This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully. Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

Divine Design (Minor, Electives, Experiential Learning) - 32 Credit Hours

General Electives are any college-level courses that do not satisfy specific program requirements. To meet the Divine Design core requirements, students may declare minors, enroll in elective credit, and enjoy experiential learning like study abroad, internships, or practicum. Practicum course options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs). Students may earn up to 24 credit hours toward their degree program through experiential learning practicum.

Bachelor of Business Administration, Software Development

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community

awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles,

energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select One:

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

OR

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 54 Credit Hours

Business Pre-Core - 18 Credit Hours

BUSI 1003 - FOUNDATIONS OF BUSINESS

This course is an introduction to business in a mixed economy. This course includes an overview of the major areas of study in the business curriculum including economics, finance, management, and marketing.

Prerequisites & Notes

None

Credits: 3

CTIS 2133 - DATA MANAGEMENT ANALYSIS

This course uses raw data in spreadsheets and databases to produce actionable information to drive management decisions. The course will focus on the data management resources available in standard spreadsheet and database packages.

Prerequisites & Notes

NULL

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

Business Core - 24 Credit Hours

BUSI 3513 - QUANTITATIVE METHODS

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Software Development - 12 Credit Hours; Select one of the following certificates:

Declare your certificate through the Major/Minor Program Declaration Form

Certificate, Front-End Development - 12 Credit Hours

SDEV 1003 - FRONT-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Front-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of front-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of JavaScript. Additionally, students will learn the importance of writing unit tests using Jest, a popular JavaScript testing framework. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2003 - FRONT-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Front-End Developer Professional Certificate. It dives deeper into advanced aspects of front-end web development. This course covers practical skills, including version control systems implementation, command-line project navigation and configuration, and the creation and use of GitHub repositories for code management. Students will also learn to create responsive layouts with HTML5 and CSS, building simple forms and mastering the popular UI framework, Bootstrap. The course equips learners with debugging tools to rectify and enhance their coding efficiency. This course further refines and expands skills, fostering more confident and competent developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1003

Credits: 3

SDEV 3003 - FRONT-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Front-End Developer Professional Certificate. This course provides a deep dive into the use of React, a powerful JavaScript library. Participants will learn to leverage reusable components for dynamic data rendering and use props to facilitate data interchange between these components. The curriculum also emphasizes the organization of larger projects to ensure scalability and maintainability. It covers the creation of interactive web pages and user forms, and includes the construction of a complete application. Advanced techniques for creating robust, reusable components and server interactions via APIs are also explored. Students will learn to test applications with the React Testing Library and integrate commonly used libraries to streamline development. The course culminates in the creation of a comprehensive application, encapsulating all learned skills. Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 2003

Credits: 3

SDEV 4003 - FRONT-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Front-End Developer Professional Certificate. It navigates the complex process of designing and implementing user-focused web applications. It begins by introducing the fundamentals of User Experience (UX) design, accessibility considerations, and the importance of user empathy, and teaches students how to create wireframes and prototypes in Figma. The course then transitions into practical application, teaching students to design and style a responsive User Interface (UI), produce clean, bug-free code, and use React components to create multiple views. Students will create a complete website front-end using React JS. The course concludes with essential interview preparation, featuring coding problems and specific strategies for interviews at Meta.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 3003

Credits: 3

Certificate, Back-End Development - 12 Credit Hours**SDEV 1103 - BACK-END DEVELOPMENT I**

This course is the first of four courses that count toward the Meta Back-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of back-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of Python and object-oriented programming. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2103 - BACK-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Back-End Developer Professional Certificate. It extends the learner's comprehension of crucial tools and principles fundamental to back-end web development. The course instructs on implementing version control systems, ensuring effective code revision management. Students learn to navigate and configure projects using the command line and the creation and utilization of GitHub repositories. An essential part of the curriculum involves databases; students will identify the principles underpinning their operation and apply this knowledge to design, plan, and implement a straightforward database development project. The course is a vital step for individuals seeking to enhance their back-end development capabilities.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1103

Credits: 3

SDEV 3103 - BACK-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an advanced course that immerses learners in the intricate world of back-end development. Participants will build a functional web server and apply data modeling concepts essential to web development. A significant portion of the curriculum is dedicated to APIs, covering their development, usage, and the principles of REST architecture. Students will demonstrate their comprehension of these principles by constructing a basic API. This course is indispensable for individuals aiming to become proficient back-end developers.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 2103

Credits: 3

SDEV 4103 - BACK-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an intensive course designed to consolidate and advance your back-end development skills. Learners will develop a fully-functioning Django application that uses both front-end and back-end technologies. Practical application includes setting up a suitable Django development environment and creating a Django web server with multiple API endpoints. Additionally, the course offers strategic preparation for coding interviews, covering common formats and questions. With a focus on problem-solving, participants will apply coding skills to tackle complex, real-world challenges. This capstone course is the ultimate step for those aiming for mastery in back-end development.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 3103

Credits: 3

Divine Design (Minor, Electives, Experiential Learning) - 32 Credit Hours

General Electives are any college-level courses that do not satisfy specific program requirements. To meet the Divine Design core requirements, students may declare minors, enroll in elective credit, and enjoy experiential learning like study abroad, internships, or practicum. Practicum course options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs). Students may earn up to 24 credit hours toward their degree program through experiential learning practicum.

Bachelor of Business Administration, Cybersecurity (Four-Year Plan, Main Campus)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents.

Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS**CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION**

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

FINC 1903 - PERSONAL FINANCE LITERACY

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects

Prerequisites & Notes

BUSI 3103

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

FALL SEMESTER - 15 CREDIT HOURS

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the

professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully. Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 1003 - FOUNDATIONS OF BUSINESS

This course is an introduction to business in a mixed economy. This course includes an overview of the major areas of study in the business curriculum including economics, finance, management, and marketing.

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

SPRING SEMESTER - 14 CREDIT HOURS**BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS**

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

BUSI 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs.

Prerequisites & Notes

BUSI 4603

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

Year Four**FALL SEMESTER - 15 CREDIT HOURS**

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (12 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (12 Credits)

Bachelor of Business Administration, Data Science (Four-Year Plan, Main Campus)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BUSI 1003 - FOUNDATIONS OF BUSINESS

This course is an introduction to business in a mixed economy. This course includes an overview of the major areas of study in the business curriculum including economics, finance, management, and marketing.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BUSI 2123 - BUSINESS COMMUNICATION

This course is a study of effective communication in a business environment including the systematic research and appropriate synthesis in writing and speaking of the business information that guides managerial decisions. This course is writing intensive.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field. Additional fees are associated with this course

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making. Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis. Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

Year Three

FALL SEMESTER - 15 CREDIT HOURS

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

CTIS 2133 - DATA MANAGEMENT ANALYSIS

This course uses raw data in spreadsheets and databases to produce actionable information to drive management decisions. The course will focus on the data management resources available in standard spreadsheet and database packages.

Prerequisites & Notes

NULL

Credits: 3

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 3513 - QUANTITATIVE METHODS

This course covers quantitative aspects of problem-solving and decision-making. This includes waiting lines, inventory, Markov process, probability, game theory, forecasting, and linear programming. Emphasis is on practical quantitative and qualitative knowledge, skills, and abilities for the business major.

Prerequisites & Notes

MATH 2023

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

INTL 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BUSI 3203

Credits: 3

Divine Design Electives (6 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

Socio-Historical Inquiry - Select One:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Divine Design Electives (12 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Divine Design Electives (11 Credits)

Bachelor of Business Administration, Software Development (Four-Year Plan, Main Campus)

Total of 18 Credit Hours

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

Bachelor of Business Administration (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

Worldview Formation - Select One:

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:**PSYC 1133 - INTRODUCTION TO PSYCHOLOGY**

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

Bachelor of Business Administration (Online)

Bachelor of Business Administration (Four-Year Plan)

Program Description

The Bachelor of Business Administration (BBA) is a general undergraduate business degree built around a common core of business courses, with 27 hours of electives, suitable to accommodate a complementary minor. This is the recognized industry standard online business degree offered by Southeastern University.

A Bachelor of Business Administration degree covers fundamental business concepts, entrepreneurship, ethical business practices, teamwork, and leadership. Students will learn to communicate professionally, develop their management proficiency, and acquire other skills necessary to advance in a career of almost any field. This online program is a total of 120 credit hours: 56 credit hours of Foundational Core courses, 18 credit hours of business pre-core, 28 credit hours of business core, 6 credit hours of business electives, and 12 credit hours of general electives. Students also have the option to add a concentration in business leadership or marketing communication.

The BBA curriculum covers the Common Professional Components (CPC) and General Knowledge and Skills as prescribed by Accreditation Council for Business Schools and Programs (ACBSP) and industry best-practices.

The BBA is the degree understood in the marketplace as a comprehensive business degree for graduates wishing to start or grow their careers in business.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Credits: 3

Minor, Non Profit Management (Online)

Total of 18 Credit Hours

Non Profit Management Core - 12 Credit Hours

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

HRDV 3043 - HOLISTIC DEVELOPMENT

This course equips students with models that foster dignity rather than dependency and empowerment rather than entitlement. Students will learn how to partner with local churches and other stakeholders, assess community assets and needs, and formulate responsible approaches to community development. This introductory course on holistic development carefully builds a biblical view of poverty and a theology of responsible aid in the context of various real-world development topics. Students will also expand and deepen their understanding through service learning opportunities.

Prerequisites & Notes

None

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Non Profit Management Elective - Select Two:

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

HUSV 3833 - MANAGEMENT IN HUMAN SERVICES

This course provides an introduction to management practices of human service programs, agencies, and organizations with an emphasis on program development.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Science, Organizational Leadership (Online) Four-Year Plan

The Bachelor of Science in Organizational Leadership helps students learn to communicate effectively, motivate themselves and others, and be valued team members, whether followers or leaders. We strive to integrate our Christian

faith in our scholarship and practice. Students combine their leadership skills with a minor of their choice or study abroad experience to pursue the path God has put before them. The degree is suitable for graduates desiring to start or advance their careers in for-profit, non-profit, and government organizations.

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Minor, Accounting and Finance (Online)

Total of 18 Credit Hours

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

**Bachelor of Science, Business and Professional Leadership
(Four-Year Plan)**

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

Socio-Historical Inquiry - Select One:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

Socio-Historical Inquiry - Select One:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Year Three

FALL SEMESTER - 15 CREDIT HOURS

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3183 - ORGANIZATIONAL THEORY & BEHAVIOR

This course is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

None

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

SPRING SEMESTER - 14 CREDIT HOURS

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

BPLE 4141 - BUSINESS & PROFESSIONAL LDRS SEMINAR

This course is the capstone course for the major requirements for the business and professional leadership major and provides students the opportunity to synthesize and apply their learning in a workplace context. Insights are gained leadership profiles as they relate to the workplace. A written reflection and portfolio are required.

Prerequisites & Notes

Corequisite or Prerequisite: BBUS 4603

Credits: 2

- Variable Credit Course can be taken for 1 Credit Hour

Divine Design Electives (6 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

Divine Design Electives (15 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

Divine Design Electives (15 Credits)

Bachelor of Business Administration, Data Science (Online)

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 57 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a

Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Certificate, Data Science - 12 Credit Hours

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making. Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis. Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

* Can be 1 credit hour if needed

Divine Design (Minor, Electives, Experiential Learning) - 27 Credit Hours

To meet the Divine Design requirement, student may earn credit hours in general elective courses, declare minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), up to 24 credit hours. General Electives are any college-level courses that do not satisfy the above program requirements. Student must complete the above program requirements, with remaining credit hours earned in Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours**BIOL 1334 - ESSENTIALS OF HUMAN A&P**

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

Credits: 1

Social Science

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Business Administration, Cybersecurity (Online)

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours**BIBL 1113 - THE STORY OF SCRIPTURE**

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours**Discursive Inquiry - 6 Credit Hours****ENGL 1113 - COLLEGE COMPOSITION**

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 57 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a

Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Certificate, Cybersecurity - 12 Credit Hours

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully. Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

* Can be 1 credit hour if needed

Divine Design (Minor, Electives, Experiential Learning) - 27 Credit Hours

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Business Administration, Software Development (Online)

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will

focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 57 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Software Development - 12 Credit Hours; Select one of the following certificates:

Declare your certificate through the Major/Minor Program Declaration Form

Certificate, Front-End Development - 12 Credit Hours

SDEV 1003 - FRONT-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Front-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of front-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of JavaScript. Additionally, students will learn the importance of writing unit tests using Jest, a popular JavaScript testing framework. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2003 - FRONT-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Front-End Developer Professional Certificate. It dives deeper into advanced aspects of front-end web development. This course covers practical skills, including version control systems implementation, command-line project navigation and configuration, and the creation and use of GitHub repositories for code management. Students will also learn to create responsive layouts with HTML5 and CSS, building simple forms and mastering the popular UI framework, Bootstrap. The course equips learners with debugging tools to rectify and enhance their coding efficiency. This course further refines and expands skills, fostering more confident and competent developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1003

Credits: 3

SDEV 3003 - FRONT-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Front-End Developer Professional Certificate. This course provides a deep dive into the use of React, a powerful JavaScript library. Participants will learn to leverage reusable components for dynamic data rendering and use props to facilitate data interchange between these components. The curriculum also emphasizes the organization of larger projects to ensure scalability and maintainability. It covers the creation of interactive web pages and user forms, and includes the construction of a complete application. Advanced techniques for creating robust, reusable components and server interactions via APIs are also explored. Students will learn to test applications with the React Testing Library and integrate commonly used

libraries to streamline development. The course culminates in the creation of a comprehensive application, encapsulating all learned skills.
Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 2003

Credits: 3

SDEV 4003 - FRONT-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Front-End Developer Professional Certificate. It navigates the complex process of designing and implementing user-focused web applications. It begins by introducing the fundamentals of User Experience (UX) design, accessibility considerations, and the importance of user empathy, and teaches students how to create wireframes and prototypes in Figma. The course then transitions into practical application, teaching students to design and style a responsive User Interface (UI), produce clean, bug-free code, and use React components to create multiple views. Students will create a complete website front-end using React JS. The course concludes with essential interview preparation, featuring coding problems and specific strategies for interviews at Meta.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 3003

Credits: 3

Certificate, Back-End Development - 12 Credit Hours

SDEV 1103 - BACK-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Back-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of back-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of Python and object-oriented programming. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2103 - BACK-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Back-End Developer Professional Certificate. It extends the learner's comprehension of crucial tools and principles fundamental to back-end web development. The course instructs on implementing version control systems, ensuring effective code revision management. Students learn to navigate and configure projects using the command line and the creation and utilization of GitHub repositories. An essential part of the curriculum involves databases; students will identify the principles underpinning their operation and apply this knowledge to design, plan, and implement a straightforward database development project. The course is a vital step for individuals seeking to enhance their back-end development capabilities.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1103

Credits: 3

SDEV 3103 - BACK-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an advanced course that immerses learners in the intricate world of back-end development. Participants will build a functional web server and apply data modeling concepts essential to web development. A significant portion of the curriculum is dedicated to APIs, covering their development, usage, and the principles of REST architecture. Students will demonstrate their comprehension of these principles by constructing a basic API. This course is indispensable for individuals aiming to become proficient back-end developers.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 2103

Credits: 3

SDEV 4103 - BACK-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an intensive course designed to consolidate and advance your back-end development skills. Learners will develop a fully-functioning Django application that uses both front-end and back-end technologies. Practical application includes setting up a suitable Django development environment and creating a Django web server with multiple API endpoints. Additionally, the course offers strategic preparation for coding interviews, covering common formats and questions. With a focus on problem-solving, participants will apply coding skills to tackle complex, real-world challenges. This capstone course is the ultimate step for those aiming for mastery in back-end development.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 3103

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

* Can be 1 credit hour if needed

Divine Design (Minor, Electives, Experiential Learning) - 27 Credit Hours

To meet the Divine Design requirement, student may earn credit hours in general elective courses, declare minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), up to 24 credit hours. General Electives are any college-level courses that do not satisfy the above program requirements. Student must complete the above program requirements, with remaining credit hours earned in Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours**HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY**

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

Credits: 3

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) or HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Business Administration, Cybersecurity (Four-Year Plan, Online and Partner Sites)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS**CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION**

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

NSCI 1024 - INTRO TO SCIENCE AND TECHNOLOGY

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues as demonstrated in laboratory activities. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Credits: 4

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the

professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully. Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

Year Three

FALL SEMESTER - 15 CREDIT HOURS

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

SPRING SEMESTER - 14 CREDIT HOURS

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

Divine Design Electives (6 Credits)

Year Four**FALL SEMESTER - 15 CREDIT HOURS**

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Creative-Aesthetic Inquiry - Select One:

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field. Additional fees are associated with this course

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

NSCI 1024 - INTRO TO SCIENCE AND TECHNOLOGY

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues as demonstrated in laboratory activities. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Credits: 4

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

Year Two

FALL SEMESTER - 15 CREDIT HOURS

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making. Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification

techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis. Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

Year Three

FALL SEMESTER - 15 CREDIT HOURS

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

SPRING SEMESTER - 14 CREDIT HOURS

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

Divine Design Electives (6 Credits)

Year Four**FALL SEMESTER - 15 CREDIT HOURS**

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Creative-Aesthetic Inquiry - Select One:

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2233 - MARRIAGE AND FAMILY

This course is a study of the major issues related to courtship, marriage, and family formation. Special attention is given to the social conditions influencing courtship, marriage, divorce, and family life. Topics include dating rituals, gender differences, expectations, parenting, family dysfunction, family violence, and strategies for sound relating. The role of family counselors and therapists is also discussed.

Prerequisites & Notes

PSYC 1133 or PSYC 1233

Credits: 3

Divine Design Electives (12 Credits)

Site-Based (Partnership)**Associate of Applied Science, Professional Pilot (Two-Year Plan)**

Year One

FALL SEMESTER - 18 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

AVIP 2013 - INSTRUMENT RATING GROUND SCHOOL

This course provides instruction in preparation instrument flight training and the Federal Aviation Administration's (FAA) Instrument Rating Airplane Knowledge Test. Topics include aircraft flight instruments, flight physiology, Instrument Flight Rules (IFR) aircraft operations and procedures, aircraft performance, weather, IFR planning and regulations. Advanced instruction in aviation weather, radio navigation and charts including procedures for departures en route, arrival and approaches. The course should be taken concurrently with instrument flight lessons or AVIP 2023. Credit may be granted for passing the FAA Instrument Rating Knowledge Test.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot's License or AVIP 1013

Credits: 3

AVIP 2023 - INSTRUMENT FLIGHT TRAINING

This course introduces students to airplane ground, flight operations and maneuvers associated with flying by instrument flight rules. This includes departure, en route, arrival, approaches, and landing in actual or simulated instrument meteorological conditions. Includes flight instruction in single-engine aircraft and simulators with emphasis on safety, operations, navigation systems and charts, various weather conditions, flight planning procedures, decision making, and cockpit resource management. Prepares students for the required FAA Instrument-Airplane Rating Practical Test. Credit may be granted for presenting a valid FAA Instrument-Airplane Rating. The course should be taken concurrently with AVIP 2013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

Credits: 3

Divine Design Elective (2 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

AVIP 3013 - COMMERCIAL PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Commercial Pilot Airplane Knowledge Test. Topics include the advanced aerodynamics, complex airplane systems, and instruments, weight and balance for heavier aircraft, complex aircraft performance. Includes advanced meteorology, flight physiology for high altitude flight, advanced navigation techniques, radio navigation and communication, airspace systems, and FAA Regulations for commercial flight. Credit may be granted for passing the FAA Commercial Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 3023.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 3

AVIP 3023 - COMMERCIAL PILOT FLIGHT I FLIGHT TRAINING

This course introduces students to airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators. Prepares students for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 3013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

AVIM 1014 - AVIATION WEATHER ENVIRONMENT W/LAB

This course explores the physical properties of the atmosphere and how they affect the weather, with an emphasis on the factors affecting aviation. The course includes lab components including collecting and interpreting weather and

climate data that impact the aviation and human environment.

Prerequisites & Notes

None

Credits: 4

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

AVIP 4013 - CERTIFIED FLIGHT INSTRUCTOR GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Fundamentals of Instructing (FOI) Federal Aviation Administration's (FAA) and Flight Instructor Knowledge Tests. Topics include the fundamentals of flight instruction and learning, lesson planning, resource management, communication, regulations, and professionalism. Credit may be granted for passing the FAA FOI Knowledge Test, or equivalent, and Flight Instructor Knowledge Test with a mandatory minimum passing score of 70%.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or AVIP 3023

Credits: 3

AVIP 3033 - COMMERCIAL PILOT FLIGHT II FLIGHT TRAINING

This course continues student training and experience in airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators in final preparation for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

AVIP 3023

Credits: 3

AVIM 1003 - INTRODUCTION TO AVIATION TRANSPORTATION

This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing

historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 12 CREDIT HOURS

AVIM 2003 - HUMAN FACTORS AND RESOURCE MANAGEMENT

This course explores concepts of Crew Resource Management (CRM). Covers crew coordination, communication, and resource management in professional aviation. Subjects include the history of CRM, skills, psychological, and behavior markers associated with CRM, human error in aviation, and automation. Provides a general knowledge of team critical skills within the aviation industry.

Prerequisites & Notes

None

Credits: 3

AVIP 4022 - CERT FLIGHT INSTRUCTOR FLIGHT TRAIN

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor for the category and class of aircraft for which the student seeks. Students explain, demonstrate, and analyze flight maneuvers and resource management skills involved with Private Pilot, Commercial Pilot, and Flight Instructor Certificates. For fixed-wing aircraft includes spins and spin recovery. Credit may be granted for presenting a valid FAA Certified Flight Instructor Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. The course should be taken concurrently with AVIS 4013. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

By permission only

Credits: 2

AVIP Elective - Select One

AVIP 1001 - INTRODUCTION TO FLIGHT

The course introduces students to flight operations and is appropriate for students interesting in a career in aviation and is recommended prior to enrolling in AVIP 1023. Topics include basic aerodynamics, flight controls, pre-flight inspection, and basic maneuvers. Students log time in a flight simulator and up to 3 hours of dual instruction in a single-engine aircraft. These hours may be applied toward a Private Pilot Certificate under FAA Part 61 rules.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIM 1101 - INTRODUCTION TO UAS OPERATIONS,POLICY, AND REGULATIONS

This course will introduce basic small Unmanned Aircraft Systems (UAS) operations and policy governing UAS operations found in Title 14 of the Code of Federal Regulations (14 CFR) Part 107, Small Unmanned Aircraft Systems. Federal regulations will be discussed including the proper requirements needed to legally and safely operate UASs in the National Airspace System. The purpose of the course is for students to master the knowledge to pass the UAS Part 107 knowledge exam.

Prerequisites & Notes

None

Credits: 1

AVIP 4011 - ADVANCED GROUND INSTRUCTOR

The course prepares students to take the FAA Advanced Ground Instructor Knowledge Exam. Topics include aerodynamics, aircraft performance, aircraft instruments and systems, Airspace, ATC procedures, weather, navigation, regulations and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4021 - INSTRUMENT GROUND INSTRUCTOR

The course prepares students to take the FAA Instrument Ground Instructor Knowledge Exam. Topics include aircraft performance, aircraft instruments and systems, airspace, ATC communication, instrument procedures, weather, IFR navigation, regulations, and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4031 - CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Instructor Rating for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Instrument Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

CFI Certificate or AVIP 4022 and permission

Credits: 1

AVIP 4041 - MULTI-ENGINE RATING FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Multi-Engine Certificate for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Multi-Engine Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or permission

Credits: 1

Divine Design Elective (3 Credits)

Bachelor of Business Administration (Partner)

Bachelor of Business Administration (Four-Year Plan)

Program Description

The Bachelor of Business Administration (BBA) is a general undergraduate business degree built around a common core of business courses, with 27 hours of electives, suitable to accommodate a complementary minor. This is the recognized industry standard online business degree offered by Southeastern University.

A Bachelor of Business Administration degree covers fundamental business concepts, entrepreneurship, ethical business practices, teamwork, and leadership. Students will learn to communicate professionally, develop their management proficiency, and acquire other skills necessary to advance in a career of almost any field. This online program is a total of 120 credit hours: 56 credit hours of Foundational Core courses, 18 credit hours of business pre-core, 28 credit hours of business core, 6 credit hours of business electives, and 12 credit hours of general electives. Students also have the option to add a concentration in business leadership or marketing communication.

The BBA curriculum covers the Common Professional Components (CPC) and General Knowledge and Skills as prescribed by Accreditation Council for Business Schools and Programs (ACBSP) and industry best-practices.

The BBA is the degree understood in the marketplace as a comprehensive business degree for graduates wishing to start or grow their careers in business.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 45 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a

Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

- Variable Credit Course can be taken for 1 Credit Hour

Divine Design - 39 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Credits: 3

Bachelor of Science, Business and Professional Leadership (Partner)

Bachelor of Science, Business and Professional Leadership (Four-Year Plan)

Program Description

The Bachelor of Science in Business and Professional Leadership is an undergraduate degree that provides a combination of basic leadership theory and business managerial concepts to enable graduates to advance in their careers.

While similar, this program differs from a traditional business degree in that it assumes the student is seeking a general studies degree with an emphasis in the soft-skills and decision-making aspect of business. This major scans the most important concepts in business and organizational leadership. Students may take practicum credit for either the ministry or marketplace in lieu of general electives.

This is the degree normally understood in the marketplace to be for students ready to advance in their careers. It is also suitable for students wishing to start their careers in a business field where soft-skills, leadership potential, and experience are important.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will

focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

Business and Leadership PreCore- 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

Business and Leadership Core - 27 Credit Hours

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

LDRS 3183 - ORGANIZATIONAL THEORY & BEHAVIOR

This course is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

None

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BPLE 4141 - BUSINESS & PROFESSIONAL LDRS SEMINAR

This course is the capstone course for the major requirements for the business and professional leadership major and provides students the opportunity to synthesize and apply their learning in a workplace context. Insights are gained leadership profiles as they relate to the workplace. A written reflection and portfolio are required.

Prerequisites & Notes

Corequisite or Prerequisite: BBUS 4603

Credits: 2

- Variable Credit Course can be taken for 1 Credit Hour

Divine Design - 40 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing

historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) or HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Science, Business and Professional Leadership: Business Practicum (Site-based) Four-Year Plan

Year One

First Semester - 16 Credit Hours

CORE 1001 - COLLEGE AND CHRISTIAN CALLING

This course serves as an introduction to the mission of Southeastern University and the academic tradition of liberal arts education. The course prepares students for academic and social success by focusing on the areas of success factors for higher education, Christian higher education as calling, and personal and spiritual formation.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

BIOT 1433 - THE OLD TESTAMENT INTERPRETATION

The course serves as an introduction to Old Testament interpretation. It provides an elemental framework for interpreting the Old Testament by exploring its ancient Near Eastern contexts; discussing literary, thematic, and theological constructs; and demonstrating how it informs Christian thought and practice.

Prerequisites & Notes

NULL

Credits: 3

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1223 - QUANTITATIVE REASONING

This course emphasizes quantitative reasoning skills and is designed to prepare students to think critically about the world they live in. Applications in consumer education, civic engagement, and personal finance will be presented. Topics include logic, probability, statistics, exponential growth, and data analysis.

Prerequisites & Notes

NULL

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1323 - EXPLORATION IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. Possible topics for this course are set theory, elementary number theory, history of mathematics, numbers and number systems, financial mathematics, systems of equations, and matrices.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

General Elective (select one):

PMIN 2303 - STUDENT MINISTRY PRACTICUM

The course is designed to stress involvement in the practical ministry of the local church through supervised ministry activities. The main emphases of this course are ministry leadership, observation, experience, and reflection. This course requires careful study of and reflection upon the appropriate biblical texts.

Prerequisites & Notes

NULL

Credits: 3

GENERAL ELECTIVE - 3 HR ELECTIVE

Select a 3 hr course to count toward your General Elective credit requirement. General Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

Credits: 3

Second Semester - 15 Credit Hours

ENGL 1233 - ENGLISH COMPOSITION II

This course includes study and practice in the critical reading and effective writing of argumentative and expository prose, with an emphasis on the documented paper. A research paper is required.

Prerequisites & Notes

ENGL 1133

Credits: 3

Math Elective (select one):

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

Credits: 3

Year Two

First Semester - 16 Credit Hours

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Humanities Elective (select one):

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Behavioral Science Elective (select one):

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1233 - PERSONAL AND SOCIAL ADJUSTMENT

This course is an introduction to human adjustments and the resulting forms of behavior. Emphasis is placed on the fundamental principles underlying normal behavior. This course helps students apply mental health principles to everyday living.

Prerequisites & Notes

NULL

Credits: 3

Natural Science Elective (select one):

NSCI 2704 - INTRODUCTION TO FORENSIC SCIENCE LECTURE/LAB

This course is an overview of the application of forensic science, how it applies to the criminal justice system, and an overview of forensic lab techniques with an emphasis on physical evidence recovery and analysis including trace evidence, blood splatter, fingerprinting, and DNA analysis. This course is designed to provide students an understanding of the techniques and abilities of forensic science with regard to investigative and criminalistic activities. This course meets the science (with lab) general education requirement and the specialized needs of the Criminal Justice program.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Second Semester - 15 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BINT 1533 - THE NEW TESTAMENT INTERPRETATION

This course serves as an introduction to the New Testament in the context of its first century environments. The course examines the teachings and interpretations of the New Testament as well as the role of the Scriptures in the Church.

Prerequisites & Notes

NULL

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

Year Three

First Semester - 15 Credit Hours

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

LDRS 3183 - ORGANIZATIONAL THEORY & BEHAVIOR

This course is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

Second Semester - 15 Credit Hours

THEO 2123 - CHRISTIAN THOUGHT AND PRACTICE

This course surveys the history of Christian thought and practices. Doctrinal topics introduced in the course include the doctrines of God, Jesus Christ, the Holy Spirit, humanity, salvation, the church, scripture, and last things. The course explores the application of Christian practices and spiritual disciplines such as prayer, communion, baptism, and social responsibility to the students' community.

Prerequisites & Notes

NULL

Credits: 3

History Elective (select one):

HIST 1033 - WORLD CIVILIZATION TO 1600

A survey of world history from the beginning of civilization to 1600. Introduction to the origins and early development of individual civilizations. Stresses interdependency and interrelations among cultures, and compares social, political, and religious movements.

Prerequisites & Notes

NULL

Credits: 3

HIST 1043 - WORLD CIVILIZATION SINCE 1600

A survey of world history from 1600 to the present. Emphasis is placed on various nationalistic movements including the English, American, and French Revolutions; the rise of new nations; scientific expansion; changes in religious sects; world conflicts; and status of the world at the present.

Prerequisites & Notes

NULL

Credits: 3

HIST 2013 - AMERICAN HISTORY TO 1877

A survey of American history from discovery to 1877. Topics include the colonial period, the revolutionary era, the Constitution, Jeffersonianism, economic and territorial expansion, sectional tensions, the Civil War, and Reconstruction.

Prerequisites & Notes

NULL

Credits: 3

HIST 2023 - AMERICAN HISTORY 1877 TO THE PRESENT

A survey of American history from 1877 to the present. Topics include the New South, the New West, foreign affairs, industrialization, the Progressive Era, the World Wars, the Depression, the Cold War, and present issues.

Prerequisites & Notes

NULL

Credits: 3

PPOL 2433 - UNITED STATES & NEVADA CONSTITUT

This course is a study of the legal culture in the United States, including the British common law system, origins of the U.S. and State of Nevada Constitutions, amendments, and landmark cases. This course is required to be taken by Las Vegas, NV extension site students only.

Prerequisites & Notes

NULL

Credits: 3

*Required for Nevada students.

Year Four

First Semester - 15 Credit Hours

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

THEO 3123 - INTRODUCTION OF ETHICS

This course examines the philosophical and theological principles and issues related to ethics. It addresses meta-ethical questions about the relationship between moral language and concepts and various metaphysical and post-metaphysical views; normative ethical theories; theological structures and implications of ethics; and contemporary ethical issues.

Prerequisites & Notes

NULL

Credits: 3

Second Semester - 15 Credit Hours

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

BPLE 4141 - BUSINESS & PROFESSIONAL LDRS SEMINAR

This course is the capstone course for the major requirements for the business and professional leadership major and provides students the opportunity to synthesize and apply their learning in a workplace context. Insights are gained leadership profiles as they relate to the workplace. A written reflection and portfolio are required.

