Welcome to the Southeastern University Undergraduate Academic Catalog

Published March 2024

The online catalog management system contains a number of features to help you quickly locate and save details about our educational programs. Whether you are a prospective student or already enrolled, you can easily see what Southeastern University has to offer!

Catalog Icon Guide

Our catalog management system contains several helpful features to assist you:

M - Main Campus Program Offerings

When this icon is present the Major/Minor/Certificate is offered in person at our main campus in Lakeland, FL.

O - Online Program Offerings

When this icon is present the Major/Minor/Certificate is offered fully online.

S - Site-based Offerings

When this icon is present the Major/Minor/Certificate is offered through one of our Partnerships.

D Dual Enrolled, Associate while attending High School

When this icon is present the Associate Degree is an option for some

Program Planner: Plan It!

The Program Planner icon is located at the top of each major, minor, certificate, or graduate degree. Select this icon for a print-friendly version of the program requirement worksheet. Please review these requirements in consultation with an academic advisor.

Add to My Personal Catalog: Save it!

The My Personal Catalog feature allows you to save course and program information in a personal space (similar to an online shopping cart) that you can access from any computer with Internet access. All you need to get started is your e-mail address. Start creating your personal catalog by clicking on the My Personal Catalog link at the bottom of the left navigation pane. After creating an account, add courses to your favorites by selecting the star icon located on the top right of each page.

Print-Friendly Format: Print It!

Select this icon to generate a pop-up page formatted to neatly print.

Help: Use It!

Help in using the catalog is readily available by clicking the help question mark icon at the top of each page.

Accreditation

Southeastern University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award Associate's, Baccalaureate, Master's, Education Specialist, and Doctoral Degrees. Southeastern University also may offer credentials such as certificates and diplomas at approved degree levels.

Questions about the accreditation of Southeastern University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (<http://www.sacscoc.org>).

Endorsement

Southeastern University is affiliated with the Assemblies of God and endorsed by the Alliance for AG Higher Education of the General Council of the Assemblies of God. The university is approved by the Department of Justice, Immigration, and Naturalization Service for the training of foreign students and by the State Approving Agency of the State of Florida for the training of veterans and the dependents of veterans.

Contents of the Undergraduate Catalog

The Undergraduate Catalog outlines the academic programs; policies pertaining to admission, academics, complaints or appeals, and financial requirements and aid; academic services; and appropriate state authorization notifications in support of the university's deliveries, including undergraduate main campus, undergraduate online, undergraduate partner-sites, and other similar nontraditional programs. The contents of this catalog include the following:

- General Information - summary of the university's mission, vision, accreditation and endorsements, history, campus facilities, and belief statements.
- Academic Calendar - review of start and end dates for each semester, session, and delivery
- Programs of Study - listing of degree programs, delivered on our main campus, through online education, and at off-campus instructional sites of the university
- Course Descriptions - a complete repository of course descriptions
- Admission Policies - policies and procedures related to the admission of nontraditional students into online programs or at off-campus instructional sites
- Academic Policies - policies and procedures related to the student academic experience, including classifications, scheduling and registration, grading, academic degree requirements, and other similar areas of the academic experience
- Financial Policies - policies and procedures related to the financial requirements and aid available through the university or external parties

- Complaint Policies - policies and procedures related to students' rights to submit formal complaints and appeals
- Student Services - listing of available student services for students
- State Authorization - listing notification policies for states wherein the university operates off-campus instructional sites

Distribution of Catalog

The Undergraduate Catalog is available to the general public and prospective and enrolled students via the University's website.

Change of Catalog Information

Information provided by this catalog is subject to change without notice and does not constitute a contract between Southeastern University and a student or an applicant for admission. Material included herein is based on information available as of Fall 2022.

Southeastern University is a networked university with over 200 campuses across the United States and abroad.

Mission

Equipping students to discover and develop their divine design to serve Christ and the world through Spirit-empowered life, learning, and leadership.

Vision Statement

Southeastern University is anchored by Spirit-empowered education in a Christ-centered, student-focused learning community. Southeastern's global impact is marked by a deep commitment to transforming minds and engaging culture through the integration of faith, learning and service. Each student's divine design is nurtured and unleashed through the investment of faculty and staff, relationships within the community, the rigor of scholarship, diverse learning

experiences and the discipline of spiritual formation, which propels students into a lifetime of serving the world in the Spirit of Christ.

Accreditation

Southeastern University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award Associate's, Baccalaureate, Master's, Education Specialist, and Doctoral Degrees. Southeastern University also may offer credentials such as certificates and diplomas at approved degree levels.

Questions about the accreditation of Southeastern University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (<http://www.sacscoc.org>).

Other discipline-specific accreditations and licensures:

- Accreditation Council for Business Schools and Programs (ACBSP)
- Association for Biblical Higher Education (ABHE)
- Commission on Collegiate Nursing Education (CCNE)
- Council on Social Work Education (CSWE)
- Florida Department of Education (FLDOE) - *Southeastern University is approved to grant degrees that meet certification requirements for a Florida teaching credential.*

Endorsements

Southeastern University is affiliated with the Assemblies of God and endorsed by the Alliance for AG Higher Education of the General Council of the Assemblies of God.

The university is approved by the Department of Justice, Immigration, and Naturalization Service for the training of foreign students and by the State Approving Agency of the State of Florida for the training of veterans and the dependents of veterans.

Southeastern University has been approved to participate in the National Council for State Authorization Reciprocity Agreements

Memberships

The Alliance for Assemblies of God Higher Education (The Alliance)

Notice of Nondiscriminatory Policy Related to Students

Southeastern University admits students of any race, color, national, or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, gender, handicap, national, and ethnic origin in the administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs. The University reserves the right to withdraw a student for cause at any time.

Title IX

Southeastern has a responsibility to respond quickly, equitably, and effectively when the university becomes aware of sexual misconduct and any other conduct that is motivated by sex, gender, or gender-expression that creates a hostile educational environment for Southeastern students. Southeastern is committed to prevention of all forms of sexual misconduct as well as the protection and rehabilitation of victims of such acts. Investigations of reported conduct must be impartial and reliable. Responses to reported conduct must adequately stop the behavior, prevent its recurrence, and address its effects. Southeastern University is committed to upholding Title IX of the Education Amendments of 1972 (20 U.S.C. § 1681). The Statute is an all-encompassing federal law that prohibits discrimination on the basis of sex of students and employees of educational institutions that receive federal financial assistance.

Title IX reads:

"No person in the United States, shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance..." Title IX of the Education Amendments of 1972, and its implementing regulation at 34 C.F.R. Part 106 (Title IX).

For Southeastern's full Sexual Misconduct Policy, please see www.seu.edu/titleix

History

Southeastern University was founded in 1935 by Alabama District Superintendent J.C. Thames and other Southeastern District leaders within the Assemblies of God denomination. Originally named the Alabama Shield of Faith Institute, it was renamed the South-Eastern Bible Institute (SEBI) in 1936.

Guy Shields was the first president. Originally located in a former high school building in New Brockton, Alabama, the school opened its doors to students on November 4, 1935, under the direction of four faculty members. Two years later,

on May 22, 1937, the first graduation exercises were held. Seventeen students received diplomas for the two-year academic program.

SEBI continued classes in New Brockton until 1940 when a decision was made to consolidate the school with Beulah Heights Bible Institute in Atlanta, Georgia. The school was known from 1940 to 1942 as the Beulah Heights South-Eastern Bible Institute. In the fall of 1942, Rev. Ralph Byrd allowed the school to relocate to his congregation at 301-7 Capital Ave., SW in Atlanta, where it then was once again named the South-Eastern Bible Institute.

In 1946, the board of directors voted to secure a permanent location for the full development of the school. A new campus location was purchased later that year in Lakeland, Florida. The Atlanta campus was sold, and the development of the new site began. From 1946 to 1952, SEBI was located at the Lodwick School of Aeronautics in Lakeland. In 1952, the school moved to its present location at Longfellow Blvd.

Student body growth continued at the new central Florida campus along with the academic programs. SEBI became South-Eastern Bible College in 1956 when four-year Bachelor of Arts degree programs began. After adding education degrees, the college's board of directors changed the school name to Southeastern College of the Assemblies of God in 1977.

In 1986, Southeastern was granted regional accreditation by the Southern Association of Colleges and Schools Commission on Colleges. This accreditation was reaffirmed in 1991, 2001, 2011, and 2021.

Southeastern made a historic transition from college to a university offering its first master's programs in the fall of 2005. In 2014, the university began offering doctoral programs.

The campus has expanded to over twenty buildings. The university currently enrolls about 10,500 students between the main campus in Lakeland and more than 200 partner sites. Approximately 24,000 alumni call Southeastern their alma mater.

What began in 1935 as a Bible-training school is now the largest Assemblies of God educational institution in America, producing future Christian leaders in the fields of church ministries, education, medicine, law, business, communication, psychology, social work, literature, and music.

Campus Facilities

Location

Main Campus

Southeastern University's main campus is located in the city of Lakeland in Polk County, Florida, the heart of citrus country. Surrounded by the beautiful lakes that characterize Central Florida, the 80-acre campus presents an attractive and picturesque scene for the students' pleasure and academic environment. The natural beauty of the lakes and citrus groves, combined with a semi-tropical atmosphere and lifestyle, makes Lakeland a delightful place to attend college and enjoy Florida winters. The average annual temperature is 72 degrees. With a population of 260,000, the greater Lakeland area is less than one hour from Florida's world renowned tourist attractions—Sea World, Busch Gardens, Epcot Center, Universal Studios and Walt Disney World. In addition, the Gulf of Mexico can be reached in an hour and the Atlantic Ocean in less than two hours.

Lakeland is centrally located between Tampa and Orlando and is easily accessible via the international airports of each city. Three major highways serve the Lakeland area: US 92, US 98, and Interstate 4.

In addition to the major tourist attractions, Central Florida's numerous lakes, parks, and miles of seashore provide many opportunities for outdoor activities. Lakeland is the winter home of the Detroit Tigers American League baseball team. With many other major league teams spending the winter in nearby cities, the baseball season gets underway earlier for local residents.

The cities of Tampa and Orlando offer excitement in professional sports in the football, baseball, basketball, and hockey arenas.

Lakeland's many lakes provide excellent water skiing and freshwater fishing. Southeastern's two lakes are Lake Bonny and Lake Holloway.

SEU Network

Southeastern University partners with churches and organizations around the world to offer degree programs and unique practical ministry experiences through extension sites and regional campuses.

Population

Between all of its delivery platforms, Southeastern University has an enrollment of more than 10,000 students. Students are enrolled at the main campus, partner sites and online.

At the undergraduate level, approximately 2,300 students are enrolled at the Lakeland campus, where students and faculty can know each other on a personal level which lends to the development of lifelong friendships. A student is more than a number; he or she is known by name. Southeastern's caring community gives personal support to individuals.

Academic Facilities

The Steelman Library provides over 383,000 items, including ebooks, print books, journals, sound recordings, and videos.

The curriculum lab is a reference center for future educators. This lab is housed in the library and contains more than 5,000 volumes of children's literature, public and private school textbooks, and instructional material to aid education majors in preparing lesson plans and teaching units. Students and faculty are able to access many of the library's holdings from their residences and offices.

The Jerome E. Bolin Center, named in honor of Jerome E. Bolin, a benefactor of the university, provides a home for the Barnett College of Ministry and Theology, the television and radio studios, and classrooms.

The College of Education Building classrooms include the latest in education technology, and the building also houses a 130-seat lecture hall. Pathways School of Excellence, a private faith-based school for middle and high school-aged students with special needs, is also housed in this building.

The College of Natural & Health Sciences Center opened a state-of-the-art health and science facility in the Fall of 2015. This building features a nursing simulation laboratory and an Anatomage Table. In addition to supporting our science programs, this academic building also provides 14,369 square feet of additional classroom space for use with other academic programs.

The Buena Vida complex is a four-story, 125,000-square-foot live/learn facility that houses the following:

- College of Social Sciences & Humanities
- Jannetides College of Business, Communication & Leadership
- School of Music
- Music practice rooms
- Choral rehearsal hall

- Fine arts program
- Graphic design and computer labs
- Food court area with national brands (added to Chick-fil-A Express, which was brought on campus in September 2014)
- Classrooms (12+)
- Faculty offices (50+)
- Student residences (the third and fourth floors of the facility house 400 students)

What We Believe

Doctrinal Statement

Christian Beliefs

In addition to our mission and vision statement, we hold fundamental truths about the Christian faith that include the following:

- The Scriptures are inspired by God and declare His design and plan for mankind.
- There is only one true God who is revealed in three persons: Father, Son and Holy Spirit (commonly known as the Trinity).
- Jesus Christ, as God's son, was both fully human and divine.

We are proud of our affiliation with the Assemblies of God and our Pentecostal tradition. We are also proud to be a welcoming community for students from all Christian backgrounds and denominations. Our campus includes many Baptists, Presbyterians, Methodists, etc., as well as non-denominational students. Everyone shares a strong commitment to knowing Christ and making Him known, and we celebrate our theological similarities while appreciating our differences.

Heritage

From its inception, Southeastern University has been proudly associated with the movement of the Assemblies of God. Our heritage with Assemblies of God serves as the bedrock of our institutional identity here at SEU. We are proud of the tradition we have built from this legacy, and we invite anyone who would like a better understanding of who the Assemblies of God are and what they believe to visit their website.

Human Sexuality

Biblical Foundations

Our understanding of human sexuality is derived from the following biblical principles:

- God created humans as relational beings — the only part of creation that God explicitly designed to have community with Himself (Genesis 1:26). All other forms of community are designed to reflect this relationship between divinity and humanity (Hebrews 10:24–25, 1 Corinthians 12:14, Ephesians 5:25).

- As a direct result of sin, the community between divinity and humanity was broken (Genesis 3:23–24). This brokenness has permeated into all other relationships (Genesis 4:15). Human sexuality is not exempt from the marring effects of separation from the Divine (Romans 1:21–23).
- God's intention for human sexuality is to occur between one genetic male and one genetic female within the covenant of marriage (Genesis 2:18, 21–24; Hebrews 13:4).
- All forms of sexuality outside of God's intention are a result of separation from God (1 Corinthians 6:13, 18–20) and are illegitimate moral options for the confessing Christian. In Scripture, several sexual behaviors are expressly forbidden, which include but are not limited to fornication, adultery, incest, unnatural sexual intercourse and homosexual acts (Exodus 20:14; Leviticus 18:7–23, 20:10–21; Matthew 5:27–28; Romans 1:20–27; 1 Corinthians 6:9; Galatians 5:19; Ephesians 4:17–19; Colossians 3:5)

Into this broken world, God sent himself in the form of His only begotten Son, Jesus the Christ (John 1:1–3, 14). Through His sacrifice, Jesus became the Way to restoration of the Divine/human community (John 3:16). Until one has restored his or her relationship with God through His Son, Jesus, all other relationships — including human sexuality — will remain broken (John 14:6–7).

Southeastern Human Sexuality

At Southeastern University, we affirm human sexuality as a gift from God, designed to serve as a mirror of one's relationship with God. We believe that God's intention for human sexuality is between one genetic male and one genetic female within the covenant of marriage (Genesis 2:18, 21–24; Hebrews 13:4).

In addition, Southeastern University supports the dignity of individual persons affirming their biological sex — understanding that any attempts to change one's God-given sexuality through elective sex-reassignment or transvestite, transgender or nonbinary "genderqueer" acts or conduct is at odds with our biblical standards, denominational affiliation and subsequently our code of conduct.

Our Commitment

Therefore, we as a community commit to the following:

- Because of our values surrounding modesty, sexual purity and safety, the university has had a single-sex housing and restroom policy for undergraduates since its inception, and we will continue to maintain this tradition.
- In regard to athletics, we will continue to support our biblical understanding of affirming an individual's biological sex as the basis for athletic competition.
- As a university we will conduct our sexuality as a reflection of our relationship with God. Southeastern University pledges to guide the university community toward understanding and embracing its sexuality as a reflection of its relationship with God.
- Seeing that sin is a common struggle for all, members of the SEU community are committed to treating one another with respect and Christ-like compassion (Philippians 2:3–5). Insults, slurs and other forms of derogatory speech have no place in a Christian community (James 3:9–12).

Any deviation from a biblical standard of sexual behavior is a result of separation from God and therefore is an opportunity for repentance, grace and redemption so that as a community, we might honor one another and glorify God.

Life Statement

Southeastern is more than a university; it is a community that transforms students. Joining this Christ-centered community obligates each student to embrace a set of core values centered on scriptural and civilized behavior. The core values of the Southeastern community are: authentic spirituality, a Christ-centered worldview, character development for ethics in life, servant leadership, academic and professional excellence, and cultural sensitivity.

Community Covenant

Since members of this faith-based community have voluntarily chosen to be a participant, all students are obligated to a code of scriptural and community standards and behavior.

As a Christ-follower and member of the community of Southeastern University, I will:

- Practice the spiritual disciplines—regular reading of God's Word, prayer, etc.
- Understand that regular attendance at church services is expected
- Uphold the community standards
- Pursue integrity and practice professional ethics
- Adhere to guidelines of dress code
- Respect the dignity of all persons and highly value the diversity of the body of Christ
- Respect the rights and property of others
- Discourage bigotry, slander, and gossip among the members of the community and will refuse to engage in such behavior
- Refrain from the possession, creation, use, or distribution of beverage alcohol (except for communion), marijuana, or other intoxicants either on or off university premises
- Refrain from the possession, use, or distribution of tobacco products either on or off university premises
- Refrain from the possession, creation, use, or distribution of illegal substances and the abuse or illegal use of legal substances, including prescription and over-the-counter medications either on or off university premises
- Refrain from all sexually immoral behavior including premarital sex; adultery; lesbian, gay, bisexual, or transgender behavior; and involvement with pornography in any form. (Biblical marriage consists only of a faithful, heterosexual union between one genetic male and one genetic female, and biblical marriage is the only legitimate and acceptable context for a sexual relationship)
- Resolve conflict according to the model in Matthew 18:15-20
- Honor the servant-leaders who watch over this community and cooperate with their leadership
- Demonstrate compassion for others and a passion for the lost as a representative of Christ

Misrepresentation Policy

Southeastern University strives to be an institution of high integrity and is committed to providing the most accurate information through all mediums to anyone associated with the University. Southeastern University will make every effort to not engage in misrepresentation of any form as defined by the U.S. Department Regulatory Citation: 34 CFR § 668.71 (c) which defines misrepresentation as any false, erroneous or misleading statement an eligible institution, one of its representatives, or any ineligible institution, organization, or person with whom the eligible institution has an agreement to provide educational programs, or to provide marketing, advertising, recruiting or admissions services makes directly or indirectly to a student, prospective student or any member of the public, or to an accrediting agency, to a State agency, or to the Secretary. A misleading statement includes any statement that has the likelihood or tendency to deceive. A statement is any communication made in writing, visually, orally, or through other means. Misrepresentation includes the dissemination of a student endorsement or testimonial that a student gives either under duress or because the institution required the student to make such an endorsement or testimonial to participate in a program.

Drug-Free School & Campus Policy

Southeastern University is committed to maintaining a Christ-centered and student-focused learning community that is free from alcohol, tobacco, and illegal drugs. All members of the Southeastern University community are expected to act in accordance with the University's Community Covenant as well as the Code of Student Conduct and the Employee Handbook. The University's position on alcohol, tobacco, and drugs is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989.

Programs of Study

Unless otherwise noted, all classes are taught in English

Certain programs offered on the main campus in Lakeland, FL have discipline-specific accreditations and state specific curriculum requirements. Details on those program accreditations and licensure requirements can be viewed by clicking the corresponding program or department link below.

Professional Licensure/Certification Disclosure

Federal law requires disclosure to applicants and students regarding professional licensure/certification and our programs of study. *While licensure or certification may be available in your field of study, programs offered through the University's online and out-of-state extension sites are not designed to lead to such licensure or certification upon graduation.* The professional preparation you receive in our program may still assist you in such pursuits; however, we are unable to confirm the specific licensure and certification requirements of each state, territory, or foreign entity in which professional credentialing may be possible. If you intend to pursue such credentialing in your state or elsewhere, we advise you to contact the applicable state credentialing authority to familiarize yourself with its specific requirements and determine if our program meets its academic criteria. In addition, SEU's Center for Calling & Career (compass@seu.edu) can also assist you with questions in this regard and assist you in your career planning.

Southeastern University

Program Planner: Plan It!

The Program Planner icon is located at the top of each major, minor, certificate, or graduate degree. Select this icon for a print-friendly version of the program requirement worksheet. Please review these requirements in consultation with an academic advisor.

Add to My Personal Catalog: Save it!

The My Personal Catalog feature allows you to save course and program information in a personal space (similar to an online shopping cart) that you can access from any computer with Internet access. All you need to get started is your e-mail address. Start creating your personal catalog by clicking on the My Personal Catalog link at the bottom of the left navigation pane. After creating an account, add courses to your favorites by selecting the star icon located on the top right of each page.

Print-Friendly Format: Print It!

Select this icon to generate a pop-up page formatted to neatly print.

Help: Use It!

Help in using the catalog is readily available by clicking the help question mark icon at the top of each page.

Ready to Access a Catalog?

Use the catalog drop-down box in the upper-right-hand corner of this page to select the catalog you wish to view. Just interested in viewing the current semester catalogs? Click 2022-2023 Undergraduate Catalog or our 2022-2023 Graduate Catalog.

Accreditation

Southeastern University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, master's, and doctorate

degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Southeastern University.

Endorsement

Southeastern University is affiliated with the Assemblies of God and endorsed by the Alliance for AG Higher Education of the General Council of the Assemblies of God. The university is approved by the Department of Justice, Immigration, and Naturalization Service for the training of foreign students and by the State Approving Agency of the State of Florida for the training of veterans and the dependents of veterans.

Change of Catalog Information

Information provided by this catalog is subject to change without notice and does not constitute a contract between Southeastern University and a student or an applicant for admission. Material included herein is based on information available as of Fall 2022.

Bachelor of Science, Global Education Four-Year Plan

Year One

Fall Semester - 16 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to

live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

GEDU 2003 - SURVEY OF GLOBAL EDUCATION

This course is a survey of global education trends and pedagogical practices. Emphasis is placed on students integrating into localized teaching systems and cultural awareness of challenges teachers may face teaching across global contexts.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry (3 Credits) Select one:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Choose one of the following (3 credits):

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester - 15 Credit Hours

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

GEDU 2143 - FOUNDATIONS OF EDUCATION & INSTRUCTIONAL DESIGN

This course is a study of the nature and character of American education and how it has been influenced by our social structure, social values, and history. The course includes an introduction to subject area competencies, professional skills and competencies, benchmarks for the pre-professional level of accomplished practices for teachers, and the expectations for ethical and professional behavior. Students will learn the principles of effective instructional design

and delivery in the K-8 setting and gain practice in writing standards-based lesson plans that include differentiated instruction and assessment.

Prerequisites & Notes

None

Credits: 3

GEDU 2233 - EDUCATIONAL PSYCHOLOGY

This course is a study of student diversity, the principles and philosophy of human growth and development, motivation and learning theory, and how these are applied to teaching. Included are introductions to intelligence theories, cultural issues, instructional approaches, learning taxonomies, motivation, and different assessment tools.

Prerequisites & Notes

None

Credits: 3

GEDU 2141 - GLOBAL FIELD STUDY I

In this course, students will be placed in a K-8 setting to complete tasks in the field. This course is designed to allow students multiple opportunities to observe the K-8 setting (approximately 30 hours) and participate in low-level classroom tasks in the K-8 setting. Students will need to find placement in schools/classrooms according to the students' major/grade level preference.

Prerequisites & Notes

None

Credits: 1

Quantitative Inquiry (3 credits) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

Fall Semester - 16 Credit Hours

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

GEDU 3493 - LITERACY FOUNDATIONS I: THE SCIENCE OF READING

This course is a study of scientific theory and effective approaches for reading instruction, focusing on reading as the interactive weaving of word recognition and language comprehension. The essential components of literacy are studied: oral language, phonological awareness, phonics, fluency, vocabulary, and comprehension. Characteristics of proficient readers, striving readers, and readers with dyslexia are examined along with practices for differentiating reading instruction.

Prerequisites & Notes

None

Credits: 3

GEDU 3353 - EMPOWERING ESOL TEACHERS

This course is an overview of curriculum, instructional methods and materials, testing and evaluation, and cross-cultural communication processes and linguistic principles as related to instructing English Language Learners (ELLs) in the K-8 classroom.

