solve and formulate algebraic problems. Topics include inequalities, polynomials, linear and quadratic equations, and logarithmic and exponential functions.

TS 120 Introduction to Business

This course introduces to a broad overview of the primary functions of business, such as management, accounting, finance, marketing, organization, and operations. Topics include current business trends, entrepreneurship, competition in global markets, ethical behavior and social responsibility.

TS 130 Introduction to Economics

This course introduces an understanding of basic economic concepts, theories and principles. This course will help to students prepare for effective participation in society as citizens, producers, and consumers. Topics include a personal effectiveness through an understanding of contemporary economic issues.

TS 210 Introduction to Computer & IT

This course is an introduction to computers that focuses on the primary computer skills needed by all college students. The student who successfully completes this course should be able to create a paper using Microsoft Word; present the results of research using Microsoft PowerPoint; use the features of Microsoft Windows to create, edit, store, and search for files on a personal computer.

TS 220 Health and Nutrition Sciences

This course is designed to provide students with an understanding of the fundamental concepts of health & nutrition, including digestion, absorption, metabolism, and the function of nutrients as they related to human health and disease.

AM 310 Principles of Accounting

This course focuses to introduce an accounting principles, practices and techniques. This course covers the accounting cycle, financial statements, control of cash, inventories, plants assets, current liabilities, and payroll accounting.

AM 320 Principles of International Business

This course focuses the theories on trade, integration, and international business and management on a global basis. This course covers the growth of global markets for goods and services, changing international patterns of resource use, enablers that promote trade, and constraints on conducting business internationally.

AM 410 Principles of Microeconomics

This course is considered the basic tools of economic phenomena from the perspective of the individual. This course covers the basic concepts and tools needed to undertake the analysis that arise due to the law of scarcity. Topics include how individuals, households, and firms make decisions to allocate limited resources, typically in markets where goods or services are being bought and sold.

AM 412 Principles of Macroeconomics

This course is considered the basic tools of economic theory used to study markets, individual consumer behavior, and the behavior of companies. This course covers an overview such as determination of output, unemployment, inflation, determinants of growth, interest rates, monetary and fiscal policies, exchange rates, and international economic issues.

AM 420 Human Resources Management

This course focuses to study what can or should be done to make working people more productive, satisfied, and focused on achieving the company's objectives, and also to learn how to manage employee performance through human resource planning and development. Topics include job analysis and specification, recruitment, selection and training, job evaluation, supervision of employees, salary and wage administration, and labor relations.

AM 430 Marketing Research

This course is to enable students learn the concepts, process, tools and techniques of marketing research. This course also emphasizes the basic methodologies, such as a variety of techniques, and demonstrates how research applies to strategy, including marketing, advertising, sales and product design and development.

AM 440 Investment Management

This course focuses to acquaint the types of investment products, concepts, tools, and techniques that are available to help the individual investor. The topics cover investment alternatives, organization and regulation of securities markets, market efficiency, securities valuation, portfolio theory and management.

AM 450 Operations Research

This course is designed to introduce the students to the principles of operations research techniques and their applications in decision making. Topics cover parametric and sensitivity analysis, inventory control models under uncertainty, applied queuing models, networks models, portfolio management problem, replacement models and policies, dynamic programming, and reliability models.

AM 460 Management Information Systems

This course focuses on understanding information system is used in organizations. Topics include strategic use of IT, computer security and ethics, Its infrastructure including hardware/software and networking, organizing data, and systems development and implementation.

AM 470 Business Law and Ethics

This course examines law and ethics and values in business, investigating the moral responsibilities within the organization, reviewing several approaches to examining ethical issues, and examining justice from the perspective of procedures, compensation, and retribution.

CM 310 Principles of Management

This course presents a thorough and systematic coverage of management theory and practice. This course focuses applications of management theories to practical problems in planning, organizing, finance,

marketing, operations, and controlling business activity, and managerial responsibility for effective and efficient achievement.

CM 320 Principles of Economics

This course presents the basic tools of microeconomic and macroeconomic topics. Microeconomics focuses consumer, companies, markets and income distribution, and macroeconomics focuses national production and income, employment, inflation and interest rates and money.

CM 330 Organizational Behavior

This course focuses to explore problems in introducing change in organizations, theory, and methods of intervention in organization development. This course covers the behavior of individuals, the dynamics of teamwork, various leadership strategies, dynamics of organizational change, the processes of small groups, decision-making, problem solving, and conflict management.

CM 340 Marketing Management

This course provides an overview an understanding of the concepts, strategies and issues of marketing processes and marketing principles. This course covers marketing concept, marketing environment and its constituents, SWOT analysis, market segmentation, targeting, differentiation and positioning (STP), marketing decisions, and strategic marketing planning.

CM 350 Financial Management

This course is designed as an introduction to fiscal management. Topics include time value of money, sources of finance, investment decisions, stock and bond valuation, cash flows, capital markets, capital structure, working capital management, internal financing, and dividend policy.

CM 360 Management Sciences

This course is the application of mathematical modeling and quantitative techniques to management decision making. Topics include linear programming, modeling and decision technology, distribution problems, network models, project management, and decision analysis.

CM 370 Business Statistics

This course focuses statistics to solve management problems. Topics cover business data description and interpretation, probability, discrete and continuous random variables, estimation, hypothesis testing, and regression analysis.