Prerequisites & Notes

Corequisite or Prerequisite: BBUS 4603

Credits: 2

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Total Program Hours - 122 Credit Hours

***The above course plan applies only to extension site students. Other deliveries may not be applicable.

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Minor, Accounting and Finance (Partner)

Total of 18 Credit Hours

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

Minor, Business (Partner)

Total of 18 Credit Hours

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

Minor, Global Business Management (Partner)

Total of 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

Minor, Non Profit Management (Partner)

Total of 18 Credit Hours

Non Profit Management Core - 12 Credit Hours

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

HRDV 3043 - HOLISTIC DEVELOPMENT

This course equips students with models that foster dignity rather than dependency and empowerment rather than entitlement. Students will learn how to partner with local churches and other stakeholders, assess community assets and needs, and formulate responsible approaches to community development. This introductory course on holistic development carefully builds a biblical view of poverty and a theology of responsible aid in the context of various real-world development topics. Students will also expand and deepen their understanding through service learning opportunities.

Prerequisites & Notes

None

Credits: 3

PMIN 4113 - NON-PROFIT FINANCIAL MANAGEMENT

This course is a study of financial management practices relevant to ministry in the local church along with other non-profit ministry contexts. The course will examine key aspects of financial management in non-profit ministry organizations, including: financial planning, capital campaigning, budgeting, fundraising, financial accountability, and human resource practices.

Prerequisites & Notes

NULL

Credits: 3

Non Profit Management Elective - Select Two:

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

HUSV 3833 - MANAGEMENT IN HUMAN SERVICES

This course provides an introduction to management practices of human service programs, agencies, and organizations with an emphasis on program development.

Prerequisites & Notes

NULL

Credits: 3

Bachelor of Business Administration, Data Science (Partner)

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 57 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours**BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS**

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Certificate, Data Science - 12 Credit Hours

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field. Additional fees are associated with this course

Prerequisites & Notes

None

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making. Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis.

Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

* Can be 1 credit hour if needed

Divine Design (Minor, Electives, Experiential Learning) - 27 Credit Hours

To meet the Divine Design requirement, student may earn credit hours in general elective courses, declare minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level courses that do not satisfy the above program requirements. Student must complete the above program requirements, with remaining credit hours earned in Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy

with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Business Administration, Cybersecurity (Partner)

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 57 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours**BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS**

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Certificate, Cybersecurity - 12 Credit Hours

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully.

Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

* Can be for 1 credit hour if needed

Divine Design (Minor, Electives, Experiential Learning) - 27 Credit Hours

To meet the Divine Design requirement, student may earn credit hours in general elective courses, declare minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level courses that do not satisfy the above program requirements. Student must complete the above program requirements, with remaining credit hours earned in Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy

with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Science

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Business Administration, Software Development (Partner)

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

Major Core - 57 Credit Hours

Business Pre-Core - 18 Credit Hours

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 1903 - PERSONAL FINANCE

This study covers the principles of individual and family financial management, including coverage of budgeting, planning and goal-setting, personal banking, home ownership, insurance needs, and other personal finance subjects.

Prerequisites & Notes

None

Credits: 3

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 2133 - ESSENTIALS OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

BBUS 1903

Credits: 3

BBUS 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 2233 - ESSENTIALS OF MANAGERIAL ACCOUNTING

A survey and examination of the fundamental statements and models employed to make decisions in a managerial context. Relevant information relating to cost/volume/profit analysis, operational and capital budgeting are explored. The balanced scorecard methodology is introduced.

Prerequisites & Notes

BBUS 2133

Credits: 3

Business Core - 27 Credit Hours**BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS**

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BBUS 3103 - ESSENTIALS OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BBUS 2233

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3303 - ESSENTIALS OF MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3403 - ESSENTIALS OF BUSINESS LAW

This course introduces the legal principles and US court system which applies to normal business transactions including contracts, torts, property, business structure, and important employment laws.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3853 - MANAGEMENT OF INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system. Many course elements are completed in teams using online collaboration tools.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 4603 - STRATEGIC MANAGEMENT

This course is the capstone learning experience for the Bachelor of Business Administration. The course integrates separate functional activities necessary for the successful operation of an organization. Emphasis is placed upon policy formulation and implementation of a strategic plan by reviewing cases.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Software Development - 12 Credit Hours; Select one of the following certificates:

Declare your certificate through the Major/Minor Program Declaration Form

Certificate, Front-End Development - 12 Credit Hours

SDEV 1003 - FRONT-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Front-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of front-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of JavaScript. Additionally, students will learn the importance of writing unit tests using Jest, a popular JavaScript testing framework. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development.

Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2003 - FRONT-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Front-End Developer Professional Certificate. It dives deeper into advanced aspects of front-end web development. This course covers practical skills, including version control systems implementation, command-line project navigation and configuration, and the creation and use of GitHub repositories for code management. Students will also learn to create responsive layouts with HTML5 and CSS, building simple forms and mastering the popular UI framework, Bootstrap. The course equips learners with debugging tools to rectify and enhance their coding efficiency. This course further refines and expands skills, fostering more confident and competent developers.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1003

Credits: 3

SDEV 3003 - FRONT-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Front-End Developer Professional Certificate. This course provides a deep dive into the use of React, a powerful JavaScript library. Participants will learn to leverage reusable components for dynamic data rendering and use props to facilitate data interchange between these components. The curriculum also emphasizes the organization of larger projects to ensure scalability and maintainability. It covers the creation of interactive web pages and user forms, and includes the construction of a complete application. Advanced techniques for creating robust, reusable components and server interactions via APIs are also explored. Students will learn to test applications with the React Testing Library and integrate commonly used libraries to streamline development. The course culminates in the creation of a comprehensive application, encapsulating all learned skills.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 2003

Credits: 3

SDEV 4003 - FRONT-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Front-End Developer Professional Certificate. It navigates the complex process of designing and implementing user-focused web applications. It begins by introducing the fundamentals of User Experience (UX) design, accessibility considerations, and the importance of user empathy, and teaches students how to create wireframes and prototypes in Figma. The course then transitions into practical application, teaching students to design and style a responsive User Interface (UI), produce clean, bug-free code, and use React components to create multiple views. Students will create a complete website front-end using React JS. The course concludes with essential interview preparation, featuring coding problems and specific strategies for interviews at Meta.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 3003

Credits: 3

Certificate, Back-End Development - 12 Credit Hours

SDEV 1103 - BACK-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Back-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of back-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of Python and object-oriented programming. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2103 - BACK-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Back-End Developer Professional Certificate. It extends the learner's comprehension of crucial tools and principles fundamental to back-end web development. The course instructs on implementing version control systems, ensuring effective code revision management. Students learn to navigate and configure projects using the command line and the creation and utilization of GitHub repositories. An essential part of the curriculum involves databases; students will identify the principles underpinning their operation and apply this knowledge to design, plan, and implement a straightforward database development project. The course is a vital step for individuals seeking to enhance their back-end development capabilities. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1103

Credits: 3

SDEV 3103 - BACK-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an advanced course that immerses learners in the intricate world of back-end development. Participants will build a functional web server and apply data modeling concepts essential to web development. A significant portion of the curriculum is dedicated to APIs, covering their development, usage, and the principles of REST architecture. Students will demonstrate their comprehension of these principles by constructing a basic API. This course is indispensable for individuals aiming to become proficient back-end developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 2103

Credits: 3

SDEV 4103 - BACK-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an intensive course designed to consolidate and advance your back-end development skills. Learners will develop a fully-functioning Django application that uses both front-end and back-end technologies. Practical application includes setting up a suitable Django development environment and creating a Django web server with multiple API endpoints. Additionally, the course offers strategic preparation for coding interviews, covering common formats and questions.

With a focus on problem-solving, participants will apply coding skills to tackle complex, real-world challenges. This capstone course is the ultimate step for those aiming for mastery in back-end development. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 3103

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

BBUS 4141 - BUSINESS SENIOR SEMINAR

This course reviews the fundamentals, principles and structure of the discipline-specific business administration programs and develops the student's professional networking skills and resume.

Prerequisites & Notes

Corequisite: BBUS 4603

Credits: 2

* Can be taken for 1 credit hour if needed

Divine Design (Minor, Electives, Experiential Learning) - 27 Credit Hours

To meet the Divine Design requirement, student may earn credit hours in general elective courses, declare minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level courses that do not satisfy the above program requirements. Student must complete the above program requirements, with remaining credit hours earned in Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current

USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Science

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS**MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS**

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 2133 - PRINCIPLES OF FINANCIAL ACCOUNTING

This course provides an introduction to financial accounting and basic accounting statements. Focus is on business records, the collection of financial data, the development of statements and the interpretation of this information. Extensive work is done on quantitative problem solving.

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

BUSI 2233 - PRINCIPLES OF MANAGERIAL ACCOUNTING

As a survey and examination of the fundamental cycles and operations of managerial accounting this course includes analysis, interpretation and application of financial principles for organizational decision-making. Relevant information relating to cost/volume/profit analysis and capital budgeting are key concepts covered.

Prerequisites & Notes

BUSI 2133

Credits: 3

BUSI 3303 - MARKETING

This course examines the structures, functions and behaviors of marketing systems. The basic exchange functions of pricing, product development and management, promotion and distribution are studied within the contexts of decision-making, consumer satisfaction, and the environments of business.

Prerequisites & Notes

BUSI 2113 or BUSI 2123

Credits: 3

Divine Design Electives (6 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

BUSI 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BBUS 2103

Prerequisites & Notes

None

Credits: 3

Major Core (3 Credits)

Any 3000 or 4000 level courses with a prefix of ACTG, BUSI, CTIS, FINC, INTL, MNGT or MKTG

Divine Design Electives (6 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

Major Core (6 Credits)

Any 3000 or 4000 level courses with a prefix of ACTG, BUSI, CTIS, FINC, INTL, MNGT or MKTG

Divine Design Elective (3 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

Major Core (6 Credits)

Any 3000 or 4000 level courses with a prefix of ACTG, BUSI, CTIS, FINC, INTL, MNGT or MKTG

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Divine Design Electives (11 Credits)

Bachelor of Science, Marketing (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

None

Credits: 3

MKTG 3133 - PROFESSIONAL SELLING

This course will focus on developing and applying essential professional selling skills through the use of interpersonal communication to effectively market goods and services and yourself. Emphasis is placed upon the personal selling process through study and application.

Prerequisites & Notes

BUSI 3303

Credits: 3

BUSI 3853 - MANAGEMENT INFORMATION SYSTEMS

This course addresses the basics of information technology, information systems, and the management of information systems. Students apply abstract and systems thinking skills to design and implement an information system.

Prerequisites & Notes

CTIS 2133

Credits: 3

Divine Design Electives (6 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

BUSI 3103 - PRINCIPLES OF FINANCE

This course covers financial organization and the principles and practices of decision making involving acquiring and allocating capital, dividend policy, operating and financial leverage, financial markets and related topics.

Prerequisites & Notes

BUSI 2233

Credits: 3

Divine Design Electives (6 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

MKTG 4113 - ADVERTISING

This course covers advertising, creative philosophies, copy preparation, ad-layout techniques for diverse advertising media, media planning, and media-buying tactics.

Prerequisites & Notes

BUSI 3303

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

MKTG 4173 - RETAIL MANAGEMENT

Retailing is examined from a decision making approach. Topics covered include retailing strategy, consumer shopping behavior, human resource planning, the retail mix, communications, merchandising, atmospherics and location.

Prerequisites & Notes

BUSI 3303

Credits: 3

BUSI 4603 - BUSINESS POLICIES

This course is designed as the capstone learning experience for all business majors. The course will integrate separate functional activities into a comprehensive understanding of how teamwork benefits the operation of an organization. Emphasis is placed upon policy formulation and documentation of a strategic plan for a simulated organization.

Prerequisites & Notes

All business core requirements and senior status

Credits: 3

Divine Design Electives (8 Credits)

Bachelor of Arts, Communication: Broadcast & Digital Production

Bachelor of Arts, Communication: Broadcast & Digital Production (Four-Year Plan)

Program Description

The Communication: Broadcast & Digital Production program emphasizes the principles and best practices of communication and broadcast production. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The broadcast and digital production concentration includes practical skills in topics such as audio and video production; radio, television, and podcasting; directing, and producing. Students critically analyze mass-mediated content; they also produce audio and video content in courses, co-curricular productions, and portfolio and capstone projects.

Potential Career Options

Potential career options for those pursuing this degree include producer, director, on-air talent, broadcast/digital reporter, radio DJ, podcaster, post-production video editor, and other broadcasting- and digital production-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 44 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Broadcasting and Digital Production Core - 20 Credit Hours

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

Divine Design (Major Specific Experiential Learning) - 4 Credit Hours**COMM 3021 - BROADCAST PRACTICUM**

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 3051 - RADIO PRACTICUM

This course allows students to be involved in the various aspects of production and programming for Southeastern's campus radio station or local stations.

Prerequisites & Notes

COMM 2113 (Preceding or Concurrently)

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 38 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Communication: Human Communication

Bachelors of Arts, Communication: Human Communication (4 Year Plan)

Program Description

The Communication: Human Communication program emphasizes the principles and best practices of mass-mediated communication and human communication. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The human communication concentration includes instruction and guidance in the areas of human communication, including interpersonal, intercultural, organizational, and interracial communication. Students are guided to become better public speakers, writers, and conversationalists, whether their goal is to inform, entertain, or persuade. Students analyze communication artifacts and assess their effectiveness, persuasiveness, and ethics.

Potential Career Options

Potential career options for those pursuing this degree include communications consultant, motivational speaker, fundraising and development officer, non-profit director, communication manager, corporate communication coordinator, and other human communication-related careers. Graduates are equipped to improve the organizational communication of businesses, non-profit organizations, and corporations, whether in a full-time or consultant capacity. Graduates can find fulfillment by helping people communicate more effectively and ethically in an interpersonal or intercultural context.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Human Communication Core - 21 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3553 - ADVANCED SPEECH

This course is a study of the theory and practice of persuasive public speaking.

Prerequisites & Notes

None

Credits: 3

COMM 4353 - INTERRACIAL COMMUNICATION IN THE US

This course explores the theoretical and practical issues related to race/ethnicity, and communication that often frame and impact the dynamics between various racial groups within the United States. The course will cover underpinnings of interracial/interethnic communication including topics such as identity, language, history, cultural influences, and theories. The course is designed to improve each student's understanding and ability to communicate across and within diverse racial groups in the United States.

Prerequisites & Notes

None

Credits: 3

Human Communication Electives - Select Two (2) of the Following (6 Credit Hours):

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4633 - SPECIAL TOPICS IN COMMUNICATION

This course is designed for the purpose of introducing specialized content across a broad range of potential subjects and for the development of new courses to be considered for inclusion as standard curriculum.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 38 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Communication: Multimedia Journalism

Bachelor of Arts, Communication: Multimedia Journalism (Four-Year Plan)

Program Description

The Communication: Multimedia Journalism program emphasizes the principles and best practices of communication and multimedia journalism. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The multimedia journalism concentration includes practical skills in topics such as digital design, photography, news writing and editing, and multimedia reporting. Students critically analyze mass-mediated content; they also produce journalistic content such as magazine layouts, on-location news pieces, hard news stories, and works of narrative journalism.

Potential Career Options

Potential career options for those pursuing this degree include reporter, managing editor, copy editor, editor-in-chief, photojournalist, magazine layout editor, and other journalism-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Communication Core Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Multimedia Journalism Core - 21 Credit Hours

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3613 - NEWS WRITING AND EDITING

This course provides students the opportunity to write and edit various types of news stories. Students learn about interviewing, taking accurate notes, editing for clarity and conciseness, and other considerations of news writing and editing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 4453 - ADVANCED DIGITAL REPORTING

This course focuses on advanced reporting, research, interviewing, copy editing, and production skills for various digital storytelling formats, including photojournalism, investigative journalism, and online media.

Prerequisites & Notes

COMM 3613

Credits: 3

Multimedia Journalism Electives - Select Two:**ARTV 3003 - MAGAZINE DESIGN & PRODUCTION**

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

COMM 3353 - NARRATIVE JOURNALISM

This course focuses on writing feature news stories, narrative journalism, and persuasive column writing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for

news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4403 - SPECIAL TOPICS IN JOURNALISM

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the journalism area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Multimedia Journalism Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 38 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Communication: Public Relations

Bachelor of Arts, Communication: Public Relations (Four-Year Plan)

Program Description

The Communication: Public Relations program emphasizes the principles and best practices of communication and public relations. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The public relations concentration includes practical skills in topics such as public relations campaigns, writing for public relations and advertising, social media management, digital design, and digital marketing and analytics. Students critically analyze mass-mediated content; they also produce public relations-focused content such as various types of press releases, public relations campaigns, and other forms of corporate communication.

Potential Career Options

Potential career options for those pursuing this degree include public relations specialist, director of social media, communication manager, director of strategic communication, director of public relations, corporate communication coordinator, digital marketing specialist, and other public relations-related careers.

Total Program - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Communication Core Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Public Relations Core - 21 Credit Hours

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3323 - SOCIAL MEDIA STRATEGY & CONTENT

This course covers the strategies that guide social media planning and integration in public relations. The various tools that public relations practitioners use to identify and engage publics through social media are included.

Prerequisites & Notes

None

Credits: 3

COMM 3363 - WRITING FOR PUBL RELATIONS & ADVERT

This course is designed to give practical experience in producing public relations and advertising campaigns, including press kits, press releases, and advertising copy.

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4373 - PUBLIC RELATIONS CAMPAIGNS

This capstone course provides students with the experience of using all of their public relations and mass communication training to develop a public relations campaign for an actual client.

Prerequisites & Notes

COMM 2323 and COMM 3363

Credits: 3

Public Relations Core Electives - Select Two:

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4383 - PUBLIC RELATIONS CASE STUDIES

This course involves analysis, presentation, and discussion of specific and hypothetical public relations cases using public relations theory as a philosophical framework.

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4413 - SPECIAL TOPICS IN PUBLIC RELATIONS

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the public relations area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Public Relations Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

COMM 3041 - PUBLIC RELATIONS PRACTICUM

This course involves practical experience in journalism or public relations with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 39 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Communication: Sports Media

Bachelor of Arts, Communication: Sports Media (Four-Year Plan)

Program Description

The Communication: Sports Media program emphasizes the principles and best practices of communication and sports media production. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The sports media concentration includes practical skills in topics such as audio and video (editing and production), radio and television production, and podcasting in the context of sports media. Students critically analyze mass-mediated content; they also produce audio and video content in courses and co-curricular productions focused on sports games.

Potential Career Options

Potential career options for those pursuing this degree include sports announcer, camera operator, producer, on-air talent, sports news reporter, anchor, and other sports media-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work

together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 43 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Sports Media Core - 19 Credit Hours

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3023 - SPORTS BROADCASTING I

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for fall sports.

Prerequisites & Notes

COMM 2041, COMM 2133, COMM 2153, and COMM 2613

Credits: 3

COMM 3033 - SPORTS BROADCASTING II

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for spring sports.

Prerequisites & Notes

COMM 3023

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

Select One (1) of the following (3 Credits):

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 41 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Film Production

Bachelor of Arts, Film Production (Four-Year Plan)

Program Description

The Film Production program emphasizes the principles and best practices of film production. The film production core features various courses related to filmmaking and storytelling, including classes on narrative, cinematography, screenwriting, and editing; students also select a few film electives (such as those focused on audio, screen acting, or motion graphics). Students critically analyze and produce various films (including documentaries and short films), co-curricular productions, and portfolio and capstone projects in courses and for the annual film festival.

Potential Career Options

Potential career options for those pursuing this degree include director, producer, director of photography (cinematographer), script supervisor, film editor, screenwriter, actor, and other film-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Film Production Core - 39 Hours

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip, electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students

will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3283 - EDITING FOR STORY

This course covers the history, theory and practice of motion picture editing and post-production workflow. Students evaluate and apply editing techniques and theory.

* Do not register for this course if you have taken DCOM 3283

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

COMM 4173 - SENIOR FILM CAPSTONE DEVELOPMENT

This course guides senior film students through the development stages of producing their senior capstone film.

* Do not register for this course if you have taken DCOM 4173

Prerequisites & Notes

Faculty Approval

Credits: 3

COMM 4913 - SENIOR FILM CAPSTONE PROJECT

This senior film capstone project demonstrates the skills and knowledge that a student has acquired over the course of their academic career as a film major.

* Do not register for this course if you have taken DCOM 4913

Prerequisites & Notes

COMM 4173 and Faculty Approval

Credits: 3

Film Production Electives - Select Two (2) of the Following (6 Credits):

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 1603 - SCREEN ACTING

This course provides the skills and knowledge needed to achieve professional screen acting performances for film and television.

Prerequisites & Notes

None

Credits: 3

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4743 - SCREENWRITING II

The course concentrates on advanced elements of story and screenwriting as well as advanced script analysis. Limited enrollment because of the amount of reading and critical analysis required.

* Do not register for this course if you have taken DCOM 4743

Prerequisites & Notes

COMM 3723

Credits: 3

COMM 4463 - SPECIAL TOPICS IN FILM PRODUCTION

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the film production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Film Production degree. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Divine Design - 38 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Graphic Design

Bachelor of Arts, Graphic Design (Four-Year Plan)

Program Description

The Graphic Design program emphasizes the principles and best practices of graphic design. The core includes courses focused on digital design, typography, color theory, web development, UI/UX design, drawing, and photography. Students also select several design electives, such as courses on digital imaging, advertising design, illustration, and more. Students critically analyze and produce various designs in courses, practicums, and as part of portfolio and capstone projects.

Potential Career Options

Potential career options for those pursuing this degree include graphic designer, digital designer, UI/UX designer, web designer, photo retouching specialist, creative director, art director, layout designer, advertising designer, motion graphic artist, digital illustrator, and other graphic design-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from

Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education

requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Graphic Design Core - 36 Credit Hours****ARTV 1013 - DRAWING I**

This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 2233 - HISTORY OF GRAPHIC DESIGN

The scope of this art history course will span the art of graphic design from the early Renaissance through the present by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

ARTV 4503 - SENIOR PORTFOLIO & EXHIBITION

Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.

Prerequisites & Notes

Faculty Approval and Senior Status

Credits: 3

Select Three (3) of the Following (9 Credits):

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemaking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Divine Design - 39 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Arts, Visual Arts

Bachelor of Arts, Visual Arts (Four-Year Plan)

Program Description

The Visual Arts program emphasizes the principles and best practices of the visual arts. The core includes courses focused on drawing, digital design, color theory, painting, and art history. Student also select art electives in the areas of painting, figure drawing, ceramics, 3-D design, and more. Students critically analyze and produce various artworks in courses, practicums, junior studio, and as part of portfolio and capstone projects.

Potential Career Options

Potential career options for those pursuing this degree include visual artist (with specialties in portrait drawing, figure drawing, or painting, for example), 3-D artist, photographer, and other visual arts-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 42 Credit Hours

Visual Arts Core - 30 Credit Hours

ARTV 1013 - DRAWING I

This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

None

Credits: 3

ARTV 1503 - SURVEY OF WESTERN ART

This course introduces students to the fundamental elements of two- and three-dimensional Western art through reading, observation, and discussion. Students will learn the basic vocabulary related to the visual arts, learn to distinguish various genres and periods of art, and recognize and appreciate masterpieces of Western art. The role of art in history and society will be discussed and students will develop an enhanced appreciation for the value of art in their own lives.

Prerequisites & Notes

None

Credits: 3

ARTV 2013 - DRAWING II

This intermediate course in drawing is designed to advance students' implementation of the elements of art and principles of design, as a means toward creating a series of drawings exhibiting unique personal expression. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

ARTV 1013

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2053 - PAINTING I

This introductory course in painting is designed to orient students to the implementation of the elements of art and principles of design as expressed through paint and mixed media. Through experiential, hands-on training, students learn how to paint while using the appropriate tools, materials, and methods.

Prerequisites & Notes

ARTV 1013 and ARTV 2043

Credits: 3

ARTV 3503 - MODERN & CONTEMPORARY WESTERN ART

The scope of this art history course will span Western art from the early nineteenth century through the late twentieth century by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.

Prerequisites & Notes

ARTV 1503

Credits: 3

ARTV 3913 - JUNIOR STUDIO

This studio class gives students the opportunity to work with increased independence in a variety of disciplines. Studio space is provided, and individual critiques are an integral component to the course, which is designed to prepare students for the senior capstone and exhibition.

Prerequisites & Notes

ARTV 2013 and ARTV 2053

Credits: 3

ARTV 4503 - SENIOR PORTFOLIO & EXHIBITION

Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.

Prerequisites & Notes

Faculty Approval and Senior Status

Credits: 3

Visual Arts Electives - Select Four (4) from the Following (12 Credit Hours):

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemarking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3083 - PAINTING II

This intermediate course in painting advances student's implementation of the elements of art and principles of design as expressed through paint and mixed media, as a means toward creating a series of paintings exhibiting unique personal expression. The course uses the critique process regularly to clarify conceptual issues.

Prerequisites & Notes

ARTV 2053

Credits: 3

ARTV 3093 - FIGURE DRAWING

This course advances students' understanding of the anatomically correct way to draw the human figure using a variety of materials and techniques. Through creative problem solving, formal exercises, and guided research, students will also produce highly conceptual and expressive drawings. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

ARTV 1013 and ARTV 1503

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

ARTV 3143 - CERAMICS

This course will introduce the basics of clay as a three-dimensional art form. Students will create artistic objects utilizing both wheel-thrown and hand-built techniques as well as glazing and firing processes.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 2 Credit Hours

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Divine Design - 42 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Communication: Broadcast & Digital Production

Bachelor of Science, Communication: Broadcast & Digital Production (Four-Year Plan)

Program Description

The Communication: Broadcast & Digital Production program emphasizes the principles and best practices of communication and broadcast production. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The broadcast and digital production concentration includes practical skills in topics such as audio and video production; radio, television, and podcasting; directing, and producing. Students critically analyze mass-mediated content; they also produce audio and video content in courses, co-curricular productions, and portfolio and capstone projects.

Potential Career Options

Potential career options for those pursuing this degree include producer, director, on-air talent, broadcast/digital reporter, radio DJ, podcaster, post-production video editor, and other broadcasting- and digital production-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 44 Credit Hours

Communication Core - 22 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Broadcasting and Digital Production Core - 20 Credit Hours

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

Choose Two (2) of the Following (6 Credits):

COMM 3173 - PRODUCING FOR TELEVISION

This course is an advanced study of the planning side of television production. Students will learn the history of producing in the field of television including the production of a variety of television shows. Emerging media is of particular focus, allowing students to explore a wide variety of career options.

Prerequisites & Notes

COMM 2133

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3753 - SCRIPTWRITING FOR TV AND RADIO

This course gives students a foundation for the basics of television and radio writing. Students focus on industry-standard script formatting and writing, and they learn to develop a voice for broadcast writing.

Prerequisites & Notes

COMM 2113 AND COMM 2133

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 7 Credit Hours

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 3051 - RADIO PRACTICUM

This course allows students to be involved in the various aspects of production and programming for Southeastern's campus radio station or local stations.

Prerequisites & Notes

COMM 2113 (Preceding or Concurrently)

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Communication: Human Communication

Program Description

The Communication: Human Communication program emphasizes the principles and best practices of mass-mediated communication and human communication. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The human communication concentration includes instruction and guidance in the areas of human communication, including interpersonal, intercultural, organizational, and interracial communication. Students are guided to become better public speakers, writers, and conversationalists, whether their goal is to inform, entertain, or persuade. Students analyze communication artifacts and assess their effectiveness, persuasiveness, and ethics.

Potential Career Options

Potential career options for those pursuing this degree include communications consultant, motivational speaker, fundraising and development officer, non-profit director, communication manager, corporate communication coordinator, and other human communication-related careers. Graduates are equipped to improve the organizational communication of businesses, non-profit organizations, and corporations, whether in a full-time or consultant capacity. Graduates can find fulfillment by helping people communicate more effectively and ethically in an interpersonal or intercultural context.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Human Communication Core - 21 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4353 - INTERRACIAL COMMUNICATION IN THE US

This course explores the theoretical and practical issues related to race/ethnicity, and communication that often frame and impact the dynamics between various racial groups within the United States. The course will cover underpinnings of interracial/interethnic communication including topics such as identity, language, history, cultural influences, and theories. The course is designed to improve each student's understanding and ability to communicate across and within diverse racial groups in the United States.

Prerequisites & Notes

None

Credits: 3

Select Two (2) of the Following (6 Credits):

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of

other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4633 - SPECIAL TOPICS IN COMMUNICATION

This course is designed for the purpose of introducing specialized content across a broad range of potential subjects and for the development of new courses to be considered for inclusion as standard curriculum.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Communication: Multimedia Journalism

Program Description

The Communication: Multimedia Journalism program emphasizes the principles and best practices of communication and multimedia journalism. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The multimedia journalism concentration includes practical skills in topics such as digital design, photography, news writing and editing, and multimedia reporting. Students critically analyze mass-mediated content; they also produce journalistic content such as magazine layouts, on-location news pieces, hard news stories, and works of narrative journalism.

Potential Career Options

Potential career options for those pursuing this degree include reporter, managing editor, copy editor, editor-in-chief, photojournalist, magazine layout editor, and other journalism-related careers.

Total Program - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Multimedia Journalism Core - 21 Credit Hours

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3613 - NEWS WRITING AND EDITING

This course provides students the opportunity to write and edit various types of news stories. Students learn about interviewing, taking accurate notes, editing for clarity and conciseness, and other considerations of news writing and editing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 4453 - ADVANCED DIGITAL REPORTING

This course focuses on advanced reporting, research, interviewing, copy editing, and production skills for various digital storytelling formats, including photojournalism, investigative journalism, and online media.

Prerequisites & Notes

COMM 3613

Credits: 3

Select Two (2) of the Following (6 Credits):

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

COMM 3353 - NARRATIVE JOURNALISM

This course focuses on writing feature news stories, narrative journalism, and persuasive column writing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for

news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4403 - SPECIAL TOPICS IN JOURNALISM

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the journalism area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Multimedia Journalism Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Communication: Public Relations

Bachelor of Science, Communication: Public Relations (Four-Year Plan)

Program Description

The Communication: Public Relations program emphasizes the principles and best practices of communication and public relations. The communication core focuses on effective communication, storytelling, and analysis of the mass media. The public relations concentration includes practical skills in topics such as public relations campaigns, writing for public relations and advertising, social media management, digital design, and digital marketing and analytics. Students critically analyze mass-mediated content; they also produce public relations-focused content such as various types of press releases, public relations campaigns, and other forms of corporate communication.

Potential Career Options

Potential career options for those pursuing this degree include public relations specialist, director of social media, communication manager, director of strategic communication, director of public relations, corporate communication coordinator, digital marketing specialist, and other public relations-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work

together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Public Relations Core - 21 Credit Hours

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3323 - SOCIAL MEDIA STRATEGY & CONTENT

This course covers the strategies that guide social media planning and integration in public relations. The various tools that public relations practitioners use to identify and engage publics through social media are included.

Prerequisites & Notes

None

Credits: 3

COMM 3363 - WRITING FOR PUBL RELATIONS & ADVERT

This course is designed to give practical experience in producing public relations and advertising campaigns, including press kits, press releases, and advertising copy.

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4373 - PUBLIC RELATIONS CAMPAIGNS

This capstone course provides students with the experience of using all of their public relations and mass communication training to develop a public relations campaign for an actual client.

Prerequisites & Notes

COMM 2323 and COMM 3363

Credits: 3

Select Two (2) of the Following (6 Credits):

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4383 - PUBLIC RELATIONS CASE STUDIES

This course involves analysis, presentation, and discussion of specific and hypothetical public relations cases using public relations theory as a philosophical framework.

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4413 - SPECIAL TOPICS IN PUBLIC RELATIONS

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the public relations area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Public Relations Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 5 Credit Hours

COMM 3041 - PUBLIC RELATIONS PRACTICUM

This course involves practical experience in journalism or public relations with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4001 - COMMUNICATION SEMINAR

The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 43 Credit Hours

Communication Core - 24 Credit Hours

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Select One (1) of the following (3 Credits):

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Sports Media Core - 19 Credit Hours

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3023 - SPORTS BROADCASTING I

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for fall sports.

Prerequisites & Notes

COMM 2041, COMM 2133, COMM 2153, and COMM 2613

Credits: 3

COMM 3033 - SPORTS BROADCASTING II

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for spring sports.

Prerequisites & Notes

COMM 3023

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

Select Two (2) of the Following (6 Credits):

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 5 Credit Hours

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 38 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Digital Design & Production

Bachelor of Science, Digital Design & Production (Four-Year Plan)

Program Description

The Digital Design & Production program emphasizes the principles and best practices of digital design and production. The digital production core focuses on effective digital editing and motion graphics, web development, photography, and marketing, while the digital design core includes various courses related to color theory, typography, digital design, branding, and more. The career core includes an internship opportunity, and students also select a digital design elective. Students critically analyze and produce various digital designs, including websites, logos, photography projects, UI/UX design projects, and digital illustrations.