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry (4 credits) Select one:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Elective Course - 3 Credit Hours

Spring Semester - 16 Credit Hours

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

GEDU 2013 - SURVEY OF TEACHING METHODS

This course offers a survey of current methods and techniques for teaching across disciplines. Emphasis is placed on K-8 pedagogy and best practices of teaching and learning.

Prerequisites & Notes

None

Credits: 3

GEDU 3233 - LITERACY FOUNDATIONS II: LANGUAGE ARTS & LITERATURE

This course investigates children's literature, emphasizing developmentally-appropriate instructional practices. Attention is placed on understanding psychological, social, emotional, and cognitive development as they correlate to motivating students to interact with literature.

Prerequisites & Notes

GEDU 3493

Credits: 3

GEDU 3713 - INTEGRATION OF FAITH IN EDUCATION

This course is designed to assist educators in effectively and legally integrating their Christian faith into school and classroom settings.

Prerequisites & Notes

None

Credits: 3

GEDU 3001 - GLOBAL FIELD STUDY II

In this course, students will be placed in a K-8 setting to complete tasks in the field. This course is designed to allow students multiple opportunities to observe and interact with teachers and students in the K-8 setting (approximately 45 hours) and participate in classroom tasks such as using data to drive lesson planning, parent communication, and classroom management planning. Students will need to find placement in schools/classrooms according to the students' major/grade level preference.

Prerequisites & Notes

None

Credits: 1

Elective Course- 3 Credit Hours

Year Three

Fall Semester - 14 Credit Hours

GEDU 3133 - ASSESSMENT OF LEARNERS

This course focuses on the educational levels and needs of all students, including exceptional, culturally and/or linguistically diverse, and at-risk students. Standardized achievement tests, diagnostic/prescriptive tests, and curriculum-based assessments are included. Use of test results in program planning is emphasized.

Prerequisites & Notes

None

Credits: 3

GEDU 3423 - DIAGNOSIS, ASSESSMENT, & EVALUATION OF READING

This course highlights formal and informal means of evaluations with emphasis on diagnosing reading ability, prescribing for instruction, administering assessment, interpreting measurement terms and data, and maintaining records.

Prerequisites & Notes

None

Credits: 3

GEDU 3023 - TRAUMA INFORMED TEACHING

This course is a study of the impacts and types of trauma that affect K-12 student well-being and classroom learning. Adverse Childhood Experiences (ACEs) studies and classroom strategies for mitigating the effects of childhood trauma are outlined. Focus given to the review of trauma's impact on the K-12 student and how the teacher can create a trauma-informed classroom to proactively empathize and care for affected students.

Prerequisites & Notes

None

Credits: 3

Elective Course - 5 Credit Hours

Spring Semester - 16 Credit Hours

GEDU 3143 - LANGUAGE DEVELOPMENT & COMMUNICATION DISORDERS

This course addresses language development, including identification and remediation of communication and language disorders. There is an emphasis on the impact of speech and language disorders on academic success and achievement. Further, students will be presented with an overview of alternative/augmentative modes of communication and development of curriculum in these areas.

Prerequisites & Notes

None

Credits: 3

GEDU 4001 - GLOBAL FIELD STUDY III

In this course, students will be placed in a K-8 setting to complete tasks in the field. This course is designed to allow students multiple opportunities to assume some of the responsibilities of teachers in the K-8 setting (approximately 60 hours) and participate in classroom tasks such as teaching lessons across the curriculum, analyzing and using data to drive lesson planning, parent communication, and classroom management implementation in the K-8 setting. Students will need to find placement in schools/classrooms according to the students' major/grade level preference.

Prerequisites & Notes

None

Credits: 1

Elective Courses- 12 Credit Hours

Year Four

Fall Semester - 15 Credit Hours

GEDU 4333 - CLASSROOM & BEHAVIOR MANAGEMENT

This course is the study of models and strategies of behavior management appropriate for specific populations of students in accordance with human development milestones. The course covers student attributes of behavior, including response to interventions, age-appropriate discipline, intrinsic versus extrinsic motivation, conflict resolution, culture, and demographics. The course includes methodology for managing a learning environment utilizing research-based best practices in education.

Prerequisites & Notes

None

Credits: 3

GEDU 3503 - INSTRUCTIONAL TECHNOLOGY

This course is designed to develop skills and techniques needed for the selection, utilization, and production of classroom instructional materials and for application and integration of educational technology and media to all areas of the curriculum, appropriate to students' developmental level.

Prerequisites & Notes

None

Credits: 3

GEDU 4043 - APPLIED LINGUISTICS

This course is a practical approach to teaching English to speakers of other languages. The course includes topics such as general linguistics, language theory, principles of language acquisition, and techniques for teaching and assessing K-12 ELL students. Special attention is given to the linguistic components of English, namely phonology, morphology, semantics, syntax, discourse, and pragmatics.

Prerequisites & Notes

None

Credits: 3

GEDU 3113 - SURVEY OF THE EXCEPTIONAL LEARNER

This is a required course for all Education programs. This is an introductory course that examines the history, characteristics, and issues in exceptional education. The course covers all areas of exceptionality and their manifestations from early childhood through adulthood. It is designed to provide students with a firm grounding in the foundations of special education and exposes them to the reconstruction of the field, in order that they may better deal with new and ever-changing developments. In addition to classroom meetings, a minimum of 10 hours of observation/participation in a clinical setting is required. This course is a prerequisite for all other Exceptional Student Education courses.

Prerequisites & Notes

None

Credits: 3

GEDU 3523 - TEACHING LITERACY IN CONTENT AREA

This course will provide students with strategies and tools for becoming a facilitating and reflective practitioner, teaching reading across content areas, and helping students discover that content area learning is made richer when reading, writing, speaking, and listening are taught together. Particular emphasis is placed on a balanced approach to reading, specific reading and comprehension strategies for content reading, the role of reflection in helping students to think critically, reading for diverse students, and the use of appropriate texts and media.

Prerequisites & Notes

None

Credits: 3

Spring Semester - 12 Credit Hours

GEDU 4009 - INTERNATIONAL STUDENT TEACHING

This course provides five seminar-style opportunities for student teachers to examine the experiences they are concurrently having in the full-time student internship in the K-8 setting. Seminars are designed to respond to the immediate needs of the student teachers and offer support, encouragement, and insights into the teaching process and profession. Guest speakers will play an important role in enriching the program and providing first-hand experiences from the classroom and administrative levels.

Prerequisites & Notes

Acceptance into Internship

Credits: 9

Elective Course- 3 Credit Hours

Certificate, Mental Health Services

Minor Core- 18 Credit Hours

Total Program Hours- 15 Credit Hours

Bachelor of Arts, Humanitarian Relief & Development (4-year plan)

Year One

Fall Semester - 16 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

PMIN 3073 - NEIGHBORLINESS ACROSS DIVIDING LINE

A study of the biblical call to neighborliness that encourages development of relationships across the historically divided lines of race and economics. Theological and cultural topics will be analyzed to understand how the Greatest Commandment – loving God and neighbors – can be practically pursued and expressed.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Creative-Aesthetic Inquiry (3 Credits) Select one:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisite:
CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

THEO 3013 - THEOLOGY OF COMPASSION

Compassion for others, especially for those in need, is a fundamental tenet of biblical theology. Compassion for humankind was the motivation for Christ's mission to earth, as He mentions at the inauguration of his ministry in Luke 4: "The Spirit of the Lord is on me, because he has anointed me to proclaim good news to the poor. He has sent me to proclaim freedom for the prisoners and recovery of sight for the blind, to set the oppressed free, to proclaim the year of the Lord's favor." This course reviews the biblical foundation for compassion and traces the Church's theological interpretation and practical application of compassion throughout history.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry (3 credits) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Quantitative Inquiry (3 credits) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Fall Semester - 15 Credit Hours

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

HRDV 3043 - HOLISTIC DEVELOPMENT

This course equips students with models that foster dignity rather than dependency and empowerment rather than entitlement. Students will learn how to partner with local churches and other stakeholders, assess community assets and needs, and formulate responsible approaches to community development. This introductory course on holistic development carefully builds a biblical view of poverty and a theology of responsible aid in the context of various real-world development topics. Students will also expand and deepen their understanding through service learning opportunities.

Prerequisites & Notes

None

Credits: 3

HRDV 3023 - CONTEXTUALIZED COMMUNICATION

The need to communicate across multiple cultures is an increasingly critical requirement in today's multicultural environment, where national boundaries provide minimal isolation and face-to-face communication is replaced by technological connections. Students' own philosophies and worldviews provide a foundation upon which techniques and approaches for communications are explored.

Prerequisites & Notes

HRDV 3053 - APPLIED SUSTAINABILITY

Applied Sustainability prepares students to meet the destitute challenges of this world through compassion, cutting edge technology, sustainable processes, and financially viable methods. Students investigate approaches to the provision of clean water and adequate food resources to both the Least Developed Countries (LDC) and to people most impacted by physical and economic disasters.

Prerequisites & Notes

None

Credits: 3

HRDV 3063 - CONFLICT MANAGEMENT AND NEGOTIATION

Leadership of humanitarian programs requires the ability to successfully manage conflict in a variety of settings. This course investigates biblical conflict and reconciliation, the principles of mediation and negotiation, the role of power and culture, and characteristics of conflict competent leaders. In addition to the Bible, this course incorporates writings and videos from experts in the field to provide a well-rounded experience for students. Upon completion of this course, students will have the knowledge, skills, and abilities needed to address conflict with confidence - whether it be as a mediator or participant.

Prerequisites & Notes

None

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Spring Semester - 15 Credit Hours

HRDV 3003 - MANAGEMENT OF RELIEF & DEVELOPMENT

Providing disaster and humanitarian relief is a complex process involving individuals from diverse backgrounds, locations, languages, preparation, involvement, and commitment. Leadership in these settings requires both skills in leading multifaceted projects, delegating responsibilities, inspiring volunteers, and managing funds. This course prepares students for leadership within the field of community relief and development.

Prerequisites & Notes

None

Credits: 3

HRDV 4013 - AFFECTING CHANGE THROUGH ADVOCACY

Affecting Change through Advocacy offers students a biblical foundation and holistic approaches to assess and apply methods of advocacy, aligned with both the beneficiary and the intended outcome. Topics include responsible advocacy, spheres of influence, stages of effective action, all within a kingdom-centered framework of ethics.

Prerequisites & Notes

None

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Year Four

Fall Semester - 15 Credit Hours

HRDV 4003 - CHILDREN & YOUTH IN CRISIS

Children and youth are especially susceptible to the traumatic effects of natural and human-made disasters. Because of their higher level of innocence, minimal experience, and the vulnerable place they have in many societies, relief actions and strategies must identify actions and strategies as quickly as possible. In this course, students will identify stress symptoms and emotional suffering to help as much as is appropriate and then to direct them to qualified support specialists. This course is not intended for professional or trained counselors but for those on site immediately following natural or human caused disasters or who conduct outreaches where children and youth may be in crisis.

Prerequisites & Notes

None

Credits: 3

HRDV 4043 - CARE & WELLNESS IN HUMANITARIAN CONTEXT

This course will provide students with the knowledge and skills to function from a state of integrated health in a humanitarian context. Emphasis will include ownership of personal wellness, collaboration for community wellness, and application for the wellness of those served. Topics include psychological first aid, evaluation, and interventions for physiological health, biblical frameworks for self-care and wellness, compassion fatigue, and interventions for personal and community health.

Prerequisites & Notes

None

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Spring Semester - 15 Credit Hours

HRDV 4033 - HUM RELIEF & DEV PRACTICUM

The Humanitarian Compassion Practicum allows students to apply the theory and course-based learning to real-life situations through actual operation organizations and agencies. Students are responsible for procuring their practicum site, with the assistance of their academic advisor. Hope Education Network partners are available along with the university's own practicum partners.

Prerequisites & Notes

None

Credits: 3

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Total Program Hours- 120 Credit Hours

Site-Based (Partnership)

Bachelor of Science, Digital Media & Design (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (6 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Digital Media and Design Elective - Select One:**BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS**

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Divine Design Electives (7 Credits)

Associate of Arts (Site-based) Two-Year Course Plan

Program Description

The Associate of Arts (AA) degree includes the core learning components and competencies commonly accepted as foundational for a four-year baccalaureate degree by many colleges and universities. The AA degree is designed for students who desire recognition for completing the two-year prescribed curriculum. Because many bachelor degrees require specific prerequisites, students should verify how their AA degree and classes transfer into the intended degree. Graduates with the Associate of Arts degree will be able to:

- Demonstrate knowledge of the background, content, and themes of the biblical text
- Demonstrate oral communication skills through research, topical development, and style-specific presentations of focused material
- Demonstrate the ability to interpret, analyze, and evaluate statements, arguments, and evidence in order to construct well-supported, clearly articulated conclusions and positions
- Demonstrate problem-solving skills in a broad range of significant mathematics

Year One

First Semester - 16 Credit Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Second Semester - 15 Credit Hours

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Humanities Elective (select one):

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Year Two

First Semester - 16 Credit Hours

THEO 2123 - CHRISTIAN THOUGHT AND PRACTICE

This course surveys the history of Christian thought and practices. Doctrinal topics introduced in the course include the doctrines of God, Jesus Christ, the Holy Spirit, humanity, salvation, the church, scripture, and last things. The course explores the application of Christian practices and spiritual disciplines such as prayer, communion, baptism, and social responsibility to the students' community.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Natural Science Elective (select one):

NSCI 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

General Elective (select one):

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Second Semester - 15 Credit Hours

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

Social Science Elective (select one):

SSCI 2033 - HUMANS IN SOCIETY

This course introduces the student to the multidisciplinary field of social science by exploring the social theories, phenomena, institutions, and forces that shape society. Emphasis is placed on exploring the existence and perpetuation of social problems as a means of introducing the social sciences and applying critical thinking skills to these diverse issues.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

History Elective (select one):

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

*Required for Nevada students.

General Elective (select one):

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Total Program Hours - 62 Credit Hours

***The above course plan applies only to extension site students. Other deliveries may not be applicable.

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Bachelor of Science, Worship Ministries (Site-based) Four-Year Course Plan

Program Description

The extension site Bachelor of Science in Worship Ministries degree program prepares students for worship ministry leadership in local church ministries through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, worship ministry, and worship ministry practicum. Students who complete this degree will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Use basic music theory and aural theory in the context of worship ministry
4. Perform two instruments (guitar, piano, and/or voice) in the context of worship ministry
5. Design and direct the creative elements of an entire service, including multimedia, music, dramatic elements, and the flow of a worship experience
6. Lead worship teams and worship departments
7. Construct worship songs that reflect Christian theological concepts and efficient musical structure
8. Demonstrate basic knowledge in operating multimedia software and professional equipment (audio equipment and light equipment) for live and studio applications
9. Integrate their biblical interpretation, theological, and worship competencies in ministry contexts

Year One

First Semester - 16 Credit Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

Applied Lesson (select one):

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Second Semester - 15 Credit Hours

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Humanities Elective (select one):

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

Applied Lesson (select one):

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Year Two

First Semester - 15 Credit Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

MUSC 1132 - MUSIC THEORY I

This course is a study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, major/minor tonality, and chord construction found in Western music.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1041 - AURAL THEORY I

Singing at sight and melodic and harmonic dictation. Basic familiarization with the keyboard.

Prerequisites & Notes

Prerequisite: MUSC 1002 or theory placement exam

Corequisite: MUSC 1133

Credits: 2

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Second Semester - 15 Credit Hours**MUSC 1232 - MUSIC THEORY II**

This course is a study of the fundamental principles of harmonic progression and harmonic rhythm, seventh chords, modulation, secondary dominants, leading-tone chords, and four-part composition. Included in this course is the study of small musical forms.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1061 - AURAL THEORY II

This course provides training in the recognition of fundamental to intermediate melodic, harmonic, and rhythmic patterns. In addition, training is provided in sight-reading of melodic and rhythmic excerpts with a moderate level of difficulty.

Prerequisites & Notes

NULL

Credits: 1

History Elective (select one):

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

*Required for Nevada students.

Social Science Elective (select one):

SSCI 2033 - HUMANS IN SOCIETY

This course introduces the student to the multidisciplinary field of social science by exploring the social theories, phenomena, institutions, and forces that shape society. Emphasis is placed on exploring the existence and perpetuation of social problems as a means of introducing the social sciences and applying critical thinking skills to these diverse issues.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

General Elective (select one):

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

Applied Lesson (select one):

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style

elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Second Semester - 16 Credit Hours

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

Natural Science Elective (select one):

NSCI 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an

understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

General Elective (select one):

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Prerequisites & Notes

NULL

Credits: 1

Year Four

First Semester - 17 Credit Hours

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

New Testament Elective (select one):

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Second Semester - 14 Credit Hours

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical

theology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

Old Testament Elective (select one):

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of

this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Total Program Hours - 125 Credit Hours

CORE 1001 – College and Christian Calling, CORE 1503 – Personal Stewardship, and 1 credit hour of applied lessons may be waived for students in the Pastoral Accelerator program, due to their advanced standing. These waivers would reduce the total program hours to 120.

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Other Programs

Bachelor of Science, Secondary Mathematics Four-Year Plan (Even Year)

Year One

Fall Semester

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

Creative-Aesthetic Inquiry (3 Credits) Select one:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Spring Semester

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

MATH 2244 - CALCULUS II

This course involves the study of antiderivatives, definite integrals, logarithmic, exponential and trigonometric functions.

Prerequisites & Notes

NULL

Credits: 4

EDUC 2143 - FOUNDATIONS OF EDUCATION & INSTRUCTIONAL DESIGN

This course is a study of the nature and character of American education and how it has been influenced by our social structure, social values, and history. The course includes an introduction to subject area competencies, professional skills and competencies, benchmarks for the pre-professional level of accomplished practices for teachers, and the Code of Ethics and Professional Conduct. Students will learn the principles of effective instructional design and delivery in the PreK-12 setting and gain practice in writing Florida standards-based lesson plans that include differentiated instruction and assessment.

Prerequisites & Notes

None

Credits: 3

EDUC 2233 - EDUCATIONAL PSYCHOLOGY

This course is a study of student diversity, the principles and philosophy of human growth and development, motivation and learning theory, and how these are applied to teaching. Included are introductions to intelligence theories, cultural issues, instructional approaches, learning taxonomies, motivation, and different assessment tools.

Prerequisites & Notes

None

Credits: 3

EDUC 2131 - FIELD STUDY 1

In this course, students will be placed in a K-12 setting in area schools to complete tasks in the field that are directly tied to the Florida Educator Accomplished Practices (FEAPs). This course is designed to allow students multiple opportunities to observe K-12 settings (approximately 30 hours) and participate in low-level classroom tasks. The College of Education will work cooperatively with schools to place students in classrooms according to the students' major/grade level preference. As part of the course requirements, students must pass the General Knowledge Test (GKT) and provide documentation to the College of Education before the end of the course.

Prerequisites & Notes

None

Credits: 1

Year Two

Fall Semester

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

EDUC 3713 - FAITH INTEGRATION IN EDUCATION

This course is designed to assist educators in effectively and legally integrating their Christian faith into school and classroom settings.

Prerequisites & Notes

None

Credits: 3

MATH 2113 - DISCRETE MATHEMATICS

MATH

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Upper Division Math Elective- 3 Credit Hours

Spring Semester

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

EDUC 3353 - EMPOWERING ESOL TEACHERS

This course is an overview of curriculum, instructional methods and materials, testing and evaluation, and cross-cultural communication processes and linguistic principles as related to instructing English Language Learners (ELLs) in the PreK-12 classroom.

Prerequisites & Notes

None

Credits: 3

EDUC 3351 - FIELD STUDY 2

In this course, students will be placed in a K-12 setting to complete tasks in the field that are directly tied to the Florida Educator Accomplished Practices (FEAPs). This course is designed to allow students multiple opportunities to observe and interact with teachers and students in the K-12 setting (approximately 45 hours) and participate in classroom tasks such as using data to drive lesson planning, parent communication, and classroom management planning. The College of Education will work cooperatively with area schools to place students in classrooms according to the students' major/grade level preference. As part of the course requirements, students must pass the Professional Education Test (PEd) and provide documentation to the College of Education before the end of the course.

Prerequisites & Notes

None

Credits: 1

Natural-Scientific Inquiry (4 credits) Select one:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Upper Division Math Elective- 3 Credit Hours

Year Three

Fall Semester

EDUC 3133 - ASSESSMENT OF LEARNERS

This course focuses on the educational levels and needs of all students, including exceptional, culturally and/or linguistically diverse, and at-risk students. Standardized achievement tests, diagnostic/prescriptive tests, and curriculum-based assessments are included. Use of test results in program planning is emphasized.

Prerequisites & Notes

EDUC 3663 - LITERATURE FOR SECONDARY TEACHERS

This course is a study of specific literature typically taught in secondary schools and aligned to the FLDOE competencies and skills and national/state/district-adopted content standards.

Prerequisites & Notes

None

Credits: 3

ESED 3113 - SURVEY OF THE EXCEPTIONAL LEARNER

This is a required course for certification in all Education programs, including Music Education. This is an introductory course that examines the history, characteristics, and issues in exceptional education. The course covers all areas of exceptionality and their manifestations from early childhood through adulthood. It is designed to provide students with a firm grounding in the foundations of special education and expose them to the reconstruction of the field, in order that they may better deal with new and ever-changing developments. In addition to classroom meetings, a minimum of 10 hours of observation/participation in a clinical setting is required. This course is recommended to be taken prior to any other Exceptional Student Education courses.

Prerequisites & Notes

None

Credits: 3

MATH 2133 - GEOMETRY

This course is a study of Euclidean geometry and Non-Euclidean geometries.

EDUC 4221 - FIELD STUDY 3

In this course, students will be placed in a K-12 setting in area schools to complete tasks in the field that are directly tied to the Florida Educator Accomplished Practices (FEAPs). This course is designed to allow students multiple opportunities to observe and interact with teachers and students in the K-12 setting (approximately 60 hours) and participate in classroom tasks such as using data to drive lesson planning, parent communication, and classroom management planning. The College of Education will work cooperatively with local schools to place students in classrooms according to the students' major/grade level preference. As part of the course requirements, students must pass the Subject Area Exam (SAE) for their major and provide documentation to the College of Education before the end of the course.

Prerequisites & Notes

None

Credits: 1

Year Four

Fall Semester

EDUC 3503 - INSTRUCTIONAL TECHNOLOGY

This course is designed to develop skills and techniques needed for the selection, utilization, and production of classroom instructional materials and for application and integration of educational technology and media to all areas of the curriculum, appropriate to PreK-12 students' developmental level.

Prerequisites & Notes

None

Credits: 3

EDUC 3523 - TEACHING LITERACY IN CONTENT AREAS

This course will provide students with strategies and tools for becoming a facilitating and reflective practitioner, teaching reading across content areas, and helping students discover that content area learning is made richer when reading, writing, speaking, and listening are taught together. Particular emphasis is placed on a balanced approach to reading, specific reading and comprehension strategies for content reading, the role of reflection in helping students to think critically, reading for diverse students, and the use of appropriate texts and media.

Prerequisites & Notes

None

Credits: 3

EDUC 4433 - CLASSROOM & BEHAVIOR MANAGEMENT - SECONDARY SCHOOL

This course is the study of models and strategies of behavior management appropriate for specific populations of students in accordance with human development milestones. The course covers student attributes of behavior, including response to interventions, age-appropriate discipline, intrinsic versus extrinsic motivation, conflict resolution, culture, and demographics. The course includes methodology for managing a learning environment utilizing research-based best practices in education.

Prerequisites & Notes

None

Credits: 3

EDUC 4373 - TEACHING MATH IN THE SECONDARY SCHOOL

The focus of this course is on unit planning, instructional methods, resource selection, and evaluation procedures. Modern techniques and methods of teaching mathematics in secondary school are presented with attention given to diverse learners and special learning needs. Application of theoretical understanding and skills is achieved through micro-teaching lessons.

Prerequisites & Notes

None

Credits: 3

Upper Division Math Elective- 3 Credit Hours

Spring Semester

EDUC 4912 - STUDENT TEACHING

This course provides five seminar-style opportunities for student teachers to examine the experiences they are concurrently having in the full-time student internship in the PreK-12 setting. Seminars are designed to respond to the immediate needs of the student teachers and offer support, encouragement, and insights into the teaching process and profession. Guest speakers will play an important role in enriching the program and providing first-hand experiences from the classroom and administrative levels.