CM 380 Strategic Management

This course focuses the opportunity to study administrative processes under conditions of uncertainty including an integrating analysis applied to business. This course provides the knowledge and skills necessary to manage the long-term performance of a company, to analyze the sources of competitive success among companies, and to develop knowledge and skills necessary to effectively analyze and formulate strategy.

EM 410 Leadership and Motivation

This course examines the foundational concepts of leadership reviews traditional theories of leadership, and investigate critical issues in leadership and motivation as they apply in the contemporary workplace. Applications develop critical thinking skills about the concepts.

EM 422 Consumer Behavior

This course presents an eclectic and multi-disciplinary understanding of consumer behavior based on the wheel model that is useful and practical in its approach to conduct effective sales and marketing operations in addition to setting adapted marketing strategies. Topics include marketing strategy, consumer involvement and decision making, information search process, evaluative criteria and decision rules, consumer motivation, information processing, and consumer perception.

EM 430 Advertising and Promotion

This course is designed as an introduction to the field of advertising and promotions management. Topics include an integrated communication to meet marketing objectives, planning, implementation, and evaluation of advertising and promotional programs.

EM 440 Project Management

This course presents the use of projects to accomplish goals, produce products, improve processes, and meet objectives. Topics include the role of the project manager in managing the project life cycle including defining tasks, scheduling, allocating resources, monitoring, and controlling.

EM 450 Franchise Management

This course is an overview of the concepts and principles of franchising management to pertain the economic sustainability of both the domestic and global markets. Topics include the characteristics of the franchisor and franchisee, an evaluation of franchising opportunities, the legal concerns of franchising, the development of appropriate strategies and the successful planning, implementation and launching of a new business.

EM 460 Venture Management

This course provides the issues, challenges and opportunities involved in the creation and management of a new venture business. This course is designed to study the development of analytical and conceptual skills, and opportunity, recognition, and value creation with limited resources in the management of new enterprises and new venture organizations.

EM 470 e-Commerce Management

This course introduces the managerial applications of Internet technology for a successful Web-based organization. Topics include the application of management principles to electronic business models, including business-to-consumer, business-to-business, and intra-business commercial ventures.

EM 480 Small Business Management

The course presents current theory and practice relating to starting and managing small companies.

Topics include legal forms of ownership, financial planning and resources, and basic considerations in operation and control, also provides a comprehensive coverage of critical small business management issues and numerous real-world examples.

EM 490 Global Entrepreneurship

The course is to understand the process nature of entrepreneurship, and ways to manage the process, and to recognize the entrepreneurial potential in environment, and to learn the role of entrepreneurship within society, at the level of the organization. Topics include trading blocks, trade barriers, and standardization and adaptation of global entrepreneurship.

EM 493 Business Analytics and Statistics

Course Description: Business people or students always work with lots of data, charts, reports, surveys, comparative tests and predictive models, etc. That is the point for being equipped with advanced analytics and statistics knowledges and tools.

This course will cover the fundamental competence for data analysis and interpretation, reducing uncertainty in decision making and production of regressions for testing and predictions.

Coursework could also include the use of simple practical applications for the spread sheet and Structured Query Language data base systems.

EM 494 Data Pipeline System for Business Intelligence Strategies

Course Description: Nowadays advanced business systems intensively utilize and connect machines, materials, tools, warehouses, transportation technology etc. in an intelligent way. Materials, machines or devices can exchange information mutually, set priorities, trigger action and help to schedule and sequence the work in process.

This course will focus on the practice system setup for the acquisition of data and information out of reports and machine signals and to refine which strategy would be right for some example industries and business entities.

This course will show that data sourcing and information gathering system for the business is the most fundamental and critical provision for future-oriented business success with no help from human touches.

EM 495 Digital Supply Chain Management – Smart Operations

Course Description: Supply Chain Management is the one of the most difficult fields for business administrators. That is because it is related with uncontrollable outside resources. Recently digital and cloud controls for SCM are gained for advanced managers' compulsory tool.

This course will introduce what can be applied with digital and cloud controls, and how it can be practiced for the realistic business situations.

Bachelor of Science in Computer Science & IT

This program is offered ON-LINE

Description

BSCS program prepare for students to serve as a Christian Computer leader. Students will see the computer program as an introduction into the Computer World business as their ministry and develop excellence in leadership in their career. Students will articulate faith and vocational integration so that they will make an impact for God in this time and place.

This course is offered On-Line Distance Education

This COURSE WILL USE.

Synchronous online learning is when Instructors and students meet in real time supported by zoom meetings per the scheduled class days and times.

This allows the student immediate interactive exchanges with other students and the Instructor.

Asynchronous online learning is more self-paced and is facilitated when instructors offer course materials for student access. Students access digital course materials, including assignments, videos, demonstrations, tests and discussion threads with white board, immediate questions and answers from the Instructor. Students can interact with other students and Instructor at all times.

AP 117 XM CompTia A+ Core 1 (220-1101) Cert Exam	3.5
AP 118 XM CompTia A+ Core 2 (220-1102) Cert Exam	3.5

PREREQUISITE:

INSTRUCTIONAL EQUIPMENT:

American West College has the necessary equipment for lecture and laboratory practice. Classrooms contain Intel Pentium Processor, 4GB RAM, DVD ROM, 200GB Hard Drive running Microsoft Windows software. External devices include Networking equipment, Printer and Scanner. at a ratio of 1:1, audio and video equipment, white boards, and reference materials and programs.