Potential Career Options

Potential career options for those pursuing this degree include graphic designer, digital designer, UI/UX designer, video editor, web designer, photo retouching specialist, creative director, art director, layout designer, digital marketer, advertising designer, digital illustrator, and other digital design-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 42 Credit Hours

Digital Design Core - 24 Credit Hours

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

Digital Production Core - 18 Credit Hours

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

Select One (1) of the following (3 Credits):

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 5 Credit Hours

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

ARTV 4823 - DESIGN INTERNSHIP

This internship experience involves supervised practical experience in graphic design, digital design, or a related field with professional organizations.

Prerequisites & Notes

Faculty Approval

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 39 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Film Production

Bachelor of Science, Film Production (Four-Year Plan)

Program Description

The Film Production program emphasizes the principles and best practices of film production. The film production core features various courses related to filmmaking and storytelling, including classes on narrative, cinematography, screenwriting, and editing; students also select a few film electives (such as those focused on audio, screen acting, or motion graphics). Students critically analyze and produce various films (including documentaries and short films), co-curricular productions, and portfolio and capstone projects in courses and for the annual film festival.

Potential Career Options

Potential career options for those pursuing this degree include director, producer, director of photography (cinematographer), script supervisor, film editor, screenwriter, actor, and other film-related careers.

Total Program Hours - 120

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the

career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:
CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Film Production Core - 39 Credit Hours

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip,

electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3283 - EDITING FOR STORY

This course covers the history, theory and practice of motion picture editing and post-production workflow. Students evaluate and apply editing techniques and theory.

* Do not register for this course if you have taken DCOM 3283

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

COMM 4173 - SENIOR FILM CAPSTONE DEVELOPMENT

This course guides senior film students through the development stages of producing their senior capstone film.

* Do not register for this course if you have taken DCOM 4173

Prerequisites & Notes

Faculty Approval

Credits: 3

COMM 4913 - SENIOR FILM CAPSTONE PROJECT

This senior film capstone project demonstrates the skills and knowledge that a student has acquired over the course of their academic career as a film major.

* Do not register for this course if you have taken DCOM 4913

Prerequisites & Notes

COMM 4173 and Faculty Approval

Credits: 3

Film Production Electives - Select Two (2) of the Following (6 Credits):

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 1603 - SCREEN ACTING

This course provides the skills and knowledge needed to achieve professional screen acting performances for film and television.

Prerequisites & Notes

None

Credits: 3

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3273

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4743 - SCREENWRITING II

The course concentrates on advanced elements of story and screenwriting as well as advanced script analysis. Limited enrollment because of the amount of reading and critical analysis required.

* Do not register for this course if you have taken DCOM 4743

Prerequisites & Notes

COMM 3723

Credits: 3

COMM 4463 - SPECIAL TOPICS IN FILM PRODUCTION

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the film production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Film Production degree. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 6 Credit Hours**COMM 3701 - FILM PRACTICUM**

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 35 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Graphic Design

Bachelor of Science, Graphic Design Four-Year Plan

Program Description

The Graphic Design program emphasizes the principles and best practices of graphic design. The core includes courses focused on digital design, typography, color theory, web development, UI/UX design, drawing, and photography. Students also select several design electives, such as courses on digital imaging, advertising design, illustration, and more. Students critically analyze and produce various designs in courses, practicums, and as part of portfolio and capstone projects.

Potential Career Options

Potential career options for those pursuing this degree include graphic designer, digital designer, UI/UX designer, web designer, photo retouching specialist, creative director, art director, layout designer, advertising designer, motion graphic artist, digital illustrator, and other graphic design-related careers.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students

engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours**Graphic Design Core - 36 Credit Hours****ARTV 1013 - DRAWING I**

This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 2233 - HISTORY OF GRAPHIC DESIGN

The scope of this art history course will span the art of graphic design from the early Renaissance through the present by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

ARTV 4503 - SENIOR PORTFOLIO & EXHIBITION

Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.

Prerequisites & Notes

Faculty Approval and Senior Status

Credits: 3

Select Three (3) of the Following (9 Credits):

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemarking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 5 Credit Hours

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

****2 Credit Hours Required**

ARTV 4823 - DESIGN INTERNSHIP

This internship experience involves supervised practical experience in graphic design, digital design, or a related field with professional organizations.

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 36 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Media Ministry

Bachelors of Arts, Communication: Human Communication (4 Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and

stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Divine Design Elective (3 Credits)

Year Two**FALL SEMESTER - 15 CREDIT HOURS****THEO 1213 - LIVED THEOLOGY**

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3553 - ADVANCED SPEECH

This course is a study of the theory and practice of persuasive public speaking.

Prerequisites & Notes

None

Credits: 3

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational

communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Human Communication Elective - Select One:

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4633 - SPECIAL TOPICS IN COMMUNICATION

This course is designed for the purpose of introducing specialized content across a broad range of potential subjects and for the development of new courses to be considered for inclusion as standard curriculum.

Prerequisites & Notes

None

Credits: 3

(or PMIN 3283 Creative Communication in Ministry in the fall instead)

Divine Design Electives (8.5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 4353 - INTERRACIAL COMMUNICATION IN THE US

This course explores the theoretical and practical issues related to race/ethnicity, and communication that often frame and impact the dynamics between various racial groups within the United States. The course will cover underpinnings of interracial/interethnic communication including topics such as identity, language, history, cultural influences, and theories. The course is designed to improve each student's understanding and ability to communicate across and within diverse racial groups in the United States.

Prerequisites & Notes

None

Credits: 3

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (5.5 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Human Communication Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Human Communication Elective - Select One:

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

COMM 4633 - SPECIAL TOPICS IN COMMUNICATION

This course is designed for the purpose of introducing specialized content across a broad range of potential subjects and for the development of new courses to be considered for inclusion as standard curriculum.

Prerequisites & Notes

None

Credits: 3

(or PMIN 3283 Creative Communication in Ministry in the fall instead)

Divine Design Electives (6.5 Credits)

Minor, Broadcast & Digital Production

Total Program Hours - 18 Credit Hours

Broadcast & Digital Production Core - 12 Credit Hours

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

2 Credit Hours Required

Broadcast & Digital Production Electives - Select Two:

COMM 3173 - PRODUCING FOR TELEVISION

This course is an advanced study of the planning side of television production. Students will learn the history of producing in the field of television including the production of a variety of television shows. Emerging media is of particular focus, allowing students to explore a wide variety of career options.

Prerequisites & Notes

COMM 2133

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3753 - SCRIPTWRITING FOR TV AND RADIO

This course gives students a foundation for the basics of television and radio writing. Students focus on industry-standard script formatting and writing, and they learn to develop a voice for broadcast writing.

Prerequisites & Notes

COMM 2113 AND COMM 2133

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Minor, Communication

This minor requires 18 hours of courses in Communication above the 2000 level and above.

Total of 18 Credit Hours

Communication Core - 15 Credit Hours

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes
COMM 3533

Credits: 3

Minor, Digital Design & Production

Total of 18 Credit Hours

Digital Design & Production Core - 9 Credit Hours

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes
None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes
None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes
None

Credits: 3

Digital Design & Production Elective - Select Three:

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

Minor, Film Production

Total Program Hours - 18 Credit Hours

Film Production Core - 12 Credit Hours

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

Film Production Electives - Select Two:

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 1603 - SCREEN ACTING

This course provides the skills and knowledge needed to achieve professional screen acting performances for film and television.

Prerequisites & Notes

None

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip, electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 4463 - SPECIAL TOPICS IN FILM PRODUCTION

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the film production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Film Production degree. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Minor, Graphic Design

Total of 18 Credit Hours

Graphic Design core - 12 Credit Hours

ARTV 1013 - DRAWING I

This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

Graphic Design Electives - Select Two:

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Minor, Human Communication

Total of 18 Credit Hours

Human Communication Core - 9 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

Human Communication Electives - Select Three:

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 3553 - ADVANCED SPEECH

This course is a study of the theory and practice of persuasive public speaking.

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4353 - INTERRACIAL COMMUNICATION IN THE US

This course explores the theoretical and practical issues related to race/ethnicity, and communication that often frame and impact the dynamics between various racial groups within the United States. The course will cover underpinnings of interracial/interethnic communication including topics such as identity, language, history, cultural influences, and theories. The course is designed to improve each student's understanding and ability to communicate across and within diverse racial groups in the United States.

Prerequisites & Notes

None

Credits: 3

COMM 4633 - SPECIAL TOPICS IN COMMUNICATION

This course is designed for the purpose of introducing specialized content across a broad range of potential subjects and for the development of new courses to be considered for inclusion as standard curriculum.

Prerequisites & Notes

None

Credits: 3

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of

other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

Minor, Multimedia Journalism

Total of 18 Credit Hours

Multimedia Journalism Core - 9 Credit Hours

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 3613 - NEWS WRITING AND EDITING

This course provides students the opportunity to write and edit various types of news stories. Students learn about interviewing, taking accurate notes, editing for clarity and conciseness, and other considerations of news writing and editing.

Prerequisites & Notes

COMM 2153

Credits: 3

Multimedia Journalism Electives - Select Three:

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3353 - NARRATIVE JOURNALISM

This course focuses on writing feature news stories, narrative journalism, and persuasive column writing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4403 - SPECIAL TOPICS IN JOURNALISM

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the journalism area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Multimedia Journalism Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

COMM 4453 - ADVANCED DIGITAL REPORTING

This course focuses on advanced reporting, research, interviewing, copy editing, and production skills for various digital storytelling formats, including photojournalism, investigative journalism, and online media.

Prerequisites & Notes

COMM 3613

Credits: 3

Minor, Public Relations

Total of 18 Credit Hours

Public Relations Core - 9 Credit Hours

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 3363 - WRITING FOR PUBL RELATIONS & ADVERT

This course is designed to give practical experience in producing public relations and advertising campaigns, including press kits, press releases, and advertising copy.

Prerequisites & Notes

COMM 2323

Credits: 3

Public Relations Electives - Select Three:

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3323 - SOCIAL MEDIA STRATEGY & CONTENT

This course covers the strategies that guide social media planning and integration in public relations. The various tools that public relations practitioners use to identify and engage publics through social media are included.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4373 - PUBLIC RELATIONS CAMPAIGNS

This capstone course provides students with the experience of using all of their public relations and mass communication training to develop a public relations campaign for an actual client.

Prerequisites & Notes

COMM 2323 and COMM 3363

Credits: 3

COMM 4383 - PUBLIC RELATIONS CASE STUDIES

This course involves analysis, presentation, and discussion of specific and hypothetical public relations cases using public relations theory as a philosophical framework.

Prerequisites & Notes

COMM 2323

Credits: 3

Minor, Sports Media

Total of 18 Credit Hours

Sports Media Core - 12 Credit Hours

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 3023 - SPORTS BROADCASTING I

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for fall sports.

Prerequisites & Notes

COMM 2041, COMM 2133, COMM 2153, and COMM 2613

Credits: 3

COMM 3033 - SPORTS BROADCASTING II

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for spring sports.

Prerequisites & Notes

COMM 3023

Credits: 3

Sports Media Electives - Select Two:

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Minor, Visual Arts

Total of 18 Credit Hours

ARTV 1013 - DRAWING I

This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

None

Credits: 3

ARTV 1503 - SURVEY OF WESTERN ART

This course introduces students to the fundamental elements of two- and three-dimensional Western art through reading, observation, and discussion. Students will learn the basic vocabulary related to the visual arts, learn to distinguish various genres and periods of art, and recognize and appreciate masterpieces of Western art. The role of art in history and society will be discussed and students will develop an enhanced appreciation for the value of art in their own lives.

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

Visual Arts Electives - Select Three:

ARTV 2013 - DRAWING II

This intermediate course in drawing is designed to advance students' implementation of the elements of art and principles of design, as a means toward creating a series of drawings exhibiting unique personal expression. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

ARTV 1013

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2053 - PAINTING I

This introductory course in painting is designed to orient students to the implementation of the elements of art and principles of design as expressed through paint and mixed media. Through experiential, hands-on training, students learn how to paint while using the appropriate tools, materials, and methods.

Prerequisites & Notes

ARTV 1013 and ARTV 2043

Credits: 3

ARTV 3083 - PAINTING II

This intermediate course in painting advances student's implementation of the elements of art and principles of design as expressed through paint and mixed media, as a means toward creating a series of paintings exhibiting unique personal expression. The course uses the critique process regularly to clarify conceptual issues.

Prerequisites & Notes

ARTV 2053

Credits: 3

ARTV 3093 - FIGURE DRAWING

This course advances students' understanding of the anatomically correct way to draw the human figure using a variety of materials and techniques. Through creative problem solving, formal exercises, and guided research, students will also produce highly conceptual and expressive drawings. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

ARTV 1013 and ARTV 1503

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

Online

Bachelor of Science, Communication & Mass Media (Online)

Bachelor of Science, Communication & Mass Media (Four-Year Plan)

Program Description

The Communication & Mass Media program emphasizes the principles and best practices of mass-mediated communication and human communication. The communication core focuses on various types of communication (interpersonal, intercultural, and organizational), storytelling, persuasion, and analysis of the mass media (courses including the theory, law, and the writing aspects of the mass media). Students are guided to become better communicators, whether their goal is to inform, entertain, or persuade; they also analyze communication artifacts and assess their effectiveness, persuasiveness, and ethics. The 12 credit hours of broadening electives allow for students to broaden their learning and perspectives with courses focused on topics including design thinking, and digital marketing, and visual storytelling and design (including two study abroad opportunities).

Potential Career Options

Potential career options for those pursuing this degree include communication consultant, communication manager, corporate communication coordinator, multimedia journalist, photojournalist, copy editor, managing editor, and other communication- and mass media- related careers. Graduates are equipped to improve the organizational communication of businesses, non-profit organizations, and corporations. Graduates can find fulfillment by helping people communicate more effectively and ethically in an interpersonal or intercultural context.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 42 Credit Hours

Communication Core - 30 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Broadening Electives - Select Four:

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4223 - CAMPAIGNS AND EVENT PLANNING

This course is an opportunity for students to produce a public relations campaign as well as plan and publicize an event. This senior-level experience is meant to help students add to their communication portfolio and demonstrate proficiency in public relations campaigns and event planning.

* Do not register for this course if you have taken DCOM 4213

Prerequisites & Notes

COMM 2323

Credits: 3

Divine Design (Major Specific Experiential Learning) - 1 Credit Hour

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 43 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

Broadening Elective - Select One:

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4223 - CAMPAIGNS AND EVENT PLANNING

This course is an opportunity for students to produce a public relations campaign as well as plan and publicize an event. This senior-level experience is meant to help students add to their communication portfolio and demonstrate proficiency in public relations campaigns and event planning.

* Do not register for this course if you have taken DCOM 4213

Prerequisites & Notes

COMM 2323

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

Broadening Elective - Select One:

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

Divine Design Electives (7 Credits)

Bachelor of Science, Digital Media & Design (Online)

Bachelor of Science, Digital Media & Design Four-Year Plan

Program Description

The Digital Media & Design program emphasizes the principles and best practices of digital media and digital design. The digital media core focuses on visual communication and digital marketing. The digital design core includes various courses related to color theory, typography, digital art and design, web development, and digital illustration. Students also select a digital media and design elective (including a study abroad opportunity). Students critically analyze and produce various digital designs, including websites, logos, photography projects, UI/UX design projects, and digital illustrations.

Potential Career Options

Potential career options for those pursuing this degree include graphic designer, digital designer, UI/UX designer, digital content writer, web designer, photo retouching specialist, creative director, art director, layout designer, digital marketer, advertising designer, digital illustrator, and other digital design-related careers.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One of the Following with Lab (4 Credit Hours):

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - 3 Credit Hours

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two (2) of the Following (6 Credit Hours):

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One (1) of the Following (3 Credit Hours):

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 42 Credit Hours**Digital Media Core - 9 Credit Hours****ARTV 1533 - SURVEY OF DIGITAL MEDIA & DESIGN**

This course surveys the field of digital media and design in order to prepare students for academic and professional paths in digital media and design. Topics include the history and contemporary applications of digital media and design as well as practical, introductory examples of digital media and design.

* Do not register for this course if you have taken DCOM 1533

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

Digital Design Core - 33 Credit Hours

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3013 - DRAWING FOR DESIGNERS

This course introduces design students to the elements, principles, and practices of drawing which are relevant to graphic design contexts. Through experiential, practical training, students learn how to effectively draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, critical analysis, and problem solving.

* Do not register for this course if you have taken DCOM 3043

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

Digital Media and Design Electives - Select One (1) of the Following (3 Credit Hours):

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Divine Design (Major Specific Experiential Learning) - 1 Credit Hour

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 43 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Minor, Communication & Mass Media (Online)

Total of 18 Credit Hours

Communication & Mass Media Core - 9 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

Communication & Mass Media Electives - Select Three:

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4223 - CAMPAIGNS AND EVENT PLANNING

This course is an opportunity for students to produce a public relations campaign as well as plan and publicize an event. This senior-level experience is meant to help students add to their communication portfolio and demonstrate proficiency in public relations campaigns and event planning.

* Do not register for this course if you have taken DCOM 4213

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Minor, Digital Media & Design (Online)

Total of 18 Credit Hours

Digital Media & Design Core - 9 Credit Hours

ARTV 1533 - SURVEY OF DIGITAL MEDIA & DESIGN

This course surveys the field of digital media and design in order to prepare students for academic and professional paths in digital media and design. Topics include the history and contemporary applications of digital media and design as well as practical, introductory examples of digital media and design.

* Do not register for this course if you have taken DCOM 1533

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

Digital Media & Design Electives - Select Three:

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3013 - DRAWING FOR DESIGNERS

This course introduces design students to the elements, principles, and practices of drawing which are relevant to graphic design contexts. Through experiential, practical training, students learn how to effectively draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, critical analysis, and problem solving.

* Do not register for this course if you have taken DCOM 3043

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Bachelor of Fine Arts, Film Production and Storytelling (Four-year Plan)**Year One****FALL SEMESTER - 16 CREDIT HOURS****CORE 1111 - COMMUNITY AND COLLEGE SUCCESS**

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip, electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing

historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

Film Production and Storytelling Elective - Select One:**COMM 3273 - DOCUMENTARY FILM PRODUCTION**

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4603 - FILM FESTIVALS & INDEPENDENT FILMS

This study abroad course focuses on how film festivals are used by independent filmmakers for publicity and pursuing distribution deals. The professor and students attend a film festival either in the United States or abroad as part of the course.

* Do not register for this course if you have taken DCOM 4603

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (6 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3283 - EDITING FOR STORY

This course covers the history, theory and practice of motion picture editing and post-production workflow. Students evaluate and apply editing techniques and theory.

* Do not register for this course if you have taken DCOM 3283

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4173 - SENIOR FILM CAPSTONE DEVELOPMENT

This course guides senior film students through the development stages of producing their senior capstone film.

* Do not register for this course if you have taken DCOM 4173

Prerequisites & Notes

Faculty Approval

Credits: 3

COMM 4743 - SCREENWRITING II

The course concentrates on advanced elements of story and screenwriting as well as advanced script analysis. Limited enrollment because of the amount of reading and critical analysis required.

* Do not register for this course if you have taken DCOM 4743

Prerequisites & Notes

COMM 3723

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

Divine Design Electives (6 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4913 - SENIOR FILM CAPSTONE PROJECT

This senior film capstone project demonstrates the skills and knowledge that a student has acquired over the course of their academic career as a film major.

* Do not register for this course if you have taken DCOM 4913

Prerequisites & Notes

COMM 4173 and Faculty Approval

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Film Production and Storytelling Elective - Select One:

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4603 - FILM FESTIVALS & INDEPENDENT FILMS

This study abroad course focuses on how film festivals are used by independent filmmakers for publicity and pursuing distribution deals. The professor and students attend a film festival either in the United States or abroad as part of the course.

* Do not register for this course if you have taken DCOM 4603

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (4 Credits)

Site-Based (Partnership)

Bachelor of Science, Communication & Mass Media (Site-based)

Bachelor of Science, Communication & Mass Media (Four-Year Plan)

Program Description

The Communication & Mass Media program emphasizes the principles and best practices of mass-mediated communication and human communication. The communication core focuses on various types of communication (interpersonal, intercultural, and organizational), storytelling, persuasion, and analysis of the mass media (courses including the theory, law, and the writing aspects of the mass media). Students are guided to become better communicators, whether their goal is to inform, entertain, or persuade; they also analyze communication artifacts and assess their effectiveness, persuasiveness, and ethics. The 12 credit hours of broadening electives allow for students to broaden their learning and perspectives with courses focused on topics including design thinking, and digital marketing, and visual storytelling and design (including two study abroad opportunities).

Potential Career Options

Potential career options for those pursuing this degree include communication consultant, communication manager, corporate communication coordinator, multimedia journalist, photojournalist, copy editor, managing editor, and other communication- and mass media- related careers. Graduates are equipped to improve the organizational communication of businesses, non-profit organizations, and corporations. Graduates can find fulfillment by helping people communicate more effectively and ethically in an interpersonal or intercultural context.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community

awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 42 Credit Hours

Communication Core - 30 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Broadening Electives - Select Four:**ARTV 2073 - WEB DESIGN & DEVELOPMENT**

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4223 - CAMPAIGNS AND EVENT PLANNING

This course is an opportunity for students to produce a public relations campaign as well as plan and publicize an event. This senior-level experience is meant to help students add to their communication portfolio and demonstrate proficiency in public relations campaigns and event planning.

* Do not register for this course if you have taken DCOM 4213

Prerequisites & Notes

COMM 2323

Credits: 3

Divine Design (Major Specific Experiential Learning) - 1 Credit Hour

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 43 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004, (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Science, Digital Media & Design (Partner)

Bachelor of Science, Digital Media & Design (Four-Year Plan)

Program Description

The Digital Media & Design program emphasizes the principles and best practices of digital media and digital design. The digital media core focuses on visual communication and digital marketing. The digital design core includes various courses related to color theory, typography, digital art and design, web development, and digital illustration. Students also select a digital media and design elective (including a study abroad opportunity). Students critically analyze and produce various digital designs, including websites, logos, photography projects, UI/UX design projects, and digital illustrations.

Potential Career Options

Potential career options for those pursuing this degree include graphic designer, digital designer, UI/UX designer, digital content writer, web designer, photo retouching specialist, creative director, art director, layout designer, digital marketer, advertising designer, digital illustrator, and other digital design-related careers.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One of the Following with Lab (4 Credit Hours):

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - 3 Credit Hours

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and

analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two (2) of the Following (6 Credit Hours):

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One (1) of the Following (3 Credit Hours):

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 42 Credit Hours

Digital Media Core - 9 Credit Hours

ARTV 1533 - SURVEY OF DIGITAL MEDIA & DESIGN

This course surveys the field of digital media and design in order to prepare students for academic and professional paths in digital media and design. Topics include the history and contemporary applications of digital media and design as well as practical, introductory examples of digital media and design.

* Do not register for this course if you have taken DCOM 1533

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

Digital Design Core - 33 Credit Hours

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3013 - DRAWING FOR DESIGNERS

This course introduces design students to the elements, principles, and practices of drawing which are relevant to graphic design contexts. Through experiential, practical training, students learn how to effectively draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, critical analysis, and problem solving.

* Do not register for this course if you have taken DCOM 3043

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

Digital Media and Design Elective - Select One:

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Divine Design (Major Specific Experiential Learning) - 1 Credit Hour

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Divine Design - 43 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Fine Arts, Film Production and Storytelling (Christ Fellowship only)

Bachelor of Fine Arts, Film Production and Storytelling (Four-year Plan)

Program Description

The Film Production & Storytelling program emphasizes the principles and best practices of film production and narrative. The communication and storytelling core focuses on the structure and function of stories and how they can be persuasive or informative. In the larger film production and storytelling core, students are guided to become filmmakers. Courses include those focused on narrative structure in film, digital video editing, producing, directing, cinematography, audio production, screenwriting, and film history. Students learn to critically analyze films and produce engaging, interesting, well-produced, and edifying films. The film electives available include courses focused on documentary filmmaking, cinematic design, and two study abroad opportunities.

Potential Career Options

Potential career options for those pursuing this degree include director, producer, director of photography (cinematographer), script supervisor, film editor, screenwriter, actor, and other film-related careers.

*Note: Students taking courses online outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 45 Credit Hours

Communication and Storytelling Core - 6 Credit Hours

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

Film Production and Storytelling Core - 33 Credit Hours

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip, electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3283 - EDITING FOR STORY

This course covers the history, theory and practice of motion picture editing and post-production workflow. Students evaluate and apply editing techniques and theory.

* Do not register for this course if you have taken DCOM 3283

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

COMM 4743 - SCREENWRITING II

The course concentrates on advanced elements of story and screenwriting as well as advanced script analysis. Limited enrollment because of the amount of reading and critical analysis required.

* Do not register for this course if you have taken DCOM 4743

Prerequisites & Notes

COMM 3723

Credits: 3

Film Production and Storytelling Electives - Select Two:

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4603 - FILM FESTIVALS & INDEPENDENT FILMS

This study abroad course focuses on how film festivals are used by independent filmmakers for publicity and pursuing distribution deals. The professor and students attend a film festival either in the United States or abroad as part of the course.

* Do not register for this course if you have taken DCOM 4603

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 10 Credit Hours

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4173 - SENIOR FILM CAPSTONE DEVELOPMENT

This course guides senior film students through the development stages of producing their senior capstone film.

* Do not register for this course if you have taken DCOM 4173

Prerequisites & Notes

Faculty Approval

Credits: 3

COMM 4913 - SENIOR FILM CAPSTONE PROJECT

This senior film capstone project demonstrates the skills and knowledge that a student has acquired over the course of their academic career as a film major.

* Do not register for this course if you have taken DCOM 4913

Prerequisites & Notes

COMM 4173 and Faculty Approval

Credits: 3

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Divine Design - 31 Credit Hours

To meet the Divine Design requirement, student may earn credit hours in general elective courses, declare minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums.

Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level courses that do not satisfy the above program requirements. Student must complete the above program requirements, with remaining credit hours earned in Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders,

and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Minor, Communication & Mass Media (Site-based)

Total of 18 Credit Hours

Communication and Mass Media Core - 9 Credit Hours

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

COMM 2423 - WRITING FOR DIGITAL MEDIA

This course focuses on writing skills for digital media with an emphasis on media convergence and online journalism.

* Do not register for this course if you have taken DCOM 2423

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

Communication and Mass Media Electives - Select Three:

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4223 - CAMPAIGNS AND EVENT PLANNING

This course is an opportunity for students to produce a public relations campaign as well as plan and publicize an event. This senior-level experience is meant to help students add to their communication portfolio and demonstrate proficiency in public relations campaigns and event planning.

* Do not register for this course if you have taken DCOM 4213

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Minor, Digital Media & Design (Site-based)

Total of 18 Credit Hours

Digital Media and Design Core - 9 Credit Hours

ARTV 1533 - SURVEY OF DIGITAL MEDIA & DESIGN

This course surveys the field of digital media and design in order to prepare students for academic and professional paths in digital media and design. Topics include the history and contemporary applications of digital media and design as well as practical, introductory examples of digital media and design.

* Do not register for this course if you have taken DCOM 1533

Prerequisites & Notes

None

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 3533 - DIGITAL LAYOUT & DESIGN

This course provides instruction in the practical skills and theoretical considerations used in the layout and design of various media productions.

* Do not register for this course if you have taken DCOM 3523

Prerequisites & Notes

None

Credits: 3

Digital Media and Design Electives - 9 Credit Hours

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3013 - DRAWING FOR DESIGNERS

This course introduces design students to the elements, principles, and practices of drawing which are relevant to graphic design contexts. Through experiential, practical training, students learn how to effectively draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, critical analysis, and problem solving.

* Do not register for this course if you have taken DCOM 3043

Prerequisites & Notes

None

Credits: 3

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Other Programs**Bachelor of Arts, Communication: Broadcast & Digital Production (Four-Year Plan)****Year One****FALL SEMESTER - 16 CREDIT HOURS****CORE 1111 - COMMUNITY AND COLLEGE SUCCESS**

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1133 - ENGLISH COMPOSITION I

Study and practice in the critical reading and effective writing of expository prose, with an emphasis on fluency and style.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry (Select One):

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (5 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3051 - RADIO PRACTICUM

This course allows students to be involved in the various aspects of production and programming for Southeastern's campus radio station or local stations.

Prerequisites & Notes

COMM 2113 (Preceding or Concurrently)

Credits: Variable

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Broadcasting & Digital Production Electives - Select One:

COMM 3173 - PRODUCING FOR TELEVISION

This course is an advanced study of the planning side of television production. Students will learn the history of producing in the field of television including the production of a variety of television shows. Emerging media is of particular focus, allowing students to explore a wide variety of career options.

Prerequisites & Notes

COMM 2133

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3753 - SCRIPTWRITING FOR TV AND RADIO

This course gives students a foundation for the basics of television and radio writing. Students focus on industry-standard script formatting and writing, and they learn to develop a voice for broadcast writing.

Prerequisites & Notes

COMM 2113 AND COMM 2133

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (7 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3051 - RADIO PRACTICUM

This course allows students to be involved in the various aspects of production and programming for Southeastern's campus radio station or local stations.

Prerequisites & Notes

COMM 2113 (Preceding or Concurrently)

Credits: Variable

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

Broadcasting & Digital Production Electives - Select One:

COMM 3173 - PRODUCING FOR TELEVISION

This course is an advanced study of the planning side of television production. Students will learn the history of producing in the field of television including the production of a variety of television shows. Emerging media is of particular focus, allowing students to explore a wide variety of career options.

Prerequisites & Notes

COMM 2133

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3753 - SCRIPTWRITING FOR TV AND RADIO

This course gives students a foundation for the basics of television and radio writing. Students focus on industry-standard script formatting and writing, and they learn to develop a voice for broadcast writing.

Prerequisites & Notes

COMM 2113 AND COMM 2133

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Communication Core Elective - Select One:

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Divine Design Electives (9.5 Credits)

**Bachelor of Arts, Communication: Multimedia Journalism
(Four-Year Plan)**

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:**MUSC 1003 - MUSIC APPRECIATION**

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3613 - NEWS WRITING AND EDITING

This course provides students the opportunity to write and edit various types of news stories. Students learn about interviewing, taking accurate notes, editing for clarity and conciseness, and other considerations of news writing and editing.

Prerequisites & Notes

COMM 2153

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Multimedia Journalism Elective - Select One:

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

COMM 3353 - NARRATIVE JOURNALISM

This course focuses on writing feature news stories, narrative journalism, and persuasive column writing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4403 - SPECIAL TOPICS IN JOURNALISM

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the journalism area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Multimedia Journalism Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (8.5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4453 - ADVANCED DIGITAL REPORTING

This course focuses on advanced reporting, research, interviewing, copy editing, and production skills for various digital storytelling formats, including photojournalism, investigative journalism, and online media.

Prerequisites & Notes

COMM 3613

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Communication Core Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Divine Design Electives (3.5 Credits)

Bachelor of Arts, Communication: Public Relations (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credit Hours)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credit Hours)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credit Hours)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational

communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

Public Relations Core Elective - Select One:

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

COMM 4383 - PUBLIC RELATIONS CASE STUDIES

This course involves analysis, presentation, and discussion of specific and hypothetical public relations cases using public relations theory as a philosophical framework.

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 4413 - SPECIAL TOPICS IN PUBLIC RELATIONS

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the public relations area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Public Relations Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current

issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (9 Credit Hours)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3363 - WRITING FOR PUBL RELATIONS & ADVERT

This course is designed to give practical experience in producing public relations and advertising campaigns, including press kits, press releases, and advertising copy.

Prerequisites & Notes

COMM 2323

Credits: 3

COMM 3323 - SOCIAL MEDIA STRATEGY & CONTENT

This course covers the strategies that guide social media planning and integration in public relations. The various tools that public relations practitioners use to identify and engage publics through social media are included.

Prerequisites & Notes

None

Credits: 3

Public Relations Core Elective - Select One:

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credit Hours)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 3041 - PUBLIC RELATIONS PRACTICUM

This course involves practical experience in journalism or public relations with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (8.5 Credit Hours)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4373 - PUBLIC RELATIONS CAMPAIGNS

This capstone course provides students with the experience of using all of their public relations and mass communication training to develop a public relations campaign for an actual client.

Prerequisites & Notes

COMM 2323 and COMM 3363

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3041 - PUBLIC RELATIONS PRACTICUM

This course involves practical experience in journalism or public relations with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Communication Core Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Divine Design Elective (3 Credit Hours)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

Divine Design Electives (5 Credit Hours)

Year Three

FALL SEMESTER - 14.5 CREDIT HOURS

COMM 3023 - SPORTS BROADCASTING I

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for fall sports.

Prerequisites & Notes

COMM 2041, COMM 2133, COMM 2153, and COMM 2613

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Divine Design Electives (8 Credit Hours)

SPRING SEMESTER - 15.5 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3033 - SPORTS BROADCASTING II

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for spring sports.