Prerequisites & Notes

Attempt all required portions of the FTCE

Credits: 12

Certificate, Software Developer (Online)

Introductory Courses (complete the following in order) - 3 Hours

Programming Foundations (Select one [1] track) - 1.5 Hours

Database Foundations - 1.5 Hours

Front-End Frameworks (Select one [1] of the following) - 1.5 Hours

Note: The front-end frameworks course can be taken before or after the back-end foundations course in the next section, in other words, in either order.

Back-End Foundations (Select one [1] of the following) - 1.5 Hours

Select the course that matches the previously selected programming foundations track.

Required Courses - 4.5 Hours

Take in any order after completing the courses above.

Capstone Course - 4.5 Hours

Complete after all other courses in the certificate have been completed.

Total Program Hours - 18 Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable program.

Postsecondary Transition Program- 2 Year Plan

Year One

Fall Semester

LKES 0341 - SELF ADVOCACY II

Self-advocacy 2 aims to strengthen advocacy skills introduced in Self Advocacy 1. All students develop the skills, behaviors, and attitudes, through direct instruction and/or added support, as necessary, that enable students to learn and grow in self-knowledge, self-determination, communications styles, and understanding of their rights and responsibilities.

Prerequisites & Notes

LKES 0331

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Biblical Studies Track - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Biblical Studies Track - 6 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Barnett College of Ministry and Theology

The Barnett College of Ministry and Theology exists to prepare women and men for a lifetime of effective ministry, evidenced by a foundational biblical perspective, practical theology for the 21st-century context, best practices for effective ministry, and an accurate understanding of church history.

In the embattled landscape for the soul of ministry development and education, SEU's Barnett College leans in with a lens of redemption. This lens seeks to deploy students into ministry contexts who are well equipped and who are focused on seeing the redemptive and final work of Jesus Christ at work in their ministry assignment.

Choose 6 courses from the list below (18 Credit Hours):

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Other Programs

Bachelor of Science, Ministerial Leadership: Christian Ministry Plan

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry(with Lab) - Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for

Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Year Three

FALL SEMESTER - 15 CREDIT HOURS

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

Divine Design: Major Specific - 3 Credit Hours

Year Four

FALL SEMESTER - 15 CREDIT HOURS

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

Biblical and Theological Studies - Select One:

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre,

interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

Main Campus (Lakeland, FL)

Associate of Ministerial Leadership

Associate of Ministerial Leadership Two-Year Course Plan

The main campus Associate of Ministerial Leadership degree program prepares students for ministry leadership—in local churches, faith-based

non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Construct and present expository sermons in ministry contexts
4. Integrate their biblical interpretation, theological, leadership, and Christian ministry competencies in ministry contexts

Dual-enrolled students are limited to completing their Divine Design requirement through general elective courses only.

Students who complete the degree program satisfies the educational requirements for Assemblies of God ministerial credentials. All courses are transferrable into the Bachelor of Science in Ministerial Leadership program.

Total Program Hours - 60 Credit Hours

** It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 25 Credit Hours

SEU Foundations

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

Habits of Inquiry

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry(4 Credit Hours) Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Or

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Or

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

Or

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry(3 Credit Hours) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry(3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PRAC 1003 - EXPERIENTIAL LEARNING PRACTICUM

The experiential learning practicum is designed to stress application of learning and reflection in the community, ministry, and workplace environments. Students will be supervised by a practicum supervisor on-site as they serve in community organizations, student leadership, ministry roles, campus employment, internships, or cooperative education experiences. The purpose of the experiential learning practicum course is to provide a critical reflection space for students to document their ministry experience, reflect on their learning and engagement with relevant texts, and receive evaluation that can be used for future growth. The 3-credit practicum course equates to roughly 120 contact hours of applied learning.

Students may take up to a combined total of 24 credit hours of PRAC-1001, 1002, 1003, and 1004 practicum credits.

Prerequisites & Notes

Prerequisite: None

Repeatable: Course can be repeated 8 times for a total of 24 credit hours

Credits: 3

Divine Design - 11 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Multidisciplinary Studies

The Bachelor of Arts in Multidisciplinary Studies degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and many other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and experiential ministry learning. The remainder of the degree program allows students to complete another major, multiple minors, multiple certificates, or any combination of courses.

Bachelor of Arts, Multidisciplinary Studies (Four-Year Plan)

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 36 Credit Hours**Biblical & Theological Studies - 27 Credit Hours****BIOT 1433 - THE OLD TESTAMENT INTERPRETATION**

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Choose Four(4) of the Following - 12 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Divine Design(Major Specific Experiential Learning)

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design- 44 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Ministerial Leadership: Biblical Studies

Bachelor of Science, Ministerial Leadership: Biblical Studies Four-Year Plan

The Bachelor of Science in Ministry: Biblical Studies degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and experiential ministry learning. The final 18 hours of the major core focuses on the advanced study, interpretation, and application of the Bible in ministry contexts.

Total Program Hours - 120 Credit Hours

** It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Biblical & Theological Studies - 18 Credit Hours****BIOT 1433 - THE OLD TESTAMENT INTERPRETATION**

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Biblical Studies Track - 18 Credit Hours

18 credit hours needed- Choose six from the following(not already taken): Note: It is recommended that students take Hebrew and/or Greek as a part of their degree program.

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop

strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Ministerial Leadership: Christian Ministry

Bachelor of Science, Ministerial Leadership: Christian Ministry Plan

Program Description

The Bachelor of Science in Ministerial Leadership – Christian Ministry track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on key pastoral competencies: sharing the Christian faith, preaching, church leadership, spiritual formation, and pastoral care. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Construct and present expository sermons in ministry contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Students who complete the degree program satisfy the educational requirements for Assemblies of God ministerial credentials.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work

together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to

literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Christian Ministry Track - 18 Credit Hours

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a

contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning)

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Ministerial Leadership: Family Ministries

Bachelor of Science, Ministerial Leadership: Family Ministries prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and experiential ministry learning. The final 18 hours of the major core focuses on the comprehensive study of effective family ministry ideas and practices that can be applied in a variety of ministry contexts.

Bachelor of Science, Ministerial Leadership: Family Ministries Four-Year Plan

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Biblical & Theological Studies - 18 Credit Hours****BIOT 1433 - THE OLD TESTAMENT INTERPRETATION**

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Children, Youth, & Family Ministries Track

PMIN 3273 - FAMILY MINISTRY

This course is a study of strategies for implementing a multigenerational approach in local church ministry. It focuses on connecting the generations through worship services that minister to all ages. Strategies that engage older generations in mentoring those younger and strategies to integrate families with infants and preschools into an intergenerational setting will also be investigated.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3063 - CHILDRENS/ YOUTH MINISTRY DISCIPLES

This course focuses on the theological principles and practical ministry strategies for evangelizing and discipling children and adolescence. Emphasis will be placed on various discipleship tools and methods that help children and adolescence develop an intimate relationship with Jesus.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3293 - CHILDREN'S/YOUTH MINISTRY STRATEGIE

This course is an overview of the foundations for children's and youth ministries. An emphasis is placed on developing, administering, and evaluating the various aspects of leading a powerful, spirit-led ministry for birth through adolescence.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4153 - SPIRITUAL FORMATION OF FAMILIES

This course examines the spiritual needs of the family and the role of the church as it relates to spiritual development. Particular attention will be given to the interdependency of physical, social, intellectual and emotional development with moral development and the stages of faith.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity,

spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Divine Design(Major Specific Experiential Learning)

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Ministry: Pastoral Ministry

The Bachelor of Science in Ministry: Pastoral Ministry degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and experiential ministry learning. The final 18 hours of the major core focuses on the comprehensive study of effective pastoral ministry ideas and practices that can be applied in a variety of ministry contexts.

Bachelor of Science, Ministry: Pastoral Ministry (4-Year Plan)

Foundational Core - 58 Credit Hours

Intellectual and Practical Skills - 15 Credit Hours

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Mathematics: Select Two(2) of the Following - 6 Credit Hours

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1413 - PRECALCULUS

This course covers algebraic relations and functions, systems of equations, rational functions, polynomials, exponential functions and logarithms, trigonometric functions and their inverses, graphs, and identities. A placement exam is given at the beginning of each course. Students must demonstrate proficiency to remain in this course. A math score on the ACT of 21 or the SAT of 500 is required. Cost for items and materials provided by our Bookstore are charged as a fee attached to the course.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Engaging Human Culture and the Natural World - 19 Credit Hours

Historical Perspective - 3 Credit Hours

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

Humanities - 3 Credit Hours

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1103 - HISTORY OF JAZZ

This course examines the most significant styles of American music in chronological order beginning with its roots and continuing through the present day.

Prerequisites & Notes

NONE

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ARTV 1503 - SURVEY OF WESTERN ART

This course introduces students to the fundamental elements of two- and three-dimensional Western art through reading, observation, and discussion. Students will learn the basic vocabulary related to the visual arts, learn to distinguish various genres and periods of art, and recognize and appreciate masterpieces of Western art. The role of art in history and society will be discussed and students will develop an enhanced appreciation for the value of art in their own lives.

Prerequisites & Notes

None

Credits: 3

MUSC 1223 - HIP HOP AND AMERICAN CULTURE

This course is an introduction to the popular music and cultural artform known as hip hop. Students in the course will examine hip hop's development, history, communication style, dance form, music, artistic process and its effect on American culture.

Prerequisites & Notes

NULL

Credits: 3

Literature - 3 Credit Hours

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

ENGL 2513 - BRITISH LITERATURE I

This course introduces students to British literature from Old English through the Neo-classical period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 4343 - NATIVE AMERICAN LIT & CULTURE

A survey of analysis of essays, poetry, fiction and basic history of Native Americans, with an emphasis on understanding different aspects of Native American thought and expression, especially in the changing contexts of their histories and tribal identities.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3633 - AMERICAN LITERATURE

A survey of prose and poetry with attention given to socio-political backgrounds and growth of American thought as expressed through selected authors from the colonial period to 1945.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3933 - AFRICAN AMERICAN LITERATURE

A survey of significant African-American writing from 1746 to the present, with attention given to social, political, and cultural contexts.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2523 - BRITISH LITERATURE II

This course introduces students to British literature from Romanticism through the Contemporary period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

Behavioral Science - 3 Credits

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to

everyday living.

Prerequisites & Notes

NULL

Credits: 3

Social Science - 3 Credit Hours

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

POLS 4133 - CORNERSTONE IN POLITICAL SCIENCE

The purpose of this course is to connect students with major competencies in the field of political science. The competencies covered in this course are economics and financial literacy related to politics, governing versus

campaigning, decorum of communication in politics, the art of compromise, and the sanctity of the right to vote. As a capstone course, students will demonstrate mastery of the competencies through coursework and experiential learning.

Prerequisites & Notes

NULL

Credits: 3

POLS 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following Plus a Lab(4 Credits)

NSCI 2433 - ANIMAL DIVERSITY

This course introduces foundational principles of zoology, including taxonomy, animal biology, architecture and ecology. Emphasis will be placed on the survey of invertebrate and vertebrate biodiversity.

Prerequisites & Notes

Corequisite: NSCI 243L

Credits: 3

NSCI 3333 - ECOLOGY

This course introduces foundational principles of ecology, the study of relationships between organisms and the surrounding environment. This course will provide students with a broader understanding of how the physical and chemical characteristics of the environment influence the distribution and abundance of various species of organisms in an ecosystem.

Prerequisites & Notes

Corequisite: NSCI 333L

Credits: 3

NSCI 2233 - ASTRONOMY

This is an introductory course in the astronomy of the solar system, astrophysics and constellations. This course level assumes no physics background.

Prerequisites & Notes

NULL

Credits: 3

BIOL 1233 - BIOLOGY I

This course is an introduction to the structure and function of biological molecules, cell structure and function, and the cell cycle.

Prerequisites & Notes

Corequisite: BIOL 123L

Credits: 3

NSCI 1433 - BOTANY

This course is an introductory course in plant anatomy, physiology and taxonomy. The history of mankind's medicinal use of plants and current updates will be covered.

Prerequisites & Notes

Corequisite: NSCI 143L

Credits: 3

CHEM 1213 - INTRO TO CHEMISTRY

This course is an introduction to basic concepts of general chemistry, introduction of periodic properties of elements and compounds, basic atomic-molecular structure, and properties of substances and reactions related to gas laws.

Prerequisites & Notes

Corequisite: CHEM 121L

Credits: 3

NSCI 1113 - INTRO TO PHYSICS

This is an introductory course designed for the student wishing to pursue a career in science and who lacks a high school background in this area. This is a mathematical investigation of physics and explores the basics of mechanics, motion, sound, electricity and magnetism. This course also meets general education requirements for non-science majors.

Prerequisites & Notes

NULL

Credits: 3

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

Spiritual Formation - 15 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

Personal and Social Responsibility - 9 Credit Hours

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

Ministry Major Core - 44 Credit Hours

Biblical and Theological Studies - 9 Credit Hours

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) Course Not already Taken - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) Course Not already Taken - 3 Credit Hours

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the

theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministry Studies - 11 Credit Hours

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4323 - MINISTRY LEADERSHIP & ADMINISTRATION

A study of the various areas of pastoral responsibilities including board administrations and organizations, committee organization, leadership training, budgeting, financing, planning, auxiliary organizations and their relationship to total church program. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Experiential Ministry Learning - 6 Credit Hours

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTONE INTEGRATION SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Pastoral Ministry Studies - 18 Credit Hours

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3273 - FAMILY MINISTRY

This course is a study of strategies for implementing a multigenerational approach in local church ministry. It focuses on connecting the generations through worship services that minister to all ages. Strategies that engage older generations in mentoring those younger and strategies to integrate families with infants and preschools into an intergenerational setting will also be investigated.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) Course Not already Taken - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Minor or General Electives - 18 Credit Hours

Total Program Hours - 120 Credit Hours

Bachelor of Science, Ministry: Pastoral Ministry (4-Year Plan)

Year One

Fall Semester

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Behavioral Science Elective - Select One

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Mathematics Elective - Select One

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1413 - PRECALCULUS

This course covers algebraic relations and functions, systems of equations, rational functions, polynomials, exponential functions and logarithms, trigonometric functions and their inverses, graphs, and identities. A placement exam is given at the beginning of each course. Students must demonstrate proficiency to remain in this course. A math score on the ACT of 21 or the SAT of 500 is required. Cost for items and materials provided by our Bookstore are charged as a fee attached to the course.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

Spring Semester

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Natural Science w/Lab - Select One

BIOL 1233 - BIOLOGY I

This course is an introduction to the structure and function of biological molecules, cell structure and function, and the cell cycle.

Prerequisites & Notes

Corequisite: BIOL 123L

Credits: 3

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

CHEM 1213 - INTRO TO CHEMISTRY

This course is an introduction to basic concepts of general chemistry, introduction of periodic properties of elements and compounds, basic atomic-molecular structure, and properties of substances and reactions related to gas laws.

Prerequisites & Notes

Corequisite: CHEM 121L

Credits: 3

NSCI 1113 - INTRO TO PHYSICS

This is an introductory course designed for the student wishing to pursue a career in science and who lacks a high school background in this area. This is a mathematical investigation of physics and explores the basics of mechanics, motion, sound, electricity and magnetism. This course also meets general education requirements for non-science majors.

Prerequisites & Notes

NULL

Credits: 3

NSCI 1433 - BOTANY

This course is an introductory course in plant anatomy, physiology and taxonomy. The history of mankind's medicinal use of plants and current updates will be covered.

Prerequisites & Notes

Corequisite: NSCI 143L

Credits: 3

NSCI 2233 - ASTRONOMY

This is an introductory course in the astronomy of the solar system, astrophysics and constellations. This course level assumes no physics background.

Prerequisites & Notes

NULL

Credits: 3

NSCI 2433 - ANIMAL DIVERSITY

This course introduces foundational principles of zoology, including taxonomy, animal biology, architecture and ecology. Emphasis will be placed on the survey of invertebrate and vertebrate biodiversity.

Prerequisites & Notes

Corequisite: NSCI 243L

Credits: 3

NSCI 3333 - ECOLOGY

This course introduces foundational principles of ecology, the study of relationships between organisms and the surrounding environment. This course will provide students with a broader understanding of how the physical and chemical characteristics of the environment influence the distribution and abundance of various species of organisms in an ecosystem.

Prerequisites & Notes

Corequisite: NSCI 333L

Credits: 3

Mathematics Elective - Select One

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1413 - PRECALCULUS

This course covers algebraic relations and functions, systems of equations, rational functions, polynomials, exponential functions and logarithms, trigonometric functions and their inverses, graphs, and identities. A placement exam is given at the beginning of each course. Students must demonstrate proficiency to remain in this course. A math score on the ACT of 21 or the SAT of 500 is required. Cost for items and materials provided by our Bookstore are charged as a fee attached to the course.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

Year Two

Fall Semester

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Humanities Elective - Select One

ARTV 1503 - SURVEY OF WESTERN ART

This course introduces students to the fundamental elements of two- and three-dimensional Western art through reading, observation, and discussion. Students will learn the basic vocabulary related to the visual arts, learn to distinguish various genres and periods of art, and recognize and appreciate masterpieces of Western art. The role of art in history and society will be discussed and students will develop an enhanced appreciation for the value of art in their

own lives.

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1103 - HISTORY OF JAZZ

This course examines the most significant styles of American music in chronological order beginning with its roots and continuing through the present day.

Prerequisites & Notes

NONE

Credits: 3

MUSC 1223 - HIP HOP AND AMERICAN CULTURE

This course is an introduction to the popular music and cultural artform known as hip hop. Students in the course will examine hip hop's development, history, communication style, dance form, music, artistic process and its effect on

American culture.

Prerequisites & Notes

NULL

Credits: 3

History Elective - Select One

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

General Elective - Select One

General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken

Spring Semester

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

HITH 3133 - SURVEY OF CHURCH HISTORY

An overview of ancient, medieval, and modern Christian history. Items to be addressed include the background, establishment, and development of the Christian church and its role and influence in world history; the foundation and development of theological concepts and their impact on the Church; the Protestant Reformation; theological trends and ecclesiastical developments in European and American Christianity; the continual interrelationship between the church and society; and the rationale, significance, and consequences of major revival/renewal movements throughout the history of the Church. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Literature Elective - Select One

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

ENGL 2513 - BRITISH LITERATURE I

This course introduces students to British literature from Old English through the Neo-classical period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2523 - BRITISH LITERATURE II

This course introduces students to British literature from Romanticism through the Contemporary period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3633 - AMERICAN LITERATURE

A survey of prose and poetry with attention given to socio-political backgrounds and growth of American thought as expressed through selected authors from the colonial period to 1945.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3933 - AFRICAN AMERICAN LITERATURE

A survey of significant African-American writing from 1746 to the present, with attention given to social, political, and cultural contexts.

Prerequisites & Notes

NULL

Credits: 3

ENGL 4343 - NATIVE AMERICAN LIT & CULTURE

A survey of analysis of essays, poetry, fiction and basic history of Native Americans, with an emphasis on understanding different aspects of Native American thought and expression, especially in the changing contexts of their histories and tribal identities.

Prerequisites & Notes

NULL

Credits: 3

Social Science Elective - Select One

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

POLS 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

POLS 4133 - CORNERSTONE IN POLITICAL SCIENCE

The purpose of this course is to connect students with major competencies in the field of political science. The competencies covered in this course are economics and financial literacy related to politics, governing versus campaigning, decorum of communication in politics, the art of compromise, and the sanctity of the right to vote. As a capstone course, students will demonstrate mastery of the competencies through coursework and experiential learning.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Year Three

Fall Semester

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

General Elective - Select One

General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken

Old Testament Elective - Select One

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

New Testament Elective - Select One

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Summer Semester**PMIN 4063 - MINISTERIAL INTERNSHIP**

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

Year Four**Fall Semester****PMIN 3273 - FAMILY MINISTRY**

This course is a study of strategies for implementing a multigenerational approach in local church ministry. It focuses on connecting the generations through worship services that minister to all ages. Strategies that engage older generations in mentoring those younger and strategies to integrate families with infants and preschools into an intergenerational setting will also be investigated.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4323 - MINISTRY LEADERSHIP & ADMINISTRATIO

A study of the various areas of pastoral responsibilities including board administrations and organizations, committee organization, leadership training, budgeting, financing, planning, auxiliary organizations and their relationship to total church program. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Old Testament Elective - Select One**BIOT 3343 - TORAH STUDIES**

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

General Elective - Select Two

General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken

Spring Semester

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

New Testament Elective - Select One

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Credits: 3

MISS 2533 - MISSIONARY LIFE AND WORK

A study of the missionary motive, objective, call, qualifications, and preparation of missionary candidates; spiritual and cultural life of the missionary on the field; the administration of missions at home and abroad; and methods used in planting indigenous churches. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

MISS 3303 - WORLD VIEWS AND MISSION STRATEGY

An investigation of humanity and various worldviews from a missionary perspective. Various dimensions of people groups and sub-systems are examined as they relate to the world as a whole and as a tool for developing effective missions strategy. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

MISS 3333 - THEOLOGY OF MISSIONS

An introduction to the theology of the Christian Mission in the Old Testament; and a study of the responsibility of the individual, the pastor and the church in its implementation. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

MISS 3733 - WORLD RELIGIONS

This course is an introduction to the historical development, major teachings, and current practices of selected world religions. In addition, Hindu, Buddhist, and Islamic views of Jesus will be analyzed and contrasted with those of Christianity. Special attention is given to identifying opportunities to authentically communicate Christ while

respecting the history, worldview, and cultural values of others.

Prerequisites & Notes

NULL

Credits: 3

MISS 4933 - INTERCULTURAL COMMUNICATION

The principles and processes of communicating from one culture to another with a focus on the relevance of incarnation as the model for the communication of the Gospel. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Online

Minor, Biblical Studies (Online)

Total Program Hours - 18 Credit Hours

Minor Core

Choose 6 courses from the list below (18 Credit Hours):

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and

Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Associate of Ministerial Leadership

Associate of Ministerial Leadership Two-Year Course Plan

The online Associate of Ministerial Leadership degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum.

Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Construct and present expository sermons in ministry contexts
4. Integrate their biblical interpretation, theological, leadership, and Christian ministry competencies in ministry contexts

Students who complete the degree program satisfy the educational requirements for Assemblies of God ministerial credentials. All courses are transferrable into the Bachelor of Science in Ministerial Leadership program.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Dual-enrolled students are limited to completing their Divine Design requirement through general elective courses only.