Admission Requirements

General admission requirements are:

5. Submit the application with the non-refundable application fee \$100 to the Admission Office.
6. Have official transcripts from the secondary school and all colleges/universities previously attended forwarded directly to the Admission Office.
7. Recommendation letters are optional. However, if provided, should be from two persons who have known you for at least one year, and are over 30 years of age.
8. English Proficiency: A minimum score of 45 (bachelor) on the Test of English as a Foreign Language (TOEFL iBT). This requirement applies to an applicant from a country where the native language is not English unless a diploma was earned in an English-speaking country.

Exemption:

- Official Transcript or diploma providing completion of U. S. high school or its equivalent.
- Official Transcript providing at least one year of higher education taught in English from an institution in the United States.
- Official Transcript or certificate providing completion of an advanced level of ESL course at an institution in the United States.

If you cannot provide any of the documents, you will take any additional proficiency (ACTFL English L&R cat) or AWC's ESL replacement Test required (minimum 70%).

Requirement for Completion

- Completion of 120 credits (with at least 60 semester credit hours at AWC)
- A minimum total GPA of 2.0

Course Descriptions

General Education

EC 110 College English I (Grammar)

This course begins with instruction in grammar and writing then moves on to instruction in how to write college-level narrative, descriptive, analytical and persuasive essays, as well as an introduction to writing research papers.

EC 120 College English II (Composition)

This writing course focuses on reading and writing as integrally related skills. Students will study and

AWC Catalog 20 22-23 page 64

practice reading comprehension, the writing process, and critical thinking. Students will create clear and correct sentences as they develop the skills necessary to write a variety of focused, developed, organized paragraphs and/or short essays. Students will be responsible for writing multiple full-process paragraphs/essays. The course may include a departmental proficiency test or portfolio assessment.

EC 210 Oral Communication

This course will provide students with the basic concepts of oral presentations. Students will be able to develop and deliver effective individual and group presentations in classroom and professional settings. The course is also designed to provide a maximum opportunity for practice and evaluation of presentation.

EC 220 Intercultural Communication

This course examines the basic elements of interpersonal communication and culture as the two relate to one another. Emphasis is given to the influence of culture on the interpretation of the communication act and to the communication skills that enhance cross-cultural communication.

HS 110 Introduction to Philosophy

In this course students will be introduced to basic philosophical concept, learn to navigate condensed questions, and unpack difficult concepts through the use of logical reasoning. Students will aim to sharpen their use of critical thinking, analytical reasoning, reading comprehension, pattern recognition, and other useful mental tools for the purpose of asking good questions, seeking correct answers, and increasing their worldview.

HS 120 Introduction to Sociology

The major objective of this course is to introduce students to sociology - the scientific study of human society and social behavior. All areas of social life will be examined including work, community, religion, schools, family, gender, race, class, stratification/inequality, and crime/deviance. Both the theories and methods of sociology will be reviewed. Primary concerns of the course will include the ways in which our behavior is influenced by groups; the nature and functions of the social institutions which we have created; and the relationship that exists between the individual and society.

HS 130 Introduction to Psychology

This is an introductory course to Psychology which is geared toward developing a greater understanding of the reasoning behind individual's behavior and thought processes. The emphasis for this class will be placed on researching the interests of the students within the parameters of the text. Areas of study for this course include topics such as personality development, emotional development, mental health, parenting principles, psychoanalysis, learning and intelligence, family and social relationships, communications, the history and systems of fundamental psychology, and the systematic integration of Christian/biblical principles to human behavior and cognition.

HS 210 Introduction to Ethics

This course is an introduction to the philosophical study of morality, including the theory of right and

immoral behavior, the theory of value (goodness and badness), and the theory of virtue and vice.

HS 220 Introduction to Humanities

This course is to introduce the study of social and cultural values as expressed through the major art forms, including painting, sculpture, architecture, literature, drama, music, dance, photography, and film. Topics include literature, philosophy, visual and performing arts, theater, music, science and religion.

TS 110 College Algebra

This course is designed to provide students with fundamental algebraic concepts and necessary logical thinking and critical thinking skills needed to solve and formulate algebraic problems. Topics include inequalities, polynomials, linear and quadratic equations, and logarithmic and exponential functions.

TS 120 Introduction to Business

This course introduces to a broad overview of the primary functions of business, such as management, accounting, finance, marketing, organization, and operations. Topics include current business trends, entrepreneurship, competition in global markets, ethical behavior and social responsibility.

TS 130 Introduction to Economics

This course introduces an understanding of basic economic concepts, theories and principles. This course will help to students prepare for effective participation in society as citizens, producers, and consumers. Topics include a personal effectiveness through an understanding of contemporary economic issues.

TS 220 Health and Nutrition Sciences

This course is designed to provide students with an understanding of the fundamental concepts of health & nutrition, including digestion, absorption, metabolism, and the function of nutrients as they related to human health and disease.

For Major Students on A+ Pro and Cyber Security Defense

TS 210 Introduction to Computer and IT

Description: An introduction to computers and programming through programming in the Visual Basic. Upon completion of this course, the student will be able to have a general understanding of a contemporary computer and working knowledge of programming language Visual BASIC. This includes the Information Technology (IT) and Artificial Intelligence (AI).