Prerequisites & Notes

COMM 3023

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Sports Media Electives - Select One:

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (6 Credit Hours)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

Divine Design Electives (9 Credit Hours)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Communication Core Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Divine Design Electives (10 Credit Hours)

Bachelor of Arts, Film Production (Four-Year Plan)**Year One****FALL SEMESTER - 16 CREDIT HOURS****CORE 1111 - COMMUNITY AND COLLEGE SUCCESS**

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:**HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY**

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip, electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Divine Design Electives (8.5 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3283 - EDITING FOR STORY

This course covers the history, theory and practice of motion picture editing and post-production workflow. Students evaluate and apply editing techniques and theory.

* Do not register for this course if you have taken DCOM 3283

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Divine Design Electives (2.5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4173 - SENIOR FILM CAPSTONE DEVELOPMENT

This course guides senior film students through the development stages of producing their senior capstone film.

* Do not register for this course if you have taken DCOM 4173

Prerequisites & Notes

Faculty Approval

Credits: 3

Film Production Core Electives - Select One:

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 1603 - SCREEN ACTING

This course provides the skills and knowledge needed to achieve professional screen acting performances for film and television.

Prerequisites & Notes

None

Credits: 3

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4743 - SCREENWRITING II

The course concentrates on advanced elements of story and screenwriting as well as advanced script analysis. Limited enrollment because of the amount of reading and critical analysis required.

* Do not register for this course if you have taken DCOM 4743

Prerequisites & Notes

COMM 3723

Credits: 3

COMM 4463 - SPECIAL TOPICS IN FILM PRODUCTION

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the film production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Film Production degree. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will

focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

Graphic Design Core Elective - Select One:

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemaking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

ARTV 2233 - HISTORY OF GRAPHIC DESIGN

The scope of this art history course will span the art of graphic design from the early Renaissance through the present by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.

Prerequisites & Notes

None

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

Graphic Design Core Elective - Select One:

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemarking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (5.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS**ARTV 3053 - UI/UX DESIGN**

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a

human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Graphic Design Core Elective - Select One:

Divine Design Electives (11.5 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4503 - SENIOR PORTFOLIO & EXHIBITION

Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art

and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.

Prerequisites & Notes

Faculty Approval and Senior Status

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Divine Design Electives (7.5 Credits)

Bachelor of Arts, Visual Arts (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

ARTV 1013 - DRAWING I

This introductory course in drawing is designed to orient students to the implementation of the elements of art and principles of design. Through experiential, hands-on training, students learn how to draw while using the appropriate tools, materials, and methods. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2013 - DRAWING II

This intermediate course in drawing is designed to advance students' implementation of the elements of art and principles of design, as a means toward creating a series of drawings exhibiting unique personal expression. The course stresses visual thinking, creativity, skill development, and critical analysis.

Prerequisites & Notes

ARTV 1013

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Visual Arts Elective - Select One:

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemaking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3083 - PAINTING II

This intermediate course in painting advances student's implementation of the elements of art and principles of design as expressed through paint and mixed media, as a means toward creating a series of paintings exhibiting unique personal expression. The course uses the critique process regularly to clarify conceptual issues.

Prerequisites & Notes

ARTV 2053

Credits: 3

ARTV 3093 - FIGURE DRAWING

This course advances students' understanding of the anatomically correct way to draw the human figure using a variety of materials and techniques. Through creative problem solving, formal exercises, and guided research, students will also produce highly conceptual and expressive drawings. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

ARTV 1013 and ARTV 1503

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

ARTV 3143 - CERAMICS

This course will introduce the basics of clay as a three-dimensional art form. Students will create artistic objects utilizing both wheel-thrown and hand-built techniques as well as glazing and firing processes.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (2.5 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

ARTV 3913 - JUNIOR STUDIO

This studio class gives students the opportunity to work with increased independence in a variety of disciplines. Studio space is provided, and individual critiques are an integral component to the course, which is designed to prepare students for the senior capstone and exhibition.

Prerequisites & Notes

ARTV 2013 and ARTV 2053

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Visual Arts Elective - Select One:

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemarking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Credits: 3

Divine Design Electives (11.5 Credits)

SPRING SEMESTER - 14 CREDIT HOURS**ARTV 4503 - SENIOR PORTFOLIO & EXHIBITION**

Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.

Prerequisites & Notes

Faculty Approval and Senior Status

Credits: 3

Divine Design Electives (11 Credits)

Bachelor of Science, Communication: Broadcast & Digital Production (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS**CORE 1111 - COMMUNITY AND COLLEGE SUCCESS**

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community

awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (7 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (5 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3051 - RADIO PRACTICUM

This course allows students to be involved in the various aspects of production and programming for Southeastern's campus radio station or local stations.

Prerequisites & Notes

COMM 2113 (Preceding or Concurrently)

Credits: Variable

Broadcasting and Digital Production Elective - Select One:

COMM 3173 - PRODUCING FOR TELEVISION

This course is an advanced study of the planning side of television production. Students will learn the history of producing in the field of television including the production of a variety of television shows. Emerging media is of particular focus, allowing students to explore a wide variety of career options.

Prerequisites & Notes

COMM 2133

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3753 - SCRIPTWRITING FOR TV AND RADIO

This course gives students a foundation for the basics of television and radio writing. Students focus on industry-standard script formatting and writing, and they learn to develop a voice for broadcast writing.

Prerequisites & Notes

COMM 2113 AND COMM 2133

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (7 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3051 - RADIO PRACTICUM

This course allows students to be involved in the various aspects of production and programming for Southeastern's campus radio station or local stations.

Prerequisites & Notes

COMM 2113 (Preceding or Concurrently)

Credits: Variable

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

Broadcasting and Digital Production Elective - Select One:

COMM 3173 - PRODUCING FOR TELEVISION

This course is an advanced study of the planning side of television production. Students will learn the history of producing in the field of television including the production of a variety of television shows. Emerging media is of particular focus, allowing students to explore a wide variety of career options.

Prerequisites & Notes

COMM 2133

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3753 - SCRIPTWRITING FOR TV AND RADIO

This course gives students a foundation for the basics of television and radio writing. Students focus on industry-standard script formatting and writing, and they learn to develop a voice for broadcast writing.

Prerequisites & Notes

COMM 2113 AND COMM 2133

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Communication Core Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Divine Design Electives (6.5 Credits)

Bachelor of Science, Communication: Human Communication (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3553 - ADVANCED SPEECH

This course is a study of the theory and practice of persuasive public speaking.

Prerequisites & Notes

None

Credits: 3

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3071 - COMMUNICATION PRACTICUM

This course involves practical experience in communication, including writing, speaking, or researching for local businesses, campus organizations, or individuals. It may be repeated four times for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Human Communication Elective - Select One:

COMM 3153 - INTERPRETING NARRATIVES & IDEOLOGIES

This course concentrates on how the mass media create and deliver stories to impact individuals and society. Students study narrative theory, media ethics, and criticism models. Emphasis is given to understanding what Hollywood teaches theologically, how mass media stories shape modern culture, and then how students must analyze their own media consumption and create stories for moral purposes.

* Do not register for this course if you have taken DCOM 3153

Prerequisites & Notes

ENGL 1233 OR ENGL 2113

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4633 - SPECIAL TOPICS IN COMMUNICATION

This course is designed for the purpose of introducing specialized content across a broad range of potential subjects and for the development of new courses to be considered for inclusion as standard curriculum.

Prerequisites & Notes

None

Credits: 3

OR

PMIN 3283 - CREATIVE COMMUNICATION IN MINISTRY

This course is an introduction to creative and effective communication techniques within children's and youth ministries. It will examine basic principles of the teaching-learning process, the art of storytelling, and a variety of other illustrative methods.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (8.5 Credits)

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3613 - NEWS WRITING AND EDITING

This course provides students the opportunity to write and edit various types of news stories. Students learn about interviewing, taking accurate notes, editing for clarity and conciseness, and other considerations of news writing and editing.

Prerequisites & Notes

COMM 2153

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (8.5 Credits)

Year Four

FALL SEMESTER - 15.5 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (9 Credits)

SPRING SEMESTER - 13.5 CREDIT HOURS

COMM 4453 - ADVANCED DIGITAL REPORTING

This course focuses on advanced reporting, research, interviewing, copy editing, and production skills for various digital storytelling formats, including photojournalism, investigative journalism, and online media.

Prerequisites & Notes

COMM 3613

Credits: 3

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 3061 - MULTIMEDIA JOURNALISM PRACTICUM

This course involves practical experience in journalism with campus publications or local organizations. It may be repeated for up to four hours of credit.

Prerequisites & Notes

None

Credits: Variable

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Multimedia Journalism Elective - Select One:

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

COMM 3353 - NARRATIVE JOURNALISM

This course focuses on writing feature news stories, narrative journalism, and persuasive column writing.

Prerequisites & Notes

COMM 2153

Credits: 3

COMM 3773 - ELECTRONIC NEWS GATHERING

This course is designed to prepare the student to write, shoot, and edit broadcast news packages. Hands-on coursework allows students to become proficient in pitching stories, field reporting, camera operating in the field, and editing for news.

Prerequisites & Notes

COMM 2041, COMM 2133, AND COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4403 - SPECIAL TOPICS IN JOURNALISM

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the journalism area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Multimedia Journalism Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Bachelor of Science, Communication: Public Relations (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural Science with Lab: Select One (1) of the Following plus Lab

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2323 - INTRODUCTION TO PUBLIC RELATIONS

This course provides an overview of public relations with emphasis on the tools, skills, and technology needed in the creation and exchange of messages in public and private organizations using print, broadcast, and electronic media.

* Do not register for this course if you have taken DCOM 2323

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the

disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

COMM 1433 - FUNDAMENTALS OF SPEECH

This course is a study in both theory and practice in the principles of effective speech development and presentation.

* Do not register for this course if you have taken DCOM 1433

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ

an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2233 - INTRODUCTION TO COMMUNICATION

This course is an introduction to the various communication concepts, principles, and practices. Various communication models, technologies, and messages are surveyed and analyzed, with practical application in various contexts, including interpersonal, organizational, intercultural, and mass-mediated communication.

Prerequisites & Notes

None

Credits: 3

COMM 2133 - INTRO TO TELEVISION PRODUCTION

This course is a study of basic equipment, organization, operation, production procedures, and principles of visual production with an emphasis on practical experience.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

COMM 2153 - WRITING FOR THE MASS MEDIA

This course focuses on writing skills for the mass media, including print, broadcast, and online journalism as well as public relations and advertising. It includes instruction on interviewing, research, and copy editing for various media and story formats.

* Do not register for this course if you have taken DCOM 3333

Prerequisites & Notes

ENGL 1233 or ENGL 2113

Credits: 3

COMM 2041 - VIDEO PRODUCTION WORKSHOP

This course is a workshop-style course that introduces students to the broadcast field production gear provided by the university for student use. The course will lay the foundation for all broadcasting courses by allowing students to use the gear in the studio.

Prerequisites & Notes

None

Credits: 1

Divine Design Electives (5 Credits)

Year Three

FALL SEMESTER - 14.5 CREDIT HOURS

COMM 3023 - SPORTS BROADCASTING I

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for fall sports.

Prerequisites & Notes

COMM 2041, COMM 2133, COMM 2153, and COMM 2613

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (5 Credits)

SPRING SEMESTER - 15.5 CREDIT HOURS

COMM 3533 - MASS COMMUNICATION THEORY

This course is an in-depth study of the development of the various theoretical approaches to understanding the impact and effects of mass communication on individuals, groups, and the culture as well as their practical applications within the media professions.

* Do not register for this course if you have taken DCOM 3533

Prerequisites & Notes

None

Credits: 3

COMM 3033 - SPORTS BROADCASTING II

This course provides the student with the knowledge of sports broadcast production techniques and exposure to production equipment. Additionally, the course provides the student with sports media production experience for spring sports.

Prerequisites & Notes

COMM 3023

Credits: 3

COMM 3021 - BROADCAST PRACTICUM

This course consists of working with video, audio, or radio productions at local production facilities or on campus. Prior experience in either television or radio is required.

Prerequisites & Notes

None

Credits: variable

Sports Media Elective - Select One:

COMM 2113 - INTRODUCTION TO RADIO PRODUCTION

This is a broadcasting course which familiarizes students with theory, equipment, and on-air techniques related to radio production.

Prerequisites & Notes

None

Credits: 3

COMM 3183 - PODCASTING

This course provides students with an understanding of podcast production and the role of podcasting within the current media landscape. Areas covered include the history of podcasting, types of podcasts, storytelling, recording and editing, digital delivery techniques, audio equipment, and digital distribution and marketing.

Prerequisites & Notes

None

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 4103 - SPECIAL TOPICS IN BROADCASTING

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the broadcasting and digital production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Broadcasting & Digital Production Track. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

COMM 4533 - MASS COMMUNICATION LAW

This course is an extensive study of the various communication laws with particular emphasis on the interpretation and implementation of the First Amendment. It also focuses on the influence of communication law on the work of the media professional.

* Do not register for this course if you have taken DCOM 4533

Prerequisites & Notes

ENGL 2133 or ENGL 1233

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Communication Elective - Select One:

COMM 4203 - GLOBAL COMMUNICATION

Understanding communication in a global context means understanding the impact of the technological society in all areas of culture. This course examines the impact of technology on human communication historically and culturally in an international context. Special attention is given to building connections between course content and each student's personal faith journey.

* Do not register for this course if you have taken DCOM 4203

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4853 - MEDIA CRITICISM

This course is an advanced study of the rhetorical principles that guide the analysis of media products. Critical analysis of media texts is emphasized. Students will learn to observe, analyze, and critique visual media texts from the perspective of the media professional working in media industries to create or improve media products. The course is appropriate for students seeking careers in media creation professions.

Prerequisites & Notes

COMM 3533

Credits: 3

Divine Design Electives (7 Credits)

Bachelor of Science, Digital Design & Production (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded

arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students

analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 3793 - DIGITAL MARKETING & ANALYTICS

This course introduces students to the changing world of digital marketing. The purpose of the course is to prepare students to create digital marketing pieces and campaigns in order to reach customers and promote their organizations or businesses. It explores key marketing principles that are applicable to traditional and emerging technologies while providing students the chance to get practical experience using the major advertising, communication, and analytics tools available for both targeted and mass marketing efforts.

* Do not register for this course if you have taken DCOM 3793

Prerequisites & Notes

None

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (5.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

ARTV 3053 - UI/UX DESIGN

In this practical, project-based course, students explore the principles and practices of user interface and user experience design for digital platforms, including social media, smartphones, and tablets. This course teaches the

history, principles, tools, and best practices of User Interface (UI) and User Experience (UX) Design. Students use a human-centered design process to understand users and design digital tools that are intuitive to use and create a pleasant user experience.

* Do not register for this course if you have taken DCOM 3053

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

Divine Design Electives (5.5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (12 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4823 - DESIGN INTERNSHIP

This internship experience involves supervised practical experience in graphic design, digital design, or a related field with professional organizations.

Prerequisites & Notes

Faculty Approval

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

Digital Design and Production Elective - Select One:

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4113 - DIGITAL ILLUSTRATION

This course focuses on advanced illustration techniques, including the production of vector graphics, infographics, and line illustration.

* Do not register for this course if you have taken DCOM 4113

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (4 Credits)

Bachelor of Science, Film Production (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

COMM 1803 - INTRODUCTION TO FILM PRODUCTION

This course explores the various departments that contribute to the production of a feature film, surveying each major crew position and reviewing the tools, equipment, and documents with which they work. The course will focus on film jargon, set etiquette, and the tools that govern the unions, guilds, and other aspects of employment in the film industry.

Prerequisites & Notes

None

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS**CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION**

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

COMM 2533 - NARRATIVE STRUCTURE IN FILM

This course examines the characteristics of cinematic storytelling found in contemporary motion pictures, including the conventional three-act structure and its variations.

* Do not register for this course if you have taken DCOM 2533

Prerequisites & Notes

COMM 1803

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:**BIOL 1333 - ESSENTIALS OF HUMAN A & P**

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

COMM 2613 - DIGITAL VIDEO EDITING

This course is a study of the editing process used in producing quality television. Students obtain hands-on experience in non-linear editing and familiarization with appropriate editing software.

* Do not register for this course if you have taken DCOM 2613

Prerequisites & Notes

None

Credits: 3

COMM 2703 - PRODUCING FOR FILM

The course covers film production, from preparation to post-production, from the perspective of the independent film producer. This includes introductory workshops on the different departments, including technical areas such as grip, electric, and camera. Students learn how to break down and budget a script, schedule a shoot, create and fill out paperwork such as deal memos, call sheets, contracts, location scouting, and holding auditions.

* Do not register for this course if you have taken DCOM 2703

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (2.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3263 - CINEMATOGRAPHY

The course offers an overview of the art and science of cinematography. It concentrates on cinematic theory, the use of lenses and of focus, working with lights, camera operations, mise-en-scène, framing shots, storytelling using a camera, and the responsibilities of a camera team on a film shoot.

* Do not register for this course if you have taken DCOM 3263

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Divine Design Electives (8.5 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

COMM 3253 - DIRECTING FOR FILM

The course focuses on the skills and knowledge needed for directors to make professional decisions concerning how to comprehensively approach a film project as well as working with the minutiae of a singular scene. In addition, students will learn to work with actors to get the best performances from them. The course will offer hands-on opportunities for the students to practice analyzing, blocking, and directing a small scene.

* Do not register for this course if you have taken DCOM 3253

Prerequisites & Notes

COMM 1803

Credits: 3

COMM 3723 - SCREENWRITING I

The course acquaints the student with the screenwriting process, and it includes the three-act structure, writing a proper treatment, character analysis, using proper formatting, screenplay protocol, basic story elements, and writing a compelling story. Students demonstrate their knowledge of scriptwriting by creating original scripts.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2533

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Divine Design Electives (8.5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

COMM 3283 - EDITING FOR STORY

This course covers the history, theory and practice of motion picture editing and post-production workflow. Students evaluate and apply editing techniques and theory.

* Do not register for this course if you have taken DCOM 3283

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 3293 - CINEMATIC DESIGN

This course introduces and explores the elements and practice of visual structure, especially as it relates to cinematography. Students learn how to structure visual components in films.

* Do not register for this course if you have taken DCOM 3293

Prerequisites & Notes

COMM 3263 (Preceding or Concurrently)

Credits: 3

COMM 3763 - AUDIO FOR TV AND FILM

This course is designed to prepare the student to enhance their ability to produce industry quality audio for television and film production. Students will learn through hands-on instruction and demonstration in how to capture and troubleshoot television/film production audio.

* Do not register for this course if you have taken DCOM 3763

Prerequisites & Notes

COMM 1803 or COMM 2133

Credits: 3

COMM 3783 - FILM HISTORY

This course introduces students to the history of film, including the origins of the medium and its evolution from inception to present day cinema.

* Do not register for this course if you have taken DCOM 3783

Prerequisites & Notes

None

Credits: 3

COMM 3701 - FILM PRACTICUM

This course consists of supervised practical experience in film studies and techniques stressing development, pre-production, production, post-production, marketing and critical, cinematic studies.

Prerequisites & Notes

None

Credits: 0.5

Divine Design Electives (2.5 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

COMM 4173 - SENIOR FILM CAPSTONE DEVELOPMENT

This course guides senior film students through the development stages of producing their senior capstone film.

* Do not register for this course if you have taken DCOM 4173

Prerequisites & Notes

Faculty Approval

Credits: 3

Film Production Elective - Select One:

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 1603 - SCREEN ACTING

This course provides the skills and knowledge needed to achieve professional screen acting performances for film and television.

Prerequisites & Notes

None

Credits: 3

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

COMM 4743 - SCREENWRITING II

The course concentrates on advanced elements of story and screenwriting as well as advanced script analysis. Limited enrollment because of the amount of reading and critical analysis required.

* Do not register for this course if you have taken DCOM 4743

Prerequisites & Notes

COMM 3723

Credits: 3

COMM 4463 - SPECIAL TOPICS IN FILM PRODUCTION

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the film production area. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the Film Production degree. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

COMM 4913 - SENIOR FILM CAPSTONE PROJECT

This senior film capstone project demonstrates the skills and knowledge that a student has acquired over the course of their academic career as a film major.

* Do not register for this course if you have taken DCOM 4913

Prerequisites & Notes

COMM 4173 and Faculty Approval

Credits: 3

COMM 4001 - COMMUNICATION SEMINAR

This course readies the future communication professional for the job market by providing career advice on networking, interviewing, job searching, and the production of job application materials.

* Do not register for this course if you have taken DCOM 4001

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 1

COMM 4823 - COMMUNICATION INTERNSHIP

This internship experience involves supervised practical experience in a communication field with professional organizations.

* Do not register for this course if you have taken DCOM 4823

Prerequisites & Notes

Faculty Approval

Credits: 3

Film Production Elective - Select One:

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

COMM 1603 - SCREEN ACTING

This course provides the skills and knowledge needed to achieve professional screen acting performances for film and television.

Prerequisites & Notes

None

Credits: 3

COMM 3273 - DOCUMENTARY FILM PRODUCTION

This is a non-fiction production course focusing on the skills, storytelling concepts, and the legal and ethical framework for successful documentary productions.

* Do not register for this course if you have taken DCOM 3723

Prerequisites & Notes

COMM 2613

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

ARTV 3073 - TYPOGRAPHY

This course covers the history, contextual applications, and contemporary developments of typography. Students learn typographic theory and apply typographic principles in various media. The study of typographic applications in various industries including advertising, editorial, promotional, and digital media are also included.

* Do not register for this course if you have taken DCOM 3073

Prerequisites & Notes

None

Credits: 3

ARTV 2033 - FUNDAMENTALS OF DIGITAL DESIGN

This course introduces students to foundational principles and practices of digital media. It enables students to explore elements and applications of digital design, vector and raster image tools, and creative digital content.

Prerequisites & Notes

None

Credits: 3

ARTV 2073 - WEB DESIGN & DEVELOPMENT

This course focuses on the principles and practices of effective web design, including design principles, color, and typography in the context of designing for the web. It is also an introduction to the fundamentals of web development, including HTML and CSS coding.

* Do not register for this course if you have taken DCOM 3823

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

ARTV 2043 - COLOR THEORY

This course advances students' understanding of color through formal exercises. Students build a vocabulary for examining and recognizing color and learn how color theories are applied in various professional fields.

* Do not register for this course if you have taken DCOM 2043

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ARTV 2233 - HISTORY OF GRAPHIC DESIGN

The scope of this art history course will span the art of graphic design from the early Renaissance through the present by focusing on artists and major trends in the contexts of their underlying philosophical and cultural influences.

Prerequisites & Notes

None

Credits: 3

Graphic Design Elective - Select One:

ARTV 2123 - INTRODUCTION TO PRINTMAKING

This course will introduce basic principles and applications of traditional printmaking techniques as a bridge to using digital tools in current art mediums. Students will explore production of multiple copies using relief and intaglio platemarking materials. Differences in paper types, ink formulas, proper display and pricing will be taught.

Prerequisites & Notes

None

Credits: 3

ARTV 3003 - MAGAZINE DESIGN & PRODUCTION

This course deals with the processes of magazine planning, editing, designing, and distributing.

* Do not register for this course if you have taken DCOM 3003

Prerequisites & Notes

None

Credits: 3

ARTV 3103 - 3-D DESIGN

This course emphasizes the elements of art and principles of design as they may be expressed three-dimensionally, specifically addressing the potential for the elements of space and form to convey meaning. Through creative problem solving, formal exercises, and guided research, students will produce highly conceptual and expressive forms, sculptures, installations, and assemblages, using a variety of materials and techniques. Students will learn both traditional and contemporary methods for three-dimensional design. This course uses the critique process regularly to clarify conceptual and technical issues and to celebrate the uniqueness of personal vision.

Prerequisites & Notes

None

Credits: 3

ARTV 3223 - MOTION GRAPHIC DESIGN

This course will introduce basic principles and applications of motion design/graphics as it pertains to current trends in social media and the film and television industries. Students will learn industry standard processes and practices on the way to preparing themselves for an entry-level to intermediate position in the motion graphics and design industries.

Prerequisites & Notes

None

Credits: 3

ARTV 4003 - SPECIAL TOPICS IN ART OR DESIGN

This course is designed for the purpose of introducing specialized content and teaching across a range of potential niche subjects in the visual arts or design areas. Although not the case with all special topic courses, the course might be used for the development of potential new course electives to be considered for inclusion as standard curriculum in the design and visual art programs. It can also be used to teach specific topics that are offered occasionally or are relevant to a current issue or phenomenon in the field.

Prerequisites & Notes

None

Credits: 3

ARTV 4093 - ADVERTISING DESIGN

This course focuses on graphic design in advertising, including advanced logo and identity design, print advertisement design, and online advertisement design.

* Do not register for this course if you have taken DCOM 4093

Prerequisites & Notes

None

Credits: 3

COMM 4183 - INTERNATIONAL VISUAL STORYTELLING

This study abroad course focuses on visual storytelling in an international context. Photographic and photojournalistic considerations specific to international reporting and travel photography are included.

* Do not register for this course if you have taken DCOM 4183

Prerequisites & Notes

None

Credits: 3

Year Three

FALL SEMESTER - 15 CREDIT HOURS

ARTV 3523 - BRANDING & IDENTITY DESIGN

This course includes creative and scholarly research in branding and identity design development and creation. The focus is on methodologies for approaching design problems that acknowledge the character of each project. Students analyze and produce various types of branding designs, including logos and brand marks.

Prerequisites & Notes

None

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

None

Credits: Variable

ARTV 4083 - ADVANCED DIGITAL IMAGING

This course focuses on advanced digital imaging techniques, including advanced digital photo editing, raster image digital design, and designing for online media.

* Do not register for this course if you have taken DCOM 4083

Prerequisites & Notes

None

Credits: 3

ARTV 4503 - SENIOR PORTFOLIO & EXHIBITION

Students will develop a body of work for their senior portfolio and exhibition. At the beginning of the semester, students will create a comprehensive plan outlining the details of the body of work from previous semesters. The completion of a digital portfolio and an artist statement is also required. Students meet regularly for discussion with their peers and a faculty member. This senior capstone project demonstrates the skills and knowledge that Visual Art

and Graphic Design students have acquired over the course of their academic careers through the creation of portfolios of their work and the exhibition of their work.

Prerequisites & Notes

Faculty Approval and Senior Status

Credits: 3

ARTV 3001 - ART OR DESIGN PRACTICUM

This course consists of supervised practical experience in art or design. Students produce art (e.g., illustrations, line art, drawings, or paintings) or designs (websites, logos, brochures, digital advertisements, or photo adjustments and graphics) for on-campus or off-campus individuals, clubs, departments, organizations, or businesses.

Prerequisites & Notes

Credits: 3

Divine Design Electives (4.5 Credits)

Professional Studies

Main Campus (Lakeland, FL)

Bachelor of Science, Organizational Leadership

Bachelor of Science, Organizational Leadership (Four-Year Plan)

Program Description

The Bachelor of Science in Organizational Leadership helps students learn to communicate effectively, motivate themselves and others, and be valued team members, whether followers or leaders. We strive to integrate our Christian faith in our scholarship and practice. Students combine their leadership skills with a minor of their choice or study abroad experience to pursue the path God has put before them. The degree is suitable for graduates desiring to start or advance their careers in for-profit, non-profit, and government organizations.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - 4 Credit Hours; Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - 3 Credit Hours; Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- 6 Credit Hours; Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - 3 Credit Hours; Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 36 Credit Hours

Organizational Leadership Core - 30 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

MNGT 4163 - ENTREPRENEURSHIP

This course studies the science of designing and operating a new venture. The roles of personnel, operations, logistics, marketing, finances, legal structure, and ethics are examined. Creating a business plan and operating a micro business for a viable enterprise are critical to this course.

Prerequisites & Notes

None

Credits: 3

Select One:

MNGT 3183 - ORGANIZATIONAL BEHAVIOR

This is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

NULL

Credits: 3

LDRS 3183 - ORGANIZATIONAL THEORY & BEHAVIOR

This course is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

None

Credits: 3

Communication Elective - Select One:

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

Ethics Elective - Select One:

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Major Electives - Select Two:

Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BUSI 3743 - STUDENTS IN FREE ENTERPRISE

This course is designed to give students practical instruction in leadership and the free enterprise system, and includes a significant service learning component. Student-teams create and implement community-based business projects that are designed to enhance economic opportunity for community members. This focus on business as mission develops a commitment to social responsibility in the context of entrepreneurship and small business management.

Prerequisites & Notes

Prerequisite: at least sophomore standing

Co-requisite: SIFE member

Credits: 3

COMM 2093 - INTERCULTURAL COMMUNICATION

This course introduces the fundamental topics, theories, theorists, cultural values models, concepts, and themes of intercultural communication. Students will not only appreciate differences and similarities between cultures but will be able to apply this knowledge in order to better operate and communicate effectively in other cultures.

* Do not register for this course if you have taken DCOM 2093

Prerequisites & Notes

None

Credits: 3

COMM 4143 - STORYTELLING & PERSUASION

This course focuses on the process, structure, and effects of storytelling and persuasion. Classic persuasion models and contemporary theoretical research are examined and applied to case studies of narrative persuasion. Specifically, examples of interpersonal communication, public speaking, and mass mediated content are analyzed for their narrative structure and persuasiveness. Students also formulate and propose stories that are meant to be persuasive.

* Do not register for this course if you have taken DCOM 4143

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

LDRS 2143 - CREATIVITY & CRITICAL THINKING

This course is designed to help students develop creativity, critical thinking, and problem-solving skills. It explores psychological and other factors that affect creativity, and debunks creativity myths. The course examines brainstorming, problem solving, and plan implementation. It covers divergent and convergent thinking, cognitive biases, logical fallacies, elements of persuasion, and viable solutions.

Prerequisites & Notes

None

Credits: 3

LDRS 3033 - LEADERSHIP & HUMAN DIVERSITY

This course examines the complex nature of leadership, culture and personal identity, explores populations at-risk, and encourages students to understand and appreciate diversity. Specific knowledge of leadership as it relates to individual cultures, awareness of the patterns of oppression experienced by those cultures, and skills relevant to developing a culturally competent approach to working with diverse people groups are addressed.

Prerequisites & Notes

None

Credits: 3

LDRS 4103 - LEADING ORGANIZATIONAL CHANGE

This course prepares learners to better comprehend the hyper-turbulent environment of the 21st century by introducing behavioral science techniques and methodologies to systematically bring about high-performing organizations.

Prerequisites & Notes

None

Credits: 3

LDRS 4903 - LEADERSHIP INTERNSHIP

This course is a supervised, structured work experience designed to augment and develop practical skills in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. This course can be taken for a variable number of credit hours from one (1) to six (6). The default is two (2). Students will work a minimum of 50 hours per credit hour for an approved organization.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 2

MNGT 3173 - HUMAN RESOURCE MANAGEMENT

This course is a survey of the practices of staffing, development, employee relations, compensation and documentation applied to achieve productivity and the quality of work life. Topics include equal opportunity and other regulations impacting human performance.

Prerequisites & Notes

NULL

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 2033 - INDUSTRIAL & ORGANIZATIONAL PSYC

This course includes an application of psychological principles to industry, business, and other organizations. Topics include organization of work, selection, training, motivation, job satisfaction, supervision, and decision-making.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 50 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Organizational Leadership (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Communication or Ethics Elective - Select One:

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

COMM 2083 - INTERPERSONAL COMMUNICATION

This course surveys theory and research related to interpersonal communication as it explores effective dyadic communication in family, social, and work environments. Considered are such topics as the development of self-concept, perception, emotions, verbal and nonverbal communication, listening strategies, and managing conflict and power in light of biblical and theological teachings.

* Do not register for this course if you have taken DCOM 2083

Prerequisites & Notes

None

Credits: 3

COMM 3193 - ORGANIZATIONAL COMMUNICATION

This course introduces students to the fundamental topics, theories, theorists, ethical frameworks, and functions of organizational communication. Students will analyze the principles and benefits of effective organizational communication while assessing case studies and their own communication within organizational networks. This knowledge can be applied to better operate and communicate effectively in organizations.

* Do not register for this course if you have taken DCOM 3033

Prerequisites & Notes

None

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

Communication or Ethics Elective - Select One:

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

COMM 2083 - INTERPERSONAL COMMUNICATION

BBUS 2123

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

MNGT 3183 - ORGANIZATIONAL BEHAVIOR

This is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

NULL

Credits: 3

MNGT 4163 - ENTREPRENEURSHIP

This course studies the science of designing and operating a new venture. The roles of personnel, operations, logistics, marketing, finances, legal structure, and ethics are examined. Creating a business plan and operating a micro business for a viable enterprise are critical to this course.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Organizational Leadership Elective - Select One:

Select one course from the Organizational Leadership Elective options listed on the degree audit.