Total Program Hours - 60 Credit Hours

** It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 25 Credit Hours

SEU Foundations

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

Habits of Inquiry

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry(4 Credit Hours) Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Or

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Or

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

Or

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry(3 Credit Hours) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry(3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

Divine Design(Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Divine Design - 11 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Certificate, Orange Family Ministry

The Orange Certificate provides academic credit for family ministry leaders who have attended the Orange Conference and seek a deeper understanding of the Orange strategy by earning a certificate issued by Southeastern University. The certificate is comprised of three, eight-week online courses for undergraduate credit. Students who complete this certificate will be able to:

1. Develop a leadership mindset that guides staffing, training, resourcing, and strategic thinking
2. Articulate a strategic approach that aligns departments, synchronizes content, and values volunteers
3. Values parents and mentors as critical influencers for programming, communication, and strategic approaches

Total - 9 Credit Hours

Courses - 9 Credit Hours

PMIN 1103 - LEADERSHIP OF FAMILY MINISTRY

This course prepares students to provide effective leadership in church-based family ministry programs for ages birth through high school. Students will develop strategic thinking and patterns of resourcing and staffing in family ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2203 - FAMILY MINISTRY STRATEGY

This course introduces students to a family ministry model that considers alignment, age characteristics, parents, small groups, and volunteerism. Students learn to apply a family ministry strategy that begins with age-graded leaders working together.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3303 - ELEVATING KEY FAMILY INFLUENCES

In this course students explore patterns for empowering and supporting the family as the primary influence in the life of a child. Strategies for cueing parents with timely and synchronized content will be addressed.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Science, Ministerial Leadership: Christian Ministry(Main Campus) 4 Year Plan

Year One

Fall Semester

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Select One(1) of the Following - 3 Credit Hours

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Select One(1) of the Following - 3 Credit Hours

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Year Two

Fall Semester

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Select One(1) of the Following - 3 Credit Hours

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Spring Semester

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Select One(1) of the Following - 3 Credit Hours

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

Year Three

Fall Semester

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Spring Semester

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 3213 - STRATEGIC MINISTRY

This course is a study of approaches to strategic planning and the execution of strategic plans in ministry contexts. The course also examines the role of designing, communicating, creating, and evaluating systems necessary for the fruition of strategic plans.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Select One(1) of the Following - 3 Credit Hours

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Year Four

Fall Semester

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This

course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Bachelor of Science, Ministerial Leadership: Humanitarian Ministry (Online)

Bachelor of Science, Ministerial Leadership: Humanitarian Ministry Four Year Plan

The online Bachelor of Science in Ministerial Leadership – Humanitarian Ministry track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focus on key competencies for humanitarian/compassion ministry leadership in domestic contexts: a practical theology of compassion ministry, understanding populations who are being impacted by disaster/poverty, effectively utilizing professional mental health

resources in the context of crisis, and advocating for the poor/suffering through effective interactions with governmental decision-makers. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Construct strategic plans for humanitarian/compassion work in various contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions,

estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Choose One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Humanitarian Ministry Track - 18 Credit Hours**THEO 3013 - THEOLOGY OF COMPASSION**

Compassion for others, especially for those in need, is a fundamental tenet of biblical theology. Compassion for humankind was the motivation for Christ's mission to earth, as He mentions at the inauguration of his ministry in Luke 4: "The Spirit of the Lord is on me, because he has anointed me to proclaim good news to the poor. He has sent me to proclaim freedom for the prisoners and recovery of sight for the blind, to set the oppressed free, to proclaim the year of the Lord's favor." This course reviews the biblical foundation for compassion and traces the Church's theological interpretation and practical application of compassion throughout history.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3043 - THE POOR AND THE SUFFERING

Students review the existence of and consideration for those who are poor and suffering in both domestic and international settings. Multiple views are presented, including political, social, geographical, climatic, biblical, and religious. Various solutions are examined, including historical and contemporary, with an emphasis on programs' motivation and effectiveness. Approaching strategies from a community-based approach is a special focus of this course. This course is cross-referenced with HUSV 3043.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3053 - DOMESTIC DISASTER SERVICES

Domestic Disaster Services presents the foundational principles and skills necessary to plan and conduct services for the four phases of disasters: Mitigation, Preparation, Response, and Recovery. Emphasis is upon coordination of

services between governmental, non-governmental, and faith-based organizations. This course is cross-referenced with HUSV 3053.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4073 - REFUGEE AND MIGRANT POPULATIONS

Populations of refugees and migrating groups undergo deep physiological, psychological, and economic challenges. Whether man-made or natural causes behind the disaster, those who experience these traumas are affected to varying degrees based on geography, language, age, gender, support structures, and socioeconomic dynamics. Students review the forces at work, current research, and individual and community-based approaches to serve these groups with compassion and effectiveness. This course is cross-referenced with HUSV 4073.

Prerequisites

&

Notes

NULL

Credits: 3

PMIN 4083 - CRISIS PSYCHOLOGICAL MANAGEMENT

The first few days through which individuals experience crisis are critical to their physical and psychological survivability. Support personnel must understand the foundational aspects of acute distress in both those experiencing crisis and those providing relief and support. Students are trained to identify stress symptoms and emotional suffering in order to assist as much as appropriate and then to direct individuals to qualified support specialists. This course is not intended for professional or trained counselors, but for those who are on site immediately following natural or human caused disasters. This course is cross-referenced with PSYC 4123.

Prerequisites

&

Notes

NULL

Credits: 3

PMIN 4093 - PUBLIC POLICY & ADVOCACY

Governments use public policy to address social problems such as housing and welfare, to counter threats such as crime and illegal drugs, and to pursue other objectives, including revenue generation. A nation's regulatory, distributive, and redistributive policies have direct impact to prevent, mitigate the impact, and to recover from internal crises. This course prepares students to interact with and influence decision makers at all governmental levels, and engaging agency administration at every level. Special focus is on advocacy for those people who often have a weaker voice to the decision process. This course is cross-referenced with HUSV 4093.

Prerequisites

&

Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Associate of Ministerial Leadership - Two-Year Course Plan

Program Description

The online Associate of Ministerial Leadership degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Construct and present expository sermons in ministry contexts
4. Integrate their biblical interpretation, theological, leadership, and Christian ministry competencies in ministry contexts

Students who complete the degree program satisfy the educational requirements for Assemblies of God ministerial credentials. All courses are transferrable into the Bachelor of Science in Ministerial Leadership program.

Year One

First Semester - 16 Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and

theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Select one of the following Math electives:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Select one of the following Psychology electives:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Second Semester - 15 Hours

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Select one of the following Humanities electives:

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

Year Two

First Semester - 15 Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Second Semester - 15 Hours

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Total Program Hours - 61 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Bachelor of Science, Ministerial Leadership: Humanitarian Ministry Four Year Plan

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry (3 Credit Hours) Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry (3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry (4 Credit Hours) Select One:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry (3 Credit Hours) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry (3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

THEO 3013 - THEOLOGY OF COMPASSION

Compassion for others, especially for those in need, is a fundamental tenet of biblical theology. Compassion for humankind was the motivation for Christ's mission to earth, as He mentions at the inauguration of his ministry in Luke 4: "The Spirit of the Lord is on me, because he has anointed me to proclaim good news to the poor. He has sent me to proclaim freedom for the prisoners and recovery of sight for the blind, to set the oppressed free, to proclaim the year of the Lord's favor." This course reviews the biblical foundation for compassion and traces the Church's theological interpretation and practical application of compassion throughout history.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives - 3 Credit Hours

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

HRDV 3043 - HOLISTIC DEVELOPMENT

This course equips students with models that foster dignity rather than dependency and empowerment rather than entitlement. Students will learn how to partner with local churches and other stakeholders, assess community assets and needs, and formulate responsible approaches to community development. This introductory course on holistic development carefully builds a biblical view of poverty and a theology of responsible aid in the context of various real-world development topics. Students will also expand and deepen their understanding through service learning opportunities.

Prerequisites & Notes

None

Credits: 3

HRDV 4043 - CARE & WELLNESS IN HUMANITARIAN CONTEXT

This course will provide students with the knowledge and skills to function from a state of integrated health in a humanitarian context. Emphasis will include ownership of personal wellness, collaboration for community wellness, and application for the wellness of those served. Topics include psychological first aid, evaluation, and interventions for physiological health, biblical frameworks for self-care and wellness, compassion fatigue, and interventions for personal and community health.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

HRDV 3013 - REFUGEE & MIGRANT POPULATIONS

Examines the history, dynamics and impact of human migration with special attention given to effective strategies for aiding refugee and migrant populations. Topics include challenges these populations face and effective relief and development strategies.

Prerequisites & Notes

None

Credits: 3

HRDV 3033 - DISASTER SERVICES

This course presents the foundational principles and skills necessary to plan and conduct services for the four phases of disasters: Preparation, Mitigation, Response, and Recovery, in both domestic and international settings. Emphasis includes the coordination of services among governmental, non-governmental, field partners, and religious organizations.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours**PMIN 4063 - MINISTERIAL INTERNSHIP**

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

(required for online students)

Divine Design Elective - 3 Credit Hours

Year Four

FALL SEMESTER - 15 CREDIT HOURS

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 9 Credit Hours

Biblical & Theological Studies (3 Credit Hours) Select One:

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 14 CREDIT HOURS

HRDV 4013 - AFFECTING CHANGE THROUGH ADVOCACY

Affecting Change through Advocacy offers students a biblical foundation and holistic approaches to assess and apply methods of advocacy, aligned with both the beneficiary and the intended outcome. Topics include responsible advocacy, spheres of influence, stages of effective action, all within a kingdom-centered framework of ethics.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective - 8 Credit Hours

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Biblical Elective

Select One (1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Minor, Worship Ministries

Total Hours - 18 Credit Hours

Required Courses - 6 Credit Hours:

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1161 - WORSHIP AURAL THEORY II

- Worship Aural Theory II - This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.
 - Prerequisite: MUSC 1151 Worship Aural Theory I, MUSC 1112 Worship Music Theory I
 - Corequisite: MUSC 1212 Worship Music Theory II

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1212 - WORSHIP MUSIC THEORY II

A study of fundamental musical concepts, including: chord study and analysis, modulation, chord progressions and patterns, basic voice leading, knowledge of minor scales and chord progressions, and improvisation of accompaniment from chord symbols. This course includes a basic overview of improvisation with exposure to some standard chord scales used in improvising solos. Knowledge of rhythms and their performance will be reinforced and augmented. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

Choose 12 hours from the following:

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

*MUAI 1121 Worship Guitar Applied Lesson can each be repeated for credit up to 5 times.

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

*MUAK 1131 Worship Piano Applied Lesson can each be repeated for credit up to 5 times.

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

*MUAV 1141 Worship Voice Applied Lesson can each be repeated for credit up to 5 times.

Bachelor of Science, Ministerial Leadership: Christian Ministry (Online)

Bachelor of Science, Ministerial Leadership: Christian Ministry Plan

Program Description

The online Bachelor of Science in Ministerial Leadership – Christian Ministry track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on key pastoral competencies: sharing the Christian faith, preaching, church leadership, spiritual formation, and pastoral care. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Construct and present expository sermons in ministry contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Students who complete the degree program satisfy the educational requirements for Assemblies of God ministerial credentials.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Christian Ministry Track - 18 Credit Hours

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a

contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credits

PMIN 2023 - RESPONSIBLE MESSAGING FAMILY MINIST

Develop communication, curriculum, teaching, and preaching approaches that are age appropriate, relevant, and life changing.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Divine Design

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational

Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

Credits: 3

Bachelor of Science, Ministerial Leadership: Biblical Studies (Online)

Bachelor of Science, Ministerial Leadership: Biblical Studies Four-Year Plan

The online Bachelor of Science in Ministerial Leadership – Biblical Studies track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on the advanced study, interpretation, and application of the Bible in ministry contexts. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts at an advanced level
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work

together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Biblical & Theological Studies - 18 Credit Hours****BIOT 1433 - THE OLD TESTAMENT INTERPRETATION**

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Biblical Studies Track - 18 Credit Hours

18 credit hours needed- Choose six from the following(not already taken): Note: It is recommended that students take Hebrew and/or Greek as a part of their degree program.

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or

emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours**PMIN 2032 - STUDENT MINISTRY PRACTICUM I**

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Bachelor of Science, Ministerial Leadership: Biblical Studies (Online) Four Year Plan

Program Description

The online Bachelor of Science in Ministerial Leadership – Biblical Studies track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on the advanced study, interpretation, and application of the Bible in ministry contexts. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts at an advanced level
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Year One

Fall Semester - 16 Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester - 15 Hours

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Humanities Elective (select one):

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Year Two

Fall Semester - 16 Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural Science Elective (select one):

NSCI 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Spring Semester - 15 Hours

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

*Required for Nevada students.

Social Science Elective (select one):

SSCI 2033 - HUMANS IN SOCIETY

This course introduces the student to the multidisciplinary field of social science by exploring the social theories, phenomena, institutions, and forces that shape society. Emphasis is placed on exploring the existence and perpetuation of social problems as a means of introducing the social sciences and applying critical thinking skills to these diverse issues.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

Year Three

Fall Semester - 14 Hours

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Spring Semester - 14 Hours

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3213 - STRATEGIC MINISTRY

This course is a study of approaches to strategic planning and the execution of strategic plans in ministry contexts. The course also examines the role of designing, communicating, creating, and evaluating systems necessary for the fruition of strategic plans.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Year Four

Fall Semester - 15 Hours

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Spring Semester - 15 Hours

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Total Program Hours - 120 Hours

Bachelor of Science, Ministerial Leadership: Pastoral Care & Counseling (Online)

Bachelor of Science, Ministerial Leadership: Pastoral Care & Counseling Four-Year Plan

The online Bachelor of Science in Ministerial Leadership – Pastoral Care & Counseling track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core is an interdisciplinary study in psychology, counseling, and pastoral care. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Engage in helping pastoral relationships in ministry contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours**BIBL 1113 - THE STORY OF SCRIPTURE**

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Choose One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Pastoral Care & Counseling - 18 Credit Hours

PSYC 2133 - THEORIES OF PERSONALITY

This course is an introduction to the study of personality formation. Major personality themes are critically examined. Students are introduced to the application of these theories in counseling and the treatment of mental illness.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

PSYC 3533 - INTRODUCTION TO COUNSELING

This course is a study of various theoretical approaches to the practice of counseling and psychotherapy with normal and disturbed clients. Focus is on the psychoanalytic, cognitive, behavioral, and phenomenological approaches.

Prerequisites & Notes

PSYC 2133

Credits: 3

PSYC 3553 - INTRO TO COUNSELING CHILDREN & YOUTH

In this course, students will explore issues, theories, and applications related to understand and helping children and adolescents with social or emotional problems. Students will learn to assess behavior and incorporate ethically and legally appropriate strategies to meet the needs of counseling children and adolescents.

Prerequisites & Notes

PSYC 3533

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4233 - PASTORAL COUNSELING II

This course is a study of the roles and responsibilities of the pastoral counselor. It includes consideration of case studies, counseling resources, and clinical situations with special attention given to premarital, marital, and family counseling. It requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Bachelor of Science, Ministerial Leadership: Pastoral Care & Counseling (Online) Four-Year Plan

Program Description

The online Bachelor of Science in Ministerial Leadership – Pastoral Care & Counseling track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core is an interdisciplinary study in psychology, counseling, and pastoral care. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Engage in helping pastoral relationships in ministry contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Year One

Fall Semester - 16 Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to

everyday living.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester - 15 Hours

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Humanities Elective (select one):

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Year Two

Fall Semester - 16 Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural Science Elective (select one):

NSCI 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Spring Semester - 15 Hours

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

History Elective (select one):

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

*Required for Nevada students.

Social Science Elective (select one):

SSCI 2033 - HUMANS IN SOCIETY

This course introduces the student to the multidisciplinary field of social science by exploring the social theories, phenomena, institutions, and forces that shape society. Emphasis is placed on exploring the existence and perpetuation of social problems as a means of introducing the social sciences and applying critical thinking skills to these diverse issues.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

Year Three

Fall Semester - 14 Hours

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

PSYC 2133 - THEORIES OF PERSONALITY

This course is an introduction to the study of personality formation. Major personality themes are critically examined. Students are introduced to the application of these theories in counseling and the treatment of mental illness.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

PSYC 3533 - INTRODUCTION TO COUNSELING

This course is a study of various theoretical approaches to the practice of counseling and psychotherapy with normal and disturbed clients. Focus is on the psychoanalytic, cognitive, behavioral, and phenomenological approaches.

Prerequisites & Notes

PSYC 2133

Credits: 3

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Spring Semester - 14 Hours**THEO 3133 - THEOLOGY II**

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Old Testament Elective (select one):

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in

the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Year Four

Fall Semester - 15 Hours

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PSYC 3553 - INTRO TO COUNSELING CHILDREN & YOUTH

In this course, students will explore issues, theories, and applications related to understand and helping children and adolescents with social or emotional problems. Students will learn to assess behavior and incorporate ethically and legally appropriate strategies to meet the needs of counseling children and adolescents.

Prerequisites & Notes

PSYC 3533

Credits: 3

PMIN 4233 - PASTORAL COUNSELING II

This course is a study of the roles and responsibilities of the pastoral counselor. It includes consideration of case studies, counseling resources, and clinical situations with special attention given to premarital, marital, and family counseling. It requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

New Testament Elective (select one):

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester - 15 Hours

PMIN 3213 - STRATEGIC MINISTRY

This course is a study of approaches to strategic planning and the execution of strategic plans in ministry contexts. The course also examines the role of designing, communicating, creating, and evaluating systems necessary for the fruition of strategic plans.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and

human resource practices.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Total Program Hours - 120 Hours

Bachelor of Science, Ministerial Leadership: Family Ministries (Online)

Bachelor of Science, Ministerial Leadership: Family Ministries prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and experiential ministry learning. The final 18 hours of the major core focuses on the comprehensive study of effective family ministry ideas and practices that can be applied in a variety of ministry contexts.

Bachelor of Science, Ministerial Leadership: Family Ministries Four-Year Plan

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:
CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General

Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Children, Youth, & Family Ministries Track

PMIN 3273 - FAMILY MINISTRY

This course is a study of strategies for implementing a multigenerational approach in local church ministry. It focuses on connecting the generations through worship services that minister to all ages. Strategies that engage older

generations in mentoring those younger and strategies to integrate families with infants and preschools into an intergenerational setting will also be investigated.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3063 - CHILDRENS/ YOUTH MINISTRY DISCIPLES

This course focuses on the theological principles and practical ministry strategies for evangelizing and discipling children and adolescence. Emphasis will be placed on various discipleship tools and methods that help children and adolescence develop an intimate relationship with Jesus.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3293 - CHILDREN'S/YOUTH MINISTRY STRATEGIE

This course is an overview of the foundations for children's and youth ministries. An emphasis is placed on developing, administering, and evaluating the various aspects of leading a powerful, spirit-led ministry for birth through adolescence.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4153 - SPIRITUAL FORMATION OF FAMILIES

This course examines the spiritual needs of the family and the role of the church as it relates to spiritual development. Particular attention will be given to the interdependency of physical, social, intellectual and emotional development with moral development and the stages of faith.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Divine Design(Major Specific Experiential Learning)

TBD

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Science

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

Minor, Biblical Studies

Total Program Hours - 18 Credit Hours

Minor Core

Choose 6 courses from the list below(18 Credit Hours):

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Site-Based (Partnership)

Bachelor of Arts, Ministerial and Theological Studies (Scandinavian School of Theology)

Scandinavian School of Theology Only

The Bachelor of Arts in Ministerial & Theological Studies degree program--offered in partnership with the Scandinavian School of Theology--prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts— and advanced theological studies through an interdisciplinary curriculum composed of a variety of disciplines, including ministry leadership, biblical interpretation, biblical languages, historical theology, systematic theology, math, history, language arts, and psychological studies. Students select a minor in pastoral leadership, missions/evangelism, or worship ministry to complete their degree program.

Total Credits - 120 Hours

Foundational Core - 12 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Foundations - 3 Credit Hours**CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR**

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 6 Credit Hours**ENGL 1113 - COLLEGE COMPOSITION**

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Swedish Pre-University Core - 16 Credit Hours

BEHAVIORAL SCIENCES - 6 Credit Hours

MATHEMATICS - 6 Credit Hours

SCIENCE - 4 Credit Hours

STH General Education Core

EUROPEAN HISTORY - 3 Credit Hours

THEOLOGY/CULTURE/HISTORY - 6 Credit Hours

Major Core - 65 Credit Hours

STH Religious Core - 17 Credit Hours

INTRO TO THEOLOGY - 2 Credit Hours

OLD TESTAMENT - 3 Credit Hours

JESUS AND THE GOSPELS - 3 Credit Hours

PAUL AND HIS LETTERS - 3 Credit Hours

RESEARCH SEMINAL - 3 Credit Hours

READING(EXEGETICAL) COURSE - 3 Credit Hours

SENIOR PAPER - 3 Credit Hours

Divine Design - 18 Credit Hours

General Electives are any college-level courses that do not satisfy specific program requirements. To meet the Divine Design core requirements, students may declare a minor in Biblical Studies, Christian Ministry, Family Ministries, or Missional Leadership.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Science, Ministerial Leadership: Humanitarian Ministry (Site-based)

Bachelor of Science, Ministerial Leadership: Humanitarian Ministry Four Year Plan

The Bachelor of Science in Ministerial Leadership – Humanitarian Ministry track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focus on key competencies for humanitarian/compassion ministry leadership in domestic contexts: a practical theology of compassion ministry, understanding populations who are being impacted by disaster/poverty, effectively utilizing professional mental health resources in the context of crisis, and advocating for the poor/suffering through effective interactions with governmental decision-makers. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts

2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Construct strategic plans for humanitarian/compassion work in various contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and

theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first

century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Humanitarian Ministry Track - 18 Credit Hours

THEO 3013 - THEOLOGY OF COMPASSION

Compassion for others, especially for those in need, is a fundamental tenet of biblical theology. Compassion for humankind was the motivation for Christ's mission to earth, as He mentions at the inauguration of his ministry in Luke 4: "The Spirit of the Lord is on me, because he has anointed me to proclaim good news to the poor. He has sent me to proclaim freedom for the prisoners and recovery of sight for the blind, to set the oppressed free, to proclaim the year of the Lord's favor." This course reviews the biblical foundation for compassion and traces the Church's theological interpretation and practical application of compassion throughout history.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3043 - THE POOR AND THE SUFFERING

Students review the existence of and consideration for those who are poor and suffering in both domestic and international settings. Multiple views are presented, including political, social, geographical, climatic, biblical, and religious. Various solutions are examined, including historical and contemporary, with an emphasis on programs' motivation and effectiveness. Approaching strategies from a community-based approach is a special focus of this course. This course is cross-referenced with HUSV 3043.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3053 - DOMESTIC DISASTER SERVICES

Domestic Disaster Services presents the foundational principles and skills necessary to plan and conduct services for the four phases of disasters: Mitigation, Preparation, Response, and Recovery. Emphasis is upon coordination of services between governmental, non-governmental, and faith-based organizations. This course is cross-referenced with HUSV 3053.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4073 - REFUGEE AND MIGRANT POPULATIONS

Populations of refugees and migrating groups undergo deep physiological, psychological, and economic challenges. Whether man-made or natural causes behind the disaster, those who experience these traumas are affected to varying degrees based on geography, language, age, gender, support structures, and socioeconomic dynamics. Students review the forces at work, current research, and individual and community-based approaches to serve these groups with compassion and effectiveness. This course is cross-referenced with HUSV 4073.

Prerequisites	&	Notes
NULL		

Credits: 3

PMIN 4083 - CRISIS PSYCHOLOGICAL MANAGEMENT

The first few days through which individuals experience crisis are critical to their physical and psychological survivability. Support personnel must understand the foundational aspects of acute distress in both those experiencing crisis and those providing relief and support. Students are trained to identify stress symptoms and emotional suffering in order to assist as much as appropriate and then to direct individuals to qualified support specialists. This course is not intended for professional or trained counselors, but for those who are on site immediately following natural or human caused disasters. This course is cross-referenced with PSYC 4123.

Prerequisites	&	Notes
NULL		

Credits: 3

PMIN 4093 - PUBLIC POLICY & ADVOCACY

Governments use public policy to address social problems such as housing and welfare, to counter threats such as crime and illegal drugs, and to pursue other objectives, including revenue generation. A nation's regulatory, distributive, and redistributive policies have direct impact to prevent, mitigate the impact, and to recover from internal crises. This course prepares students to interact with and influence decision makers at all governmental levels, and engaging agency administration at every level. Special focus is on advocacy for those people who often have a weaker voice to the decision process. This course is cross-referenced with HUSV 4093.

Prerequisites	&	Notes
NULL		

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes
NULL

Credits: 3

(complete minimum of two times)

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) or HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Associate of Ministerial Leadership

Associate of Ministerial Leadership Two-Year Course Plan

The extension site Associate of Ministerial Leadership degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum.

Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Construct and present expository sermons in ministry contexts
4. Integrate their biblical interpretation, theological, leadership, and Christian ministry competencies in ministry contexts

Students who complete the degree program satisfies the educational requirements for Assemblies of God ministerial credentials. All courses are transferrable into the Bachelor of Science in Ministerial Leadership program.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Dual-enrolled students are limited to completing their Divine Design requirement through general elective courses only.

Total Program Hours - 60 Credit Hours

** It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 25 Credit Hours

SEU Foundations

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the

career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

Habits of Inquiry

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry(4 Credit Hours) Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Or

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Or

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

Or

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry(3 Credit Hours) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry(3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

This class is to be taken twice totaling 6 credit hours

Divine Design - 11 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

Associate of Worship Ministries (Site-based)

Program Description

The extension site Associate in Worship Ministries degree program prepares students for worship ministry leadership in local church ministries through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, worship ministry, and worship ministry practicum. Students who complete this degree will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Use basic music theory and aural theory in the context of worship ministry
4. Perform two instruments (guitar, piano, and/or voice) in the context of worship ministry
5. Integrate their biblical interpretation, theological, and worship competencies in ministry contexts
6. All courses are transferrable into the Bachelor of Science in Worship Ministries program.

Associate of Worship Ministries (Partner Sites) Two-Year Course Plan

Foundational Core - 37 Credit Hours

Intellectual and Practical Skills - 12 Hours

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Historical Perspective (select one):

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

*Required for Nevada students.