CS 220 Data Structures and Algorithms

Topics include elementary data structures (including arrays, stacks, queues, and lists), advanced data structures (including trees and graphs), the algorithms used to manipulate these structures,

and their application to solving practical engineering problems.

CS 200 Introduction to Programming

This course teaches fundamental concepts and terminology of computer programming. Students will develop skills in designing and writing simple computer programs. This course is able to design and implement basic programming solutions including statements, control structures, and methods.

CS 130 Information System

This course provides students with an understanding of computers and how they operate as well as an understanding of how to manage and maintain computers and computer systems. These skills provides students with the ability to configure computers and solve computer problems.

Medical Assistant Program (900 hours)

Educational Objective

The Medical Assistant Program prepares healthcare professionals in the skills needed to perform administrative and clinical duties and laboratory procedures in a medical clinic or office. The program will be taught through lectures, laboratory and externship training at clinical sites.

Our goal is to provide the highest quality of education and training so that we may meet the following objectives:

- To provide an environment that encourages student success in the classroom, the externship site and the job site.
- To help students to develop skills in communication, critical thinking, analysis, and problem-solving, leading to accurate decision-making.
- To teach students to think critically so that they will recognize, analyze and solve problems related to administrative, clinical and laboratory procedures.
- To give students a comprehensive understanding of policies and regulations related to carrying out administrative, clinical and laboratory duties.
- To enable students to demonstrate competency in the knowledge and skills required for

entry-level positions in the practice of Medical Assisting.

- To thoroughly prepare students to work in a variety of settings such as physician offices, clinics, hospitals, public agencies, and volunteer agencies.
- To produce students with a strong ethical foundation in order to ensure that they will practice in a legal and ethical manner.
- To develop student professionalism by encouraging a positive attitude, good relational skills, responsibility and initiative.

Career Opportunities

A graduate of the Medical Assistant Program may find employment as a medical assistant health care institution, clinics, both large or small, medical offices or health maintenance organizations. Job titles for the medical clerical worker include medical secretary (SOC Code 43-6013), administrative services manager (SOC Code 11-3011), receptionist / information clerk (SOC Code 43-4171), medical records and health information technician (SOC Code 29-2071), and billing and posting clerk (SOC Code: 43-3021).

Admission Requirements

Admission to the program requires that the applicant be 16 years old or older, have a high school diploma, or have passed a GED or high school proficiency test. If a student has not graduated from high school and does not have a GED, or has not passed the California High School Proficiency Test, but is 16 years old or older, a determination of that student's ability to benefit from participation in the program will be required to pass an ability to benefit test (See information below).

In addition: applicants for admission to the Medical Assistant program must provide the following information:

1. A completed admission application.
2. Documentation of the highest level of educational attainment.
3. Pay the non-refundable registration fee: \$100.00

Ability to Benefit

Students who do not have a high school diploma or a recognized equivalent may still be admitted

if they are at least 16 years old and pass the Wonderlic Basic Skills Test. The Wonderlic Basic Skills Test (WBST) is an ability to benefit test approved by the US Department of Education that is used to determine whether an application without a high school diploma or recognized equivalent has the ability to benefit from our program. The following forms of the test are used: Verbal Forms VS-1 & VS-2, Quantitative Forms QS-1 & QS-2. The approved passing scores on this test are as follows: Verbal (200) and Quantitative (210). Ability-to-benefit students must achieve a passing score on both skill assessments in a single testing session to pass the test and be eligible for admission. The student will be required to have the test administered by a third party and the results delivered to us prior to admission as a student at American West.

Graduation Requirements:

- Pass all modules, course, and terms
- Satisfy all financial obligations
- Complete the programs
- Pass the program's final tests

Total: 900 hours

Coursework

MA101 Anatomy, Physiology and Terminology I

This module is the first of two that will introduce the anatomy, and physiology for the human body, along with the accompanying terminology. In this module we will focus on the skeletal, muscular, cardiovascular, lymphatic, immune, and respiratory systems. There will be an introduction to diagnostic methods and treatments associated with some of the more common diseases of these systems. Students will learn how to counsel patients regarding self-screening, nutrition guidelines and proper use of pharmaceuticals. Medical terminology including the prefixes, combining forms, and suffixes associated with these body systems will be a focus of the course. Students will become familiar with medical terminology (including definitions, spelling and pronunciation). They will also learn common abbreviations used in the medical field. Terminology used in medical billing and coding is also introduced in this module.

MA102 Anatomy, Physiology and Terminology II

This module builds on the first and introduces the terminology, anatomy and physiology for the urinary, nervous, eyes and ears, integumentary, endocrine and reproductive systems of the human body. Diagnostic methods and treatments related to some of the more common diseases related to these body systems will be considered. The student will master the medical terminology, including the definition, spelling and pronunciation of medical terms. Abbreviations and codes utilized in medical billing and coding will also be introduced in the module.

MA103 Clinical Medical Assisting

Students will be introduced to the profession of medical assistant in this module. They will gain an understanding of the responsibilities and role of a medical assistant. They will also gain understanding of the relationship of the medical assistant to the medical team. The primary focus of the course is to prepare students for the duties and roles often assigned to a clinical medical assistant in a wide variety of medical facilities. The topics covered in this course are organized into three main categories: (1) the fundamentals of clinical medical assisting (chap 1-11), (2) clinical duties related to medical specialties (chap 12-23), and (3) fundamentals of laboratory procedures (chap 24-30). The student will also be instructed in how to assist a doctor with exams and basic procedures in the clinic and will learn to assist physicians with minor in-office surgical procedures and as well as sterilizing and caring for medical/surgical instruments.