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Organizational Leadership Elective - Select One:

Select one course from the Organizational Leadership Elective options listed on the degree audit.

Divine Design Electives (8 Credits)

Bachelor of Science, Sport Management

Bachelor of Science, Sport Management (Four-Year Plan)

The Bachelor of Science in Sport Management is designed to help students develop the skills needed to run sport and recreational programs that contribute to the physical, mental, spiritual, and social well-being of individuals and entire communities. In addition to completing core courses specific to sport leadership and management, you will have the option to choose a minor specialization that aligns with your career goals. Some of these minors include but are not

limited to Business, Athletic Coaching, Kinesiology, Physical Education, Psychology, and Biblical Studies.

You'll also have the opportunity to apply your coursework through the completion of an internship in sport management, giving you hands-on experience and even a jumpstart on your career. There are endless opportunities here in Central Florida to gain relevant experience in sport management – from partnering with professional teams and baseball spring-training camps to working with recreational programs. Upon graduation, you will be ready to take meaningful strides in sport management, from coaching to management to teaching.

Students must earn a C- or above in all courses within the major core.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Sport Management Major Core - 36 Credit Hours

Students must earn a C- or above in all courses within the major core.

SRMT 2103 - INTRODUCTION TO SPORT MANAGEMENT

This course explores the meaning of sport management. Its scope, principles, issues, and future trends are introduced, discussed, and analyzed. It examines the job responsibilities and competencies required of sport managers in a variety of sports or sport-related organizations. It provides the student with an overview of the different facets and career opportunities that are available in the field of sport management.

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

SRMT 3133 - SPORT COACHING

A study in the theory and practice of the fundamental techniques, organizational problems, and strategies involved in athletic coaching.

Prerequisites & Notes

None

Credits: 3

SRMT 3403 - SPORT ETHICS

This course is a study of contemporary moral issues in sports, including the relative fairness of performance-enhancing drugs and techniques, cheating and deception, the role of violence in sports, and the nature of sporting behavior.

Prerequisites & Notes

SRMT 2103 or KINS 2203

Credits: 3

SRMT 3523 - SPORT FACILITY & EVENT MANAGEMENT

This course covers numerous issues from construction-related concerns to marketing facilities, naming rights, and event management. It is comprehensive, focusing on applied, rather than theoretical knowledge.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3103 - SPORT LAW

The course covers the sport legal issues of negligence and product liability, contract law, labor, tort, and antitrust law influence, and the impact and direct development of relationships between leagues, teams, athletes, agents, television, internet, advertisers, and fans.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3203 - MENTAL HEALTH AND SPORT PSYCHOLOGY

This course is an introduction to the many facets of applied sport psychology, the mental aspects of sports, and the contemporary performance enhancement techniques utilized in sport psychology throughout the world. It includes the theory and practice of sport psychology with areas of the theoretical basis of mental aspects of training processes and competition, mental training techniques for psychomotor performance, and basic issues of performance psychology.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3303 - SPORT PRACTICUM

This course provides working experience in the area of sport management. The areas include youth, amateur, and professional sport organizations, including recreation, interscholastic, and intercollegiate athletics. Hands-on experience with sport-related goods and services is included.

Prerequisites & Notes

SRMT 2103 & SRMT 3003

Credits: 3

SRMT 4203 - INTERCOLLEGIATE ATHLETICS

This course is a study of contemporary intercollegiate athletic topics, including pressures and challenges on student-athletes, student development theory, life skills programming, National Collegiate Athletic Association policy, diversity, gender issues, marketing, fundraising, external relations, sports information, coaching, and academic support.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4303 - SPORT LEADERSHIP

The course is designed as a senior-level study of the administrative techniques and procedures for successful program management in sport work environments. The six focuses are taken from the NASSM (North American Society for Sport Management) program standards.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4413 - SOCIAL MEDIA, MARKETING, & SALES

This course builds on the general principles of marketing and sales. Through this course, students will explore the unique aspects of sport marketing by discussing the importance of social media and sales strategies in consumer analysis, market segmentation, product licensing, pricing, promotion, distribution, and sponsorship as they apply to sport.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4503 - SPORT FINANCE

This course is designed to provide critical theories of finance and accounting as applied to managerial control of sport organizations. Topics include forms of team ownership, taxation, financial analysis, feasibility studies, licensing, and economic impact studies.

Prerequisites & Notes

SRMT 2103

Credits: 3

Divine Design (Major Specific Experiential Learning) - 9 Credit Hours**SRMT 4909 - SPORT MANAGEMENT INTERNSHIP**

This course requires work experience in an organization, on and/or off-campus, providing on-the-job training in the sport management field. The intern will be supervised by a faculty mentor and a supervisor in the organization and will report work experience through written and verbal reports to the faculty mentor. Internships are approved by the Coordinator of the Sport Management program.

This course can be taken for a variable number of credit hours: three (3), six (6), or nine (9). The default is nine (9). Students will work a minimum of 40 hours per credit hour for an approved organization.

Prerequisites & Notes

SRMT 3303 (taken no earlier than the semester prior to SRMT 4909)

Credits: 9

Divine Design - 41 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit

hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Sport Management (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

SRMT 3133 - SPORT COACHING

A study in the theory and practice of the fundamental techniques, organizational problems, and strategies involved in athletic coaching.

Prerequisites & Notes

None

Credits: 3

Math Elective (Select One)

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include

descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 16 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

SRMT 2103 - INTRODUCTION TO SPORT MANAGEMENT

This course explores the meaning of sport management. Its scope, principles, issues, and future trends are introduced, discussed, and analyzed. It examines the job responsibilities and competencies required of sport managers in a variety of sports or sport-related organizations. It provides the student with an overview of the different facets and career opportunities that are available in the field of sport management.

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures.

Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

SRMT 3203 - MENTAL HEALTH AND SPORT PSYCHOLOGY

This course is an introduction to the many facets of applied sport psychology, the mental aspects of sports, and the contemporary performance enhancement techniques utilized in sport psychology throughout the world. It includes the theory and practice of sport psychology with areas of the theoretical basis of mental aspects of training processes and competition, mental training techniques for psychomotor performance, and basic issues of performance psychology.

Prerequisites & Notes

SRMT 2103

Credits: 3

Divine Design Electives (9 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

SRMT 3523 - SPORT FACILITY & EVENT MANAGEMENT

This course covers numerous issues from construction-related concerns to marketing facilities, naming rights, and event management. It is comprehensive, focusing on applied, rather than theoretical knowledge.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4503 - SPORT FINANCE

This course is designed to provide critical theories of finance and accounting as applied to managerial control of sport organizations. Topics include forms of team ownership, taxation, financial analysis, feasibility studies, licensing, and economic impact studies.

Prerequisites & Notes

SRMT 2103

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

SRMT 3103 - SPORT LAW

The course covers the sport legal issues of negligence and product liability, contract law, labor, tort, and antitrust law influence, and the impact and direct development of relationships between leagues, teams, athletes, agents, television, internet, advertisers, and fans.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4413 - SOCIAL MEDIA, MARKETING, & SALES

This course builds on the general principles of marketing and sales. Through this course, students will explore the unique aspects of sport marketing by discussing the importance of social media and sales strategies in consumer analysis, market segmentation, product licensing, pricing, promotion, distribution, and sponsorship as they apply to sport.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3403 - SPORT ETHICS

This course is a study of contemporary moral issues in sports, including the relative fairness of performance-enhancing drugs and techniques, cheating and deception, the role of violence in sports, and the nature of sporting behavior.

Prerequisites & Notes

SRMT 2103 or KINS 2203

Credits: 3

Divine Design Electives (6 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

SRMT 3303 - SPORT PRACTICUM

This course provides working experience in the area of sport management. The areas include youth, amateur, and professional sport organizations, including recreation, interscholastic, and intercollegiate athletics. Hands-on experience with sport-related goods and services is included.

Prerequisites & Notes

SRMT 2103 & SRMT 3003

Credits: 3

SRMT 4203 - INTERCOLLEGIATE ATHLETICS

This course is a study of contemporary intercollegiate athletic topics, including pressures and challenges on student-athletes, student development theory, life skills programming, National Collegiate Athletic Association policy, diversity, gender issues, marketing, fundraising, external relations, sports information, coaching, and academic support.

Credits: 9

Divine Design Electives (5 Credits)

Bachelor of Science, Aviation Management: Professional Pilot

Bachelor of Science, Aviation Management: Professional Pilot (Four-Year Plan)

Bachelor of Science, Aviation Management: Professional Pilot (Alternate Four-Year Plan)

The Bachelor of Science in Aviation Management (BSAVM) with the Professional Pilot track prepares graduates to enter the aviation workforce as aviators and entry-level managerial or administrative roles. Graduates will earn the

Federal Aviation Administration (FAA) Commercial Pilot Certificate, with Single and Multi-Engine Land class ratings with an Instrument Rating, and Certified Flight Instructor Certificate.

The BS AM degree requires 120 credit hours, of which 64 are earned toward the major, including 27 credit hours earned for ground and flight training. The remaining 56 hours include general education.

Once students complete their Certified Flight Instructor Certificates, they have the opportunity to interview for employment as a flight instructor and work while they finish their degree through online courses.

The program is ideal for students desiring a full-time, residential program to prepare them for the aviation industry. Students under a F1 Visa take courses in a face-to-face or hybrid format.

Graduates of the Bachelor of Aviation Management will be able to:

1. Demonstrate the aeronautical knowledge and pilot skills to safely operate a fixed-wing single-engine aircraft appropriate for a commercial pilot.

Assessment:

1. 100% of students will pass the FAA Commercial Pilot Knowledge Exam with a 70% or higher on their first attempt.
 2. 80% of the students will pass the FAA Commercial Pilot Practical Exam on the first attempt. 100% will pass by no more than two attempts.
2. Demonstrate the aeronautical knowledge and pilot skills to safely operate a fixed-wing single-engine aircraft in instrument meteorological conditions.

Assessment:

1. 100% of students will pass the FAA Instrument Rating Knowledge Exam with a 70% or higher on their first attempt.
 2. 80% of the students will pass the FAA Instrument Rating Practical Exam on the first attempt. 100% will pass by no more than two attempts.
3. Demonstrate the aeronautical knowledge and principles of instruction to operate as a ground and flight instructor pilot.

Assessment:

1. 100% of students will pass the FAA Fundamentals of Instruction Knowledge Exam with a 70% or higher on their first attempt.
 2. 100% of students will pass the FAA Flight Instructor Knowledge Exam with a 70% or higher on their first attempt.
 3. 80% of the students will pass the FAA Certified Flight Instructor Practical Exam on the first attempt. 100% will pass by no more than two attempts.
4. Demonstrate enhanced skills for safe flight operations in a variety of environments.

Assessment:

1. All students will achieve 80% on a standardized rubric for an integrative assignment in the AVIM 3203: Aviation and Safety Management course.
5. Describe career paths and opportunities within the aviation industry.

Assessment:

1. All students will achieve 80% on a standardized rubric for an integrative assignment in the AVIM 4013: Aviation Practicum I course, or AVIM 4003: Regional Airline Transition course.

Admissions Criteria:

- High School Diploma
- Enrollment Application
- Ability to read, write, and understand English to take the Private Pilot Practical Exam
- 17 years of age to take the Private Pilot Practical Exam; 18 years of age to take the Commercial Pilot Practical Exam.
- Ability to obtain a FAA Class 2 Medical Certificate (to operate with the privileges of a Commercial Pilot Certificate)
- Ability to obtain a FAA Class 1 Medical Certificate (to operate with the privileges of a Airline Transport Certificate)
- International/non-citizens must complete additional requirements including an appropriate VISA and Transportation Security Administration (TSA) approval through the Alien Flight Student Program (AFSP).
- Students using a GI Bill® must have a private pilot's certificate.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>.

120 credit hours needed. Student must complete the Foundational Core, major requirements, a minimum of 19 Divine Design credit hours, and one 18-credit hour minor to meet the total program hours. Declare one of the following on the Major/Minor Change Form: Accounting and Finance, Business, Global Business Management, Organizational Leadership, or Non-profit Management. Some states have additional program requirements for site-based and online students which will be included below if applicable. Prior to students being enrolled in any of the AVIP flight courses students must have completed their Private Pilot training and have in their possession their Private Pilot License. Student who do not have their Private Pilot License prior to being accepted into the Aviation program are encouraged to enroll in SEU's Aviation 6-credit hours Private Pilot License courses: AVIP 1013, 1011 & 1012.

Please see the Aviation promotional page for information on additional fees associated with this program.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

BUSI 2113 - BUSINESS COMMUNICATIONS I

This course will study effective communication in a business environment. The course includes the preparation of letters, reports, and other forms of business writing on the computer.

Prerequisites & Notes

ENGL 1233

Credits: 3

OR

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

AVIM 1014 - AVIATION WEATHER ENVIRONMENT W/LAB

This course explores the physical properties of the atmosphere and how they affect the weather, with an emphasis on the factors affecting aviation. The course includes lab components including collecting and interpreting weather and climate data that impact the aviation and human environment.

Prerequisites & Notes

None

Credits: 4

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 40 Credit Hours

Aviation Core - 19 Credit Hours

AVIM 1003 - INTRODUCTION TO AVIATION TRANSPORTATION

This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.

Prerequisites & Notes

None

Credits: 3

AVIM 2003 - HUMAN FACTORS AND RESOURCE MANAGEMENT

This course explores concepts of Crew Resource Management (CRM). Covers crew coordination, communication, and resource management in professional aviation. Subjects include the history of CRM, skills, psychological, and behavior markers associated with CRM, human error in aviation, and automation. Provides a general knowledge of team critical skills within the aviation industry.

Prerequisites & Notes

None

Credits: 3

AVIM 2013 - AERODYNAMICS & AIRCRAFTS SYSTEMS

This course explores aerodynamics and aircraft systems that enable safe flight in a variety of configurations and environments. Emphases are on the forces that impact flight including lift, weight, thrust, and drag and the aircraft controls, propulsion and systems associated with flight.

Prerequisites & Notes

None

Credits: 3

AVIM 3003 - US & GLOBAL AVIATION OPERATIONS

This course explores aviation and airline operations in the United States and globally. Attention is given to the Air Traffic Control (ATC) and airspace system for general and corporate aviation, commercial air carriers, and ground and

air traffic operations. Other topics include business models and economic factors, aircraft acquisition, supply chain logistics, and operations.

Prerequisites & Notes

None

Credits: 3

AVIM 3203 - AVIATION SAFETY & MANAGEMENT

This course examines general management principles with an emphasis on leadership, safety and accident prevention. Topics include aviation security, Safety Management Systems (SMS), aircraft accidents and investigations, and emergency services.

Prerequisites & Notes

None

Credits: 3

AVIM 3403 - AVIATION REGULATIONS & LAW

This course provides an overview of constitutional law, administrative law, international law, and enforcement actions affecting aviation. While the courses emphasized the regulations impacting private and commercial air operations, consideration is given to aviation business law, the analysis of the aviation regulatory environments and processes, rulemaking, and legislation.

Prerequisites & Notes

None

Credits: 3

AVIM 4141 - AVIATION MANAGEMENT CAPSTONE

This course is the capstone course for the major requirements and provides students the opportunity to synthesize and apply their learning in a simulated or real workplace context. Students develop a written reflection and portfolio of evidence of their readiness to enter the workforce in the aviation industry.

Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 1

Professional Pilot Core - 26 Credit Hours

AVIP 1013 - PRIVATE PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Private Pilot Airplane Knowledge Test. Topics include the basic aerodynamics, airplane systems and

instruments, weight and balance, aircraft performance, meteorology, flight physiology, basic navigation techniques, radio navigation and communication, the Air Traffic Control and airspace system, and FAA Regulations. Credit may be granted for passing the FAA Private Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 1023. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

AVIP 1011 - PRIVATE PILOT FLIGHT TRAINING I

This course introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Credits: 1

AVIP 1022 - PRIVATE PILOT FLIGHT TRAINING II

This course is a continuation of AVIP 1011. It introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Credits: 2

AVIP 2013 - INSTRUMENT RATING GROUND SCHOOL

This course provides instruction in preparation instrument flight training and the Federal Aviation Administration's (FAA) Instrument Rating Airplane Knowledge Test. Topics include aircraft flight instruments, flight physiology, Instrument Flight Rules (IFR) aircraft operations and procedures, aircraft performance, weather, IFR planning and regulations. Advanced instruction in aviation weather, radio navigation and charts including procedures for departures en route, arrival and approaches. The course should be taken concurrently with instrument flight lessons or AVIP 2023. Credit may be granted for passing the FAA Instrument Rating Knowledge Test.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot's License or AVIP 1013

Credits: 3

AVIP 2023 - INSTRUMENT FLIGHT TRAINING

This course introduces students to airplane ground, flight operations and maneuvers associated with flying by instrument flight rules. This includes departure, en route, arrival, approaches, and landing in actual or simulated instrument meteorological conditions. Includes flight instruction in single-engine aircraft and simulators with emphasis on safety, operations, navigation systems and charts, various weather conditions, flight planning procedures, decision making, and cockpit resource management. Prepares students for the required FAA Instrument-Airplane Rating Practical Test. Credit may be granted for presenting a valid FAA Instrument-Airplane Rating. The course should be taken concurrently with AVIP 2013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIP 3013 - COMMERCIAL PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Commercial Pilot Airplane Knowledge Test. Topics include the advanced aerodynamics, complex airplane systems, and instruments, weight and balance for heavier aircraft, complex aircraft performance. Includes advanced meteorology, flight physiology for high altitude flight, advanced navigation techniques, radio navigation and communication, airspace systems, and FAA Regulations for commercial flight. Credit may be granted for passing the FAA Commercial Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 3023.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 3

AVIP 3023 - COMMERCIAL PILOT FLIGHT I FLIGHT TRAINING

This course introduces students to airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators. Prepares students for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 3013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIP 3033 - COMMERCIAL PILOT FLIGHT II FLIGHT TRAINING

This course continues student training and experience in airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators in final preparation for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

AVIP 3023

Credits: 3

AVIP 4013 - CERTIFIED FLIGHT INSTRUCTOR GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Fundamentals of Instructing (FOI) Federal Aviation Administration's (FAA) and Flight Instructor Knowledge Tests. Topics include the fundamentals of flight instruction and learning, lesson planning, resource management, communication, regulations, and professionalism. Credit may be granted for passing the FAA FOI Knowledge Test, or equivalent, and Flight Instructor Knowledge Test with a mandatory minimum passing score of 70%.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or AVIP 3023

Credits: 3

AVIP 4022 - CERT FLIGHT INSTRUCTOR FLIGHT TRAIN

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor for the category and class of aircraft for which the student seeks. Students explain, demonstrate, and analyze flight maneuvers and resource management skills involved with Private Pilot, Commercial Pilot, and Flight Instructor Certificates. For fixed-wing aircraft includes spins and spin recovery. Credit may be granted for presenting a valid FAA Certified Flight Instructor Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. The course should be taken concurrently with AVIP 4013. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

By permission only

Credits: 2

AVIP/AVIM Elective: Select One:

AVIP 1001 - INTRODUCTION TO FLIGHT

The course introduces students to flight operations and is appropriate for students interesting in a career in aviation and is recommended prior to enrolling in AVIP 1023. Topics include basic aerodynamics, flight controls, pre-flight inspection, and basic maneuvers. Students log time in a flight simulator and up to 3 hours of dual instruction in a single-engine aircraft. These hours may be applied toward a Private Pilot Certificate under FAA Part 61 rules.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIM 1101 - INTRODUCTION TO UAS OPERATIONS,POLICY, AND REGULATIONS

This course will introduce basic small Unmanned Aircraft Systems (UAS) operations and policy governing UAS operations found in Title 14 of the Code of Federal Regulations (14 CFR) Part 107, Small Unmanned Aircraft Systems. Federal regulations will be discussed including the proper requirements needed to legally and safely operate UASs in the National Airspace System. The purpose of the course is for students to master the knowledge to pass the UAS Part 107 knowledge exam.

Prerequisites & Notes

None

Credits: 1

AVIP 4011 - ADVANCED GROUND INSTRUCTOR

The course prepares students to take the FAA Advanced Ground Instructor Knowledge Exam. Topics include aerodynamics, aircraft performance, aircraft instruments and systems, Airspace, ATC procedures, weather, navigation, regulations and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4021 - INSTRUMENT GROUND INSTRUCTOR

The course prepares students to take the FAA Instrument Ground Instructor Knowledge Exam. Topics include aircraft performance, aircraft instruments and systems, airspace, ATC communication, instrument procedures, weather, IFR navigation, regulations, and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4031 - CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Instructor Rating for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Instrument Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

CFI Certificate or AVIP 4022 and permission

Credits: 1

AVIP 4041 - MULTI-ENGINE RATING FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Multi-Engine Certificate for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Multi-Engine Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or permission

Credits: 1

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

Experiential Electives - Select One:

AVIM 4013 - AVIATION PRACTICUM I

This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum I provides students service learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments.

Prerequisites & Notes

None

Credits: 3

AVIM 4003 - REGIONAL AIRLINE TRANSITION

This course replicates the initial training one can expect after being hired as a pilot for a regional air carrier. The course covers company indoctrination, policies, procedures for flight crews, airline regulations and aircraft systems. Emphasis is on mastering crew resource management, air carrier manual systems, safety management systems, general and emergency operating procedures, and aircraft systems prior to training in a full motion simulator. Students must apply for this course and be approved by the sponsoring regional airline.

Prerequisites & Notes

By Permission

Credits: 3

Divine Design (Minor, Electives, Experiential Learning) - 37 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

This program requires 18 hours of the Divine Design requirement to be met with a Business or Organizational Leadership minor. Please declare one of these minors on the Major/Minor Change Form:

Minor, Accounting and Finance

Minor, Business

Minor, Global Business Management

Bachelor of Science, Organizational Leadership

Minor, Non Profit Management

Bachelor of Science, Tourism & Hospitality Management

Bachelor of Science, Tourism & Hospitality Management (Four-Year Plan)

The Bachelor's degree program in Tourism and Hospitality Management integrates a Christ-centered approach into its innovative and comprehensive curriculum, preparing students for successful careers while emphasizing ethical and compassionate service. Through core courses such as Principles of Tourism & Hospitality Management, Hotel & Resort Operations Management, Restaurant Management, Event Management, Tourism & Hospitality Marketing, and a pioneering Religious Tourism course, students not only gain a deep understanding of the industry but also learn to apply Christian values in their professional lives.

The program includes a variety of elective courses and a distinctive 150-hour internship at a tourism and hospitality organization, blending theoretical knowledge with practical experience in real-world settings. This unique combination ensures that graduates are equipped not only with the necessary skills and knowledge to excel in one of the most vibrant industries but also with a strong ethical foundation rooted in Christian principles, making them adept at creating

memorable experiences for guests from a perspective of service and care. This degree is tailored for those passionate about delivering exceptional experiences to guests worldwide, equipping them with the necessary skills and knowledge to excel in one of the most vibrant and rapidly evolving industries.

Total Program Hours - 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural-Scientific Inquiry - Select One:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - 3 Credit Hours

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 36 Credit Hours

Tourism and Hospitality Core - 36 Credit Hours

THMT 3003 - RELIGIOUS TOURISM

This course explores the religious tourism segment of the tourism and hospitality industry. Global religious sites, events, festivals, and pilgrimage trips are examined. This course incorporates world religion and history aspects related to religious tourism. Special emphasis is given to the Christianity facet of religious tourism.

Prerequisites & Notes

None

Credits: 3

THMT 3013 - RESTAURANT MANAGEMENT

This course teaches how to plan, develop, budget, and promote restaurant and food service establishments. The functions and responsibilities of food service roles will be analyzed. A restaurant menu, recipes, food costs, and selling prices will be created. Technology in food service will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3103 - TOURISM & HOSPITALITY MARKETING

This course provides the application of marketing concepts to the tourism and hospitality industry. Special emphasis is placed on marketing planning and strategic marketing. Marketing terminology and practices will be applied to class projects.

Prerequisites & Notes

None

Credits: 3

THMT 3113 - PRINCIPLES OF TOURISM & HOSPITALITY

This course provides an overview of the global tourism and hospitality industry. An introduction to the history, attributes, and culture of the industry will be examined. Tourism and hospitality career opportunities will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3313 - LODGING OPERATIONS MANAGEMENT

This course provides a comprehensive analysis of applied theories, principles, and techniques in the management of hotels and resort properties. Hotel management and hourly roles will be studied. Hotel revenue formulas will be reviewed. Special emphasis provided to hotel terminology.

Prerequisites & Notes

None

Credits: 3

THMT 3323 - EVENT MANAGEMENT

This course teaches how to plan, develop, budget, promote, deliver, and evaluate meetings or special events in the hospitality industry.

Prerequisites & Notes

None

Credits: 3

BUSI 1013 - INTRO TO ACCOUNTING AND FINANCE

This course provides an introduction to the basics of accounting and finance. It is intended for business minors and places emphasis on the understanding of the language of accounting and finance, recording of transactions, financial statements, time value of money, financial ratios, and managerial decision-making, using accounting and finance information.

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

MNGT 3173 - HUMAN RESOURCE MANAGEMENT

This course is a survey of the practices of staffing, development, employee relations, compensation and documentation applied to achieve productivity and the quality of work life. Topics include equal opportunity and other regulations impacting human performance.

Prerequisites & Notes

NULL

Credits: 3

MNGT 4163 - ENTREPRENEURSHIP

This course studies the science of designing and operating a new venture. The roles of personnel, operations, logistics, marketing, finances, legal structure, and ethics are examined. Creating a business plan and operating a micro business for a viable enterprise are critical to this course.

Prerequisites & Notes

None

Credits: 3

Leadership Elective - Select One:

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

THMT 4903 - TOURISM & HOSPITALITY INTERNSHIP

This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. Students will work a minimum of 150 hours.

Prerequisites & Notes

Approval from Program Coordinator of the Tourism and Hospitality Management Program. Typically, Junior standing and at least a 2.5 cumulative GPA.

Credits: 3

Divine Design - 47 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Bachelor of Science, Tourism & Hospitality Management (Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the

career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Natural-Scientific Inquiry - Select One with Lab:

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Quantitative Inquiry - Select one:

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

THMT 3113 - PRINCIPLES OF TOURISM & HOSPITALITY

This course provides an overview of the global tourism and hospitality industry. An introduction to the history, attributes, and culture of the industry will be examined. Tourism and hospitality career opportunities will be explored.

Prerequisites & Notes

None

Credits: 3

BUSI 1013 - INTRO TO ACCOUNTING AND FINANCE

This course provides an introduction to the basics of accounting and finance. It is intended for business minors and places emphasis on the understanding of the language of accounting and finance, recording of transactions, financial statements, time value of money, financial ratios, and managerial decision-making, using accounting and finance information.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Leadership Elective - Select One:

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

THMT 3313 - LODGING OPERATIONS MANAGEMENT

This course provides a comprehensive analysis of applied theories, principles, and techniques in the management of hotels and resort properties. Hotel management and hourly roles will be studied. Hotel revenue formulas will be reviewed. Special emphasis provided to hotel terminology.

Prerequisites & Notes

None

Credits: 3

BUSI 2203 - MICROECONOMICS

This survey course develops the concepts of individual economic units, such as households, firms, and industries. In this study, topics will include economic behaviors relating to spending, saving, investment, labor economics, and prices.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (6 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THMT 3013 - RESTAURANT MANAGEMENT

This course teaches how to plan, develop, budget, and promote restaurant and food service establishments. The functions and responsibilities of food service roles will be analyzed. A restaurant menu, recipes, food costs, and selling prices will be created. Technology in food service will be explored.

Prerequisites & Notes

None

Credits: 3

BUSI 3403 - BUSINESS LAW I

This course discusses legal principles which apply to normal business transactions, contracts, agency, property, insurance, wills and trusts, and torts.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

THMT 3323 - EVENT MANAGEMENT

This course teaches how to plan, develop, budget, promote, deliver, and evaluate meetings or special events in the hospitality industry.

Prerequisites & Notes

None

Credits: 3

MNGT 3173 - HUMAN RESOURCE MANAGEMENT

This course is a survey of the practices of staffing, development, employee relations, compensation and documentation applied to achieve productivity and the quality of work life. Topics include equal opportunity and other regulations impacting human performance.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (9 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

THMT 3003 - RELIGIOUS TOURISM

This course explores the religious tourism segment of the tourism and hospitality industry. Global religious sites, events, festivals, and pilgrimage trips are examined. This course incorporates world religion and history aspects related to religious tourism. Special emphasis is given to the Christianity facet of religious tourism.

Prerequisites & Notes

None

Credits: 3

MNGT 4163 - ENTREPRENEURSHIP

This course studies the science of designing and operating a new venture. The roles of personnel, operations, logistics, marketing, finances, legal structure, and ethics are examined. Creating a business plan and operating a micro business for a viable enterprise are critical to this course.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

THMT 3103 - TOURISM & HOSPITALITY MARKETING

This course provides the application of marketing concepts to the tourism and hospitality industry. Special emphasis is placed on marketing planning and strategic marketing. Marketing terminology and practices will be applied to class projects.

Prerequisites & Notes

None

Credits: 3

THMT 4903 - TOURISM & HOSPITALITY INTERNSHIP

This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. Students will work a minimum of 150 hours.

Prerequisites & Notes

Approval from Program Coordinator of the Tourism and Hospitality Management Program. Typically, Junior standing and at least a 2.5 cumulative GPA.

Credits: 3

Divine Design Electives (8 Credits)

Minor, Military Science

* Courses are taken in partnership with Florida Southern College on their campus. Student must be enrolled in Florida Southern College / SEU Army ROTC program.

Total of 18 Credit Hours

MISL 1011 - FOUNDATIONS OF LEADERSHIP

Introduces students to the personal challenges and competencies that are critical for effective leadership. Students learn how the personal development of life skills such as critical thinking, goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession. The focus is on developing basic knowledge and comprehension of Army leadership dimensions while gaining a big-picture understanding of ROTC, its purpose in the Army, and its advantages for the student. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 101L

Credits: 1

MISL 101L - FOUNDATIONS OF LEADERSHIP LAB

Lab to accompany MISL 1011.

Prerequisites & Notes

Corequisite: MISL 1011

Credits: 1

MISL 1021 - FOUNDATIONS OF AGILE/ADAPTIVE LEADERSHIP

The course adds depth to the Cadets knowledge of the different leadership styles. Cadets will conduct a leadership analysis of famous leaders and self-assessment of their own leadership style. The Army Profession is also stressed through understanding values, ethics and how to apply both to different situations they may encounter as a leader. Army Values and Ethics and their relationship to the Law of Land Warfare and philosophy of military service are also stressed. Students are then required to apply their knowledge outside the classroom in a hands-on performance-oriented environment during a weekly lab facilitated by MS III Cadets, supervised by MS IV's and cadre. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 102L

Credits: 1

MISL 102L - FOUNDATIONS OF AGILE/ADAPTIVE LEADERSHIP LAB

Lab to accompany MISL 1021.

Prerequisites & Notes

Corequisite: MISL 1021

Credits: 1

MISL 2011 - LEADERSHIP & ETHICS

The course adds depth to the Cadets knowledge of the different leadership styles. Cadets will conduct a leadership analysis of famous leaders and self-assessment of their own leadership style. The Army Profession is also stressed through understanding values, ethics and how to apply both to different situations they may encounter as a leader. Army Values and Ethics and their relationship to the Law of Land Warfare and philosophy of military service are also stressed. Students are then required to apply their knowledge outside the classroom in a hands-on performance-oriented environment during a weekly lab facilitated by MS III Cadets, supervised by MS IV's and cadre. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 201L

Credits: 1

MISL 201L - LEADERSHIP & ETHICS LAB

Lab to accompany MISL 2011.

Prerequisites & Notes

Corequisite: MISL 2011

Credits: 1

MISL 2022 - ARMY DOCTRINE & DECISION MAKING

This course focuses on Army doctrine and team development. The course begins the journey to understand and demonstrate competencies as they relate to Army doctrine. Army Values, Teamwork, and Warrior Ethos and their relationship to the Law of Land Warfare and philosophy of military service are also stressed. The ability to lead and follow is also covered through Team Building exercises at squad level. Students are then required to apply their knowledge outside the classroom in a hands-on performance-oriented environment during a weekly lab facilitated by MSL III Cadets and supervised by cadre. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 202L

Credits: 1

MISL 202L - ARMY DOCTRINE & DECISION MAKING LAB

Lab to accompany MISL 2022

Prerequisites & Notes

Corequisite: MISL 2022

Credits: 1

MISL 2063 - AMERICAN MILITARY HISTORY

Development and operations of the American military system from the colonial period to the present. Focuses on the evolution of professionalism in the American military and the place of the American military in society.