Spiritual Formation - 10 Hours

College and Christian Calling

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

Old Testament Studies

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

New Testament Studies

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Christian Studies

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Christian Responsibility - 6 Hours

Personal Stewardship

Worship Ministries Core - 16 Credit Hours

Biblical and Theological Studies - 6 Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Theory Studies - 6 Hrs

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1161 - WORSHIP AURAL THEORY II

- Worship Aural Theory II - This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.
 - Prerequisite: MUSC 1151 Worship Aural Theory I, MUSC 1112 Worship Music Theory I
 - Corequisite: MUSC 1212 Worship Music Theory II

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1212 - WORSHIP MUSIC THEORY II

A study of fundamental musical concepts, including: chord study and analysis, modulation, chord progressions and patterns, basic voice leading, knowledge of minor scales and chord progressions, and improvisation of accompaniment from chord symbols. This course includes a basic overview of improvisation with exposure to some standard chord scales used in improvising solos. Knowledge of rhythms and their performance will be reinforced and augmented. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

Applied Lessons 4 Hrs

Students will take 4 hours of applied lessons.

MUAI 1121 Worship Guitar Applied Lesson, MUAK 1131 Worship Piano Applied Lesson, and MUAV 1141 Worship Voice Applied Lesson can each be repeated for credit up to 5 times. Students should take the majority of their applied lessons in the areas where they are weakest.

Ministry Practicum and General Electives - 8 Credit Hours

Extension Site/Regional Campus worship ministries students participate in on-site ministry practicums each semester and register for the PMIN 2442 Worship Ministry Practicum course that can be repeated for up to 16 hours of credit. These practicums count towards the general elective requirement.

Total Program Hours - 61 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Associate of Worship Ministries (Site-based) Two-Year Course Plan

Program Description

The extension site Associate in Worship Ministries degree program prepares students for worship ministry leadership in local church ministries through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, worship ministry, and worship ministry practicum. Students who complete this degree will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Use basic music theory and aural theory in the context of worship ministry
4. Perform two instruments (guitar, piano, and/or voice) in the context of worship ministry
5. Integrate their biblical interpretation, theological, and worship competencies in ministry contexts
6. All courses are transferrable into the Bachelor of Science in Worship Ministries program.

Year One

Fall Semester - 16 Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

Applied Lesson (select one):

Students will take 4 hours of applied lessons. MUAI 1121 Worship Guitar Applied Lesson, MUAKE 1131 Worship Piano Applied Lesson, and MUAV 1141 Worship Voice Applied Lesson can each be repeated for credit up to 5 times. Students should take the majority of their applied lessons in the areas where they are weakest.

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAKE 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Spring Semester - 15 Hours

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Humanities or Literature Elective (select one):

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

GENERAL ELECTIVE - 2 HR ELECTIVE

Select a 2 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 2

Applied Lesson (select one):

Students will take 4 hours of applied lessons. Total Program Hours - 61 Credit Hours

Certificate, Orange Family Ministry

The Orange Certificate provides academic credit for family ministry leaders who have attended the Orange Conference and seek a deeper understanding of the Orange strategy by earning a certificate issued by Southeastern University. The certificate is comprised of three, eight-week online courses for undergraduate credit. Students who complete this certificate will be able to:

1. Develop a leadership mindset that guides staffing, training, resourcing, and strategic thinking
2. Articulate a strategic approach that aligns departments, synchronizes content, and values volunteers
3. Values parents and mentors as critical influencers for programming, communication, and strategic approaches

Total Program Hours - 9 Credit Hours

Courses - 9 Credit Hours

PMIN 1103 - LEADERSHIP OF FAMILY MINISTRY

This course prepares students to provide effective leadership in church-based family ministry programs for ages birth through high school. Students will develop strategic thinking and patterns of resourcing and staffing in family ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2203 - FAMILY MINISTRY STRATEGY

This course introduces students to a family ministry model that considers alignment, age characteristics, parents, small groups, and volunteerism. Students learn to apply a family ministry strategy that begins with age-graded leaders working together.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3303 - ELEVATING KEY FAMILY INFLUENCES

In this course students explore patterns for empowering and supporting the family as the primary influence in the life of a child. Strategies for cueing parents with timely and synchronized content will be addressed.

Prerequisites & Notes

NULL

Credits: 3

Certificate, Practical Ministries

Total Program Hours - 9 Credit Hours

Required Courses - 9 Credit Hours

PMIN 1001 - RELATIONAL INTELLIGENCE I

This course explores relational intelligence from a Christ-centered perspective. It provides a framework for building healthy, God-honoring relationships in various arenas of life including ministry and leadership. There is emphasis on self-awareness and social awareness, developing conversational skills, learning to ask questions, listen attentively, and remain fully present. Students will be introduced to effective practices for growing in empathy, likeability, conflict management skills, and learn how to set healthy relational boundaries. This course complements the content in PMIN 1011 and 1021.

Prerequisites & Notes

NULL

Credits: 1

PMIN 1011 - RELATIONAL INTELLIGENCE II

This course explores relational intelligence from a Christ-centered perspective. It provides a framework for building healthy, God-honoring relationships in various arenas of life including ministry and leadership. There is emphasis on self-awareness and social awareness, developing conversational skills, learning to ask questions, listen attentively, and remain fully present. Students will be introduced to effective practices for growing in empathy, likeability, conflict management skills, and learn how to set healthy relational boundaries. This course complements the content in PMIN 1001 and 1021.

Prerequisites & Notes

Credits: 1

PMIN 1021 - RELATIONAL INTELLIGENCE III

This course explores relational intelligence from a Christ-centered perspective. It provides a framework for building healthy, God-honoring relationships in various arenas of life including ministry and leadership. There is emphasis on self-awareness and social awareness, developing conversational skills, learning to ask questions, listen attentively, and remain fully present. Students will be introduced to effective practices for growing in empathy, likeability, conflict management skills, and learn how to set healthy relational boundaries. This course compliments the content in PMIN 1001 and 1011.

Prerequisites & Notes

NULL

Credits: 1

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Science, Ministerial Leadership: Production Ministry (Partner)

Bachelor of Science, Ministerial Leadership: Production Ministry Plan

The Bachelor of Science in Ministerial Leadership: Production Ministry degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on key production ministry skills: utilizing various live production technologies in a church context, utilizing various studio production technologies in a church context, and utilizing other skills related to the production of worship environments in local church contexts. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Utilize various technologies to support the production of worship environments in local church contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours**Discursive Inquiry - 6 Credit Hours****ENGL 1113 - COLLEGE COMPOSITION**

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:**BIOL 1333 - ESSENTIALS OF HUMAN A & P**

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Biblical & Theological Studies - 18 Credit Hours****BIOT 1433 - THE OLD TESTAMENT INTERPRETATION**

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministry Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Production Ministry Track - 18 Credit Hours

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

Select One(4) of the Following - 12 Credit Hours

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3163 - WORSHIP LEADING I

This course is an introduction to the study of worship leading in a small group and corporate setting. Emphasis will be placed on the development of the spiritual life of the worship leader, how to exhort during corporate worship, how to build worship teams, as well as the musical and leadership skills necessary to lead musicians during corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

Divine Design(Electives, Experiential Learning) - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums.

Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Science, Ministerial Leadership: Production Ministry Plan

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:**MUSC 1003 - MUSIC APPRECIATION**

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry(4 credit hours) Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry (3 Credit Hours) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry (3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Biblical and Theological Studies - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or

emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Production Ministry Track - 3 Credit Hours**MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP**

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3163 - WORSHIP LEADING I

This course is an introduction to the study of worship leading in a small group and corporate setting. Emphasis will be placed on the development of the spiritual life of the worship leader, how to exhort during corporate worship, how to build worship teams, as well as the musical and leadership skills necessary to lead musicians during corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

Credits: 3

Divine Design Elective - 8 Credit Hours

Bachelor of Science, Worship Ministry (Site-based) 4 Year Degree Plan

Year One

Fall Semester

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

Choose one of the following

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

Spring Semester

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Mathematics Elective- Select one

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

Humanities Elective- Select One

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Choose one of the following

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Year Two

Fall Semester

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 1

Year Four

Fall Semester

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

New Testament Elective- Select One**BINT 3413 - PAULINE LITERATURE**

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

Prerequisites & Notes

NULL

Credits: 3

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2442 - WORSHIP MINISTRY PRACTICUM

The course is designed to stress involvement in the worship ministry of the local church through supervised worship ministry activities. The main emphases of this course are worship ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Old Testament Elective- Select One

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Minor, Christian Ministry

Total Program Hours - 18 Credit Hours

Minor Core

Required Courses - 15 Credit Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Biblical Elective

Select One (1) of the Following - 3 Credit Hours

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first

century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Minor, Family Ministry

Total Program Hours- 18 Credit Hours

Note: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Required Courses - 18 Hours

PMIN 1003 - FOUNDATIONS OF FAMILY MINISTRY

Explore a church-wide family ministry model that elevates alignment, age characteristics, parents, small groups, and volunteerism. Methods for transitioning from separate youth, child, and adult departmental models to an essential family ministry model will be addressed.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2013 - LEADERSHIP & ALIGNMENT FAM MIN

Explore a church-wide family ministry model that elevates alignment, age characteristics, parents, small groups, and volunteerism. Methods for transitioning from separate youth, child, and adult departmental models to an essential family ministry model will be addressed.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2023 - RESPONSIBLE MESSAGING FAMILY MINIST

Develop communication, curriculum, teaching, and preaching approaches that are age appropriate, relevant, and life changing.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3003 - PARENT-FOCUSED FAMILY MINISTRY

Explore patterns for empowering and supporting the family as the primary influence in the life of a child. An emphasis will be placed upon spiritual disciplines, rites of passage, and milestones. Strategies for cueing parents with timely and synchronized content will be addressed.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3023 - SMALL GROUP CULTURE FAMILY MINISTRY

Develop approaches that maximize the benefit of community, relationships, and mentors to a child's overall maturity and development. The course will examine approaches designed to provide multiple intergenerational mentors into each young person's life for maximum impact.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4053 - STRATEGIC SERVICE FAMILY MINISTRY

Explore how advocacy and volunteerism play an important role in a young person's spiritual development. Integrated models of student ministry, strategic service, outreach, and advocacy will be explored. Best-practice management of volunteer principles will be examined for the purpose of increasing recruitment, retention, and organizational commitment.

Prerequisites & Notes

NULL

Credits: 3

Minor, Worship Ministries

Total Hours- 18 Credit Hours

Required Courses - 6 Credit Hours:

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1161 - WORSHIP AURAL THEORY II

- Worship Aural Theory II - This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.
 - Prerequisite: MUSC 1151 Worship Aural Theory I, MUSC 1112 Worship Music Theory I
 - Corequisite: MUSC 1212 Worship Music Theory II

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1212 - WORSHIP MUSIC THEORY II

A study of fundamental musical concepts, including: chord study and analysis, modulation, chord progressions and patterns, basic voice leading, knowledge of minor scales and chord progressions, and improvisation of accompaniment from chord symbols. This course includes a basic overview of improvisation with exposure to some standard chord scales used in improvising solos. Knowledge of rhythms and their performance will be reinforced and augmented. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

Choose 12 Credit Hours from the Following:

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Science, Ministerial Leadership: Worship Ministries (Partner)

Bachelor of Science, Ministerial Leadership: Worship Ministries Plan

The extension site Bachelor of Science in Ministerial Leadership – Worship Ministries track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the BSMLW focuses on preparing students to serve as worship pastors through studies in music theory, worship leadership, music composition, sound production, and music performance. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts

4. Use basic music theory and aural theory in the context of worship ministry
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central

teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Worship Ministries Track - 18 Credit Hours

PMIN 3163 - WORSHIP LEADING I

This course is an introduction to the study of worship leading in a small group and corporate setting. Emphasis will be placed on the development of the spiritual life of the worship leader, how to exhort during corporate worship, how to build worship teams, as well as the musical and leadership skills necessary to lead musicians during corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

Select Four(4) of the Following Courses (12 Credit Hours)::

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1161 - WORSHIP AURAL THEORY II

- Worship Aural Theory II - This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.
 - Prerequisite: MUSC 1151 Worship Aural Theory I, MUSC 1112 Worship Music Theory I
 - Corequisite: MUSC 1212 Worship Music Theory II

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1212 - WORSHIP MUSIC THEORY II

A study of fundamental musical concepts, including: chord study and analysis, modulation, chord progressions and patterns, basic voice leading, knowledge of minor scales and chord progressions, and improvisation of accompaniment from chord symbols. This course includes a basic overview of improvisation with exposure to some standard chord scales used in improvising solos. Knowledge of rhythms and their performance will be reinforced and augmented. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

(complete minimum of two times)

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Bachelor of Science, Ministerial Leadership: Christian Ministry (Partner)

Bachelor of Science, Ministerial Leadership: Christian Ministry Plan

Program Description

The extension site Bachelor of Science in Ministerial Leadership – Christian Ministry track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.),

Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on key pastoral competencies: sharing the Christian faith, preaching, church leadership, spiritual formation, and pastoral care. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Construct and present expository sermons in ministry contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Students who complete the degree program satisfy the educational requirements for Assemblies of God ministerial credentials.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and

Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours**PMIN 2443 - FOUNDATIONS OF MINISTRY**

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Christian Ministry Track - 18 Credit Hours

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 3233 - PREACHING II

An intermediate course dealing with sermon delivery. The content addresses audience analysis, physical appearance and gestures, credibility, proper use of the voice, projection of meaning, and the personality/originality of the preacher. Utilization of course concepts begins with oral reading of Scripture and includes preparation and delivery of full sermons. This course requires careful study of and reflection upon the appropriate biblical texts. (\$500 trip fee is required for traditional Lakeland campus-based students).

Prerequisites & Notes

NULL

Credits: 3

PMIN 3533 - PASTORAL THEOLOGY

This course provides an overview of pastoral theology, calling, principles of decision making, and various pastoral functions including weddings, funerals, baptism, communion, infant dedication, pastoral care, conducting worship services, etc.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning)**PMIN 2303 - STUDENT MINISTRY PRACTICUM**

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

This class is to be taken twice totaling 6 credit hours.

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Science, Ministerial Leadership: Biblical Studies (Site-based)

The extension site Bachelor of Science in Ministerial Leadership – Biblical Studies track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on the advanced study, interpretation, and application of the Bible in ministry contexts. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts at an advanced level
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Bachelor of Science, Ministerial Leadership: Biblical Studies Four-Year Plan

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and

theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first

century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Biblical Studies Track - 18 Credit Hours

18 credit hours needed- Choose six from the following(not already taken): Note: It is recommended that students take Hebrew and/or Greek as a part of their degree program.

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

This class is to be taken twice totaling 6 credit hours

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Or

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PSYC 2133 - THEORIES OF PERSONALITY

This course is an introduction to the study of personality formation. Major personality themes are critically examined. Students are introduced to the application of these theories in counseling and the treatment of mental illness.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Divine Design Elective - 3 Credit Hours

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PSYC 3533 - INTRODUCTION TO COUNSELING

This course is a study of various theoretical approaches to the practice of counseling and psychotherapy with normal and disturbed clients. Focus is on the psychoanalytic, cognitive, behavioral, and phenomenological approaches.

Prerequisites & Notes

PSYC 2133

Credits: 3

PSYC 3553 - INTRO TO COUNSELING CHILDREN & YOUTH

In this course, students will explore issues, theories, and applications related to understand and helping children and adolescents with social or emotional problems. Students will learn to assess behavior and incorporate ethically and legally appropriate strategies to meet the needs of counseling children and adolescents.

Prerequisites & Notes

PSYC 3533

Credits: 3

Divine Design Elective - 3 Credit Hours

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Year Four

FALL SEMESTER - 15 CREDIT HOURS

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Biblical and Theological Studies - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first

century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 14 CREDIT HOURS

PMIN 4233 - PASTORAL COUNSELING II

This course is a study of the roles and responsibilities of the pastoral counselor. It includes consideration of case studies, counseling resources, and clinical situations with special attention given to premarital, marital, and family counseling. It requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of

interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 8 Credit Hours

Total Program Hours - 120 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Bachelor of Science, Ministerial Leadership: Pastoral Care & Counseling (Partner)

Bachelor of Science, Ministerial Leadership: Pastoral Care & Counseling Four-Year Plan

The extension site Bachelor of Science in Ministerial Leadership – Pastoral Care & Counseling track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core is an interdisciplinary study in psychology, counseling, and pastoral care. Students who complete this degree program will be able to:

1. Properly use hermeneutical tools to exegete and apply the Bible in ministry contexts
2. Analyze and apply basic Christian theology in ministry contexts
3. Apply planning, team, financial leadership skills in ministry contexts
4. Engage in helping pastoral relationships in ministry contexts
5. Integrate their biblical interpretation, theological, leadership, and biblical studies competencies in ministry contexts

Total Program Hours - 120 Credit Hours

** It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Choose One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Pastoral Care & Counseling - 18 Credit Hours**PSYC 2133 - THEORIES OF PERSONALITY**

This course is an introduction to the study of personality formation. Major personality themes are critically examined. Students are introduced to the application of these theories in counseling and the treatment of mental illness.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

PSYC 3533 - INTRODUCTION TO COUNSELING

This course is a study of various theoretical approaches to the practice of counseling and psychotherapy with normal and disturbed clients. Focus is on the psychoanalytic, cognitive, behavioral, and phenomenological approaches.

Prerequisites & Notes

PSYC 2133

Credits: 3

PSYC 3553 - INTRO TO COUNSELING CHILDREN & YOUTH

In this course, students will explore issues, theories, and applications related to understand and helping children and adolescents with social or emotional problems. Students will learn to assess behavior and incorporate ethically and legally appropriate strategies to meet the needs of counseling children and adolescents.

Prerequisites & Notes

PSYC 3533

Credits: 3

PMIN 4133 - PASTORAL COUNSELING I

A study of biblical basis for pastoral counseling, the basic techniques of pastoral care, a general introduction to the major areas of pastoral concern, counseling the sick, the grief-stricken, teenagers, the aged, and those in crisis. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4233 - PASTORAL COUNSELING II

This course is a study of the roles and responsibilities of the pastoral counselor. It includes consideration of case studies, counseling resources, and clinical situations with special attention given to premarital, marital, and family counseling. It requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credits

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

This class is to be taken twice totaling 6 credit hours

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Bachelor of Science, Ministerial Leadership: Family Ministries (Partner)

Bachelor of Science, Ministerial Leadership: Family Ministries Four-Year Plan

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students

engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Children, Youth, & Family Ministries Track

PMIN 3273 - FAMILY MINISTRY

This course is a study of strategies for implementing a multigenerational approach in local church ministry. It focuses on connecting the generations through worship services that minister to all ages. Strategies that engage older generations in mentoring those younger and strategies to integrate families with infants and preschools into an intergenerational setting will also be investigated.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3063 - CHILDRENS/ YOUTH MINISTRY DISCIPLES

This course focuses on the theological principles and practical ministry strategies for evangelizing and discipling children and adolescence. Emphasis will be placed on various discipleship tools and methods that help children and adolescence develop an intimate relationship with Jesus.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3293 - CHILDREN'S/YOUTH MINISTRY STRATEGIE

This course is an overview of the foundations for children's and youth ministries. An emphasis is placed on developing, administering, and evaluating the various aspects of leading a powerful, spirit-led ministry for birth through adolescence.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4153 - SPIRITUAL FORMATION OF FAMILIES

This course examines the spiritual needs of the family and the role of the church as it relates to spiritual development. Particular attention will be given to the interdependency of physical, social, intellectual and emotional development with moral development and the stages of faith.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Divine Design(Major Specific Experiential Learning)

TBD

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Dual Enrollment

Associate of Ministerial Leadership (Dual Enrollment)

Associate of Ministerial Leadership - Two-Year Course Plan

Southeastern University's Associate of Ministerial Leadership is an online degree that allows students to develop their knowledge of theology, the Bible, spiritual development, church ministry, leadership principles, and ecclesiastical operations. Students satisfy the credentialing requirements of ordination through the Assemblies of God as part of the program. All courses are transferable into Southeastern's Bachelor of Science in Ministerial Leadership.

Foundational Core- 34 Hours

Intellectual and Practical Skills- 12 Hours

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Mathematics: Select One(1) of the Following(3 Credits)

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Engaging Human Culture and the Natural World- 6 Hours

Humanities Elective: Choose One(1) of the Following(3 Credits)

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

Behavioral Science Elective: Select One(1) of the Following(3 Credits)

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Spiritual Formation- 10 Hours

College and Christian Calling

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

Old Testament Studies

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

New Testament Studies

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Christian Studies

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Christian Responsibility- 6 Hours

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

Ministerial Leadership Core- 19 hours

Biblical and Theological Studies- 6 Hours

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Ministerial Leadership Studies- 9 Hours

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

Student Ministry Practicum- 4 Hours**PMIN 2032 - STUDENT MINISTRY PRACTICUM I**

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

General Electives- 9 Hours**Total Program Hours- 62 Hours****Other Programs****Associate of Ministerial Leadership Two-Year Course Plan**

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (6 Credit Hours)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

Biblical and Theological Studies - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Bachelor of Arts, Worship Ministries (Four-Year Plan)

Year One

Fall Semester

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

MUSC 1041 - AURAL THEORY I

Singing at sight and melodic and harmonic dictation. Basic familiarization with the keyboard.

Prerequisites & Notes

Prerequisite: MUSC 1002 or theory placement exam

Corequisite: MUSC 1133

Credits: 2

MUSC 1133 - MUSIC THEORY I

This course is a study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, major/minor tonality, and chord construction found in Western music.

Prerequisites & Notes

Prerequisite: MUSC 1002 or theory placement exam

Corequisite: MUSC 1042

Credits: 3

PMIN 1100 - KEYBOARD PROFICIENCY EXAM FOR WORSHIP MINISTRIES MAJORS

This is a pass/fail check item to fulfill the keyboard proficiency requirement of all worship ministry majors.

Prerequisites & Notes

NULL

Credits: 0

PMIN 1200 - GUITAR PROFICIENCY EXAM FOR WORSHIP MINISTRY MAJORS

This course fulfills the guitar proficiency requirement of all Worship Ministries majors.

Prerequisites & Notes

NULL

Credits: 0

Select one

MUAI 1801 - GUITAR APPLIED LESSON

Thirteen lessons (25 minutes per week) for one hour of credit. The Music Department will determine the appropriate level of instruction.

Prerequisites & Notes

AR

Credits: 1

Spring Semester

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

MUAV 1101 - VOICE APPLIED LESSON

The Music Department will determine the student's level of instruction. Thirteen lessons (25 minutes per week) plus individual practice are required.

Prerequisites & Notes

AR

Credits: 1

MUSC 1051 - AURAL THEORY II

Singing at sight with melodic and harmonic dictation. Basic familiarization with the keyboard.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1233 - MUSIC THEORY II

This course is a study of the fundamental principles of harmonic progression and harmonic rhythm, seventh chords, modulation, secondary dominants, leading-tone chords, and four-part composition. Included in this course is the study of small musical forms.

Prerequisites & Notes

Prerequisite: MUSC 1133; Corequisite: MUSC 1052

Credits: 3

Behavioral Science Elective - Select One

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Year Two

Fall Semester

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

MUSC 202L - WORSHIP LEADING I LAB

This course provides hands-on experience in worship leading. Students will apply techniques and principles learned in Worship Leading I while leading worship in a small group setting.

Prerequisites & Notes

NULL

Credits: 1

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Mathematics Elective - Select One

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1413 - PRECALCULUS

This course covers algebraic relations and functions, systems of equations, rational functions, polynomials, exponential functions and logarithms, trigonometric functions and their inverses, graphs, and identities. A placement exam is given at the beginning of each course. Students must demonstrate proficiency to remain in this course. A math score on the ACT of 21 or the SAT of 500 is required. Cost for items and materials provided by our Bookstore are charged as a fee attached to the course.

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

Spring Semester**MUSC 203L - WORSHIP LEADING II LAB**

This course provides hands-on experience in worship leading utilizing a large worship team. Students will apply techniques and principles learned in Worship Leading II while leading worship in a large group setting.

Prerequisites & Notes

NULL

Credits: 1

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Mathematics Elective - Select One

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1413 - PRECALCULUS

This course covers algebraic relations and functions, systems of equations, rational functions, polynomials, exponential functions and logarithms, trigonometric functions and their inverses, graphs, and identities. A placement exam is given at the beginning of each course. Students must demonstrate proficiency to remain in this course. A math score on the ACT of 21 or the SAT of 500 is required. Cost for items and materials provided by our Bookstore are charged as a fee attached to the course.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include

descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

History Elective - Select One

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

Language Elective - Select One

LANG 1144 - ELEMENTARY SPANISH (A)

This is an elementary course designed for students who wish to develop the basic skills of speaking, listening to, reading, and writing Spanish. Students will learn beginning grammatical concepts, gain a strong vocabulary base, practice nuances of pronunciation, and explore the Hispanic/Spanish culture as reflected in different Spanish-speaking countries.