MA104 Procedures for Medical Office

In this module, students will be introduced to the administrative duties of a medical assistant. Students will be encouraged and equipped to develop the attitudes, knowledge, discipline and skills that will be needed for employment in a medical clinic. Upon completion of the course, students

should be able to carry out all administrative duties required for entry-level positions in medical assisting. One key focus will be patient record management. Other front-office management skills will also be emphasized: scheduling appointments, collecting patient information, and handling insurance claims, for example. Another important goal of the class is to gain an understanding of human relations, especially as it relates to working with patients. Topics such as dealing with difficult and problem patients, dealing with terminally ill patients, dealing with patients in traumatic situations will be discussed. Students will also learn about the importance of being sensitive to cultural issues when dealing with patients.

MA105 Medical Insurance

This module is an introduction to health insurance. The class will provide a big picture perspective of the health care industry as well as a look at the details that are the daily concerns of medical assistants. The students will master the medical terminology related to health insurance. They will also learn about the fundamentals of managed care, several types of health care plans, and the structure of insurance claims. They will be introduced to medical billing and coding. Legal and ethical issues will be discussed in regard to healthcare. Recent and ongoing developments in the health care system will be discussed. Today's health care system will be analyzed from both a consumer and practice perspective. Practical advice concerning advising patients who are facing concerns about healthcare issues will be discussed.

MA106 Medical Billing and Coding

This module focuses on the use of medical reference books, including ICD-10-CM, CPT and HCPCS. Students will become familiar with the use of the Physicians' Desk Reference (PDR) and the medical dictionary to aid in medical billing. A variety of commonly used forms are introduced. Students also discuss managed care, cost containment programs, Medicare, Medicaid/Medi-Cal, Worker's compensation, and fraud guidelines.

COM101 Word Processing

This course is aimed at training the students so they can become proficient with some of the most common features of Microsoft Word typically used in an office setting. Besides acquiring basic skills necessary to create, format, modify, and print letters, documents, and reports; students will also learn to produce boilerplates, integrate mailing lists, and form letters.

COM102 Electronic Spreadsheet

This course is aimed at training the students so they can become proficient with some of the most

common features of Microsoft Excel typically used in an office setting. The student will learn how to format and enhance spreadsheets, use appropriate functions, interpret/analyze data, design templates, and using charts, diagrams, and graphics to add visual impact and improve the presentation of worksheets. Student will gain proficiency through hands on assignments in working with Microsoft Excel.

MA107 Electronic Health Record

Students in this module are introduced to medical records management. Students will be provided with the practical experience of putting administrative skills (learned previously) into practice in a simulated medical setting using electronic health care records (HER) which allow the student to learn proper HER management practices. Spring Charts EHR software will be utilized as a tool by students to help them perform the following tasks: gathering patient information, scheduling appointments, recording examination info, processing lab tests, and selecting codes. Types of electronic management systems will be explored along with their impact on various areas of the healthcare system.

MA108 Employment Planning

In this module, the students will learn gain the job-hunting skills necessary to secure employment after completing the medical assistant program. They will learn how to use the tools of job searching, including the internet and social media, newspapers and career centers to search for job opportunities after completion of the course. They will learn to create proficient resumes and learn about job searching techniques. The students will also practice interviewing skills. They will learn about the most common mistakes of job seeking process as well as helpful tips in getting the job the student desires.

MA109 Externship

Upon successful completion of all classroom training, Medical Assisting students participate in a 300-hour externship. The externship enables students to have the opportunity to demonstrate and reinforce the knowledge and skills presented and practiced throughout the training program. Externs work under the direct supervision of qualified personnel at the externship site and under general supervision of college staff. Externs are evaluated by supervisory personnel and the evaluations are placed in the student's permanent record. As the externship offers students exposure to the realities of their chosen profession and valuable actual work experience, students must complete their externship training to fulfill graduation requirements.

Massage Therapy Program (810 hours)

Educational Objective

This program is designed to prepare the graduate for a job as a massage therapist. Graduates will be expected to give therapeutic massage and bodywork treatments. The techniques are based in anatomy and physiology so that graduates will be able to perform massage therapy safely and with the most satisfactory outcomes.

Our goal is to provide the highest quality of education and training so that we may meet the following objectives:

- To instruct, enhance and assist the student in learning all components of the Massage Therapy Curriculum.
- To gain a comprehensive understanding of the workings and interrelationships of all systems of the body through anatomy, physiology, pathology and biomechanics.
- To help the student understand and recognize the indications and contraindications of massage therapy, as well as understand and be able to communicate the benefits it can provide.
- To develop and apply knowledge of the prevention and spread of disease, as well as maintaining sanitary working environments and good personal hygiene.
- To teach students to be proficient and excel in the practical application of massage therapy techniques and client relationships.
- To teach the necessary skills to plan, develop and operate a successful business within the Laws and Rules of the State of California and other governing authorities.