Prerequisites & Notes

Prerequisite: None

Credits: 4

MISL 3011 - TRAINING MANAGEMENT & WARFIGHTING FUNCTIONS

Challenges cadets to study, practice, and evaluate adaptive leadership skills as they are presented with the demands of preparing for the ROTC Leader Development Assessment Course (LDAC). Challenging scenarios related to small-unit tactical operations are used to develop self-awareness and critical thinking skills. Cadets receive systematic and specific feedback on their leadership abilities. Cadets at the MSL III level begin to analyze and evaluate their own leadership values, attributes, skills, and actions. Primary attention is given to preparation for I-DAC and the development of leadership abilities. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 301L

Credits: 3

MISL 301L - TRAINING MANAGEMENT & WARFIGHTING FUNCTIONS LAB

Lab to accompany MISL 3011.

Prerequisites & Notes

Corequisite: MISL 3011

Credits: 1

MISL 4011 - THE ARMY OFFICER

Develops student proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing leadership-performance feedback to subordinates. Students are given situational opportunities to assess risk, make ethical decisions, and provide coaching to fellow ROTC students. MSL IV cadets are measured by their ability both to give and receive systematic and specific feedback on leadership abilities. Cadets at the MSL IV level analyze and evaluate the leadership values, attributes, skills, and actions of MSL III cadets while simultaneously considering their own leadership skills. Attention is given to preparation for the Basic Officer Leadership Course (BOLC) II and the development of leadership abilities. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 401L

Credits: 3

MISL 401L - THE ARMY OFFICER LAB

Lab to accompany MISL 4011.

Prerequisites & Notes

Corequisite: MISL 4011

Credits: 1

MISL 4022 - COMPANY-GRADE LEADERSHIP

Explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment (COE). Cadets examine differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. Lab Required.

Prerequisites & Notes

Prerequisite: None

Corequisite: MISL 402L

Credits: 3

MISL 402L - COMPANY-GRADE LEADERSHIP LAB

Lab to accompany MISL 4022.

Prerequisites & Notes

Corequisite: MISL 4022

Credits: 1

Minor, Organizational Leadership

Total of 18 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Minor, Sport Management

Total of 18 Credit Hours

Sport Management Core - 9 Credit Hours

SRMT 2103 - INTRODUCTION TO SPORT MANAGEMENT

This course explores the meaning of sport management. Its scope, principles, issues, and future trends are introduced, discussed, and analyzed. It examines the job responsibilities and competencies required of sport managers in a variety of sports or sport-related organizations. It provides the student with an overview of the different facets and career opportunities that are available in the field of sport management.

Prerequisites & Notes

ENGL 2113 or ENGL 1233

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

SRMT 4303 - SPORT LEADERSHIP

The course is designed as a senior-level study of the administrative techniques and procedures for successful program management in sport work environments. The six focuses are taken from the NASSM (North American Society for Sport Management) program standards.

Prerequisites & Notes

SRMT 2103

Credits: 3

Sport Management Electives - Select Three:

SRMT 3103 - SPORT LAW

The course covers the sport legal issues of negligence and product liability, contract law, labor, tort, and antitrust law influence, and the impact and direct development of relationships between leagues, teams, athletes, agents, television, internet, advertisers, and fans.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3203 - MENTAL HEALTH AND SPORT PSYCHOLOGY

This course is an introduction to the many facets of applied sport psychology, the mental aspects of sports, and the contemporary performance enhancement techniques utilized in sport psychology throughout the world. It includes the theory and practice of sport psychology with areas of the theoretical basis of mental aspects of training processes and competition, mental training techniques for psychomotor performance, and basic issues of performance psychology.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3523 - SPORT FACILITY & EVENT MANAGEMENT

This course covers numerous issues from construction-related concerns to marketing facilities, naming rights, and event management. It is comprehensive, focusing on applied, rather than theoretical knowledge.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3403 - SPORT ETHICS

This course is a study of contemporary moral issues in sports, including the relative fairness of performance-enhancing drugs and techniques, cheating and deception, the role of violence in sports, and the nature of sporting behavior.

Prerequisites & Notes

SRMT 2103 or KINS 2203

Credits: 3

SRMT 3603 - SPORT & SPIRITUALITY

This course is a study of the human aspects of the sport experience through the perspective of the biblical worldview of sport psychology, philosophy, ethics, and theology. Additionally, the course will examine the role of sport in the early church, the rise of sport evangelism, and the impact of Muscular Christianity.

Prerequisites & Notes

None

Credits: 3

SRMT 4203 - INTERCOLLEGIATE ATHLETICS

This course is a study of contemporary intercollegiate athletic topics, including pressures and challenges on student-athletes, student development theory, life skills programming, National Collegiate Athletic Association policy, diversity, gender issues, marketing, fundraising, external relations, sports information, coaching, and academic support.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4413 - SOCIAL MEDIA, MARKETING, & SALES

This course builds on the general principles of marketing and sales. Through this course, students will explore the unique aspects of sport marketing by discussing the importance of social media and sales strategies in consumer analysis, market segmentation, product licensing, pricing, promotion, distribution, and sponsorship as they apply to sport.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4503 - SPORT FINANCE

This course is designed to provide critical theories of finance and accounting as applied to managerial control of sport organizations. Topics include forms of team ownership, taxation, financial analysis, feasibility studies, licensing, and economic impact studies.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 3133 - SPORT COACHING

A study in the theory and practice of the fundamental techniques, organizational problems, and strategies involved in athletic coaching.

Prerequisites & Notes

None

Credits: 3

Minor, Tourism & Hospitality Management

Total of 18 Credit Hours

THMT 3003 - RELIGIOUS TOURISM

This course explores the religious tourism segment of the tourism and hospitality industry. Global religious sites, events, festivals, and pilgrimage trips are examined. This course incorporates world religion and history aspects related to religious tourism. Special emphasis is given to the Christianity facet of religious tourism.

Prerequisites & Notes

None

Credits: 3

THMT 3013 - RESTAURANT MANAGEMENT

This course teaches how to plan, develop, budget, and promote restaurant and food service establishments. The functions and responsibilities of food service roles will be analyzed. A restaurant menu, recipes, food costs, and selling prices will be created. Technology in food service will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3103 - TOURISM & HOSPITALITY MARKETING

This course provides the application of marketing concepts to the tourism and hospitality industry. Special emphasis is placed on marketing planning and strategic marketing. Marketing terminology and practices will be applied to class projects.

Prerequisites & Notes

None

Credits: 3

THMT 3113 - PRINCIPLES OF TOURISM & HOSPITALITY

This course provides an overview of the global tourism and hospitality industry. An introduction to the history, attributes, and culture of the industry will be examined. Tourism and hospitality career opportunities will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3313 - LODGING OPERATIONS MANAGEMENT

This course provides a comprehensive analysis of applied theories, principles, and techniques in the management of hotels and resort properties. Hotel management and hourly roles will be studied. Hotel revenue formulas will be reviewed. Special emphasis provided to hotel terminology.

Prerequisites & Notes

None

Credits: 3

THMT 3323 - EVENT MANAGEMENT

This course teaches how to plan, develop, budget, promote, deliver, and evaluate meetings or special events in the hospitality industry.

Prerequisites & Notes

None

Credits: 3

Certificate, Back-End Development

Total Program Hours - 12 Credit Hours

SDEV 1103 - BACK-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Back-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of back-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of Python and object-oriented programming. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2103 - BACK-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Back-End Developer Professional Certificate. It extends the learner's comprehension of crucial tools and principles fundamental to back-end web development. The course instructs on implementing version control systems, ensuring effective code revision management. Students learn to navigate and configure projects using the command line and the creation and utilization of GitHub repositories. An essential part of the curriculum involves databases; students will identify the principles underpinning their operation and apply this knowledge to design, plan, and implement a straightforward database development project. The course is a vital step for individuals seeking to enhance their back-end development capabilities. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1103

Credits: 3

SDEV 3103 - BACK-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an advanced course that immerses learners in the intricate world of back-end development. Participants will build a functional web server and apply data modeling concepts essential to web development. A significant portion of the curriculum is dedicated to APIs, covering their development, usage, and the principles of REST architecture. Students will demonstrate their comprehension of these principles by constructing a basic API. This course is indispensable for individuals aiming to become proficient back-end developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 2103

Credits: 3

SDEV 4103 - BACK-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an intensive course designed to consolidate and advance your back-end development skills. Learners will develop a fully-functioning Django application that uses both front-end and back-end technologies. Practical application includes setting up a suitable Django development environment and creating a Django web server with multiple API endpoints. Additionally, the course offers strategic preparation for coding interviews, covering common formats and questions. With a focus on problem-solving, participants will apply coding skills to tackle complex, real-world challenges. This capstone course is the ultimate step for those aiming for mastery in back-end development. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 3103

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Cybersecurity

Total Program Hours - 12 Credit Hours

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally. Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully. Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Data Science

Total Program Hours - 12 Credit Hours

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field. Additional fees are associated with this course

Prerequisites & Notes

None

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The

course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making. Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis.

Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Front-End Development

Total Program Hours - 12 Credit Hours

SDEV 1003 - FRONT-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Front-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of front-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of JavaScript. Additionally, students will learn the importance of writing unit tests using Jest, a popular JavaScript testing framework. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development.

Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2003 - FRONT-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Front-End Developer Professional Certificate. It dives deeper into advanced aspects of front-end web development. This course covers practical skills, including version control systems implementation, command-line project navigation and configuration, and the creation and use of GitHub repositories for code management. Students will also learn to create responsive layouts with HTML5 and CSS, building simple forms and mastering the popular UI framework, Bootstrap. The course equips learners with debugging tools to rectify and enhance their coding efficiency. This course further refines and expands skills, fostering more confident and competent developers.

Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1003

Credits: 3

SDEV 3003 - FRONT-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Front-End Developer Professional Certificate. This course provides a deep dive into the use of React, a powerful JavaScript library. Participants will learn to leverage reusable components for dynamic data rendering and use props to facilitate data interchange between these components. The curriculum also emphasizes the organization of larger projects to ensure scalability and maintainability. It covers the creation of interactive web pages and user forms, and includes the construction of a complete application. Advanced techniques for creating robust, reusable components and server interactions via APIs are also explored. Students will learn to test applications with the React Testing Library and integrate commonly used libraries to streamline development. The course culminates in the creation of a comprehensive application, encapsulating all learned skills.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 2003

Credits: 3

SDEV 4003 - FRONT-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Front-End Developer Professional Certificate. It navigates the complex process of designing and implementing user-focused web applications. It begins by introducing the fundamentals of User Experience (UX) design, accessibility considerations, and the importance of user empathy, and teaches students how to create wireframes and prototypes in Figma. The course then transitions into practical application, teaching students to design and style a responsive User Interface (UI), produce clean, bug-free code, and use React components to create multiple views. Students will create a complete website front-end using React JS. The course concludes with essential interview preparation, featuring coding problems and specific strategies for interviews at Meta.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 3003

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Minor, Esport Management

Total Program: 18 Credit Hours

Esport Management Core - 15 Credit Hours

ESPT 1003 - INTRODUCTION TO ESPORTS

Introduction to Esports Management starts with an introduction to the history of competitive gaming and continues with an exploration of its emerging ecosystem. Students will learn the complexities involved in understanding the dynamics of the esports industry and all of its stakeholders from gamers to billion-dollar media companies. Students will develop an understanding of the structure of esports leagues, teams, players, gaming publishers, tournament operators, media, and affiliate organizations. Focus will be placed on the formation, structure, maintenance, and coaching of esports organizations. Students will also learn baseline skills in esports streaming, broadcasting, marketing, and public relations.

Prerequisites & Notes

None

Credits: 3

ESPT 2003 - ESPORTS EVENTS & GAME TECHNOLOGY

Esports Events & Game Technology examines the development, planning, and implementation of esports events. This course investigates the global infrastructure, remote networking, and technology needed to support the esports industry, as well as the coordination and communication needed to put on an event that rivals major sporting events. It offers students an opportunity to learn more about the audio and video demands associated with the esports industry. In addition, students will develop knowledge related to the broadcast and Wi-Fi requirements needed in the esports industry.

Prerequisites & Notes

None

Credits: 3

ESPT 3003 - SPORT ANALYTICS

This course is designed to give students an understanding of the rapidly developing sport analytics landscape. The course will cover theories and concepts currently used in sport analytics. Some topics included are data collection and management strategies, player performance, player/team management, and data analysis.

Prerequisites & Notes

None

Credits: 3

SRMT 3523 - SPORT FACILITY & EVENT MANAGEMENT

This course covers numerous issues from construction-related concerns to marketing facilities, naming rights, and event management. It is comprehensive, focusing on applied, rather than theoretical knowledge.

Prerequisites & Notes

SRMT 2103

Credits: 3

SRMT 4503 - SPORT FINANCE

This course is designed to provide critical theories of finance and accounting as applied to managerial control of sport organizations. Topics include forms of team ownership, taxation, financial analysis, feasibility studies, licensing, and economic impact studies.

Prerequisites & Notes

SRMT 2103

Credits: 3

Esport Management Electives - Select One:

SRMT 3133 - SPORT COACHING

A study in the theory and practice of the fundamental techniques, organizational problems, and strategies involved in athletic coaching.

Prerequisites & Notes

None

Credits: 3

SRMT 3003 - SPORT IN A DIVERSE SOCIETY

This course is designed to give individuals a sociological perspective on sport in society on the global level. It will examine politics, economics, education, the mass media, gender, race, and financial compensation as each relates to sport.

Prerequisites & Notes

None

Credits: 3

SRMT 4303 - SPORT LEADERSHIP

The course is designed as a senior-level study of the administrative techniques and procedures for successful program management in sport work environments. The six focuses are taken from the NASSM (North American Society for Sport Management) program standards.

Prerequisites & Notes

SRMT 2103

Credits: 3

Minor, Computer Science

Total Program: 18 Credit Hours

Minor Core - 6 Credit Hours

CSCI 1003 - INTRODUCTION TO COMPUTER SCIENCE

This foundational course introduces students to the fundamental concepts and principles of computer science. Emphasizing both theory and practical application, the course covers a broad range of topics, including algorithms, data structures, software engineering principles, and an overview of programming languages. Students will learn about the history and evolution of computing, basic computational thinking, and problem-solving techniques. The course also touches upon essential topics such as computer architecture, operating systems, and the basics of network communication. Hands-on programming assignments and projects will be an integral part of the curriculum, providing students with the opportunity to apply theoretical concepts in practical scenarios. This course is designed to provide a comprehensive introduction to the field, paving the way for more specialized studies in computer science. No prior programming experience is required, making it ideal for students from all academic backgrounds who are interested in exploring the world of computing.

Prerequisites & Notes

None

Credits: 3

CSCI 2003 - DATA STRUCTURES

Building upon the foundational knowledge acquired in the introductory computer science course, this course delves deeper into advanced programming concepts and data structures. Students will explore complex data structures like trees, graphs, and hash tables, and understand their application and implementation. The course emphasizes algorithmic thinking, covering algorithms for searching, sorting, and data structure manipulation.

Additional fees may be associated with this course.

Prerequisites & Notes

CSCI 1003

Credits: 3

Computer Science Electives: Select 4:

Choose one (1) of the following: Any CSEC, DATA, or SDEV course at the 1000 level.

Choose three (3) of the following: Any CSCI, CSEC, DATA, or SDEV course at the 2000-level or above.

Bachelor of Science, Aviation Management: Professional Pilot (Alternate Four-Year Plan)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

AVIM 1003 - INTRODUCTION TO AVIATION TRANSPORTATION

This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BUSI 2113 - BUSINESS COMMUNICATIONS I

This course will study effective communication in a business environment. The course includes the preparation of letters, reports, and other forms of business writing on the computer.

Prerequisites & Notes

ENGL 1233

Credits: 3

OR

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

AVIP 1013 - PRIVATE PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Private Pilot Airplane Knowledge Test. Topics include the basic aerodynamics, airplane systems and instruments, weight and balance, aircraft performance, meteorology, flight physiology, basic navigation techniques, radio navigation and communication, the Air Traffic Control and airspace system, and FAA Regulations. Credit may be granted for passing the FAA Private Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 1023. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

AVIP 1011 - PRIVATE PILOT FLIGHT TRAINING I

This course introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Credits: 1

AVIM 2003 - HUMAN FACTORS AND RESOURCE MANAGEMENT

This course explores concepts of Crew Resource Management (CRM). Covers crew coordination, communication, and resource management in professional aviation. Subjects include the history of CRM, skills, psychological, and behavior markers associated with CRM, human error in aviation, and automation. Provides a general knowledge of team critical skills within the aviation industry.

Prerequisites & Notes

None

Credits: 3

AVIM 2013 - AERODYNAMICS & AIRCRAFTS SYSTEMS

This course explores aerodynamics and aircraft systems that enable safe flight in a variety of configurations and environments. Emphases are on the forces that impact flight including lift, weight, thrust, and drag and the aircraft controls, propulsion and systems associated with flight.

Prerequisites & Notes

None

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Elective (2 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

AVIP 1022 - PRIVATE PILOT FLIGHT TRAINING II

This course is a continuation of AVIP 1011. It introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Credits: 2

Divine Design Elective (10 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

AVIP 2013 - INSTRUMENT RATING GROUND SCHOOL

This course provides instruction in preparation instrument flight training and the Federal Aviation Administration's (FAA) Instrument Rating Airplane Knowledge Test. Topics include aircraft flight instruments, flight physiology, Instrument Flight Rules (IFR) aircraft operations and procedures, aircraft performance, weather, IFR planning and regulations. Advanced instruction in aviation weather, radio navigation and charts including procedures for departures en route, arrival and approaches. The course should be taken concurrently with instrument flight lessons or AVIP 2023. Credit may be granted for passing the FAA Instrument Rating Knowledge Test.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot's License or AVIP 1013

Credits: 3

AVIP 2023 - INSTRUMENT FLIGHT TRAINING

This course introduces students to airplane ground, flight operations and maneuvers associated with flying by instrument flight rules. This includes departure, en route, arrival, approaches, and landing in actual or simulated instrument meteorological conditions. Includes flight instruction in single-engine aircraft and simulators with emphasis on safety, operations, navigation systems and charts, various weather conditions, flight planning procedures, decision making, and cockpit resource management. Prepares students for the required FAA Instrument-Airplane Rating Practical Test. Credit may be granted for presenting a valid FAA Instrument-Airplane Rating. The course should be taken concurrently with AVIP 2013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

AVIM 1014 - AVIATION WEATHER ENVIRONMENT W/LAB

This course explores the physical properties of the atmosphere and how they affect the weather, with an emphasis on the factors affecting aviation. The course includes lab components including collecting and interpreting weather and climate data that impact the aviation and human environment.

Prerequisites & Notes

None

Credits: 4

Divine Design Electives (5 Credits)**SPRING SEMESTER - 15 CREDIT HOURS****AVIP 3013 - COMMERCIAL PILOT GROUND SCHOOL**

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Commercial Pilot Airplane Knowledge Test. Topics include the advanced aerodynamics, complex airplane systems, and instruments, weight and balance for heavier aircraft, complex aircraft performance. Includes advanced meteorology, flight physiology for high altitude flight, advanced navigation techniques, radio navigation and communication, airspace systems, and FAA Regulations for commercial flight. Credit may be granted for passing the FAA Commercial Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 3023.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 3

AVIP 3023 - COMMERCIAL PILOT FLIGHT I FLIGHT TRAINING

This course introduces students to airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators. Prepares students for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 3013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIM 3203 - AVIATION SAFETY & MANAGEMENT

This course examines general management principles with an emphasis on leadership, safety and accident prevention. Topics include aviation security, Safety Management Systems (SMS), aircraft accidents and investigations, and emergency services.

Prerequisites & Notes

None

Credits: 3

AVIM 3403 - AVIATION REGULATIONS & LAW

This course provides an overview of constitutional law, administrative law, international law, and enforcement actions affecting aviation. While the courses emphasized the regulations impacting private and commercial air operations, consideration is given to aviation business law, the analysis of the aviation regulatory environments and processes, rulemaking, and legislation.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

AVIP 3033 - COMMERCIAL PILOT FLIGHT II FLIGHT TRAINING

This course continues student training and experience in airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators in final preparation for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

AVIP 3023

Credits: 3

AVIM 3003 - US & GLOBAL AVIATION OPERATIONS

This course explores aviation and airline operations in the United States and globally. Attention is given to the Air Traffic Control (ATC) and airspace system for general and corporate aviation, commercial air carriers, and ground and air traffic operations. Other topics include business models and economic factors, aircraft acquisition, supply chain logistics, and operations.

Prerequisites & Notes

None

Credits: 3

AVIP/AVIM Elective - Select One:

AVIP 1001 - INTRODUCTION TO FLIGHT

The course introduces students to flight operations and is appropriate for students interesting in a career in aviation and is recommended prior to enrolling in AVIP 1023. Topics include basic aerodynamics, flight controls, pre-flight inspection, and basic maneuvers. Students log time in a flight simulator and up to 3 hours of dual instruction in a single-engine aircraft. These hours may be applied toward a Private Pilot Certificate under FAA Part 61 rules.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIM 1101 - INTRODUCTION TO UAS OPERATIONS,POLICY, AND REGULATIONS

This course will introduce basic small Unmanned Aircraft Systems (UAS) operations and policy governing UAS operations found in Title 14 of the Code of Federal Regulations (14 CFR) Part 107, Small Unmanned Aircraft Systems. Federal regulations will be discussed including the proper requirements needed to legally and safely operate UASs in the National Airspace System. The purpose of the course is for students to master the knowledge to pass the UAS Part 107 knowledge exam.

Prerequisites & Notes

None

Credits: 1

AVIP 4011 - ADVANCED GROUND INSTRUCTOR

The course prepares students to take the FAA Advanced Ground Instructor Knowledge Exam. Topics include aerodynamics, aircraft performance, aircraft instruments and systems, Airspace, ATC procedures, weather, navigation, regulations and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4021 - INSTRUMENT GROUND INSTRUCTOR

The course prepares students to take the FAA Instrument Ground Instructor Knowledge Exam. Topics include aircraft performance, aircraft instruments and systems, airspace, ATC communication, instrument procedures, weather, IFR navigation, regulations, and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4031 - CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Instructor Rating for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Instrument Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

CFI Certificate or AVIP 4022 and permission

Credits: 1

AVIP 4041 - MULTI-ENGINE RATING FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Multi-Engine Certificate for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Multi-Engine Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or permission

Credits: 1

Experiential Electives - Select One:

AVIM 4003 - REGIONAL AIRLINE TRANSITION

This course replicates the initial training one can expect after being hired as a pilot for a regional air carrier. The course covers company indoctrination, policies, procedures for flight crews, airline regulations and aircraft systems. Emphasis is on mastering crew resource management, air carrier manual systems, safety management systems, general and emergency operating procedures, and aircraft systems prior to training in a full motion simulator. Students must apply for this course and be approved by the sponsoring regional airline.

Prerequisites & Notes

By Permission

Credits: 3

AVIM 4013 - AVIATION PRACTICUM I

This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum I provides students service learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (5 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

AVIP 4013 - CERTIFIED FLIGHT INSTRUCTOR GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Fundamentals of Instructing (FOI) Federal Aviation Administration's (FAA) and Flight Instructor Knowledge Tests. Topics include the fundamentals of flight instruction and learning, lesson planning, resource management, communication, regulations, and professionalism. Credit may be granted for passing the FAA FOI Knowledge Test, or equivalent, and Flight Instructor Knowledge Test with a mandatory minimum passing score of 70%.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or AVIP 3023

Credits: 3

AVIP 4022 - CERT FLIGHT INSTRUCTOR FLIGHT TRAIN

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor for the category and class of aircraft for which the student seeks. Students explain, demonstrate, and analyze flight maneuvers and resource management skills involved with Private Pilot, Commercial Pilot, and Flight Instructor Certificates. For fixed-wing aircraft includes spins and spin recovery. Credit may be granted for presenting a valid FAA Certified Flight Instructor Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. The course should be taken concurrently with AVIS 4013. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

By permission only

Credits: 2

AVIM 4141 - AVIATION MANAGEMENT CAPSTONE

This course is the capstone course for the major requirements and provides students the opportunity to synthesize and apply their learning in a simulated or real workplace context. Students develop a written reflection and portfolio of evidence of their readiness to enter the workforce in the aviation industry.

Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 1

Divine Design Electives (9 Credits)

Online

Certificate, Organizational Leadership (Online)

The Certificate in Organizational Leadership provides students with communication, motivation, and teamwork skills in working with people. It is perfect in for-profit, non-profit, government, military, and ministry.

Total of 9 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

Organizational Leadership Elective - Select One:

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Bachelor of Science, Organizational Leadership (Online)

Bachelor of Science, Organizational Leadership (Online) Four-Year Plan

Program Description

The Bachelor of Science in Organizational Leadership helps students learn to communicate effectively, motivate themselves and others, and be valued team members, whether followers or leaders. We strive to integrate our Christian faith in our scholarship and practice. Students combine their leadership skills with a minor of their choice or study abroad experience to pursue the path God has put before them. The degree is suitable for graduates desiring to start or advance their careers in for-profit, non-profit, and government organizations.

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program Hours - 120 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 36 Credit Hours

Organizational Leadership Core - 30 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 3183 - ORGANIZATIONAL THEORY & BEHAVIOR

This course is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

Communication Elective - Select One (1) of the Following (3 Credits):

Select three of the following:

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Ethics Elective - Select One (1) of the Following (3 Credits):

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Major Electives - Select Two (2) of the Following (6 Credits):

Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing

historical methodologies.

Credits: 3

LDRS 3033 - LEADERSHIP & HUMAN DIVERSITY

This course examines the complex nature of leadership, culture and personal identity, explores populations at-risk, and encourages students to understand and appreciate diversity. Specific knowledge of leadership as it relates to individual cultures, awareness of the patterns of oppression experienced by those cultures, and skills relevant to developing a culturally competent approach to working with diverse people groups are addressed.

Prerequisites & Notes

None

Credits: 3

LDRS 4103 - LEADING ORGANIZATIONAL CHANGE

This course prepares learners to better comprehend the hyper-turbulent environment of the 21st century by introducing behavioral science techniques and methodologies to systematically bring about high-performing organizations.

Prerequisites & Notes

None

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 2033 - INDUSTRIAL & ORGANIZATIONAL PSYC

This course includes an application of psychological principles to industry, business, and other organizations. Topics include organization of work, selection, training, motivation, job satisfaction, supervision, and decision-making.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 50 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), up to 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Minor, Aviation Operations (Online)

Total of 18 Credit Hours

AVIM 1003 - INTRODUCTION TO AVIATION TRANSPORTATION

This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.

Prerequisites & Notes

None

Credits: 3

AVIM 3003 - US & GLOBAL AVIATION OPERATIONS

This course explores aviation and airline operations in the United States and globally. Attention is given to the Air Traffic Control (ATC) and airspace system for general and corporate aviation, commercial air carriers, and ground and air traffic operations. Other topics include business models and economic factors, aircraft acquisition, supply chain logistics, and operations.

Prerequisites & Notes

None

Credits: 3

AVIM 3203 - AVIATION SAFETY & MANAGEMENT

This course examines general management principles with an emphasis on leadership, safety and accident prevention. Topics include aviation security, Safety Management Systems (SMS), aircraft accidents and investigations, and emergency services.

Prerequisites & Notes

None

Credits: 3

AVIM 3403 - AVIATION REGULATIONS & LAW

This course provides an overview of constitutional law, administrative law, international law, and enforcement actions affecting aviation. While the courses emphasized the regulations impacting private and commercial air operations, consideration is given to aviation business law, the analysis of the aviation regulatory environments and processes, rulemaking, and legislation.

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and

behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

AVIM 4013 - AVIATION PRACTICUM I

This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum I provides students service learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments.

Prerequisites & Notes

None

Credits: 3

Minor, Organizational Leadership (Online)

Total of 18 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Certificate, Back-End Development (Online)

Total Program Hours - 12 Credit Hours

SDEV 1103 - BACK-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Back-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of back-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the

benefits of UI frameworks. The course also introduces the basics of Python and object-oriented programming. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2103 - BACK-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Back-End Developer Professional Certificate. It extends the learner's comprehension of crucial tools and principles fundamental to back-end web development. The course instructs on implementing version control systems, ensuring effective code revision management. Students learn to navigate and configure projects using the command line and the creation and utilization of GitHub repositories. An essential part of the curriculum involves databases; students will identify the principles underpinning their operation and apply this knowledge to design, plan, and implement a straightforward database development project. The course is a vital step for individuals seeking to enhance their back-end development capabilities. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1103

Credits: 3

SDEV 3103 - BACK-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an advanced course that immerses learners in the intricate world of back-end development. Participants will build a functional web server and apply data modeling concepts essential to web development. A significant portion of the curriculum is dedicated to APIs, covering their development, usage, and the principles of REST architecture. Students will demonstrate their comprehension of these principles by constructing a basic API. This course is indispensable for individuals aiming to become proficient back-end developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 2103

Credits: 3

SDEV 4103 - BACK-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an intensive course designed to consolidate and advance your back-end development skills. Learners will develop a fully-functioning Django application that uses both front-end and back-end technologies. Practical application includes setting up a suitable Django development environment and creating a Django web server with multiple API endpoints. Additionally, the course offers strategic preparation for coding interviews, covering common formats and questions. With a focus on problem-solving, participants will apply coding skills to tackle complex, real-world challenges. This capstone course is the ultimate step for those aiming for mastery in back-end development. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 3103

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Cybersecurity (Online)

Total Program Hours - 12 Credit Hours

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential

risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully.

Additional fees may be associated with this course.

Prerequisites & Notes

CSEC 3003

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Data Science (Online)

Total Program Hours - 12 Credit Hours

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field.

Additional fees are associated with this course

Prerequisites & Notes

None

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis.

Additional fees may be associated with this course.

Prerequisites & Notes

DATA 3003

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Front-End Development (Online)

Total Program Hours - 12 Credit Hours

SDEV 1003 - FRONT-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Front-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of front-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of JavaScript. Additionally, students will learn the importance of writing unit tests using Jest, a popular JavaScript testing framework. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2003 - FRONT-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Front-End Developer Professional Certificate. It dives deeper into advanced aspects of front-end web development. This course covers practical skills, including version control systems implementation, command-line project navigation and configuration, and the creation and use of GitHub repositories for code management. Students will also learn to create responsive layouts with HTML5 and CSS, building simple forms and mastering the popular UI framework, Bootstrap. The course equips learners with debugging tools to rectify and enhance their coding efficiency. This course further refines and expands skills, fostering more confident and competent developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1003

Credits: 3

SDEV 3003 - FRONT-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Front-End Developer Professional Certificate. This course provides a deep dive into the use of React, a powerful JavaScript library. Participants will learn to leverage reusable components for dynamic data rendering and use props to facilitate data interchange between these components. The curriculum also emphasizes the organization of larger projects to ensure scalability and maintainability. It covers the creation of interactive web pages and user forms, and includes the construction of a complete application. Advanced techniques for creating robust, reusable components and server interactions via APIs are also explored. Students will learn to test applications with the React Testing Library and integrate commonly used libraries to streamline development. The course culminates in the creation of a comprehensive application, encapsulating all learned skills.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 2003

Credits: 3

SDEV 4003 - FRONT-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Front-End Developer Professional Certificate. It navigates the complex process of designing and implementing user-focused web applications. It begins by introducing the fundamentals of User Experience (UX) design, accessibility considerations, and the importance of user empathy, and teaches students how to create wireframes and prototypes in Figma. The course then transitions into practical application, teaching students to design and style a responsive User Interface (UI), produce clean, bug-free code, and use React components to create multiple views. Students will create a complete website front-end using React JS. The course concludes with essential interview preparation, featuring coding problems and specific strategies for interviews at Meta.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 3003

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Bachelor of Science, Tourism and Hospitality Management (Online)

Bachelor of Science, Tourism & Hospitality Management (Four-Year Plan)

The Bachelor's degree program in Tourism and Hospitality Management integrates a Christ-centered approach into its innovative and comprehensive curriculum, preparing students for successful careers while emphasizing ethical and compassionate service. Through core courses such as Principles of Tourism & Hospitality Management, Hotel & Resort Operations Management, Restaurant Management, Event Management, Tourism & Hospitality Marketing, and a pioneering Religious Tourism course, students not only gain a deep understanding of the industry but also learn to apply Christian values in their professional lives.