Prerequisites & Notes

NULL

Credits: 4

LANG 1244 - ELEMENTARY SPANISH (B)

A continuation of LANG 1144.

Prerequisites & Notes

NULL

Credits: 4

Year Three

Fall Semester

MUSC 3142 - AUDIO & PRODUCTION TECHNOLOGY I

This course is a study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be placed on the practical application of these technologies in a church setting.

Prerequisites & Notes

NULL

Credits: 2

MUSC 3532 - MUSIC HISTORY & LITERATURE IN THE CHURCH

This course is a study of basic styles of music history as they developed through the influences and needs of the Christian church.

Prerequisites & Notes

NULL

Credits: 2

PMIN 1000 - CO-CURRICULAR WORSHIP EXPER/PARTIC

This course provides opportunities for all worship ministry majors to observe and participate in worship experiences that reflect the diversity of elements and communities for worship and liturgy in a location as assigned.

Prerequisites & Notes

NULL

Credits: 0

PMIN 3292 - SONGWRITING FOR THE CONTEMP CHURCH

This course is a study of lyrics, melody, harmony, and form that are needed to create songs for use in contemporary worship.

Prerequisites & Notes

NULL

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Literature Elective - Select One

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

ENGL 2513 - BRITISH LITERATURE I

This course introduces students to British literature from Old English through the Neo-classical period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2523 - BRITISH LITERATURE II

This course introduces students to British literature from Romanticism through the Contemporary period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3633 - AMERICAN LITERATURE

A survey of prose and poetry with attention given to socio-political backgrounds and growth of American thought as expressed through selected authors from the colonial period to 1945.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3933 - AFRICAN AMERICAN LITERATURE

A survey of significant African-American writing from 1746 to the present, with attention given to social, political, and cultural contexts.

Prerequisites & Notes

NULL

Credits: 3

ENGL 4343 - NATIVE AMERICAN LIT & CULTURE

A survey of analysis of essays, poetry, fiction and basic history of Native Americans, with an emphasis on understanding different aspects of Native American thought and expression, especially in the changing contexts of their histories and tribal identities.

Prerequisites & Notes

NULL

Credits: 3

Natural Science with Lab - Select One

BIOL 1233 - BIOLOGY I

This course is an introduction to the structure and function of biological molecules, cell structure and function, and the cell cycle.

Prerequisites & Notes

Corequisite: BIOL 123L

Credits: 3

BIOL 123L - BIOLOGY I LAB

This course is the laboratory to accompany BIOL 1233.

Prerequisites & Notes

Corequisite: BIOL 1233

Credits: 1

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

CHEM 1213 - INTRO TO CHEMISTRY

This course is an introduction to basic concepts of general chemistry, introduction of periodic properties of elements and compounds, basic atomic-molecular structure, and properties of substances and reactions related to gas laws.

Prerequisites & Notes

Corequisite: CHEM 121L

Credits: 3

CHEM 121L - INTRO TO CHEMISTRY LAB

This course is the laboratory course to accompany CHEM 1213.

Prerequisites & Notes

Corequisite: CHEM 1213

Credits: 1

NSCI 1433 - BOTANY

This course is an introductory course in plant anatomy, physiology and taxonomy. The history of mankind's medicinal use of plants and current updates will be covered.

Prerequisites & Notes

Corequisite: NSCI 143L

Credits: 3

NSCI 143L - BOTANY LAB

This course helps students apply what they have learned about plant anatomy, physiology and taxonomy through hands-on activities and field trips.

Prerequisites & Notes

Corequisite: NSCI 1433

Credits: 1

NSCI 2233 - ASTRONOMY

This is an introductory course in the astronomy of the solar system, astrophysics and constellations. This course level assumes no physics background.

Prerequisites & Notes

NULL

Credits: 3

NSCI 223L - ASTRONOMY LAB

This lab is to enhance the material learned in the accompanying lecture class, Astronomy.

Prerequisites & Notes

NULL

Credits: 1

NSCI 2433 - ANIMAL DIVERSITY

This course introduces foundational principles of zoology, including taxonomy, animal biology, architecture and ecology. Emphasis will be placed on the survey of invertebrate and vertebrate biodiversity.

Prerequisites & Notes

Corequisite: NSCI 243L

Credits: 3

NSCI 243L - ANIMAL DIVERSITY LAB

This course is a laboratory to accompany NSCI 2433.

Prerequisites & Notes

Corequisite: NSCI 2433

Credits: 1

NSCI 3333 - ECOLOGY

This course introduces foundational principles of ecology, the study of relationships between organisms and the surrounding environment. This course will provide students with a broader understanding of how the physical and chemical characteristics of the environment influence the distribution and abundance of various species of organisms in an ecosystem.

Prerequisites & Notes

Corequisite: NSCI 333L

Credits: 3

NSCI 333L - ECOLOGY LAB

This is a laboratory to accompany NSCI 3333. Students will discern the interconnectivity between and among various species of organisms through the conduct of actual laboratory and field surveys in various habitats applying critical analysis to explain ecological phenomena learned in lecture.

Prerequisites & Notes

Corequisite: NSCI 3333

Credits: 1

Spring Semester

MUSC 3152 - AUDIO AND PRODUCTION TECHNOLOGY II

This course is a study of the application of audio and multimedia technologies in church and concert settings.

Prerequisites & Notes

Prerequisite: MUSC 3142

Credits: 2

MUSC 315L - AUDIO AND PRODUCTION TECHNOLOGY LAB

This course provides hands-on experience in worship support ministries including sound reinforcement and multimedia projection. Students will apply techniques and principles learned in Audio and Production Technology II while running sound and multimedia for the Worship Leading Lab II.

Prerequisites & Notes

NULL

Credits: 1

PMIN 1000 - CO-CURRICULAR WORSHIP EXPER/PARTIC

This course provides opportunities for all worship ministry majors to observe and participate in worship experiences that reflect the diversity of elements and communities for worship and liturgy in a location as assigned.

Prerequisites & Notes

NULL

Credits: 0

THEO 3183 - THEOLOGY OF WORSHIP

This course is a study of the theological foundations and practices of Christian worship, with particular attention given to Pentecostal and contemporary practices. The course further provides theological foundations for the writing, development, and administration of liturgical practices, providing a foundation for aesthetic expression, including songwriting and other creative Christian practices.

Prerequisites & Notes

NULL

Credits: 3

General Elective - Select One

Music Elective - Select One

Humanities Elective - Select One

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1103 - HISTORY OF JAZZ

This course examines the most significant styles of American music in chronological order beginning with its roots and continuing through the present day.

Prerequisites & Notes

NONE

Credits: 3

MUSC 1223 - HIP HOP AND AMERICAN CULTURE

This course is an introduction to the popular music and cultural artform known as hip hop. Students in the course will examine hip hop's development, history, communication style, dance form, music, artistic process and its effect on American culture.

Prerequisites & Notes

NULL

Credits: 3

Summer Semester

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

Year Four

Fall Semester

MUSC 4222 - HYMNOLOGY

This course is a study of the worship music from early Christianity to modern hymnody with attention given to message, music, and effectiveness in worship and evangelism.

Prerequisites & Notes

NULL

Credits: 2

PMIN 1000 - CO-CURRICULAR WORSHIP EXPER/PARTIC

This course provides opportunities for all worship ministry majors to observe and participate in worship experiences that reflect the diversity of elements and communities for worship and liturgy in a location as assigned.

Prerequisites & Notes

NULL

Credits: 0

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

Pastoral Elective - Select One

Social Science Elective - Select One

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

POLS 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

POLS 4133 - CORNERSTONE IN POLITICAL SCIENCE

The purpose of this course is to connect students with major competencies in the field of political science. The competencies covered in this course are economics and financial literacy related to politics, governing versus campaigning, decorum of communication in politics, the art of compromise, and the sanctity of the right to vote. As a capstone course, students will demonstrate mastery of the competencies through coursework and experiential learning.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Music Elective - Select One

Greek Bible Elective - Select One

BINT 1544 - GREEK IA

This course is the rudiments of the language as the first step in preparation for translation in the New Testament.

Prerequisites & Notes

NULL

Credits: 4

BINT 1644 - GREEK IB

This course is completion of rudiments of the language as the first step in preparing for translation in the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 4

Old Testament Elective - Select One

Spring Semester

MUSC 4322 - MUSIC ADMINISTRATION/ORGANIZATION

This course is a study of the administrative role of the director of music. Emphasis will be placed on planning, programming, budgeting, and evaluating various music and arts related programs.

Prerequisites & Notes

UP

Credits: 2

PMIN 1000 - CO-CURRICULAR WORSHIP EXPER/PARTIC

This course provides opportunities for all worship ministry majors to observe and participate in worship experiences that reflect the diversity of elements and communities for worship and liturgy in a location as assigned.

Prerequisites & Notes

NULL

Credits: 0

PMIN 3311 - CREATIVE DIRCT/PRDCTN FOR THE CHURCH

This course is a study of the practices associated with event production and coordination for church liturgy within contemporary and Pentecostal contexts.

Prerequisites & Notes

NULL

Credits: 1

PMIN 331L - CREATIVE DRCTNG/PRODCTN FOR THE CHURCH LAB

This is a laboratory experience to participate in the practices associated with event production and coordination for church liturgy within contemporary and Pentecostal contexts.

Prerequisites & Notes

NULL

Credits: 1

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of

interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Pastoral Elective - Select One

Hebrew Bible Elective - Select One

New Testament Elective - Select One

General Elective - Select One

Bachelor of Science, Ministerial Leadership: Biblical Studies 4-Year Degree Plan

Year One

Fall Semester

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

Behavioral Science Elective: (3 credit hours)

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

General Elective: (3 credit hours)

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Spring Semester

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Math Elective: (3 credit hours)

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

Humanities Elective: (3 credit hours)

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

General Elective: (3 credit hours)

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 1413 - PRECALCULUS

This course covers algebraic relations and functions, systems of equations, rational functions, polynomials, exponential functions and logarithms, trigonometric functions and their inverses, graphs, and identities. A placement exam is given at the beginning of each course. Students must demonstrate proficiency to remain in this course. A math score on the ACT of 21 or the SAT of 500 is required. Cost for items and materials provided by our Bookstore are charged as a fee attached to the course.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 2144 - CALCULUS I

This course involves the study of limits and continuity, derivatives and applications.

Prerequisites & Notes

MATH 1413 or a Precalculus/Calculus course in high school

Credits: 4

Historical Perspective Elective (select one):

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

Social Science Elective (select one):

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

POLS 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

POLS 4133 - CORNERSTONE IN POLITICAL SCIENCE

The purpose of this course is to connect students with major competencies in the field of political science. The competencies covered in this course are economics and financial literacy related to politics, governing versus campaigning, decorum of communication in politics, the art of compromise, and the sanctity of the right to vote. As a capstone course, students will demonstrate mastery of the competencies through coursework and experiential learning.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Spring Semester

HITH 3133 - SURVEY OF CHURCH HISTORY

An overview of ancient, medieval, and modern Christian history. Items to be addressed include the background, establishment, and development of the Christian church and its role and influence in world history; the foundation and development of theological concepts and their impact on the Church; the Protestant Reformation; theological trends and ecclesiastical developments in European and American Christianity; the continual interrelationship between the church and society; and the rationale, significance, and consequences of major revival/renewal movements throughout the history of the Church. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Literature Elective (select one):

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

ENGL 2513 - BRITISH LITERATURE I

This course introduces students to British literature from Old English through the Neo-classical period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2523 - BRITISH LITERATURE II

This course introduces students to British literature from Romanticism through the Contemporary period. Students will develop skills in reading, writing about, and interpreting literary cultural texts while drawing on relevant cultural contexts, critical frameworks, and personal faith.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3633 - AMERICAN LITERATURE

A survey of prose and poetry with attention given to socio-political backgrounds and growth of American thought as expressed through selected authors from the colonial period to 1945.

Prerequisites & Notes

NULL

Credits: 3

ENGL 3933 - AFRICAN AMERICAN LITERATURE

A survey of significant African-American writing from 1746 to the present, with attention given to social, political, and cultural contexts.

Prerequisites & Notes

NULL

Credits: 3

ENGL 4343 - NATIVE AMERICAN LIT & CULTURE

A survey of analysis of essays, poetry, fiction and basic history of Native Americans, with an emphasis on understanding different aspects of Native American thought and expression, especially in the changing contexts of their histories and tribal identities.

Prerequisites & Notes

NULL

Credits: 3

Natural Science Elective with Lab (select one):

BIOL 1233 - BIOLOGY I

This course is an introduction to the structure and function of biological molecules, cell structure and function, and the cell cycle.

Prerequisites & Notes

Corequisite: BIOL 123L

Credits: 3

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

CHEM 1213 - INTRO TO CHEMISTRY

This course is an introduction to basic concepts of general chemistry, introduction of periodic properties of elements and compounds, basic atomic-molecular structure, and properties of substances and reactions related to gas laws.

Prerequisites & Notes

Corequisite: CHEM 121L

Credits: 3

NSCI 1433 - BOTANY

This course is an introductory course in plant anatomy, physiology and taxonomy. The history of mankind's medicinal use of plants and current updates will be covered.

Prerequisites & Notes

Corequisite: NSCI 143L

Credits: 3

NSCI 2233 - ASTRONOMY

This is an introductory course in the astronomy of the solar system, astrophysics and constellations. This course level assumes no physics background.

Prerequisites & Notes

NULL

Credits: 3

NSCI 2433 - ANIMAL DIVERSITY

This course introduces foundational principles of zoology, including taxonomy, animal biology, architecture and ecology. Emphasis will be placed on the survey of invertebrate and vertebrate biodiversity.

Prerequisites & Notes

Corequisite: NSCI 243L

Credits: 3

NSCI 3333 - ECOLOGY

This course introduces foundational principles of ecology, the study of relationships between organisms and the surrounding environment. This course will provide students with a broader understanding of how the physical and chemical characteristics of the environment influence the distribution and abundance of various species of organisms in an ecosystem.

Prerequisites & Notes

Corequisite: NSCI 333L

Credits: 3

New Testament Elective (select one):

Third Year

Fall Semester

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

New Testament Elective (select one):

Spring Semester

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4043 - HOLISTIC DISCIPLEMAKING

This course explores biblical and practical methods of helping persons find Christ, integrate into the life of the local church, and grow to spiritual maturity. Topics covered include outreach, personal evangelism, assimilation, developing the discipleship process, small group leadership, spiritual coaching, equipping and releasing in ministry, and strategic discipleship structures.

Prerequisites & Notes

NULL

Credits: 3

New Testament Elective (select one):

Old Testament Elective (select one):

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this

literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Summer Semester

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

Fourth Year

Fall Semester

PMIN 3133 - PREACHING I

This course prepares students to construct and present sermons using quality exegesis and effective presentation methods. The overall approach uses expository methods for narrative passages and topics.

Prerequisites & Notes

BIBL 2623

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

PMIN 4323 - MINISTRY LEADERSHIP & ADMINISTRATION

A study of the various areas of pastoral responsibilities including board administrations and organizations, committee organization, leadership training, budgeting, financing, planning, auxiliary organizations and their relationship to total church program. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Old Testament Elective (select one):

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

**Bachelor of Science, Ministerial Leadership: Family Ministries
Four-Year Plan**

First Year

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Socio-Historical Inquiry (3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

Creative-Aesthetic Inquiry (3 Credit Hours) Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry (4 Credit Hours) Select One:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry (3 Credit Hours) Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Second Year

FALL SEMESTER - 15 CREDIT HOURS

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

Socio-Historical Inquiry (3 Credit Hours) Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for

application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Third Year

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3273 - FAMILY MINISTRY

This course is a study of strategies for implementing a multigenerational approach in local church ministry. It focuses on connecting the generations through worship services that minister to all ages. Strategies that engage older generations in mentoring those younger and strategies to integrate families with infants and preschools into an intergenerational setting will also be investigated.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3293 - CHILDREN'S/YOUTH MINISTRY STRATEGIE

This course is an overview of the foundations for children's and youth ministries. An emphasis is placed on developing, administering, and evaluating the various aspects of leading a powerful, spirit-led ministry for birth through adolescence.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Fourth Year

FALL SEMESTER - 15 CREDIT HOURS

PMIN 4143 - PASTORAL CARE OF FAMILIES

This course emphasizes pastoral care ministry to families in various life situations. Special emphasis will be placed on the many psychological needs of children and youth along with practical ways of ministering to them through pastoral care and spiritual guidance. This course will also focus on the unique issues concerning ministry to special needs children and youth.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4153 - SPIRITUAL FORMATION OF FAMILIES

This course examines the spiritual needs of the family and the role of the church as it relates to spiritual development. Particular attention will be given to the interdependency of physical, social, intellectual and emotional development with moral development and the stages of faith.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

Biblical & Theological Studies - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and

powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

(Main Campus Students Only)

Divine Design Elective - 9 Credit Hours

Bachelor of Science, Ministerial Leadership: Worship Ministries Plan

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Divine Design Elective - 3 Credit Hours

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:**MUSC 1003 - MUSIC APPRECIATION**

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural Science Elective - Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Or

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

Or

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Or

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3163 - WORSHIP LEADING I

This course is an introduction to the study of worship leading in a small group and corporate setting. Emphasis will be placed on the development of the spiritual life of the worship leader, how to exhort during corporate worship, how to build worship teams, as well as the musical and leadership skills necessary to lead musicians during corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Worship Ministries Track - 3 Credit Hours

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1161 - WORSHIP AURAL THEORY II

- Worship Aural Theory II - This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.
 - Prerequisite: MUSC 1151 Worship Aural Theory I, MUSC 1112 Worship Music Theory I
 - Corequisite: MUSC 1212 Worship Music Theory II

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1212 - WORSHIP MUSIC THEORY II

A study of fundamental musical concepts, including: chord study and analysis, modulation, chord progressions and patterns, basic voice leading, knowledge of minor scales and chord progressions, and improvisation of accompaniment from chord symbols. This course includes a basic overview of improvisation with exposure to some standard chord scales used in improvising solos. Knowledge of rhythms and their performance will be reinforced and augmented. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is

repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

SPRING SEMESTER - 15 CREDIT HOURS

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4193 - WORSHIP LEADING II

This course is a study of worship leading and the worship leading team. Emphasis will be placed on the development of the spiritual life of the worship leader, developing the spiritual life of the worship team, worship organization, as well as the musical and leadership skills necessary to lead the worship team and congregation during times of corporate worship.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 6 Credit Hours

Year Four

FALL SEMESTER - 15 CREDIT HOURS

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Biblical & Theological Studies - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Worship Ministries Track - 3 Credit Hours

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3193 - SONGWRITING FOR THE CHURCH

This course is an introduction to songwriting for the Church. Emphasis will be on the building blocks of worship music, lyrical and theological content, making memorable melodies, and co-writing songs. Special attention will be given to the development of contemporary worship songs that come from a local church context.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3143 - LIVE CHURCH PRODUCTION TECHNOLOGY

This course is a study of the application of audio and multimedia technologies in church, concert, conference, and large event settings. Specific attention is paid to: preparing the multimedia component of a service, producing large scale worship environments, and how to work with a production team effectively.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4313 - STUDIO CHURCH PRODUCTION TECHNOLOGY

A study of the production of music, audio, and multimedia content using computer technologies. Emphasis will be on the practical application of these technologies in a church setting. Basic areas covered include audio editing and production, related software application, related web-based resources, and basic recording technology.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3183 - CREATIVE DIRECTING FOR THE CHURCH

This course is a study of creative directing for the Church. Emphasis will be placed on how to create worship experiences for weekend services and conferences, service planning, storytelling, environment design, and how to manage a creative staff. This course will enable students to understand the creative process for designing, creating, and executing all creative elements in a weekend worship service.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1151 - WORSHIP AURAL THEORY I

This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.

Prerequisites & Notes

NULL

Credits: 1

MUSC 1161 - WORSHIP AURAL THEORY II

- Worship Aural Theory II - This course is intended to provide the student with a comprehensive study in sight singing and melodic, harmonic, and rhythmic dictation.
 - Prerequisite: MUSC 1151 Worship Aural Theory I, MUSC 1112 Worship Music Theory I
 - Corequisite: MUSC 1212 Worship Music Theory II

Prerequisites & Notes

NULL

Credits: 1

MUSC 1112 - WORSHIP MUSIC THEORY I

A study of fundamental musical concepts with emphasis on notation, rhythm, key signatures, intervals, scales, and chords. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music, and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 1212 - WORSHIP MUSIC THEORY II

A study of fundamental musical concepts, including: chord study and analysis, modulation, chord progressions and patterns, basic voice leading, knowledge of minor scales and chord progressions, and improvisation of accompaniment from chord symbols. This course includes a basic overview of improvisation with exposure to some standard chord scales used in improvising solos. Knowledge of rhythms and their performance will be reinforced and augmented. Special emphasis will be placed on the practical application of music theory in teaching contemporary worship music and directing worship team rehearsals.

Prerequisites & Notes

NULL

Credits: 2

MUSC 3013 - DIGITAL MUSIC COMPOSITION FOR WORSHIP

This course studies the aesthetics and techniques of music composition using electronic resources including computers, hardware samplers, synthesizers, digital recording equipment, and analogue recording equipment. Class work includes hands-on work with recording, editing, compositional software, and compositional hardware.

Prerequisites & Notes

NULL

Credits: 3

MUAI 1121 - WORSHIP GUITAR APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play acoustic guitar in contemporary worship music using proper technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of both strumming and picking will be developed through exercises, scales, and the study of worship songs. Special emphasis will be placed on developing the ability to play and sing simultaneously on worship songs.

Prerequisites & Notes

NULL

Credits: 1

MUAK 1131 - WORSHIP PIANO APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to play piano/keyboards in contemporary worship style using proper technique while building a greater understanding of concepts of modern worship musicianship. 13 lessons (25 minutes per lesson) per semester plus individual practice are required. Course is repeatable for credit up to 5 times.

Prerequisites & Notes

NULL

Credits: 1

MUAV 1141 - WORSHIP VOICE APPLIED LESSON

Through one-on-one private instruction, students will develop and expand their ability to sing in a contemporary vocal style using proper vocal technique while building a greater understanding of concepts of modern worship musicianship. The understanding and use of the voice as an instrument and of vocal technique will be developed through the use of vocal training CDs, study of the textbook, and instructor designed exercises. The appropriate contemporary vocal style elements will be communicated through the study of modern worship songs, contemporary pop/rock music, jazz standards, and classical styles.

Prerequisites & Notes

NULL

Credits: 1

Divine Design Elective - 6 Credit Hours

SPRING SEMESTER - 14 CREDIT HOURS

Divine Design Elective - 8 Credit Hours

Worship Ministries Track - 6 Credit Hours

PMIN 2333 - FOUNDATIONS FOR WORSHIP MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in worship ministry within the context of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to worship ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4173 - THEOLOGY OF SONGWRITING

This course is an introduction to the craft, development, theology, and history of songwriting. Special attention is given to the study and evaluation of song form and theology in both historic and contemporary contexts. General philosophies of songwriting and the specific approaches of historical and contemporary songwriters will be examined.

Bob and Hazel Hoskins School of Mission

Deans

Chris Owen, DMin

Dean, Barnett College of Ministry and Theology

Rev. Anthony Roberts, MA

Associate Dean, Barnett College of Ministry and Theology

Chairs, Coordinators, & Faculty

Chad Causey, PhD

Chair, Hoskins School of Mission
Professor of Missions

Mike Cuckler, DMiss
Director, Doctor of Missiology Program
Associate Professor of Practical Ministry

Main Campus (Lakeland, FL)

Bachelor of Science, Ministerial Leadership: Missional Leadership

The Bachelor of Science in Ministerial Leadership – Missional Leadership track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on global, entrepreneurial, strategic, and innovative missional leadership skills that can be applied in a variety of missional contexts (i.e., global non-profit organizations, missionary ministry, local church ministry, etc.).

This degree program allows students the flexibility of completing program requirements through a combination main campus, online, and/or partner site courses. In order to create a global learning experience and connect students learning in a variety of contexts, the Missional Leadership courses (MISS 3013, MISS 3023, MISS 3033, MISS 3043, MISS 3053, MISS 3063) are only taught as online courses.