Career Opportunities

A graduate of the Massage Therapy Program may launch his/her own business; find employment as a massage therapist (SOC Code 31-9011) and physical therapy aide (SOC Code 31-2012) or assistant (SOC Code 31-2011) in a hospital, chiropractic office, public or private health club/resort, or fitness centers, health clubs, salons and spas, rehabilitation clinics, multi-specialty medical groups, wellness facilities; or may be employed in the educational field as an instructor (SOC Code 25-1194) in a non-degree granting institution.

Admission Requirements

Any person 16 years old or older, or has a high school diploma, or has passed the GED or high school proficiency test is eligible to enter the program. If a student has not graduated from high school and does not have a GED, or has not passed the California High School Proficiency Test, but is 16 years old or older, a determination of that student's ability to benefit from participation in the program will be required to pass an ability to benefit test (See information below).

Applicants for admission to the Massage Therapy program must provide the following information:

1. A completed admission application.
2. Documentation of the highest level of educational attainment.
3. Pay the non-refundable registration fee: \$100.00

Test of Ability and Capacity to Benefit from Instruction

Ability to Benefit

Students who do not have a high school diploma or a recognized equivalent may still be admitted if they are at least 16 years old and pass the Wonderlic Basic Skills Test. The Wonderlic Basic Skills Test (WBST) is an ability to benefit test approved by the US Department of Education that is used to determine whether an application without a high school diploma or recognized equivalent has the ability to benefit from our program. The following forms of the test are used: Verbal Forms VS-1 & VS-2, Quantitative Forms QS-1 & QS-2. The approved passing scores on this test are as follows: Verbal (200) and Quantitative (210). Ability-to-benefit students must achieve a passing score on both skill assessments in a single testing session to pass the test and be eligible for admission. The student will be required to have the test administered by a third party and the results delivered to us prior to admission as a student at American West.

Graduation Requirements:

- Pass all modules, course, and terms
- Satisfy all financial obligations
- Complete the programs
- Pass the program's final tests

PROGRAM DESCRIPTION

Completion of Program credits, hours

Courses Required for Massage Therapy Certificate:

Course No.	Course Title	Credits	Hours
ANP-201	Anatomy & Physiology I	5	50
ANP-202	Anatomy & Physiology II	5	50
KIN-401	Kinesiology	5	50
PAT-301	Pathology	5	50
BPE-101	Business and Professional Ethics	6	60
CNM-101	Contraindications of Massage	2	20
HLH-101	Health & Hygiene	2	20
MSE-350	Massage Essentials	2	20

HSM101	History of Massage	4	40
INT-551	Internship	10	100

Total: 81 units 810 hours

The student who is meeting the 500 hours of instruction required by the California Massage Therapy Council (CAMTC) can apply for certification.

Please note that American West College has not applied for CAMTC approval yet. Students completing the program at American West College will not be able to get their massage therapy certification.

Course Descriptions

ANP-201: Anatomy & Physiology I

Description: This module uses the systems approach to provide a basic overview of the organization and the introduction of the different systems of the human body. Combined with the basic overview of the chemistry, cell structure, membranes, tissues and muscular systems is the use of proper terminology and spelling of anatomical structures. Students will also learn word structure related to medical terminology. This module includes a thorough examination of muscles, bones, nerves, and the functioning of the body's systems. The subject matter in this module will include instruction in muscle origin insertion, action, and innervations. This material will provide students with the foundation of information and skill needed to determine where and when massage is most beneficial.

Number of Credits: 5

Total hours: 50

Prerequisites: None

ANP-202: Anatomy & Physiology II

Description: A continuation of Anatomy & Physiology I. Class time includes lecture and hands-on palpation to enable the student to fully integrate the material. Emphasis is placed upon studying and analyzing the human structure and its effect on body functions.

Number of Credits: 5

Total hours: 50

Prerequisites: Anatomy & Physiology I

KIN-401: Kinesiology

Description: The Kinesiology classes focus on skeletal-muscular movement. In this class, students learn to identify the origins and insertions of skeletal muscles of the upper and lower body and the postural expressions they produce. Students learn the physiology and neurology of muscle tissue and neuromuscular techniques to palpate the muscles and relieve chronic tension in both the upper and lower body.

Number of Credits: 5

Total hours: 50

Prerequisites: None

PAT-301: Pathology

Description: In this class we learn to understand how diseases develop in the body and how to prevent this from happening. Class content focuses on disorders and diseases commonly encountered by massage therapists and body workers. We will cover many of the major diseases that are considered to be contraindications for bodywork. This class will also go into the body mind connection of disease to help you better understand the psychological factors to disease and healing. Standard precautions and the need to ensure client and therapist safety and wellbeing are also covered.

Number of Credits: 5

Total hours: 50

Prerequisites: Anatomy & Physiology I & II

BPE-101: Business and Professional Ethics

Description: This module will cover topics associated with the ethical considerations of the massage profession. Information regarding national and state certification and/or licensing requirements will be provided and their importance discussed as it pertains to the desired outcomes of the program. Ethical and professional standards for massage therapists are discussed and situational dilemmas are presented. In addition, since we prepare students for a broad range of employment opportunities, information on business procedures, accounting, insurance reimbursement, and various marketing strategies are presented. The class will also go into basic ideas on how to organize your business for greatest efficiency and cost effectiveness.