The program includes a variety of elective courses and a distinctive 150-hour internship at a tourism and hospitality organization, blending theoretical knowledge with practical experience in real-world settings. This unique combination ensures that graduates are equipped not only with the necessary skills and knowledge to excel in one of the most vibrant industries but also with a strong ethical foundation rooted in Christian principles, making them adept at creating memorable experiences for guests from a perspective of service and care. This degree is tailored for those passionate about delivering exceptional experiences to guests worldwide, equipping them with the necessary skills and knowledge to excel in one of the most vibrant and rapidly evolving industries.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Discursive Inquiry - 6 Credit Hours**ENGL 1113 - COLLEGE COMPOSITION**

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:**NSCI 1044 - NUTRITION SCIENCE**

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select one:**MATH 1313 - TOPICS IN MATHEMATICS**

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

Major Core - 45 Credit Hours

Business & Organizational Leadership Core - 18 Credit Hours

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

Leadership Elective - Select One:

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

Tourism and Hospitality Management Core - 18 Credit Hours

THMT 3113 - PRINCIPLES OF TOURISM & HOSPITALITY

This course provides an overview of the global tourism and hospitality industry. An introduction to the history, attributes, and culture of the industry will be examined. Tourism and hospitality career opportunities will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3003 - RELIGIOUS TOURISM

This course explores the religious tourism segment of the tourism and hospitality industry. Global religious sites, events, festivals, and pilgrimage trips are examined. This course incorporates world religion and history aspects related to religious tourism. Special emphasis is given to the Christianity facet of religious tourism.

Prerequisites & Notes

None

Credits: 3

THMT 3013 - RESTAURANT MANAGEMENT

This course teaches how to plan, develop, budget, and promote restaurant and food service establishments. The functions and responsibilities of food service roles will be analyzed. A restaurant menu, recipes, food costs, and selling prices will be created. Technology in food service will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3103 - TOURISM & HOSPITALITY MARKETING

This course provides the application of marketing concepts to the tourism and hospitality industry. Special emphasis is placed on marketing planning and strategic marketing. Marketing terminology and practices will be applied to class projects.

Prerequisites & Notes

None

Credits: 3

THMT 3313 - LODGING OPERATIONS MANAGEMENT

This course provides a comprehensive analysis of applied theories, principles, and techniques in the management of hotels and resort properties. Hotel management and hourly roles will be studied. Hotel revenue formulas will be reviewed. Special emphasis provided to hotel terminology.

Prerequisites & Notes

None

Credits: 3

THMT 3323 - EVENT MANAGEMENT

This course teaches how to plan, develop, budget, promote, deliver, and evaluate meetings or special events in the hospitality industry.

Prerequisites & Notes

None

Credits: 3

Divine Design (Major Specific Experiential Learning) - 3 Credit Hours

THMT 4903 - TOURISM & HOSPITALITY INTERNSHIP

This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. Students will work a minimum of 150 hours.

Prerequisites & Notes

Approval from Program Coordinator of the Tourism and Hospitality Management Program. Typically, Junior standing and at least a 2.5 cumulative GPA.

Credits: 3

Divine Design - 47 Credit Hours

General Electives are any college-level courses that do not satisfy specific program requirements. To meet the Divine Design core requirements, students may declare minors, enroll in elective credit, and enjoy experiential learning like study abroad, internships, or practicum. Practicum course options include PRAC 1001 (1 hr), PRAC 1002 (2 hrs), PRAC 1003 (3 hrs), PRAC 1004 (4 hrs). Students may earn up to 24 credit hours toward their degree program through experiential learning practicum.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Arkansas

Science

Select one course not taken in Foundational Core

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Kentucky

Social/Behavioral Sciences

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

Credits: 3

Humanities - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Science

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Tourism and Hospitality Management (Four-Year Plan)(Online and Partner)

Year One

FALL SEMESTER - 16 CREDIT HOURS

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

Quantitative Inquiry - Select one:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Divine Design Elective (3 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

BBUS 2103 - MACROECONOMICS

This course will cover basic concepts of supply and demand, production possibilities, the circular flow concept and related topics of GDP, inflation, and employment/unemployment, fiscal and monetary policy, and the workings of the monetary system.

*Do not register for this course if you have taken BUSI 2103

Prerequisites & Notes

None

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1023 - INTRO TO SCIENCE AND TECH

A course designed to develop the foundation for the scientific literacy necessary to understand technology's role in modern society. Basic scientific concepts underlying matter, energy, life and systems are introduced, and students engage in development of reasoning and problem-solving skills associated with scientific issues. The course is an introduction with applications to environmental science, human biology and health, physical and chemical principles, energy, earth science, and systems. Using an integration approach of the natural sciences allows the student to employ an understanding of science, technology and some current health problem areas in order to appraise alternative futures. Case studies and/or individual student projects will be used.

Prerequisites & Notes

Corequisite: NSCI 102L

Credits: 3

NSCI 102L - INTRO TO SCIENCE AND TECH LAB

Laboratory to accompany NSCI 1023.

Prerequisites & Notes

Corequisite: NSCI 1023

Credits: 1

OR

BIOL 1333 - ESSENTIALS OF HUMAN A & P

This course is a study of the structure, formation and function of the eleven human body systems. Concurrent enrollment in BIOL 133L is required. This course is required for Psychology majors and meets general education requirements for non-science majors only.

Prerequisites & Notes

Corequisite: BIOL 133L

Credits: 3

BIOL 133L - ESSENT OF ANATOMY & PHYSIOLOGY LAB

This course is a laboratory to accompany BIOL 1333.

Prerequisites & Notes

Corequisite: BIOL 1333

Credits: 1

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Year Two

FALL SEMESTER - 15 CREDIT HOURS

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

BBUS 1003 - INTRODUCTION TO BUSINESS

This course is an introduction to the key functions of business in the global economy. The course includes an overview of economics, accounting and finance, management, operations, marketing, and business planning. Students will also develop professional networking skills using social media.

Prerequisites & Notes

None

Credits: 3

THMT 3113 - PRINCIPLES OF TOURISM & HOSPITALITY

This course provides an overview of the global tourism and hospitality industry. An introduction to the history, attributes, and culture of the industry will be examined. Tourism and hospitality career opportunities will be explored.

Prerequisites & Notes

None

Credits: 3

SPRING SEMESTER - 15 CREDIT HOURS

BUSI 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking. This course is cross-referenced with THEO 4113.

Prerequisites & Notes

PHIL 2003 & Junior Standing

Credits: 3

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

THMT 3313 - LODGING OPERATIONS MANAGEMENT

This course provides a comprehensive analysis of applied theories, principles, and techniques in the management of hotels and resort properties. Hotel management and hourly roles will be studied. Hotel revenue formulas will be reviewed. Special emphasis provided to hotel terminology.

Prerequisites & Notes

None

Credits: 3

Leadership Elective - Select One:

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

Divine Design Elective (3 Credits)

Year Three

FALL SEMESTER - 15 CREDIT HOURS

THMT 3013 - RESTAURANT MANAGEMENT

This course teaches how to plan, develop, budget, and promote restaurant and food service establishments. The functions and responsibilities of food service roles will be analyzed. A restaurant menu, recipes, food costs, and selling prices will be created. Technology in food service will be explored.

Prerequisites & Notes

None

Credits: 3

BBUS 3153 - INTERNATIONAL BUSINESS

This course presents an analysis of geographic, political, social, economic, legal, and technological influences on international businesses. During the course, students will examine how businesses operate in an international environment composed of different political and cultural traditions and different governmental institutions. They will also study the opportunities and constraints presented by adjusting and accommodating varying national requirements.

Prerequisites & Notes

BBUS 2103

Credits: 3

Socio-Historical Inquiry - Select One:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design Electives (6 Credits)

SPRING SEMESTER - 15 CREDIT HOURS

THMT 3323 - EVENT MANAGEMENT

This course teaches how to plan, develop, budget, promote, deliver, and evaluate meetings or special events in the hospitality industry.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (12 Credits)

Year Four

FALL SEMESTER - 15 CREDIT HOURS

THMT 3003 - RELIGIOUS TOURISM

This course explores the religious tourism segment of the tourism and hospitality industry. Global religious sites, events, festivals, and pilgrimage trips are examined. This course incorporates world religion and history aspects related to religious tourism. Special emphasis is given to the Christianity facet of religious tourism.

Prerequisites & Notes

None

Credits: 3

THMT 4903 - TOURISM & HOSPITALITY INTERNSHIP

This course is a supervised, structured work experience designed to augment and develop practical experience in conjunction with regular coursework. Participants are strongly encouraged to utilize this option to explore potential career paths. Students will work a minimum of 150 hours.

Prerequisites & Notes

Approval from Program Coordinator of the Tourism and Hospitality Management Program. Typically, Junior standing and at least a 2.5 cumulative GPA.

Credits: 3

Divine Design Electives (9 Credits)

SPRING SEMESTER - 14 CREDIT HOURS

THMT 3103 - TOURISM & HOSPITALITY MARKETING

This course provides the application of marketing concepts to the tourism and hospitality industry. Special emphasis is placed on marketing planning and strategic marketing. Marketing terminology and practices will be applied to class projects.

Prerequisites & Notes

None

Credits: 3

Divine Design Electives (11 Credits)

Minor, Tourism & Hospitality Management (Online)

Total Program: 18 Credit Hours

Tourism and Hospitality Core - 18 Credit Hours

THMT 3113 - PRINCIPLES OF TOURISM & HOSPITALITY

This course provides an overview of the global tourism and hospitality industry. An introduction to the history, attributes, and culture of the industry will be examined. Tourism and hospitality career opportunities will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3313 - LODGING OPERATIONS MANAGEMENT

This course provides a comprehensive analysis of applied theories, principles, and techniques in the management of hotels and resort properties. Hotel management and hourly roles will be studied. Hotel revenue formulas will be reviewed. Special emphasis provided to hotel terminology.

Prerequisites & Notes

None

Credits: 3

THMT 3013 - RESTAURANT MANAGEMENT

This course teaches how to plan, develop, budget, and promote restaurant and food service establishments. The functions and responsibilities of food service roles will be analyzed. A restaurant menu, recipes, food costs, and selling prices will be created. Technology in food service will be explored.

Prerequisites & Notes

None

Credits: 3

THMT 3323 - EVENT MANAGEMENT

This course teaches how to plan, develop, budget, promote, deliver, and evaluate meetings or special events in the hospitality industry.

Prerequisites & Notes

None

Credits: 3

THMT 3003 - RELIGIOUS TOURISM

This course explores the religious tourism segment of the tourism and hospitality industry. Global religious sites, events, festivals, and pilgrimage trips are examined. This course incorporates world religion and history aspects related

to religious tourism. Special emphasis is given to the Christianity facet of religious tourism.

Prerequisites & Notes

None

Credits: 3

THMT 3103 - TOURISM & HOSPITALITY MARKETING

This course provides the application of marketing concepts to the tourism and hospitality industry. Special emphasis is placed on marketing planning and strategic marketing. Marketing terminology and practices will be applied to class projects.

Prerequisites & Notes

None

Credits: 3

Site-Based (Partnership)

Associate of Applied Science, Professional Pilot (Partner Sites)

Associate of Applied Science, Professional Pilot (Two-Year Plan)

Program Description:

The Associate of Applied Science (AAS) in Professional Pilot prepares graduates to enter the workforce as commercial pilots as flight instructors, air taxi pilots, corporate pilots or first officers for commuter airlines. Graduates will earn the Federal Aviation Administration (FAA) Commercial Pilot Certificate, with Single and Multi-Engine Land class ratings with an Instrument Rating, Certified Flight Instructor Certificate, and either a Regional Airline Transition course or a Practicum to build flight hours and other employable skills for the aviation industry.

The AAS degree in Professional pilot requires 62 credit hours, of which 33 are earned toward the major, including 27 credit hours earned for ground and flight training. The remaining 29 hours include general education. All non-flight courses are offered in an online or blended delivery format. Students under an F1 Visa take courses in face-to-face.

This program is ideal for students who primarily desire to become professional or airline pilots and are starting with no flight experience. However, credit for prior FAA Pilot Certificates or Knowledge Exams can be awarded per policy.*

Students who choose the accelerated flight training path will have the opportunity to interview for employment as a flight instructor and work while they finish their degrees.

Program Learning Outcomes:

Graduates of the Associate of Applied Sciences in Professional Pilot will be able to:

1. Demonstrate the aeronautical knowledge and pilot skills to safely operate a fixed-wing single-engine aircraft appropriate for a commercial pilot.

Assessment:

- a. 100% of students will pass the FAA Commercial Pilot Knowledge Exam with a 70% or higher on their first attempt.
 - b. 80% of the students will pass the FAA Commercial Pilot Practical Exam on the first attempt. 100% will pass by no more than two attempts.
2. Demonstrate the aeronautical knowledge and pilot skills to safely operate a fixed-wing single-engine aircraft in instrument meteorological conditions.

Assessment:

- a. 100% of students will pass the FAA Instrument Rating Knowledge Exam with a 70% or higher on their first attempt.
 - b. 80% of the students will pass the FAA Instrument Rating Practical Exam on the first attempt. 100% will pass by no more than two attempts.
3. Demonstrate the aeronautical knowledge and principles of instruction to operate as a ground and flight instructor pilot.

Assessment:

- a. 100% of students will pass the FAA Fundamentals of Instruction Knowledge Exam with a 70% or higher on their first attempt.
 - b. 100% of students will pass the FAA Flight Instructor Knowledge Exam with a 70% or higher on their first attempt.
 - c. 80% of the students will pass the FAA Certified Flight Instructor Practical Exam on the first attempt. 100% will pass by no more than two attempts.
4. Describe career paths and pilot opportunities within the aviation industry.

Assessment:

- a. All students will achieve 80% on a standardized rubric for an integrative assignment in the AVIM 4013: Aviation Practicum I course, or AVIM 4003: Regional Airline Transition course.

Admissions Criteria:

- High School Diploma
- Enrollment Application
- Character Reference
- Ability to read, write, and understand English to take the Private Pilot Practical Exam
- 17 years of age to take the Private Pilot Practical Exam; 18 years of age to take the Commercial Pilot Practical Exam.
- Ability to obtain an FAA Class 2 Medical Certificate (to operate with the privileges of a Commercial Pilot Certificate).
- Ability to obtain an FAA Class 1 Medical Certificate (to operate with the privileges of an Airline Transport Certificate).
- International/non-citizens must complete additional requirements including an appropriate VISA and Transportation Security Administration (TSA) approval through the Alien Flight Student Program (AFSP).

*The first 9 credit hours are free, then \$200 per course thereafter. If a student presents official transcripts from an accredited institution of higher education with equivalent courses, all those credits transfer at no cost. A faculty member or certified flight instructor appointed by the university may verify the currency of the credit through a review of logbook entries, oral examination, and/or flight/simulator evaluation.

Prior to students being enrolled in any of the AVIP flight courses students must have completed their Private Pilot training and have in their possession their Private Pilot License. Student who do not have their Private Pilot License prior to being accepted into the Aviation program are encouraged to enroll in SEU's Aviation 6-credit hours Private Pilot License courses: AVIP 1013, 1011 & 1012.

Please see the Aviation promotional page for information on additional fees associated with this program.

Total Program Hours - 60 Credit Hours

NOTE: It is the responsibility of the student to read, review, and fulfill the requirements and total hours of this degree audit for their applicable degree.

Foundational Core - 25 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

AVIM 1014 - AVIATION WEATHER ENVIRONMENT W/LAB

This course explores the physical properties of the atmosphere and how they affect the weather, with an emphasis on the factors affecting aviation. The course includes lab components including collecting and interpreting weather and climate data that impact the aviation and human environment.

Prerequisites & Notes

None

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 22 Credit Hours

AVIP 2013 - INSTRUMENT RATING GROUND SCHOOL

This course provides instruction in preparation instrument flight training and the Federal Aviation Administration's (FAA) Instrument Rating Airplane Knowledge Test. Topics include aircraft flight instruments, flight physiology, Instrument Flight Rules (IFR) aircraft operations and procedures, aircraft performance, weather, IFR planning and regulations. Advanced instruction in aviation weather, radio navigation and charts including procedures for departures en route, arrival and approaches. The course should be taken concurrently with instrument flight lessons or AVIP 2023. Credit may be granted for passing the FAA Instrument Rating Knowledge Test.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot's License or AVIP 1013

Credits: 3

AVIP 2023 - INSTRUMENT FLIGHT TRAINING

This course introduces students to airplane ground, flight operations and maneuvers associated with flying by instrument flight rules. This includes departure, en route, arrival, approaches, and landing in actual or simulated instrument meteorological conditions. Includes flight instruction in single-engine aircraft and simulators with emphasis on safety, operations, navigation systems and charts, various weather conditions, flight planning procedures, decision making, and cockpit resource management. Prepares students for the required FAA Instrument-Airplane Rating Practical Test. Credit may be granted for presenting a valid FAA Instrument-Airplane Rating. The course should be taken concurrently with AVIP 2013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIP 3013 - COMMERCIAL PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Commercial Pilot Airplane Knowledge Test. Topics include the advanced aerodynamics, complex airplane systems, and instruments, weight and balance for heavier aircraft, complex aircraft performance. Includes advanced meteorology, flight physiology for high altitude flight, advanced navigation techniques, radio navigation and communication, airspace systems, and FAA Regulations for commercial flight. Credit may be granted for passing the FAA Commercial Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 3023.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 3

AVIP 3023 - COMMERCIAL PILOT FLIGHT I FLIGHT TRAINING

This course introduces students to airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators. Prepares students for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 3013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIP 3033 - COMMERCIAL PILOT FLIGHT II FLIGHT TRAINING

This course continues student training and experience in airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators in final preparation for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

AVIP 3023

Credits: 3

AVIP 4013 - CERTIFIED FLIGHT INSTRUCTOR GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Fundamentals of Instructing (FOI) Federal Aviation Administration's (FAA) and Flight Instructor Knowledge Tests. Topics include the fundamentals of flight instruction and learning, lesson planning, resource management, communication, regulations, and professionalism. Credit may be granted for passing the FAA FOI Knowledge Test, or equivalent, and Flight Instructor Knowledge Test with a mandatory minimum passing score of 70%.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or AVIP 3023

Credits: 3

AVIP 4022 - CERT FLIGHT INSTRUCTOR FLIGHT TRAIN

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor for the category and class of aircraft for which the student seeks. Students explain, demonstrate, and analyze flight maneuvers and resource management skills involved with Private Pilot, Commercial Pilot, and Flight Instructor Certificates. For fixed-wing aircraft includes spins and spin recovery. Credit may be granted

for presenting a valid FAA Certified Flight Instructor Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. The course should be taken concurrently with AVIS 4013. Some students may require additional hours of instruction beyond the course minimum to pass the course. Additional fees are associated with this course.

Prerequisites & Notes

By permission only

Credits: 2

AVIP/AVIM Elective - Select One:

AVIM 1101 - INTRODUCTION TO UAS OPERATIONS,POLICY, AND REGULATIONS

This course will introduce basic small Unmanned Aircraft Systems (UAS) operations and policy governing UAS operations found in Title 14 of the Code of Federal Regulations (14 CFR) Part 107, Small Unmanned Aircraft Systems. Federal regulations will be discussed including the proper requirements needed to legally and safely operate UASs in the National Airspace System. The purpose of the course is for students to master the knowledge to pass the UAS Part 107 knowledge exam.

Prerequisites & Notes

None

Credits: 1

AVIP 1001 - INTRODUCTION TO FLIGHT

The course introduces students to flight operations and is appropriate for students interesting in a career in aviation and is recommended prior to enrolling in AVIP 1023. Topics include basic aerodynamics, flight controls, pre-flight inspection, and basic maneuvers. Students log time in a flight simulator and up to 3 hours of dual instruction in a single-engine aircraft. These hours may be applied toward a Private Pilot Certificate under FAA Part 61 rules.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4011 - ADVANCED GROUND INSTRUCTOR

The course prepares students to take the FAA Advanced Ground Instructor Knowledge Exam. Topics include aerodynamics, aircraft performance, aircraft instruments and systems, Airspace, ATC procedures, weather, navigation, regulations and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4021 - INSTRUMENT GROUND INSTRUCTOR

The course prepares students to take the FAA Instrument Ground Instructor Knowledge Exam. Topics include aircraft performance, aircraft instruments and systems, airspace, ATC communication, instrument procedures, weather, IFR navigation, regulations, and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4031 - CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Instructor Rating for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Instrument Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

CFI Certificate or AVIP 4022 and permission

Credits: 1

AVIP 4041 - MULTI-ENGINE RATING FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Multi-Engine Certificate for the category and class of aircraft for which the student seeks. The course also provides provide flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Multi-Engine Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or permission

Credits: 1

Divine Design - 13 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit

hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Bachelor of Science, Aviation Management: Professional Pilot (Partner Site)

Bachelor of Science, Aviation Management: Professional Pilot (Four-Year Plan)

Bachelor of Science, Aviation Management: Professional Pilot (Alternate Four-Year Plan)

The Bachelor of Science in Aviation Management (BSAVM) with the Professional Pilot track prepares graduates to enter the aviation workforce as aviators and entry-level managerial or administrative roles. Graduates will earn the Federal Aviation Administration (FAA) Commercial Pilot Certificate, with Single and Multi-Engine Land class ratings with an Instrument Rating, and Certified Flight Instructor Certificate.

The BS AM degree requires 120 credit hours, of which 64 are earned toward the major, including 27 credit hours earned for ground and flight training. The remaining 56 hours include general education.

Once students complete their Certified Flight Instructor Certificates, they have the opportunity to interview for employment as a flight instructor and work while they finish their degree through online courses.

The program is ideal for students desiring a full-time, residential program to prepare them for the aviation industry. Students under a F1 Visa take courses in a face-to-face or hybrid format.

Graduates of the Bachelor of Aviation Management will be able to:

1. Demonstrate the aeronautical knowledge and pilot skills to safely operate a fixed-wing single-engine aircraft appropriate for a commercial pilot.

Assessment:

1. 100% of students will pass the FAA Commercial Pilot Knowledge Exam with a 70% or higher on their first attempt.
 2. 80% of the students will pass the FAA Commercial Pilot Practical Exam on the first attempt. 100% will pass by no more than two attempts.
2. Demonstrate the aeronautical knowledge and pilot skills to safely operate a fixed-wing single-engine aircraft in instrument meteorological conditions.

Assessment:

1. 100% of students will pass the FAA Instrument Rating Knowledge Exam with a 70% or higher on their first attempt.
 2. 80% of the students will pass the FAA Instrument Rating Practical Exam on the first attempt. 100% will pass by no more than two attempts.
3. Demonstrate the aeronautical knowledge and principles of instruction to operate as a ground and flight instructor pilot.

Assessment:

1. 100% of students will pass the FAA Fundamentals of Instruction Knowledge Exam with a 70% or higher on their first attempt.
 2. 100% of students will pass the FAA Flight Instructor Knowledge Exam with a 70% or higher on their first attempt.
 3. 80% of the students will pass the FAA Certified Flight Instructor Practical Exam on the first attempt. 100% will pass by no more than two attempts.
4. Demonstrate enhanced skills for safe flight operations in a variety of environments.

Assessment:

1. All students will achieve 80% on a standardized rubric for an integrative assignment in the AVIM 3203: Aviation and Safety Management course.
5. Describe career paths and opportunities within the aviation industry.

Assessment:

1. All students will achieve 80% on a standardized rubric for an integrative assignment in the AVIM 4013: Aviation Practicum I course, or AVIM 4003: Regional Airline Transition course.

Admissions Criteria:

- High School Diploma
- Enrollment Application
- Ability to read, write, and understand English to take the Private Pilot Practical Exam
- 17 years of age to take the Private Pilot Practical Exam; 18 years of age to take the Commercial Pilot Practical Exam.
- Ability to obtain a FAA Class 2 Medical Certificate (to operate with the privileges of a Commercial Pilot Certificate)
- Ability to obtain a FAA Class 1 Medical Certificate (to operate with the privileges of a Airline Transport Certificate)
- International/non-citizens must complete additional requirements including an appropriate VISA and Transportation Security Administration (TSA) approval through the Alien Flight Student Program (AFSP).
- Students using a GI Bill® must have a private pilot's certificate.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>.

120 credit hours needed. Student must complete the Foundational Core, major requirements, a minimum of 19 Divine Design credit hours, and one 18-credit hour minor to meet the total program hours. Declare one of the following on the Major/Minor Change Form: Accounting and Finance, Business, Global Business Management, Organizational Leadership, or Non-profit Management. Some states have additional program requirements for site-based and online students which will be included below if applicable. Prior to students being enrolled in any of the AVIP flight courses students must have completed their Private Pilot training and have in their possession their Private Pilot License. Student who do not have their Private Pilot License prior to being accepted into the Aviation program are encouraged to enroll in SEU's Aviation 6-credit hours Private Pilot License courses: AVIP 1013, 1011 & 1012.

Please see the Aviation promotional page for information on additional fees associated with this program.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of

inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:
CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

BUSI 2113 - BUSINESS COMMUNICATIONS I

This course will study effective communication in a business environment. The course includes the preparation of letters, reports, and other forms of business writing on the computer.

Prerequisites & Notes

ENGL 1233

Credits: 3

OR

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

AVIM 1014 - AVIATION WEATHER ENVIRONMENT W/LAB

This course explores the physical properties of the atmosphere and how they affect the weather, with an emphasis on the factors affecting aviation. The course includes lab components including collecting and interpreting weather and climate data that impact the aviation and human environment.

Prerequisites & Notes

None

Credits: 4

Quantitative Inquiry - 3 Credit Hours

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 40 Credit Hours

Aviation Core - 19 Credit Hours

AVIM 1003 - INTRODUCTION TO AVIATION TRANSPORTATION

This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.

Prerequisites & Notes

None

Credits: 3

AVIM 2003 - HUMAN FACTORS AND RESOURCE MANAGEMENT

This course explores concepts of Crew Resource Management (CRM). Covers crew coordination, communication, and resource management in professional aviation. Subjects include the history of CRM, skills, psychological, and behavior markers associated with CRM, human error in aviation, and automation. Provides a general knowledge of team critical skills within the aviation industry.

Prerequisites & Notes

None

Credits: 3

AVIM 2013 - AERODYNAMICS & AIRCRAFTS SYSTEMS

This course explores aerodynamics and aircraft systems that enable safe flight in a variety of configurations and environments. Emphases are on the forces that impact flight including lift, weight, thrust, and drag and the aircraft controls, propulsion and systems associated with flight.

Prerequisites & Notes

None

Credits: 3

AVIM 3003 - US & GLOBAL AVIATION OPERATIONS

This course explores aviation and airline operations in the United States and globally. Attention is given to the Air Traffic Control (ATC) and airspace system for general and corporate aviation, commercial air carriers, and ground and air traffic operations. Other topics include business models and economic factors, aircraft acquisition, supply chain logistics, and operations.

Prerequisites & Notes

None

Credits: 3

AVIM 3203 - AVIATION SAFETY & MANAGEMENT

This course examines general management principles with an emphasis on leadership, safety and accident prevention. Topics include aviation security, Safety Management Systems (SMS), aircraft accidents and investigations, and emergency services.

Prerequisites & Notes

None

Credits: 3

AVIM 3403 - AVIATION REGULATIONS & LAW

This course provides an overview of constitutional law, administrative law, international law, and enforcement actions affecting aviation. While the courses emphasized the regulations impacting private and commercial air operations, consideration is given to aviation business law, the analysis of the aviation regulatory environments and processes, rulemaking, and legislation.

Prerequisites & Notes

None

Credits: 3

AVIM 4141 - AVIATION MANAGEMENT CAPSTONE

This course is the capstone course for the major requirements and provides students the opportunity to synthesize and apply their learning in a simulated or real workplace context. Students develop a written reflection and portfolio of evidence of their readiness to enter the workforce in the aviation industry.

Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 1

Professional Pilot Core - 26 Credit Hours

AVIP 1013 - PRIVATE PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Private Pilot Airplane Knowledge Test. Topics include the basic aerodynamics, airplane systems and instruments, weight and balance, aircraft performance, meteorology, flight physiology, basic navigation techniques, radio navigation and communication, the Air Traffic Control and airspace system, and FAA Regulations. Credit may be granted for passing the FAA Private Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 1023.

Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

AVIP 1011 - PRIVATE PILOT FLIGHT TRAINING I

This course introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Credits: 1

AVIP 1022 - PRIVATE PILOT FLIGHT TRAINING II

This course is a continuation of AVIP 1011. It introduces students to airplane ground and flight operations, take-off and landing, basic flight maneuvers, cross-country methods, night flying, and emergency procedures. The course also includes flight instruction in single-engine aircraft and simulators. This course prepares students for the required FAA Private Pilot Airplane Practical Test. Credit may be granted for students presenting a valid FAA Private Pilot Certificate. Students must possess an FAA Class 3 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 1013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Credits: 2

AVIP 2013 - INSTRUMENT RATING GROUND SCHOOL

This course provides instruction in preparation instrument flight training and the Federal Aviation Administration's (FAA) Instrument Rating Airplane Knowledge Test. Topics include aircraft flight instruments, flight physiology, Instrument Flight Rules (IFR) aircraft operations and procedures, aircraft performance, weather, IFR planning and regulations. Advanced instruction in aviation weather, radio navigation and charts including procedures for departures en route, arrival and approaches. The course should be taken concurrently with instrument flight lessons or AVIP 2023. Credit may be granted for passing the FAA Instrument Rating Knowledge Test.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot's License or AVIP 1013

Credits: 3

AVIP 2023 - INSTRUMENT FLIGHT TRAINING

This course introduces students to airplane ground, flight operations and maneuvers associated with flying by instrument flight rules. This includes departure, en route, arrival, approaches, and landing in actual or simulated instrument meteorological conditions. Includes flight instruction in single-engine aircraft and simulators with emphasis on safety, operations, navigation systems and charts, various weather conditions, flight planning procedures, decision making, and cockpit resource management. Prepares students for the required FAA Instrument-Airplane Rating Practical Test. Credit may be granted for presenting a valid FAA Instrument-Airplane Rating. The course should be taken concurrently with AVIP 2013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIP 3013 - COMMERCIAL PILOT GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Federal Aviation Administration's (FAA) Commercial Pilot Airplane Knowledge Test. Topics include the advanced aerodynamics, complex airplane systems, and instruments, weight and balance for heavier aircraft, complex aircraft performance. Includes advanced meteorology, flight physiology for high altitude flight, advanced navigation techniques, radio navigation and communication, airspace systems, and FAA Regulations for commercial flight. Credit may be granted for passing the FAA Commercial Pilot Airplane Knowledge Test with a mandatory minimum passing score of 70%. The course should be taken concurrently with flight lessons or AVIP 3023.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 3

AVIP 3023 - COMMERCIAL PILOT FLIGHT I FLIGHT TRAINING

This course introduces students to airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators. Prepares students for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. The course should be taken concurrently with AVIP 3013. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Private Pilot Certificate or AVIP 1023

Credits: 3

AVIP 3033 - COMMERCIAL PILOT FLIGHT II FLIGHT TRAINING

This course continues student training and experience in airplane ground and flight operations, take-off and landing, advanced flight maneuvers, cross-country methods, night flying, and emergency procedures appropriate for a commercial pilot. Includes flight instruction in single-engine basic and complex aircraft and simulators in final preparation for the required FAA Commercial Pilot Airplane Practical Test. Credit may be granted for presenting a valid FAA Commercial Pilot Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 17 years old. Some students may require additional hours of flight instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

AVIP 3023

Credits: 3

AVIP 4013 - CERTIFIED FLIGHT INSTRUCTOR GROUND SCHOOL

This course provides instruction in preparation for initial flight training and the Fundamentals of Instructing (FOI) Federal Aviation Administration's (FAA) and Flight Instructor Knowledge Tests. Topics include the fundamentals of flight instruction and learning, lesson planning, resource management, communication, regulations, and professionalism. Credit may be granted for passing the FAA FOI Knowledge Test, or equivalent, and Flight Instructor Knowledge Test with a mandatory minimum passing score of 70%.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or AVIP 3023

Credits: 3

AVIP 4022 - CERT FLIGHT INSTRUCTOR FLIGHT TRAIN

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor for the category and class of aircraft for which the student seeks. Students explain, demonstrate, and analyze flight maneuvers and resource management skills involved with Private Pilot, Commercial Pilot, and Flight Instructor Certificates. For fixed-wing aircraft includes spins and spin recovery. Credit may be granted for presenting a valid FAA Certified Flight Instructor Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. The course should be taken concurrently with AVIS 4013. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

By permission only

Credits: 2

AVIP/AVIM Elective: Select One:

AVIP 1001 - INTRODUCTION TO FLIGHT

The course introduces students to flight operations and is appropriate for students interesting in a career in aviation and is recommended prior to enrolling in AVIP 1023. Topics include basic aerodynamics, flight controls, pre-flight inspection, and basic maneuvers. Students log time in a flight simulator and up to 3 hours of dual instruction in a single-engine aircraft. These hours may be applied toward a Private Pilot Certificate under FAA Part 61 rules.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIM 1101 - INTRODUCTION TO UAS OPERATIONS,POLICY, AND REGULATIONS

This course will introduce basic small Unmanned Aircraft Systems (UAS) operations and policy governing UAS operations found in Title 14 of the Code of Federal Regulations (14 CFR) Part 107, Small Unmanned Aircraft Systems. Federal regulations will be discussed including the proper requirements needed to legally and safely operate UASs in the National Airspace System. The purpose of the course is for students to master the knowledge to pass the UAS Part 107 knowledge exam.

Prerequisites & Notes

None

Credits: 1

AVIP 4011 - ADVANCED GROUND INSTRUCTOR

The course prepares students to take the FAA Advanced Ground Instructor Knowledge Exam. Topics include aerodynamics, aircraft performance, aircraft instruments and systems, Airspace, ATC procedures, weather, navigation, regulations and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4021 - INSTRUMENT GROUND INSTRUCTOR

The course prepares students to take the FAA Instrument Ground Instructor Knowledge Exam. Topics include aircraft performance, aircraft instruments and systems, airspace, ATC communication, instrument procedures, weather, IFR navigation, regulations, and aeronautical decision making.

Additional fees are associated with this course.

Prerequisites & Notes

NULL

Credits: 1

AVIP 4031 - CERTIFIED FLIGHT INSTRUCTOR-INSTRUMENT FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Instructor Rating for the category and class of aircraft for which the student seeks. The course also provides flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Instrument Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

CFI Certificate or AVIP 4022 and permission

Credits: 1

AVIP 4041 - MULTI-ENGINE RATING FLIGHT TRAINING

This course provides instruction in the basic and advanced aeronautical knowledge and piloting skills appropriate for a Certified Flight Instructor-Multi-Engine Certificate for the category and class of aircraft for which the student seeks. The course also provides flight instruction experiences. Credit may be granted for presenting a valid FAA Certified Flight Instructor Multi-Engine Certificate. Students must possess an FAA Class 2 or above Medical Certificate and be at least 18 years old. Some students may require additional hours of instruction beyond the course minimum to pass the course.

Additional fees are associated with this course.

Prerequisites & Notes

Commercial Pilot Certificate or permission

Credits: 1

Divine Design (Major Specific Experiential Learning) - Select One:

AVIM 4013 - AVIATION PRACTICUM I

This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum I provides students service learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments.

Prerequisites & Notes

None

Credits: 3

AVIM 4003 - REGIONAL AIRLINE TRANSITION

This course replicates the initial training one can expect after being hired as a pilot for a regional air carrier. The course covers company indoctrination, policies, procedures for flight crews, airline regulations and aircraft systems. Emphasis is on mastering crew resource management, air carrier manual systems, safety management systems, general and emergency operating procedures, and aircraft systems prior to training in a full motion simulator. Students must apply

for this course and be approved by the sponsoring regional airline.

Prerequisites & Notes

By Permission

Credits: 3

Divine Design - 37 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

This program requires 18 hours of the Divine Design requirement to be met with a Business or Organizational Leadership minor. Please declare one of these minors on the Major/Minor Change Form:

Accounting and Finance

Business

Global Business Management

Minor, Organizational Leadership (Partner)

Non Profit Management

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

* In addition to Foundational Core Discursive Inquiry requirements

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

AND

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

OR

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

Area III, Natural Science and Mathematics - 11 Credit Hours

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Area IV, History, Social and Behavioral Sciences - 12 Credit Hours

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing

historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Humanities

PMIN 2123 - CHRISTIAN SPIRITUALITY

This course empowers the student to evaluate spiritual growth and cultivate their personal relationship with God. The course provides an opportunity for students to practice classical Christian spiritual disciplines that nurture intimacy with God. Students will also become acquainted with various perspectives on spiritual life from the area of historical theology.

Prerequisites & Notes

NULL

Credits: 3

Maryland

Maryland students need an additional six credit hours in one or more of the following five areas: (i) Arts and humanities; (ii) English composition; (iii) Social and behavioral sciences; (iv) Mathematics; and (v) Biological and physical sciences.

Minnesota

Communication

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Natural Science

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

OR

NSCI 1043 - NUTRITION SCIENCE

This course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 3

NSCI 104L - NUTRITION SCIENCE LABORATORY

This course is to accompany NSCI 1043, Nutrition Science.

Prerequisites & Notes

NULL

Credits: 1

Social Science

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) or HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one ore more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Bachelor of Science, Organizational Leadership (Site-based)

Bachelor of Science, Organizational Leadership Four-Year Plan

The Bachelor of Science in Organizational Leadership helps students learn to communicate effectively, motivate themselves and others, and be valued team members, whether followers or leaders. We strive to integrate our Christian faith in our scholarship and practice. Students combine their leadership skills with a minor of their choice or study abroad experience to pursue the path God has put before them. The degree is suitable for graduates desiring to start or advance their careers in for-profit, non-profit, and government organizations.

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. State-specific requirements are specified in the SEU Catalog. Your Academic Advisor is available to help integrate these additional courses into your plan.

Total Program: 120 Credit Hours

Foundational Core - 34 Credit Hours

SEU Foundations - 3 Credit Hours

CORE 1111 - COMMUNITY AND COLLEGE SUCCESS

This course is an academic introduction to the Southeastern University community and the varied resources available focusing on whole-person success. The course focuses on the college experience, belonging, personal and community awareness, successfully navigating life transitions. Students will introspectively and collaboratively discover how to live and work according to God's call on their life.

Prerequisites & Notes

NULL

Credits: 1

CORE 1112 - DIVINE DESIGN AND MISSIONAL VOCATION

This course prepares students for success in professional, academic, and social settings through leadership development aligned to whole person self-actualization. Through this course, students will explore their Divine Design and the career most aligned to their unique giftings outlining a clear path to personal and professional success. The course will focus on career readiness concepts through an exploration of critical analysis of spirituality and society, modes of inquiry through a deep dive of paths of study at SEU, and real-world problems.

Prerequisites & Notes

Prerequisite:

CORE 1111

Credits: 2

Worldview Formation - 9 Credit Hours

BIBL 1113 - THE STORY OF SCRIPTURE

The Story of Scripture introduces students to the major themes and content of Scripture. Students will build their Biblical understanding of the relationship between the books of the Bible and what God is doing and revealing from Genesis to Revelation.

Credits: 3

THEO 1213 - LIVED THEOLOGY

This course introduces students to theology and the tenets of Christian thought and practice. Students will explore basic Christianity, spiritual practices, and holistic spiritual formation that will serve them in college and beyond.

Credits: 3

CORE 3113 - WORLDVIEW AND COMPLEX PROBLEMS SEMINAR

The Worldview and Complex Problems Seminar brings Christian worldview and modes of inquiry to bear on a contemporary problem in the world today. Offered topically, students will practice intellectual flexibility for application at the university and beyond. Students will engage in thought leadership and public discourse as they work together in approaching today's toughest issues from a Christian worldview using modes of inquiry offered through the disciplines of math, science, rhetoric, history, art, culture, social sciences, and theology. Topics vary by section.

Prerequisites & Notes

Prerequisite:

CORE 1112 or Junior Standing

Credits: 3

Habits of Inquiry - 22 Credit Hours

Discursive Inquiry - 6 Credit Hours

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

Natural-Scientific Inquiry - Select One with Lab:

NSCI 1044 - NUTRITION SCIENCE

This online course provides an overview of nutrition including nutrients, digestion and transport, different nutrition needs as related to life cycle, and how certain disease states affect nutrition status. Also included is interpretation of current USDA nutritional guidelines, and application of nutrition knowledge in the establishment of eating habits.

Prerequisites & Notes

NULL

Credits: 4

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Quantitative Inquiry - Select One:

MATH 1313 - TOPICS IN MATHEMATICS

This is a discrete mathematics course that demonstrates the beauty and utility of mathematics. The topics for this course are set theory, logic, financial mathematics, probability, elementary graph theory and voting theory.

Prerequisites & Notes

NULL

Credits: 3

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

MATH 2023 - INTRODUCTION TO PROBABILITY AND STATISTICS

This course is an introduction to the concepts and methods of probability and statistics. The course is designed for students interested in the application of probability and statistics in business and other social sciences. Topics include descriptive statistics, probability theory, random variables and probability distributions, sampling distributions, estimating population parameters, testing hypothesis about population parameters, correlation and regression, and analysis of variances.

Prerequisites & Notes

NULL

Credits: 3

Socio-Historical Inquiry- Select Two:

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Creative-Aesthetic Inquiry - Select One:

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

COMM 2433 - FILM APPRECIATION

This course is a survey of the historical, social/cultural, political, technical, and stylistic dimensions of film. Students will view and critically respond to films from a variety of periods and genres.

Prerequisites & Notes

None

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Major Core - 36 Credit Hours

Organizational Leadership Core - 30 Credit Hours

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 3183 - ORGANIZATIONAL THEORY & BEHAVIOR

This course is a study of behavioral science theory and practice exploring management, leadership, motivation, group dynamics, relations and organizational systems. Topics will concentrate on applying organizational resources for optimal efficiency.

Prerequisites & Notes

None

Credits: 3

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

BBUS 3013 - DESIGN THINKING FOR ENTREPRENEURS

This course provides an overview of the design thinking process and tools useful for business innovation. Emphasis is on developing an iterative approach to problem solving and explores a variety of design-based methodologies and tools. Students create a project for critique among their peers for business viability.

Prerequisites & Notes

None

Credits: 3

Communication Elective - Select One (1) of the Following (3 Credits):

BBUS 2123 - BUSINESS COMMUNICATION

This course will study effective communication in a professional environment. The course prepares students to create effective letters, reports, electronic and other forms of business writing and presentations.

Prerequisites & Notes

ENGL 1113

Credits: 3

Ethics Elective - Select One (1) of the Following (3 Credits):

BBUS 4113 - BUSINESS ETHICS

This course considers legal, societal and Judeo-Christian principles as applied to ethical business decisions. Discussion of topical areas within all spheres of organizational culture, responsibilities and applied biblical moral thinking.

Prerequisites & Notes

BBUS 2123

Credits: 3

COMM 2733 - COMMUNICATION ETHICS

This course explores the benefits and difficulties associated with practicing ethics in human communication. Exploring practical issues through case studies and current events, this course will equip students to manage ethical dilemmas with an approach grounded in biblical principles and sound ethical theory.

Prerequisites & Notes

None

Credits: 3

Major Electives - Select Two (2) of the Following (6 Credits):

Electives are any courses that do not satisfy any specific course requirements of your program and which you have not previously taken.

BBUS 3143 - PROJECT MANAGEMENT

This course is an introduction to project management and provides an overview of the contents of the Project Management Institute (PMI®) Project Management Body of Knowledge (PMBOK®). The course provides focus on business analysis functions as they relate to the development of information technology solutions that meet specific business needs.

Prerequisites & Notes

BBUS 3203

Credits: 3

BBUS 3203 - ESSENTIALS OF MANAGEMENT

This survey course introduces the theories of management and emphasizes the basic management functions of planning, organizing, leading, and controlling organizations. The course emphasizes the functions of management with appropriate quantitative and behavioral concepts and encourages students to develop a set of professional ethics from a Christian world-view.

Prerequisites & Notes

BBUS 2103

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

HIST 2133 - CRITICAL ISSUES IN WORLD HISTORY

A survey of the political, social, economic, military, and cultural developments in civilizations throughout world history. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

LDRS 3033 - LEADERSHIP & HUMAN DIVERSITY

This course examines the complex nature of leadership, culture and personal identity, explores populations at-risk, and encourages students to understand and appreciate diversity. Specific knowledge of leadership as it relates to individual cultures, awareness of the patterns of oppression experienced by those cultures, and skills relevant to developing a culturally competent approach to working with diverse people groups are addressed.

Prerequisites & Notes

None

Credits: 3

LDRS 4103 - LEADING ORGANIZATIONAL CHANGE

This course prepares learners to better comprehend the hyper-turbulent environment of the 21st century by introducing behavioral science techniques and methodologies to systematically bring about high-performing organizations.

Prerequisites & Notes

None

Credits: 3

PMIN 3113 - LEADING TEAM-DRIVEN ORGANIZATIONS

This course is a study of team-leadership in the local church and other ministry contexts. The course examines leadership theories from a variety of perspectives that can be applied to teams composed of paid staff and/or volunteers.

Prerequisites & Notes

NULL

Credits: 3

PSYC 1133 - INTRODUCTION TO PSYCHOLOGY

This course is an introduction to the field of psychology. Topics addressed are neuroscience and behavior, nature and nurture, consciousness, sensation and perception, learning, memory, intelligence, personality, psychological disorders, and social behavior.

Prerequisites & Notes

NULL

Credits: 3

PSYC 2033 - INDUSTRIAL & ORGANIZATIONAL PSYC

This course includes an application of psychological principles to industry, business, and other organizations. Topics include organization of work, selection, training, motivation, job satisfaction, supervision, and decision-making.

Prerequisites & Notes

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Divine Design - 50 Credit Hours

To meet the Divine Design requirement, students may earn credit hours in general elective courses, declared minors/certificates, or enjoy other experiential learning opportunities such as study abroad, internships, or practicums. Other practicum options include PRAC 1001 (1 credit hour), PRAC 1002 (2 credit hours), PRAC 1003 (3 credit hours), PRAC 1004 (4 credit hours), and PMIN 2303 (3 credit hours) up to a total of 24 credit hours. General Electives are any college-level course that does not satisfy the above program requirements. Students must complete the above program requirements with the remaining credit hours earned in the Divine Design to meet the total program hours.

Additional State Requirements for Online or Partner Site Students

*Note: Students taking courses online/at an SEU partner site outside of the State of Florida may be subject to additional Foundational Core requirements for degree completion. Some of these requirements are built into your Foundational Core listed above. Any of the requirements listed below that are not incorporated into the Foundational Core will count

towards your Divine Design hours. State-specific requirements are also specified in the SEU Catalog. Please see your Degree Audit in JICS and work with your Academic Advisor to ensure these requirements are met.

Alabama

Area I, Written Composition - 6 Credit Hours

ENGL 2113 - PROFESSIONAL COMMUNICATION

Professional communication introduces students to communication found in real-world settings with an emphasis on clarity, organization, format, language, and audience, for both written and oral assignments.

Credits: 3

ENGL 1113 - COLLEGE COMPOSITION

This course covers the key skills and practices required for effective written communication at the college level. Students will build research and writing skills necessary to engage with critical issues, develop well-grounded arguments, and prepare students for future academic success.

Credits: 3

Area II, Humanities and Fine Arts - 12 Credit Hours

NULL

Credits: 3

SSCI 2133 - INTRODUCTION TO SOCIOLOGY

This course is a study of social organization with a focus on organizations, institutions, and social forces that contribute to the formation and self-definition of a society. The development of social norms, culture, belief systems, and stratification are considered. Emphasis is placed on exploring the existence and perpetuation of social problems.

Prerequisites & Notes

NULL

Credits: 3

Montana

Montana requires 6 credit hours of natural science with a laboratory experience. Students may choose to take BIOL 1334 to complete the requirement or any other science course to meet the credit hour requirement.

BIOL 1334 - ESSENTIALS OF HUMAN A&P

This course is a study of the structure, formation, and function of the eleven human body systems. Includes lab.

Prerequisites & Notes

NULL

Credits: 4

Nevada

3 credit hours needed. The Socio-Historical requirement must be fulfilled by taking PPOL 2433 or by earning credit for one of the following combinations of classes from an accredited Nevada college: 1) HIST 100, 2) PCS 101, 3) HIST 101 and HIST 102, or 4) HIST 101 and 217.

Ohio

Ohio students need an additional two credit hours in one or more of the following areas: Oral and Written Communication, Mathematics, Statistics and Logic, Arts, Humanities, Culture and Diversity, Natural Sciences, Technology and Innovation.

MATH 1213 - COLLEGE ALGEBRA

In this course a systematic development of fundamental algebraic operations is stressed. Included in this development are systems of linear equations and inequalities; linear, quadratic, exponential and logarithmic functions; absolute value

equations; radicals; conic sections.

Prerequisites & Notes

None

Credits: 3

* if not already taken or 2 more credits to get to 36 hours

Oklahoma

In addition to the courses listed below, Oklahoma students need an additional 7 credit hours in one or more of the following: History, Social Science, Behavioral Science, Humanities, Math, Natural Science, Language, or Fine Arts.

PPOL 2413 - UNITED STATES GOVERNMENT

This course is an examination of American politics: the constitutional basis, organization, and function of our government.

Prerequisites & Notes

NULL

Credits: 3

HIST 2123 - CRITICAL ISSUES IN AMERICAN HISTORY

A survey of the political, social, economic, military, and cultural developments in America. Learn the elements of the study of history: the critical reading of sources, research skills, and differing historical methodologies.

Credits: 3

Select One:

Choose one not already chosen for Foundational Core

MUSC 1003 - MUSIC APPRECIATION

This course is designed to be an introduction to music: its history, sounds, forms, styles, dynamics, and beauty. Music from the Medieval period (450) through contemporary styles such as Jazz, Rock, and Non-Western Music is included.

Prerequisites & Notes

NULL

Credits: 3

HUMS 2233 - INTRODUCTION TO HUMANITIES

This is an integrated course designed to increase the student's understanding and appreciation of the creative and expressive arts through the study of representative materials.

Prerequisites & Notes

NULL

Credits: 3

ARTV 2023 - PHOTOGRAPHY

This is an introductory course to photography. Students learn how to properly compose, light, and focus on various subjects. Topics include digital photography techniques, photojournalism, photography ethics, as well as portrait, landscape, and event photography.

* Do not register for this course if you have taken DCOM 2023

Prerequisites & Notes

None

Credits: 3

ENGL 2133 - INTRODUCTION TO LITERATURE

A course to introduce in-depth study of the poetry, fiction, and drama of American, English, and world literature.

Credits: 3

Certificate, Organizational Leadership (Partner)

The Certificate in Organizational Leadership provides students with communication, motivation, and teamwork skills in working with people. It is perfect in for-profit, non-profit, government, military, and ministry.

Total Program Hours: 9 Credit Hours

Certificate Core - 6 (Six) Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

Ethics: Select One (1) of the Following (3 Credits):

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Minor, Aviation Operations (Partner)

Total of 18 Credit Hours

AVIM 1003 - INTRODUCTION TO AVIATION TRANSPORTATION

This course introduces students to the aviation industry, its history, available career paths, major challenges, key private and governmental agencies, and the introductory skills and knowledge necessary to succeed within the industry.

Prerequisites & Notes

None

Credits: 3

AVIM 3003 - US & GLOBAL AVIATION OPERATIONS

This course explores aviation and airline operations in the United States and globally. Attention is given to the Air Traffic Control (ATC) and airspace system for general and corporate aviation, commercial air carriers, and ground and air traffic operations. Other topics include business models and economic factors, aircraft acquisition, supply chain logistics, and operations.

Prerequisites & Notes

None

Credits: 3

AVIM 3203 - AVIATION SAFETY & MANAGEMENT

This course examines general management principles with an emphasis on leadership, safety and accident prevention. Topics include aviation security, Safety Management Systems (SMS), aircraft accidents and investigations, and emergency services.

Prerequisites & Notes

None

Credits: 3

AVIM 3403 - AVIATION REGULATIONS & LAW

This course provides an overview of constitutional law, administrative law, international law, and enforcement actions affecting aviation. While the courses emphasized the regulations impacting private and commercial air operations, consideration is given to aviation business law, the analysis of the aviation regulatory environments and processes, rulemaking, and legislation.

Prerequisites & Notes

None

Credits: 3

BUSI 3203 - PRINCIPLES OF MANAGEMENT

As a survey of administration and management, this course covers the fundamentals of planning, organizing, staffing, leading, and controlling. The course integrates the functions of management with appropriate quantitative and behavioral concepts.

Prerequisites & Notes

BUSI 2123 OR BUSI 2113

Credits: 3

AVIM 4013 - AVIATION PRACTICUM I

This course is an integrative learning experience, where the university partners with an organization to create experiential training in the aviation field. Practicum I provides students service learning opportunities which can include building flight hours or aviation management and operations. Special attention is given to the development of the student's vocational interests and divine design. Completion of this course is equivalent to 120 hours of service-learning engagement in addition to the completion of reflection assignments.

Prerequisites & Notes

None

Credits: 3

Minor, Organizational Leadership (Partner)

Total of 18 Credit Hours

LDRS 2123 - LEADERSHIP PRINCIPLES

This course focuses upon the development and challenges of effective leadership by reviewing historical leaders and the development of various leadership theories. This includes leader traits, skills, and behaviors; models; and other approaches to leadership.

Prerequisites & Notes

None

Credits: 3

LDRS 2223 - LEADERSHIP THEORY

This course focuses upon the development and challenges of effective leadership by reviewing influential writings and speeches, along with various leadership theories and philosophies. This includes adaptive, authentic, authoritarian, cross-cultural, democratic, ethical, Great Man Theory, servant, and transformational leadership, along with women in leadership and followership.

Prerequisites & Notes

None

Credits: 3

LDRS 3003 - CROSS-CULTURAL LEADERSHIP

This course introduces students to the challenges and impact of leadership within a cross-cultural framework. It examines cultural values, practices, and patterns of communication that exist within various cultures with an emphasis on cultural intelligence.

Prerequisites & Notes

None

Credits: 3

LDRS 3143 - LEADERSHIP, FOLLOWERSHIP, TEAMWORK

This course investigates effective leadership. It explores the concept of followership. A psychodynamic approach is used to further consider effective teamwork and the leader-follower dynamic.

Prerequisites & Notes

None

Credits: 3

LDRS 4113 - SERVANT LEADERSHIP PHILOSOPHY

This course provides a broad overview of servant leadership principles, models, and philosophies. Students review theories and definitions of leadership connecting theory to practice. This course emphasizes the importance of self-discipline, humility, the art of being contemplative, and helping others grow.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

LDRS 4123 - MIRROR OF PRINCES

This course takes the Mirror of Princes approach to study leadership. It explores a leader's character and effectiveness, utilizing ancient texts. It examines the historical impact of some of the world's greatest leaders from various backgrounds including business, community organizations, government, humanities, military, and religion.

Prerequisites & Notes

LDRS 2123 and LDRS 2223

Credits: 3

Certificate, Back-End Development (Partner)

Total Program Hours - 12 Credit Hours

SDEV 1103 - BACK-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Back-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of back-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the

benefits of UI frameworks. The course also introduces the basics of Python and object-oriented programming. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2103 - BACK-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Back-End Developer Professional Certificate. It extends the learner's comprehension of crucial tools and principles fundamental to back-end web development. The course instructs on implementing version control systems, ensuring effective code revision management. Students learn to navigate and configure projects using the command line and the creation and utilization of GitHub repositories. An essential part of the curriculum involves databases; students will identify the principles underpinning their operation and apply this knowledge to design, plan, and implement a straightforward database development project. The course is a vital step for individuals seeking to enhance their back-end development capabilities. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1103

Credits: 3

SDEV 3103 - BACK-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an advanced course that immerses learners in the intricate world of back-end development. Participants will build a functional web server and apply data modeling concepts essential to web development. A significant portion of the curriculum is dedicated to APIs, covering their development, usage, and the principles of REST architecture. Students will demonstrate their comprehension of these principles by constructing a basic API. This course is indispensable for individuals aiming to become proficient back-end developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 2103

Credits: 3

SDEV 4103 - BACK-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Back-End Developer Professional Certificate. It is an intensive course designed to consolidate and advance your back-end development skills. Learners will develop a fully-functioning Django application that uses both front-end and back-end technologies. Practical application includes setting up a suitable Django development environment and creating a Django web server with multiple API endpoints. Additionally, the course offers strategic preparation for coding interviews, covering common formats and questions. With a focus on problem-solving, participants will apply coding skills to tackle complex, real-world challenges. This capstone course is the ultimate step for those aiming for mastery in back-end development. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 3103

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Cybersecurity (Partner)

Total Program Hours - 12 Credit Hours

CSEC 1003 - FOUNDATIONS OF CYBERSECURITY

This course is the first of four courses that count toward the Google Cybersecurity Professional Certificate. It equips students with the core skills necessary for a cybersecurity analyst role, encompassing both theoretical foundations and practical applications. Students will learn to identify threats, risks, and vulnerabilities impacting business operations while understanding the utilization of security frameworks and SIEM tools for protection. The course emphasizes security ethics and familiarizes students with tools used by cybersecurity professionals. Additionally, students will apply their theoretical knowledge in simulated scenarios, using playbooks to respond to cybersecurity incidents. Finally, the course covers the fundamentals of modern networking technologies and protocols and an overview of the cloud with practical applications and network troubleshooting. Upon completion, students will be prepared to make informed decisions when handling real-world cyber threats, setting the stage for a successful cybersecurity career. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

CSEC 2003 - NETWORK SECURITY AND TOOLS

This course is the second of four courses that count toward the Google Cybersecurity Professional Certificate. It course explores the various types of networks, their components, and the dynamics of data transmission. Students will gain practical skills in securing networks against intrusion tactics and learn system-hardening techniques to enhance security. The course also delves into the interconnectedness of operating systems, applications, and hardware, providing a comprehensive understanding of their roles in network security. It juxtaposes the graphical user interface with the command line interface, encouraging students to navigate and manage files using Linux commands via a shell. An additional component of the course is learning SQL for effective data retrieval from databases. Upon completion, students will be well-equipped with the necessary skills and knowledge to manage and secure network systems professionally.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 1003

Credits: 3

CSEC 3003 - THREAT ANALYSIS AND INCIDENT RESPONSE

This course is the third of four courses that count toward the Google Cybersecurity Professional Certificate. It is designed to equip students with a comprehensive understanding of the methodologies and tools used in modern cybersecurity operations. Students will learn how to classify assets and analyze attack surfaces to identify potential

risks and vulnerabilities, with a particular focus on threats such as social engineering, malware, and web-based exploits. The course also provides a detailed walkthrough of the threat modeling process. Students will gain hands-on experience in incident response, learning to contain, eradicate, and recover from various cybersecurity incidents. Practical exercises involve performing packet analysis to interpret network communications, using IDS and NIDS tools, utilizing queries in SIEM tools for event investigation. Upon completion, students will possess a robust skillset for professional threat analysis and incident response.

Additional fees are associated with this course.

Prerequisites & Notes

CSEC 2003

Credits: 3

CSEC 4003 - AUTOMATED SECURITY AND CAREER SUCCESS

This course is the fourth of four courses that count toward the Google Cybersecurity Professional Certificate. It bridges the gap between technical proficiency and career readiness in the field of cybersecurity. Students will explore the utilization of Python in cybersecurity, including the creation of user-defined functions and the use of regular expressions for text information extraction. The course extends beyond technical competencies to focus on the professional aspects of cybersecurity, instructing on when and how to escalate a security incident effectively. A significant component of the course is dedicated to career development, providing guidance on job hunting in cybersecurity, application processes, and interview preparation. Upon completion, students will not only have enhanced their technical skillset but also be equipped to navigate their cybersecurity career successfully.

Additional fees may be associated with this course.

Credits: 3

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Data Science (Partner)

Total Program Hours - 12 Credit Hours

DATA 1003 - INTRODUCTION TO DATA SCIENCE

This course is the first of four courses that count toward the IBM Data Science Professional Certificate. It is designed to offer a thorough understanding of the field of data science, its relevance in the contemporary data-driven world, and the diverse career paths it offers. The course provides a unique blend of theoretical and practical insights, equipping learners with a solid grasp of data science methodologies, including the application of the Cross-Industry Process for Data Mining (CRISP-DM). Students will familiarize themselves with crucial tools in the data scientist's kit such as Python, R, SQL, Jupyter notebooks, RStudio, and Git. They will also be guided on the selection of suitable analytic models and data sources for their data science projects. By course completion, learners will have a clear understanding of data science, its demand in the 21st-century job market, and guidance from experienced professionals in the field.

Additional fees are associated with this course

Prerequisites & Notes

None

Credits: 3

DATA 2003 - PROGRAMMING FOR DATA SCIENCE

This course is the second of four courses that count toward the IBM Data Science Professional Certificate. It is designed to equip learners with the foundational skills required to harness the power of Python in data science. The course covers Python basics, including data types, expressions, variables, and data structures. Students will apply Python programming logic through loops, functions, objects, and classes. Proficiency in critical Python libraries such as Pandas, Numpy, and Beautiful Soup is fostered. We delve into accessing web data using APIs and web scraping, emulating real-world data science projects. The practical side of this course entails hands-on experiences with Python data structures, data manipulation, and building an interactive dashboard using Pandas, Beautiful Soup, and Plotly in Jupyter Notebook. By the end of the course, students will be well-versed in employing Python for various data science applications.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 1003

Credits: 3

DATA 3003 - DATA ANALYSIS

This course is the third of four courses that count toward the IBM Data Science Professional Certificate. It offers a deep dive into data manipulation and analysis using Python and SQL. Learners will master creating relational databases on the Cloud, working with tables, and constructing various SQL statements. Advanced SQL techniques like views, transactions, stored procedures, and joins will be discussed for constructing complex queries. The course emphasizes the practical application of Python for data cleaning and preparation, with a focus on handling missing values, formatting, normalizing, and binning data. Learners will engage in exploratory data analysis using key libraries such as Pandas, Numpy, and Scipy, developing the skills to manipulate data using dataframes, summarize data, understand data distribution, and create data pipelines. The course culminates in building and evaluating regression models using the machine learning scikit-learn library, preparing learners for real-world predictive analytics and decision-making.

Additional fees are associated with this course.

Prerequisites & Notes

DATA 2003

Credits: 3

DATA 4003 - APPLIED DATA SCIENCE

This course is the fourth of four courses that count toward the IBM Data Science Professional Certificate. It aims to empower learners to effectively implement data visualization techniques and machine learning algorithms using Python. The course explores various plotting libraries alongside advanced visualization concepts and interactive dashboard development. The course emphasizes understanding different types of machine learning algorithms, including their applications and comparative analysis. Students will write Python code to implement classification techniques such as k-nearest neighbors (KNN) and decision trees. By the course's end, students will be adept at creating, evaluating, and optimizing machine learning models for predictive analysis.

Additional fees may be associated with this course.

Recommended: 1-4 additional Credit Hours PRAC 100X Experiential Learning Practicum

Certificate, Front-End Development (Partner)

Total Program Hours - 12 Credit Hours

SDEV 1003 - FRONT-END DEVELOPMENT I

This course is the first of four courses that count toward the Meta Front-End Developer Professional Certificate. It provides an in-depth introduction to the world of web development, focusing on the key responsibilities of front-end developers. Students will learn to create and style webpages using HTML and CSS and gain familiarity with the benefits of UI frameworks. The course also introduces the basics of JavaScript. Additionally, students will learn the importance of writing unit tests using Jest, a popular JavaScript testing framework. The knowledge gained in this course serves as a solid foundation for anyone interested in the field of web development. Additional fees are associated with this course.

Prerequisites & Notes

None

Credits: 3

SDEV 2003 - FRONT-END DEVELOPMENT II

This course is the second of four courses that count toward the Meta Front-End Developer Professional Certificate. It dives deeper into advanced aspects of front-end web development. This course covers practical skills, including version control systems implementation, command-line project navigation and configuration, and the creation and use of GitHub repositories for code management. Students will also learn to create responsive layouts with HTML5 and CSS, building simple forms and mastering the popular UI framework, Bootstrap. The course equips learners with debugging tools to rectify and enhance their coding efficiency. This course further refines and expands skills, fostering more confident and competent developers. Additional fees are associated with this course.

Prerequisites & Notes

SDEV 1003

Credits: 3

SDEV 3003 - FRONT-END FRAMEWORKS

This course is the third of four courses that count toward the Meta Front-End Developer Professional Certificate. This course provides a deep dive into the use of React, a powerful JavaScript library. Participants will learn to leverage reusable components for dynamic data rendering and use props to facilitate data interchange between these components. The curriculum also emphasizes the organization of larger projects to ensure scalability and maintainability. It covers the creation of interactive web pages and user forms, and includes the construction of a complete application. Advanced techniques for creating robust, reusable components and server interactions via APIs are also explored. Students will learn to test applications with the React Testing Library and integrate commonly used libraries to streamline development. The course culminates in the creation of a comprehensive application, encapsulating all learned skills.

Additional fees may be associated with this course.

Prerequisites & Notes

SDEV 2003

Credits: 3

SDEV 4003 - FRONT-END DEVELOPER CAPSTONE

This course is the fourth of four courses that count toward the Meta Front-End Developer Professional Certificate. It navigates the complex process of designing and implementing user-focused web applications. It begins by introducing the fundamentals of User Experience (UX) design, accessibility considerations, and the importance of user empathy, and teaches students how to create wireframes and prototypes in Figma. The course then transitions into practical application, teaching students to design and style a responsive User Interface (UI), produce clean, bug-free code, and use React components to create multiple views. Students will create a complete website front-end using React JS. The course concludes with essential interview preparation, featuring coding problems and specific strategies for interviews at Meta.

Additional fees may be associated with this course.