Bachelor of Science, Ministerial Leadership: Missional Leadership (Four-Year Plan)

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students

engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Biblical & Theological Studies - 18 Credit Hours****BIOT 1433 - THE OLD TESTAMENT INTERPRETATION**

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Missional Leadership Track - 18 Credit Hours

MISS 3013 - MISSIONAL LIFE

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve program interventions, service offerings, and product ideas.

Credits: 3

MISS 3043 - DIGITAL MINISTRY

This course explores emerging opportunities for engaging in digital ministry. Students are introduced to important trends and topics for doing ministry in the digital space. The course practically equips students with knowledge and skills to inspire action steps in digital ministry. Relevant topics include: developing a digital strategy, best practices in digital ministry marketing, the power of story, online evangelism and discipleship, building online communities, and participating in networks and platforms.

Credits: 3

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Credits: 3

Divine Design (Major Specific Experiential Learning)

PMIN 4063 - MINISTERIAL INTERNSHIP

This course provides an in-depth supervised ministry experience for students in their specific area(s) of ministry passion and calling. It integrates ministry experience, academic studies, and personal and spiritual development.

Prerequisites & Notes

NULL

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Minor, Missional Leadership

Total Program Hours - 18 Credit Hours

Required Courses - 18 Credit Hours

MISS 3013 - MISSIONAL LIFE

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the

history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve program interventions, service offerings, and product ideas.

Credits: 3

MISS 3043 - DIGITAL MINISTRY

This course explores emerging opportunities for engaging in digital ministry. Students are introduced to important trends and topics for doing ministry in the digital space. The course practically equips students with knowledge and skills to inspire action steps in digital ministry. Relevant topics include: developing a digital strategy, best practices in digital ministry marketing, the power of story, online evangelism and discipleship, building online communities, and participating in networks and platforms.

Credits: 3

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Bachelor of Science, Ministerial Leadership: Missional Leadership (Online)

Bachelor of Science, Ministerial Leadership: Missional Leadership (Four-Year Plan)

The Bachelor of Science in Ministerial Leadership – Missional Leadership track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible, theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on global, entrepreneurial, strategic, and innovative missional leadership skills that can be applied in a variety of missional contexts (i.e., global non-profit organizations, missionary ministry, local church ministry, etc.).

This degree program allows students the flexibility of completing program requirements through a combination main campus, online, and/or partner site courses. In order to create a global learning experience and connect students learning in a variety of contexts, the Missional Leadership courses (MISS 3013, MISS 3023, MISS 3033, MISS 3043, MISS 3053, MISS 3063) are only taught as online courses.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and

Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours**PMIN 2443 - FOUNDATIONS OF MINISTRY**

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Missional Leadership Track - 18 Credit Hours

MISS 3013 - MISSIONAL LIFE

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve

program interventions, service offerings, and product ideas.

Credits: 3

MISS 3043 - DIGITAL MINISTRY

This course explores emerging opportunities for engaging in digital ministry. Students are introduced to important trends and topics for doing ministry in the digital space. The course practically equips students with knowledge and skills to inspire action steps in digital ministry. Relevant topics include: developing a digital strategy, best practices in digital ministry marketing, the power of story, online evangelism and discipleship, building online communities, and participating in networks and platforms.

Credits: 3

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credits

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Site-Based (Partnership)

Bachelor of Science, Ministerial Leadership: Missional Leadership (Partner)

Bachelor of Science, Ministerial Leadership: Missional Leadership (Four-Year Plan)

The Bachelor of Science in Ministerial Leadership – Missional Leadership track degree program prepares students for ministry leadership—in local churches, faith-based non-profit organizations, and other ministry contexts—through an interdisciplinary curriculum of courses in foundational core (i.e., English, psychology, math, science, etc.), Bible,

theology, ministry, and ministry practicum. The final 18 hours of the major core focuses on global, entrepreneurial, strategic, and innovative missional leadership skills that can be applied in a variety of missional contexts (i.e., global non-profit organizations, missionary ministry, local church ministry, etc.).

This degree program allows students the flexibility of completing program requirements through a combination main campus, online, and/or partner site courses. In order to create a global learning experience and connect students learning in a variety of contexts, the Missional Leadership courses (MISS 3013, MISS 3023, MISS 3033, MISS 3043, MISS 3053, MISS 3063) are only taught as online courses.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Biblical & Theological Studies - 18 Credit Hours

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Foundational Ministerial Leadership Studies - 9 Credit Hours

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Missional Leadership Track - 18 Credit Hours**MISS 3013 - MISSIONAL LIFE**

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve program interventions, service offerings, and product ideas.

Credits: 3

MISS 3043 - DIGITAL MINISTRY

This course explores emerging opportunities for engaging in digital ministry. Students are introduced to important trends and topics for doing ministry in the digital space. The course practically equips students with knowledge and skills to inspire action steps in digital ministry. Relevant topics include: developing a digital strategy, best practices in digital ministry marketing, the power of story, online evangelism and discipleship, building online communities, and participating in networks and platforms.

Credits: 3

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credits

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

This class is to be taken twice totaling 6 credit hours.

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit

hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

General Elective - 3 Credits

Choose one course of your choice that you would like to take worth 3 credits.

Year Three

Fall Semester

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

Select One of the Following

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

General Elective- 3 Credits

Choose one course of your choice that you would like to take worth 3 credits.

Spring Semester

MISS 3013 - MISSIONAL LIFE

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

PMIN 3213 - STRATEGIC MINISTRY

This course is a study of approaches to strategic planning and the execution of strategic plans in ministry contexts. The course also examines the role of designing, communicating, creating, and evaluating systems necessary for the fruition of strategic plans.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Old Testament Elective- Select One

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

General Elective- 3 Credits

Choose one course of your choice that you would like to take worth 3 credits.

Year Four**Fall Semester****ENGL 2133 - INTRODUCTION TO LITERATURE**

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve program interventions, service offerings, and product ideas.

Credits: 3

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

New Testament Elective - Select One**BINT 3413 - PAULINE LITERATURE**

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical

correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Other Programs

Bachelor of Science, Ministerial Leadership: Missional Leadership (Four-Year Plan)

First Year

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry(with Lab) Select One:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Or

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

Or

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Or

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3543 - THE BOOK OF THE TWELVE

This course analyzes the Minor Prophets in the Old Testament, which includes the books of Hosea through Malachi canonically. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods; analyses of texts; and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3843 - THE WRITINGS

An overview of The Writings (Psalms, Song of Songs, Job, Proverbs, Ecclesiastes, Ruth, Lamentations, Esther, Daniel, Ezra-Nehemiah and 1-2 Chronicles) with emphasis on the historical setting, literary context, and theological emphases of these books. Attention will be given to literary genre, interpreting the Writings within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3403 - HISTORY & GEOGRAPHY ANCIENT ISRAEL

This course offers an orientation of the archeology and history of Israel from the time of the conquest of Canaan through the return from the Babylonian exilic period. Special attention is given to the changing cartography of Israel in the various periods of dominion, the prominent religious and political leaders, the impact of foreign cultures and powers on the nation, and God's covenant faithfulness to Israel. The course is taught on location in Israel.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3043 - HEBREW I

This course is a basic study in the grammar, syntax, and vocabulary of Biblical Hebrew, designed to prepare students for and engage students in elementary translation.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3053 - HEBREW II

This course will engage students in developing basic and intermediate grammar, syntax, and vocabulary of Biblical Hebrew, developing translation and exegetical skills.

Prerequisites & Notes

NULL

Credits: 3

BIBL 4013 - JEWISH AND EARLY CHRISTIAN APOCALYP

This course is a literary and theological study of Jewish and early Christian apocalyptic literature, including an analysis of the historical setting, language, and special symbolism in Daniel, Enoch literature, 4 Ezra, 2 Baruch, the Sibylline Oracles, the Qumran apocalyptic literature, Revelation, and the Shepherd of Hermas. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural-geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3224 - ACTS STUDIES

This course is a study of the Book of Acts with special attention given to literary, socio-historical-cultural background and theological understanding of this book. Special emphasis will be given to the place of the Spirit in Acts and the implications for the early church and today.

Prerequisites & Notes

NULL

Credits: 3

BINT 3333 - GENERAL EPISTLES

This course analyzes texts from the General Epistles: Hebrews, James, 1 and 2 Peter, Jude and 1-3 John. Attention is given to literary, socio-historical-cultural and theological understandings. The professor may overview these books or emphasize one or more of them.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3033 - GREEK I

This course engages the students in the rudiments of Koine Greek as the first step in preparation for translation of the Greek New Testament.

Prerequisites & Notes

NULL

Credits: 3

BINT 3043 - GREEK II

This course engages students in an intermediate use of Koine Greek exegesis.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective - 3 Credit Hours

SPRING SEMESTER - 14 CREDIT HOURS

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Credits: 3

THEO 4933 - SENIOR CAPSTN INTEGRATN SEMINAR

This capstone course engages students in ascertaining the certainty and clarity of their call to the care of souls, recognizing such certainty and clarity for longevity in church or para-church related ministry. Students will develop strategies to engage financial, emotional, physical, and spiritual pressures that will challenge that call throughout their careers. Students will move toward the clarification and assessment of their ministerial call through a series of interactions with faculty. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

(Main Campus Students Only)

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

(Online Students Only)

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

(Site Based Students Only)

Divine Design Elective - 8 Credit Hours

Bachelor of Science, Ministerial Leadership: Missional Leadership - 4-Year Plan

Year One

Fall Semester

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This

course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Year Two

Fall Semester

BIBL 2623 - BIBLICAL HERMENEUTICS

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

CRIM 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

Spring Semester

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

SSCI 2033 - HUMANS IN SOCIETY

This course introduces the student to the multidisciplinary field of social science by exploring the social theories, phenomena, institutions, and forces that shape society. Emphasis is placed on exploring the existence and perpetuation of social problems as a means of introducing the social sciences and applying critical thinking skills to these diverse issues.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

Year Three

Fall Semester

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

MISS 3013 - MISSIONAL LIFE

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

PMIN 3213 - STRATEGIC MINISTRY

This course is a study of approaches to strategic planning and the execution of strategic plans in ministry contexts. The course also examines the role of designing, communicating, creating, and evaluating systems necessary for the fruition of strategic plans.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Select One(1) of the Following - 3 Credit Hours

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Year Four

Select One(1) of the Following - 3 Credit Hours

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Fall Semester

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve program interventions, service offerings, and product ideas.

Credits: 3

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

MISS 3043 - DIGITAL MINISTRY

This course explores emerging opportunities for engaging in digital ministry. Students are introduced to important trends and topics for doing ministry in the digital space. The course practically equips students with knowledge and skills to inspire action steps in digital ministry. Relevant topics include: developing a digital strategy, best practices in digital ministry marketing, the power of story, online evangelism and discipleship, building online communities, and participating in networks and platforms.

Credits: 3

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Science, Ministerial Leadership: Missional Leadership, 4 Year Plan (Online Program)

Year One

Fall Semester

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

A course designed to familiarize the student with the science of interpretation as related to the Biblical text. Emphasis is placed upon the principles of exegesis, particularly the interpretation of scripture in light of its historical, grammatical and theological content.

Prerequisites & Notes

BIOT 1433 and BINT 1533

Credits: 3

Math Elective-Select One

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

Natural Science & Lab Elective- Select One

CRIM 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

General Elective- 3 Credit Hours

Choose one course of your choice that you would like to take worth 3 credits.

Spring Semester

HITH 3013 - THE CHURCH FROM THE REFORMATION THROUGH THE MODERN ERA

This course examines developments within the church from the era of the Protestant Reformation through the modern era, from approximately the year 1500 through 2000 AD. Issues to be addressed include: reforming expressions within the western church; reorganization and re-institutionalization within Protestant communities and re-visioning purpose within Roman Catholic expressions; the intersection of church and state; pietistic, missional, and scholastic expressions of the church; the reengagement of global expressions of the church during the late modern era.

Prerequisites & Notes

NULL

Credits: 3

Social Science Electives- Select One

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

SSCI 2033 - HUMANS IN SOCIETY

This course introduces the student to the multidisciplinary field of social science by exploring the social theories, phenomena, institutions, and forces that shape society. Emphasis is placed on exploring the existence and perpetuation of social problems as a means of introducing the social sciences and applying critical thinking skills to these diverse issues.

Prerequisites & Notes

NULL

Credits: 3

History Elective

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

Nevada Based Students

Nevada students only: students residing in Nevada are required to take PPOL 2433 to fulfill the history elective requirement.

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

General Elective- 3 Credit Hours

Choose one course of your choice that you would like to take worth 3 credits.

Year Three

Fall Semester

MISS 3023 - MINISTRY INNOVATION

This course equips students for developing and participating in outcome-based ministry. Because ministry design forms the foundation for effective outcome-based ministry, much of the course will center around ministry design. Students will learn how to assess needs and develop appropriate ministry interventions.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2032 - STUDENT MINISTRY PRACTICUM I

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

THEO 3023 - THEOLOGY I

This course is an introduction to systematic and contextualized theologies. It addresses Scripture, God, creation, humanity, Christ, and the Holy Spirit. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

Spring Semester

PMIN 2042 - STUDENT MINISTRY PRACTICUM II

This course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 2

PMIN 3213 - STRATEGIC MINISTRY

This course is a study of approaches to strategic planning and the execution of strategic plans in ministry contexts. The course also examines the role of designing, communicating, creating, and evaluating systems necessary for the fruition of strategic plans.

Prerequisites & Notes

NULL

Credits: 3

THEO 3133 - THEOLOGY II

This course is an introduction to systematic and contextualized theologies. It addresses sin and atonement, salvation, the church, and the fulfillment of God's purposes. Special attention is given to the statement of fundamental truths of the General Council of the Assemblies of God.

Prerequisites & Notes

NULL

Credits: 3

MISS 3013 - MISSIONAL LIFE

This course equips students to think through the personal and missional implications of an integrated Christian worldview. Students will learn to apply biblical theology to their identity, work, and calling. The course briefly surveys historical epochs of missions, and examines critical ideas for 21st century missiological living, including: the history and theology of missions, global communication, non-profit and project management, digital ministry, and sustainable development.

Credits: 3

Old Testament Elective- Select One

BIOT 3433 - THE LATTER PROPHETS

This course analyzes the Latter Prophets in the Old Testament, which includes the prophetic books of Isaiah, Jeremiah, and Ezekiel. Emphases are placed upon eras and locations of writing, specifically the Assyrian, Babylonian, and Persian periods, the analyses of texts, and key applications of each of the prophets. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3423 - THE FORMER PROPHETS

This course overviews the Former Prophets (Joshua, Judges, 1 & 2 Samuel, 1 & 2 Kings) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Former Prophets within the Christian canonical context, and their ethical implications in the contemporary context. The professor may overview this literature or emphasize one or more specific books.

Prerequisites & Notes

Prerequisite: BIBL 2623

Credits: 3

BIOT 3123 - HEBREW POETRY

A study of poetry in the Old Testament with special emphasis given to Psalms and Song of Solomon. There will also be an analysis of the rhythm of thought and parallelism characteristic of Hebrew Poetry.

Prerequisites & Notes

NULL

Credits: 3

BIOT 3343 - TORAH STUDIES

This course overviews the Torah (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) with emphasis on the historical setting, literary context, and theological emphases of these books. Special attention will be given to literary genre, interpreting the Torah within the Christian canonical context, and the ethical implications of the message of the Torah in the contemporary context. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

Year Four

Fall Semester

MISS 3053 - MISSIONAL COMMUNICATION

This course is a broad survey of communication theory with a special emphasis on interpersonal, cross-cultural, and organizational communication in missional leadership. The course will help students understand how to effectively use verbal and written communication when working with people from a different culture than their own. Students will learn best practices in conflict resolution, basic branding, marketing, and stakeholder communication (both written and verbal).

Credits: 3

MISS 3033 - MISSIONAL DEVELOPMENT AND IMPACT

This course reviews the biblical and theological foundations for generous mercy, justice, and compassion, while practically orienting students to strategically apply these biblical and theological principles to issues related to poverty alleviation, community development, refugee and migrant populations, and sustainable impact. Students will learn how to holistically engage in a hurting world by bringing long-term and dignifying aid resulting in fruitful outcomes and will gain necessary knowledge and skills to develop effective strategies that respond to emerging challenges and opportunities for mission. The course guides students in acquiring practical skills and innovation tools to improve program interventions, service offerings, and product ideas.

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

New Testament Elective- Select One

BINT 3413 - PAULINE LITERATURE

This course examines literature that is attributed to Paul. This includes considering Pauline authorship, major themes, commonalities and differences in the writings, and influence upon the development of the church during the first century. Particular attention will be given to Paul's use of narrative to express theological truth and its historical correlations. The professor may overview all of this literature or emphasize one or more specific books.

Prerequisites & Notes

NULL

Credits: 3

BINT 3403 - JOHANNINE LITERATURE

This course examines literature that is attributed to John, in particular the gospel of John and the letters of John. Special attention will be given to the text with regard to its social, literary, and religious settings. Emphasis will be given to the

theology of the Johannine writings, with special focus on Christology and pneumatology.

Prerequisites & Notes

Prerequisite: BIBL 1113 , BIOT 1433 or BINT 1533

Credits: 3

BINT 3213 - JESUS AND THE GOSPELS

This course studies the life and teachings of Jesus as recorded in the gospels in light of the historical-cultural–geographical setting of the first century. The course emphasizes the major events of the life of Jesus and his central teachings. The professor may overview all of the Gospels or emphasize one or more of them in this course.

Prerequisites & Notes

NULL

Credits: 3

BINT 3003 - LUKE-ACTS

This course examines the narratives of Luke as he engages the person and work of Christ and the nature and work of the church. The role of God's kingdom as expressed through gospel and in the life of the church will be emphasized. Literary dynamics such as narrative and parallelism will be engaged. The mission and message of the early Christian community expressed in its eschatological commitments through the workings of the Holy Spirit will be addressed.

Prerequisites & Notes

NULL

Credits: 3

General Elective- 3 Credit Hours

Choose one course of your choice that you would like to take worth 3 credits.

Spring Semester

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2443 - FOUNDATIONS OF MINISTRY

This course is an overview of key elements that are foundational for long-term effectiveness in ministry within a variety of contexts with special attention to the ministry of the local church. The course discusses vocation, identity, spiritual formation, and ethical practice in relationship to ministry.

Prerequisites & Notes

NULL

Credits: 3

MISS 3063 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the processes, concepts, and application of project management. The course focuses on both the conceptual understanding and practical application of leading teams to meet project goals and creating value that aligns with the strategic plans of an organization.

Credits: 3

MISS 3043 - DIGITAL MINISTRY

This course explores emerging opportunities for engaging in digital ministry. Students are introduced to important trends and topics for doing ministry in the digital space. The course practically equips students with knowledge and skills to inspire action steps in digital ministry. Relevant topics include: developing a digital strategy, best practices in digital ministry marketing, the power of story, online evangelism and discipleship, building online communities, and participating in networks and platforms.

Credits: 3

General Elective- 3 Credit Hours

Choose one course of your choice that you would like to take worth 3 credits.

Additional Requirements for Sitting for the CPA Exam

In Florida, there are different requirements for taking the CPA Exam and for becoming a licensed CPA. In order to be eligible to sit for the CPA Exam, a candidate needs to have earned 120 total semester hours including 24 semester hours in upper-division accounting courses (with coverage of auditing, cost accounting, financial accounting, and taxation) and 24 semester hours of upper-division general business courses (with coverage of business law). To become a licensed CPA a candidate needs to pass the CPA exam, have one year of work experience commencing after the completion of the 120 semester hours from an accredited university, and earn 30 additional academic semester hours (for a total of 150 semester hours). In addition to earning the 150 total semester hours, candidates also need to have completed an additional 6 semester hours (bringing the total to 30 semester hours) in upper-division accounting courses (with coverage of auditing, cost accounting, financial accounting, and taxation) and an additional 12 semester hours (bringing the total to 36 semester hours) of upper-division general business courses (with coverage of business law).

The School of Business in the Jannetides College at Southeastern University offers the necessary

30 additional semester hours as well as the 6 extra upper-division accounting and 12 upper-

division general business semester hours. All students/CPA candidates should meet with their

accounting faculty advisor to plan for the additional credits of university work. The requirements listed above are subject to change. It is up to the CPA candidate to stay current with what is required. The State of Florida requirements can be found on the following two webpages: [http://www.myfloridalicense.com/DBPR/certified-public-accounting/education-](http://www.myfloridalicense.com/DBPR/certified-public-accounting/education-requirements/)

[requirements/](http://www.myfloridalicense.com/DBPR/certified-public-accounting/education-requirements/) and [http://www.myfloridalicense.com/DBPR/certified-public-](http://www.myfloridalicense.com/DBPR/certified-public-accounting/education-requirements/)

[accounting/licensure/](http://www.myfloridalicense.com/DBPR/certified-public-accounting/education-requirements/). Students planning to start their career in public accounting and/or earn the

CPA credential outside of the State of Florida should contact their local State Board of

Accountancy for specific requirements.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

OR

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 63 Credit Hours

Business Pre-Core - 12 Credit Hours

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 21 Credit Hours

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3513 - QUANTITATIVE METHODS

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

ACTG 3603 - ACCOUNTING INFORMATION SYSTEMS

This course provides the groundwork for creating, analyzing, and managing an accounting information system in a variety of technological environments with added emphasis on utilizing appropriate software packages that are prevalent in the industry. This course is cross-listed with CTIS 3603.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Accounting Core - 30 Credit Hours

ACTG 3113 - INTERMEDIATE ACCOUNTING I

This course covers accounting principles in the areas of the conceptual framework, revenue recognition, time value of money, and generally accepted accounting principles (GAAP) related to cash, accounts receivable, inventory, asset and liability accrual accounts, long-lived assets, and investment securities.

Prerequisites & Notes

None

Credits: 3

ACTG 3123 - INTERMEDIATE ACCOUNTING II

This course examines the accounting principles and techniques related to short- and long-term liabilities, income taxes, owners' equity, and earnings per share. Course coverage also includes the statement of cash flows and special topics in the areas of error corrections, and disclosures.

Prerequisites & Notes

ACTG 3113

Credits: 3

ACTG 3133 - MANAGERIAL COST ACCOUNTING

This course examines cost behavior patterns, cost accounting systems for different entities, relevant information for decision-making, cost-volume-profit analysis, budgets, and standard costs for control and planning.

Prerequisites & Notes

BUSI 2133 & BUSI 2233

Credits: 3

ACTG 4103 - NOT-FOR-PROFIT ACCOUNTING

This class reviews theory related to both not-for-profit entities and governmental accounting, and extensively covers the application of financial and managerial accounting, auditing, and principles of governmental accounting.

Prerequisites & Notes

ACTG 3123

Credits: 3

ACTG 4113 - ADVANCED ACCOUNTING I

This course reviews special topics of financial reporting and analysis and provides a detailed study of the conceptual framework of accounting, the preparation of the statement of cash flows, special reporting topics, accounting for foreign operations, and partnerships.

Prerequisites & Notes

ACTG 3123

Credits: 3

ACTG 4123 - ADVANCED ACCOUNTING II

This course covers the procedures related to accounting for mergers and acquisitions, including a variety of issues related to the preparation of consolidated financial statements.

Prerequisites & Notes

ACTG 3123

Credits: 3

ACTG 4133 - TAXATION - INDIVIDUALS

This course covers concepts used in taxation of income by the federal government, including tax laws, examination of tax policy issues, tax research, and preparation of tax returns.

Prerequisites & Notes

ACTG 3123

Credits: 3

ACTG 4143 - TAXATION - CORPORATIONS & OTHER ORGANIZATIONS

This course covers tax issues encountered by small businesses. It includes tax planning, capital formation and preservation, tax compliance, and tax alternatives.

Prerequisites & Notes

ACTG 3123

Credits: 3

ACTG 4153 - AUDITING

This course covers the basic auditing process from the perspective of the public accounting profession. Professional standards, ethics, legal responsibilities, and the utilization of technology are addressed.

Prerequisites & Notes

BUSI 2233

Credits: 3

ACTG 4163 - FINANCIAL STATEMENT ANALYSIS

This course provides a background for understanding methods used to analyze financial statements for lending, investing, and management purposes. In addition to text material, the course will utilize the financial statements of a publicly traded company for analytical skill development purposes.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 23 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Accounting (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to

live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

ACTG 3133 - MANAGERIAL COST ACCOUNTING

This course examines cost behavior patterns, cost accounting systems for different entities, relevant information for decision-making, cost-volume-profit analysis, budgets, and standard costs for control and planning.