Number of Credits: 6

Total hours: 60

Prerequisites: None

CNM-101: Contraindications of Massage

Description: This course will further your knowledge of common contraindications, medical precautions and endangerment sites relating to massage. It will also present information on proper intake forms, formulation of treatment plans, professionalism and informed consent. You will learn when massage is appropriate and when massage is not appropriate for your clients with common medical conditions. You will also be presented with information on headaches and when you need to refer your client to another health care professional.

Number of Credits: 2

Total hours: 20

Prerequisites: None

HLH- 101: Health & Hygiene

Description: Hygiene is one of the most key factors when it comes to performing massage therapy. This class will cover several types of cleanses for each of the organs and systems in the body so that you can not only prevent disease but can actually help to heal diseases that are already present. Many of the diseases plaguing our world today originate due to one or more of our organs being toxic.

Number of Credits: 2

Total hours: 20

Prerequisites: None

MSE- 350: Massage Essentials

Description: The Massage Essentials course is a unique program training you in the fundamental, principles of massage therapy as a whole. In this class you will learn all of the basic traditional bodywork techniques that are used in a practice. Training will be provided in the underlying techniques. Students conduct research case studies to explore which style of work clients prefer. We then correlate these preferences to body-mind-spirit issues. The class includes both theory and hands-on application.

Number of Credits: 2

Total hours: 20

Prerequisites: None

DTM-351: Deep Tissue Massage

Description: This hands-on class introduces deep tissue massage and trigger point muscle therapy. Focus is on reviewing terminology, muscle origins and insertions, trigger point pain patterns, muscle actions and record keeping. Students will have an expanded ability to focus on the musculature that is the source of pain and be able to release the muscles being affected by trigger points.

Number of Credits: 2

Total hours: 20

Prerequisites: Massage Essentials

TPB-352: Theory and Principles of Body Work

Description: The theory, assessment and treatment techniques for Asian Bodyworks are taught. These include learning about Zang-fu (internal organ) signs and the Acupressure Point assessment and treatment. Our treatment techniques include balancing the Five Elements with Acupressure Points to treat specific conditions. The class will be exposed to

a wide variety of bodywork approaches, including Swedish massage, Oriental massage theories, energetic techniques, and integrated massage approaches. You will learn about the philosophy and effects of these-and many other approaches Also included in this training is the use of Energy Building so that students can learn to build up the stamina and power to interact with clients in all spiritual, emotional and physiological levels.

Number of Credits: 2

Total hours: 20

Prerequisites: None

TMS-353: Therapeutic Massage

Description: The massage portion of our program includes techniques in Swedish Massage and Myofascial Therapy. These massage techniques are employed to relax the muscles and increase blood flow throughout the body. It helps bring nutrition to the cells, as well as remove waste and toxins which have accumulated in the body. We will teach you in prompting deep relaxation techniques, to facilitate flexibility, proper muscle tone and spinal alignment. In addition to hands-on techniques, professional conduct and draping will be practiced as well.

Number of Credits: 2

Total hours: 20

Prerequisites: Theory and Principles of Body Work; Massage Essentials

SHI-710: Shiatsu

Description: This hands-on class deepens the level of student competency in Shiatsu. Shiatsu is an ancient form of Japanese Bodywork which focuses on working with the energy of the body. Our class works with specific meridian pathways to support a client's overall health by balancing, enhancing and restoring the natural flow of Qi. The practitioner uses gentle acupressure and passive stretches to increase blood flow and to relax muscle tension.

Number of Credits: 5

Total hours: 50

Prerequisites: Theory and Principles of Body Work; Massage Essentials

SMG-712: Sports Massage

Description: This hands-on class presents techniques that can be applied with various athletes and injury cases. The class instructs in a specific massage technique that uses a system of smooth movements such as gliding, compressing, and stretching. Pre-event and post-event massage techniques as well as maintenance/remedial massage techniques will be covered. Muscle identification and joint movement will also be reviewed. Sports massage focuses on the manipulation, management, and rehabilitation of soft tissues. Athletic and common client injuries will be discussed and students will learn protocols to address such injuries.

Number of Credits: 5

Total hours: 50

Prerequisites: Kinesiology; Anatomy & Physiology I & II

RFX-714 Reflexology

The class is about improving the functions of organs, connective tissues, bone structure, body systems, and energy pathways. Reflexology is a form of alternative medicine that is based on the massaging, squeezing or pushing precise areas of the feet and the palms. The intention of the massaging is to indirectly benefit other portions of the body and to improve overall health. We will learn how to improve blood circulation and induce relaxation, reduce pain and bring about an improvement in overall health to clients. The instruction in class integrates this system with Polarity Therapy, making this class a more dynamic and effective modality.

Number of Credits: 5

Total hours: 50

Prerequisites: None

ACP-716 Acupressure

Students learn the ancient Chinese art of acupressure. Utilizing the same meridian pathways and pressure points as acupuncture, the student learns to use fingers to apply pressure to relieve pain and help clients feel better and become healthier. Class focuses on the theory

as well as the application of theory in laboratory experiences.

Number of Credits: 5

Total hours: 50

Prerequisites: CMT-354: Assessment of Chinese Medical Theory

HMG-715: Hydrotherapy & Hydro Massage

The student will be introduced to ways to use water and heat as an adjunct to the process of massage therapy. The class will provide both theory of hydrotherapy and hydro massage and practical application through laboratory experiences. Students will become familiar with the use of moist heat, compresses, ice, hydro collar packs, whirlpool, sauna and steam baths.

Number of Credits: 4

Total hours: 40

Prerequisites: None

SPM-718: Specialty Massage

Description: Students will learn about specialty massage techniques including chair massage and lymph massage in this class. More than half of class time will be used to focus on giving students hands-on experience after the theoretical grounds have been covered in lectures.

Number of Credits: 5

Total hours: 50

Prerequisites: None

HSM-101: History of Massage

Description: This course will explain why massage is known as one of the earliest remedial practices for the relief of pain and discomfort, and why massage is a natural and instinctive remedy for some illnesses and injuries. Upon completion of the course, students will be able to name three historic Greeks who professed the benefits of exercise and massage, explain how developments in the 19th century influenced modern massage therapy, and why massage practitioners should understand massage history.

Number of Credits: 4

Total hours: 40

	Massage Therapy	Medical Assistant	Business Administration
Tuition	\$6,500	\$10,000	\$2,400/semester
Registration	\$100	\$100	\$100
Equipment and Instruments	\$250	\$1,000	
Books	\$610	\$250	\$400
STRF Fee (When applicable, see information below)	\$16.50	\$25.00	\$6.00
Total Tuition and Fees	\$7,460	\$11,350	\$19,200
The Estimated Charges For the Current Period of Attendance	1st 16 weeks--\$5,000 2nd 6.5 weeks--\$2,460	1st 16 weeks--\$8,000 2nd 4.5 weeks--\$3,350	\$19,200

Prerequisites: None

INT-551: Internship

Description: This class lets students practice their skills, and techniques necessary to be an effective and professional practitioner. Emphasis will be placed on the review of each student's private client work, with the refinement of skills attained in integration.

Number of Credits: 10

Total hours: 100

Prerequisites: Completion of all units

TUITION AND FEES FOR ON CAMPUS PROGRAMS

TUITION AND FEES FOR ON-LINE PROGRAMS

	Bachelor of Science In Computer Science	Bachelor of Science In Cyber Security Defense	Bachelor of Science In A + Pro

About the STRF (Student Tuition Recovery Fund):

* You must pay the state-imposed assessment for the Student Tuition Recovery Fund (STRF) if all of the following applies to you:

1. You are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition either by cash, guaranteed student loans, or personal loans, and
2. Your total charges are not paid by any third-party payer such as an employer, government program or other payer unless you have a separate agreement to repay the third party.

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or
AWC Catalog 20 22-23 page 84

mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N. Market Blvd., Ste, Sacramento, CA 95834, (916) 574-8900 or (888) 370-7589.

The Student's Right and Responsibility

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120-day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.

5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.

6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.

7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Effective April 1, 2024, the Student Tuition Recovery Fund (STRF fee for each program is zero dollar (\$0.00) per one thousand dollars (\$1,000) of institutional charges. (5, CCR Section 76120)

AWC Catalog 20 22-23 page 98

Alberta college in Canada and received a master degree from World Mission University in Piano accompaniment (M. A.).

Kyung Chy graduated from Seoul National University of Arts in Korea (B. A.). She attended Music school in Italy. She then graduated from University of California in los Angeles (Master of Music). She teaches Italian, English Diction, and humanity subjects.

Sang Keun Chang graduated from Seoul National University Opera Academy (Dip) and Chongshin University (B. A.). He also studied at University of Southern California (graduated certificate program and M. M.). He is studying at World Mission University (doctorate candidate).

Board Members: Yong Hong, Esther Chau, {new member: Peter Hong, Monica Hahn, James Cho, Esther Han(auditor), Byung Yong Cho(CPA)}

CEO Dr. Yong Pyo Hong received his Doctor of Missiology program from Asbury Theological Seminary (candidate) and also Doctor of Missiology and attended postdoc program Ph. D in ICS from Fuller Theological Seminary. He has over 40 years of experience as an administrator for colleges and universities. He is also an author and translator of 90 books in English and Korean.

Supporting Board Members: Tom Bloomfield, Elmer Masters, Loren Benson, Vickie Clark, James Cho, Young Youn Song, Sukwon Sohn, Byung Lee.

Faculty Qualifications

American West College seeks faculty who can contribute to its educational and spiritual objectives.

1) Basic Qualifications

- Authentic regeneration experience and high level of commitment to God
- Agreement of the University Statement
- Highly respected in character and deed
- Academic excellence
- Able to teach

2) Preferences and additional qualifications

Preference for employment is given to those holding doctoral degrees, are active involvement in local church ministry, and ordained in ministry leadership and global mission. Faculty must

possess the following qualifications:

- a. A high level of spiritual development and a theology consistent with the theological positions of AWC. This will be evidenced by an agreement to sign a AWC statement.
- b. A high level of academic preparation which is relevant to both the Christian community and also to the secular community. The faculty is required to have a graduate degree from an accredited post-secondary institution. The degree must be in the area in which they desire to teach (although we may occasionally operate on the basis of our accrediting agency's willingness allow us to let a professor with a masters in one area occasional teach in a different area if he or she has 18 graduate credits in that new area).
- c. Demonstrated leadership skills within Christian ministry. This will be evidenced by showing that the potential faculty person has held professional or voluntary ministry positions either in a church or parachurch setting for a period of at least 2 years.
- d. An on-going commitment to ministry within the Christian community. This will be evidenced by the applicant's current membership in a local church or participation in a local church setting or in a domestic and global mission field.