Prerequisites & Notes

BUSI 2133 & BUSI 2233

Credits: 3

ACTG 3113 - INTERMEDIATE ACCOUNTING I

This course covers accounting principles in the areas of the conceptual framework, revenue recognition, time value of money, and generally accepted accounting principles (GAAP) related to cash, accounts receivable, inventory, asset and liability accrual accounts, long-lived assets, and investment securities.

Prerequisites & Notes

None

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

ACTG 3123 - INTERMEDIATE ACCOUNTING II

This course examines the accounting principles and techniques related to short- and long-term liabilities, income taxes, owners' equity, and earnings per share. Course coverage also includes the statement of cash flows and special topics in the areas of error corrections, and disclosures.

Prerequisites & Notes

ACTG 3113

Credits: 3

ACTG 3603 - ACCOUNTING INFORMATION SYSTEMS

This course provides the groundwork for creating, analyzing, and managing an accounting information system in a variety of technological environments with added emphasis on utilizing appropriate software packages that are prevalent in the industry. This course is cross-listed with CTIS 3603.

Prerequisites & Notes

BUSI 2233

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded

arguments, and prepare students for future academic success.

Credits: 3

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

OR

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Business Pre-Core - 12 Credit Hours

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 18 Credit Hours

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Finance Core - 15 Credit Hours

ACTG 3113 - INTERMEDIATE ACCOUNTING I

This course covers accounting principles in the areas of the conceptual framework, revenue recognition, time value of money, and generally accepted accounting principles (GAAP) related to cash, accounts receivable, inventory, asset and liability accrual accounts, long-lived assets, and investment securities.

Prerequisites & Notes

None

Credits: 3

ACTG 3123 - INTERMEDIATE ACCOUNTING II

This course examines the accounting principles and techniques related to short- and long-term liabilities, income taxes, owners' equity, and earnings per share. Course coverage also includes the statement of cash flows and special topics in the areas of error corrections, and disclosures.

Prerequisites & Notes

ACTG 3113

Credits: 3

FINC 3803 - INVESTMENTS

This course is comprised of an analysis of investment institutions, philosophies, and the principles of the individual and institutional investor.

Prerequisites & Notes

None

Credits: 3

FINC 3903 - INTERMEDIATE FINANCIAL MANAGEMENT

This course provides a rigorous treatment of corporate finance concepts. The primary objective of the course is to further students' understanding of corporate financial decisions. These decisions include choosing between investment opportunities, how much debt and equity to issue, measuring risk and return, and what level of dividend to payout.

Prerequisites & Notes

NULL

Credits: 3

FINC 4163 - FINANCIAL STATEMENT ANALYSIS

This course provides a background of understanding for lending, investing, and management purposes. In addition to text material, the course will utilize the financial statements of a publicly traded company for analytical skill development purposes.

Prerequisites & Notes

ACTG 3123

Credits: 3

Divine Design - 41 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Finance (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions,

estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

OR

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Business Pre-Core - 12 Credit Hours

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 18 Credit Hours

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

International Business Core - 15 Credit Hours

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

MKTG 3113 - INTERNATIONAL MARKETING

Marketing planning and strategizing in the global environment is the primary emphasis. Other topics examined will cover the economic and political factors that affect the international marketer and international marketing operations.

Prerequisites & Notes

BUSI 3303

Credits: 3

FINC 4113 - INTERNATIONAL FINANCIAL MANAGEMENT

This course studies the international financial markets by focusing on exchange rates, international parity conditions, and foreign currency risk. The student shall learn the conceptual framework as well as a working knowledge of the complex, multicurrency, multimarket, multicultural environment in which today's multinational firms must operate.

Prerequisites & Notes

NULL

Credits: 3

INTL 4903 - INTERNATIONAL BUSINESS INTERNSHIP

This is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. An International Internship is required of all international business majors. Prerequisites: INTL 3153 International Business, BUSI 3203 Principles of Management, and approval by the Academic Advisor and the Chair of the Business Administration Department or his/her designee.

Prerequisites & Notes

INTL 3153, BUSI 3203, Approval by the Academic Advisor and the Chair of the Business Administration Department or his/her designee; Junior status and 2.5 GPA

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

Divine Design - 41 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, International Business (Four-Year Plan)**Year One****FALL SEMESTER - 16 CREDIT HOURS****CORE 1111 - COMMUNITY AND COLLEGE SUCCESS**

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded

arguments, and prepare students for future academic success.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

Bachelor of Science, Legal Studies

Bachelor of Science, Legal Studies (Four-Year Plan)

Through the Legal Studies degree, students will explore the multifaceted field of law and justice. The program's core curriculum provides the framework necessary for specific areas of law. With two concentration options, students can choose from either a paralegal focus or a pre-law school emphasis. The paralegal track introduces students to the logistical aspects of a law office and basic administrative skills of a paraprofessional. The pre-law route integrates legal theory and practical application, preparing students for graduate studies. In addition, students have 25 credit hours of free electives, providing them with flexibility to pick and choose from other disciplines.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - 3 Credit Hours

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two (2) of the Following (6 Credit Hours):

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One (1) of the Following (3 Credit Hours):

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Legal Studies Core - 45 Credit Hours

PLAW 3013 - INTRODUCTION TO LEGAL THEORY

This course introduces students to the profession of law with emphasis on the distinction and relationship of theory and practice. Advice is offered to students on preparing for and choosing a law school. The course also provides practical advice on how to succeed in law school. Students will also be exposed to basic legal research and writing techniques.

Prerequisites & Notes

None

Credits: 3

PLAW 3003 - LEGAL TERMINOLOGY & THE LITIGATION PROCESS

This legal course introduces the student to legal terms in the legal profession. Students will use knowledge from this course foundationally as they progress through the Legal Studies major. It will provide a better understanding of the

legal process and the profession.

Prerequisites & Notes

None

Credits: 3

POLS 2403 - UNITED STATES CONSTITUTION

A study of the legal culture in the United States, including the British common law system, the origin of the U.S. Constitution, the amendments, and the landmark cases.

Prerequisites & Notes

NULL

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3413 - BUSINESS LAW II

This course is a continuation of Business Law I, with additional emphasis on contracts, sales, commercial paper, secured transactions, bankruptcy, debtor-creditor relationships, agency, partnerships and joint ventures, corporations, federal securities acts, professional responsibilities, regulation of employment and environment, property, insurance and trusts and estates.

Prerequisites & Notes

BUSI 3403

Credits: 3

PLAW 3433 - LEGAL RESEARCH & WRITING

This course is designed to teach students how to identify and analyze legal problems. Students will engage in legal research using primary and secondary sources. Upon completion of the legal analysis of a problem, students will prepare a written form that adheres to the conventions of the legal profession.

Prerequisites & Notes

None

Credits: 3

PLAW 4143 - LEGAL DRAFTING

This course is an introduction to purposes and uses of various legal document drafting formats. The primary focus is on creation of basic legal documents that meet appropriate professional standards.

Prerequisites & Notes

None

Credits: 3

PLAW 3333 - LAW SCHOOL PREPARATORY COURSE

This course is designed to assist students in developing a proper skillset in preparation for the Law School Assessment Test (LSAT). Students will also be trained in the proper style for law school applications and personal statements.

Prerequisites & Notes

None

Credits: 3

PLAW 4413 - ETHICS IN THE LEGAL PROFESSION

This course introduces students to the types of ethical situations and dilemmas they may encounter in the legal workforce. Students will learn applicable disciplinary rules for both the lawyer and the paralegal, in order to understand how to function responsibly as a legal professional.

Prerequisites & Notes

Junior standing

Credits: 3

PLAW 4243 - MOOT COURT

This course will prepare students to work in a team setting. Students will be assigned to a team and will prepare appellate arguments based on hypothetical cases. Students will develop, prepare, and practice their arguments in class. The teams will participate in regional and national competitions that are judged by law school students, professors, and sitting jurists.

Prerequisites & Notes

None

Credits: 3

PLAW 4443 - ADVANCED LEGAL RESEARCH & THEORY

This course emphasizes the use of advanced electronic legal research techniques and critical analysis of legal issues. Using a variety of hypothetical and factual situations, students will prepare effective written persuasive presentations in an acceptable legal format.

Prerequisites & Notes

None

Credits: 3

BUSI 1013 - INTRO TO ACCOUNTING AND FINANCE

This course provides an introduction to the basics of accounting and finance. It is intended for business minors and places emphasis on the understanding of the language of accounting and finance, recording of transactions, financial statements, time value of money, financial ratios, and managerial decision-making, using accounting and finance information.

Prerequisites & Notes

None

Credits: 3

CRIM 2203 - CRIMINAL JUSTICE SYSTEM

This course covers the origin, evolution, and daily operation of the criminal justice system in the United States. Relationships between law enforcement, the court system, and corrections are studied.

Prerequisites & Notes

NULL

Credits: 3

CRIM 3403 - AMERICAN CRIMINAL COURTS

This course examines the court system in the United States and provides an introduction to the many elements of the judicial process. Major topics include: the role of the courts, trial procedures, role of decision makers in the court system, the distinctions between civil and criminal systems, the alternatives available to the accused prior to trial proceedings, and public policy as it relates to the court system.

Prerequisites & Notes

Prerequisite: CRIM 2203

Credits: 3

POLS 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

PLAW 4903 - PRE-LAW INTERNSHIP

This course is designed to give students a practical introduction to the legal profession by spending time observing and working with a practicing local attorney or judge. This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Students are strongly encouraged to

utilize this option to explore potential career paths.

Prerequisites & Notes

PLAW 3013

Credits: 3

Divine Design - 38 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Legal Studies (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

PLAW 3013 - INTRODUCTION TO LEGAL THEORY

This course introduces students to the profession of law with emphasis on the distinction and relationship of theory and practice. Advice is offered to students on preparing for and choosing a law school. The course also provides practical advice on how to succeed in law school. Students will also be exposed to basic legal research and writing techniques.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

PLAW 3433 - LEGAL RESEARCH & WRITING

This course is designed to teach students how to identify and analyze legal problems. Students will engage in legal research using primary and secondary sources. Upon completion of the legal analysis of a problem, students will prepare a written form that adheres to the conventions of the legal profession.

Prerequisites & Notes

None

Credits: 3

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

PLAW 3003 - LEGAL TERMINOLOGY & THE LITIGATION PROCESS

This legal course introduces the student to legal terms in the legal profession. Students will use knowledge from this course foundationally as they progress through the Legal Studies major. It will provide a better understanding of the legal process and the profession.

Prerequisites & Notes

None

Credits: 3

POLS 2403 - UNITED STATES CONSTITUTION

A study of the legal culture in the United States, including the British common law system, the origin of the U.S. Constitution, the amendments, and the landmark cases.

Prerequisites & Notes

NULL

Credits: 3

BUSI 1013 - INTRO TO ACCOUNTING AND FINANCE

This course provides an introduction to the basics of accounting and finance. It is intended for business minors and places emphasis on the understanding of the language of accounting and finance, recording of transactions, financial statements, time value of money, financial ratios, and managerial decision-making, using accounting and finance information.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:**HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY**

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS**CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR**

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

POLS 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

CRIM 2203 - CRIMINAL JUSTICE SYSTEM

This course covers the origin, evolution, and daily operation of the criminal justice system in the United States. Relationships between law enforcement, the court system, and corrections are studied.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (6 Credits)

Year Three

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 43 Credit Hours

Business Pre-Core - 12 Credit Hours

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 18 Credit Hours

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Management Core - 15 Credit Hours**BUSI 3513 - QUANTITATIVE METHODS**

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

MNGT 3173 - HUMAN RESOURCE MANAGEMENT

This course is a survey of the practices of staffing, development, employee relations, compensation and documentation applied to achieve productivity and the quality of work life. Topics include equal opportunity and other regulations impacting human performance.

Prerequisites & Notes

NULL

Credits: 3

MNGT 3183 - ORGANIZATIONAL BEHAVIOR

This is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

NULL

Credits: 3

BUSI 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs.

Prerequisites & Notes

BUSI 4603

Credits: 3

Variable Credit Course to be taken for 3 Credit Hours

Divine Design - 41 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Management (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information.

Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

Mission Core - Select One:

MISS 2533 - MISSIONARY LIFE AND WORK

A study of the missionary motive, objective, call, qualifications, and preparation of missionary candidates; spiritual and cultural life of the missionary on the field; the administration of missions at home and abroad; and methods used in planting indigenous churches. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

MISS 3303 - WORLD VIEWS AND MISSION STRATEGY

An investigation of humanity and various worldviews from a missionary perspective. Various dimensions of people groups and sub-systems are examined as they relate to the world as a whole and as a tool for developing effective missions strategy. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

MISS 3333 - THEOLOGY OF MISSIONS

An introduction to the theology of the Christian Mission in the Old Testament; and a study of the responsibility of the individual, the pastor and the church in its implementation. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

Practical Ministry Core - Select One:

PMIN 3623 - CHURCH PLANTING AND REVITALIZATION

This course engages contemporary paradigms for missional church planting and revitalization. Practices are evaluated to determine the basic theological principles to be employed, including providing critiques for effectiveness of those principles and practices in various missional contexts. Resources for facilitating and assessing spiritual growth and in missional contexts are also presented and evaluated. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

PMIN 2223 - EVANGELISM AND MISSION

A study of the history and practice of evangelism in the church, with an emphasis on the theological foundation and praxis. An investigation of the major methods of evangelism used throughout the history of the church and a contemporary application will be presented. Skills will be developed to become an effective and relevant witness for Christ in this generation.

Prerequisites & Notes

NULL

Credits: 3

Minor, Entrepreneurship

Total of 18 Credit Hours

BUSI 1003 - FOUNDATIONS OF BUSINESS

This course is an introduction to business in a mixed economy. This course includes an overview of the major areas of study in the business curriculum including economics, finance, management, and marketing.

Prerequisites & Notes

None

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

MNGT 4163 - ENTREPRENEURSHIP

This course studies the science of designing and operating a new venture. The roles of personnel, operations, logistics, marketing, finances, legal structure, and ethics are examined. Creating a business plan and operating a micro business for a viable enterprise are critical to this course.

Prerequisites & Notes

None

Credits: 3

Entrepreneurship - Select One:

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BUSI 3073 - 3D PRINTING MAKER

In this course, students will learn the basics of 3D printing and part design to produce a final project using the knowledge learned. Knowledge base will range from exploring various types of printing to designing projects using printing software and hardware.

Prerequisites & Notes

None

Credits: 3

LDRS 2143 - CREATIVITY & CRITICAL THINKING

This course is designed to help students develop creativity, critical thinking, and problem-solving skills. It explores psychological and other factors that affect creativity, and debunks creativity myths. The course examines brainstorming, problem solving, and plan implementation. It covers divergent and convergent thinking, cognitive biases, logical fallacies, elements of persuasion, and viable solutions.

Prerequisites & Notes

None

Credits: 3

Internship - Select One:

THMT 4903 - TOURISM & HOSPITALITY INTERNSHIP

This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. Students will work a minimum of 150 hours.

Prerequisites & Notes

Approval from Program Coordinator of the Tourism and Hospitality Management Program. Typically, Junior standing and at least a 2.5 cumulative GPA.

Credits: 3

BUSI 4903 - BUSINESS INTERNSHIP

This elective course requires work experience, on and/or off campus, in an organization providing on-the-job training in business. The intern will be supervised by a faculty coordinator and a supervisor in the organization and will report work experience through written and verbal reports to the faculty coordinator. Internships are calculated at the rate of

50 hours of work experience for 1 credit hour and a student may earn up to 15 credits.

Prerequisites & Notes

None

Credits: 3

Accounting- Select One:

BUSI 1013 - INTRO TO ACCOUNTING AND FINANCE

This course provides an introduction to the basics of accounting and finance. It is intended for business minors and places emphasis on the understanding of the language of accounting and finance, recording of transactions, financial statements, time value of money, financial ratios, and managerial decision-making, using accounting and finance information.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Minor, Information Management and Data Analysis

Total of 18 Credit Hours

BUSI 3513 - QUANTITATIVE METHODS

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

ACTG 3603 - ACCOUNTING INFORMATION SYSTEMS

This course provides the groundwork for creating, analyzing, and managing an accounting information system in a variety of technological environments with added emphasis on utilizing appropriate software packages that are prevalent in the industry. This course is cross-listed with CTIS 3603.

Prerequisites & Notes

BUSI 2233

Credits: 3

ACTG 3703 - ADVANCED ACCOUNT APPL IN EXCEL

This course provides understanding of advanced formulas and functions that elevates Excel from a basic spreadsheet program into a productive analytics tool.

Prerequisites & Notes

NULL

Credits: 3

CTIS 3803 - INTRODUCTION TO DATABASES AND SQL PROGRAMMING

This course develops skills needed to structure databases and generate SQL (Structured Query Language) queries for the purpose of creating, modifying, and querying multi-table databases and producing analytical output useful for analysis and decision making.

Prerequisites & Notes

CTIS 2133 and ACTG 3603

Credits: 3

ACTG 4163 - FINANCIAL STATEMENT ANALYSIS

This course provides a background for understanding methods used to analyze financial statements for lending, investing, and management purposes. In addition to text material, the course will utilize the financial statements of a publicly traded company for analytical skill development purposes.

Prerequisites & Notes

NULL

Credits: 3

Minor, Management

Total of 18 Credit Hours

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

MNGT 3183 - ORGANIZATIONAL BEHAVIOR

This is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

NULL

Credits: 3

MNGT 3173 - HUMAN RESOURCE MANAGEMENT

This course is a survey of the practices of staffing, development, employee relations, compensation and documentation applied to achieve productivity and the quality of work life. Topics include equal opportunity and other regulations impacting human performance.

Prerequisites & Notes

NULL

Credits: 3

Minor, Marketing

Total of 18 Credit Hours

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

MKTG 4173 - RETAIL MANAGEMENT

Retailing is examined from a decision making approach. Topics covered include retailing strategy, consumer shopping behavior, human resource planning, the retail mix, communications, merchandising, atmospherics and location.

Prerequisites & Notes

BUSI 3303

Credits: 3

MKTG 4133 - MARKETING RESEARCH

This course will examine the techniques used to define problems, gather research information, process primary and secondary sources of information, and the reporting of the information to solve marketing problems. Statistical analysis in the reporting of information is given a heavy emphasis.

Prerequisites & Notes

BUSI 3033 and MATH 1433

Credits: 3

MKTG 4113 - ADVERTISING

This course covers advertising, creative philosophies, copy preparation, ad-layout techniques for diverse advertising media, media planning, and media-buying tactics.

Prerequisites & Notes

BUSI 3303

Credits: 3

MKTG 3133 - PROFESSIONAL SELLING

This course will focus on developing and applying essential professional selling skills through the use of interpersonal communication to effectively market goods and services and yourself. Emphasis is placed upon the personal selling process through study and application.

Prerequisites & Notes

BUSI 3303

Credits: 3

MKTG 3123 - CONSUMER BEHAVIOR

This course is an examination of the structure, function, and behavior of marketing systems. Factors including the internal, situational, social and economic environments are reviewed with respect to their effects on consumer decision making.

Prerequisites & Notes

None

Credits: 3

Minor, Pre-Law

In order to earn a minor in Pre-Law, students are required to take both "Introduction to the Legal Theory and Practice of Law" and "Pre-Law Internship," plus 14 additional credit hours from the selection of courses below, for a total of 18 credits. This minor in Pre-Law is not required for application to nor to be successful in law school. It is only offered as one structured way to prepare for law school. Students should consult with their advisors to determine the best combination of majors, minors and electives to insure personal success in law school.

Other minors which may be beneficial to a student directed toward law school are Religion, Psychology, Sociology, History, Business, English, and Communication.

Also, the equivalent of a minor in Political Science is available to Southeastern students via the Council for Christian Colleges and Universities' American Studies Program in Washington, D.C. The program is competitive, however, and one must apply and be accepted to participate.

Pre-Law Club

The Pre-Law Club is an association of students interested in going to law school. The club typically meets once or twice a semester to invite a local attorney to address some aspect of the profession or advice about pursuing law school.

Total of 18 Credit Hours**PLAW 3013 - INTRODUCTION TO LEGAL THEORY**

This course introduces students to the profession of law with emphasis on the distinction and relationship of theory and practice. Advice is offered to students on preparing for and choosing a law school. The course also provides practical advice on how to succeed in law school. Students will also be exposed to basic legal research and writing techniques.

Prerequisites & Notes

None

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

PLAW 3333 - LAW SCHOOL PREPARATORY COURSE

This course is designed to assist students in developing a proper skillset in preparation for the Law School Assessment Test (LSAT). Students will also be trained in the proper style for law school applications and personal statements.

Prerequisites & Notes

None

Credits: 3

PLAW 3433 - LEGAL RESEARCH & WRITING

This course is designed to teach students how to identify and analyze legal problems. Students will engage in legal research using primary and secondary sources. Upon completion of the legal analysis of a problem, students will prepare a written form that adheres to the conventions of the legal profession.

Prerequisites & Notes

None

Credits: 3

PLAW 4243 - MOOT COURT

This course will prepare students to work in a team setting. Students will be assigned to a team and will prepare appellate arguments based on hypothetical cases. Students will develop, prepare, and practice their arguments in class. The teams will participate in regional and national competitions that are judged by law school students, professors, and sitting jurists.

Prerequisites & Notes

None

Credits: 3

Pre-Law Elective - Select One:

BUSI 3413 - BUSINESS LAW II

This course is a continuation of Business Law I, with additional emphasis on contracts, sales, commercial paper, secured transactions, bankruptcy, debtor-creditor relationships, agency, partnerships and joint ventures, corporations, federal securities acts, professional responsibilities, regulation of employment and environment, property, insurance and trusts and estates.

Prerequisites & Notes

BUSI 3403

Credits: 3

PLAW 4903 - PRE-LAW INTERNSHIP

This course is designed to give students a practical introduction to the legal profession by spending time observing and working with a practicing local attorney or judge. This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Students are strongly encouraged to utilize this option to explore potential career paths.

Prerequisites & Notes

PLAW 3013

Credits: 3

PLAW 4443 - ADVANCED LEGAL RESEARCH & THEORY

This course emphasizes the use of advanced electronic legal research techniques and critical analysis of legal issues. Using a variety of hypothetical and factual situations, students will prepare effective written persuasive presentations in an acceptable legal format.

Prerequisites & Notes

None

Credits: 3

PLAW 4143 - LEGAL DRAFTING

This course is an introduction to purposes and uses of various legal document drafting formats. The primary focus is on creation of basic legal documents that meet appropriate professional standards.

Prerequisites & Notes

None

Credits: 3

Bachelor of Business Administration, Data Science

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

OR

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 54 Credit Hours

Business Pre-Core - 18 Credit Hours

BUSI 1003 - FOUNDATIONS OF BUSINESS

This course is an introduction to business in a mixed economy. This course includes an overview of the major areas of study in the business curriculum including economics, finance, management, and marketing.

Prerequisites & Notes

None

Credits: 3

CTIS 2133 - DATA MANAGEMENT ANALYSIS

This course uses raw data in spreadsheets and databases to produce actionable information to drive management decisions. The course will focus on the data management resources available in standard spreadsheet and database packages.

Prerequisites & Notes

NULL

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 24 Credit Hours

BUSI 3513 - QUANTITATIVE METHODS

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Certificate, Data Science - 12 Credit Hours

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field. Additional fees are associated with this course

Prerequisites & Notes

None

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making. Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis. Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

Divine Design (Minor, Electives, Experiential Learning) - 32 Credit Hours

General Electives are any college-level courses that do not satisfy specific program requirements. To meet the Divine Design core requirements, students may declare minors, enroll in elective credit, and enjoy experiential learning like study abroad, internships, or practicum. Practicum course options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs). Students may earn up to 24 credit hours toward their degree program through experiential learning practicum.

Bachelor of Business Administration, Cybersecurity

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

OR

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 54 Credit Hours

Business Pre-Core - 18 Credit Hours

BUSI 1003 - FOUNDATIONS OF BUSINESS

This course is an introduction to business in a mixed economy. This course includes an overview of the major areas of study in the business curriculum including economics, finance, management, and marketing.

Prerequisites & Notes

None

Credits: 3

CTIS 2133 - DATA MANAGEMENT ANALYSIS

This course uses raw data in spreadsheets and databases to produce actionable information to drive management decisions. The course will focus on the data management resources available in standard spreadsheet and database packages.

Prerequisites & Notes

NULL

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 24 Credit Hours

BUSI 3513 - QUANTITATIVE METHODS

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Certificate, Cybersecurity - 12 Credit Hours

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally. Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical

exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS
